Asian Civil Service Association meeting of the day, the Governor, Sir Evelyn Baring, when he declared that the Government had agreed that the Government would accept the 50th rule.

The 50th rule, which is a modification of the 49th rule, is a concession to the Government by the Association. It provides that the Government shall have the right to transfer any officer from one post to another, provided that the officer is not a member of the Association. This rule is a significant concession to the Government, as it allows them to transfer officers to posts where they are needed, without the consent of the Association.

### Not appreciated

The 50th rule is not appreciated by the Association. They feel that it is a violation of the principle of seniority, which is one of the basic principles of the Association. They also feel that it is a violation of the principle of merit, as it allows the Government to transfer officers to posts where they are needed, without regard to their qualifications or experience.

There were two centuries in the drawn thirty-eight match at Londiani in which Africa, who were the losers, had at wicket date 100 runs before M. O'Brien (112) and A. Davy (92) out of 148, substituted for the seventh wicket, making a declaration to be made in late afternoon.

Dod knocked in by J. Ryan, 112, and H. Harris made Africa's declaration of Kenya making 85, out of 100 minutes including 45 and eight fours.

Left to make 181 runs in 46 minutes in 34 minutes through this group of 10 batsmen, of whom only three had any share in the score. They made 436 in 58 minutes and a wicket, giving Africa had a chance of re-organizing it.

But both P. R. Harrison and J. Ryan were out in 48 minutes and J. Ryan scored 103 runs while making 411 runs with the West Indies, who were out for 388 runs in 100 minutes.

**Foot beginning**  
At Machakos, Gymkhana started off brightly but eventually succumbed to 238 runs, which were made in 212 minutes. The match was drawn with the West Indies by 100 runs.

Machakos looked like being out through, when the wicket was closed, but the batsmen's efforts enabled the eighth lead to be added to the score. The match was drawn with the West Indies by 100 runs.

At Londiani, a good afternoon for the Rest was followed by a rain which cancelled the match. The match was drawn with the West Indies by 100 runs.

I've got a date... I must stop my engine!

**Yes, but 'stop and start' motoring increases CORROSION**

When you switch off, the engine cools and the harmful products of corrosion—acids and moisture—begin to condense. Unless you are using Shell X-100 Motor Oil—the protective oil—these acids settle on the cylinder walls and corrode them. Research has proved the corrosion is the major cause of engine wear.

# HOLLYWOOD IS SWITCHING TO 3-D FILMS

FIVE of Hollywood's best film studios are now turning to the production of three-dimensional films. This is a case of the big-brother following a trail headed for the little brothers as soon as they have realised that it is leading to quick sales and huge profits.

The first American three-dimensional film was 'The Man Who Walked Down the Mountains' by a small independent producer called Arturo Cappa. It cost \$100,000 and was a failure. It was not until 'The Man Who Walked Down the Mountains' was shown in London that the industry realised that it was leading to quick sales and huge profits.

## Full hours

New York has the new American Cinema show after six months' postponement - by the most difficult film or theatre to get into. The immediate effects are provided for by spectacles led by a supporting cast of screen-continuity of the film.

Warner Brothers are now halfway through filming a mystery thriller called 'The House of Wax'. Paramount has to show itself - by the most difficult film or theatre to get into.

## 'Here to stay'

NONE of them has only a certain amount of confidence when the film industry is just climbing back onto its feet. It has been in far too long, they confess after it hurts doing something which the public is not willing to pay for.

Writing in the Sunday Express magazine, Gerald Schell says that for Hollywood this is not any speculative develop-

## In colour

DISNEY revealed that Jean Renoir's 'The Grand Illusion' is being shot in colour. The film is expected to be released in London, New York and Paris soon.

The general feeling in Hollywood is that by 1939 'talk' films will be as common as black and white films. The opinion of British producers is that the same will be available to them.

M. SIMMONS, who will star in the first three-dimensional colour film, 'The Hawk'.

## REPORT ON KENYA

THE B.B.C. recently interviewed Col. J. Willie to make a special study of Kenya. The result of which has made an impression on the programme and three talks in which Mr. Willie will endeavour to cover as many aspects of the country and its life as possible.

Announcing the feature, London Cinema said: 'The Masai of Kenya is not a new feature programme and three talks in which Mr. Willie will endeavour to cover as many aspects of the country and its life as possible.'

The bank organisation, which is one of the most important in Kenya, is to be held in London. The bank organisation, which is one of the most important in Kenya, is to be held in London.

MR. ALEXANDER KORDA: 'We hope to make a start on production before the end of the year. We must see some things before every British cinema is 3-D. We must see some things before every British cinema is 3-D.'

MR. JACK HALPER, managing director of Screen Technique, a British firm which produced 'The Hawk' in 12 films within 18 months after its Berlin production would be showing only two.

Head and Heart

IT seems to me that there are two main sides to my personality: the thinking side and the feeling side. The thinking side has the head and the feeling side has the heart. In all things feelings there should balance between the two. And speaking very broadly, the masculine personality is the one in which the balance is slightly on the thinking side, and the 'feminine' is the one in which the balance is slightly on the feeling side.

RADIO THEATRE Next Week

IN 1901, Sir Arthur Pinero's 'Iris' was produced at the Haymarket Theatre, London. It is not one of his very best plays, but it is one of his best.

When life is hard for us in this day and age it is very interesting to read to which 'Some of the best' of his plays are based. The play is one of his best.

centred. Success will depend upon the way in which the federation is organized. The British Government has proposed that 20 per cent of the Federation of African States should be reserved for the use of British subjects. This is a point which will be raised in the forthcoming year when the federation is to be formally established.

### Still a puzzle

In Parliament the Government is making a statement on the effect in Africa of having a central body. It is a puzzle to many of the African people.

body at the first step of organization. The Government is taking the time to do this. It has already decided that Africa should be reorganized. The proposals are to be discussed in the coming year.

### Safeguards

This is the most serious with reference to the emergency provisions of the Bill. It is a safeguard against the possibility of a state of emergency being declared.

### Two hurdles

The Government has set two hurdles in the way of the Federation of African States. The first is the question of the status of the Federation.

# MAU MAU AND THE KIKUYU

By Dr L. S. B. Leakey

The fifth article extracted from Dr. L. S. B. Leakey's book 'Mau Mau And The Kikuyu' deals with the breakdown of tribal customs. The final article will appear in a week's time.

In the days of my boyhood, when I lived in the Kikuyu Reserve, there was a lot of tribal and pagan customs, either from members of other tribes or those who were living in the country as accepted neighbours. The elements of this were not due to the fact that I was not a Kikuyu, but that I was not a Kikuyu. It was not due to the fact that I was not a Kikuyu, but that I was not a Kikuyu. It was not due to the fact that I was not a Kikuyu, but that I was not a Kikuyu.

### Temptation

There is no longer any attempt to spread the various territorial areas... The temptation is to give up the idea of a new territory, and to accept the status quo.

### Bribery

I BELIEVE that it was this, which, in so much as it was a bribe, which was the cause of the breakdown of tribal customs.

### The bright side

I HAVE said so much about the breakdown of tribal customs... The bright side is that the people are becoming more aware of their rights and responsibilities.

### 'Too rapid'

When I was a boy there was a saying that a man should be a man... The change is too rapid for the people to adapt to.

### Drunkenness

THE late breakdown of the age-group organization and the collapse of respect for tribal law and custom... Drunkenness is a major problem in the community.

### No smoking

There are some good news for the Kikuyu... No smoking is being encouraged as a means of improving health and productivity.
