Artistry in Craftsmanship

is almost dead. In an age of machinery and mass production, there is no room for individual expression. Your Beneveto Collins and Abdul Ferraris are setting as jewellery salesmen, and many blades manufacturers, these days, in an age when Stradivarius would have been reduced to making saxophones on a lathe, it is refreshing to find a craft institute from the point of commercialism. Own making is still an art. The English gunsmith is forced to cater for the cheap market, but he refuses to sell rubbish, any more than Chipendale would have sold deck chairs.

## ARMISTICE CEREMONY IN NAIROBI

Prince Lays First Wreaths on Two Memorials.

IN MEMORIAM

Wonderful Setting of Celebration of Tenth Remembrance Day in Kenya.

Armistice Day, the tenth anniversary of the signing of the Armistice at Compiègne, was observed in Nairobi on Saturday, November 11, 1918. The Prince of Wales, Duke of York and the African Memorial Committee were present at the ceremony. The ceremony was the most impressive yet seen in the Colony.

### A UNITED SERVICE.

The Remembrance Day service at the Cenotaph and Nelson Monument in Nairobi, Kenya, was a most impressive one. It was the first time since the war that such a large gathering had taken place in Nairobi. The Prince of Wales, Duke of York and the African Memorial Committee were present at the ceremony. The ceremony was the most impressive yet seen in the Colony.

### The Prince's Speech.

The Prince of Wales, Duke of York, in his speech at the Armistice Day ceremony in Nairobi, Kenya, on Saturday, November 11, 1918, expressed his deep sympathy for the fallen and his confidence in the future of the British Empire. He stated that the war had been a necessary one and that the British people had shown great courage and sacrifice. He concluded by saying that the British Empire would continue to stand for freedom and justice for all peoples.

### PRICE GOES TO SCHOOL.

The price of school books has risen sharply in Nairobi, Kenya, due to the increase in the cost of paper and printing. This has caused a great deal of concern among parents and the Government. It is hoped that the Government will take steps to reduce the price of school books in the future.

### Sees European Pupils at Work

The Prince of Wales, Duke of York, during his visit to Nairobi, Kenya, saw a group of European pupils working in a school. He was impressed by their hard work and the progress they had made. He stated that the British Empire was proud of the education it had provided for its subjects in the Colonies.

## ASPECTS OF THE BUDGET FOR 1927

### No. 2. Reduced Taxation

**£100,000 TO DECREASE LIVING COSTS IS CUT DOWN TO £75,000**

Further Expenditure During the Course of the Year Forecasted.

The second article in the Budget (the first appeared yesterday) shows that Government originally considered allocating £100,000 to reduce the cost of living by amendments to the Customs duties. On further reflection, the amount was cut down to £75,000.

Military costs have gone up, although it is proposed to reduce the R.A.F. by one Company. The increase in the Revenue Department—Agriculture, to £2,242,000.

### ONE COMPANY OF K.A.R. TO GO.

By A. Standard (Special)

THE second article in the Budget, which was published yesterday, has been read with interest by the public. It shows that the Government has decided to reduce the cost of living by amendments to the Customs duties. The amount originally allocated for this purpose was £100,000, but it has now been reduced to £75,000.

In 1926, the Colony levied £210,000 in motor public works in the form of generalised expenditure, and £10,000 was used to cover the Colony's surplus in 1926. Government proposes to spend £107,000 on motor works in 1927, £120,000 in 1928, and £130,000 in 1929.

## Locusts

### Official Review of Situation in Kenya.

The Department of Agriculture has prepared a summary of the damage done in Kenya to the crops of locusts and a note on the progress of the locusts in the various parts of the country.

It would appear that generally speaking the locusts, wherever they are found, are doing well in the north of Kenya, but are doing poorly in the south, and are doing very poorly in the south-western part of the country.

**Dancing Hoppers**

When the locust first hatched it was in a small hole in the ground, which was about 1/2 inch deep, and it was in this hole that it spent its first few days of life.

It is of the utmost importance that the water used should not be contaminated by the locusts. The water should be kept in a clean container, and should be changed frequently. It is also important that the water should be kept in a clean container, and should be changed frequently.

# CHRYSLER

## THE NEW '75'

TO THOSE who are familiar with the remarkable array of engineering and mechanical improvements with which Chrysler has invigorated the whole industry, it may well seem difficult to have added, in any great measure, to those remarkable achievements.

Yet the ingenuity, the persistence, and the capacity for infinite detail of the great Chrysler engineering staff have again added to their laurels, as

the new "75" demonstrates so capably and unmistakably.

There can be no doubt that the new 75-horse-power "Silver Dome" high-compression engine which powers this car ranks among the leading engineering feats of the decade. With any of the ordinary grades of petrol it yields the snap and power and speed which can only be developed under high compression.

### CRICKET IN NAIROBI.

#### Police Easily Defeat Civil Service.

##### CAIENS IN FORM

City 'Daily Star'

A Civil Service team were at home to the Police in Saturday last and were unable to do anything serious apart from bowling Thomson in particular before he runs, taking no wickets for eight.

Cricket was the only sport to show signs of having ability and in some of 22 men a worthy effort in view of the fact that the white team were out for 45 runs.

The Police did not play too well, two wickets being down the field run, but Cairns and Jarvis got together and by good strokes took home particularly strong on the off-side added 108 runs for the third-wicket.

Thomson was successful with the bat also and his 27 included a good hit for six.

O'Brien was the most successful bowler with five wickets for 42 runs to send his average.

The score was—

### LOCAL SCHOOL CRICKET.

#### An Easy Victory for Civil Service.

##### CENTURY BY OXFORD.

City 'Daily Star'

When Oxford opened for the first time in Saturday in their match against the Nairobi School, and in the second over put a ball right over the "wicket" wire for six, the spectators began to look for more fireworks and they were gratified with sufficient. In addition, went on in the same manner and with the exception of ten runs, Oxford played a magnificent innings for 112 not out. Peter, who left in form and played round the boundary four times "a la" Robinson.

The School undoubtedly felt the absence of Cairns their more successful bowler, who had run out an overcast wicket in Saturday.

With Rogers and Paige bowling well, the School were confident to take the drop and Smith was the only batsman to worry the bowlers, really although others combined double figures but they were unable to stay and the Civil Service won by 138 runs.

The score was—

### AMATEUR BOXING.

#### New Regulations Passed by A. B. A.

##### STANDARD CORRESPONDENT

March 12th—The 10th meeting of the A. B. A. was held at the Nairobi Club. In the presence of the members of the A. B. A. and the members of the Nairobi Club, the new regulations proposed by Capt. Chamberlain for the A. B. A. were discussed. The meeting was held at 7.30 in the evening and 27 minutes additional to give the necessary 30 minutes meeting by the A. B. A.

Mr. F. G. Jupp, who was in town prepared the minutes of the club since the previous meeting because he had attended the meeting in advance and found them reasonably correct.

A second important proposal was made by Capt. Chamberlain that the option of weighing in should be given to the boxer in the other. Capt. Chamberlain had pointed out that it was unnecessary to weigh in at all, it would apply to the body only, and that the weight of a boxer's clothes could be no way affect results.

##### Olympic Games

A proposal by H. G. H. Chamberlain that the club delegates and not the Council should have the power to say whether or not a boxer should be represented in future Olympic boxing was passed.

The Council was made up of Chamberlain, Mr. Chamberlain, instead of being beneficial, they were positively harmful to the cause of amateur boxing in Nairobi. Mr. A. L. Baly, (Penny Lodge, P.O.) was in office as one of the Council, and went further. "I want to apologise to you as I thought you were at least a case very well covered. Even that I thought I was entitled to that position being one of the best to representing it. A. B. A. was not at all successful in the past and in the future it will be especially disappointing if it is not successful in the future. The club were broken."

Mr. Baly's speech carried a lot of weight, and when Mr. Wilfred Noel of the Nairobi A. B. A. one of the Amateur boxing referees, had reviewed that in boxing of the British team had certainly disappointed up to the under twelve sponsored by the organizers. Mr. Chamberlain's proposal was put to the vote and carried unanimously.

In the next Olympic year the committee of the A. B. A. representatives will be elected by members with a view to the future of the A. B. A. It is necessary at a special general meeting called for the purpose.

# LIES' FASHIONS

## A Letter from Paris

(By Jean Cocteau)

Madame, when I returned to Paris in 1919, I found the fashion world in a state of confusion. The styles were still in the throes of a deep depression, and the designers were looking for ways to break the monotony of the post-war period.

The fashion press, however, was not so easily deterred. They were quick to pick up on the latest trends, and they were quick to tell the world about them. They were the first to announce the return of color, and they were the first to announce the return of the long skirt.

People in foreign countries, on the other hand, were not so quick to pick up on the latest trends. They were still in the throes of a deep depression, and they were still looking for ways to break the monotony of the post-war period.

# SPEED UP PRODUCTION!

## Help the African Peoples to Bear the Burden of Development.

The Government of Kenya is now making plans to speed up production in the agricultural sector. This is a necessary step to ensure that the African peoples can bear the burden of development.

The Government is providing subsidies to farmers to help them purchase modern agricultural machinery. This will enable them to produce more efficiently and to reduce their costs.

The Government is also providing technical assistance to farmers. This will help them to improve their farming techniques and to increase their yields.

The Kenya Agricultural Corporation (K.A.C.) is a Government-owned corporation that has been established to help farmers to speed up production. The K.A.C. provides a wide range of services, including the supply of modern agricultural machinery, technical assistance, and the purchase of agricultural produce.

The K.A.C. has a fleet of motor vehicles that are used to transport agricultural produce from the farms to the markets. This has helped to reduce the cost of transport and to ensure that the produce reaches the markets in good condition.

### The Money

If you ask the financial people for the figure of what the Government spent in 1927 the answer only invested £20,000 in the department of agriculture. In the year ended 31st March 1929, the amount of the grant was £40,000. In the year ended 31st March 1930, the amount was £80,000.

Year	1927	1928	1929	1930
Grants	£20,000	£40,000	£80,000	£160,000
Revenue	£10,000	£12,000	£15,000	£18,000
Capital	£5,000	£8,000	£12,000	£18,000
Subsidies	£5,000	£8,000	£12,000	£18,000

### New World

### Chicken Pox

Chicken pox is a common and contagious disease. It is caused by the chicken pox virus. The symptoms include a fever, a sore throat, and a rash. The rash consists of small, red, itchy spots that are usually accompanied by blisters. The disease is most common in children, but it can also affect adults.

The disease is highly contagious and is spread through direct contact with an infected person. It is also spread through the air. The disease usually lasts for about two weeks.

There is no specific treatment for chicken pox. The disease usually resolves itself on its own. However, there are several things that you can do to help relieve the symptoms. These include:

- Take antipruritics to relieve the itching.
- Use calamine lotion to soothe the skin.
- Take aspirin to reduce the fever.
- Rest and drink plenty of fluids.

If you are concerned about chicken pox, it is best to consult a doctor.

The Government is providing subsidies to farmers to help them purchase modern agricultural machinery. This will enable them to produce more efficiently and to reduce their costs.

The Government is also providing technical assistance to farmers. This will help them to improve their farming techniques and to increase their yields.

### And the Results

Despite the paucity of agricultural provision, there have been amazing increases in the value of native crops exported. In 1922 the amount was £27,582. In 1927 it had risen to £46,900. In 1928 it was larger still.

The increase in the value of native crops exported is a result of the Government's efforts to improve the agricultural sector. These efforts have included the provision of modern agricultural machinery, technical assistance, and the purchase of agricultural produce.

## Wincarnis gives you Life Blood

Thin blood is responsible for a larger number of losses than is dreamed of. Neuritis, indigestion, loss of appetite, dizziness, but a few, often have a more basic cause, coming rise but impoverished blood. The red corpuscles upon which life and health depend are made in insufficient quantities. Wincarnis supplies the deficiency. It gives rich red blood. Wincarnis cures all these minor but depressing ailments which take the zest out of life and hasten old age, and wards off the attacks of greater maladies. With the fine flavour and bouquet of good wine, it is at the same time the greatest tonic. New life flows into your veins when you drink Wincarnis.

ASPECTS OF THE BUDGET FOR 1929.

No. 4. How to Spend £81,000.

INCREASES IN THE COST OF THE POLICE AND PRISONS.

Prisoners increase by 35 per cent. in Five Years.

The following further instalment of the proposals made by Government in the new Budget for added expenditure during the coming year show efforts being made to strengthen the Police Force of the country.

Kabele is regarded as a centre of crime which must be properly controlled. The Force is also to be reformed and between Nakuru and Naivasha.

A striking statement is that the population of the Colony's prisons has increased by 35 per cent. during the last five years.

ANTI-MALARIAL CAMPAIGN STAFF.

By means of the staff of the 1929 Budget to spend the sum of £81,000, the proposed expenditure for the Colony is set out in the following table:

Table with columns: 1929, 1928, 1927. Rows: Kenya Police, Kenya Prisons, Kenya Railways, Kenya Post Office, Kenya Telegraphs, Kenya Telephone, Kenya Electricity, Kenya Waterworks, Kenya Public Works, Kenya Education, Kenya Health, Kenya Agriculture, Kenya Industries, Kenya Miscellaneous.

It is proposed to increase the Police Force by 100 men, and to increase the Prisons by 100 beds.

THE EAST AFRICAN STANDARD.

As from 1929 an Inspector in the Police Force will be appointed to be in charge of the Police Force in the Colony.

It is proposed to increase the Police Force by 100 men, and to increase the Prisons by 100 beds.

### Superior Performance Explains The Victory's Success

The Victory accelerates faster than any car in its price range.

It gives a faster on-the-road—more safety on the highway and more economy on the road.

Surplus power and unique design enable the speed to climb just as fast.

For Dodge Hornet Victory there is no other car of its kind in the world lighter yet sturdier—better yet safer—simpler yet stronger—the performance champion of the class.

### Anæmia? Then strengthen your Blood Cells

With Kalzana you increase life's vitality and vitality at the very cells of your body, because Kalzana feeds them with calcium, which is the basis of every body cell. Tropical anæmia is usually due to general debility and the lowered action of all the organs of the body.

The increased cell-strength, given by Kalzana, leads up your white corpuscles and speeds up the formation of red blood cells in a remarkable manner.

New and stronger blood will be the result of a few weeks use of Kalzana. The increased redness and lustre of your blood will at the same time hasten your teeth and so prevent tooth-ache.

### ASPECTS OF THE BUDGET FOR 1921

No. 3: How to Spend £81,000.

The communal division of the Education Department increase. The Plateau Detach School to be Taken over by Government: Wireless for Schools.

The Education Department has announced that it will spend £81,000 on various projects. The most important of these is the increase in the communal division of the Education Department. This will allow the government to spend more money on education, and to improve the quality of the schools. Another important project is the Plateau Detach School, which will be taken over by the government. This will allow the government to spend more money on this school, and to improve the quality of the education. Finally, the government will spend money on wireless for schools, which will allow the schools to receive news and information from other parts of the country.

### Military Costs

The Defence Force

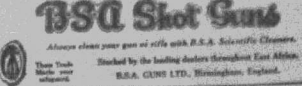

The Defence Force has been increased by 10,000 men. This is a very large increase, and it shows that the government is very serious about the defence of the country. The increase will allow the government to have a larger army, and to be better prepared for any possible attack. The government has also increased the number of ships in the navy, and has bought new aircraft. This shows that the government is very committed to the defence of the country, and that it is willing to spend a lot of money on it.

# The Problem of Control.

## What May be Accomplished by Intelligent Co-operation.

[STANDARD CORRESPONDENT.]

London, July 22.

The work which has been done in the last few years for the prevention of malarial fever, as demonstrated at the meeting held this week in connection with the Ross Institute of Tropical Medicine in the Council Room of the Rubber Croucher's Association, in East-Africa House, has made it clear that the time has come when the public health authorities of the various countries should be more fully informed of the progress of the disease, and of the methods by which it is spread, and of the means by which it may be controlled.

The Ross Institute of Tropical Medicine has been founded by Sir Charles MacLeod, chairman of the Ross Institute, and Sir John Ross, president and chief of the staff of a medical mission in the Sudan. The Institute is now a body of the Government of the Sudan, and is under the direction of Sir Charles MacLeod, who is also the Director of the Sudanese Medical Service. The Institute has been established in order to carry out the work of research and instruction in the Sudan, and to provide a centre for the study of tropical diseases.

## Official Report of Intensive Laying.

London, July 22.

The following report, which was received from the Director of Agriculture, shows the results of the intensive laying experiment conducted by the Department of Agriculture in the early part of the year.

The experiment was conducted in the early part of the year, and the results show that the intensive laying method is a highly successful one. It is found that the birds which were laid intensively produced a much larger quantity of eggs than those which were laid in the ordinary way.

# CHRYSLER

## THE NEW '75'

TO THOSE who are familiar with the remarkable array of engineering and mechanical improvements with which Chrysler has invigorated the whole industry, it may well seem difficult to have added, in any great measure, to those remarkable achievements.

Yet the ingenuity, the persistence, and the capacity for infinite detail of the great Chrysler engineering staff have again added to their laurels, at

the new "75" demonstrates so capably and unmistakably

There can be no doubt that the new 75-horse power "Silver Dome" high-compression engine which powers this car ranks among the leading engineering feats of the decade. With any of the ordinary grades of petrol it yields the snap and power and speed which can only be developed under high compression.
