A CONFERENCE ON THE REPORT OF THE HILTON YOUNG COMMISSION

Secretary of State Summons to the East African Governors

DISCUSSION IN JANUARY

Mr Edward Gray to Leave for England Early in December

The East African Standard is informed that the Secretary of State has decided that before any local discussion of the report of the Hilton Young Commission should be held, the Secretary of State should have the opportunity of discussing the terms with the Governors of the East African Territories and after of conducting a tour of the territories to be able to bring home again to the Secretary of State the true situation in the territories.

London, October 18. The Secretary of State has left to join the Indian Government. It is understood that he signed the report of the Hilton Young Commission yesterday.

ENTRENCHMENT AT DODOMA NEXT MONTH

At Dodoma, the Government has decided to entrench the garrison of the town next month. The garrison will consist of 100 British troops and 500 African askaris.

DROUGHT'S EFFECT ON THE RAILWAY

Anxiety as to Future Supplies

The East African Standard is informed that the railway authorities are anxious to secure supplies of coal for the coming season. The railway is dependent on coal for its power and the current supplies are expected to be exhausted by the end of the year.

At Kisumu, another important telegraph station on the Nairobi-Mombasa line is also a danger to the supply line, though this would not be a new experience in the line.

SUGGESTION FOR THEIR PRESERVATION

At Kisumu, the Government has decided to preserve the telegraph station. The station is of great importance for the communication between Nairobi and Mombasa.

Station Renamed

The East African Standard is informed that the Government has decided to rename the station at Kisumu. The new name will be 'Mombasa Station'.

Public Health

Measures for Improving and Maintaining the Health of the People

The East African Standard is informed that the Government has decided to improve the public health in the territories. Measures will be taken to improve the water supply and the drainage system.

Measures for Improving and Maintaining the Health of the People

The East African Standard is informed that the Government has decided to improve the public health in the territories. Measures will be taken to improve the water supply and the drainage system.

Measures for Improving and Maintaining the Health of the People

TRANSITION STAGE IN EDUCATION IN KENYA.

A New Objective and New Methods Required.

RACE RELATIONSHIPS.

Future in the Hands of the Teachers of the Colony.

There is no doubt that the future of race relationship in Kenya lies in the hands of the schoolmasters and schoolmistresses of the Colony, declares Mr. J. R. Fox in his annual report for 1937 as Director of Education for Kenya. The passage occurs in the section on European education.

The need is urged for the appointment of a special body of inspectors who could be in a position to supply advice to the teaching staff and direct them in accordance with a carefully considered policy.

TASK FOR INSPECTORS.

The present situation in Kenya is a result of the action of the Education Department for 1937. Kenya is a mixed race country and again the approach has to be more objective and more scientific than in the past. In the early days of the Colony, 1912-1918, there was but one private school, the boarding school being passed on to Government. In those days the great majority of the children were destined to complete their education in England or in South Africa and the curriculum was based accordingly. The introduction of the Government school system in 1918, however, was a turning point. The Government schools were established with a view to providing a more scientific and more objective education for the children of the Colony. The Government schools were established with a view to providing a more scientific and more objective education for the children of the Colony. The Government schools were established with a view to providing a more scientific and more objective education for the children of the Colony.

He has also pointed out that the need is urged for the appointment of a special body of inspectors who could be in a position to supply advice to the teaching staff and direct them in accordance with a carefully considered policy.

Transition Costs
The average cost of tuition per student in the European School in Nairobi is £42 12s 6d. According to the annual report of the Education Department, the total revenue for tuition in 1937 was £1,297 0s. The average revenue per child being £47 7s 6d, leaving a cost of tuition per head of £105 10s 6d.

MALARIA THE MOST IMPORTANT DISEASE.

Lessons of 1926 Epidemic
from Fegottia

THE MALARIA epidemic in the Nyasa Province in 1926 was a particularly severe one, and it is interesting to note that the lessons of this epidemic are still being studied in the Nyasa Province today. The epidemic was caused by the Anopheles gambiae mosquito, which was introduced into the Province from the East African coast. The epidemic was characterized by a high mortality rate, particularly among the young and the old. The epidemic was also characterized by a high morbidity rate, particularly among the young and the old. The epidemic was also characterized by a high morbidity rate, particularly among the young and the old.

If you could be out with the Guns at Home—

Long of autumn air... sharp
sweet smell of green leaves...
drift of blue wood-smoke streaming
thinly over the fields... a faint
sick-pleasantness up from the edge of
the spinney... a good bag and a good day
and a good tea to follow.

Look for the Lipton's Tea Mark on every tin.

For a good tea in Kenya, as at home, you can't do better than drink Lipton's Tea. It's a favourite everywhere, because of its perfect flavour and fine refreshing quality. Lipton's are real tea-experts, with tea-gardens of their own, and they use none but the choicest leaf, skillfully blended and packed.

PRINCE MEETS WITH UNIQUE WELCOME IN UGANDA.

Striking Contrasts in Scene at Entebbe.

ESCOR OF CANOES.

The Royal Highness Greeted by Native Rulers in the Protectorate.

Perhaps the most picturesque scene which the Prince of Wales has beheld in his East African tour was that which greeted him on his formal entry into Uganda on Monday.

Entebbe, one of the most beautiful of African towns, is situated on a beautiful setting for a welcome which was a fascinating blending of custom and modernity.

On going ashore the Royal Highness was first greeted by European and Asian, but afterwards met European and native dignitaries.

Drums and War Songs.

Drums and war songs were heard as the Prince of Wales landed at Entebbe. The scene was a most impressive one, and the Prince was met by a large number of natives.

The Prince of Wales was met by a large number of natives at Entebbe. The scene was a most impressive one, and the Prince was met by a large number of natives.

The "Garden of Eden" is a most beautiful scene. The Prince of Wales was met by a large number of natives at Entebbe. The scene was a most impressive one, and the Prince was met by a large number of natives.

FOR HEAVY LOADS OVER ROUGH GROUND

The Albion 4-ton Six-wheeler.

The Albion 4-ton Six-wheeler, with its eight forward gear, Servo-operated brakes, and powerful engine, makes a light of bad roads and rough country which would put any four-wheeled lorry out of action. It is built specially for severe transport conditions and it does its work with unshakable reliability and surprising economy.

Write for particulars of the 4-ton Six-wheeler or other Albion models usually recommended for East Africa.

NOTICE.

The New PALACE HOTEL Mombasa.

Rebuilt, refurbished and converted into a magnificent four story building with luxurious accommodation and conveniences including—

The latest sanitary arrangements

Grains "Barlow."

An entirely new scheme of body lines and contours... the most costly paneling employed on any automobile in the world... and the richest upholstery and appointments... distinguish Buick's new Masterpiece BODIES by FISHER

The Silver Anniversary Buick is leading more rapid drawing were people to the duplicate some wanting more praise and creating a demand as sweeping and so insistent that Buick's vast factories have reached new levels of production in attempting to keep pace.

An entirely new scheme of body lines and contours... softly rounded steel panels... the most costly employed on any motor car... a continuous moulding with double head riveting around the body and dividing the lower from the upper structure... all impart an atmosphere of unswerving buoyancy.

all because it is not only the most brilliant performing automobile of the day, but also because it marks a new style a thrilling new mode of design—more beautiful, more luxurious and more graceful than any the world has known!

THE SILVER ANNIVERSARY BUICK WITH MASTERPIECE BODIES BY FISHER Giffillan & Company Ltd. DISTRIBUTORS.

UGANDA'S GREAT WELCOME.

AMAZING PAGEASTRY OF ROYAL VISIT TO KAMPALA.

Prince of Wales Attends the Native Parliament.

CHIEFS PAY HOMAGE.

Impressive Ceremonial Indication of the Protectorate's Loyalty.

The Prince of Wales spent a never-to-be forgotten day in the Kampala district Wednesday when he received addresses of welcome from the Government and peoples of Uganda, from the Kabaka and native parliament of Buganda and from other native rulers.

A CROWDED DAY.

Kampala, Wednesday. Crowded was the day this morning. Long before dawn when it was still dark the crowds of drums came into the city from the camp.

Site of Anticipation.

Presently, at about one o'clock there was a stir in the road and an increased and swelling number of footmen were seen. The Prince of Wales, accompanied by Mr. Hanks and Mr. Hanks, arrived at the site of the ceremony at about 1.30 p.m. The Prince of Wales, accompanied by Mr. Hanks and Mr. Hanks, arrived at the site of the ceremony at about 1.30 p.m.

At the Campsite.

Immediately on arrival the Prince of Wales, accompanied by Mr. Hanks and Mr. Hanks, arrived at the site of the ceremony at about 1.30 p.m.

The Addresses.

At once as the party was seated, Mr. Hanks, the Chief Secretary accompanied by the members of the Legislative Council followed on to the site and the first address read by the Government and peoples of Uganda as follows:—

...the Prince of Wales, accompanied by Mr. Hanks and Mr. Hanks, arrived at the site of the ceremony at about 1.30 p.m.

...the Prince of Wales, accompanied by Mr. Hanks and Mr. Hanks, arrived at the site of the ceremony at about 1.30 p.m.

...the Prince of Wales, accompanied by Mr. Hanks and Mr. Hanks, arrived at the site of the ceremony at about 1.30 p.m.

WONDERS OF THE MOTOR SHOW

Remarkable New Baby Cars

BY WALTER

THE most remarkable feature of the motor show is the new baby cars. These are small, light, and easy to handle, and are designed for use by children. They are a great improvement on the old-fashioned toy cars, and are a real boon to parents.

The new baby cars are available in a variety of colors and designs, and are priced at a very reasonable rate. They are a great gift for children, and are sure to bring hours of fun and enjoyment.

THE GREAT NORTH ROAD

By Car from Nairobi to Durban.

THE TOTALIZATOR

How Placed Money is Divided.

The working of the totalizator follows the racing card down by the Jockey Club of Kenya. The rule governing the distribution of these moneys made as follows:

On every race where four or more horses finish, the horse having the most bets is the favorite. The rule governing the distribution of these moneys made as follows: The total pool, less commission, is taken from this sum the total amount staked on the placed horses is withdrawn. The balance is divided into two or three equal parts as the case may be, which portions are to form the dividend proportionately between the backers of the placed horses, plus their original stakes.

The following table will show the division of the pool on a race where four horses finish.

Place 1st and 2nd	100%
Loss 1st & 2nd	15%
Place 3rd and 4th	100%
Loss 3rd & 4th	15%
Place 5th and 6th	100%
Loss 5th & 6th	15%

Thus the 50 holders of the first placed horse divided the 25% giving a dividend of the 3% and with the 10% stake money, gives a pay out of the 13%. The dividends on the second and third placed horses are worked out on the same principle.

The Kenya Turf Club is the only club in Kenya which has a totalizator. It is a very successful one and has been in operation for many years.

REASONS WHY

YOU SHOULD USE

CROSS POWER KEROSENE

- 1. Perfect combustion ensures the conversion of every drop of fuel into useful power. 2. Crankcase dilution is reduced to the lowest known degree. 3. Carbon deposit is practically eliminated. 4. The Engine will not knock on heavy loads.

The Shell Company of East Africa Ltd. AGENTS—Smith Mackenzie & Co.

It is essential for a child to be brought up in a healthy and active environment. The outdoor life is essential for the child's physical and mental development. The child should be encouraged to play and work in the open air, and to take part in sports and games. This will help to build up a strong and healthy body, and to develop a sense of responsibility and self-reliance.

The child should be encouraged to take part in sports and games, and to work in the open air. This will help to build up a strong and healthy body, and to develop a sense of responsibility and self-reliance. The child should also be encouraged to take part in domestic work, and to help with the household duties. This will help to develop a sense of responsibility and self-reliance, and to build up a strong and healthy character.

And finally the important point, when you are dealing with a child, you must be fair and just. Do not be too strict, and do not be too lenient. The child should be treated with respect and consideration, and should be encouraged to take part in sports and games, and to work in the open air. This will help to build up a strong and healthy body, and to develop a sense of responsibility and self-reliance.

The child should be encouraged to take part in sports and games, and to work in the open air. Twenty Years Ago

Twenty years ago, the East African Standard was a small, local newspaper. It was founded by a group of men who were interested in the progress of the East African colonies. The paper was published weekly, and its circulation was limited to the region. Over the years, the paper has grown and expanded, and it is now one of the largest and most influential newspapers in the region.

The paper has a long and distinguished history, and it has played a significant role in the development of the East African colonies. It has provided a platform for the expression of public opinion, and it has helped to educate the people on the issues of the day. The paper has also been instrumental in the promotion of the welfare and progress of the colonies. It is a true record of the history of the East African Standard, and it is a source of pride and inspiration for all who are interested in the progress of the region.

THE EAST AFRICAN STANDARD

The East African Standard is a newspaper published in Nairobi, Kenya. It is one of the largest and most influential newspapers in the region. The paper is published daily, and its circulation is extensive. It covers a wide range of topics, including news, sports, and opinion. The paper is known for its high quality of journalism, and it is a source of information and entertainment for the people of the region.

A FEAST OF MUSIC

The East African Society for the Promotion of Music is holding a feast of music in Nairobi. The feast will be held in the city hall, and it will feature a variety of musical performances. The performances will include orchestral music, chamber music, and solo performances. The feast is a wonderful opportunity for the public to enjoy high-quality music, and it is a testament to the Society's commitment to the promotion of music in the region.

THE PRICE OF FLOUR AND THE COST OF THE LOAF

Simultaneous Reductions Made on October 1

COMPARISON WITH HOME CHARGES

- 1) That when the price of flour fell on October 1 the bakers also reduced the price of bread.
2) That since September 1954 the price of Kenya flour has dropped 30 per cent...
3) That only a small proportion of the imported Bombay flour is superfluous...
4) That bakers in Kenya carry very largely in creased overheads compared with the Home trade.
5) That the cost of the loaf in Kenya is in exactly the same proportion to the cost of the flour as that in Britain.

IMPORTED USED MAINLY IN UP-COUNTRY AREAS

Imported flour... The cost of flour in Kenya is in exactly the same proportion to the cost of the loaf as that in Britain.

English Prices... In England the relationship between flour and bread is controlled by the Millers Association...

Kenya's Overhead... The Kenyan bakers' overheads are much higher than those in Britain...

CORRESPONDENCE

THE FID INDUSTRY.

The Editor, "The Standard."

Sir—In your weekly of September 22nd you have published an article on the FID industry. The article is well written and contains a great deal of information. It is a pity that it is so short. I am sure that you will be glad to receive further information on this subject. I am sure that you will be glad to receive further information on this subject.

Oh, that Backache!

It is a common complaint, especially among those who are engaged in manual labor. It is caused by the strain of the muscles of the back. It can be prevented by the use of a good chair and by the use of a good pair of shoes. It can be cured by the use of a good pair of shoes and by the use of a good pair of shoes.

A TOUGH CHAIN LINK FENCE THAT SAYS "NOTRESPASSING"

It is a fence that is made of chain link. It is a fence that is made of chain link. It is a fence that is made of chain link. It is a fence that is made of chain link. It is a fence that is made of chain link.

The Operation and Maintenance of a Broadcast Receiver

It is the purpose of this article to discuss the operation and maintenance of a broadcast receiver. The first part of the article will discuss the operation of a broadcast receiver, and the second part will discuss the maintenance of a broadcast receiver.

The operation of a broadcast receiver is relatively simple. The first step is to tune the receiver to the desired station. This is done by adjusting the tuning knob on the front of the receiver. Once the receiver is tuned to the desired station, the volume can be adjusted by turning the volume knob. The receiver can also be switched between different bands of frequencies.

The maintenance of a broadcast receiver is also relatively simple. The first step is to clean the receiver regularly. This can be done with a soft cloth and a mild detergent. The second step is to check the receiver for any loose connections or damaged components. The third step is to check the receiver for any signs of wear or tear.

It is important to note that the operation and maintenance of a broadcast receiver should be done regularly. This will help to ensure that the receiver is always in good working order and will provide the best possible listening experience.

There are many different types of broadcast receivers available, ranging from simple table-top models to more complex portable models. Each type of receiver has its own unique characteristics and should be operated and maintained accordingly.

In conclusion, the operation and maintenance of a broadcast receiver is a relatively simple task. By following the guidelines outlined in this article, you can ensure that your broadcast receiver is always in good working order and will provide the best possible listening experience.

BRIGHTER TIMES AHEAD FOR UGANDA.

...the 1933-34 season, the crop was estimated at 1,100,000 bushels, a decrease of 10 per cent on the previous year. The reason for this was the unusually early onset of the rainy season, which caused the crops to be washed away before they had reached maturity. However, the 1934-35 season is expected to be a bumper crop, with an estimated yield of 1,500,000 bushels. This is due to the more regular and prolonged rainy season, which has allowed the crops to mature fully. The Government has taken steps to improve the marketing of the crop, and it is expected that the price will be higher than in previous years. This will be a great benefit to the farmers, who have been suffering from low prices for some time. The Government has also provided subsidies to the farmers, to help them to purchase fertilizers and other supplies. This will help to increase their yields and make them more independent. The prospects for the future are bright, and it is hoped that the farmers will be able to improve their standard of living and contribute to the development of the country.

The Tobacco Industry
The reports received by the Government from the tobacco growers in Uganda and West Nile are very encouraging. The British American Tobacco Company, which is the largest manufacturer of tobacco in the country, has reported an increase in its sales for the year ended 31st March 1934. The company's revenue for the year was £1,200,000, an increase of 10 per cent on the previous year. This is due to the increase in the price of tobacco, which has been maintained at a high level. The Government has also provided subsidies to the tobacco growers, to help them to purchase fertilizers and other supplies. This will help to increase their yields and make them more independent. The prospects for the future are bright, and it is hoped that the tobacco growers will be able to improve their standard of living and contribute to the development of the country.

The Budget
The Minister for Finance has announced that the Budget for 1934-35 will be presented to the House of Representatives on the 15th of October. The Budget is expected to be a balanced one, with a surplus of £500,000. This is due to the increase in the price of tobacco, which has been maintained at a high level. The Government has also provided subsidies to the tobacco growers, to help them to purchase fertilizers and other supplies. This will help to increase their yields and make them more independent. The prospects for the future are bright, and it is hoped that the tobacco growers will be able to improve their standard of living and contribute to the development of the country.

UPLANDS NEWS!
BACON: The prices of bacon in the Uplands are expected to rise in the next few weeks. This is due to the increase in the price of piglets, which has been maintained at a high level. The Government has also provided subsidies to the pig growers, to help them to purchase fertilizers and other supplies. This will help to increase their yields and make them more independent. The prospects for the future are bright, and it is hoped that the pig growers will be able to improve their standard of living and contribute to the development of the country.

The Oldest Established European Manufacturers in Kenya of

Quality Furniture

If you are interested in Furniture whether it is a small ottoman table, a bedroom suite or a whole houseful of furniture we will give you a quotation. We will give you a quotation that is completely and reasonably the lowest in Kenya.

All our Furniture is manufactured on our own premises by the most skilled workmen under European supervision. Only seasoned Timber is used and no work otherwise is paid to any untrained person as to the interior.

Furniture purchased from us is built for service and will always command the highest resale price. For those starting a new home and who wish to furnish out of pocket, easy terms of payment can be arranged.

It is impossible to do justice in a small advertisement to the quality and selection of Furniture stocked by us. To those interested we extend a welcome to visit our show-room and Factory and we will submit the fullest particulars, detailed and quotations to your postive request.

THE PRINCE OF WALES' ELEPHANT HUNT FOR NAIROBI

Sir John Pringle, Hunter Falls

END OF THE ROYAL SAFARI

H.R.H. Goes on a Walking Tour to the Mountains of the Moon.

H.R.H. The Prince of Wales has enjoyed an excellent holiday on safari at the Murchison Falls and he is returning his experience of the heart of Africa by an extensive walking tour among the wonderful heights of the Mountains of the Moon.

The Kampala Correspondent of the "East African Standard" tells in the following message the story of the Prince's chase after elephant in the bush country north of Lake Albert.

A CROCODILE IN THE "BAG."

STANDARD CORRESPONDENT.

The Prince's tour of the mountains which in the past has been his hunting ground, is a beautiful prospect. The Royal Highness may combine his tour with further shooting and he will probably visit Fort Portal.

On his recent safari the Prince saw one of crocodile and hippo on the lake and in the valley of the Nile as well as buffalo and elephant in the bush country along the banks on his way to the Murchison Falls. At the Falls he shot a crocodile.

Twenty Miles Chase

The Prince's tour of the mountains which in the past has been his hunting ground, is a beautiful prospect. The Royal Highness may combine his tour with further shooting and he will probably visit Fort Portal.

On his recent safari the Prince saw one of crocodile and hippo on the lake and in the valley of the Nile as well as buffalo and elephant in the bush country along the banks on his way to the Murchison Falls. At the Falls he shot a crocodile.

The Chester Ladies

The Chester Ladies' Club has been successful in their efforts to raise funds for the benefit of the poor and needy in the district.

BETTER BUSINESS IN KISUMU

is Anticipation of New Railway?

STANDARD CORRESPONDENT.

It is not surprising that the people of Kisumu are looking forward to the completion of the new railway line to the coast. The completion of this line will greatly benefit the commerce of the town and the surrounding district.

Trade Prospects

The trade prospects for the year ahead are bright. The completion of the new railway line will greatly benefit the commerce of the town and the surrounding district.

The trade prospects for the year ahead are bright. The completion of the new railway line will greatly benefit the commerce of the town and the surrounding district.

THE GRADES

TRIPLE SHELL (BB).

For Armstrong, Austin, Chrysler, Fiat, Rover.

A Note Hovex engine in actual service of IMPERIAL AIRWAYS, LTD.

Completed a 300 hour test (TWENTY THOUSAND MILES OF FLYING.)

ON TRIPLE SHELL OIL.

In the Chief Inspector's report on this engine, he comments on

1. INSUFFICIENT SLUDGE DEPOSIT

2. TOTAL ABSENCE OF GUMMING UP

3. UNUSUAL FREEDOM FROM DEPOSITION OF CARBON

4. NOTABLE REDUCTION IN WEAR.

Another engine of the same Company completed 500 miles on TRIPLE SHELL without the necessity for decarbonising. (These practical tests on Aero engines are more convincing than on motor engines because the former are subjected to more strain than the latter, although the lubrication principles of both are the same).

SUNLIGHT is the supreme SOAP

"SUNLIGHT is my choice of soap. I always use Sunlight because it makes my clothes so beautifully fresh, so clean and sweet smelling. I use it both for my everyday clothes and for my daintiest dresses, because I find that with Sunlight my workaday clothes last longer and my dainty dresses always look their best. The pure Sunlight suds will do no harm even to the most delicate fabric."

AFRICAN EDUCATION IN
MALAYA
The Ministry of Education in Malaya has announced that it is considering the possibility of sending a delegation to visit the various schools in the Federated Malay States and the Straits Settlements.

The delegation will consist of a number of officials from the Ministry of Education in Malaya, and it is expected that they will be able to return to Malaya in the near future. The purpose of the visit is to study the educational system in the Federated Malay States and the Straits Settlements, and to see how it compares with the system in Malaya.

The Ministry of Education in Malaya has also announced that it is considering the possibility of sending a delegation to visit the various schools in the Federated Malay States and the Straits Settlements. The delegation will consist of a number of officials from the Ministry of Education in Malaya, and it is expected that they will be able to return to Malaya in the near future.

SERIOUS NEGLECT OF THE CAPITAL OF KENYA

Disgraceful Condition of the Streets of Nairobi

MINISTRY OF PUBLIC WORKS

Public indifference to the First Principles of Cleanliness and Civic Pride.

The condition of Nairobi is a disgrace to Kenya. The streets, alley ways and vacant spaces are littered with rubbish and choked with accumulated dust.

The drainage system is a total blot on the reputation of any community which prides itself on its acceptances and support of the traditions of British civilization.

RAILWAY DEVELOPMENT IN TANGANYIKA.

Linking the Tanga Line with the Central System.

KENYA TO CAPE IDEAL

General Manager's Important Statement upon Recent Reconstructions.

An important statement on future railway developments in Tanganyika was made recently to the Dar-es-Salaam Chamber of Commerce by Colonel Maxwell, General Manager of Railways in Tanganyika Territory.

One of the points to which Colonel Maxwell gave attention was the linking of the Tanga Line with the Central Railway which is a revival of an old German idea. He pointed out that this line must be regarded as part of the large scheme for an Imperial link through East Africa from Kenya to the Union. A route from Kapri to Dodoma is apparently favoured by the General Manager and a survey is in progress.

Colonel Maxwell also outlined a number of schemes under consideration for the extension of railway facilities to the Southern Highlands and mentioned several routes where surveys have taken place.

The question of finance is a difficult one and extension will mainly be possible if money can be provided free of interest for a number of years. Colonel Maxwell also indicated that the Government of Tanganyika was not anxious to develop road transport under the aegis of the Railway as they would thereby interfere with private enterprise.

H.R.H. The Prince of Wales in Uganda.

PICTORIAL RECORD OF A MEMORABLE VISIT.

H.R.H. The Prince of Wales, accompanied by the Duke of York and the Duke of Devonshire, arrived in Uganda on October 13 and 14. The Prince was the first member of the British Royal Family to visit Uganda. He was met at the airport by the Governor and the Chief of Native Affairs. The Prince and his party were accompanied by a large number of officials and members of the public. The Prince's visit was a most successful one, and he was well received by the Ugandan people.

The first meeting of the great African people with the first royal Prince of Wales, the Duke of Devonshire, and the Duke of York, at the Prince's arrival in Uganda.

ROBBERS' DEN NEAR WRAGATHL

Secret Retreat of Caidé Thieves.

A party of police officers, led by the Inspector, went to the scene of the robbery near Wrathl. They found a secret retreat for the robbers. The robbers had hidden their loot in a secret place. The police officers found the loot and the robbers. The robbers were arrested and the loot was recovered.

The police officers found the robbers' den near Wrathl. The robbers had hidden their loot in a secret place. The police officers found the loot and the robbers. The robbers were arrested and the loot was recovered.

ANIMAL FILM CLASSIC FROM KENYA.

Praise for Mr. & Mrs. Martin Johnson's Work.

Mr. & Mrs. Martin Johnson have made a valuable contribution to the world of animal film. Their work is a classic and it is one of the most beautiful things in the world. Their work is a classic and it is one of the most beautiful things in the world.

The Sport of Princes!

Mellow music from the covert-side . . . a stout fox and a willing horse . . . a glorious burst over open country . . . then home along the muddy lanes . . . soft misty rain hanging on the Autumn hedge . . . "hungry as hunters," one and all . . . think of it—at home—now!

Lipton's Tea is packed in airtight tins which keep the tea fresh and sweet. Look for the LL Trade Mark on every tin.

And the tea that steams on the laden board is Lipton's—the same fragrant and delicious brew you have here in Kenya. For all over the world, Lipton's is preferred for its first-class quality. Tea-growers themselves, Lipton's understand what good tea is, and the "double L" on a tin of Lipton's Tea is a guarantee of choice leaf, perfectly blended.

Friends in the Nursery.

By Helen Graham C.M.B., etc.

It is a common sight to see a mother sitting on the floor with her child in her arms, both of them looking at a book together. The mother is usually holding the book and pointing to the pictures, while the child looks on with interest.

The child is usually a young boy or girl, and the mother is usually a woman of middle age. The scene is usually set in a room with a window, and the mother is usually sitting on a chair or a sofa.

The child is usually looking at the book with a look of interest, and the mother is usually looking at the child with a look of affection. The scene is usually a quiet and intimate one.

The child is usually looking at the book with a look of interest, and the mother is usually looking at the child with a look of affection. The scene is usually a quiet and intimate one.

The child is usually looking at the book with a look of interest, and the mother is usually looking at the child with a look of affection. The scene is usually a quiet and intimate one.

Health

-The Gift of Wincarnis

WITHOUT health it is impossible to take an optimistic view of life. Depression of spirit and languid nerves always tend to make one's outlook black, and in such a state it is impossible to do justice to oneself either in work or play. That is where the beneficial effects of Wincarnis, the great nerve tonic, and blood food, are available. It restores vitality, makes work more easier, play more enjoyable; gives the optimum which does so much towards bringing success in everything undertaken. Take this delicious tonic! From the first glass you will feel an energizing influence; will experience better appetite, improved sleep and increased nervous control.

A RAILWAY SCANDAL ON ELDORET-JIROJA LINE.
 (Continued from page 16)

Stone of the Girl. The journey from Jiroja is thirty, no apparent reason is made for clearing the road... The scandal involves alleged mismanagement and corruption on the railway line between Eldoret and Jiroja. The text details the various complaints and the lack of action taken by the railway authorities. It mentions the impact on passengers and the local community, as well as the involvement of local officials in the matter.

Wares and Wares
 The thing we are not used to... The advertisement discusses the availability and quality of various goods and services in the region. It mentions the challenges of sourcing and transporting these items, and highlights the efforts being made to improve the supply chain. The text also touches on the local market conditions and the needs of the community.

Flour Prices Reduced
 The wholesale prices of all our different grades of wheat flour and atta have been materially reduced... The advertisement announces a significant price reduction on flour products. It explains the reasons for the reduction, such as changes in market conditions and the company's commitment to providing value to its customers. The text lists the different grades of flour available and the extent of the price cuts.

Flour Prices Reduced
 The wholesale prices of all our different grades of wheat flour and atta have been materially reduced... The advertisement continues the announcement of price reductions on flour. It provides more details about the specific products and the timing of the sale. The text also mentions the company's contact information and where customers can purchase the flour.

UNGA Ltd., Njoro.
 The advertisement for Unga Ltd. promotes their flour products and the price reductions. It emphasizes the quality and reliability of their flour, and encourages customers to take advantage of the current sale. The text includes the company's name and location, and provides information about their distribution network.

 TRIUMPH SERVICE STATION.
 HARDINGE ST., NAIROBI.

Flour Prices Reduced
 The wholesale prices of all our different grades of wheat flour and atta have been materially reduced...
 The latest reductions have been made possible by co-operation between the wheat growers, who have agreed to a reduction in the price of wheat, and the two leading millers (Unga Limited of Njoro, and the Kenya Grain Mills Ltd., of Nairobi). These millers have reduced their prices to figures which will be absolutely unprofitable, even with the reduced price of wheat, unless their combined sales are increased by 8,000 bags of flour per month. They have made the reductions in the belief that such an increase is possible.

COFFEE LEGISLATION IN TANGANYIKA

Request for Review of Negotiation Methods

Purpose of the New Regulations

The Government of Tanganyika has issued a notice inviting the public to submit suggestions for the improvement of the regulations governing the sale of coffee. The regulations are intended to provide a fair and equitable system for the sale of coffee, and to ensure that the interests of the growers are protected. The regulations are intended to provide a fair and equitable system for the sale of coffee, and to ensure that the interests of the growers are protected.

The Tanganyika Railway Programme

The Government of Tanganyika has announced a programme of railway construction. The programme is intended to provide a network of railways that will connect the major towns and ports of the country. The programme is intended to provide a network of railways that will connect the major towns and ports of the country.

God's Acre

The East African Settlers and single families of the policy of before development. Obviously the settlement of the country by the Kenya Uganda Railway and the Tanganyika system is of the greatest importance to East Africa and to Germany, concerning the opening up of the southern highlands by a railway link which will eventually join with Rhodesia. It is not possible to have without some consideration of the effect of the railway on the whole of East Africa. It is not possible to have without some consideration of the effect of the railway on the whole of East Africa.

QUALITY counts in tea and so does freshness; you get both with Brooke Bond.

The Operation and Maintenance of a Broadcast Receiver

The operation and maintenance of a broadcast receiver involves several key steps, including tuning, volume control, and antenna adjustment.

Proper maintenance is essential for the long-term performance of a broadcast receiver. Regular cleaning and inspection are recommended.

The Coffee Market.

The coffee market shows a steady decline in prices for various grades of coffee beans.

Reports from the market indicate that supply remains high, leading to a continued downward trend in prices.

Market analysts predict that the current price levels will persist for the foreseeable future.
