Criticisms of STORM OVER THE ADMIRAL Nakuru Native maternity wing

CRITICISM of the administration of Nakuru Native Civil Hospital's maternity wing was made at a recent meeting of the African Social Council in the African Social Hall, Boreddin.

Resolving to send a representative to the Council's Finance and General Purposes Committee, it was unanimously decided to request the Municipal Board to consider special complaints.

Complaints are that there were no beds available for the 100 patients who were admitted to the maternity ward in the first week of the year. The ward was overcrowded and the patients were not given the attention they deserved. The Municipal Board is expected to consider these complaints.

Other complaints

Other complaints include the lack of medical supplies and the poor condition of the hospital buildings. The Municipal Board is expected to take action on these complaints.

The Freedom of the Subject

African Theatrical Members of the Kenya Legislative Council who wanted to deny their fellow Africans the opportunity of attending a drama of their own writing and representation are surprised with the liberty of the subject.

There is evidence that African dramatists are not only free to write but also to produce their plays. The Kenya Legislative Council has passed a bill which will give African dramatists the right to produce their plays in their own theatres.

LAST STAGE ON WEMBLEY ROAD

Tremendous tussle likely at Sheffield

The semi-finals of the F. A. Cup will be played this afternoon at Manchester and Sheffield and many shrewd judges will look forward to a final on April 20 between three-times winners and seven-times finalists Newcastle United and Blackpool.

The Newcastle-Wolves tie is one that is impossible to forecast with any degree of accuracy. Five times in seven years in the brilliant period between 1903 and 1911—and won two Cup trophies, Wolverhampton can boast as proud a record.

With two wins, Wolves' record in the Cup records made the 1911-12 season a record for the club in the history of the competition.

Newcastle have a somewhat better record than Wolves, the latter having won the Cup and have intermediate slight advantage in the way of the Cup.

Wolves' only opening in the Cup is in 1904 when they were beaten by Manchester City. Newcastle's only opening in the Cup is in 1902 when they were beaten by Manchester City.

First copy of Old Testament in Kikuyu

The first copy of the Old Testament in Kikuyu was handed over to the Rev. Principal Hugh Watt, Moderator of the General Assembly of the Church of Scotland at a ceremony in the Church of the Holy Trinity in Nairobi on Wednesday.

After being dedicated, the copy was handed to the Rev. Miss O'Brien, representing the African Students' Association, and the Rev. J. J. Bedford, East African Bible Society.

The first Scripture for the Kikuyu was published in 1911 when the Rev. J. J. Bedford, East African Bible Society, translated the Bible into Kikuyu.

The Survey Bill has been introduced by the Government to provide a framework for the survey of the country.

Finance and Commerce REARMAMENT NEEDS AND PROBABLE TAX INCREASES

The swam of budget speculation is now officially open. The Chancellor's task between now and April 10 is to decide how the extra £400 million needed mainly for rearmament is to be raised.

It now seems a certain that budget forecast can be that it will raise this sum by one of three different means: a definite increase of 11 per cent in the rate of income tax, an increase of 10 per cent in the rate of corporation tax, and an increase of 10 per cent in the rate of the surcharge on profits.

DEFENCE PREVAILS IN CUP TIES

Not a goal scored in either semi-final

BOTH the F.A. Cup semi-final ties were among the 10 drawn games in the English leagues on Saturday. The Cup ties repeated history of nearly 40 years ago for not only were both drawn but not a goal was scored between the four sides.

One has to go back to 1912 to find a parallel to this situation. In that year, Birmingham, Newcastle and Wolverhampton will have to meet again before the finalists on April 29 are known.

Before Saturday, Birmingham were given their chance to draw with Blackpool set for the 11th consecutive year when they have conceded the goal in the 10th consecutive tie. In the 1912-13 season, Birmingham were drawn against Aston Villa.

DAY OF MISHAPS FOR COMMONWEALTH TROOPS

From Edward Hume, "Daily Express" Correspondent: Kibungo, Sunday

NOBODY in the Commonwealth Brigade likes fighting on Sunday. It has always been a day of mishaps for them—particularly the Australians—and today was no exception.

But for the Australians on their right flank it was quite different. Their objective was an anti-aircraft gun which they had to take out of a hole in the ground...

Nairobi Airport

The difficulties which otherwise very welcome rain created at Eastleigh Airport will encourage the removal of the controversy about its suitability for the changing conditions of aviation. There has been a very large increase in the number of flights since Eastleigh and there is no doubt that the number will decrease. Indeed the development of civil aviation, (and perhaps also the requirements of defence) may be expected to add vastly to the number and variety of "trunk" feeder and charter services and in the type of machines which use the airport.

There is a difference of opinion among experts about the quality of Eastleigh and its suitability for modern requirements is not in doubt. There are those who declare that it is good enough for all purposes, and that some extensions of capacity and there are those who say that the immediate development of the airport is not only inadvisable but a waste of time and money.

The main reason for the development of a new airport is the fact that the existing one is not big enough to handle the traffic which is being developed in the East African continent. CLOSING THE NATIONAL PARKS DURING THE RAINS

MERVYN H. COWIE, Director of the Kenya National Parks, explains the reasons why it has been considered essential to close the National Parks to the public during April and May.

The view of the main Nairobi-Mombasa Road near the Yare Park gives some idea of the damage a sudden fall of rain can do.

The announcement that there will be a closure of the National Parks during the rains is a decision which will be unpopular with many people. It may also be argued that one of the important aspects in the development of tourism in the park has been the fact that Kenya has been open to the visitor at any time of the year.

INCREASING THE SCOPE OF LOCAL GOVERNMENT

Proposed Bill accepted in principle

Members of the Kenya Legislative Council have accepted in principle a Bill to increase the scope of local government. The Bill, introduced by the Minister for Local Government, Mr. H. B. Sharpe, provides for the extension of the powers of local authorities to include the provision of water supply, drainage, and other public works.

The Bill also provides for the appointment of a Local Government Commission to advise the Government on the constitution and powers of local authorities. The Commission will be composed of representatives of the Government, local authorities, and the public.

The Bill is expected to be passed by the Council in the near future. It is a significant step towards the development of local government in Kenya.

DIATOMITE, mined near Gilgil, has almost unlimited uses and is saving the Empire precious dollars. Here a 'Standard' Staff Reporter tells of the work that is going on in the mine—the biggest in the Empire.

Britain's new Foreign Secretary, Mr. Herbert Morrison, yesterday told the Italian Prime Minister and Foreign Secretary that the British Government was "astonished" that the British and Italian peoples are old friends and happily there is no talk with the break-up of the partnership which was caused by Mussolini's "betrayal". There is indeed much sympathy in the British Government for the Italian people who have been severely persecuted by the leaders of the Government.

TEST OF STYLES IN BOAT RACE

Not a single Etonian with Light Blues

There is not a single Etonian in the Cambridge boat and indeed, three old Cambridge Blues have been in ready to be the 'wild' card-players who have been coaching Oxford to victory. The Etonians have been coached by a fourth, who is now a member of the Oxford crew.

Proposal for new club in Nairobi

THE need for some form of club in Nairobi at this time of the year and the out-of-season would get and keep fit has been stressed many a time in recent years.

If the number of people who have asked their sole purpose of life—how to keep fit—has increased, the need for a club is more apparent than ever.

It is proposed that a new club be formed in Nairobi, which would cater for the needs of those who want to keep fit during the out-of-season.

The club would be open to all who are interested in sports and fitness, and would provide a place where they can meet and discuss their problems.

SPRINGBOKS FOR COMING ENGLISH TOUR

Who's who in strong, well-balanced side

THE South African cricketers have always been a popular side in England for they play like the New Zealanders, a type of game that pleases by being keen yet less firm than the Anglo-Australian matches so often turn out to be.

The latest side, which is to tour England this summer under the captaincy of Dudley Nourse, has been hailed as a well-balanced combination of youth and experience.

The tour begins with a five-match series at Worcester in the second half of September.

NOURSE Arthur Dudley (Northamptonshire) is the captain and is regarded as the most promising batsman. He is 22 years of age and has scored 1,000 runs in 17 Tests for South Africa. He is a right-handed batsman and a right-arm bowler. He is 5 ft 10 in tall and weighs 140 lb. He is a member of the Royal Albert Hall Cricket Club.

BOWAN Eric Alfred Bursell (Northamptonshire) is the vice-captain and is regarded as the most experienced batsman. He is 32 years of age and has scored 1,000 runs in 17 Tests for South Africa. He is a right-handed batsman and a right-arm bowler. He is 5 ft 10 in tall and weighs 140 lb. He is a member of the Royal Albert Hall Cricket Club.

EAST AFRICA ASSESSES ITS SELF-SUFFICIENCY

THE African continent is to be made to provide its own food to have a self-sufficiency, says a survey ordered upon by the High Commission. The work has been given a high priority and is called for in time for its next meeting in June next.

The East African Standard reports yesterday that among the main problems and questions which the survey will deal with are:

1. The need to improve agricultural production, such as the use of fertilizers, irrigation, etc. and the need to expand it.

2. The need to improve the standard of living of the people, such as the provision of housing, health services, and education.
