The Governor's Speech

As was to be expected, His Excellency the Governor, in making a communication from the Chair, dealt more with the past than with the future. A genuine tribute was paid to the work of the Legislative Council and the members of the Council for long public services. Lord Francis Colclough, Colonel Croghan were also mentioned with appreciation. His Excellency also mentioned the Hon. Mr. A. J. Ben Bena, who had been a member of the Legislative Council, and who had been a member of the Executive Council. He has had long service in the Ministry, first as a Provincial Commissioner, then as Chief Native Commissioner, and is finally, until the dissolution of the last Council, as a representative of African interests.

Of the present the only interesting announcement was the creation of a new Government Department, the Department of the Chief Native Commissioner, a representative of African interests.

THE ASSOCIATED CHAMBERS

The Commercial Parliament's assembly will be held for its Annual Session. Of all non-party bodies the Associated Chambers of Commerce and Industry of Eastern Africa has rightly acquired unique prominence. It has an embroiled record of service in the interests of its constituent Chambers and through the latter exercises a wide influence among all industrial bodies of the continent. It takes no note of race or colour, such can be distinguished from economic and industrial activities. Many of the matters with which it deals directly affect the rest of our livelihood and it will readily discuss any matter one department of Government or individual. Those representations which it makes to the Government are of a high order and its influence with the ruling powers of the continent. The exception has been the appointment of Kenya, only of the Secretary, part of whose functions are to deal with questions under its long agenda we see all the more clearly that his appearance year after year is of the greatest importance. The Chamber's general position are considered. More frequently it is the result of the commercial Parliament's deliberations on its constituent Chamber's proposals. It is in the line of its work that it has to be to Government in the absence of any other body ranking other who can be considered as the representative of the industrial and commercial community. It is in the line of its work that it has to be to Government in the absence of any other body ranking other who can be considered as the representative of the industrial and commercial community.

GERMANS IN 1943 STILL PLANNED INVASION OF BRITAIN

A huge dump of German military maps discovered by the British authorities in Berlin shows that as late as last year Germany was still making plans to invade Britain.

THE MAPS—there are hundreds of thousands of them—cover not only Britain, but also neutral France.

Countless maps are to be laid from photographs showing what the coast looks like from the air.

There are also books of photographs showing the approaches to towns in Great Britain and Ireland and street plans of London. These plans are said to show how they are pronounced and red dots mark military objectives.

The maps are drawn on a scale of four inches to the mile and were originally printed in 1940 and 1941, that is to say, after the fall of France. They had been revised from air reconnaissance and other sources up to last year.

HUNGARY

Despite the conflicting news
 of conditions inside Hungary
 which is being broadcast to the
 world, to many countries, the
 fact stands out clearly—
 Hungary must be free to
 determine her own future as a
 democracy. However much the
 dictatorial régime may try to
 make that position in
 Hungary the only one, it is
 clear that the people of Hungary
 will not be satisfied until they
 have a free and democratic
 régime. The Hungarian people
 are not satisfied with the
 present régime, and they are
 determined to bring about a
 change in the régime of their
 country. Their fate of
 independence is subject only to the
 maintenance of the
 independence of the
 rest of Europe.

East African Troops in the Front Line Since August

FIRST TASKS ACCOMPLISHED SUCCESSFULLY

Difficult Campaigning

(From our War Correspondent George Kinnear)

It is now possible for me to reveal that the 14th Army news reports on the road to Diffuay were the subject of my recent dispatches, were our own East African troops.

They included men from half a dozen territories—Kenya, Uganda, Tanganyika, Zanzibar, Nyaland and Northern Rhodesia.

The East Africans took over the responsibility for the Tantu sector in August.

A Kenya unit had the honour of leading and fought the first action.

With the occupation of Diffuay, the East Africans were to be the main force in the campaign. The East Africans were to be the main force in the campaign. The East Africans were to be the main force in the campaign.
