'Varsity and School Rugby. Oxford Too Good for Newport.

["VARIOUS" (Continued)] London, November 1. (By Air Mail). The ability to make the most of the opportunity that came their way enabled the Light House to take the honors at Cambridge against Richmond. (Continued) Richmond attacked several times in the early stages, and Parker not level Gradine when dismounted. In other actions, minor Cambridge started a promising movement in the home 35, 25, 7 and Johnston, following ahead, got away and ran his. Some interest about the interval Johnston ran in strongly last night. Afterwards Richmond had plenty of chances, but Cambridge handled well. Oxford University played their annual match against Newport on the 11th of the week. A first-class Welsh club provides a University side with the best possible practice even although it must allow for being only a victory for experience. Actually before this match Newport had won 20 times in Oxford's three, and Newport were not unduly by trying to play within E. E. T. Jackson and H. B. Larrain because of injuries. The result was Oxford won 3-0. The opposition, however, went in favour of Oxford, who forced their rivals to touch down once, while Newport were given the benefit of the doubt when a mistake of humanity was built up on their line. of Prohibition in America... SIXTY-SIX STATES FAVOUR REPEAL

Necessary Majority... UTAH, OHIO AND PENNSYLVANIA THE LAST TO VOTE "WET."

The eighteenth amendment to the constitution of the United States of America, providing for the prohibition of liquor, will now be repealed.

of 48 States in the Union, the vote of 36 is necessary in order to obtain the repeal of any part of the constitution, and this number has now voted "wet."

The prohibition law arose out of a special wartime measure intended to preserve grain. But after the war it was given wider scope and became the law of the land.

in connection with the position being to take shape in 1931, chiefly owing to the lawlessness arising out of smuggling, and the first move was taken some months ago when the brewing of a stronger beer was allowed.

A Wartime Measure.

that a physician might prescribe liquor for medical purposes. Exceptions had to be made for trade purposes.

A Court Ruling.

The greatest interest was created when United States Judge Wm. Clark ruled in December 1930 that the 18th Amendment was unconstitutional, as it was supposed to have been done not by State Legislatures but by State Congresses, but by State Legislatures.

Enforcing the Law.

In the early days of prohibition, before enforcement measures could properly be taken, a tremendous selling of liquor. Places like Hamburg, St. Louis, Chicago, New Orleans, etc., became lawless.

Wine Measure.

Prohibition had an ill-humour in the wine measure. The wine measure was passed in November, 1931, and the following January it was taken up by the Senate party in a great measure.

A GOVERNOR'S TRIBUTE TO WHITE SETTLEMENT.

(Continued from page 1).

Article 10 of the Mandate, it has been generally endorsed by minority British Governments in London. It recognizes that normal and successful development can only be secured by the retention of a common currency, inter-State co-operation, and close co-ordination of economic policies in the three African Territories, which, for these purposes, may be regarded as a single economic unit.

A Small Unit.

"Frequently speaking the East African unit is a very small one. It is a unit of 11,000,000. This unit is complete in itself, 11,000,000 which includes 10,000,000 Africans and 1,000,000 Europeans. It is geographically roughly half of the total population of the continent in an area—about one-fifth of the whole—encompassing Lake Victoria. The gross revenue from exports and imports, was valued approximately at £10,000,000 last year. The population of this African unit has risen from 10,000,000 in 1914 to 11,000,000 in 1924. The population is African and has risen from 10,000,000 in 1914 to 11,000,000 in 1924. The population is African and has risen from 10,000,000 in 1914 to 11,000,000 in 1924.

Transportation.

In many parts the means of communication are still far from satisfactory. The main transportation system consists of the railways from the ports of Mombasa and Dar-es-Salaam to the Lakes Victoria and Tanganyika. There are several branch lines and minor ports and wharves, and the main roads which are good in many places. The main roads which are good in many places. A Governor's Tribute To White Settlement.

ITS VALUE IN DEVELOPMENT OF TANGANYIKA.

East Africa's Future.

MR STEWART SYMES EMPHASIZES VALUE OF CLOSER ECONOMIC CO-OPERATION.

A striking tribute to the value of white settlement and enterprise in Tanganyika was paid by the Governor in the course of his last address to the Legislative Council.

Speaking of the great scope for economic development in the Mandated Territory, Sir Stewart Symes referred to the progress that had been made in "certain favoured localities" where "native enterprise had been employed."

He added that as far as one could see ahead the promotion of economic evolution in the country would depend largely on non-racial agencies.

His Excellency made clear his belief that Tanganyika, economically, could not stand alone and that her future in this respect would be bound up increasingly with that of Kenya and Uganda.

Increasing Native Needs.

THE GOVERNOR'S ADDRESS.

Through normal channels of trade and commerce, the native population of Tanganyika is being brought into contact with the outside world.

The Governor's address during the first nine months of the year amounted in value to £1,000,000, an increase of 10 per cent on the corresponding period of last year.

He said that the value of the goods imported into the Territory had increased by 10 per cent on the corresponding period of last year.

He said that the value of the goods exported from the Territory had increased by 10 per cent on the corresponding period of last year.

Rural Telephones? NAIVAHA'S POSITION.

To the Editor, "E.A. Standard," Sir—Mr. Neillinger's account in your issue of November 3 of the adverse effects of the heavy community to obtain telephones, and mentioning in the summary quoting the advice by Government appointing a factory to Naivasha and incidentally to Sogoi.

After negotiations dating back to November 1929 the Naivasha scheme has been abruptly abandoned by Government.

A public assembly recently held by the P.M.G. on behalf of the District as a result of which Government surveys were carried out and residents put to some trouble and expense in connection with the proposed Rural Telephone system.

Eventually in April some representative of Government had a conference with the one-sided Government committee, thereupon pledging themselves to pay Shs. 210, per annum plus trunk call fees and extras for three years.

On August 29 1930 the setting P.M.G. wrote as follows: "Urgent With reference to the correspondence that has passed between us on the subject of a Rural Telephone system at Naivasha, I have today received cables from the Government stating it is not possible to provide the money required for the required expenditure on this telephone system you require."

I regret in the circumstances, I am of course unable to proceed further in the matter.

The outcome of the matter is unfortunate, but in view of the impoverished state of the country the development of our service in Naivasha must await the arrival of better times."

It is not a fact that similar remarks were attributed to one of the Honorable Members in the Legislative Council but a more eloquent statement than that contained in the last paragraph could hardly be conceived by any man.

(1) Was not the country "impoverished" (as) when the agreement was made out for signature in April 1929?

(2) Has Government no faith in the post that telephone communication gives to the development of the country?

(3) Would any man with an eye for an eye expect to see an agreement unless he expected it to be made in the next few months?

(4) Will they ever be induced to sign another such contract?

(5) Cannot Government see its way to make those delightful little Victoria Jubilee annual events on each five of April just to amuse the kids and help us all to "Prosperity"?

of milk each every morning, on an 8-acre through the year. (1) I subscribe 15 cows and two spare tails to help feed the Government hospital, and one Shortfords bull and two Ayrshire heifers to feed the Government hospital. I am prepared to subscribe Shs. 750 to buy a bottle of 2000 of medicine to protect the Empire Fama Protection Society. I have 200 bullocks for sale (ad.). THE TANZANIA MANDATE.

To the Editor, "E.A. Standard," Sir—I shall be glad if you can find space in your paper for a few lines on the following subject: Sir John Sanderson Allen at a meeting at Arusha on the 11th inst. invited me to the office of a meeting in which German members of the Mandate for Tanganyika were invited to join Sir John to speak on the mandate or closer union.

I agree with your paper that the German members of the Mandate for Tanganyika have been wrong in refusing Sir John to speak on the mandate or closer union. They should have listened to his speech and then commented on it.

I would like to repeat the comment of the E. A. Standard London correspondent who writes by air mail under October 4: "Tanganyika course administered by Great Britain under a mandate of the League of Nations. Since the mandate is not legally a conquest of the British Empire."

LONDON, November 6. The High Commissioner for South Africa in London, Mr. C. T. German Opposition To Britain's E.A. Policy.

CO-OPERATION LEADING TO ONE POLITICAL END.

The Governors' Conference.

MANDATES COMMISSION MUST BE MADE AWARE OF DISCUSSIONS.

German representative on the Permanent Mandates Commission of the League of Nations (Dr. Ruppel) did not mince his words when he pointed out in criticism of British policy of closer co-operation and co-ordination 'in East Africa.

He contended that all recent developments intended to lead to the same political end - intimate ties between the Mandated Territory and the adjacent British Colonies.

Dr. Ruppel advocated that a close eye be kept on the Governor's Conference and be continued also Postal Union as opposed to the terms of the Mandate.

His view is that anything which deprive Tanganyika of independence 'and anything which means placing any Tanganyika service or interest under the executive control of an outside organ or a common authority is contrary to the Mandate and cannot be allowed.

Armistice Re-Union:
THE Armistice Re-Union falls on the evening of Saturday next, and the difficulty of the British Legion committee has been to decide upon a suitable place for the gathering, for, as is well known, the Re-Union attracts hundreds of people. The Theatre Royal is a first choice, but this at the moment could only accommodate about 1000 people, and so the committee have wisely obtained the use of the Municipal Gardens.

S. A. Developments:
M. H. M. Kampf, of the directorate of the Empire and Capitol Theatres, flew north by the last air mail. He will meet Mrs. Kampf at Cape Town on her return from England, and in all probability he will bring back news of the developments that are taking place in the Union with regard to films. A new company has entered into competition with the existing distributors, the American Film Distributors (South Africa), Ltd., and according to "Kinematograph Weekly" it is acting on behalf of several overseas film producing organisations of repute and offers guaranteed contracts for the hire and almost immediate supply of two or three full programmes weekly in any part of South Africa and Rhodesia, supplying each programme for any length of time desired, without any interruption. The concern, at once it has no connection with any other company in South Africa, and does not intend to amalgamate. What will be the outcome it is difficult to prophesy at the moment.

NEW MOON: Omie opera, with Lawrence Tibbett, the singer, co-starring with Grace Moore one of the greatest opera singers who made her debut in the Metropolitan Opera House, New York in "La Boheme" as Mimì, and subsequently appeared in "Carmen" and "Romeo and Juliette". Some good musical numbers.

ALMOST A DIVORCE: British made, starring Sydney Howard and Howard Sabin. Key, who will play a funny story, with assistance of musical misadventures. It is directed by Herbert Wilcox, on the lines of "The Sign of the Cross".

WASHINGTON MASQUERADE: A well told tale of the political machinery of America, with Laurel and Hardy in the lead. He plays the same role as he did in the same version of a senator who, after becoming a leader, is crushed by a woman, and so falls from power.

PARDON US: A film which will be a strong competitor with "Almost a Divorce". Feature on it does Laurel and Hardy in pure pantomime and comedy in pure pantomime and comedy. These actors are performed within their own sphere.

WINGS OVER AFRICA: THE main of the "Wings" is to be a regular in our cinema. It has collaborated with H. E. Jolly and produced a film bearing the title of the subject being a record of an air journey from London to the Cape following the Imperial Airways route. The first part of the great air route enables the audience to get a first-hand glimpse of the Empire. Africa and Rhodesia and now takes them into the wide Africa, cutting the jungle and crossing the mountains to the sea and the Atlantic. The format of the picture was long considered many times before, but it still remains one of the most interesting. The photographs that were a little irregular but the scenes of the route of the route are the film to be the attraction for a second showing.

The Variety Show: THE Empire Theatre has been booked for December 7 and is for a wonderful performance. It should meet with a good reception, offering a break as it were, in the line of straight plays. A good deal of useful talent has been introduced including several people who will be making their debut. Some of the piano dances original sketches are given the audience. Mr. Shuttleworth has one of the best and will give a good deal of fun and will give details on application to him.

STILL KEEPS GOING when the rest have stopped!

THE domestic motorist is of the opinion that Mr. A. J. Master who has been prominent in the work. It is due to him, indirectly, that a revolution in automobile construction has taken place. His work has been brought about during the past few years, but that has not to be permanent, for already plans are under way to produce a motor car that will not only be the Balloon Flyers but the "Wings" too.

Letter received from
Mr. V. M. RANGER, Gonville Heights, P.O., Mombasa.

"It might interest you to know that 13½ years ago I bought a Buick Car and part of its equipment was an EXIDE BATTERY, the number of which is 70962."

"The remarkable thing about this battery, which has only just failed after 13½ years faithful service, is that it has never once been recharged during its life, nor has anything but water been added to it."

"The V-8 is the coming car for the majority of drivers. It will be only a short time until motor manufacturing practice will follow the trail we have blazed".

HENRY FORD.

FORD V-8 THE MODERN CAR

THE FORD V-8 is The Modern Car. Modern in its distinctive lines. Modern in its eight-cylinder design and performance. As Henry Ford himself says -- "The V-8 is the coming car for the majority of drivers. It will be only a short time until motor manufacturing practice will follow the trail we have blazed."

That's something to keep in mind when you are deciding on which car to buy. You don't want to buy a six-cylinder car to-day if it's going to be old-fashioned and out of date a year from now.

The Ford V-8 is revolutionizing the industry because it is an entirely new kind of eight-cylinder car. No longer need you deny yourself the satisfaction of an eight because of the high price. No longer need you worry about cost of operation and up-keep.

The Ford V-8 sells as low or lower than cars with fewer cylinders. And don't let anybody tell you that it isn't as economical to run. Talk to owners of this 1933 V-8.

In fairness to yourself--for greatest value --see and ride in the big New Ford V-8.

THE GERMAN LINES.
Special Round Africa Service.

It is announced that commencing early in 1924, a new service of the German-Africa shipping lines will be inaugurated.

The two large passenger steamers "Alpen" and "Tanzania" will in future be commissioned on the so-called West Coast main line of the company. They will sail from Europe via the West Coast ports of Las Palmas, Freetown, Grand Bassa, Takoradi, Accra, Kotonou, Lagos, Douala, Libreville, Gabon, Walvis Bay, and then return to Cape Town. At Cape Town they will sail six days and then return to the same route, by Southampton etc. This extended West Coast line will thus establish a direct connection with West Coast ports and provide East Africans with the opportunity of acquiring themselves with the West Coast ports of the West Coast at the same cost as if they travelled by direct steamer (i.e. not calling at the various West Coast ports).

The voyage via West Coast ports will take only nine days longer than proceeding by direct steamer. Apart from the West Coast main line the western and eastern voyages around Africa will remain in force as well as the ordinary West Coast service from Hamburg to the Cameroons.

Special attention is drawn to the sailing of the "Tanzania" leaving Mombasa on April 29, and arriving at Cape Town on May 29, offering an excellent opportunity to travellers to the a.s. "Cape Town" via the West Coast ports.

INDIAN ORATORS.

Competition Held at the School. Protest Against Increase in School Fees.

Something quite new in the way of competitions was instituted at the Government Indian Secondary School, Nairobi, on Tuesday evening when an oratorical contest was held. Six of the pupils each having chosen and prepared a subject, had to deliver a ten-minute lecture on it before an audience of very large one consisting of the other pupils of the school and visitors who filled the hall.

Mr R. P. Mayer, the Rev. J. P. O'Byrne and Mr. Abdul Kadir were the judges. The award received by these six contestants. As a whole their subjects were all thought out and their delivery and pronunciation was of a very high order, despite the fact that they appeared, in one or two cases, to have learnt the subject of their speech by heart.

The Results.

Francis Birdwe who spoke on "Holidays" was finally adjudged the winner and was awarded the gold medal presented by Mr. Nandira Rao. The second was Paul Hinga whose "Hobbies" as his subject, and as a result of his following speech on "Newspapers" was awarded third place. The other competitors were Mohamed Yach on "Disappearance" and Ali Akbar with "Games" as his subject and Nasir Mohamed who spoke on "Scouts".
