A House of Commons Debate

A London Correspondent of the East African Standard has written a near detailed discussion on East African affairs which took place in the House of Commons before the end of last year.

It occupies what some might call a special position in that it is not a review or report on the past year but a discussion on the future of the continent.

It is a study of the present and a forecast of the future. It is a study of the present and a forecast of the future.

It is a study of the present and a forecast of the future. It is a study of the present and a forecast of the future.

It is a study of the present and a forecast of the future. It is a study of the present and a forecast of the future.

It is a study of the present and a forecast of the future. It is a study of the present and a forecast of the future.

It is a study of the present and a forecast of the future. It is a study of the present and a forecast of the future.

It is a study of the present and a forecast of the future. It is a study of the present and a forecast of the future.

Personally Speaking.

Addison-Robinson

Mr. and Mrs. Addison Robinson, who were married in the East African Standard office on February 10, 1942, are happy to announce the birth of their first child, a son, on February 15, 1943. The child, named Addison Robinson, weighs 10 lbs. and is 18 inches long. The mother and child are both well.

A Popular Wedding

A very popular wedding was celebrated at the East African Standard office on February 10, 1942. The bride, Miss Addison Robinson, was accompanied by her father, Mr. Addison Robinson, and her mother, Mrs. Addison Robinson. The groom, Mr. Addison Robinson, was accompanied by his father, Mr. Addison Robinson, and his mother, Mrs. Addison Robinson. The ceremony was officiated by the Rev. Canon Addison Robinson. The reception was held at the East African Standard office.

Dr. Schemmiers in London

Dr. Schemmiers, who was for many years in the Kenya Medical Service, has completed a successful visit to London in 20 days at the London Hospital, says the London Star. Dr. Schemmiers, a distinguished surgeon, was accompanied by his wife and two children. He was in London from February 10 to February 20, 1943. He was accompanied by his wife and two children. He was in London from February 10 to February 20, 1943.

Mr. G. R. Sandford

Mr. G. R. Sandford has been elected to the office of Chairman of the East African Standard. He was elected on February 10, 1943. He was elected on February 10, 1943. He was elected on February 10, 1943.

Blue Room Dance

The Blue Room Dance was held at the East African Standard office on February 10, 1943. It was a very successful evening. The dance was held at the East African Standard office on February 10, 1943.

Glory-Bags By The Thousand

When I looked in at the K.W.E.O. Comforts Depot the other day I found it in the throes of "tidying up" after the Christmas rush. Not only had there been a drastic spring-cleaning of the records, but there had also been a thorough check-up on the inventory brought up to date as the acknowledgment cards and receipts were being checked over. The result was a list of 1,500 glory-bags in the store.

It helps that they are all voluntary gifts, and that the depot is run by a committee of ladies who are all very busy with their own work. The depot is run by a committee of ladies who are all very busy with their own work. The depot is run by a committee of ladies who are all very busy with their own work.

Live Alone—But Don't Look It

There is nothing so appalling as to live alone. It is a lonely life, and it is a lonely life. It is a lonely life, and it is a lonely life. It is a lonely life, and it is a lonely life.

WATER SUPPLIES

To the Editor, "E.A. Standard"

The article in your issue of 12th March regarding the water supply in the district of the Kenya Colony is of great interest to me. I am a resident of the district and have been a member of the Kenya Water Board since its formation. I am glad to see that the Government is taking steps to improve the water supply in the district. I am sure that the Government will be successful in its efforts to improve the water supply in the district.

The Week's Leaders

GOVERNOR'S REVIEW AT OPENING OF E.A. Chiefs In Madagascar

The Week's Letters

Plans in Conference
 FEBRUARY 21, 1944.
 One Hundred and thirty members of the Executive Committee of Kenya Agricultural Producers' and Exporters' Association met in Nairobi this afternoon in the Chamber of Commerce to discuss the plans for the opening of the Kenya Agricultural Producers' and Exporters' Conference on February 23rd. The purpose of the meeting was to review the progress of the industry since the last meeting and to discuss the various proposals for the improvement of the industry. It was decided to hold a series of year's crops in the White Highlands and to discuss the various proposals for the improvement of the industry. It was decided to hold a series of year's crops in the White Highlands and to discuss the various proposals for the improvement of the industry.

Consent of District Council
 The District Council of Nairobi has given its consent to the proposed extension of the Nairobi Municipal Council's jurisdiction to the area of the Nairobi Waterworks. The Council has also agreed to contribute towards the cost of the extension. This decision was reached after a lengthy discussion at a meeting held on February 10th. The Council members expressed their support for the proposed extension, which will enable the Municipal Council to better manage the water supply in the area.

Another subject which I mentioned
 was the question of the Government's policy on the importation of foreign goods. The Government has announced that it will continue to maintain a strict policy of import control, but will consider relaxing it in certain cases where it is in the national interest. This policy is designed to protect the local industry and to ensure that the country has sufficient foreign exchange to meet its needs. The Government will continue to review the situation and make adjustments as necessary.

To the Editor, "E.A. Standard"
 I have read with interest your article on the proposed extension of the Nairobi Municipal Council's jurisdiction. It is a matter of great importance and one that affects the lives of many people in the area. I believe that the extension is justified and will be of great benefit to the community. The Municipal Council has done a good deal of work in the past and it is to be expected that it will continue to do so in the future.

It is inevitable that the public
 should look upon the proposals for the extension of the Nairobi Municipal Council's jurisdiction with some degree of skepticism. However, it is important to remember that the extension is necessary for the proper management of the water supply in the area. Without the extension, the water supply would be inadequate and the health of the community would be endangered. It is therefore in the best interests of the community to support the extension.

Kenya farmers in complete
 agreement with the Government's proposals for the improvement of the agricultural industry. The Government has announced a series of measures designed to increase the productivity of the industry and to improve the living conditions of the farmers. These measures include the provision of better agricultural tools, the introduction of new farming techniques, and the establishment of agricultural extension services. The farmers are confident that these measures will be successful and will lead to a more prosperous future for the industry.

On Saturday night the chiefs
 met to discuss the various proposals for the improvement of the industry. The chiefs are deeply concerned about the future of the industry and are determined to support the Government's proposals. They believe that the Government's policies are sound and will lead to the development of the industry. The chiefs will continue to work closely with the Government to ensure that the proposals are implemented successfully.

It is my hope that the Government
 will continue to support the industry and will take all necessary steps to ensure its success. The industry is the backbone of the economy and it is essential that it be developed and protected. The Government has a responsibility to ensure that the industry is able to meet the needs of the country and to provide a source of income for the people. I believe that the Government's policies are sound and will lead to the success of the industry.

It is my hope that the Government

I believe that the Government's policies are sound and will lead to the success of the industry.

The Japanese war has been
 declared against the United States and the United Kingdom. This is a serious development and one that has far-reaching implications for the world. The United States and the United Kingdom have declared war on Japan and will continue to support the Allies in their fight against the Axis powers. The Japanese war is a threat to the peace and stability of the world and it is essential that it be stopped as soon as possible.

Whistled and not written. 14. A bit odd. 18. Impugnator or writer.

MEET THIS GRAND FETE IN NAIROBI ON 4th AND 5th MARCH, SATURDAY AND SUNDAY.

KEROL

THEY ALL NEED KEROL— AND THEY LOVE IT!

When the surroundings of the great grass go off, give Kerol and you'll have on the spot the appearance of your animals. It helps them to extract every bit of nourishment from their food. It helps to keep them in condition. It kills harmful germs, wards off diseases, helps to control internal parasites. Kerol may be administered by dosing, added to feeds or mash. But for best results, give it regularly.

Read the Kerol Book and you will see why other farmers keep on using it.

SISAL PRODUCTS

(East Africa) Limited.
NAIROBI
KENYA COLONY.

Manufacturers of Sisal Shoes, Hessian Cloth, Mattings, Ropes and Turms.

During the four years of war we have been identified with the war effort of East Africa.

In 1914 we supplied millions of sand bags.

From 1914 to the present time we have supplied many thousands of yards of fabric for looting purposes for the Military, and at this present time we are supplying loads to carry the farmers crops, thus saving valuable space.

In 1924 we ensure our friends and customers we remain at their service.

Agents—

at all their East African Branches.

WIN -- the GENUINE FARMALL WAY

Even machines with a root check sometimes have a few hills out of line. With the Farmall H-M-32 3-Row Cultivator, however, this makes little difference because the cultivator makes full use of the Farmall patented crop shift.

With this exclusive Farmall feature, a simple turn of the steering wheel shifts the gangs and steers the tractor, actually doubling the working section of a sixteen foot machine.

This cultivator covers 20 to 30 acres a day on little more than a gallon of fuel an hour. It is especially adapted to maize and prestrum where thorough cultivation is necessary.

Limited stocks now available subject to purchase permit being obtained.

Better & Cheaper Homes For All

HOW S. A. CITY SOLVED SLUM PROBLEM

IN view of the great importance which is now attached in East Africa to improvement in housing conditions, especially for the African living in towns, the East African Standard made arrangements with the South African Government's Bureau of Information to provide a series of two articles describing one of South Africa's best known housing schemes, that at Port Elizabeth. It will be noted that the scheme is based on the accustomed housing of a lower-paid section of the community—European as well as African—and that these "sub-economic" houses are rented at a figure which is closely related to the average salary of the tenants.

A few years back the city of Port Elizabeth in the Cape Provinces of the south-west coast in the world-famous Cape Province was almost entirely unpopulated and desolate. A few people here and there were being housed in a few scattered huts for sale and rent, among them James Mackay, the famous British Socialist leader. The Duke and Duchess of Devonshire, representing the British Government in America, the late Governor-General, Sir John Gifford, and the Duke and Duchess of Devonshire had just returned to the Cape from the British Colonial Office.

Port Elizabeth had then a population of 10,000 people. It was a small town, that most of it was built on the main to take advantage of the sea. The Elizabeth was the first city in the world to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea.

It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea.

It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea.

It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea. It was a small town, that most of it was built on the main to take advantage of the sea.

ATHLETIC SPRAINS

Apply the ointment, just put SLOAN'S on the sprain, and the pain will disappear. It is the only ointment that penetrates to the source of the pain. It is the only ointment that is guaranteed to give relief.

SLOAN'S OINTMENT KILLS PAIN

Keep 'em off. You'll have to make your Gillette "Standard" blades last longer, just as you did the Thin and Blue Gillette and the 7 o'clock they have replaced. But cheer up, they can't take it—and still give you the best shave you can buy. You may give a little difficulty in getting them now and again, because production is restricted, so don't blame your dealer—just be patient.

The Power behind the BRITISH PUNCH!

On field and farm, in factory and workshop, the men—and women—of Great Britain are working furiously to give more power to the British Punch in the icy waters of the North, in the blazing heat of the Tropics; on land, on sea and in the air, weapons of war from British factories are hitting the common enemy in this global war—and hitting him hard!

In this honorable march to Victory, the Rootes Group is playing its part: for the entire Organization has long been concentrated solely upon forging the weapons for freedom. When the guns at last are silent and the world can turn again to hard-worked happiness and reconstruction—pedigree cars, and trucks of warrior sturdiness will be made available for you by

LOCUST CONTROL IN THE N.F.D.

Troops Kill Millions in Two Months' Campaign

OVER many thousands of square miles in the Northern Frontier District of Kenya, a locust plague of unprecedented magnitude has been checked in two months' fighting. The locusts, which have been killed by their own voracity, have been reduced to a negligible number. The campaign, which was conducted by the Kenya Mounted Rifles, the Kenya Rifles, and the Kenya Mounted Rifles, was a success. The locusts, which were first seen in the district in the month of October, had by the end of the month increased to such an extent that they were a serious menace to the crops of the district. The campaign was conducted by the Kenya Mounted Rifles, the Kenya Rifles, and the Kenya Mounted Rifles, and was a success. The locusts, which were first seen in the district in the month of October, had by the end of the month increased to such an extent that they were a serious menace to the crops of the district.

Desert Scouts
The Kenya Mounted Rifles, the Kenya Rifles, and the Kenya Mounted Rifles, were the main forces in the campaign. They were supported by the Kenya Mounted Rifles, the Kenya Rifles, and the Kenya Mounted Rifles. The campaign was a success, and the locusts were reduced to a negligible number. The locusts, which were first seen in the district in the month of October, had by the end of the month increased to such an extent that they were a serious menace to the crops of the district.

Baiting is Best
The locusts were first seen in the district in the month of October. They were a serious menace to the crops of the district. The campaign was conducted by the Kenya Mounted Rifles, the Kenya Rifles, and the Kenya Mounted Rifles, and was a success. The locusts, which were first seen in the district in the month of October, had by the end of the month increased to such an extent that they were a serious menace to the crops of the district.

MADE MUCH STRONGER

LASTS MUCH LONGER

BETTER-LOOKING MORE COMFORTABLE

WHY a Raleigh is STRONGER
Raleigh bicycles are made of the best materials and are built to last. They are made in a factory where every bicycle is inspected by a skilled workman before it leaves the factory.

WHY more comfortable
Raleigh bicycles are built with a special frame which gives them a smooth, easy ride. They are also built with a special seat which is very comfortable.

WHY they combine all the BEST FEATURES
Raleigh bicycles are built with all the best features of a bicycle. They are strong, last long, look good, and are comfortable to ride.

THE WEEK LEADER

With the outbreak of the war, the British Empire has been called upon to defend itself against a common enemy. It has been no easy task. It has been a task which has demanded the best of the British Empire. It has demanded the best of its resources, its men, its money, its materials. It has demanded the best of its spirit, its courage, its endurance. It has demanded the best of its faith, its hope, its charity. It has demanded the best of its love, its kindness, its mercy. It has demanded the best of its strength, its power, its glory. It has demanded the best of its honor, its respect, its honor. It has demanded the best of its life, its soul, its spirit. It has demanded the best of its all.

BOER WAR VETERAN FIGHTS RHEUMATISM

Has taken Kruschen for 40 years

After 40 years in the ranks of the Colonial Empire, a Boer War veteran has been afflicted with rheumatism, which has made it impossible for him to do any of his usual household work.

He has taken Kruschen for 40 years and has been free of his rheumatism for 40 years.

Dr. Kruschen is a Boer War veteran who has been afflicted with rheumatism for 40 years. He has taken Kruschen for 40 years and has been free of his rheumatism for 40 years.

The ECONOMICAL Tooth Paste

WINDMILLS NEED SAILS SHEEP NEED COOPERS

Sails form a vital part of the windmill. And on many a farm the annual dipping with Cooper's has become an equally inseparable part of sheep farming.

Cooper's Sheep Dipping Powder is the key to healthier sheep and better wool. It contains poisons on the sheep and wools of further attacks. In addition, it stimulates the skin and wool, its use results in a bigger and better clip of high-quality wool.

If you have to deal with Keds use "Quick-Killing" Powder. A single dipping is sufficient to eradicate keds and their pupae.

COOPER'S SHEEP DIPPING POWDERS

Cooper & Neeson S.A.
102, 5th St., NAIROBI.

HARVEST TIME

May be over and the next one seem a long way off, but will you be ready?

We recommend that you check over your Harvesting Machines NOW and order IMMEDIATELY all parts necessary to put your Harvester Thresher or grain binder in first class condition.

Remember neither you nor the country can afford to lose a bag of grain.

Insure against losses due to break downs by reconditioning your equipment NOW.

ARE THERE BRIDGE GREMLINS?

(By GRAND SLAM)

THEY Officers and Men of H.M. S. G. 100, who were on duty at the Cape of Good Hope, have been informed that the bridge over the Cape of Good Hope, which was built by the Cape Government, is in a state of disrepair and that it is necessary to close it for some time.

The bridge is a suspension bridge and is one of the finest in the world. It was built by the Cape Government and is a great landmark of the Cape.

The bridge is in a state of disrepair and it is necessary to close it for some time. The bridge is a suspension bridge and is one of the finest in the world.

On the 10th inst. (10th Feb) the bridge over the Cape of Good Hope was closed to traffic for some time. The bridge is a suspension bridge and is one of the finest in the world.

The bridge is in a state of disrepair and it is necessary to close it for some time. The bridge is a suspension bridge and is one of the finest in the world.

The only comment came from the players who were better to sit still and wait for the ball to be struck immediately. The players were better to sit still and wait for the ball to be struck immediately.

The players were better to sit still and wait for the ball to be struck immediately. The players were better to sit still and wait for the ball to be struck immediately.

Milk Without Mating

An article in "The Farmer and Stockbreeder" describes the method of obtaining milk from unmated cows. The method consists of placing a cow in a special pen and allowing her to suckle her calf.

The method consists of placing a cow in a special pen and allowing her to suckle her calf. The method consists of placing a cow in a special pen and allowing her to suckle her calf.

Day-long freshness

Keeping cool is largely a matter of keeping the nose open and unobstructed. Wright's penetrates right into the pores with a fragrant refreshing lotion that is cooling, cleansing, invigorating. It not only relieves the skin but encourages it to ward off stray germs and infectious food (but use Wright's carefully—there's a lot of it about you).

WRIGHT'S Cool Tar Soap

WRIGHT'S Soap is one of the best disinfectants of the month.
