## The Lady Northey Home

(By Elyon Hirst)

There is no doubt that excellent work is being done at the Lady Northey Home in Nairobi, not only for the maintenance but also for the care of nursing patients, babies, and children up to the age of six, but most of all, I think, in the training of young girls in needlework and Child Welfare.

From a visit to the Home recently, I gather to use of the greatest benefit to the girls, and that the work is done in such a way that the girls are not only learning to sew, but also to do other things which are of great value to them. The girls are taught to sew, to knit, to make up clothes, and to do other things which are of great value to them. ## ONE THOUSAND MILES TO BROADCAST

### Africans Speak To Madagascar

(From a correspondence)  
African civilians from Kenya, Tanganyika and Uganda came to Nairobi recently at the invitation of the Army to broadcast messages to Madagascar.  
They came from such locations as Arusi, Galla, Kilimanjaro, Meru, Marathi and East Kenya, Malindi and even from Tabora in the interior. For the last few days, a party of over a thousand miles. The former took the road, and the latter a Chief-led to travel an immense road by sea, and to sail again. The men from Malindi and even the Army weather had to make use of road, rail and steamer, although the distance had to be traversed was not quite as great as a mere 200 miles.  
A number of Africans came from Malindi and the broadcast was held in the afternoon. The broadcast was held in the afternoon. The broadcast was held in the afternoon.

Here are Seven Reasons why you should join The Kenya Farmers' Association (Co-op) Ltd.

- (1) The fundamental principle of the Association is to get the best price for every kind of produce grown by its Members throughout Kenya.
- (2) The K.F.A. is the property of, controlled and directed by, the Kenya farmers who are Members of the Association.
- (3) The Members share in all the activities of the Association which is founded on co-operation.
- (4) Directors are appointed on a regional basis. Thus the farming activities of every part of Kenya are closely looked after and Members can always keep in touch with their regional Director.
- (5) Supplies of farming necessities are purchased by the K.F.A. and kept in stock for purchase by Members. The Trading Department is used for the benefit of Members who all share in the profits.
- (6) As selling agents for the Pyrethrum, Passion Fruit, Wheat and Flax Boards, Members benefit fully from all earnings made from these agencies.

## Closer Settlement

These papers were recently read on this subject by the Progress Committee. They have been condensed into the following article.

It was pointed out to be arguable whether the "Closer Settlement" should be content to strengthen the position of such men as a general result of the war, or whether it should be so arranged as to benefit the poorer classes of the community.

It is assumed that after the war, the more persons who would wish for a more stable life in the country. A considerable number of European farmers had wished this, but it was not possible to do so until the war was over. It was thought that a certain number of persons should be allowed to settle on the land, and that the Government should be content to strengthen the position of such men as a general result of the war, or whether it should be so arranged as to benefit the poorer classes of the community.

### DE-FLEAING THE DOG

Dogs suffer considerably in this country, from ticks and fleas, to say nothing of the danger to oneself. You can get rid of them quickly and without expense or trouble.

Stretch your dog out comfortably on a table or box (according to the size of the dog). Seat yourself next to him and draw the hair from the two square of the neck with the finger in the first suture and then place it on a flea tick. The insect will give you no trouble, it will be half dead immediately and will be easily removed and placed in the second suture.

The smell of fit will cause the insects to emerge when they can be easily caught and plunged into the lethal chamber in the form of the second suture. A little fit round the dog's neck will cure it of this particularly difficult and dangerous spot. At the same time, you must be careful that no fit gets into the dog's eyes or ears, or, in the case of short-haired dogs, onto the animal's skin.

If this method is employed daily, you will find that the number of ticks and fleas on the dog decreases rapidly.

The method is both simple and quick and a good boy will not take long to pick it up. In addition, he will probably be quite out of the neighbourhood of the job.

The Italian people have apparently agreed to go quietly for the sake of himself and Italy, and his now for a national partnership with Mussolini; he cannot hope for a national partnership with the King of Italy and Badoglio. The break is coming and Germany too, is on the slippery slope. The time has been brought forward by the British Military chiefs also will have to offer up an unwanted Dictator as a burnt offering.

**WIDESPREAD MALNUTRITION IN KENYA**

After a year has elapsed that a certain variety of food available in certain areas is very scarce, it is not surprising that the supply continued shortening. In fact, most of the country during the last year suffered through shortages which are now being regarded as the worst since the war was declared. It is not surprising, therefore, that the Director of Medical Services in Kenya has issued a report which states that malnutrition is widespread in Kenya.

It was lucky, he thought that the malnutrition was not widespread. The Director of Medical Services in Kenya has issued a report which states that malnutrition is widespread in Kenya.

Mr. Haddock: Do you think that the malnutrition is widespread in Kenya? The Director of Medical Services in Kenya has issued a report which states that malnutrition is widespread in Kenya.

**TOO TIRED TO ENJOY A REST?**

How do you feel towards the end of the day—can't get the washing-up done and lack the time to do it? Looking forward to a pleasant evening with the radio? Do you tire into a chair too worn out to enjoy your rest, and do yourself down to the music? You're not! Do you know what it is? It's probably constipation. Filming is not complete as well as recreation. It isn't pleasant getting into the blood, some vague lack of well-being. For this there is a simple, honest prescription—Kruschen's. It is a British institution. The doctor leaves prescribed in this fifty years past, for the analysis on the bottle tells them they could prescribe nothing better, it is again with this medical knowledge. And Kruschen's is the only one with you.
