RANDOLPH TURPIN IMPRESSES U.S.A

'Sugar' Ray on a course of vitamin pills

A WEEK today at the Polo Ground, New York, Britain's finest boxer, will defend his crown against 'Sugar' Ray Robinson of America from whom he took it in London last July. The prospects for the fight are creating some of the greatest interest in the history of the ring in the United States.

But through it all Turpin continues to improve, even to the point of being the leading contender for the British title. The Daily Mirror's New York correspondent writes that Turpin is 'clearly in training to hit out some of the world's best and he has been enjoying his routine American'.

After winning against Al E. B. in New York, he had a good fight with Ray Robinson, but he has been having the same good fight, saying 'I hope to see this fight in London, I have seen a little too few with ropes and heavy gloves and I hope to see it in London'.

The American, George Ziegler, says that he has seen Turpin in action and that he is 'a very good fighter'.

Turpin is expected to be in London in the middle of the month and to fight Robinson on the 15th.

DOCUMENTS HELP CLEAR THE PORT

Publicity praised for improvement

THERE are signs that the congestion in the transit sheds of the Harbours of London is beginning to clear. In the past several weeks the Superintendent of Ports and Light, Captain C. Hanley, revealed that documents for unloading consignments which have now been lying in the transit sheds for weeks are beginning to pour into the dock office.

Credit for this Captain Hanley's efforts at the publicity given by the situation, and the meeting between port authorities and Chambers of Commerce representatives in the Harbours of London.

The conclusion of a sterling payments agreement between the Government of Britain and that of the United Kingdom, which marks a further extension of the sterling area, is a significant event in the financial and commercial life of the world.

The agreement, which was signed in London on September 15, 1951, gives Japan a unique position in the sterling area. It is the only country in the world which has a sterling payments agreement with the United Kingdom.

The agreement provides for the payment of Japanese goods and services in sterling, and for the payment of sterling in Japanese goods and services. It also provides for the payment of Japanese goods and services in sterling, and for the payment of sterling in Japanese goods and services.

The agreement is a significant step towards the integration of the Japanese economy with the world economy. It will enable Japan to trade more freely with the United Kingdom and other countries in the sterling area.

CROWN LAND IN NAIROBI

Government states policy

NO INTENTION OF MARKETING SINGLE PLOTS TO RAISE PRICES

The Kenya Government releases Crown land for business purposes in Nairobi's "A" square, the intention of which is to be made available simultaneously. Mr. Maxwell, Acting Deputy Chief Secretary, made this clear in a statement with the East African Standard yesterday. He said he has no intention of placing single plots on the market. The idea is to put the whole area in one lot. The Government is not to be taken in by the "city square" which Government has been told is the only thing running along Government land in that various portions of the land are occupied by military buildings and Government buildings. The Government will not sell the land without their price being made.

Rations in Britain are cut again

NEW ration cuts came in force in Britain yesterday. The weekly ration card for bread was cut from four to three ounces. From next Sunday the bacon ration will drop from four ounces to three. Canned with the most efficient rationing system in the world. Nearly all other things are rationed. The Government has been successful in its policy. The rationing system is working well. PERSIA'S DOLLARS BLOCKED

New move by Britain

INSTRUCTIONS TO LAST UNTIL SOLUTION MADE POSSIBLE

When the oil "war" Britain has withdrawn from the special facilities she has been allowed for converting her dollar bills. About £2 million, equivalent to some £10 million in Persia, is understood to be provided, to meet the needs of the British oil companies. The British Government has been told Persia, that because of the oil embargo, it cannot longer convert its dollars into gold. The Treasury said the Government would be obliged to spend large sums of dollars on replacement of the oil "war".

TANGANYIKA REPORT CONDEMNED

British newspaper comment

"TANGANYIKA has already been the scene of one distasteful episode" - the great Tanganyika government. It would be surprising if the British Government were to be criticised, with an equal lack of discretion, to a political regime on "Tanganyika".

The Daily Telegraph reports that the British Government has been told Persia, that because of the oil embargo, it cannot longer convert its dollars into gold. The Treasury said the Government would be obliged to spend large sums of dollars on replacement of the oil "war".

The total figure covers a variety of proposed regional investments for public utilities, semi-public bodies and private investment in the Belgian, French, Portuguese and British possessions of Africa which O.E.C.C. officials have studied.

ALLIES INFLICT HEAVY LOSSES

Communist offensive forecast

ATTACKING United Nations forces over the Irtish River on the western front in Korea yesterday and in the centre successfully carried through a "decisive" offensive attack. The mission, an Allied briefing officer said, was to disorganise enemy plans and inflict heavy losses on them.

In the western front action, only light Communist forces were encountered.

The briefing officer said that the actual front was the Irtish River. The Communist forces were disorganised and heavy losses were inflicted.

ENGLAND'S INTERNATIONAL TEAM PROBLEMS

Wanted—centre-half and centre-forward

By Peter Dutton

THE first full international of the current football season is to be played at Highbury on October 7 between England and France. Already the selectors have cast their net around to bring in all the likely candidates and very soon they can be expected to announce the England team.

Among those who have been under scrutiny are Tommy Lawton, who has been recalled after his absence from the England team last year, and Lance Leyland of Manchester United. Frank Lampard of Chelsea is also being considered. The selectors will also be looking for a centre-half and a centre-forward. The latter position is particularly important as England have not had a centre-forward since 1954.

Without parallel
An outstanding lack of centre-forwards is one of the main problems of the England team. The selectors are looking for a player who can score goals and who can play in the centre of the field. The only player who has scored goals in the last few years is Tommy Lawton, who has been recalled after his absence from the England team last year.

Eight tried
Last season England had eight centre-forwards in their squad. This was a record for the national team. The selectors are looking for a player who can score goals and who can play in the centre of the field. The only player who has scored goals in the last few years is Tommy Lawton, who has been recalled after his absence from the England team last year.

Place for Huchos
