**Soviet output
five times
above US**

THE Soviet Union has produced five times as many military aircraft as the United States since 1941. General H. V. Henderson, Chief of Staff of the United States Army, is quoted in an article in *Planes*, a feature of the *Aviation* and *Aircraft Industry Association*.

The General declared that as described in the United States in an article appearing in the same issue of the magazine, the Soviet Union had built 12 military aircraft in the first three months of the year 1944, while the United States produced only 2,000.

General Henderson said that the Soviet output was equaling or surpassing that of the United States in 1944.

He declared that in 1944 more than 20 months since the beginning of the present air power boom, America was only being caught up by the Soviet Union.

He said that the Soviet Union was producing aircraft at a rate which was being equalled or surpassed by the United States.

THESE PICTURES TELL THE HISTORY OF 1952 IN EAST AFRICA

There can be no doubt that the year 1952 was one of the most memorable in the history of Kenya and East Africa. It was a year in which the eyes of the world were focused upon us for both joyous and tragic reasons.

It was the year which brought the Royal visit, an occasion of great joy and happiness which was to end so tragically with the death of King George VI. And it was the year which brought the State of Emergency with which 1953 has started.

Here, in pictures, are recalled some of the events of the past 12 months. On the top left, Sir Andrew and Lady Cohen are seen receiving Uganda dignitaries after the swearing-in of Sir Andrew as Governor of Uganda in January. Below it is a photograph taken in November during the tour troubles. Mr. Lyttell is seen with Senior Chief Njiri of Fort Hall. Bottom left, Lt-General Sir Alexander M. Cameron, G.O.C. East Africa, inspects Kenya's National Servicemen at their passing-out parade in June. On the right, Sir Philip and Lady Mitchell at the foundation stone-laying ceremony of the new Legislative Council building in March. Below that picture, the Bishop of Mombasa is seen at the consecration of the Cathedral of the Highlands in March.

The greatest and most memorable event of the year was the visit to the Colony of Princess Elizabeth and the Duke of Edinburgh at the start of what was to have been their tour of Australia and New Zealand. In the picture above the Princess is seen opening the door of the Royal Lodge at the house owned by Sir Philip Mitchell. It was there that she met the Princess on the tragic death of her father, King George VI, due to London to inspect Her Majesty Queen Elizabeth II.

The new Governor

A TALE OF TWO VILLAGES

MUCH more than half the Communist forces in Malaya is the struggle for the north and middle new villages—the once isolated, independent villages, mostly Chinese, who have been regrouped looking barred wire in the defended encampments.

... being a story of Malaya's fight against Communism, the moral of which is that when you win respect you win a victory over the hearts and minds of men.

The 1st Battalion of the 1st Indian Infantry Brigade was the only unit of the 1st Indian Infantry Brigade that was not equipped with tanks and armoured cars.

provide labor to build a new and better village inside a defended zone. Why did all this midwinter snow in Pagan fall on the streets of Kampong Tengah, whose people had been so long and so hard on a snow-bound road? The answer is that the Communist forces had been so long and so hard on a snow-bound road.

'He has returned' TAKING Chong Peng with them, he went to Kampong Tengah. He was with the 1st Battalion of the 1st Indian Infantry Brigade. He was with the 1st Battalion of the 1st Indian Infantry Brigade.

CHONG PENG understood perfectly. From then on, he was with the 1st Battalion of the 1st Indian Infantry Brigade. He was with the 1st Battalion of the 1st Indian Infantry Brigade.

Comparisons

The 1st Battalion of the 1st Indian Infantry Brigade was the only unit of the 1st Indian Infantry Brigade that was not equipped with tanks and armoured cars.

Attack on post

LEAVING two of his men to look after the police guard the terrorists cut the line of communication between the village and the outside world. The 1st Battalion of the 1st Indian Infantry Brigade was the only unit of the 1st Indian Infantry Brigade that was not equipped with tanks and armoured cars.

Inevitable day

CHONG PENG understood perfectly. From then on, he was with the 1st Battalion of the 1st Indian Infantry Brigade. He was with the 1st Battalion of the 1st Indian Infantry Brigade.

Near terrorists

B'CAUSE many of the men had part-time work as rubber tappers on the estates, the village had to be left of the main road, water for their work — and hence the isolation of the village. The 1st Battalion of the 1st Indian Infantry Brigade was the only unit of the 1st Indian Infantry Brigade that was not equipped with tanks and armoured cars.

In disgrace

B'CAUSE he was to be obedient, Pehlan was to be obedient. The 1st Battalion of the 1st Indian Infantry Brigade was the only unit of the 1st Indian Infantry Brigade that was not equipped with tanks and armoured cars.

The report, which emphasizes balance by Western Europe on building production facilities to meet the goals of the North Atlantic Treaty Organization's long-range program, states that the region's production reached a record level of 111.5 billion metric tons in 1952, a gain of 12 per cent over 1951. The report also suggests that the United States should encourage its citizens to invest in foreign countries.

The report, which is the first since the Department's formation, shows that the United States has a large amount of capital invested in foreign countries. CHIEF KILLED IN HOSPITAL Wounded in attack last month

African walked into the brightly lit busy Kilombo Native Hospital on Sunday night, and shot dead Kilombo Chief Hinga Waganjo. The Chief was in the hospital—which is one of the most heavily guarded in the Colony—recovering from wounds sustained when an attempt was made on his life on November 27. Chief Hinga, who was not confined to bed, lay in a small single room of the main passage joining two wards. He was not under any special police guard. From evidence so far known, the murderer apparently entered the hospital and went straight to the Chief's ward, where Chief Hinga must have been sitting up in bed—he was shot through the heart at point-blank range. A second shot was fired through his head, seemingly as the attempt failed. A third shot is believed to have been fired, but this missed the head. An African working in a ward only few yards away, heard the shots. He ran to investigate, and saw a man making off. It is thought a second man was waiting outside, and the two men disappeared together. The names of Africans who were wounded as part of the incident are being kept secret by the police, but it is understood that a little over a dozen were injured. It is understood the police have no detailed description of the murderer.

THE UNCERTAIN FUTURE OF HARRY S. TRUMAN

Mr Churchill In America
Britain's Prime Minister...
for a short series of talks...

While Mr Churchill will be talking up his high office...
those days of office and authority...

It is over 11 years since Mr Churchill...
took office as Prime Minister...

He goes to America this time...
with a far greater mandate than he did before...

There is little doubt that Mr Churchill...
will be received by Mr Eisenhower...

It is unlikely that the informal...
report or Kerr will be omitted from the speech...

How much of the conversation...
will depend on the individual...

The second part of the report...
contains six directives for which...

The Federal Legislature will...
be a Federation of the kind...

There are, however, some...
important differences...

In a fortnight's time the 33rd President of the United States...
will be leaving his job...

Mr Truman has not yet decided...
whether to run for a second term...

It is probable therefore, that Mr Truman...
will not vacate his desk at the end...

Brackenhurst climb one of best ever

SUNDAY'S speed hillclimb at Brackenhurst was one of the best and most popular events of its kind to be run in this, the senior motor sports event of the Colony. The old long course was used starting just before the dam and including three severe hills.

Good and competition keen. The race was a great day for the motor sports fans. The race was held on Sunday, January 21, 1951. It was only a matter of time before the motor sports fans would be flocking to this event and steadily increasing their numbers to those of the past.
