NEW EDUCATION BILL FOR KENYA.

A Drastic Measure.

FIRM CONTROL OF ALL SCHOOLS, STATE OR PRIVATE, IN THE COUNTRY.

Compulsion Powers.

ENFORCED LICENSING OF ALL TEACHERS IN ALL INSTITUTIONS.

The new Education Bill is the greatest contribution to the future of Kenya yet made by the Government.

It means that the State will have full control of every type of school and be in a position to enforce a set standard of education.

Among the benefits is compulsory medical inspection of children. Provision is made for compulsory education of children. The Bill also provides for the appointment of a Board, advisory to the Government and for the district education officers to local committees.

A definite move has at last been made by the Government to bring the education system into line with established conditions in the field of education. An ordinance provides for the management of education to be published in the Official Gazette for public information and criticism, and will be known in future as 'The Education Ordinance, 1925'.

The Ordinance provides for the supervision of education of all rates in Kenya by a Board appointed by the Government, and the Director of Education and the Chief Native Commissioner shall be ex-officio members. The Board shall have at least four other members of whom two will be members of the Legislative Council.

Much of the power will be retained by the Chairman of the District Education Committees, but having a deliberative as well as a casting vote, which may be deleterious to another member in the absence.

The function of the Board shall be to advise Government on all matters relating to education on which the Board has no power. The Education officers will be independent.

The Ordinance also provides for the division of the country into 'school districts'. Each district shall have an Education Committee, having an Education Officer, consisting of the six or twelve members which shall be appointed for two years by the Governor.

Any person of full age and legal mind residing in the territory of the district in which he resides, unless he has been guilty of an offence which has rendered him unfit to hold office, or is a bankrupt, may be appointed to the committee.

In order that the committee may take their duties, a meeting of the committee shall be held on the first day of the month of January in each year, and the committee shall meet at least once in every month.

The Chief Administrative Officer will be chairman of the committee. The committee shall have the duty of making recommendations to the Director of Education regarding the care of school buildings, and the committee shall have control of the letting of school buildings.

It shall also be part of the duty of the committee, subject to the approval of the Director of Education, to make the necessary provision for school districts, and to provide for the care of school buildings, and the committee shall have control of the letting of school buildings.

In regard to financial matters, the committee shall have the duty of making recommendations to the Director of Education regarding the care of school buildings, and the committee shall have control of the letting of school buildings.

The committee shall have the duty of making recommendations to the Director of Education regarding the care of school buildings, and the committee shall have control of the letting of school buildings.

The committee shall have the duty of making recommendations to the Director of Education regarding the care of school buildings, and the committee shall have control of the letting of school buildings.
