THERMAL ACTIVITY IN THE RIPT VALLEY:

The Steam Vents Of Ol Longonot

THE Longonot Crater is considered to be the most perfectly preserved of the many extinct volcanic craters of East Africa. It is situated on the eastern slope of the Rift Valley, about 100 miles east of Nairobi, and is a vertical fall of some 1,100 ft. into the crater.

The crater itself is almost perfectly circular with a level bottom of some 10 miles in diameter, and is surrounded by a low rim of the same height. The rim is composed of a dark, granitic material, and is about 100 ft. high. The floor of the crater is a level of about 100 ft. below the rim. which was growing a tangled profusion of bushes, shrubs and small trees. These were in fact a grassy or indeed a scrubby plain. This jungle was almost level with the rim of the crater, and was the very evidence of a succession of terraces, the top of each being at a different level.

The raid was carried out by a large force of Japanese troops, who landed on the coast of Formosa and moved inland towards the capital, Taipei. The Japanese reported that they had captured several important communication centres and had destroyed many buildings.

By the approaches to the rail centre

Major news yesterday from the front in the West. The German army has advanced towards the rail centre of Zhiboin and Mozir. The advance was made in the face of strong resistance from the Russian forces, who were determined to prevent the German from capturing these important strategic points.

High Morale Low

Despite the setbacks in the West, the morale of the Russian forces remains high. The Russian high command has announced that the forces are well equipped and ready for further action. U.S. NAVY DOUBLED

The United States Navy has doubled in size since the outbreak of the Second World War. The fleet now includes a large number of modern warships, including aircraft carriers, battleships, and submarines. The increase in the size of the Navy is a result of the massive expansion of the United States military during the war.

More Details Given
