ALOWA RECAPTURED BY ABYSSINIANS

2,500 Italian Defenders Reported Massacred

HEAVY LOSSES ON BOTH SIDES

Large Quantities of Guns and Ammunition Seized

A Reuter message from Addis Ababa received yesterday afternoon states that Ras Seyoum's troops at eight o'clock on Thursday night counter-attacked Alowa...

The Abyssinians captured thousands of rifles, machine guns, light artillery and millions of rounds of ammunition.

It is admitted that the Ethiopians lost heavily.

An Italian counter attack is expected.

Earlier messages from Asmara had reported that apart from affairs of outpost the situation on the Eritrean front was unchanged. It was stated to be holding a rectangle of territory between Alowa and the frontier about 80 miles wide and 35 miles deep...

ITALIAN PLANS

Apparently, the message continued, the Italians had planned to surround Mont Habale, at a height of 2,940 metres and thence force Ras Seyoum to retire from Enzart with the result that the Italians would be able to advance to Astarin.

Meanwhile (it was stated) Ras Seyoum's forces had retired to the valleys four miles from Alowa.

It was further reported from Asmara that Ethiopian bands had attacked Asabb which is well within Eritrean near French Somaliland.

LEAGUE SANCTIONS

The League of Nations Assembly has appointed a Committee of Co-ordination to decide what steps are to be taken against Italy. A sub-committee was set up yesterday afternoon when it was expected that the British delegate would move a resolution recommending the raising of the embargo on the export of arms to Abyssinia.

Arms Embargo to be Raised

(Reuter's Agency and British Official Wireless)

Geneva, Oct. 10. Continuing his address to the League Assembly to-day, Mr. Anthony Eden, the British delegate, said: "It is by the exercise of effectiveness in realising that if we cannot be prevailing on a man to be arrested, that the League will be judged. We cannot neglect our duties and responsibilities. Active must now be taken. It is for the members of the League collectively to determine what that action should be."

"On behalf of His Majesty's Government in the United Kingdom I declare our willingness to take our full part in such action. We all of us contribute with the deepest regret to the duty that now confronts us. We must therefore regard however sincere, the regret of any one of us may be, it cannot absolve us from the duty to take action. Since it is our duty to take action, it is essential that such action be prompt. That is the League's responsibility—its responsibility based on humanity. We cannot forget that we are at this moment actually in progress."

"We must therefore narrow to the action which our obligations under the Covenant command us to assume, both in so far as we are able to do so and in so far as we are not. Our duty is to take action early and peaceful settlement of this dispute is accordingly to be sought in accordance with the principles of the Covenant. In that task we are

Loaden Gun Carried in a Car

INDIAN KILLED

It appears that the deceased and five other companions set off by car on Saturday on a shooting party. The party returned to Dar es Salaam during the night and it is understood that there were three of their number seated on the front seat of the car and the remainder, including deceased, on the back seat.

BRITAIN'S MIXED SUMMER

Both Sunshine and Rain Exceed Normal

RAINY JUNE

["STANDARD" CORRESPONDENT], London, October 2.

(By Air Mail).
This 1935 summer will go down in meteorological history and half-day programme as a "very mixed affair. Monday was to all intents and purposes the last day of summer, and next Sunday we put our clothes back again.

Both rainfall and sunshine have been slightly over normal, but for holiday-makers many more days than usual were spoiled, at least partly, by rain. July was by far the best month—for the third year in succession—and April and June the worst. The total rainfall for the six months has been approximately 12½ inches; about a quarter of an inch above the normal.

Wettest Month

June was easily the wettest month with nearly 2½ inches of rain, which was 1½ inches above normal. April came second with 2½ inches of rain, over 1½ inches above normal. September will be a good (or shall we say bad) third with nearly 2½ inches of rain—1 inch above normal.

July's lovely days were broken by only approximately 1½ inches of rain, which is more than half an inch below normal. August had two inches, but mostly in the second half of the month so that the real summer was the six-week period from the beginning of July. May's record was fair with about 18.7 inches of rain, nearly half an inch below normal.

Winter Trials Times

July's lovely days were broken by only approximately 1½ inches of rain, which is more than half an inch below normal.

Winter time-tables came into use on the railways on Monday, but many of the fast trains put in service.

via for the summer are to be retained. In addition, on most lines there is to be considerable speeding up. The Great Western will have 18 express trains among them 1,772 miles every day at average speeds of 60 miles an hour or more. Speeding up on ordinary trains will show savings from 17 minutes to 2 hours and 13 minutes for various journeys on this line. The L.M.S. is speeding up 221 trains. Birmingham will be connected to Foston with seven daily trains during the summer in 1 hour 55 minutes, while several sleeping-car expresses from Scotland are to be condensed to 1½ minutes. The L.N.E.R. is just as busy. This railway's principal contribution to faster travelling is the new Silver Jubilee Express between King's Cross and Newcastle. It does the 263 miles in four hours at an average speed of 67 miles an hour.

Electrified Lines

Two more electrified lines have been inaugurated on the Southern—a three-mile extension from Woodside to Standstead; and a link, one and a half miles long, formerly merely a goods track, between Nuneaton and Leicestershire Junction. One effect of the changes is to raise St. Paul's Station to the scale of importance. About 20 more trains a day will run in and out of St. Paul's during the rush hours. The approximate cost of the new schemes, approximately has been £255,000.

Winter is Warm in Cornwall

At Carlyn, overlooking St. Austell Bay, are houses worthy of the liveliest scenery and most kindly climate in England, completely protected against mass development. As they are specially planned to save homes, the difficulty of getting servants in England is minimized. These houses are built of honest materials for permanent beauty and make completely satisfying homes. Write for a free booklet describing Carlyn, which is one of the Dartington estates, also Churston, Paignton, Exeter and Dartmouth, to SEAVERTON BUILDERS, LTD., Sluverton, Totnes, S. Devon, England.

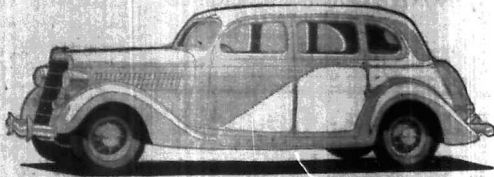

Exide

Adowa Recaptured By Abyssinians

(Continued from page 1).

ence, but would not yield to a force which put a premium on aggression in defiance of international morality.

A number of South American States also supported the League's proposals.

Co-ordinating Committee

The League Assembly adjourned until next November after adopting a resolution constituting the Co-ordinating Committee. Italy voted against the resolution, Austria and Hungary abstaining from voting.

The Co-ordinating Committee's first business tomorrow will be to consider the report of the commission on the export of arms to Ethiopia, but general agreement on specific suggestions is not expected before some time next week.

The Bureau has decided that the Co-ordinating Committee shall consist of all the members of the League, including Austria and Hungary but excluding Italy and Ethiopia. It will appoint a sub-committee of about 20 members to deal with the question of some time immediately.

The assembly did not conclude its session when the present meeting ended, but merely adjourned so as to remain in being.

Albania Withdraws

At the League Assembly meeting this morning the Albanian delegate announced that Albania was unable to support sanctions against Italy.

The Assembly then decided to adjourn, the President remaining in contact with the President of the Council and the Secretary General in order to take whatever action becomes necessary. Baron Aloisi left for Rome at 1 p.m.

WORLD'S VERDICT

Prove Steps to Make it Effective

Geneva, Oct. 11.
In accordance with the League Assembly's decision to initiate collective measures against Italy, the first meeting was held this morning of the Co-ordinating Committee comprising representatives of all League members, except the two defaulters, and the two states, Austria and Hungary, which expressed their

protest against the determination of the Assembly that no time should be lost.

The 'Daily Telegraph' says it is a world verdict as far as the League represents the world, and the step made by Austria and Hungary is serious but not irreparable. British Switzers may be withdrawing but no time should be lost.

The 'Morning Post' says resentment against the peace-breaker is mingled at Geneva with anxiety about the measures to be taken against her. After drawing attention to sanctions in the speech of M. Laval and Mr.

Eden, the newspaper assumes that two methods are to be pursued jointly for the prosecution of peace, one by way of Article 16, and the other by way of coalition, and it expresses the view that the latter is the more humane, safer and more in accord with the spirit of peace.

League's Functions

The 'Manchester Guardian' says the function of the League is to secure justice for Abyssinia by putting such peaceful pressure on Italy, as combined with the pressure of the coalition itself and her previous position in Europe, will bring the war to an end.

'We have now to see what unity of will there is in the League, which yesterday in its Assembly solemnly condemned Italy, to abstain from dealings with the aggressor state.'

The 'Daily Herald' emphasizes Mr. Eden's demands for immediate action to secure a settlement in accordance with the principles of the Covenant, and adds: 'If the League is to emerge victorious it must act swiftly, decisively and resolutely. The progress of the situation is neither to solve the anxieties of the League Government, nor to punish Italy for her crime. It is to end war.'

The 'Daily Mail' urges politicians and publicists to refrain from any word or act that might increase the tensions and says conciliatory statesmanship is not currently required to effect a friendly settlement.

REMARKABLE DEMONSTRATION

The measure of solidarity achieved among the Powers is presented at the League Assembly yesterday as regarded by the newspapers as a remarkable demonstration of opinion. 'The Times' says it may be plain to the whole world by this time that Italy has left those nations who know their world no choice but to take action against her. The dissent of Austria and Hungary would only be serious if they or others who might see their trading corridor were willing indefinitely to take that risk.

The Co-ordinating Committee may well take some days to complete its task of fitting into a workable scheme today's contacts and the determination of the Assembly that no time should be lost.

The 'Daily Telegraph' says it is a world verdict as far as the League represents the world, and the step made by Austria and Hungary is serious but not irreparable. British Switzers may be withdrawing but no time should be lost.

The 'Morning Post' says resentment against the peace-breaker is mingled at Geneva with anxiety about the measures to be taken against her. After drawing attention to sanctions in the speech of M. Laval and Mr.

ADYENIA BETHAN AND THE LEAGUE

To the Editor, "E.A. Standard."

Sir—This letter, on the present crisis, is written in the hope that it may promote discussion, as I think nobody is satisfied, and we all want to know how we stand. One constantly hears "The League is done for, out of use, is not what was intended, etc. Certainly the last two seem to be justified. Anyway, it still grieves, and we are well bound to feel a miserable effort organization. But one feels all the time that a miserable effort organization it is. On a Monday the thirteen sit down and talk and talk, and then refer everything to a mysterious file, who sit down and talk and talk—they in turn throw the ball back to the thirteen, who meet about a week later, and so on it goes; then wire is sent to Italy, about the interpretation of para 20, sub-section 2, let us say, and then Mussolini sends a reply which directly shows his contempt for the whole matter, and incidentally goes on to interpret sub-section 20, that and the other good Abyssinians are being done to death, and their country invaded. Every day lost means more slaughter. Why fuss about details when the big loss has happened? Mussolini has made war in defiance of League obligations and has told the world plainly enough that he has planned all, and means to march straight on. To put the business in honest language: When a member of the team gets too fresh, the real can give him a beating, because that means war—and the whole organization was set up to prevent it—but they can dock his grub, and stop his pocket-money, and generally humper him. The bad boy may reply: "Very well, I shall play the same punishment to you, if or he may say: "Do that, and I shall make war." To we take up the challenge.

There seems little doubt that if any measures are taken, by land, sea or air, to curb this war, an instant reply will be made by land, sea and air; more war, and a much more serious one. Why not try the hammering game first, and see what is likely to come of it? We merely cheer it all down and do nothing, watching a fellow member of the League being done to death. We had the idea of sea-warfare—Italy and the U.K. alone have fought him a lesson, at the same time there are such things as honor and the fulfilling of obligations, unless these have died in disgust of life.

In nearly every century some Napoleon-like person arises, first in one country, then his another, and is nearly always a bully. A bully bluff, and by a determined front, not usually, but seldom, failing, seems to be suffering from a very serious attack of "swelled head," and it is very doubtful if the younger generation have ever been taught more of the less palatable facts concerning the great war, a friend or mine who was in Mogadishu in 1941, in the course of a voyage, said that the Italian officers were boasting, and we were well bound to be, that they would soon end the war by the use of barbed wire, flame-throwers, bombs and poison-gas, and that they could take Colons "for themselves," wherever they were.

He asked himself if they would let England itself alone, a leader, but not a leader, and they could not see that he was having a quiet life.

Can anybody answer the following question:

A: Are we going to let the League go by the board, Europe revert to the armament race, with its inevitable chaos, take our share of the world's refuse and Italian contempt?

B: Uphold the League, and defend the Covenant with one or two in mass support?

C: As in case B, only unreported?

D: Reform the League, which would take far too long to meet the present situation?

If it comes to case C, it is hard indeed that Great Britain should be expected "to hold the baby." But there was a scrap of paper in 1914; it was another scrap of paper in 1935.

I am ignorant of all the far-fetched difficulties of Statesmen. France may be willing but unable to help. Different nations of the League are Great Britain may point of view, but it seems to me that when we are really up against it, the good old B.P. is unimpeachably sound in his judgment, and should be consulted by name.

Yours etc.,
Nairobi, October 7, 1935

To the Editor, "E.A. Standard."
Sir—You surely will allow me to try to ask the following questions referring to the attitude of the League towards the dispute between Rome and Addis Ababa. Would you please explain to me the reasons why the League of Nations is so slow in employing measures which will definitely ensure peace?

Why has the League let Rome despatch so many troops to Africa, and how is it to be their destination? Is it Addis Ababa? Why has the League not immediately stopped the approach of the war now reported to have destroyed two thousand souls in Ethiopia?

On my part I think that the League at present is in need of both bravery and courage, or else there is such a remarkable lack of decision, as the result of which we all are about to approach our doom.

Britain as far as shown her brave and manly. Indeed she would be a credit to the League had she been as good as her word.

To us, the Abyssinians, and indeed to all that care for the world's population, a bomb or two on Rome, or better still on one of the fronts carrying the troops from there to Africa, would be a welcome relief. The matter of talking to Geneva. Having however shown the desire to know how far, if the League is to mean anything, the League should take to stop these crazy people of Rome from questioning the League's ability to prevent war, and if taken action from the very onset of the abhor.

Yours etc.,
I. G. KABIRI
Kisumu, October 8, 1935

MOUNTAIN CLUB OF EAST AFRICAN ELGON SECTION

To the Editor, "E.A. Standard."
Sir—At an inaugural meeting held on the 21st October at the Elgon Club, of the Elgon Section of the Mountain Club of East Africa.

It would be too long to state that this is not a new society, it is merely a branch of an organization which came into being some years ago. It is forming the Elgon Section to complete a triangle which has the Kenya and Kilimanjaro Sections of the Club at its other two extremities.

Down country the Club has many members, some of these would furnish mountaineers and explorers.

The "Log" of the journal of the Club, is beautifully illustrated and its interesting articles and

maps contain much useful information of the mountains and volcanoes in those regions. Few people realize that we have a number of active volcanoes within our own boundaries, and that one of these devils is expected to erupt in the near future.

The Elgon Section of the club has eleven paid up members to date, and it is hoped that more will join soon. The subscription is Shs. 100 per annum. A temporary committee, (A. J. Mischak (Honorary Sec.), H. M. Bowker (Kisumu) and myself), is acting until we hold another meeting.

Mr. J. Stephen Smith, B.Sc., c/o Alliance High School, Kisumu, is the Hon. Secretary and Treasurer of the Kenya Section.

Yours etc.,
R. B. MITFORD-BARBERTON
Hon. Sec. and Treasurer,
(Elgon Section).
Kisumu,
October 6, 1935

MEDICAL AID FOR AFRICANS

To the Editor, "E.A. Standard."
Sir—The letter appearing in your Week-end Edition dated 4th October under the heading of "Colonial Hospital" makes interesting reading though the particular point I would touch upon is the reference to medical aid for Africans.

As a compensating thought it should be remembered that large amounts of money are yearly subscribed by the African community in the form of taxes to control schools, agricultural activities, support of dispensaries, and other items calculated to help the people throughout the reserves.

In North Kavirondo, for a population of half a million there is one Government hospital only with a small number of dispensaries dotted here and there throughout the area. With these facts in front of one it is surprising to claim that the African is getting free medical attention. Further, it is sincerely to be hoped that attention will ever be made to curtail this valuable service, which is daily appreciated by an ever-growing circle.

There are one place where the Government have established an ideal system, which, apart from alleviate the terrible worry incurred when faced with the probable expense of medical attention.

Yours etc.,
JAMES MURRAY,
Kakamega,

Ayrton's IODISED THROAT TABLETS

For all Throat Troubles and to Prevent Infection.

THE REASON FOR ITS SUPERIORITY—Iodine extracted from seaweed, it is commonly known, one of the most valuable healing and antiseptic agents known to modern science. The chief virtue of the tablet, although by no means the only one, lies in its therapeutically active Iodine content.

AYRTON, SAUNDERS & CO., LTD., MANUFACTURING CHEMISTS, LIVERPOOL Agents—THE MOMBASA TRADING STORES Ltd., Government Road, NAIROBI, and Salim Road, MOMBASA.

RCA VICTOR The Radio Headquarters of the World.

Some interesting facts about this amazing Radio organization are— More than 5,500,000 square feet of space is utilized by RCA Manufacturing Company. At peak employment, more than 15,000 persons are employed in the factories, offices and laboratories of the Company, both in Camden and Harrison N.J. A quantity of from 5,000 to 5,000 complete radio receivers are turned out DAILY during the business season. The company's plant consists of 25 large buildings ranging from one to ten stories in height. The company maintains more than 5 miles of railroad tracks leading into and from Railroad. More than 100,000 square feet of blue prints are drawn up each month. There are six miles of conveyor systems in the various factories. The company has its own wharf for unloading, and facilities for storing 40,000 tons steel. There are 92 active kilns for drying cabinet lumber—with a combined capacity of 175 million board feet of lumber per year. A fully equipped hospital dispensary and two branches are maintained. Nine million gallons of water are consumed per month for processing purposes. It is said that the sum never rises on any portion of the British Empire. This may be said of RCA—for its services and products are standards of excellence in every country in the world.

PROPERTY: SUBSTANCE AND VALUE

The Philosophic Argument for Social Credit

A MASTERPIECE OF LUCID EXPOSITION

New Book by a Kenya Retiree

Property: Its Substance and Value by Le Conte W. G. Serra, P.O. Box 19, Published by Paperhood, London 1935. Price 2/6.

To strive for the exclusive ownership of property is one of the primary instincts of mankind. It seems part of the ego-complex, the group of instincts which are connected with the self. It may be understood, but the material is organized in three great universal complexes. The ego-complex includes all the instincts which preserve him as an individual. The herd instinct preserves the group to which, as a progressive man belongs. The Super Complex preserves the continuity of the race.

Stronger than Reason

The first essential for any social system that is to be permanent is that it must conform with the psychological make-up of mankind. It must not thwart or run counter to any of the primary instincts. These instincts are strongest when treated. They must and must reason into conformity with them. In the ultimate analysis, the principal function of reason is to find excuses for the actions dictated by the primary instincts.

Transcending Nervous Energy

The exclusive ownership of property has up to now had low play. The laws of all civilized communities protect it. Yet in the last quarter of a century the unlimited production of private property has come into conflict with man's existence as a group. A first-class conflict has set in between the Supercomplex and the herd instinct. A conflict such as this must be equalled at all costs. Nature has placed tremendous nervous energy behind both these universal complexes. The social organism of mankind will not permanently be equalled in the distance of either. The long and bitter hostility of the Western world to the Russian experiment is due to the belief that the instinct to own private property is finally suppressed in Russia. If it is, the humanity is justified. But in the last quarter of a century money has risen and more has been created out of material of no intrinsic value. This right of manufacturing money out of material of no intrinsic value can be used, and has actually been used on a large scale, to destroy

Manufacturing Money

The conflict has been precipitated by the fact that the laws protecting the exclusive ownership of property also cover and protect the exclusive ownership of the right to manufacture money. As long as money was gold and silver this right could not be abused, and the protection by the laws was justified. But in the last quarter of a century money has risen and more has been created out of material of no intrinsic value. This right of manufacturing money out of material of no intrinsic value can be used, and has actually been used on a large scale, to destroy

THE DEPRESSION IN KENYA

(Continued from page 7).

No Choice

Fundamentally, the basis in industry in this country labour under precisely the same handicaps as the farmers of Kenya. The key to Kenya's problems is this labour in our own. There is this difference—but whereas, whether well-adjusted or ill-adjusted, we, through our own Parliamentary representatives, have made our own choice of monetary policy, Kenya and other Empire farmers have not imposed upon them. We perhaps deserve what we have suffered, but we cannot expect Kenya and other Empire farmers to suffer as quietly as we do.

The "something comprehensive" which must be done for Kenya is a currency expansion adequate to compensate for currency restriction in the rest of the Empire. When prices of primary products are restricted to a proportionately less than the rest of the Empire, Kenya farmers will have to bear their burden. But with Kenya's policy tied up with our own, Kenya's hope of relief depends upon securing the same relief for the whole of the Empire. Our Parliament must make the initiative. If not for our own sake, then at least for the depressed farmers of the Empire, we must recognize the obligation to Parliamentary representatives—Yours etc., (Sgd.) John Northrop, Kenya Colony.

Overdue Warning

The Chairman of the Silver and Monetary Policy Committee of the Federation of Master Cotton Spinners' Associations Ltd., Manchester, contributed the following:— By the Editor of the "Manchester Guardian".

Sir—In his letter published in today's issue of the Manchester Guardian, Mr. John Northrop writes a long-overdue note of warning which it behooves the people of this country to heed and to act upon. He points out that Kenya Colony is suffering acutely from the slump in prices of all primary products that British writers are many of them faced with you; that the natives, and European settlers, have seen a goodly share of the distress of depression; that the temper of the people is rapidly rising; and that unless something comprehensive is done soon there will be trouble. We have first-hand information precisely to the same effect from all the Crown colonies, protectorates, and mandated territories, as well as from India and the Dominions. The condition of farmers in general is everywhere deplorable; and unless "something comprehensive" is done, soon we must anticipate most unfortunate results for all classes of the Empire. Kenya forms a most telling example of the evils of our present monetary policy. In the past decade restrictive currency policy, which is all-comprehending in its effects, has reduced the farmers' earnings by at least one-

half and their debts and taxes are now intolerable burdens.

ENGLAND'S OLDEST

110 Year-Old Believes in Tea and Stout

["STANDARD" CORRESPONDENT], London, September 24.

The oldest woman in England, Mrs. Caroline Merriott, will be 110 years old on October 2. She is present a patient at Thurston Heath Hospital, London. She has been three years in her bed but still good; she is well. Her diet "I always have a pint of tea first thing in the morning, and a glass of stout at noon," she jokes. And now, she says, she is tired. "I have outlived the age to which I belong."

Renter's Venture

WONDER BUILDING FOR FLAUNT STREET

MR. STANDEN'S OBSERVATIONS

The beginning of a new stage in the co-operative interchange of world information will shortly be made with the erection of what is described as the world's most comprehensive and modern office building...

The "wonder building" will accommodate a number of Press Association's London staff of British and foreign agents allied to Reuters. There will be kept in constant and instantaneous communication with imperial and foreign news as it comes in an unbroken stream...

Economy in Time

The building will contain the most modern telegraphic and other scientific equipment and will be a maze of service ways which will not only be used by Reuters but also by other agencies...

The diversion of the new building will be in Portland stone and will be carried out according to a design by Sir Edwin Lutyens. It will consist of nine floors...

A large block of buildings fronting on Fleet Street will be demolished to provide a suitable area. Work will start shortly.

NICE CAUSE TRAFFIC JAM

Deflected bus just some lines by renaming High Street, Deflected by High Street, Deflected by High Street...

Performing circus caused a traffic jam at Harrow. They were performing some new traffic lights when they jumped into the road...

The similar points out that no more Mark VII ammunition may be purchased from Government stores...

The question of the standardisation of the competitors was raised at a recent meeting of the Council and the British Association...

SHELL is Always First

From the days when motoring was an adventure, Shell has been unequalled in quality, and so to-day secure in its position of unsurpassed supremacy...

INSURANCE COMPANIES

My own bill invariably comes to meter rent, for 2,000 gallons, when actual consumption totals from 1,000 to 2,000 gallons. On these rare occasions when the 2,000 gallon figure is approached, however, the Municipality has no hesitation in adding another shilling to the bill. In my own case (and I am sure in that of many other users of the town water-supply) therefore, there seems to be little need for me to keep a careful record of the actual consumption—there is a fixed minimum charge, which allows me 2,000 gallons free. I therefore entitled to, even if a several hundred gallons more be diverted for watering the shamba.

Cadbury's
BOURN-VITA
THE PERFECT FOOD-DRINK

All these life-giving ingredients in this all-
British food-drink. Fresh full-cream milk and
new-laid eggs from British farms, British milk
and chocolate go to make Cadbury's Bournvita, the
new and delicious all-British food-drink that
ensures sound sleep at night.
All who think Cadbury's Bournvita notice an
increase of energy and good health. 70% of the
nutrients in Cadbury's Bournvita can be turned
into human energy within a few hours.
Cadbury's Bournvita is easily and quickly
made; simply add two teaspoonsful to a cup of
hot milk. Everyone likes the flavour of this
delicious food-drink. Try it tonight! It is the
best value obtainable; every tin guaranteed
net weight.
FOR SLEEP AND ENERGY

THE FOREST ORDINANCE (Cap. 81 of the Laws).
TENDERS FOR TURIANI TIMBER.
Tenders are invited for the grant under section 6 of the Forest
Ordinance of an exclusive licence for the exploitation of Mvuli and other
timbers in an area of about 120 square miles situated on either side of the
Ngorongoro-Kilosa Road between Kanga Mountain and the Mikinda
River.
Approximately 10,000 tons of Mvuli timber is in the area besides
large quantities of Mahogany (Khaya sp.) and Muinga (Pterocarpus sp.).
Forms of tenders may be obtained on application to the Forest
Office, Mwanza.
Sealed tenders clearly marked on the envelope "Tender for
Turiani Timber" should reach the undersigned on or before the 31st
December, 1965.
The highest or any tender will not necessarily be accepted.
H. H. HEBBING,
Tanganyika Forestry,
Acting Conservator of Forests.

Bodily Power
Mental Strength

They are here in
SANATOGEN
The advanced system must be vigorous, otherwise
not only the body suffers but will-power and
mental capacity are seriously affected as well.
Invigorate your nervous system by taking Sanato-
gen. In so doing, you will both strengthen your
body and improve the power of your mind.
Sanatogen will increase your vitality and tone up
your nerves. It will make you feel lighter,
brisker and less fatigued through the day, because it
provides the body with nature's own building
material—organic phosphorus and potassium.
Thousands have known the benefits of Sanatogen. Really
strong and mental faculties are his who uses our milk.
While Sanatogen is available in all parts of the world, its
entire production is made in the U.S.A. in a clean
and sanitary environment in your health. Once you are
convinced of its benefits, you will find it a most valuable
addition to your diet and a most desirable way of life.
SANATOGEN
The True Tonic-Food
Obtainable at all Chemists and Stores.

SCHOOLBOY BOWLER'S FEAT

100 Wickets Reached on Sunday

CIVIL SERVICE BEAT MACHAKOS

Although the cricket season is less than half way through, over 100 wickets have been taken by a young Government Indian school boy. He is Manibhai, and he achieved his century in a match on Sunday playing against District High School, Nairobi.

The following are the scores. Points winning by 101 runs:

Table showing cricket scores for Civil Service and Machakos teams.

BOWLING

Table showing bowling statistics for various players.

THE WEATHER

The following note on the weather was received yesterday from the Director of the East African Meteorological Service:

Shower clouds, generally again yesterday and were heavy over parts of Uganda, Kampala reporting 0.77".

All Lake stations reported rain with the exception of Kiambu and in which Kabete recorded 0.10", Nakuru 0.2", Eldoret 0.14" and Meru 0.16".

The anticyclone over Madagascar is weakening and weather will be less cloudy and warmer with scattered afternoon or evening showers in all districts.

THE FIGHT IN THE LEAGUES
Position Now Opened Up
SATURDAY'S SURPRISES

While Saturday's results did not affect the leading positions in the league in any extent they had the one effect of making the race much more open. Middlemore's team were close on the leaders; indeed they were close on the leaders for the leadership. It was a strange fact that Saturday's leading sides managed to win on Saturday, leaving Huddesfield.

On Friday, however, the wonderful effort when they beat Sunderland a case of a side at the foot of the table beating one which was in the top flight.

These upsets are all in the good and make the competition much more open. At the present time there is no side which can claim a real advantage. Already the season promises to be a good one; it is a sign of the times — the improvement in industrial circles.

Of the promoted teams from last season, the most interesting is Brentford — there is little between them and the other 12th.

The former are placed 14th, and the latter 15th.

Leicester City and Sparta are making a bold bid for the championship, in which race Manchester United are running close. The last named are placed second in Spitz and Southampton close on their heels. It was only a few weeks ago that the latter were League players offered their whole season's earnings.

The same tale falls to be told with regard to the Third Division. Reading were championed by Charlton Athletic for promotion in April last; today they are on top. Tottenham have led the potential winners of their section in the past few weeks, but Saturday they lost their unbeaten record and the leadership. Lincoln City are leading in the 11th in the northern section. Chesterfield leads the southern in the five leagues. Or they have been placed in the division in their forward line, and they are going alone. With a match in which they were engaged, they have done level on points, although their average is inferior to that of the present leader.

EUROPEAN AMATEUR BILLIARDS CHAMPIONSHIP
Entries Now Being Called For

Entries are now being called for the Kenya European amateur billiards championship. The closing date is November 2, and it is expected that play will commence on Monday, November 18. Entries, which must be accompanied by the fee of five shillings, should be sent to the Sports Editor, "East African Standard," Box 381, Nairobi.

On Friday of this week, at 5 p.m., a meeting is to be held in the New Stanley Club to discuss the question of the formation of a European Amateur Billiards Association. All players and others interested are asked to attend.

SUSU AMATEUR SWIMMING CLUB
To-night's 40 Yards Scratch Race

A 40 yards scratch race is the principal event to be decided at the weekly meeting of the Susu Amateur Swimming Club to-night at 8.30 p.m. at the Salisbury Swimming Club.

In view of a discussion which is to take place this evening regarding a proposed change in the club day, it is hoped there will be a big turn-out of members.

It is proposed that the club day should be changed from 8.30 p.m. on Tuesdays to 2 p.m. on Sundays.

First Phase of Italian Campaign Ended

SURRENDER OF THE HOLY CITY OF AKSUM

Busy Times at Geneva

PROVISIONAL EMBARGO ON KEY IMPORTS LIKELY AT ONCE

With the capture of two important Abyssinian towns and the anticipated surrender of a third, the Italians consider that the first phase of their campaign has ended.

A fierce battle is reported to be in progress near the boundary of Ethiopia and Italian and British Somaliland. It is stated that a tribe in British Somaliland has joined forces with other Somalis against the Italians.

HAMPERING ITALY

Sub-committees of the Co-ordinating Committee at Geneva are busy working out details of the application of Sanctions. Certain financial measures aimed at Italy came into effect yesterday.

Proposals for economic action are expected to be completed by the end of the week, but it is considered probable that a provisional embargo on certain key imports for Italy may be imposed immediately.

Progress of Sanctions

(Reuter's Agency and British Official Wireless.)

London, October 16. In reply to the British representative to Rome that Adia Ababa and Dire Dawa are open towns with large foreign populations and seeing that an embargo should be given that they would not be attacked from the sea, Sir Eric Swire, the Italian Under Secretary for Foreign Affairs said he had made a note of the representation with a view to notifying the military authorities.

More Surrenders. It is learned from a dispatch that another column of 4,000 Abyssinians have remained loyal to the British and Italian forces.

Several British chaplains are also reported to have volunteered. The first column of wounded British soldiers returned along the sea road from Amara.

THE LEAGUE

Financial Sanctions Against Italy. Tonight at Geneva the Co-ordinating Committee adopted financial sanctions with the exception of the representative of Austria, Hungary and Venezuela, the latter had been proposed by a sub-committee of financial experts.

It is understood that the League of Nations will take immediate steps to enforce the sanctions. It is possible the following measures: All direct or indirect loans to the Italian Government, or all subscriptions to loans by Italy or administered directly by the Italian Government.

A Warning

Addis Ababa, Oct. 16. The British Legation has advised British subjects and other foreign nationals to remain in the city which the Italians are reported to be on the outskirts of the city which the Italians are reported to be on the outskirts of the city which the Italians are reported to be on the outskirts of the city.

With the call of Adia and Agdera and the anticipated speedy fall of Aksum, it is considered here that the first phase of the Italian campaign has ended. It is expected that the next phase which is due to begin shortly will meet with little resistance as the Italian troops have already entered the city.

A picture received by the last mail showing Signor Mussolini inspecting young Fascists.

hypothetical, established on Italian territory, as well as subsequent execution through donations, contracts, or any other means, of all contracts for loans intended, directly or indirectly to their advantage. All issues of shares, or calling up of capital to benefit public bodies, or individuals, actual or hypothetical, established on Italian territory, as well as subscriptions to such shares, or calling up of capital, effected in Italy or elsewhere. Governments will forbid these operations, whether effected, directly or through an intermediary of whatever nationality. Credit, however, for humanitarian or religious purposes not so included among the operations to be forbidden. Each Government is invited to make known with little delay as possible to the League of Nations the steps they are prepared to take in conformity with the above-mentioned disposition.

Embargoes

This afternoon, after adopting a number of financial measures to be recommended to Governments, which was adopted by the Co-ordinating Committee, the Committee of Experts decided, according to press messages from Geneva, to proceed immediately with the study of all measures applicable to an embargo on raw materials and products essential for the production of arms.

According to an uncorroborated report from Dageburi the Italian and the Italian Somalis are engaged in a fierce battle south east of Corral in Whiphop where the British and Italian Somaliland forces have met.

Many casualties are said to have been suffered by both sides.

Financial Sanctions Against Italy

Tonight at Geneva the Co-ordinating Committee adopted financial sanctions with the exception of the representative of Austria, Hungary and Venezuela, the latter had been proposed by a sub-committee of financial experts.

It is understood that the League of Nations will take immediate steps to enforce the sanctions. It is possible the following measures: All direct or indirect loans to the Italian Government, or all subscriptions to loans by Italy or administered directly by the Italian Government.

All loans intended, directly or indirectly for public bodies or individuals, actual or hypothetical, established on Italian territory, as well as all subscriptions to any such loans issued in Italy or elsewhere.

All banking credits intended, directly or indirectly, for public bodies or individuals, actual or

hypothetical, established on Italian territory, as well as subsequent execution through donations, contracts, or any other means, of all contracts for loans intended, directly or indirectly to their advantage.

Each Government is invited to make known with little delay as possible to the League of Nations the steps they are prepared to take in conformity with the above-mentioned disposition.

This afternoon, after adopting a number of financial measures to be recommended to Governments, which was adopted by the Co-ordinating Committee, the Committee of Experts decided, according to press messages from Geneva, to proceed immediately with the study of all measures applicable to an embargo on raw materials and products essential for the production of arms.

QUIET NORTHERN FRONTIER. Few Signs of the War. Governor's Tour. HIS EXCELLENCY PLEASED WITH RESULT. His Excellency the Governor of Kenya, Sir Joseph Streeton, returned at the week-end from his tour on the Northern Frontier, which was well satisfied with the results of his visit. He told the "East African Standard" yesterday that the whole border for many months had been quiet and that he had seen no signs of the conflict over the border. He was satisfied with the arrangements which have been made by the military and police authorities to deal with any difficulties which may arise in the disposal of refugees, and so far there is no evidence that any of the frontier bandits ("Bilder") are engaged in any of the sort of things which have been reported to be taking place in the north-western Kenya.

CANADA'S NEW GOVERNMENT. Big Victory for Liberals. Conservative Landslide. SOCIAL CREDIT NOT A DECISIVE ISSUE.

[TORONTO HERALD'S ASSOCIATED PRESS.] Ottawa, Oct. 15. The Bennett Government is certain to be defeated in the General Election, and an overwhelming Liberal victory is assumed. The Liberals made an almost clean sweep of the Maritime Provinces, winning all the seats in Nova Scotia and Prince Edward Island.

Each Government is invited to make known with little delay as possible to the League of Nations the steps they are prepared to take in conformity with the above-mentioned disposition.

His Excellency paid a tribute to the fine quality of the "East African Standard" which was well expressed by the evident pleasure which they derived from a visit of the country's Governor, a visit which was every in name and in fact.

The Royal Baby. Continues to Make Excellent Progress. [BY WIRELESS.] A bulletin issued today regarding the health of the royal infant records their continued good progress, and it is stated the condition of the Duchess and her son is so satisfactory that it is not proposed to make any further, but a final bulletin will be issued at the end of the week.—British Official Wireless Service.

ROYAL BABY. Continues to Make Excellent Progress. [BY WIRELESS.] A bulletin issued today regarding the health of the royal infant records their continued good progress, and it is stated the condition of the Duchess and her son is so satisfactory that it is not proposed to make any further, but a final bulletin will be issued at the end of the week.—British Official Wireless Service.

Ministers in the Bennett Government have been defeated by the parties at 20 A.M. G.M.T. was as follows: Liberals 22, Conservatives 21, Co-operative Commonwealth Party 2, Independent Liberal Party 2.

The following was the state of the parties in the Canadian General Election at 6:15 A.M. G.M.T.: Liberals 138, Conservatives 128, Co-operative Commonwealth Party 2, Independent Liberal Party 2.

Three provincial elections in the Dominion have been held since the Dominion-wide election on Monday, the 11th. The Province of New Brunswick elected a Conservative Government, and the Province of Ontario elected a Liberal Government. The Province of Alberta elected a Conservative Government.

More Subscriptions to Wedding Gift Fund. Subscribers are coming in from various parts of the Colony to the Lady Alice Scott Wedding Gift Fund.

As the wedding takes place on November 6, it is hoped that those who desire that Kenya (for which Lady Alice has done much good work) should prosper will send an adequate token of friendship will send their donations without delay.

The list of subscriptions is as follows: Mrs. G. H. Hassan, £10.00; C. H. Hartwell, £5.00; Miss K. Hartwell, £5.00. Total, £20.00.

RATES OF EXCHANGE. The following rates of exchange were notified by the Nairobi Bank yesterday: London on Paris 74/16; London on New York 4/0 3/4; London on T.T. on London 1/6 3/4.

43 Rhinoceros Shot in Two Months

BIG GAME CONTROL PLAN NEARING ITS END

Removing a Menace

What is claimed to be the most successful big game control campaign ever undertaken in Kenya will shortly be concluded by Mr. E. Cunningham, an Honorary Game Warden and settler of Thomson's Falls. In the course of two months' shooting Mr. Cunningham has killed off 43 rhinos in the Nyeri district.

Thrilling Work

For many months past the rhinos in the Nyeri area have been extremely troublesome, and apart from the damage they have done to crops and planted fields have been a distinct menace to the safety of the farming community. It will be recalled that in January of this year Mr. T. Carpenter, of Nyeri, was forced to death by a rhino. At the request of farmers in the district the Game Department arranged for the rhino to be thinned out and approached Mr. Cunningham to undertake the task.

While the primary function of the Game Department is naturally the preservation of game, the Acting Game Warden, Mr. E. Cunningham, informed a representative of the "East African Standard" that the Department also has a serious consideration for the safety of the interests of land-holders which may be forthcoming from his game, hence the need for these drastic control measures.

Mr. Cunningham commenced operations during June, but had to interrupt his work after a month or so when he had shot 20 rhinos to undertake control measures against herds of elephant which were making a nuisance of themselves in the Laikipia area. This done he returned to the Nyeri district, to continue his activities against the rhino. He was in Nairobi on Monday but left again in the afternoon to complete his campaign at Nyeri by killing off a further half-dozen of the rhino.

When he undertook his task the farms in the district were in a state of confusion. (Continued on page 5.)

KENTA LAWN TENNIS ASSOCIATION
Teaching the Youth of the Colony
A PROFESSIONAL COACH
 The fourteenth annual general meeting of the Kenya Lawn Tennis Association will be held this evening at Rindiki Club at 6.15 p.m.
 As a long and important session will be before the meeting it will be necessary to make a prompt start, while it is hoped that most affiliated clubs will be represented. The names of the representatives nominated by the various clubs should be supplied to the Hon. Secretary of the Kenya Lawn Tennis Association before the meeting.
 The Kenya Lawn Tennis Association have for some time been trying to make arrangements for a professional tennis coach to give lessons with a view to improvement of the game in general.
 The Council are now taking the opportunity of finding out the best person for a coach by the arrival in a week or two of Miss Noel Wright, and have appointed the following committee to local schools and affiliated clubs. Any would-be pupil who belongs to an affiliated club should forward the application form, although arrangements will also be made for anyone who is not attached to a club.

JONES — JONES
And Jones, Jones, Jones, Jones and Jones
 [STANDARD CORRESPONDENT].
 London (by air mail).
 The name Jones appeared seven times on the register after a wedding at Esher, Surrey, on October 11. The bride was Miss Jones, daughter of Mr. David Blinn Jones, son of Mr. David Mansfield Jones, and Miss Phyllis May Jones, daughter of Mr. Thomas Henry Jones. The two witnesses were Mr. Ronald Jones and Miss Ruby Jones.

 This is what the Bishop of London reads on holiday: "Queen Victoria" by E. B. Bennett; "England in the Reign of Charles II" by Arthur Bryant; "India through a Bishop's Diary" by Bishop Forster; "The Sixth Year, Government in Transition" by Lord Bessborough; "Does Capitalism Cause War?" "Oven Light," by Lloyd Douglas.

ESCAPED DEATH — FINED 5/-
 [STANDARD CORRESPONDENT].
 London, October 5. (By Air Mail).
 Two elderly men fell off the platform at Finchbury Street station as the train from Shobury was running. A. Porters dragged them away from the train and both received first aid. They were afterwards removed to hospital. At the Mansion House to-day they were each fined 5s. for leaving the train before it stopped.

WHO WANTS A WINDMILL?
 [STANDARD CORRESPONDENT].
 London (by air mail).
 Pritcham Windmill, the last Sussex windmill to be built, is to be offered for sale by auction. It is suggested that it might be converted into a dwelling, studio or research laboratory.

43 RHINOCEROS SHOT IN TWO MONTHS
 (Continued from page 1.)

overrun with rhino but so effective has been the thinning out that it will be necessary to undertake further control measures for many considerable times to come. Practically all the rhinos apart from those that were shot, have been driven back to the Aberdare forests whence they came and where they do no harm.

An Exciting Moment
 He has been assisted in his campaign by two Wanderer tractors only, with whom he had experienced several exciting moments, but the last capture of one being an occasion when a particularly large rhino bull unexpectedly appeared about 100 yards in front of the tractors. Getting tired of the tractors, it charged straight at Mr. Cunningham, whose two shots from the 450 rifle had no other effect than to deflect it slightly from its course.
 Actually it passed so close to him that he had to extend his arm as he could have touched it with the two barrels of his rifle. Surprised, Mr. Cunningham was in an extremely dangerous position, but his guide bravely rushed forward and brought the rhino down with a single shot. It fell within three yards of where he had been standing, and between him and the gun-barrel.
 The incident occurred about three-quarters of a mile from the Bellevue Estate Game Factory at about midday when the wind was usually very deceptive. This particular rhino was by far the biggest of the 43 shot in the course of the biggest Mr. Cunningham has ever seen. Some time later, on the same estate, two rhinos, a bull and a cow—charged the party from about ten yards in a narrow rhino path in the bush and Mr. Cunningham had to jump aside to avoid the bull so that he could not see the animals as they lumbered past him. They were both down.

12 YEARS' TERRIBLE PAIN WITH GASTRITIS
 What must a man think who, after 12 years of terrible gastric pain and after trying everything else, takes a small bottle as a "trial" only to find it cures him completely? "During the past twelve years," Mr. G. W. writes, "I have suffered very badly from Gastritis, sometimes having to nearly starve myself for as much as a month at a time, only to start suffering again as soon as I started work. After trying nearly all the remedies which medicine advised, a small bottle of Madsen's Stomach Powder, small size as it was, did for me only a trial but a cure. I can eat more for one meal now than I could eat in any week during the past twelve years, and do a hard day's work as well!" Get a bottle today, and do not risk your health by buying an inferior substitute. Be sure to ask for this genuine Madsen Brand Stomach Powder, bearing the signature "ALEX. C. MADSSEN" on the label. If you have any difficulty in obtaining it from your local store, write to H. W. & Co., Ltd., 11, George, L.L., P. O. Box 28, Nairobi.

SHAVING COMFORT FOR MEN

POND'S EXTRACT

Fill a glass continually to the rim with the consumption of shaving cream, shaving comfort, and shaving safety. May be applied on the face and neck full strength after shaving, or in the lather during the shave. A teaspoonful of Pond's Extract in the shaving cup, or a few drops poured on the brush, not only increases lather, but actually improves the lather, making it smoother and creamier, and makes it last longer than when water is used.

Standard for Over Eighty Years.
Obtainable at ALL CHEMISTS and STORES.

IGNORANCE ABOUT KENYA
(Continued from page 5).

As a result of the meeting held at the Nairobi Chamber of Commerce office on August 29, the committee has been formed to proceed with preparations on behalf of Kenya for the Exhibition to be held at Johannesburg next year. On this committee the Association has two representatives. It is anticipated that Kenya will work in with other East African Territories and a space of 5,000 square feet has been allocated for East Africa with the option of increase. The Exhibition should prove of very great political value for Kenya provided full advantage is taken of the opportunities offered. In this connection, the enquiries received from South Africa, to which reference was made in last month's report, confirm, most of them being concerned with mined farming.

Financial Position
The Association's financial year closed on September 30 and at that date the balance in hand stood at Shs. 1,028/0 to which would be added a sum of Shs. 18,375/0 from Government in respect of the month of September. An appeal has been made to the Municipal Council of Nairobi for a provision of the grant of Shs 400 which was made by the Municipality for the year 1935 and 1934. This would make a considerable contribution to the publicity work which the Association can undertake.

WHEN DRY COARSE SURFACE CELLS ARE MELTED, NEW SMOOTH SKIN APPEARS

It is a scientific fact that skin cells in dry skin, making it rough.

"When a keratinized or scaly surface has been removed, the skin underneath is soft, smooth and supple."

Use this cream on your face and neck.

Goans Overseas Association. GOAN EDUCATION FUND.
Result of the Drawing of the Thirty-sixth Sweep, held on the 14th October, 1935, at Dr. Roberts' Central School, Nairobi.

HOLY CITY OF ABYSSINIA
(Continued from page 5.)

It is like a fortress, with a flat roof, and on a raised platform over a hundred feet long and fifty feet wide. It was built with masonry of heavy stone, and is in four sections, each of which is enclosed by a wall. In the centre of the platform is contained the picture of Christ's head covered by thorns, which is regarded as a relic. This picture is now kept to be shown on one of the islands in Lake Tana.

The Holiest Place

The church of Aksum is the holiest place in the holy city, and for that reason has been in the past a station-house of pilgrims as well as a sanctuary for criminals and political offenders. In times past offenders, who could reach the church were lodged in safety in the church, but maintained there at the expense of the clergy.

Gravel Miner

It was the greatest of all the mines of the Aksumite kingdom. In the day Aksum was an important trade centre, and merchandise from many lands, through its streets. It made roads, made canals, and built a magnificent kingdom, and it was the chief of his soldiers. His exploits were recorded by contemporary writers in four languages.

DANGER TO ETHIOPIANS OF FALSE CONFIDENCE
(Continued from page 5).

drawn up many weeks ago, the proposal being known then by intelligence agents in Europe. "The rubber tends to discount the official Note to the League concerning this forward movement. It is a coming movement of propaganda by mobilization in Abyssinia. The movement of Italian troops to the frontier was ordered for October 1 and 2, a reconnaissance on October 3, and occupation of new positions by the main bodies on October 4.

Short Route from Delo

"A glance at 'The Times' map of Abyssinia will show that a more direct route to the interior from the triangular area at Addis Ababa, where the routes of Kenya, Ethiopia, Somalia, and Ethiopia meet, is not met with until the full length of the coast.

Gravel Miner

It was the greatest of all the mines of the Aksumite kingdom. In the day Aksum was an important trade centre, and merchandise from many lands, through its streets. It made roads, made canals, and built a magnificent kingdom, and it was the chief of his soldiers. His exploits were recorded by contemporary writers in four languages.

"Seychelles for the Seychellois"

(Continued from page 6.)

Joining East African colonies. His Excellency regretted the fact, in his opinion, that the Agricultural Department had been prepared to be described as "personal politics." He took advantage of the opportunity to answer what he called "the deplorable propaganda" related to the suggested appointment as Director of Mr. Etienne Nagson, and also rejected a proposal by the Planters' Association that a new Director should be obtained for a lower salary. His Excellency said he told the view that if any change were considered necessary his recommendation would cost several thousands of rupees more per annum than the present arrangement. No such change was, however, considered either necessary or desirable.

The correspondence also provided detailed reasons for the removal from office of the Planters' nominee Mr. Nagson, a decision which, within some time before Mr. Lethem assumed the Governorship. It was remarked in the minute that very strong grounds existed in Government's opinion for establishing the "complete unavailability" of Mr. Nagson to hold a responsible position in the Colony. It was unthinkable that Government could consider him for employment, nor could any consideration be felt by the Secretary of State in such a suggestion.

Containing his speech, His Excellency said he had every hope of obtaining funds from the Imperial authorities for a qualified Assistant Agricultural Officer for three years and also for a three years course of training for a Seychellois officer which, together with the services of the entomologist which were to be provided, would render the Department able to give a very satisfactory increase and improve the position in agriculture in the near future.

Medical Service

In a reference to the Medical Department, His Excellency said he had had considerable correspondence with the Secretary of State on the subject of reorganization and had put the position before him. In a minute to the Colonial Office he had said that in view of the amount of controversy and criticism it was principally to have laid down the Government and the Department should work. That was to say, the principles now generally accepted throughout the Crown Colonies and included in the constitution of the United Colonial Medical Service. He knew of no good reason why principles found desirable generally should not be applied in Seychelles, and that was what had been decided. His Excellency announced that Dr. Latham had been appointed Senior Medical Officer in charge of the Department and was now engaged with His Excellency in arranging details of his work. The Governor took the opportunity of expressing his pleasure at the promotion of that officer and his confidence in him as a doctor and confidant in his work.

The Seychelles

The Governor thereafter remarked that in this matter of departmental organization he had kept steadily before him the object of appointing Seychellois officers to senior posts wherever possible. He had regarded this matter with considerable optimism when he first arrived (as did the Financial Commissioner) and had accepted the latter's suggestion that with the exception of the post of Chief Justice all senior posts should, if possible, be filled by local Seychellois. That optimism had been somewhat qualified during his 18 months in the Colony.

It is not only a question of professional and technical qualifications, but also of character, which is in fact harder to ensure; that sense of public service unaffected by private interests or interests; that sense of discipline and resolution to make the best of any work for its own sake which may be entrusted, which enables a man to rise superior to the personal difficulties which may meet him on his way, especially when he is a subordinate, and to fit himself to fill a senior post.

His Excellency believed that the numerous interested made it harder for a local officer than one from outside, particularly where he had to criticize or refuse consent to his local fellow countrymen.

Containing his speech, His Excellency said he had every hope of obtaining funds from the Imperial authorities for a qualified Assistant Agricultural Officer for three years and also for a three years course of training for a Seychellois officer which, together with the services of the entomologist which were to be provided, would render the Department able to give a very satisfactory increase and improve the position in agriculture in the near future.

A Warning

"I say with all the emphasis of my command that the policy of 'Seychelles for the Seychellois' as regards Government service will only be successful to the degree to which the truth of the Governor or the Secretary of the Government Department, otherwise humbly called, is in fact of you and me. Believe me, I am most anxious to be of service to the Colony in this way and I am, at first, I think, doing much for you in this direction as you have desired. I am therefore the more anxious to see that the obstacles I have mentioned should be diminished or removed by a wider tolerance and restraint and by positive appreciation of the mutual trust which is necessary if an public service is to function well."

The Economic Outlook

Turning from finance to economics, the Governor said they could not yet look forward to any

marked rise of prices such as would, in a few months, or a year or two, put the general prosperity of the community back where it was some years ago. The rise in the price of copra had stood down to some extent better than last year but much less than that for which many in the Colony had hoped. The present opinion submitted to him from England was that the fall was far more to expect prices to remain steady at present levels. That should enable them to carry on.

The Governor was also able to say that the guano prospects were definitely bright and that the position as regards essential oils was also brighter and had justified the attention given to the industry. These things and the assistance to agriculture already given from the Colonial Land Bank Council in filling that there was a definite improvement in the economy of the Colony as a whole, and that the Government in Government finance. If the budget allowed, he would like to make some provision to agricultural interests in addition though the other proposals were urged that reductions of revenue would be premature as to more things need funds.

The Land Bank

Mr. Lethem announced that arrangements for the establishment of the Land Bank had been completed. The Secretary of State had made a final decision on the bill, some of which were to secure that all capital to be lent should be in the form of debentures to ensure that the Bank would be treated and managed as a business institution and not as a department of Government. In the management of which other standards might be claimed by borrowers. A considerable number of applications had been examined. The Governor had also felt it desirable to make the Secretary of State to enable the initial sum to be made available to the capital amount would be raised as the result of the issue of debentures in the extreme, however, 60 rub the actual placing of money, as the Government of the bank's business was absolutely tied to the future.

Tribute to Treasurer

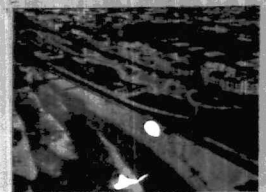

A minute containing an appreciation of the services of the retiring Treasurer, Mr. D. F. Watson, O.B.E., who completed 50 years in the service of Seychelles and was Treasurer for over 12 years, was laid before Council. It was signed by the Governor, who in addition to expressing his personal indebtedness to that officer had had pleasure in bringing to the notice of the Secretary of State the full and meritorious services of Mr. Watson.
