Two describe rites in Molo farm hut

Standard Staff Reporter
Nairobi.
 A MAN and his wife yesterday told a Nairobi court that on February 12 they took oath in the name of Kaku binding them to rescue Kenyans from Lodwar and to damage railway tracks, cut telephone wires, dig holes in roads, steal Europeans' cattle and sheep and drive Europeans out of Kenya.

The couple, who are Kikuyu, were giving evidence at the hearing of charges against Gathirua Mburu and Joseph Wangareki, who are charged with administering illegal oaths when they were called upon to do so by Kaku.

MACMILLAN CALLS MEETING ON OSBORNE MURDER

The murder of Mrs. T. Nora Osborne at Mr. Narak was discussed at an urgent meeting summoned by the Prime Minister, Mr. Macmillan, yesterday. It is understood Mr. Maclean is asking the Governor of Kenya for a full report of the Defence Minister, Mr. Sandys, was present at the meeting.

The meeting, an extremely serious view of the military situation will be called in.

Mr. Macmillan's full report of the murder of Mrs. Osborne will be discussed with Mr. A. Alexander, Secretary of State for Africa, and Mr. N. K. Douglas, Secretary of State for the Colonies.

Mr. Macmillan said that the British Government is deeply concerned about the situation in Kenya and that it is necessary to take a firm line.

Woman shot in family feud

A MIDDLE-AGED woman brought the highest peak of horror to the British main land—now entering its fifth week—as she was shot dead in a family feud in Kenya yesterday.

The woman, Mrs. Mary, was shot by her husband, Mr. James, after a long and bitter struggle over the ownership of a piece of land.

The incident occurred in the town of Mombasa, where the woman had been living with her family for several years.

Whale fault

It was said that the whale was a female and was about 100 feet long. It was seen near the coast of Kenya, where it was reported to be feeding on fish.

The whale was seen by a group of fishermen who were out on a boat. They were surprised to see the whale and were able to observe it for some time.

The whale was seen on May 5, 1961, and was reported to be the largest whale ever seen in the Indian Ocean.

MAN'S THREAT LETTER WAS FAKE, POLICE SAY

Standard Staff Reporter
Nairobi.
 ZAKARIYA—MURTHA, a 28-year-old man, was charged with sending a threatening letter to a woman in support of the Kenya National Union, it was announced yesterday by the Kenya Police.

The woman, who is a member of the Kenya National Union, was threatened with harm if she did not withdraw her support from the organization.

The letter, which was written in a threatening tone, was found in the possession of Murtha. He is currently in custody and is being held in a police cell.

Land officers jailed—P. 5

Two land officers were jailed for a period of six months for their involvement in a land dispute. The officers were found guilty of mismanagement and negligence in handling the land.

The case involved a large tract of land that was being used for agricultural purposes. The officers were accused of allowing the land to be used in a way that was not in the best interests of the community.

Australians 'practice'—P. 8

A group of Australian soldiers were reported to be practicing military drills in a public area. The practice was seen as a display of military power and was met with disapproval from some members of the public.

The soldiers were seen marching in formation and performing various drills. The practice was held in a park area, which is a popular spot for recreation.

THIKA STIR OVER NEW OCCUPIER OF ESTATE

DONYO Sabak farmer has caused a stir in Thika area by taking a leaf from the Kenya Government's book and occupying a part of the former "White" highlands to an African farmer.

The farmer, who is a member of the local community, has been occupying the land for some time. He has built a house and is using the land for agricultural purposes.

The local community is concerned about the farmer's actions, as they believe that the land should be reserved for the original owners. The farmer, however, claims that he has a legitimate claim to the land.

ML6 AGENTS FEAR RED SWOOP

British secret service crippled by Blake

From a Special Correspondent
 London.

BRITAIN is without a reliable foreign intelligence service at a time when a direct report from the East of the greatest importance, that is Blake, who spent the life of his greatest importance. This is Blake, who spent the life of his greatest importance.

Blake, who was a member of the British secret service, was reported to have been killed in action. His death is a significant loss to the intelligence community.

The British secret service is now facing a crisis, as it is unable to obtain reliable information from the East. This is a major concern for the government, as it is unable to make informed decisions about international relations.

Mr. Benn finds the door shut

BRITAIN'S "reluctant" Woodpecker, Mr. Anthony Benn, yesterday failed to attempt to take the Parliamentary seat which he won in a by-election at Bristol last week.

Mr. Benn, who is a member of the Labour Party, was reported to have been unable to secure the necessary support to stand for the seat. This is a significant setback for the Labour Party.

Mr. Benn is a well-known politician and has been a member of the Labour Party for many years. His failure to stand for the seat is a surprise to many of his supporters.

Not economic

The most striking feature about the estate into which Mr. Benn was moving is that it contains several ballrooms. This is a significant feature, as ballrooms are not typically found in residential estates.

Mr. Benn is moving into the estate, which is located in a prime location. The estate is well-maintained and offers a high standard of living.

Mr. Benn is a member of the Labour Party and has been a prominent figure in the party. His move into the estate is a significant event.

Peak conquered

An Indian expedition has conquered the 24,824 ft Annapurna peak in the Himalayan range. The expedition was led by a team of mountaineers and was a significant achievement.

The expedition was well-planned and executed. The team faced many challenges, but they were able to reach the summit. This is a major feat in the world of mountaineering.

The expedition was a success and has brought attention to the region. It is a testament to the skill and determination of the mountaineers.

Italian ace killed

The Italian racing driver, Giuseppe Farina, was killed in a crash during a race. Farina was a well-known racing driver and his death is a significant loss to the sport.

The crash occurred during a race in Italy. Farina was driving a Formula 1 car and lost control, causing the car to flip over. He was killed on impact.

QUARRELS WITH GHANA

MESSAGES from Monrovia yesterday described how and why tension is mounting behind the scenes of the recent peace conference.

The "African solution to African problems", with which a substantial number could possibly find fault, is unfortunately likely to be considered by the Ghanaian Government as an internal affair from the moment it is put to rest. The report of what occurred in Monrovia is being widely reported in Ghana, and the Ghanaian Government, with the aid of the United Nations, is expected to be able to bring the Ghanaian Government to a decision to declare independence to the Monrovia talks, which are being attended by leaders representing the Organisation of African States.

These differences, which cannot be dispensed in private, resting mainly on religious lines, are being discussed in the Ghanaian press. The Ghanaian Government is expected to be able to bring the Ghanaian Government to a decision to declare independence to the Monrovia talks, which are being attended by leaders representing the Organisation of African States.

SEEKING WORK

Newly free men appear to be coming and going as they please the Kibaki Government. It has been stated that there has always been a considerable number of people living in the surrounding areas of the Nairobi and Mombasa railway stations and around the capital of Nairobi.

These people are now being sought out by the Government and are being offered work on the railways.

PROMPT ACTION

Recently the chief officers of Nairobi Municipal Council submitted to the council a report on the state of the town of Nairobi.

The report stated that the town of Nairobi is in a state of emergency and that prompt action must be taken to deal with the situation.

MORE HARDSHIP

Although few firms in Nairobi have been in increasing tendency to lay off labour, that is not true among Nairobi African residents of some more serious hardship has increased.

All these factors have meant increased hardship even to those who are not laid off.

NAKURU TROUBLE DROWDING PROBLEMS

NAKURU is bustling at the moment. At the end of 1958 the African population of the town was estimated to be about 25,000 and this figure is accepted as being near to the mark. It is estimated that the town could be assessed with accuracy.

At the end of 1960, nearly a year after the ending of the Mau Mau rebellion, the population of the town was estimated to be about 25,000 and this figure is accepted as being near to the mark. It is estimated that the town could be assessed with accuracy.

There were no many thousands of hardship among certain sections. The council should consider the possibility of certain sections of the town.

MOBILE VIEW FOR DEVELOPMENT

Aid from U.K. and Germany on the way

Standard Staff Reporter, London.

The £2,200,000 gap in Kenya's development programme for 1961-2 is to be met by aid from the British Government and from Western Germany.

An exact analysis of the contributions is not yet known, but an announcement is expected soon. The likelihood of financial aid for Kenya from Western Germany was exclusively forecast in the East African Standard.

A direct outcome of the Kenya Ministerial delegation to London, and if any evidence is needed that gets into the hands of the delegations, talks the events of the last two days have clearly shown how advantageous an extra 40 hours would have been.

Within the last 24 hours discussions have been held with the British Government and as a result of Mr. R. S. Alexander's talks with Mr. Macleod on Monday and with the German Government on Tuesday, the next stage in the financial talks will be reached by Friday.

FARM STAFF DENY THEY SAW ANY OATHING

Standard Staff Reporter, Nairobi.

Workers employed at the Makoti farm in an Mkenya district near Kisumu, Kenya, say they know nothing of any illegal oaths taken on the farm.

Reports on the farm were made by a group of 100 workers who were taken to Limuru, Kenya, and brought to Nairobi. The group was accompanied by a newspaper reporter, a bus driver and a group of 100 workers.

ROYAL DUTCH/SHELL SALES RISE BY SEVEN PER CENT

Oil group beats 1959 record

DROPPED intense competition last year, the Royal Dutch/Shell Group succeeded in sleeping up oil sales, which reached 2,067,000 barrels daily, a rise of seven per cent on 1960, according to the Shell Review for 1962. Further progress was made in keeping down total market prices.

Group companies were able to reduce operating costs by improvements in their production facilities, which included rationalization of operations and a variety of measures to reduce the cost of production. In addition, the Royal Dutch/Shell group has been able to increase its sales and distribution in a number of markets, particularly in those of middle oil-producing countries. During 1961, considerable progress was made in the expansion of operations in many of these areas, leading to a steady increase in sales.

Group improved service by increasing the number of stations and by expanding its fleet of ships for oil sales. In addition, the group has been able to improve its distribution facilities, including the use of new equipment for oil sales, leading to a steady increase in sales.

The net income of the Royal Dutch/Shell Group last year amounted to £173,845,000, compared with £173,800,000 in 1960. Sales and operating income rose by £27,900,000 in 1962, to £250,000,000, compared with £222,100,000 in 1961. This rise was due to an overall average of 10.31 per cent in the value of oil sold in 1962, as compared with 10.23 per cent in 1961.

TRIBUTE TO THE KENYA POLICE

FOR some months now we have been writing to you on occasions when we feel that we have something to say on the subject of the Kenya Police. It is not our intention to say anything but the truth. It is the evening my wife and I were sitting in a car on the way to the office. I was thinking about the Kenya Police and how they have maintained their high standards of efficiency and discipline in the face of the many difficulties which have beset the country since independence. I was thinking about the fact that they have not only maintained their high standards but have also improved them. I was thinking about the fact that they have not only maintained their high standards but have also improved them. I was thinking about the fact that they have not only maintained their high standards but have also improved them.

Letters to the Editor

Population

RECENT correspondents maintain, with some justification, that the resources of the world in general are being used up. It is not possible to make a definite statement as to whether this is true or not. It is, however, a fact that the world's population is increasing at a rapid rate. This is due to a number of factors, including a decline in the death rate and an increase in the birth rate. The result is that the world's population is now over 2 billion and is expected to reach 3 billion by the year 2000. This rapid increase in population has led to a number of problems, including a shortage of food, a shortage of housing, and a shortage of jobs. It is therefore essential that we take steps to control our population growth.

Space Science

THE U.S. is to be congratulated for its success in sending its first man into space. This is a great achievement and a milestone in the history of mankind. It shows that we are capable of great things and that we are capable of overcoming the most difficult of challenges. It also shows that we are capable of working together and of achieving our common goals. This is a lesson that we should all learn. We should strive to work together and to achieve our common goals, just as the United States has done in its space program.

New Government

It is extremely surprising to see that the new Government in Kenya is being formed. This is a great achievement and a milestone in the history of the country. It shows that we are capable of great things and that we are capable of overcoming the most difficult of challenges. It also shows that we are capable of working together and of achieving our common goals. This is a lesson that we should all learn. We should strive to work together and to achieve our common goals, just as the new Government in Kenya has done.

Letter read

At a meeting of the Kenya Teachers' Association, a letter was read by the President. The letter was addressed to the Government and expressed the teachers' concerns about the state of education in the country. The letter stated that the teachers were concerned about the lack of resources, the lack of training, and the lack of support. It also stated that the teachers were concerned about the quality of education and the future of the country. The letter was read with great interest and the Government promised to take steps to address the teachers' concerns.

HOW TO PASS EXAMINATIONS

Cambridge and G.C.E. Certificates are hallmarks of good education and are important qualifications for Government service and in industry. They are also important qualifications for the British Tropical College you are attending. The college offers a wide range of courses and is recognized by the Government and the British Overseas Airways Corporation. It is therefore essential that you take steps to pass your examinations. NASSER AND NKURUMAH BOYCOTT TALKS

Liberia pledges unity for Africa progress

PRESIDENT TUBMAN of Liberia, opening an African summit conference in Monrovia, pledged that independent African countries would stand by their fellow peoples elsewhere in the continent. He included two of Africa's foremost leaders—President Kwame Nkrumah of the United Arab Republic and President Nkrumah of Ghana, both of whom declined invitations to attend. The leaders of Senegal, Guinea, Mali, Mauritania, and Morocco also declined to attend.

Call for Nigeria republic

It is a happy day for Nigeria, the country which has long been a source of inspiration to the people of the continent. It is a day when the people of Nigeria are united in their desire for a republic. This is a desire which is shared by the people of all African countries. It is a desire for a government which is elected by the people and which is responsible to the people. It is a desire for a government which is free from the influence of foreign powers and which is free to determine its own destiny. This is a desire which is shared by the people of all African countries. It is a desire for a government which is elected by the people and which is responsible to the people.

Widepread demand for Africanisation

There is a widespread demand for Africanisation in all African countries. This is a demand for a government which is elected by the people and which is responsible to the people. It is a demand for a government which is free from the influence of foreign powers and which is free to determine its own destiny. This is a demand which is shared by the people of all African countries. It is a demand for a government which is elected by the people and which is responsible to the people.

U.N. discusses land policy

The United Nations has discussed the land policy of the new Government in Kenya. The discussion was held in the context of the country's efforts to reform its land tenure system. The United Nations expressed its support for the Government's efforts and urged it to continue to work towards a fair and equitable land policy. The United Nations also expressed its concern about the impact of land reform on the rural population and urged the Government to take steps to protect their interests.

Letter read

A letter was read at a meeting of the Kenya Teachers' Association. The letter was addressed to the Government and expressed the teachers' concerns about the state of education in the country. The letter stated that the teachers were concerned about the lack of resources, the lack of training, and the lack of support. It also stated that the teachers were concerned about the quality of education and the future of the country. The letter was read with great interest and the Government promised to take steps to address the teachers' concerns.

COUNCIL ROBBED

The Council of the Kenya Teachers' Association has been robbed of its funds. This is a great loss for the association and for the teachers of the country. The Council had been working hard to improve the quality of education and to support the teachers. It is therefore essential that the Government take steps to recover the funds and to ensure that the Council can continue to work for the benefit of the teachers and the country.

AVRO 748

Later this year the Avro 748 goes into service with yet another progressive airline: Aerolineas Argentinas, the national airline of Argentina. Nine 748s have been ordered, and will operate on a network of internal routes.

Built by Hawker Siddeley Avro, the Avro 748 is the world's most modern, low-cost turbo-prop airliner. It is adaptable, versatile, and extremely economical in operating cost and maintenance.

Powered by two Rolls-Royce Dart engines, the aircraft was designed for easy accessibility and speed, efficient maintenance in the face of growing competition in commercial flight, and lines equipped with the Avro 748 will back with confidence to the future.

From standard, stocked parts and ready for prompt delivery at competitive prices, the benefits of the S.E.S.C. line are yours without sacrificing application flexibility. Because parts have been standardized and not pump, you can literally "custom build" a pump to get exactly the right features for every particular requirement.

PUMP STANDARDIZATION saves maintenance costs

You can reduce parts inventory by as much as 50% and greatly simplify pump maintenance by adopting Worthington's S.E.S.C. (Standard End Section Centrifugal) pump line.

Down-time for maintenance is also drastically reduced with the S.E.S.C. line because maintenance men become familiar with construction details quickly. All pumps in the line are built to the same basic design.

The complete S.E.S.C. line consists of six separate types of pumps, all suitable for either com-

Governor opens new Legislative Council with the message...

44 on Government side: 35 opposed

MANY people in Kenya were sick of the present pattern of its politics and the struggle for power, the Governor, Sir Patrick Renshaw, told the new Kenya Legislative Council when it opened yesterday.

They have an uneasy feeling that we are not going ahead as a nation to open instead of co-operate," he added. "Can we not break legacy?" he asked.

The Governor entered the Chamber at 3.45 pm, and finished his speech nearly half an hour later. He was heard in silence by everybody except Mr. A. O. Odunga (Kisumu) who periodically interjected calls of "Kenya" or "No, No."

Before the Governor arrived, the Members of the new Kenya Legislative Council were seated in the Chamber. The Government Members and a number of independents, 44 in all, were seated on the Government side, 35 on the Opposition side.

FLOOD OF MOTIONS FROM OPPOSITION

Shadow cabinet drawn up by Mau Mau

KANU last night announced the formation of a Shadow Cabinet.

The move came at the end of its first day as Parliamentary Opposition.

As such, the party and its supporters gave notice of a series of motions on Kenya, Kenya independence, and a host of related matters.

The first motion was on the issue of Kenya's independence.

The second motion was on the issue of Kenya's independence.

The third motion was on the issue of Kenya's independence.

The fourth motion was on the issue of Kenya's independence.

A BIG DAY IN KENYA'S HISTORY

It was a big day for Kenya yesterday, for the new Government officially took office and the Legislative Council met for the first time under the Lancaster House Constitution.

Members on the balcony are Mr. S. K. Ayubwala, Mr. J. Mwangi, Mr. B. McKenzie, Mr. D. Q. Erulwa, and Mr. F. R. S. de Souza. Below, Kikuyu warriors, supporters of Kibaki, turned out to support the new government.

The Speaker, Mr. Humphrey Slade, in ceremonial dress, takes the Governor at the entrance to Parliament Buildings. Press and security photographers capture the scene for their papers.

Police on parade for Governor

In the rear is the Commissioner of Police, Mr. R. C. Callaghan. Below, a portion of the large crowd which witnessed the scene. To secure better vantage points, many spectators clambered up trees.

WHAT A COURSE OF CONDITIONING WILL DO FOR YOUR DOG

Most dogs are fed on scraps or on prepared foods that may not contain a true balance of vitamins and minerals. Even where special meat is bought you can't be certain that all the elements a dog needs are present.

It is so difficult nowadays for a dog to get exactly what his system needs for full health that most breeders put their dogs on a course of conditioning.

They give them two or three Bob Martin's Condition Tablets every day for ten days or so, and this soon shows in bright eyes, bloom of coat, high spirits and everything else that brings a dog to the top of his form.

Why not follow their example? Don't wait for your dog to scratch and snivel with dull coat and dry nose. Put him on a course of Bob Martin's now and see what fun he can be and how handsome he can look!

PARENTS HINDER GUIDES

Standard Six Reporter, Kamukoko.

AFRICAN girls are assuming responsibilities more slowly because they have to face criticism from their parents to let them be away from home under the supervision of other girls in their own age group. The fact that the Civil Guides Course is now being run at Makerere College, Kampala, has led to this.

By-laws aim to make Nairobi a quiet city

New by-laws to help make Nairobi a quieter city and reduce noise and tear on residents' nerves, have been approved by the Minister for Local Government and Lands, Mr. Harrold, and are now in force.

It is more than two years since it was agreed by the City Council that a set of general nuisance by-laws should be framed. They make it an offence for workmen, gramophones or musical instruments to be played to the annoyance of neighbours and passers-by or for the erection of a continuous noise to be made during road building and construction.

Newly-traded and industrial operations, such as motor-vehicle repair and motor-vehicle tyre fitting, will now be allowed to sound their horns or other warning devices, except in case of emergency.

Mr. Harrold, Sir Charles Eversley, Commander-in-Chief of the Middle East (Kenya), arrived in Nairobi on Monday for a short visit to Kenya.

On Monday he will visit the Independent Recce Flight, Army Air Corps, at Wilson Airport. He will go to Nakuru and then to Kericho. The Staffordshire Hussars will go to Nakuru and then to Kericho. The Staffordshire Hussars will go to Nakuru and then to Kericho.

SEYCHELLES FORESTRY REPORT OUT

U.K. expert advises on planting needs

Three months since the publication of a report on the visit to the forestry officials of the Colonial Office, Mr. C. Swaby, the "technically" expert, has returned to the Seychelles. The report, which was published in London in 1959, was the result of a fact-finding mission to the islands and was based on a study of the forest resources and the need for planting to meet the demand for timber. Mr. Swaby's report is being reviewed by the P.M.D. and the Secretary of State for the Colonies.

Troled islands

The Seychelles Government has been instructed to take steps to ensure that the islands are troled in accordance with the provisions of the Forest Act, 1959. This should be done by the end of the year. The report also states that the islands should be troled in a systematic manner and that the results should be reported to the Secretary of State for the Colonies.

Expensive bill

The report also states that the cost of planting and maintaining the forests is likely to be high. It is estimated that the cost of planting 100,000 trees would be about £10,000. The report also states that the cost of maintaining the forests is likely to be about £5,000 per year.

Colonial Office says delegates did get £6m.

Standard Staff Reporter London.

EMBARRASSMENT caused by wrangling over the £6 million of aid which the Colonial Office is to give Kenya has been removed. It is now established that the delegates did get the £6 million.

First it denied a statement that the British Government was to provide an additional £2,200,000 to meet the development deficit. The Colonial Office regards the 1961-62 programme as a draft estimate. Therefore, it is argued that the £2,200,000 is a hypothetical figure given to schemes under this programme and the Government to revise it radically.

As for the belief that Kenya officials would make a deal with the Government to accept the £6 million, it is now established that the Government will not do this. The £6 million is to be used for land settlements in the form of a grant-in-aid. The £1,000,000 mentioned in an official memorandum of the Colonial Office is only an estimate towards land settlements under the terms of the Lancaster House agreement.

3 1/2m. rise

An Assistant Under-Secretary, Mr. A. N. Calverley, told the East African Standard that it would be wrong to assume that the British Government would give Kenya £7,000,000 under the Lancaster House agreement. The £6 million mentioned in an official memorandum of the Colonial Office is only an estimate towards land settlements under the terms of the Lancaster House agreement.

Mr. Calverley added that Britain had more than fulfilled its obligations for the original £5,000,000. He said that the £6 million mentioned in an official memorandum of the Colonial Office is only an estimate towards land settlements under the terms of the Lancaster House agreement.

TRIBEMEN ALLOW MACHAKOS HERDS TO USE GRAZING

KAMBA tribesmen in the Kitui area have agreed to help European farmers from Machakos who are in desperate need of grazing for their cattle because of drought and army worm.

About 20,000 of the Amatia African District Council's herds are to be grazed at the disposal of the Machakos farmers. The first 2,000 head of cattle will be moved to the area in the next few days. The journey will take about 15 to 20 days on the road.

Farms in the Machakos district have been badly hit, first by the army worm, and then by the drought. The tribesmen are being paid for the grazing. The arrangement is being supervised by the District Commissioner.

Bull's eye scored by Sotik group

Standard Correspondent, Sotik.

ONCE again producer E. Bruce-Hay has scored a bull's eye. This time with the Sotik Players' presentation of three one-act plays in Sotik Club's new theatre.

The first play, 'The Legend of Philip Johnson', was a stirring drama set in a fishing village on the East Coast of England in the village of Mr. Rowd. It was a triumph for Bruce-Hay in the principal role of the actor and playwright.

Mr. Bruce-Hay was well supported by Mrs. Sotik, who was the producer. The Sotik Players' presentation of three one-act plays in Sotik Club's new theatre.

Clubs needed

The object of the scheme was to track the Trade by which arrived with the proceeds of the book and to relieve pressure on the market.

WEEK-END STANDARD STONE AGE—ONLY A 42-MILE RUN FROM NAIROBI

KENT'S smallest Royal National Park is a half-mile long by a quarter-mile wide. It is surrounded by a stout fence to exclude all animals. Nevertheless, visitors can be sure of seeing the game in a fossil state.

The prehistoric site of Ogorogoa is on the road to Magadi, 42 miles from Nairobi. Where this road crosses the great on the Knepe Hills is one of the most spectacular viewpoints in Kenya.

RICHARD WRIGHT—Archaeologist in Charge of Prehistoric Sites in Kenya—describes the site and discusses the evidence.

to the south and west are the hills. The valley and the hills are covered with the remains of the stone age. The site is situated on a hillside about 4,000 ft. above the sea level. It was once a forested hill.

ARID AREA
Most visitors are surprised to find that the site is in an arid area. It is the only one of its kind in the whole of Kenya.

The site is of great interest to the public. It is the only one of its kind in the whole of Kenya.

Hand axe evidence in dating

The more usual way is to locate whether site is older or younger than another. Geological methods are used to give the evidence of the stone tools themselves. At Ogorogoa, such as gunflint, and hammers, antlered arrows and hippo with perforating egg sockets are of the Kenyan fauna. This also occurs near the top of Olduvai Gorge with identical stone tools. It was at Olduvai that Dr. Leakey recently found Homo erectus in the bottom bed, at a period before the invention of hand axes and at an earlier stage of animal evolution. The hand axes were usually accompanied by tools and a primitive spear-thrower. In such a way a scheme of evidence dating is put together. How old is Ogorogoa? Anthropologists normally fix the age of excavating dates in terms of years.

East African safari—in days before the motor-car

By MERRELL DALTON

In these days of swift flight and packed tours, the habits of the past, taking with it the opportunity for observation at a leisure pace that was the prerogative of those who walked "on tracks."

There was very little motor transport in the outskirts of East Africa where I travelled. The vehicles were few and far between. Many of the motor cars of that time were of the open-top type and were built with a view to carrying a large party of people. They were built with a view to carrying a large party of people. SINGLE FILE
All the trails, wide and narrow, were used in single file. The vehicles were few and far between. Many of the motor cars of that time were of the open-top type and were built with a view to carrying a large party of people.

JOG TROT
Often they would break into a jog trot and lope about at the time and then, when they had got a fair distance between the trees, they would stop and rest. They were built with a view to carrying a large party of people.

E6,000 SGN OF FEDERATION'S FAITH IN E. AFRICAN TRADE

By the Trade Commissioner for the Federation of Rhodesia and Nyasaland in East Africa, Mark Dole

A STRIKING demonstration of the Federation of Rhodesia and Nyasaland's confidence in the future of its trade with East Africa is given by the decision of the Federal Government to build a new stand at Mitali Park at a total cost of about £25,000.

Official statistics of trade between the Federation and East Africa made available recently in Salisbury clearly indicate the growing mutual advantage derived by the two from their commercial relations. The Federation's imports from East Africa in 1960 at £264,000 were 213,000 more than the 1959 level.

Exports to East Africa over the same period nearly doubled from £211,000 in 1959 to £426,000 in 1960, a balance of trade in favour of East Africa of £486,000 for 1960.

The Federation is, therefore, on the one hand a good market for East African goods and on the other a growing competitive supplier of East African needs. Purchases from East Africa cover a range of foodstuffs and consumer commodities...

MAJOR IMPORTS... Other major Federal imports from East Africa include iron and steel, cement, machinery, and various types of motor vehicles.

These goods are valued at £100,000 worth of Kenya, £100,000 worth of Uganda, and £100,000 worth of Rhodesia, Tanganyika, and Malawi.

Water Skiing

BY NANCIE RIDEOUT

National Women's Water Ski Champion

Today's Tip... DOCK TAKE-OFF

A big difference between a water take-off and a dock take-off is the way you hold your feet. You must hold your feet on your seat to your side of just the line lights and down your feet off the dock. You must be facing the boat's transom, even if it means turning sideways. Your skis, put on before you get on, held just beneath water with tips protruding.

FIGHTLIGHT OF THE HARLEQUINS Antao proves himself world-class sprinter

MARLOW & CO. WORLD'S BEST FIXED ODDS

Highlight of the Harlequins' visit will undoubtedly be the meeting at 8 o'clock on Friday, May 21, at the Royal Road, South Kensington. This is a most important fixture, as it will be the first time since the Harlequins' arrival in London that they will be asked to defend the 150 metres world title won at the Empire Sports Meeting in London in 1939. The Harlequins' captain, Capt. G. H. W. L. Jones, is confident that the team will be able to repeat their success at the Royal Road.

New Summer coupon based on Australian fixtures. There are seven attractive pools from a full, nothing barred, list which included the sensational £10,000 for 6d. Six correct scores pools.

SERAPHINO ANTAO set the seal on his claim to be number one in the world-class sprinters with his two performances on the famous "Harpo!" track. In the 100 metres national game at Tel Aviv, when he beat a gold and silver medal for Kenya and possibly nearly earned two more gold medals, he showed that he was a world-class sprinter. He won the 100 metres in 18.88 sec. and the 200 metres in 39.00 sec. He also won the 100 metres in 18.88 sec. and the 200 metres in 39.00 sec. He also won the 100 metres in 18.88 sec. and the 200 metres in 39.00 sec. He also won the 100 metres in 18.88 sec. and the 200 metres in 39.00 sec.

Exciting finish in match against Lancashire

AUSTRALIANS GAIN FIRST VICTORY OF TOUR

Now to the Oval—and memories

Tourists get the runs with seven minutes to spare

The Australians gained their first victory on their tour of England at the Matchless yesterday when they defeated Lancashire by four wickets. It was an exciting finish, the Australians getting the winning runs with seven minutes of the extra half hour to spare. Set the task was reaching the target.

While other batsmen found quick scoring difficult against the tall Lancashire bowlers, the tourists bogged 30 runs in 24 minutes, with six declared and 113 for six.

Lancashire, who started the day 50 runs behind with 15 minutes to spare, thought they obviously could not afford to take chances, they showed little inclination to go for singles.

The only batsman to show any real spirit of a top class player was John Brown, who hit 29 runs in ten minutes, including a first 19 in one over from the first over.

CLASS COMPETITION ONE OF KENYA'S GREATEST NEEDS

TOWARDS the end of last year the Kenya Athletic Association received an invitation from Mr. Y. J. Khan, secretary general of Hapoel, to send a team to the 7th International Sports Festival in Israel.

The Hapoel Sports Association members in 14,000 branches established on towns, villages, and hamlets in Palestine. Hapoel is a Jewish sports organization and its members are Jews, Arabs, and Christians. It is the largest and most important sports organization for the country.

The dominant position which Hapoel holds in Israel, sport in its practice, achievement in its various branches, basketball, football, tennis, and other sports, has made it a model for other countries.

The Secretary-General of Hapoel, Mr. Y. J. Khan, is a well-known sportsman and has been instrumental in the development of sports in Israel.

The sport facilities here are among the best in the world. The Hapoel Sports Association has a long tradition of excellence in sports.

Motive for farm murder a mystery

Standard Staff Reporter
Sotik, Kenya
POLICE detachments from all over the Nyanza Province converged on the Sotik area yesterday in an intensive hunt for the killer of Mr. Christine Swanepoel, whose body was found on a farm ten miles from Sotik early yesterday morning.

During the afternoon a number of people, all Africans, were taken in for questioning.

Late last night the Provincial Assistant Commissioner of Police, Mr. J. V. Mills, held a conference to advise police by intensive C.I.D. investigations at the farm. He said the possibility of a sexual motive for the murder could not be ruled out.

NO THREATS AGAINST MURDERED WOMAN

MEMPHIS Mrs. Christine Swanepoel, now in hospital, has said she has received no threats of violence against her life.

Her husband, Mr. Arthur Swanepoel, a farm manager, was shot to death on the farm on the morning of May 11. Mrs. Swanepoel, who is recovering from her wounds, said she had no idea of the motive for the killing.

She said she had been living with her husband on the farm for 21 years. She said she had no idea of the motive for the killing.

Man sought

Neighbouring farmers were asked to help in the search for a man who was believed to be the killer of Mrs. Swanepoel.

The man was described as being about 40 years old, of medium build, and wearing a dark suit.

He was last seen on the morning of May 11, near the farm where the murder took place.

Nothing stolen

People were asking last night whether they had any money or valuables hidden on the farm.

The police said they had searched the farm and found nothing missing.

LONG HAREQUINS BATTLE VICTORY

'Here you are chaps' says captain of Rugby tourists and...

Marques' brilliant play in line-outs paves the way

By Derek Watkins
KENYA HAREQUINS fought all the way against the might of their London parent club last night but their tenacity, stubbornness and 'never say die' spirit were enough to cope with the tourists who were dominant in every department.

The local players did their very best and were a little unfortunate to lose by 10 points (two goals, a dropped goal, a try) to nil. It was only in the final minutes that the Kenya men had obviously played themselves into the ground, but London Quins were able to double their 8-0 interval score.

Nine times out of ten line-outs were strictly a non-issue for the London captain, Derek Marques, non-manual ally, with the London side and it was chiefly Marques' brilliant play in line-outs that patriotically passing it back to a 'here you are chaps' attitude.

But it all served to give the crowd a lot of splendid open football to watch. So it is not surprising that play the handling game of a scrum, Marques' voice came drawing out of the back: 'Let 'em have it and let 'em have it.'

Marques' voice came drawing out of the back: 'Let 'em have it and let 'em have it.' Towards the end of the first half Ken's scrum was so good that it was a real gasp of action in their 25 minutes.

'GIANTS' THRILL THE RUGBY THOUSANDS

IDEAL weather, a perfect pitch, a capacity crowd and some sparkling Rugby combined to make Saturday a memorable occasion for the thousands of enthusiasts who packed the F.P.'s Mgoni Road ground, writes Charles Disney. This was another superb day had waiting for London Harequins, 13 points (two goals and a penalty) goal to 11 (a goal and two penalty goals), after a match which had been a hard-fought, well-contested affair.

Australians take some revenge at The Oval

THE Australian cricket tourists on Saturday returned to the pitch where Jim Laker wrecked their five years ago and in much brighter conditions, and many of their best batsmen, the English and the Australian players, were extracted at least handed opening batsmen. Where Laker thrilled the Oval crowd five years ago, Ken Barrington, for England, was the one who was the only batsman to get a century on Saturday.

BUDGET POSSIBILITIES

BUDGET speeches will be made in the East African legislatures this afternoon by the respective Ministers for Finance. This year's budget is expected to be a financing year to cover deficits at a time when the Government is likely to be unable to raise the necessary funds to meet the needs of the country.

The extent of this budgetary deficit is expected to be the largest since the independence of the territories. The Government is expected to be unable to raise the necessary funds to meet the needs of the country.

More money in people's pockets would mean more money in the hands of the Government. This would mean more money in the hands of the Government.

Looking around for other sources of income, the Government is expected to be unable to raise the necessary funds to meet the needs of the country.

Emergency on the roads

TRAFFIC accidents happened every day on the roads of Kenya during the first three months of this year. The casualty rate was 100 of whom 82 were killed.

Why is there an emergency over the danger that exists on the roads? The causes of the danger are many and varied.

TRAFFIC police are being called upon to enforce the traffic laws. This is a very important task.

A motorist who is caught with a vehicle in a dangerous condition will be liable to a fine.

THE ECONOMIC OUTLOOK FOR KENYA

While political considerations have been long at the forefront in Kenya, the economic situation is becoming increasingly important.

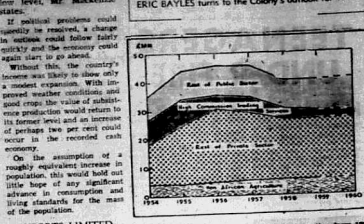

Chart illustrating the total capital formation from 1954 to 1961, showing that the total capital formation has risen in 1961 and 1962.

The general industry level has risen in 1961 and 1962. This is due to a number of factors, including an increase in government expenditure.

Markets for hides and skins and other animal products are expected to be strong. This is due to a number of factors, including an increase in government expenditure.

CONSUMPTION TAX

A maturing factor, however, was that the German consumption tax was not levied on the goods imported from Kenya.
