HITLER-HENLEN TALKS WILL KEEP SECRET

Sudeten Speakers Repeat Original Demands

FRENCH BORDER ACTION

ALTHOUGH THE BRITISH FOREIGN SECRETARY IS BELIEVED TO BE IN POSSESSION OF THE SUBSTANCE OF THE CONVERSATIONS BETWEEN HERR HITLER AND HERR HENLEN AT BERCHTESGADEN—COMMUNICATED BY HERR HENLEN TO A MEMBER OF LORD RUDIMANN'S MISSION, AND FORWARDED BY HIM TO LONDON—THE ONLY PUBLIC INDICATION OF THE SUDETEN ATTY WEEK IS FOUND IN SPEECHES MADE DURING THE WEEK END. THEIR TONE IS "NO COMPROMISE."

Reports of special troop movements on the German side of the Alsace frontier are again current, and all leave from frontier garrison towns on the French side has been cancelled. Air Force bases have also been stopped. Some French units have been called up, and the Maginot Line is to be fully manned. The French Government says that the measures are "purely precautionary."

London, September 5. Mr. Ashton-Underhill had a meeting with Herr Henlen on Monday night last. It is understood that the situation was again reviewed during the meeting and that Herr Henlen's visit to Herr Hitler. The British Secretary arrived back in London on Sunday and spent a considerable time at the Foreign Office in the afternoon. The British Legation at Prague has been informed of Mr. Ashton-Underhill's impressions of the conversation with Herr Henlen and has commented thereon. It is understood that, together with other developments, the situation is being reviewed in the morning.

Sudeten Demands Repeated
As far as the general public is concerned, the only indication of the attitude of the German Government is provided by a number of speeches made during the past few days at various public occasions. At Aachen, Herr Henlen's speech last night repeated the eight demands which have become famous since the commencement of the year and which have been presented to the Council of the League of Nations at the Chamberlain Point. To them he added the demand that Czechs who had been interned in Sudeten German territory since 1918 must be freed. There is no compromise to be made in these demands which he said were the basis of the German position. He said that the Czechs who had been interned in Sudeten German territory since 1918 must be freed. There is no compromise to be made in these demands which he said were the basis of the German position.

The Sudeten, he said, was not a good alone. He said that the Czechs who had been interned in Sudeten German territory since 1918 must be freed. There is no compromise to be made in these demands which he said were the basis of the German position.

"Lindbergh" Near Gibraltar
H.M.S. Hood, H.M.S. Endeavour, three destroyers and a submarine, are due to arrive at Gibraltar about 10 p.m. It is understood that H.M.S. Hood is apparently a "false alarm" and it is thought desirable to have the "Lindbergh" near Gibraltar in view of "certain intelligence" in Madrid.

The destroyers will be engaged in a "drill" in connection with the Navy anti-air warfare—(Continued)

Wood Cheap Paint

It looks so pretty but the woodwork is in a very bad state and the walls are so shabby.
How often do you hear that remark made when your friends are thinking of buying a property—could talk less.

This was answered if you only will realize that the way to calculate paint cost is per annum, not per gallon.

When you are reckoning the cost of paint remember that cheap paint will not last long.

THE LAST OF THE CLASSICS

An Analysis of Chances In The St. Leger Stakes

By Improving and even if he fails to win he will be worth remembering for a future event.

It is the opinion of many experts that the 1932 St. Leger Stakes will be one of the most interesting races of the year.

There is a very strong chance of a change in the position of the race, as the 1931 St. Leger was won by a colt which was not expected to win.

It is believed that the 1932 St. Leger will be a very interesting race, and that there will be a change in the position of the race.

HINTS FOR UMPIRES

Interpreting The Off-Side Rule

By JULY

The 1932 playing rules have not yet been received, but no dramatic changes are expected. One of the number of alterations were suggested last season.

Several football umpires are hoping that regulations will be passed more strictly than in past years, so that the ball will not be so often out of play.

The 1932 playing rules have not yet been received, but no dramatic changes are expected. One of the number of alterations were suggested last season.

THE OFF-SIDE Rule

I have been requested by several correspondents to give a full interpretation of the off-side rule, but complete details would occupy far too much space. But the main points are as follows:

(1) A player is off-side if he is in the opponent's half when he receives the ball from a teammate.

(2) The off-side rule applies to all players on the field, except the goalkeeper and the player who has kicked the ball.

(3) A player is not off-side if he is in the opponent's half and is only there to receive the ball from a teammate who is in the half of his own team.

(4) A player is not off-side if he is in the opponent's half and is only there to receive the ball from a teammate who is in the half of his own team.

Secretary On "FRANK TALKS WITH PREMIER"

LONDON, September 1. Sir Walter Clinch, General Secretary of the Trades Union Congress and Chairman of the Defence Rearing Committee, said that the Prime Minister was very frank and gave them full details of the defence of Britain's resources. Sir Clinch said that the strength of these resources which would probably be Britain's ally in the event of war and made it very clear to them from which quarter aggression was likely to come.

The Secretary said that the Council had been informed that the Government that it would be the height of folly to suggest that there could be any possibility of a "frank" talk with the Premier in an attempt to rework the arrangements programme. Any suggestion that the Government was likely to discuss the details of its policy with the Premier would be regarded as a political error.

Feeling DULL and LOGY?
WHY DON'T YOU TAKE **Sal Hepatica?**

Chances are you feel lousy because your liver is clogged with poisons in the system and you are not getting the most out of life. Almost always there are two causes for this. One is a clogged liver and the other is a clogged stomach. Both can be cured.

This is why you should take **Sal Hepatica** today. It is the only medicine that cleanses the liver and stomach and restores the system to normal.

MEALYBUG PARASITES

Method of Liberation

The following is published in a pamphlet issued by the National Institute of Entomology, Washington, D.C., and is available in Great Britain from the Royal Entomological Society, London, W.C.2.

It should be made clear that the word "parasite" in the title of this pamphlet is not used in the ordinary sense of the word, but to denote a parasite which feeds on the body of another insect and causes its death.

These parasites have been used in the United States to control the pest of the cotton boll weevil. The parasites were introduced into the United States from Europe in 1910.

It is not necessary to mention the death of the parasites. The parasites were introduced into the United States from Europe in 1910.

A MODERN HOSPITAL

Modern equipment representing the latest scientific advances is now being incorporated in the new £200,000 Royal Melbourne Hospital. Expected to take three years to complete, it will be the largest single structure ever built in Victoria. Among the modern features will be:

An underground traffic tunnel, with railway type electric trolleys and controlled lights, 300 feet below the surface. Six separate teaching theatres, and a kitchen with an output capacity that of any hotel in Victoria - 3,000 meals a day.

The State Government will guarantee a loan of £200,000 for the building. From special galleries above the theatre students will look down upon the operations performed in the hospital's operating theatre.

Slants on Slimming

The athlete... increases exercises at times.

PROBABLY no one problem is more widely discussed than that of obesity. There are numerous "cures" suggested, most of which contain some good, but they are as a rule more strenuous than the average fat person cares to attempt, or if attempted, persists in.

A well-balanced exercise routine (which makes for restful sleep) is essential for the athlete. It is not enough to exercise, one must also rest. The athlete who exercises but does not rest will find that his muscles are overworked and that his body is unable to recover. The athlete who exercises and rests will find that his muscles are strengthened and that his body is able to recover.

The following diet is suggested, and is not likely to prove harmful to those who follow the principles of health and life restricted and the diet reduced to the minimum. The diet is as far as possible, kept "dry", simple milk, eggs, butter, poultry, fish, and fruit. The diet is not likely to prove satisfactory as far as the reception of fat is concerned.

The Theme Is Feminine

THIS week I am going to write about models in which the theme and in most cases, the author is feminine. For some obscure reason, people usually scorn a book by a woman author—not, please note, that she is a woman, but that she is a woman (always female) who writes novels.

Only a few of the best books I have ever read are by women. I have written a number of books, but I have not written a novel. I have written a number of books, but I have not written a novel. I have written a number of books, but I have not written a novel.

PLAYING with one man

shortly afterwards, Britain won
a thrilling game against Eastern

one try and one penalty (six

The game was thrilling in the

sides were making desperate efforts

The British half-back problem
seems to have been solved by the
return of one Reynolds, but the
three-quarter still present a
serious difficulty.
The main factor for British were
Trent (to lead half), an uncon-
quered try, and Taylor (to second
half), a penalty.

Victor scored for Eastern Pro-
vince late in the game, thus com-
pensating the try.

THE ROLE OF FRANCE IN EUROPE

By **Pierre-Etienne Flandin**
Formerly Prime Minister of France

It has always taken up a definite position in international policy and in French internal policy in favour of a programme of conciliation and of negotiation with a view to the pacification of the tension in Europe.

From in fact completely complete in 1914, France has continued to live in an atmosphere which is approximating more and more to progress and more to democracy. Both the people and their governments have stated where twenty years ago that terrible bloodshed which destroyed the bodies of the old continent and degraded its authority and its prestige.

The material masses—decide in my opinion—are the balance of the forces of the great powers is visible in the evolution of the vast mass of these powers appears to be stable. There was no more reason to exist than to divide the evidence of Franco-British events. This is the first step in the consolidation of the Franco-British group, is not of least account to that of the group.

From this point of view, it may be useful to discuss a legend which has been constructed to give an account of what the French policy has been since the beginning of this century. This is definitely wrong. The French Republic is not a mere instrument of 40,000,000 people at the disposal of a few hundred millionaires. The French Republic is the result of a long and arduous struggle.

At this point at which armaments are being multiplied there will be no contingency in which all nations will be equally involved. The technical background of these States is such that the economic and technical machinery of the world is in a position to produce a sufficient quantity of armaments to meet the needs of the world.

It is very remarkable that no attention has even been paid by Anglo-American to the ancient history of the Mediterranean centuries in the tropical forests on the coast of the Kenya Protectorate.

It is very remarkable that no attention has even been paid by Anglo-American to the ancient history of the Mediterranean centuries in the tropical forests on the coast of the Kenya Protectorate.

It is very remarkable that no attention has even been paid by Anglo-American to the ancient history of the Mediterranean centuries in the tropical forests on the coast of the Kenya Protectorate.

For 1938, the expenditure estimates are still high.

Although, on the high seas, the French navy holds the principal role in the Franco-British complex, it is not a ground for believing that the French navy has failed to perform its task as guardian of the peace. The restoration of the French fleet has been a continuous process since 1922. It is in fact the most important of the modern armaments programme.

Thus, if certain powers thought that they could force France, behind an armaments race, or intimidate her by an alleged superiority of military preparation and conduct, they would be committing a serious error. And those who were privileged to attend the magnificent visit of King George VI to France in 1937, are well aware of the technical demonstration at Verdun, on the occasion of the visit of H.M. King George VI to France.

It is not only the French Republic which has a right to be considered as a great power, but also the British Empire. The French Republic and the British Empire are the two great powers of the world.

All things being said, if we were to make a forecast of the future of the world, we should say that the French Republic and the British Empire are the two great powers of the world.

It is not only the French Republic which has a right to be considered as a great power, but also the British Empire. The French Republic and the British Empire are the two great powers of the world.

South Africa — Last Week

A letter from the Union

"I think it is quite clear that if Great Britain, which is the custodian of our independence, is in a danger or is attacked, South Africa will go to her assistance" —
GENERAL SMUTS.

THE week's news in South Africa centres around the speeches in Harare and Johannesburg on the subject of the relationship with Great Britain and the rest of the Commonwealth.

After announcing General Smutts' resignation as Premier, General Smutts said: "If Great Britain is involved in a war, it is my duty as Premier of the Union to go to her assistance."

General Smutts has been and remains a staunch supporter of the British Empire. He has repeatedly stated that if Great Britain is in a danger or is attacked, South Africa will go to her assistance.

It is not only the French Republic which has a right to be considered as a great power, but also the British Empire. The French Republic and the British Empire are the two great powers of the world.

Words on the Road...
A New Game for Motorists at Home

by Douglas Compton James.

ENGLAND has abolished the "back-seat driver" by the simple act of increasing the number of letters on a car's license plate from two to three, the value of the back-seat driver has been stifled throughout the land.

In the old days of two-letter license plates it was possible to drive from London to London in a car without stopping once. On an O.V. or S.V. you might pass before the gates of the motorist's home before the gates of the motorist's home before the gates of the motorist's home...

Nowadays it is a well-known fact that a car with a two-letter license plate is a car with a back-seat driver. The car with a three-letter license plate is a car without a back-seat driver.

Flying Battleships For Singapore

COUNTRYMEN of the Royal Navy, "Battleships" will be permitted for four of the five proposed "Battleships" for Singapore. The battleships will be flying battleships, not battleships in the ordinary sense of the word.

The motorist who is a back-seat driver is a back-seat driver. The motorist who is a front-seat driver is a front-seat driver. The motorist who is a side-seat driver is a side-seat driver.
