RIGHTS OF YOUTH

This child must be the first to receive relief in times of distress. The child who grows up in a secure, well-looked after environment, the child most assuredly receiving a training education, will be the child most prepared to meet the needs of the world and will be protected against every form of exploitation.

These words are taken from the Declaration of the Rights of the Child (annexed to the Convention on the Rights of the Child) first proclaimed in 1948. They represent the hopes and belief of forward-looking citizens of all nations. It is a goal which, if it is to be met, and indeed, a goal which is essential to the well-being of the world, must be the result of the concerted efforts of mankind in its advancement and its fulfilment of its responsibilities.

It is a goal which the Government has had in mind, the very purpose of the National Youth Council, the National Youth Service, mainly under the aegis of the Community Development Department - although the latter has since been merged with the private organizations should not be overlooked - may have been placed to realize. It is a goal which the Government, in the form of a policy, signed by a number of prominent persons, and in a report which is intended to be published, is now seeking to achieve. Uhuru for motorists

YESTERDAY a question was asked in this column, what immediate plans exist to relieve the chaos in Delamere Avenue during rush-hour? The answer is that the Government is now expected, for within a few hours a road produced a disaster and a scene which will be remembered for a long time.

NATIONS COMMUNICATE

AT THE MOON

A NEW era in tele-communications is being heralded by the launching of a satellite which has been launched into orbit by the Soviet Union.

The "Echo" is one of three satellites which will be launched by the U.S. and placed in orbit by the Soviet Union. The Echo is a large, spherical satellite, 30 feet in diameter, and is made of a material which reflects radio waves. It is intended to be used for long-distance communication, and is expected to be launched in the next few weeks.

SENSITIVE 'DISH'

The antenna of this great radio-telescope is covered with a fine steel mesh, set in a parabolic dish. It is a very sensitive instrument, and is used for receiving signals from distant stars and planets.

TINY SATELLITE

Britain and other European countries are planning to launch a small satellite into orbit. This satellite is only a few inches in diameter, and is intended to be used for scientific experiments.

ROUNDED BACK

The first-ever moon relayed message was received by High Dryden, the Deputy Administrator of the National Aeronautics and Space Administration, when he spoke from his broadcast line 2,000 miles away from Earth.

VEDESH CINEMA SUPPLEMENT

Latest big-screen films for Thika

By DAVID ALEXANDER

THIKA's first cinema was a 280-seat affair which the Shah Vershi family converted from a warehouse which they no longer needed, nearly 20 years ago.

Recently the Shah family became increasingly aware that Thika youngsters were getting into their cars and driving the 25 bumpy, dangerous miles to Nairobi to go to one of the modern, comfortable cinemas which have been built there.

They decided that a new look for the converted warehouse cinema, the Victory, was not enough, and that something else would do in the expanding town of Thika save a brand new cinema on the most modern lines.

Thika's new 315-seat cinema, the Vedesh, which is to be opened today, rivals its larger Nairobi counterparts in comfort and modern equipment.

The new cinema, the Vedesh, which opens tonight, rivals its larger Nairobi counterparts in comfort and modern equipment. It is being opened in Thika as a courtesy of Shah and Devshi Mr. (P) D. SEATS 315
The new cinema, the Vedesh, which opens tonight, rivals its larger Nairobi counterparts in comfort and modern equipment. It is being opened in Thika as a courtesy of Shah and Devshi Mr. (P) D. Male, who also has taken from the Playhouse and is used for the projection of CinemaScope films — the first that Thika people will have seen in their own town.

The full-size CinemaScope screen and curtains are new. The draped curtains, of state-of-the-art material, are to be extensively reconstructed to allow for the larger screen.

house and stage lights at the touch of a finger. The screen CinemaScope Vista Vision and other wide-screen and conventional films.

The walls and ceiling of the new cinema, have been designed on the latest lines of sound-proofing to cut out the echoes and vibration of sound which sometimes annoyed the more old-fashioned patrons at the old Victory cinema.

And, although the new cinema has no balcony, the auditorium floor slopes much more steeply towards the screen and is designed to avoid the necessity of neck-straining to avoid the heads of the spectators.

Mr. Male said of the new cinema: "It makes a great step forward in the history of entertainment in Thika."

COST £29,000

It has cost the family £29,000. At the cinema entrance there is a small four constructed of plaster and terrazzo. The manager's office and a small cinema shop on the left in the booking office and a show-box in which tickets from the current picture will be displayed.

Leading above the foyer is a staircase to a spacious balcony where the designers have placed the bar, buffet and the opening room.

The old Victory cinema as its first film on the date when there was not much question of choosing a "CinemaScope" film.

The new cinema will open with a CinemaScope epic, *The Winds of Mary Queen of Scots*, starring "Coopey" and "Charles Heston."

The family now make for the cinema in a 3000-sq-ft town which is a busy and well-known place in Kenya. It is home and property in the Colony.

The name Vedesh comes from an amalgam of Vershi Devshi and Shah. Vedesh means in Hindustani "from over there."

The latest amenity for Thika... the Vedesh Cinema. Below, a big-size screen dominates the auditorium.

OPENING BY D.C.

THE Vedesh Cinema is to be opened today by the District Commissioner, Mr. Noel Hardy.

In a message to the Shah family, Mr. Hardy said: "The opening of this new cinema which I have been pleased to open and which as its name implies is the first of that genre in the district and will further the role of the cinema in the district."

Mr. Hardy said that the development and expansion of the cinema industry in the district is a matter of great importance and that the opening of the Vedesh Cinema is a significant step in this direction.

He said that the opening of the cinema will provide a new source of entertainment for the people of Thika and will also provide a new source of employment for the local community.

TWO MEN FOUND A TOWN...

WHEN bearded prospectors who expected to find a Klondike in the green fields of Thika 50 years ago turned their eyes back to the south in despair, with all their treasure gone, a young man from India stepped forward.

The prospectors saw only the well-watered pasture, and though the rich black earth of Thika was there, they were not there when they were not there.

But thanks to the two young men, the prospectors where they were, and they found their gold in the form of nuggets and dust — but the rest of prospectors and the red-dirt-brown gold of coffee beans.

Vershi Devshi Shah and his cousin Devshi Rishi Shah "staked" the gold-hunters by showing them the riches of the land, and in some cases by selling them more. Soon the gold-hunters were being mined by others, and the little town of Thika began to grow.

IN MULE-CARTS
But Vershi and Devshi's story began before the birth of the town of Thika.

Vershi was the first to arrive from India, and within the year he wrote to his cousin at home and told him of the new exciting land that was Kenya. They started work, travelling from Thika to the coast and back, often selling the new farmers' produce from house to house.

Soon after the First World War the quantity, helped by a flood from another entrepreneur, and using all their savings, went into business for themselves, opening the first shop in Thika which sold the first agricultural implements.

They were joined by Vershi, his brother-in-law, Mr. Shah and Devshi M. Shah, and the business soon prospered. Vershi Devshi and Company began to grow. It spread to Makeni, Donyo Sabuk, Ritu, Nairobi and elsewhere.

First at a market's place, then at a shop's, and later at the speed of a "Model T" Ford, the business has grown and expanded until today it would be hard to believe that it was the product of two men who came to Thika from India.

Today the Vedesh cinema is a landmark in the town of Thika, and it is a source of pride to the people of Thika and to the people of Kenya.

Nairobi's Shah Vershi Devshi and his brother and son in Britain and Europe in 1947 to have a look at breweries and brewery machinery, and there was the best method of starting a brewery in Kenya.

They came back full of knowledge and interest in coffee, but took into the new enter-

prise. They set down and carried about it and produced detailed plans. The City Brewery began three years later as a public limited company, in 1951 the manufacturing plant at Nairobi and the name of Malde and Co. Ltd. It was modelled in 1948 and the family claim that it is the nearest rival to any other brewery in the K.P.C.U. mill in Nairobi.

The late Mr. Devshi Mena shut eyes after conferring to turn into and for the first power of the City Brewery. They started the first coffee mill in Nairobi in the name of Malde and Co. Ltd. It was modelled in 1948 and the family claim that it is the nearest rival to any other brewery in the K.P.C.U. mill in Nairobi.

HOUSEWORK SCHEDULE TO MAKE 90-HOUR CRITICS BLUSH

By JAME EDWARDS

EVERY housewife must have been glad to see the spirited reply from an irate E housewife to the remark that housework could be compressed into any 12 hours of the vital chores — with but 60 hours, has overlooked one of the most important of them, and that is, plain sweaters who want to know what program you make for cleaning for the day and night, and plain sweaters who want to know what program you make for cleaning for the day and night, and plain sweaters who want to know what program you make for cleaning for the day and night.

MAINLY FOR WOMEN

It is baby wrapped up in a blanket and held in a cradle. Put on dress after children's outdoor clothes. Take entire day for the outfit. Three afternoons a week to mark up the household accounts. One day a week for the laundry. One day a week for the cleaning. One day a week for the shopping. One day a week for the housework.

THE TIMETABLE

6:30 — Wake up. Feed baby. Wash and dress. Get ready for work. 7:30 — Breakfast. 8:00 — Dress. 8:30 — Leave for work. 12:00 — Lunch. 1:00 — Return home. 1:30 — Change clothes. 2:00 — Wash and dress. 3:00 — Prepare dinner. 4:00 — Cook dinner. 5:00 — Eat dinner. 6:00 — Clean up. 7:00 — Wash and dress. 8:00 — Bedtime.

OWN INTERESTS

After the first year of marriage, the husband's own interests become more prominent. He may take up a hobby, or go to school, or travel. The wife's own interests also become more prominent. She may take up a hobby, or go to school, or travel.

TV FAVORITE

Take off your outdoor things. Unwrap baby. Carry baby over to cradle. Put on nightgown. Wash and dress. Get ready for bed. 10:00 — Bedtime.

Tips to save you time around the house

- MAKE a reading stand for your recipe in the kitchen by tacking the recipe holder to the sides of a box and fasten the sides of the box to the main point of the cabinet.
- Use a teaspoon or two of a lemon juice in the water when boiling rice to keep grains separate and white.
- DON'T throw away old coffee grounds. Use for polishing shoes.
- SMALL bits of soap and herbs always used to perfume the linen.
- Use a quart of water in the wash tub to keep the clothes from getting too hot.

PROSPECTS THAT FACE PROPERTY OWNERS

AN increasing number of home owners have faced with the problem of disposing of their property at a fair price. Many of us bought our homes with the expectation that we would have a good return on our investment. However, the market has been so depressed that it is difficult to find a buyer for our property.

**TWO HIGHLIGHTS
OF ROYAL TOUR**

BY ZAFAR MANSOOR

The year 1960 was marked by a general improvement in the various aspects of the life of Pakistan. It may be described as a period characterised by further strengthening of policy measures, consolidation of economic conditions and steady implementation of the different reform schemes introduced by the present Government immediately after their assumption of power (October, 1958).

The key-note of the economic policy was to raise the level of reserves, to secure a favourable position in foreign trade and to curb inflationary trends generated by a continuous increase in money supply since 1955. This objective was realised by expanding the volume of exports and maintaining a reasonable level of reserves which were vital for the industrial development of the country.

**MESSAGE
FOR DAY**

The Commissioner for Pakistan, Mr. K. F. Bhanu, has issued the following message to mark Pakistan Day: "I am glad to be able to share with you the joy and pride of this day. It is a day when we are reminded of the sacrifices of our forefathers and the progress we have made since 1947. It is a day when we are reminded of the challenges ahead of us and the need for unity and cooperation among all Pakistanis. Let us strive to make our country a better and more prosperous one for all its citizens."

As a result of the judicious monetary policy pursued by the government, a notable improvement in the foreign exchange position took place during the past year.

This appreciable rise in the reserves, leading to a substantial increase in foreign exchange reserves, resulted in a marked reduction in foreign exchange requirements.

Besides, in the year 1959-60, according to the report of the National Bank of Pakistan, the national income rose 4.2 per cent.

IMPORT POLICY

With the increased volume of exports effected in the past year, the achievement of a happy equilibrium position in the government was envisaged. This policy of import substitution was encouraged by the government since the January-July 1960 shipping period. A ban on drug and medicine imports under an actual Import Open General Licence.

This policy of import substitution further pursued since the July-December 1960 period. A ban on shipping period was also a complete departure from the previous import ban.

For the first time since the commencement of the Open General Licence in 1952 a major portion of the economy was freed from the rigidity of import controls.

The two principal aims of this policy were to provide adequate raw materials for industrial development and to secure a balance of payments of essential consumer goods.

To attain these objectives, all items had been placed on various Open General Licences.

The licence list for July-December 1960 period (a total of 188 items, as against 200 items on the licence list for the first shipping period) was reduced. Items mentioned as luxuries were eliminated from the licence list.

TRADE HOPES

During 1960 trade delegations from the U.S., U.K., Burma, Iran and Poland visited Pakistan and opened up new avenues of trade.

The Trade Agreement with the U.K., India, and Japan was signed in London during the period under review.

It is expected that the programme of development which has been planned for the long-term projects an Agricultural Development Programme will be completed by the end of the year.

The basic object of this programme is to make an attempt to bring about the economic stability of the country, existing in the way of industrial development and to improve standards of living.

It is also envisaged that modern techniques and new modern techniques and new modern techniques will be used to convert agricultural areas into modern farms and pastures which may be higher.

Agriculture, even in the past, has been the mainstay of the national economy. However, the rate of increase in the population, however, are

**ISLAMABAD IS
IDEAL SITE
FOR CAPITAL**

WHEN the members of the capital commission under the chairmanship of Maj. Gen. Ayub Khan, recommended the transfer of the national capital to Islamabad, they had a number of factors in mind. These factors included the climate and the topography of the area, its suitability from the point of view of defence and its accessibility, the nature and extent of its natural resources.

Water resources and last but not least, its potential as a place of aesthetic charm and appeal. The influence of the environment is the same on an individual as on a group of a nation. That is why great metropolitan towns are built. People are attracted by what they see around them, beautiful buildings, parks and avenues.

**Many more living in
urban areas—fantastic
increase since 1951**

THE phenomenal figures for the population of Pakistan as recorded in the 1961 census have not been disclosed. A mere glance at these figures shows that the population of the principal cities of Pakistan has registered a phenomenal rise. For instance, the population of Karachi rose by 79.4 per cent during the last ten years.

This does not, however, mean that the city dwellers are more affluent or the incidence of births is lower as higher than in the rural areas. Generally, the rapid urban growth is due to an excess of births due to lower deaths in cities and towns.

It is, in all probability, the nature and growth of the urban population is one that is far greater than that of the rural population. Without exception, wherever data was available, the urban population has increased by a large margin over the rural population.

The huge increase in Pakistan's urban population is explained in this article by a census authority. This 20th century industrial population has surpassed all expectations.

The rate of increase in the population of women in the reproductive age was more in the other half of the country.

At the same time, the death rate in the urban areas is lower than that in the rural areas. The higher the death rate, the higher the population may be higher.

The reason for the rise in the urban population, however, are

MAINLY RURAL

The figure has been recorded in the census are all in the present of industrialisation, but the census will reveal an increase in the population of the rural areas. Although Pakistan is still a rural country, it has been found that the rural population is increasing. The term 'rural areas' in the census, however, is defined as any other locality which is not a town or city.

Government enforces the Quranic Law

ORDINANCE TO ENSURE WOMEN'S RIGHTS

THE Government of Pakistan has promulgated the Muslim Family Laws Ordinance, 1961, which is designed to secure to Muslim female citizens of Pakistan the enjoyment of their rights under Quranic Laws. This is sought to be done.

Firstly, by providing measures for the prevention of bigamy, which, as is well-known, is permitted only on the condition that equal justice shall be done to all the wives when a man has more than one wife.

The ordinance does not seek to prevent the taking of more than one wife, but makes provision to ensure that the ordinance is nullified.

THE PENALTIES

One of the provisions is that a person intending to contract a marriage during the subsistence of a previous marriage shall take permission of the Arbitration Council.

If he marries without such permission, the consequences are that he shall pay immediately the entire amount of the dower due to the existing wife or wives, which amount, if not paid, shall be recoverable as arrears of land revenue.

It has been proposed that Union Councils will appoint Allah Registrars who may have a marriage is solemnized by some person other than the Allah Registrar it will be the duty of such person to report the marriage to Allah Registrar.

Failure to report is punishable with simple imprisonment for a term not exceeding three months or a fine up to Rs. 100, or both.

Fourthly, the ordinance raises the age of marriage in the case of girls from 12 to 14 years, and provides for the child marriage. The age of marriage for girls is raised to 14 years and for the purpose of fixing the age of marriage, the age of the girl is to be ascertained by the Arbitration Council on the basis of the respect that is to be given to the child.

Lastly, the ordinance makes provision to ensure that the children of a pre-nuptial man or childless man, the right of inheritance as transmitted by the Family Law Commission.

One of the Pakistan Government's aims is to ensure women's rights under the Quranic Law.

able with simple imprisonment for a term not exceeding three months or a fine up to Rs. 100, or both.

to the existing wife or wives shall be entitled to use the husband's name in connection with marriage on the ground that he has taken additional wives without permission.

Secondly, one of the principal objects of the Muslim Law of Divorce is that whenever differences arise between husband and wife, an attempt should be made by near relatives and others to bring about good relations between them to prevent final separation.

The Ordinance does not

also away the need of divorce, but lays down a procedure for regulating the exercise of that right so that this procedure is effectively applied and clarifies the position regarding remarriage between the divorced parties.

The provision, mainly, are that the divorced wife is to be provided with maintenance during the period of iddah, which ever is longer.

During this period, a suit for maintenance will be open to the husband, apart from the Arbitration Council, to revoke the divorce.

THIRD TIME

Even if the divorce becomes effective three months he can get re-married.

It will be noticed that despite the fact that the Arbitration Council is a very important and unique unit which will be set up for the purpose of effecting the reconciliation as envisaged by the Holy Quran.

Failure to report the marriage has been made punishable with simple imprisonment for a term not exceeding three months or a fine up to Rs. 100, or both.

Finally, the ordinance provides for the registration of marriages in so far as possible and without putting the parties to any great inconvenience or expense.

The benefits arising out of this are obvious and can easily be imagined.

It has been proposed that Union Councils will appoint Allah Registrars who may have a marriage is solemnized by some person other than the Allah Registrar it will be the duty of such person to report the marriage to Allah Registrar.

One wing of the country was completed during 1966 and 1967 and the other wing is being completed in 1968.

The Food and Agricultural Commission submitted an interim report on several important aspects of agriculture including water and irrigation, soil fertility, agricultural development institutions, the Central Board of Water and Power and the re-organisation of the Agriculture Ministry.

FOOD SITUATION

The food policy of the Government continued to aim at making the country self-sufficient in food and keeping the level of foodgrains at a 'subsistence' level throughout the year.

The Government has set a target of 10 per cent increase in food production during 1968 over 1967.

The year 1969 saw the completion of the second five-year plan which began on July 1, 1966 and the start of the third five-year plan (1969-73).

Roadways must not rival railways

TRAFFIC LICENSING INQUIRY'S VIEW

By the view of the committee of inquiry into the Government's proposed 1952 Transport Licensing Ordinance, the Transport Licensing Officer, Mr. J. J. O'Connell, said that this should be the case of the railway service costs more. It makes the provision that a differential tariff should not be made to the detriment of the more highly developed railway service.

The committee consisting of Mr. C. B. M'Lean, Mr. J. J. O'Connell, Mr. F. T. Holden and Mr. Wanyutu advised a general policy of protecting the railway by the creation of different tariff, if it is found that goods vehicle licenses should be expected to prevent the carriage of goods parallel with the railway for distances of more than 30 miles.

Exceptions to this policy are recommended in the case of transport of perishables, where the transport of the goods in Kenya, and in the case of the rail route and in the case of the transport of goods in the country.

Mr. O'Connell said that the committee believes the most important factor in the licensing of goods vehicles is the competence of the driver and the authority to aim at public safety and the protection of the goods.

DELAMERE AVENUE AS CENTRAL CAR-PARK

Officials comment on Nairobi traffic plan

AN "East African Standard" reader's plan to solve the traffic problems in the centre of Nairobi—by redesigning Delamere Avenue as a central parking area—is contained on yesterday by the R.E.A.V. and the Traffic Police.

The City Engineer, Mr. Norman Cooper, reserved an immediate comment, but refused to give his views on the East African Standard during the next few days on suggestions and special aspects of the problem which had been put forward. He agreed, however, that traffic density in the city was increasing.

Mr. Cooper gave details of the proposed traffic plan, which would involve a system of one-way traffic on Delamere Avenue, and a system of one-way traffic on the other side of the road.

Grey wins Lincolnshire Handicap after 22 years

BADLY DRA BUT JOHN'S COURT DOES

Three-length victory in field of 37

JOHN'S COURT, a grey six-year-old from Lincolnshire, won the Lincolnshire Handicap, his 15th handicap, at Lincoln yesterday.

The apprentice jockey, Brian Lee, brought the grey to go and, striding out beautifully, won comfortably by three lengths. He was ridden by a 10-st-12 near the rails. Only four horses with such a low number of handicaps were placed since the war over the tricky dogleg mile.

OUTSIDER SECOND

Second was the 33-40 outsider, Honeycomb from County Durham, whose trainer, Arthur Stephenson, is hoping to win the Grand National on Saturday with O'Malley Point.

This lightly weighted six-year-old, well drawn in 26th, took just before the heavily-backed four-year-old, Honeycomb, by three-quarters of a length for second place. Honeycomb, one of the anti-pop favorites, went out to 20-1 in the betting when drawn No. 10 in the worst place in the field.

Ridden by Douglas Smith, the son of Honeycomb's maker, the 10-year-old made some progress in the last furlong, but he was not able to catch the leader.

REBEL VADERS STRIKE INTO LAOS

Questions in Commons on U.K. troops

LAOS yesterday claimed a "massive new intervention" by Communist North Vietnamese troops in the Laos civil war.

An official communique said nine Vietnamese battalions were now fighting in Laos. Government forces had succeeded in holding of several assaults while inflicting heavy losses on the enemy.

Party rebels were killed in a Government counter-attack on the road from Vientiane to the Royal capital of Luang Prabang. The rebels had been forced to withdraw southwards to the vicinity of Sala Pao, Kham, where the road branches eastwards to the Plain of Jars.

Referring to political questions the communique said that the Laotian Cabinet "decided to pursue a policy of true neutrality and maintain close relations with the Governments of countries concerned with peace in Laos."

The Government forces have advanced the town of Kham Keut, 70 miles east of the Thai border, according to reports reaching Vientiane.

Official communique said nine Communist battalions were now fighting in Laos. The North Vietnamese battalions were now attacking Kham Keut.

In London yesterday the Foreign Secretary, Lord Home, said that the British Government was not taking part in the Laos civil war.

ITALIAN GROUP INTERESTED Multi-million loan offer may be made soon

Standard Staff Reporter, London.

SEVERAL million pounds may be offered to the Kenya Government as a loan from an international financial consortium which has its headquarters in Rome.

The loan is believed to be connected with the visits made to Rome by the Minister for Agriculture, Mr. McKenzie, during his trip to London. Mr. McKenzie and other members of the Government had talks with a representative of the consortium at the Kenya Office before leaving for America.

Officials at the Colonial Office said that the consortium is still to be set up.

HOPES OF CAR ASSEMBLY PLANT DISMISSED

There is little hope of setting up plant to assemble motor cars in East Africa, Mr. Dick, chairman and managing director of Standard-Triumph Interiors, Mr. A. S. It would certainly be economic to do so at present. But there seemed to be no reason why commercial or semi-commercial vehicles, which did not require so high a standard of finish should not be assembled, and his company would look into this possibility.

RAND AT CLOSING

Mr. Dick said he did not see any reason why commercial or semi-commercial vehicles, which did not require so high a standard of finish should not be assembled, and his company would look into this possibility.

ADVERSE TRENDS HALT CITY

STOCKMARKETS in London yesterday were quieter and cautious under the influence of several adverse factors.

Settlement was affected by uncertainty concerning the Laos situation on Wall Street, and buying was restricted to some extent by the large sums of money which had been raised.

Gold shares were quiet and recovered very little change but Copper showed renewed firmness.

Science Shrinks Piles New Way Without Surgery

Finest Healing Substance That Relieves Pain Stops Bleeding as it Shrinks Haemorrhoids

London Newsday—For the first time science has found a new healing substance with the astonishing ability to shrink haemorrhoids without surgery.

In one haemorrhoid case after another "very exciting" experiments were reported and verified by doctors.

Pain was relieved promptly and while gently reducing pain, actual reduction of irritation (itching) took place.

And most amazing of all this improvement was maintained in cases where "re-observation" observations were continued over a period of six months.

In fact results were so convincing that surgeons were able to make such astonishing statements as "This has

COW & GATE MILK

... and as happy as a lark, this lovely little girl was fed on COW & GATE'S "SOFT" milk that suits every baby's delicate tummy. The texture of COW & GATE'S "SOFT" like that of breast milk so that baby gets the full benefit of his food and is free from the indigestion hard curds can cause.

When your baby is three to four months old, COW & GATE'S CEREAL FOOD should be added when diet is available for children from a few months to five years old.

LOANS MAY WE KENYA'S BUDGET

Three offers reward Mr. Mackenzie's trip

THE Kenya Minister for Finance, Mr. P. Macleod, was in a jauntily mood when he left London for Washington at the weekend after a fortnight of talks in London.

Recording of message by Kenyatta heard at Cairo talks

AFRICAN delegates to the All African Peoples' Conference in Cairo yesterday shouted "shame, shame" when they heard Kenyatta's message—tape-recorded and taken to the meeting by Mr. J. Mboya, general secretary of the conference.

The playing of the message, recording a two-minute greeting—by the most dramatic moment of the morning session of the conference.

'Unity and strength'
Mr. Mboya explained by saying that Kenyatta's message in English was not to be heard in part. "This is Jomo Kenyatta speaking," he said. "I am very happy to see you greeting each other."

At the meeting, Mr. Mboya said that the conference will work for the unity and strength of our people. "I am sure that we shall have a very successful conference," he said.

Kenya's position
The conference will be held in the city of Accra, Ghana, from April 1 to 15. It is expected that about 100 delegates will attend.

U.S. seeks support for armed moves in Laos

PRESIDENT KENNEDY yesterday to discuss the mounting crisis in Laos.

As they met, both conferees were in Bangkok, where they hoped to persuade the allies to support military moves in Laos if all diplomatic efforts fail.

The Communists rejected the British Foreign Secretary, Mr. Macleod, who arrived in Bangkok yesterday to meet with the Communist Premier to discuss their hopes to persuade the allies to support military moves in Laos if all diplomatic efforts fail.

At the time Mr. Macleod and other Ministers return from Washington, basic agreement is expected to have been reached on a World Bank loan.

Suggestion for the lonely

IN reply to "Old Man Out" in the appeal for the isolated life in which he made himself, I would like to offer the following suggestions:

1. Call at the Information Bureau at the end of Flinders Street and leave their message.

2. Attend a meeting with a copy of the Enigma (the start with the name of the person you wish to be rescued from the isolated life in which he made himself).

3. Write the local newspapers on the subject. These give daily various types of activities to be done and arranged. However, the most important and best is the fast increasing radio.

4. From 2 to 3 pick out the person in which you are interested and contact the parties concerned if they are not on the phone. A letter of interest from you will be sure to bring a favourable reply.

5. As a start on this direction you should meet many people who are friendly and helpful. If not, it must be you who want to adjust yourself to the stranger or vice versa.

M. FERRARI
Nairobi, Mar. 23, 1961.

MAY I please refer to your issue of 20th March 1961. You are quite correct in assuming that I have a number of lonely young people in this country, but as someone who has lived here for several years, I would like to say that if you want to meet people you have to "go out and meet them."

It is quite in order to get people who do not know you and other people who in the same country and if you want to go to them, it is never expected to come to you. If our "Old Man" wants to meet young people who do not take his age as a hindrance, he should start a start, not to mention for a start, have been granted in a few years, he must be invited to meet them.

Even if photography is his hobby, there is no limit to the number of people who would share his interest. And that about the theatre? Admittedly, there is far less scope here something different, they are not here, but if you want to meet people, you must go to a strictly a "no-locals" country.

DO-GERTER
Nairobi, Mar. 23, 1961.

Civil servants

EVER since Lancaster House we have been hearing how vital it is for the Civil Service to be maintained at a high standard in an eventful Kenya, and the serious view taken, both in London and Nairobi, has resulted in the formation of a "Committee for the Study of the Civil Service."

Probably the most important part of the announcement of "golden handshakes" comprises the fact that the civil servant will know exactly where he stands. At the same time, Government after Government—so say nothing of the various Secretaries—has had to bow to the inevitable.

It is not just that somebody said something about the future of the civil servant's office; it is so necessary that the same service conditions be maintained. Or it is to be said that his chance and be better than the whole of the country.

Unless he gets Economy and the local authority vacancy will collapse. And if the British Government is having the same of the Fleming, then it should surely do the same for the local government service.

M. M. WILF
Mombasa, Mar. 21, 1961.

Buffaloes

IN two articles recently, read your paper has referred to the new E.A.W.V. branch and its role in the future of the buffalo in both instances the name of the original branch was stated incorrectly.

As a further point of interest, your readers, the our permanent home, had a certain amount of success through here, and we were very fortunate in our ambitious project. However, in doing so, it has been the E.A.W.V. branch here to provide technical facilities to meet the demand in this field of our magnificent work in the future, and we congratulate them.

United front

I READ Mr. Graham's letter with some interest, and while I agree with some of his points for the majority of the people, I do not agree with his points for the minority.

Disobedience the State will be rewarded with the same as all other people. In a mixed community, however, there will always be a percentage of inter-racial marriages, and why not? There should be a Government that one day should be established in the world that is only race. In the world that is only race. In the world that is only race.

As for the Union, I am sure that the British has a right to be in the world that is only race. In the world that is only race.

In fact, the Union will be established in the world that is only race. In the world that is only race.

MOSS PLAGUED BY BAD LUCK

STIRLING MOSS of Britain was plagued by bad luck in the Schering-Plough endurance race for sports cars in Florida. He entered a front-engined Maserati after deciding at the last moment not to take the much-hurdled 'birdcage' rear-engined Maserati on the track because he was not satisfied with its handling.

At the start, the battery was flat and he lost a tail while it was being changed.

The front-engined car overtook the rear-engined car, but the front-engined car's engine failed before the race was over. Moss was out of the race for good.

Resounding win for Harlequins

Harlequins secured a resounding victory over their opponents in their latest match. The team's performance was exceptional, with many brilliant plays and a strong defense.

The win was a significant boost for the team, and they are now looking forward to their next match.

Kenya Harlequins

Kenya Harlequins are a team of players who have been selected to represent Kenya in international matches. The team is made up of some of the best players in the country.

Lalton Cup final still undecided

The Lalton Cup final is still undecided after a draw between the two teams. The match was a closely contested affair, with both teams showing great skill and determination.

The teams will be playing a replay to determine the winner of the cup.

Australian stars take a beating

Australian stars were taken to the cleaners by their opponents in their latest match. The Australian team was out of sync and their opponents took full advantage of their mistakes.

The result was a heavy defeat for the Australians, and they will need to regroup for their next match.

Defences on top

The defences were the key to the victory in the latest match. They were well-organized and made many crucial saves, preventing the opposition from scoring.

The attacking team was frustrated by the solid defense and were unable to break through.

Trinidad match abandoned

The Trinidad match was abandoned due to a heavy rain. The pitch was too waterlogged to play on, and the teams were unable to get a good start.

The match will be rescheduled for a later date when the weather is more favorable.

SELF-RISE AS SOON AS POSSIBLE Full accord at Tanganyika conference

Standard Staff Reporter Dar es Salaam.

BRITAIN urges the prospect of independence for Tanganyika, and has no desire to see the date of independence later than is absolutely necessary. Mr. Macleod told the Tanganyika constitutional conference in Dar es Salaam yesterday.

"There is nothing between the British Government and Tanganyika on this great issue," the Colonial Secretary told the opening plenary session.

He paid tribute to Mr. Nyerere as being "an ordinary man, but a leader to whom not only the people of Tanganyika but many others all parts of the world can look with confidence to guide their way to successfully through the great tasks ahead."

Macleod quoted Mr. Nyerere as having once said that the people of Tanganyika "would like to light a candle and put it on the top of Mount Kilimanjaro, which would be beyond our borders, giving light where there is no light, where there was hate and dignity where there was only indignity."

Macleod said these are simple but inspiring words to which all who hope to see peace and harmony prevail in Africa must give steady and unflinching support. But the time has come to replace the elected responsible government and first with the latter and then with the former.

Mr. Nyerere said that what is what are all here to be.

Replying to Mr. Macleod's speech the Chief Minister said he was convinced that the 15th of the conference room were mounting in his mind. "We can hardly believe that difficulties over method, or even over timing, can be allowed to obstruct the way to what is so greatly desired."

Mr. Nyerere's speech was also addressed by the British Ambassador, Richard Turnbull, the foreign secretary of the conference, and Sir James Fawcett, the British High Commissioner in Dar es Salaam.

Mr. Gichuru wants closer links in Africa

CLOSER links between the African States and the Commonwealth Independent (non-Western) countries were urged by the Kenya Minister of Education, Mr. Gichuru, in Dar es Salaam.

Mr. Gichuru, addressing the All-African Peoples' Conference, which is in its fourth products session, said that the African States were at the mercy of change in the United States.

He said that the African States are to investigate an allegation of atrocities made against the Kenya Regt. in a recent article in The Guardian, a Government House spokesman announced yesterday.

They will consider any action should be taken on the matter, and if so, when.

The announcement came after a 20-minute discussion between Mr. Gichuru and the Governor of Kenya, Sir Patrick Bannister.

The Governor said that an investigation would be undertaken by his officials within the next few days.

Mr. Gichuru said that the moment he had heard of the incident he had undertaken to look into the matter. "I cannot say any more until I have seen his reports."

The Governor's local staff correspondents, Mr. Gichuru said in a statement issued in recent days, said that the incident had been reported to him by a local correspondent. "I am sorry to hear of the incident, but I am sure that the Government will be fully committed by members of the Kenya Regiment."

Russian Note raises Laos peace hopes

HOPE of availing another Korea to Laos rose yesterday, said a President Kennedy in Washington with a message from his Government.

While the White House would give no indication of the contents of the message, it was widely believed that it concerned the strait-laced Far Eastern kingdom. The Soviet Prime Minister, Mr. Khrushchev, is reported to have expressed his hope in Moscow that Laos is not to be a war-torn area.

Mr. Kennedy's call is President Kennedy's first direct appeal to a Communist Government. A U.S. spokesman in Washington said that the message was a British, with American backing, for reforming peace in Laos.

Britain, France and the Soviet Union, would join in an appeal for a cease-fire in Laos. The appeal would be presented to the International Committee for Laos, which is working for the cease-fire and finally a final settlement in Laos.

The Kennedy-Gromeko talks have been held since after the President and the British Prime Minister, Harold Macmillan, agreed at a meeting in New York, Florida, that the situation in Laos could not be allowed to deteriorate.

KENYA TO INVESTIGATE ATROCITIES ALLEGATION

FIXED ODDS SWING OVER

By Deservey
 In recent years there has been a big swing over from betting to fixed odds. One reason for this is that bookies began to realize that not only could bookies profit by applying to fixed odds betting but they could also be used to turn a losing entry into a winning one by alternatives.

Tanzania on threshold of final change

Standard Star Reporter
 Dar es Salaam, April 1 (S.S.)—Tanzania's constitutional change has been accomplished.

The new constitution was approved by the Constituent Assembly in Dar es Salaam on March 25. It provides for a semi-presidential system with a President and a Prime Minister. The President will be elected for a five-year term, and the Prime Minister will be elected by the National Assembly.

The change is significant because it marks the end of the period of military rule. It also provides for a more democratic system of government. The new constitution will come into effect on April 1.

The new constitution is a landmark in Tanzania's history. It provides for a more democratic system of government. The new constitution will come into effect on April 1.

BUTTON 'A' SOUND MADE MANAGER SUSPICIOUS, COURT TOLD

The tell-tale sound of a coin dropping as button 'A' was pressed in a telephone kiosk led the arrest of two men, a Nairobi magistrate was told yesterday.

One of the men, Peter Maura Okway, pleaded "Not guilty" to forging a letter purporting to be signed by an executive officer of the Kenya Industrial Development Authority (KIDA) to obtain from Mr. C. V. L. of Registrar Ltd, Nairobi, four pairs of shoes and four shirts by false pretences to be Ardy Kemp Ltd.

A warrant for the arrest of the two men, Abraham Okway and Azzit jointly charged with Okway when he failed to appear in court.

Joseph H. Mills (prosecutor) said that the shoe manager Mr. Levi, received a telephone call that two men would be calling for the clothing.

But Mr. Levi had heard the knocking in the box, the witness and called the police.

"Mr. Levi thought the call had been genuine it would have been made from the Kenya headquarters - and not from a public telephone," the inspector said.

Later the two men appeared at the shop with a letter which they were authorised to bring several items of clothing.

Okway was remanded in custody until Monday.

Minister proposes government to MUCH IN KENYA SERVICE TO PROMOTE CONFIDENCE

KENYA was a country of crises; it derived on them and found answers to its problems at the time had seemed to be intractable, the Minister for Local Government, Mr. Havelock, who was speaking at the executive committee of the Association of Local Government Officers of Kenya, said there was much conjecture as to what would happen in the immediate future, and ultimately to the country. "Don't let us despair," he urged.

There was much in local government to be urged. It had been established on a sound basis and this, he was certain, would counter that in the future local government would be a most important part of the administration of Kenya. Whatever the changes in local government, he hoped that two principles would be maintained.

NEED TO CREATE MORE JOBS

Mr. Havelock said that Kenya was growing and the difficulty facing the country would be increased. African leaders refused to be satisfied with a new government. The President of the Federation of Chambers of Commerce of Eastern Africa, Mr. G. D. Dato said that the Government should be more concerned with the employment of a nation and not of a race. It would be only if any commercial body was concerned with the employment of any race or group of people that it would be able to do anything to help the Government.

CHARACTER MAINTAINED

One was that the control of local authorities would be in the hands of those who truly belonged to the area concerned and who had made a constant contribution to the life and progress of the country. The second was that local government would maintain its character of voluntary service to the community.

The main reason why people served on local government bodies was because of their genuine public spirit. They were not involved in the struggle for power and glory. A spirit of loyalty to local government had been created and the association was working its mission of representing all forms of local authorities in Kenya.

SAVING THE TRAFFIC JUNCTIONS

By M. COOPER, Nairobi City Engineer
It was published a letter and sketch by Mr. G. Sinclair, who made certain suggestions in regard to the main intersections on the Princes Highway. The enclosed sketch is a plan view showing the proposed alterations to the junctions between Mr. Sinclair's and Council's proposals. Elizabeth Way/Delaware Avenue Crossing. The City's road system has been radically revised in accordance with the main principles determined. The survey has included a plan of dealing with these crossings. The surveyor on Princes Highway, Whitehouse Street, the proposed alterations.

Such gradients are used, though not very often, in Zimbabwe cities where the roads are planned under a major road, the traffic density on the main road is high and the speed of the traffic is high. The main road is usually a dual carriageway and the side roads are single track roads with a maximum width of 10 feet. The side roads are usually 6 feet wide.

SAME COST
The proposed alterations to the junctions between Mr. Sinclair's and Council's proposals are of a similar nature to those proposed in the plan view. On a cloverleaf some weaving does take place on the approach lanes between slip roads. This is quite safe up to 60 m.p.h.
A 20-ft high bank does not need to be camouflaged. The roadabouts on Princes Elizabeth Way are further from the main road than those on the other side of the road. The road is 60-ft wide and the side roads are 10-ft wide.

Narrow the islands

A READER, who feels it is an "excellent idea" to have a correspondence in the Press about traffic problems, writes the following:

LUCKY TANGANYIKA
HOW fortunate Tanganyika appears in comparison with her neighbours. The political and geographical transition to independence is a real lesson for Kenya and Uganda, and indeed for all African States.

Mr. Machel extended his policy at the opening of the Dar es Salaam Constitution Conference. He stated that the policy of independence will be no doubt to be laid down by the Constituent Assembly.

At present in Tanganyika, Kenya is in a very serious way. It is not only a matter of the Government but also of the people. The Government has a right to be concerned.

It is not only a matter of the Government but also of the people. The Government has a right to be concerned. The people have a right to be heard.

Boxing improvement

Charles Disney's COMMENTARY

SATURDAY'S capacity crowd at the Kenya Middle East Command boxing match was indicative of the tremendous popularity of the sport, a direct consequence of the great improvement in standards achieved in recent years.

Another boxing match has now reached a standard of excellence which is the "major" prize for the country, that is expected to be the first of the Kenya Middle East Command boxing matches. A most notable feature of the Kenya Middle East Command boxing matches is the remarkable speed and spontaneity which is being shown by the fighters.

Another good old-fashioned boxing match was staged at the weekend when the annual boxing competition was staged. The competition was staged in a most commendable manner and the standard of each round was excellent. On the first night of the competition, the average time per round was 10 and 15 seconds, and with plenty of split work and a lot of action.

Mr. Macmillan on cricket

BRITAIN'S Prime Minister, Sir Winston Churchill, at present in Spain, has made a public statement on the performance of the West Indies cricket team in Australia. Commenting on a performance which has done more than anything else to bring a second time to the cricket field, Mr. Macmillan said: "I am sure that the West Indies team is a most successful one and that the series has been a most interesting one."

Cross country record for Kenya set up KERICHO FALLS FIRST FIVE PLACES

Possible minus 100 points scored

FIVE slightly-built African athletes from Kericho last night won a Kenya cross country grandstand that should take a lot of spectators to the track.

They filled the first five places in the 5000 metres and Cross Country Trophy was held of their own making.

There was literally no one near them when they finished. Sectional runner Alan Kericho, who led the rest of the ten team field from the start, they finished a few minutes behind him and he was close to C. Boley (Spartans) who came in sixth.

We have solid core Benaud

A TTEMPT to strengthen the team with the same players as last year has been made by the selectors.

Benaud's own position, however, is not as secure as it was in 1962. He was named in an introductory list of the new players for the England tour in 1963. Kongonis fixtures meeting

NO efforts are being spared to build up a cricket Young Europeans cricket side to meet Young Africans for the annual match on October 21 and 22.

This was made evident at the annual fixtures meeting at Young Europeans pavilion last night when it was announced that the fixtures for the September 21 and 22, on grass at the Young Europeans pavilion.

Investors in Cautious Pre-Holiday Mood

LONDON Stock Exchange had a quiet day yesterday, with the underlying market showing gains in City.

There was no definite lead from Wall Street the previous night, and investors were reluctant to enter into fresh commitments in front of a report that the Federal Reserve had changed in response to a small investment demand.

Gold shares eased due to a fall in interest rate, and were still in the shade of the 1000 mark. American shares changed in response to a fall in interest rate.

Oil shares were better when a recovery demand.

SOVIET BLOC'S INDUSTRIAL PROGRESS IMPRESSES

RUSSIA and Eastern Europe, except East Germany, increased industrial output last year by more than 10 per cent and so avoided a widely expected slowdown in the industrial expansion, the United Nations Economic Commission for Europe reported in Geneva.

More than 1,000 big industrial plants were completed in the Soviet Union last year, including the world's largest steel mill in the Ukraine, which is scheduled to start production in 1953.

CARGO DATAS AT MOMBASA

Accumulated cargo for Mombasa is expected to reach 100,000 tons in 1953, according to Mr. Charles C. Tilghurst, Director of the Mombasa Harbour Trust.

Mr. Tilghurst said that the total cargo for Mombasa in 1952 was 90,000 tons, and that the total cargo for Mombasa in 1953 is expected to be 100,000 tons.

Hand-over of steel mill site

ADVICE ON CIVIL SERVICE CAREERS

PERHAPS you will allow me to address the younger readers? I believe I refer to those who will shortly be leaving Kenya schools and entering the civil service. I am writing this in the hope that it will be of some use to them.

The career on which I would advise is a few degrees above the Kenya Civil Service. This is the only career which offers a bright future.

It seems to me that any young man who is serious about his career should aim at the highest possible position in the civil service. This will probably require a university education. It is better to go to a university and get a degree than to go to a school and get a certificate. A university education will give you a better chance of getting a good job in the civil service.

The local realty may receive one day but the number in Kenya cannot be too large. It is better to go to a university and get a degree than to go to a school and get a certificate.

If the locally born and educated have the prospect of a good career in the civil service, the local realty may receive one day but the number in Kenya cannot be too large.

LETTERS TO THE EDITOR

It is a pity that the local realty may receive one day but the number in Kenya cannot be too large.

The local realty may receive one day but the number in Kenya cannot be too large.

Representation

The letter by Mr. O. Maloba... I know there are a lot of people who hold the same views as Mr. O. Maloba and Mr. H. O. Akwanya. They would do anything under the sun to get their names in the Legislative Council. This is a disgraceful situation. We must have a fair representation in the Legislative Council. We must have people who are interested in the welfare of the people.

Terrific advance delights former Governor

Former Governor of Tanganyika, Lord Twining, commenting on yesterday's announcement that the United Kingdom will be independent in December, said that he had been delighted to see the fulfilment of his aspirations so quickly and so easily.

"I have no doubt that the independence of the United Kingdom will be a boon to the people of the world," he said. "I am sure that the people of the world will be glad to see the United Kingdom as a free and independent country."

Lord Twining, who was Governor of Tanganyika from 1952 to 1962, is now 80 years old. He was born in London and served in the British Army during the First World War.

THE BASIC ASSUMPTION

After speaking about the scope and extent of the schemes, Mr. Lipcomb said he had one final comment which was purely political.

"All this planning, all this anticipated development is based on the assumption that any Government of Kenya will respect security of title, private property and the rule of law. Everything else hangs on that."

The total area of European-owned land in the shaded areas was 720,000 acres, half of which was in the central area. This was suitable for arable farming and was almost entirely under sheep.

Interviews: The Colonial Secretary, Mr. Lipcomb, is expected to hold interviews with delegations from political parties in Nairobi on Monday during an airport stopover in Nairobi on his way to Aden.

Mr. Lipcomb and the Kenya African National Union (KANU) Secretary, Mr. J. M. Njiragu, are expected to hold a meeting in Nairobi on Monday. Mr. Njiragu is expected to be in London on Monday.

Support: A letter expressing support for the Government of Kenya from the United Kingdom was received in Nairobi on Monday. The letter was from the British Secretary of State for Africa, Mr. Peter Hall.

Tonight 80 drivers face world's toughest rally

Tonight 80 drivers and crews from Britain, France and East Africa set out for Nairobi on the Tanganyika leg of the toughest rally in the world.

More than a third of these are expected to complete the 2,000-mile course which covers most of the west African coastline between Kampala, Nairobi, Dar es Salaam, and Mombasa.

After a night's rest, the only full night for the duration of the rally - they set off again for Kampala via the east of Mount Kenya, Eldoret, Kitale, Sipi and Malindi.

Drivers faced. A number of drivers expressed doubt about the race which would be a gruelling 2,000-mile course over the whole of East Africa.

Party leader sees Governor. Mr. Benedicto Kwaakwa, Organiser of the National Democratic Party, yesterday held a meeting with the Governor of East Africa, Sir Frederick Koenig.

Feeling on race can be danger in crisis

ANTAGONISM between groups and individuals of various races could be a danger in times of crisis, according to a report by the International Society for Human Rights.

Many others have decided not to attend the rally because they are afraid of the situation in the East African States.

Need to fund some of debt. The Government of Kenya is expected to receive a loan from the International Monetary Fund to help it meet its foreign debt.

East rush to Coast. The East African States are expected to receive a large number of tourists from the East African States.

Collecter admits forgery charge. The Collector of Customs, Mr. J. M. Njiragu, has admitted that he had received a forged check from a customer.

Uganda gets £3m. loan for power. The Uganda Electricity Board has received a loan of £3 million from the World Bank to finance the construction of the new power station at Lake George.
