THE MAN-EATING LIONS OF KENYA.

A Popular Fable Foisted on an Unsuspecting Public.

WHAT PASSPORT PHOTOS REVEALED:

Suspicion of a Man's Insanity.

KING AGAIN MAKES SLIGHT PROGRESS.

Further Suspension of Bahama.

AUSTRALIAN LABOUR TROUBLES.

Another Outbreak of Violence.

THE SALVATION ARMY IMPASSE.

Council Availing Reply From the General.

ABDICATON OF KING AMANULLAH.

Afghanistan's Ruler Gives Up the Throne.

FAILURE OF WESTERNIZING REFORMS.

Leaves Kabul by Aeroplane for Kandahar.

THEODORE BUTLER'S ARREST

It is strongly rumored on the District that King Amanullah has abdicated in favour of his son Prince Prince Amanullah, and has left for Afghanistan to assume the throne.

King Amanullah's abdication is not without some circumstances.

The abdication of the King Amanullah is not without some circumstances.

There was no ground for the rumor that the King was making any plans to return to Kabul.

THE MANGO STONE TRICK.

Came Worded on Japan's Test of Truth is an Attractive Fiction.

For many months an alluring fiction has permeated British and American journalism—the fable of the "Man-Eating Lions of Kenya."

Captain Hilditch, in the following article, exposes the fallacy. Kenya, respectively for Bosonone has no man-eating lions. Even in the Masai Reserve where there are some lions, but nothing like their fearsome kind, and had to be disciplined—the only deaths were due to injuries. No Masai made a meal for the King of Europe.

"RED-BLOOD PABULUM."

It is well well known, as to the fact that the Masai Reserve in Kenya has been the scene of a very serious epidemic of malarial fever.

The trouble with the Masai Reserve during the present malarial epidemic is not the fact that the Masai have no immunity against the malarial parasite.

It is the fact that the Masai have no immunity against the malarial parasite. The malarial parasite is a very serious epidemic of malarial fever.

If the epidemic malarial fever has been the scene of a very serious epidemic of malarial fever. The malarial parasite is a very serious epidemic of malarial fever.

Another reason for the epidemic malarial fever is the fact that the Masai have no immunity against the malarial parasite. The malarial parasite is a very serious epidemic of malarial fever.

Reducing the Cost of Lard

Some East African Recipes that will Help.

No. 12. When the Milk Turns Sour.

By A. K. S. S. S. S.

When the milk turns sour, it is due to the action of the lactic acid bacteria which are present in the milk. These bacteria are found in the milk from the very beginning and they multiply rapidly when the milk is kept at a temperature between 40 and 60 degrees Fahrenheit. The result is the production of lactic acid which gives the milk its sour taste.

CREAM OR BUTTER?

Butter is more economical than cream because it contains more solids and less water. It is also more convenient to use in cooking and baking.

STEAK CUTTERS

A good steak cutter is an essential piece of kitchen equipment. It allows you to cut steaks of uniform thickness, which is important for even cooking. There are several types of steak cutters available, including hand-operated and electric models.

AMERICAN BOURNONS

American Bourbons are a type of whiskey that is known for its smooth and mellow flavor. They are produced in the United States and are a popular choice for many people who enjoy whiskey.

PAN CAKES

Pan cakes are a simple and delicious breakfast food. They are made with a mixture of flour, eggs, and milk, and are cooked on a hot griddle. They can be served with various toppings, such as fruit, jam, or butter.

HEALTHY RECIPES

There are many healthy recipes that you can try at home. Some of these include whole grain bread, fresh fruits and vegetables, and lean proteins. Eating a balanced diet is essential for good health.

Interesting Chassis Improvements Patented.

The new-line American practices have been actively active in developing new fuel and carburation systems to give wide choice of operating an engine. Some of the methods are described in this issue.

It is well known that the engine is the heart of the automobile. It is also well known that the engine is the most expensive part of the automobile. Therefore, it is not surprising that the engine is the most carefully guarded part of the automobile.

HISTORY OF PLANNING CARDS.

The history of planning cards is a story of the evolution of a simple idea into a complex system. It began with the need for a way to keep track of expenses and income. The first cards were simple and primitive, but they were effective. Over time, they became more sophisticated and more widely used. Today, they are an essential part of many businesses and individuals.

WE SELL SERVICE AND REPAIR ALL MAKES OF CARS & TRUCKS WE GIVE EXPERT ADVICE TO WIRELESS ENTHUSIASTS

Something of the strenuous character of the locust campaign in Kituu... and something too of the feeling and heart-breaking hopelessness which must afflict...

But the Senior Commissioner has also some criticisms. He points out that 23,000 natives are doing ground work for eight hours a day and he questions whether they will continue to do so much longer without complaint...

No sooner are areas cleared of locusts than they are infested worse than before by fresh swarms.

REPLY TO CRITICS OF LOCUST OFFICERS.

Indications of the strain imposed on the native population of the Kituu area of the Transvaal Reserve by the locusts have been mentioned by the Senior Commissioner of Transvaal, Mr. W. J. Campbell, in an interview with the Standard...

It is pointed out, incidentally, that the locusts have been spreading for miles of the Transvaal.

Army of Volunteers.

The locust campaign began on Monday, Jan. 14, and has continued with increasing vigour since that date. The daily struggle of the locusts against the army of volunteers...

It is pointed out, incidentally, that the locusts have been spreading for miles of the Transvaal.

PRICE 25 CENTS.

GENERAL BOOTH DECLINES TO RETIRE.

His Answer to Request by High Council.

RESPONSIBLE FOR THE WELL-BEING OF THE ORGANISATION.

Contests Power of the Council to Change Constitution of the Salvation Army.

General Booth has refused to resign his leadership of the Salvation Army at the request of the High Council which is sitting at Salisbury Court. During the course of a lengthy reply to the Council's resignation, he pointed out that the founder of the organization insisted powers under which the High Council could remove a General who was found to be spiritually unfit or could fill a vacancy, but did not make any change in the constitution.

He also referred to his 54 years of service without rest on behalf of the Army. During his absence from headquarters the work had been slowly carried on by his Chief-of-Staff, against whom he had heard no complaint. There was no guarantee that a successor chosen by the High Council would be as successful in maintaining the principles of the Salvation Army.

He concluded by stating while he would welcome a complete rest, he would be less than a man if he agreed to retire at this juncture, when there was an agitation for a change in the foundation of that great religious body.

A THREAT OF EXPULSION.

By WIRELESS. The High Council of the Salvation Army is expected to be held at Salisbury Court, this morning. It is expected that the High Council will be held at Salisbury Court, this morning. It is expected that the High Council will be held at Salisbury Court, this morning.

MUNICIPAL REPRESENTATION—THE INDIAN POSITION

To the Editor, *N.E.S. Standard*—It is a pleasure to Mr. Nandani and the Executive of the K.C.I.A. in general. I must confess that I have been a member of the Executive since I was elected to the office of the Municipal Council in 1958. I have since then been a member of the Executive of the K.C.I.A. in the Municipal Council. He was one of the delegates sent by the K.C.I.A. to the National Conference in 1962. He was one of the delegates sent by the K.C.I.A. to the National Conference in 1962. He was one of the delegates sent by the K.C.I.A. to the National Conference in 1962.

The Latest Lambda Lancia.

Features of latest 16 H. P. Weymann Saloon.

Triumph Super Seven's Record.

The principal object of the Carbur Automobile Company's request that I should take out the latest example of their 16 H. P. four cylinder light wheel-base Weymann might have to show you how developed a space the car can be turned round.

We are confronted with another burning law which is the forced driver, turning round in certain London areas unless they can do so in one movement.

Not knowing it to be allowed a restriction which, if the order is made good, will lead to some distressing tangles. How many of us know, for instance, that in what space we had turn back and forth? And how many of us can judge the width of a street, even of a familiar one, empty of crowds? I myself on certain occasions in the summer, as I found out the other day.

By Pam Retalick.

During the course of my trial of the Lambda we made three complete turns round on three typical thoroughfares.

I began with the Kingston Avenue, near the railway in Ewell. It was surprising that the car turned the corners with ease. The turning circle was so good that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The Lambda did not fail to turn round in any of the three typical thoroughfares. In fact, it turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

Just. The same as above what you see it with it.

The Weymann engine has a bore and stroke of 75 by 100 which makes a capacity of 1600 over two litres and a 16 H. P. engine.

The car is very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

was impossible to get through the 75 Weymann and other cars. I know the Triumph and the Lancia, but the Lancia is much more manoeuvrable than the Triumph.

The car is very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

The car was very manoeuvrable. It turned round so easily that I was able to turn round in a single movement. This was a surprise, as the car is so small and the turning circle is so small.

LIBERATION SYSTEM TO NEW TRIUMPH MOTOR CYCLES

To the new Triumph model No. 1023 a form of semi-liberation system is introduced by which oil is fed from the crankcase to the mechanical parts of the engine in the usual way, but a separate automatic system is provided.

After leaving the crankcase the oil is carried to the piston and pressure is maintained by which the oil is fed to the mechanical parts of the engine in the usual way, but a separate automatic system is provided.

The new system governing the supply of oil to the piston and pressure is controlled so that a constant supply to a particular cylinder is maintained. This is done by means of a valve and bearing assembly on the fly wheel. The regular periods of supply are controlled by a governor which is connected to the timing gear and timing gear.

The new system governing the supply of oil to the piston and pressure is controlled so that a constant supply to a particular cylinder is maintained. This is done by means of a valve and bearing assembly on the fly wheel. The regular periods of supply are controlled by a governor which is connected to the timing gear and timing gear.

A Letter from India.

The Home Government should not be surprised if a similar response is not forthcoming from the Indian people. The Indian people are not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government.

STANDARD DISSENTMENT

There were some who were of the opinion that the Government should not be surprised if a similar response is not forthcoming from the Indian people. The Indian people are not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government.

LABOUR OPINION

The Labour Party in India is not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government.

This stopped my Backache

As application of Sloan's Liniment done regularly in relieving backache—the liniment pain so many women suffer from. Gently laid on it penetrates—soothes and warms—and instantly a stream of fresh new blood comes tingling through the affected parts, driving out congestion, bringing sweet relief from the nagging pain. Clean and easy to use.

"A Wonderful Cure"

"I had pain in my back which was unbearable. I used Sloan's Liniment and in one week it was all my own work. Everyone says it is a wonderful cure."—Mrs. W. H. Smith, Chicago, California.

Sold by all Druggists.

Sloan's Liniment KILLS PAIN

The Standard Treatment for BRUISES, SCALDS, LAMENESS, SPRAINS, ACHING MUSCLES, &c.

Apply to the neck, face, or any part of the body. It is a wonderful cure for all kinds of pain.

BIRD'S CUSTARD

Apply to the neck, face, or any part of the body. It is a wonderful cure for all kinds of pain.

The Labour Party in India is not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government. The Indian people are not yet ready to accept the proposals of the Government.

Wemy's Appeal

The Wemy's Appeal is a wonderful cure for all kinds of pain. It is a wonderful cure for all kinds of pain. It is a wonderful cure for all kinds of pain. It is a wonderful cure for all kinds of pain.

SCOTTISH RUGBY TRIALS

The Teams for the Final Test.

PROBABLY TO MEET FRANCE

Both Scotland and England are backed on international rugby by the British public, but Scotland has more of the favour of the press. The Scots in the season were fairly representative but, due to the difficulty of getting players from the highlands for conditions. The trials during this year—

RIFLE SHOOTING.

Eldoret Win Humphries Memorial Shield.

NARROW VICTORY BY SIX POINTS

The trial for the right of the Humphries Memorial Shield, which has been the property of the British public, was won by Eldoret, who defeated the other competitors by six points. The trials were held at the British Rifle Club, and were open to all comers. The trials were held on the 15th and 16th inst. and were won by Eldoret, who defeated the other competitors by six points.

KENYA LADY GOLFERS.

Why Not a Championship Meeting?

A POPULAR COMPETITION IF ORGANIZED

Why a ladies' championship meeting for the ladies of Kenya? It is a question which has been asked by many of the ladies who are interested in the game of golf. The ladies of Kenya are now in a more anxious than ever to see a ladies' championship meeting organized for the ladies of Kenya. The ladies of Kenya are now in a more anxious than ever to see a ladies' championship meeting organized for the ladies of Kenya.

CRICKET.

Kenya's Visit to Nottingham.

WIN AGAINST

STANDARD CORRESPONDENT:
The Kenya cricket team, who played on the 11th inst. at Nottingham, won the match by a large margin. The Kenya team played very well and showed a lot of improvement. The Kenya team played very well and showed a lot of improvement.

TROUBLE CAUSED BY TRANSFER OF A DISTRICT COMMISSIONER.

European and Native Disquiet in Moshi District.

OFFICIAL STATEMENT.

African Fears of a Change in Government's Land Policy.

Manufacturing on the part of natives and Europeans is reported to be the cause of the District Commissioner's transfer to Mombasa...

It is pointed out in the explanation it would appear that the natives, wrongly believed that the transfer was connected with a change in Government's land policy...

The actual cause of the removal of the District Commissioner is stated to be a conflict of opinion between him and a government resident in Moshi with regard to township matters.

Protest meetings against the removal of the District Commissioner were held at the time in the Mushi District.

GOVERNMENT'S EXPLANATION.

It is pointed out that the transfer of the District Commissioner was caused by a conflict of opinion between him and a government resident in Moshi with regard to townships matters.

Official Statement. An official statement was issued yesterday by the Secretary of State for the Colonies...

SEM OCHI

(Special to "EA Standard")

Mr. Kragels, who is the
British Consul at the
Mauritius, has just
boarded a motor launch
for the Seychelles. This
is the first time since
the war that a British
Consul has visited the
Mauritius.

Several reports of a
quail epidemic in the
Mauritius, which has
been reported for
months past, have now
been confirmed. The
quail, which was first
seen in the Mauritius
in 1918, has since then
been reported in many
parts of the island.

During the last 24 hours
of the week, a large
quantity of quail were
seen in the Mauritius.
The quail, which was
first seen in the
Mauritius in 1918,
has since then been
reported in many
parts of the island.

What to do
The quail epidemic
is a very serious
one, and it is
important that
the authorities
should take
steps to
prevent its
spread.

It is reported that
the quail epidemic
is a very serious
one, and it is

CHEVROLET

The Proof is in the Driving

-come take a ride in the New Chevrolet!

An automobile might look impressive in a showroom. It might give the appearance of being comfortable—of handling easily—of being a joy to drive. But the proof is in the driving—to come take a ride in the Bigger and Better Chevrolet!

In design, this new car represents the combined wisdom and experience of Chevrolet engineers and chauffeurs. It offers every feature that a designer demands of an automobile—of ease and comfort—of speed and power—of safety and reliability.

That is why you know you are getting a demonstration of the new Chevrolet.

We want you to learn what engineering progress has made possible in a low-priced automobile. We want you to experience the new something in power, speed, handling, ease and comfort achieved by such features as constant clearance alloy "invar strut" pistons, suspension service valve tappets, ball bearing steering gear, long semi-elliptic springs set parallel to the frame and roomier new bodies by Fisher.

We have a demonstrator ready for you at any time you wish. Come in—call up—and drive before you buy!

A CALL TO NAIROBI

A Proposal to Form a Small Standing Committee.

SIMPLICITY THE KEYNOTE.

Elementary Machinery to Give the Public Opportunity for Expressing Views.

It is suggested that a small standing committee be formed to give the public an opportunity for expressing views on the proposed railway project.

The committee should be simple in its structure and should be able to meet frequently to discuss the various aspects of the project.

It is suggested that the committee be composed of representatives from the various sections of the community.

The committee should be empowered to make recommendations to the government on the proposed railway project.

It is suggested that the committee be given the right to call for evidence and to hold public hearings.

The committee should be given the right to make recommendations on the proposed railway project.

It is suggested that the committee be given the right to make recommendations on the proposed railway project.

The committee should be given the right to make recommendations on the proposed railway project.

It is suggested that the committee be given the right to make recommendations on the proposed railway project.

The committee should be given the right to make recommendations on the proposed railway project.

It is suggested that the committee be given the right to make recommendations on the proposed railway project.

The committee should be given the right to make recommendations on the proposed railway project.

It is suggested that the committee be given the right to make recommendations on the proposed railway project.

The committee should be given the right to make recommendations on the proposed railway project.

It is suggested that the committee be given the right to make recommendations on the proposed railway project.

The committee should be given the right to make recommendations on the proposed railway project.

This is due to the fact that the wireless industry is now beginning to feel the effects of the depression. This is due to the fact that the wireless industry is now beginning to feel the effects of the depression.

The Valves.

The Three Main Classes.

The first class of valves is the vacuum tube. This is the most common type of valve and is used in a wide variety of applications. The second class is the gas-filled tube. This type of valve is used in applications where a long life and high efficiency are required. The third class is the solid state valve. This type of valve is the most recent development and is used in applications where a small size and low power consumption are required.

The vacuum tube is the most common type of valve and is used in a wide variety of applications. It consists of a glass envelope containing a vacuum and a filament. The filament is heated to emit electrons, which are then controlled by a grid to produce an amplification effect. The gas-filled tube is used in applications where a long life and high efficiency are required. It consists of a glass envelope containing a gas and a filament. The filament is heated to emit electrons, which are then controlled by a grid to produce an amplification effect.

The solid state valve is the most recent development and is used in applications where a small size and low power consumption are required. It consists of a semiconductor material that can be used to produce an amplification effect. The solid state valve is the most recent development and is used in applications where a small size and low power consumption are required. It consists of a semiconductor material that can be used to produce an amplification effect.

The second class of valves is the gas-filled tube. This type of valve is used in applications where a long life and high efficiency are required.
