SPECACULAR AIR SAFARI TO SOUTH AFRICA

East Africa to be Left Without a Governor

ALL ON THEIR WAY TO ATTEND TRANSPORT CONFERENCE

In Johannesburg

REMARKABLE EVIDENCE OF PROGRESS OF
ONE-TIME "DARK CONTINENT"

Using the most modern form of travel—the airway—the whole of the Governors of East Africa are leaving their territories to-day and to-morrow to attend in Johannesburg a conference with the Union Government on transport.

A large Junkers machine capable of carrying 15 passengers arrived in Nairobi last night and leaves early this morning taking with it the Governors of Kenya and Uganda, the General Manager of the K.U.R., the Secretary to the Governors' Conference and others.

They are, however, merely the first instalment of the delegations. All the way from Kenya to Rhodesia other Governors will join the party and there will in South Africa's Golden City on Saturday terminate the most important and spectacular air safari ever undertaken in Africa.

Early Start To-day

Early this morning an airplane will leave Nairobi carrying the Hon. Joseph Hayes, Governor of Kenya, his daughter, Mrs. Stuart Smith, his Excellency Mr. F. Mitchell, the Governor's private secretary, his golfing Rhodes, General Manager of the Kenya and Uganda Railways and Harbours, Mr. A. G. Hughes, and Mr. L. B. Preston, Secretary to the Governors' Conference.

The Junkers aeroplane will be joined by the Executive of the East African Standard, Mr. H. M. McMichael and Lady McMichael, Mr. R. E. Baldwin, General Manager of the Tanganyika Railways, and Mr. E. E. R. D. Jones.

It is expected that the aeroplane will reach Lusaka at about 6 p.m. Here the Governors and their parties will be the guests for the night of the Executive of the East African Standard, Mr. H. M. McMichael and Lady McMichael, Mr. R. E. Baldwin, General Manager of the Tanganyika Railways, and Mr. E. E. R. D. Jones.

It is expected that the aeroplane will reach Lusaka at about 6 p.m. Here the Governors and their parties will be the guests for the night of the Executive of the East African Standard, Mr. H. M. McMichael and Lady McMichael, Mr. R. E. Baldwin, General Manager of the Tanganyika Railways, and Mr. E. E. R. D. Jones.

The Governors and the General Managers of Railways are going to South Africa at the invitation of the Union Government to attend a conference on transport matters which will be held in Johannesburg on Monday and continue for a week.

On September 13 the Governors have been invited to attend the annual opening of the Empire Exhibition. They will stay at the Hotel de Ville, Johannesburg, during the week of the Exhibition. The Union will leave Johannesburg on the northward journey on Monday, September 14, reaching Nairobi on the 15th of the following day.

The Junkers aeroplane will be joined by the Executive of the East African Standard, Mr. H. M. McMichael and Lady McMichael, Mr. R. E. Baldwin, General Manager of the Tanganyika Railways, and Mr. E. E. R. D. Jones.

Foreign Delegations.

"NO COMPROMISE" IN PALESTINE

REPORTED DECISION OF BRITISH CABINET

The situation in Palestine is the chief subject of yesterday's four-hour meeting of the Cabinet, according to the political correspondents of the "Daily Telegraph" and the "Morning Post."

The "Morning Post" avers that positive assurances were given at the meeting that there would be no suspension of Jewish immigration to Palestine despite the desire of the local Government to compromise with the Arabs in order to end the strike and the campaign of violence.

ATLANTIC FLIGHT

U.S. Airmen Set Out on Double Attempt

Harry Rickman, a Broadway night club owner and Dick Merrill, an airline pilot, left at 3:37 p.m. Eastern Standard Time on a Transatlantic flight to England. The airmen plan a return trip across the Atlantic, stopping in England only long enough to refuel.

"GIRL PAT"

Court Charges Follow Trawler's Wanderings

The skipper, George Osborne, and his brother-in-law, the trawler "Girl Pat," who landed at Liverpool, appeared in Bow Street police court early shortly after 10, to which they were charged with assisting the vessel from British waters, and rounded on land.

FILL YOUR CRANKCASE TO-DAY WITH

It will be recalled that on June 11 it was reported from Georgetown that a strange vessel answering to the description of "Girl Pat" which was stated to have been taken from British waters on a trawler had had an accident and apparently signalled for help. When asked by its identity the craft reportedly left and lay to three miles off the coast on June 14. A Government vessel of the Royal Navy was sent to the scene and on the 15th it was reported that the vessel was in British waters and was being towed to a port in the West Indies.

Portugal Corridor for Rebel Supplies

FURTHER CONTROL SOUGHT OF NON-INTERVENTION

Armistice Negotiations

WHILE INSURGENT SUCCESS BRINGS FALL OF SAN SEBASTIAN NEARER

The establishment of a committee to control the international non-intervention agreement in connection with the Spanish war, is being sought by France, and Britain, and while Lisbon has replied favourably to the Franco-British proposals Portugal is still being treated as a "corridor" through which the insurgents are obtaining supplies.

A Paris message reports that the Ambassadors working from St. Jean de Luz for an Armistice have established contact between Government and Rebel, and that Madrid has appointed an ambassador extraordinary to go to the Armistice negotiations.

The Iron Front is again the centre of most of the news of the actual fighting, and it is reported that the sustained progress of the Rebel attack has at last succeeded in opening up the Iruja-San Sebastian road. The latest message described a fierce counter-attack by Government forces whose position was stated to be desperate.

Desperate Fighting Near Iruja

In view of the urgency of the Anglo-Franco-Spanish dispute, the proposal of the Committee to meet at Madrid is being treated as a "corridor" through which the insurgents are obtaining supplies.

NEW-PROCESS" MOBILOIL ENDS CARBON TRUBLES

THE new CLEAROSOL process now used in the production of Mobil Oil ends carbon troubles. It removes from the oil all gum-forming elements, so that no sticky residue is formed inside the cylinders to which particles of carbon are clinging and build up into hard deposits. This means to every motorist who uses it:

1. Less Engine Wear
2. Lower Oil Consumption
3. Protection from Gum and Sludge
4. An End to Carbon troubles, and
5. Much Easier Starting

Straight Roads No Cure for Accidents?

MOST OF 1935 DEATHS ON OPEN HIGHWAY

6,500 Fatalities Analyzed

MINISTRY OF TRANSPORT ENQUIRY AS BASIS FOR NEW SAFETY MEASURES

Over 80 per cent. of the fatal accidents in Britain last year happened on straight roads or open-roads with good light lines.

About 60 per cent. occurred under conditions of very light traffic.

Sunday has the least accidents and Saturday the most. Single-track vehicles (bicycles and motorcycles) were involved in more accidents than any other class.

Woman drivers, including cyclists, involved in fatal accidents formed less than five per cent. of the total.

These are some of the striking facts revealed in the report on fatal road accidents in 1935, issued in London recently, as the outcome of a special Ministry of Transport enquiry, with the object of finding a basis for new safety measures.

Saturday Worst Day

THIRTY per cent. of the accidents in 1935 occurred on Saturdays, the highest percentage of any day of the week.

On Saturdays, Sunday and Monday, the number of accidents was 12.5 per cent. of the total.

On Sundays, the number of accidents was 11.5 per cent. of the total.

On Mondays, the number of accidents was 12.5 per cent. of the total.

On Tuesdays, the number of accidents was 12.5 per cent. of the total.

On Wednesdays, the number of accidents was 12.5 per cent. of the total.

On Thursdays, the number of accidents was 12.5 per cent. of the total.

MINING INFLUENCE ON RAIL POLICY

SIR R. WILLIAMS CAPE CAIRO DREAM

Sir Robert Williams is a cautious optimist. He has been looking on both sides of the picture as an African mining magnate and telling the shareholders of Tanganyika Concessions his views at the annual general meeting.

The results for 1925 constitute the only one to date which has not only been the most successful but also the most profitable in the history of the company.

R.M.S. To Be Reorganised

MR. T. O'NEILL RESIGNS

Mr. T. O'Neill has resigned from the post of Managing Director of the East African Standard and will be succeeded by Mr. J. O'Neill.

Kenya Railway

As regards the Benguela Railway, it is probable that owing to abnormal conditions, the terms of traffic which it was originally intended to carry will not be maintained.

LOCAL SHARE MARKET

There was a general improvement in the local share market, with most of the leading shares showing an upward tendency.

In Tanganyika

In accordance with Mining By-laws, 27 claims (10 in the Bukoba, Kiwuu, Mwanza, Mbera and Mwanza districts) have been granted.

GOLD PRICE The price of bar gold was quoted in London on Wednesday at 136/2 1/4, which is the same as on Tuesday.

WATENDE AND KENTAN PROSPECTS

WATENDE AND KENTAN PROSPECTS

Writing in the "Financial News" last week "Vindex" remarks: "When writing in March I advised readers to unload Kenya Concessions, given as my reason the belief that the financial position of the company was very unsatisfactory."

Watende

Watende Mines (Kenya) Ltd have acquired the lease of the Pare Gold Area in the Province of East Africa.

NEW GOLD AREA IN TANGANYIKA

DISCOVERY BY GEOLOGICAL DEPARTMENT

INVITATION TO THE PUBLIC

A NEW and promising gold bearing area has been found in Tanganyika. The discovery has been made by the Geological Department and prospectors are officially invited to become interested.

A notice appears in the Tanganyika Gazette, dated August 2nd, 1926, that the Gold Area in the Province of East Africa has been discovered by the Geological Department in an area which is considered worthy of investigation for moderate to large quantities of gold.

When We Go Calling Early Days in Kenya

Mrs. A. C. Harries

We have all read, at one time or another, stories which have recounted the fun of getting out on a game drive...

which was, however, and even on a shamba farm. Finally they came to a halt...

Native Servants

They lived first in quickly made grass huts and later built their own houses. Natives in their early days often carried up to their work without a stick of clothing on, or, at best, had a yard of cloth wrapped round their waists...

Kenya, in 1944

The first time I was in Kenya in 1904 I was not a tourist, but a settler. I had come to the country to make a home for myself...

Mrs. A. C. Harries, who with her husband, was one of the earliest settlers in the Thika District.

A long while, but after that had been with us for a year or so, we had a very good time. The first time I was in Kenya in 1904 I was not a tourist, but a settler...

Mrs. A. C. Harries, who with her husband, was one of the earliest settlers in the Thika District.

When they settled on their land, they first put their own huts, and from that time Mrs. Harries has been a busy woman...

Smart Accessories

The Little Things that Count

There are important items of modern dress, some of them so subtle that they look rather like accessories, which are almost unnoticeable...

These accessories really do give the look of smartness to the outfit. They are the little things that count...

Mrs. and Mrs. D. R. O'Donoghue, who were married recently in Nakuru. The bride was Miss Betty Marlowe, daughter of Mr. and Mrs. R. W. Morrison of Nakuru.

ELFIN HATS

A very exclusive display of elfin hats is now on hand. These hats are made of the finest materials and are very stylish...

Other hats which are very popular are those made of straw. These hats are very light and are very stylish...

EUROPEANS BEAT THE ASIANS

Good Game on Railway Ground

A FLATTERING RESULT

The annual European-Asian tennis match played in the railway ground in Westlands yesterday was a fine one...

A hard attack by the Asians in which they showed good combination forward was answered, and Chalmers was among the centre half inside ground...

The Asians went to the other end from the back of court and should have been able to get the equalizer when M. Jones sent in a shot which was punched away...

A real by the Europeans set in motion by a shot from the centre by Dixon was called by Hilder, and later B. Marsh, trying to work into the scoring position, was suppressed by the defence...

Goals: The Asians raised the flag and Jimmy D'Souza scored the first goal in the 10th minute...

The Governors of the East African Territories leave for Johannesburg

The East African Pavilion at Milner Park, nearing completion.

THOUSANDS of people from all over the world will be invited to see the East African Pavilion at Johannesburg, and the organizers anticipate that as little as a million will be sufficient to cover the cost of the exhibition.

The Governor of the East African Territories, Sir John Gifford, and the other Governors of the East African Territories, Sir John Gifford, Sir John Gifford, and Sir John Gifford, are leaving for Johannesburg today to see the East African Pavilion at Milner Park.

The East African Pavilion at Milner Park, Johannesburg, is the largest and most modern building ever erected in the East African Territories. It is the pride and glory of the East African Territories, and it is the pride and glory of the East African Territories.

Celebrating Johannesburg's Jubilee

The idea of giving this Empire Exhibition in Johannesburg was first conceived in 1904 when a proposal was made by those responsible for the "Boy More Good" campaign that their energies should be turned for the wider purposes of an Empire Exhibition, which it was held, should be established with a suitable amount of Johannesburg's Jubilee, for it was on September 1, 1900, that President Kruger signed the State Decree of the Witwatersrand.

Great Britain's Dilemma.

It is becoming more difficult to make adequate comment on the march of foreign affairs. From so many lands there is now an influx of news, and it is not possible to do more than mention the chief events which have taken place since the outbreak of the war. In the first place, it is not possible to do more than mention the chief events which have taken place since the outbreak of the war.

When We Go Calling

Mrs. A. C. Harries

Early Days in Kenya

We have all met, at one time or another, some who have mentioned the art of growing old gracefully. Such women are charming to look at and delightful to be with...

Mrs. A. C. Harries, of Thika, is the wife of the late Mr. A. C. Harries. She will tell you she is 72, but it takes all one's credulity, albeit always in respect, to believe her...

Kenya, in 1904

She came to Kenya in 1904 to join her husband who had come a few months earlier. "I came on the smallest boat that was ever on the water," she told me.

"It was called the 'Siam', it took six passengers, and the last night when I arrived at Nairobi, about the one and a half hour before the boat was to be another traveller, so we all went to walk to our home, a small one-story house at the end of the present Norfolk Road...

When they settled on their feet they grew from that time Mrs. Harries was collected over various fruit trees. She loves her garden, and whenever I go...

It will come as news to most people that there will be no motor car section at the Empire Exhibition...

It is fitting that an Empire Exhibition, second only in importance to the Wembley Exhibition...

Not least of these four, one would have imagined road transport to be of vital importance to a country like South Africa...

The actual fact is that no motor section will appear on the Johannesburg ground...

What is the reason for the omission of the motor section from the Johannesburg Exhibition...

What is even more remarkable is that the vote was not, apparently, taken in favour of the motor section...

The Exhibition Committee discussed the matter of the motor section from the West African Agricultural Society...

SATISFACTORY DISCUSSION OF PROBLEMS

A satisfactory settlement of all the meteorological problems involved, complete unanimity and an atmosphere of amity and international cooperation, were the outstanding features of the first Pan-African International Conference on Meteorology, held at Northern Rhodesia from August 17 to August 29, under the presidency of Mr. A. Walter, O.B.E., Director of the East African Meteorological Service.

Big Game Quoted

Mr. Walter, who returned to Nairobi by air this week stated in an interview with the "East African Standard" that 42 resolutions dealing with technical and administrative problems concerning all African meteorological services were unanimously approved and uniformly reached on the question of the collection of climatological data for the use of research officers throughout Africa.

Uniform Methods

Workshop Young, K.C.M.G., D.S.O., welcomed the delegates and introduced the subject of the Conference. Mr. Walter, who was the Secretary of the Conference, said that the main object of the Conference was to secure uniformity and conformity in a standard method in respect of information given to and received by meteorological services in all parts of Africa.

Loyalist Air Successes

The insurgent headquarters at Burgos have announced that there were several casualties as a result of the bombing of the town by a Government airplane. The Madrid authorities have reported that several of the insurgent planes were shot down by Government fighters.

MORE VIOLENCE IN PALESTINE

THROUGHOUT AFRICA'S AGENCY. Jerusalem, August 27. — Destructive fighting continued in the Arab town of Haifa, and the Government forces were reported to have captured several Arab soldiers.

Governor's Speech

His Excellency the Governor, Sir John Gurney, in his address to the Legislative Council on August 27, said that the Government was determined to maintain law and order in the colony.

Standard Problems

Other important matters were dealt with by the Commission, and the most important being the form in which information should be furnished to the meteorological services.

Articulate

The able important service which the meteorological services render to the Government and the public was stressed by the Commission.

President's Address

At the closing meeting of the Conference, the President, Mr. Walter, said that the Conference had been a success and that the Commission had done its duty.

I am sorry that I cannot accompany a letter, but I am sure that you will understand my position. I am sure that you will understand my position. I am sure that you will understand my position.

When the amount of business coming to the Central Government of Kenya is so small, the members elected to the Executive Council, who are chosen by the people, are very unrepresentative. It is not surprising that they are very unrepresentative. It is not surprising that they are very unrepresentative. It is not surprising that they are very unrepresentative.

Progress of Cotton in Central Province

GOVERNOR'S ADDRESS AT SAGANA

New Ginnyery Opened

PROPRIETORS EXPECT CROP OF 2,000 BALES NEXT SEASON

The opening of the Cotton Ginnyery at Sagana marks an important step in the development of the cotton industry in the Central Province of Kenya.

Most of the cotton in the Central Province is exported to the United Kingdom and the East Indies.

Cotton is a cash crop which has been introduced to the Central Province of Kenya.

The ginnyery at Sagana will be a welcome addition to the cotton industry in the Central Province of Kenya.

Economic Security of Tanganyika

1935 CULMINATING POINT' SAYS AGRICULTURAL DIRECTOR

Record Export Figures

WARNING AGAINST DANGER OF ONE-CROP PRODUCTION

The appreciable increase in export figures, which reached record proportions; steady progress in comparatively new industries; and the improved position of the Native producer are among the salient points dealt with in the annual report of the Tanganyika Agricultural Department, for 1952, just issued.

Regarding the improved position in general, the Acting Director, Mr. A. J. Wakefield, says: "From the economic point of view, the past five years have been the most critical in the history of the Territory, and the year 1952 can be taken as the culminating point in the efforts that have been made to bring the Territory to a position of economic security. The volume of exports attained has never been approached before."

Actually, exports totalled 150,000 tons, compared with under 100,000 in 1931.

"Cheerful" Sisal Outlook

The report discloses that while sisal production rates, including grating, being low, it is hoped that the year is destined to be a "good" year for retarding in sisal, with the shipment in 1953.

Regarding estimates of export sisal prices to be available during the year in question, the Director states that the major crops of sisal are expected to be harvested in the first half of 1953, the most remarkable feature being the early start in harvesting in various portions of the Territory and the vast area of sisal planted in 1952.

It is noted that the volume of sisal exports is expected to be well above the level of 1952, and that the sisal industry is expected to be one of the most important in the Territory.

TWO BRUSHES IN ONE
 The perfect tooth brush for the back teeth and the rest of the brush.

1 THE TUFTED END FOR THE BACK TEETH
2 THE REST OF THE BRUSH FOR THE REST OF THE TEETH

The Perphylophane Perma-Grip is really two tooth brushes in one. The tufted end reaches and thoroughly cleans the otherwise hard-to-get back teeth. The rest of the brush, with its specially designed rounded bristles and soft, spongy, clean and around the inside and outside of the front teeth.

No other brush cleans as thoroughly as a Perphylophane Perma-Grip. No other brush reaches the teeth, front and back, inside and outside. No other brush uses the famous Perma-Grip method of sealing in the bristles, for the same reason Perphylophane Perma-Grip. Look for the Perphylophane Perma-Grip. Always sold in the yellow box.

WELL-KNOWN FIRM AND OFFICIAL FUND

SYSTEMATIC FRAUD

Veron Dunhill, a director of the firm, was summoned for making false declarations to be made between 1933 and 1935.

Miss Margaretta Hagline Veron Dunhill, a lawyer of the firm, was summoned for being concerned in attempting to evade Customs Duty between September 1933 and September, 1935, and for causing false declarations to be made.

Director Summoned

Veron Dunhill, a director of the firm, was summoned for making a false declaration in 1934.

Harold Alfred Baker, of the buying department, was summoned for causing false declarations to be made between 1930 and 1935, and for being concerned in a fraudulent attempt at the evasion of Customs duty in March, 1935.

William Baynton, buying manager, was summoned for being concerned in a fraudulent attempt at the evasion of Customs duty between 1933 and 1935.

John Edgar Barrett, secretary of the company, was summoned for making false declarations between 1934 and 1935.

John Allison was summoned for making false declarations in 1933 and 1934.

Systematic Smuggling

Mr. Walter Frampton, for the defence, admitted the offence.

Mr. J. M. Stephenson for the prosecution said that the goods concerned were luxury articles of all sorts.

Since 1927 Miss Dunhill had systematically smuggled goods to the colony and had been arrested several times in the system of fraud.

Last year a Customs official saw her at Dunhill's, when she denied that she had ever brought any thing in. Later, when seen again, she said: "I don't want you." She added that her practice was not to disclose the goods to the Customs but to carry them in her handbag or on her person.

She wanted to show her Department in a good light and to have better returns. She had not benefited personally.

Did you MACLEAN your teeth to-day?

Children don't have to be content to use Macleans Ferrule Toothpaste. They like its good-taste-as-rose-water, its smoothness and the fresh clean feel it leaves in their mouths.

Macleans every day in childhood will mean sound healthy teeth in later life. Safe for the narrow, softest teeth because it is free from abrasives that scratch delicate teeth enamel. Macleans retains decay and is most economical too.

Artists Dislike New British Stamps

DECLARED TO BE "ABSOLUTELY UNWORTHY"

Man-in-the-Street Pleased

WITH CLEAN-CUT, MODERN, PHOTOGRAPHIC DESIGN OF TENTATIVE ISSUE

The new postage stamps for the reign of King Edward have met with a mixed reception in England.

Mr. John Lavery, R.A., said "I certainly think it is a good idea..."

Mr. H. Rashbury, A.R.A., said "...The least distinguished England has ever produced..."

"Beneath contempt" said Mr. Charles Dugdale, A.R.A., and Mr. Charles Wheeler, A.R.A., said "From the painter's view of the artist I cannot imagine anything worse..."

Stories of "ordinary people" had no criticisms to make and two stamp experts, Mr. Nissen and Mr. J. McVellie, said that in their opinion the stamps would make a wide public appeal.

Mixed Reception

England has ever produced. It is undoubtedly original. The whole thing is undignified.

"Even the Post Office usually have better than this. This time they have no right to say 'badly'."

Mr. Charles Dugdale, A.R.A., said "The design in all the designs seems beneath contempt."

"The figures designed value appear to have been set out with a pencil in the left-hand corner and a very bad crown similarity put out and stuck to the top right hand corner."

Mr. Charles Wheeler, A.R.A., said "From the point of view of the artist I cannot imagine anything worse than this new stamp, but not being a photographer I do not know what to do and for it is not my point of view."

Mr. John Lavery, R.A., said "I certainly think it is a good idea to have a photograph of the King on the stamps rather than a drawing of him."

"I was only one of the thousands who will be glad to see the new postage stamps issued. In the past I have often been asked to consult the artist."

Mr. H. Rashbury, A.R.A., said "I have an order for postage stamps and I find them very disappointing."

Mr. Charles Wheeler, A.R.A., said "From the point of view of the artist I cannot imagine anything worse than this new stamp, but not being a photographer I do not know what to do and for it is not my point of view."

Mr. John Lavery, R.A., said "I certainly think it is a good idea to have a photograph of the King on the stamps rather than a drawing of him."

"I was only one of the thousands who will be glad to see the new postage stamps issued. In the past I have often been asked to consult the artist."

Mr. H. Rashbury, A.R.A., said "I have an order for postage stamps and I find them very disappointing."

Television: The First Glimpse A "Private View" at Olympia

Following is the weekly serial market report, dated Sept. 5, issued by the Kenya Farmers' Association (Co-operative) Ltd.:

Under the influence of the radio, the first United States exhibition of a television set... The first demonstration of television was given from the Alexandra Palace in London...

Then, two hours after the demonstration had been given... It was the "Morning Post" who saw a close-up with the sleeve of a woman's hair ornament...

Most impressive of all, we saw daylight scenes "shot" from the balcony of the Alexandra Palace...

It has, however, to be remembered that the Olympia demonstration has the advantage of a receiving aerial perched twenty feet above an already high roof...

25 Miles Exceeded

As to distance of receiving, it is understood that realization has exceeded expectations. A distance of 25 miles had been commonly quoted as the service limit...

For the future, it is contemplated, given commercial success, that television relay to Burnage may be undertaken within a year from the formal inauguration of the Alexandra Palace service...

When Stomach is Upset—Do This.....

Stomach disturbances such as indigestive pain, gastritis, wind, heartburn, and feeling of revolt, are invariably the result of "acid fermentation" which, as a rule, gets worse and worse until it is ultimately led to serious illness...

THE CEREAL MARKET Continued Good Demand for Mince

Following is a resume of the week's work, including special shares, carried out by Wilson Airways Limited: The Capital services leaving Nairobi on August 24 and 26, and respectively carried the following passengers...

The wheat market during the week has been inactive, importers for the month put forward some little shares of price falling to the hope of the market values receding... Kenya wheat values are between 25/- and 30/-.

CHANGING LONDON Plans for Theatres and an Aerodrome

Two theatres and a club, in one building, in a new West End. This contains new housing of monumental scale... Plans for the new aerodrome have already been pegged out and surveyed. It lies within a short distance of Swanley Junction and Ryedon stations, and is bordered to a rough triangle between Ryedon, Crook Hill, and Swanley. Originally the land belonged to the Oliver Hart Dyke, who in 1893 sold over 3,000 acres of his estate, retaining the smaller Lullington, Castle and 250 acres surrounding it...

SIR ALAN PIM'S REPORT ON KENYA

The Background of the Commissioner's Enquiry

"ECONOMY LIKELY TO REMAIN A PARAMOUNT NEED"

African Taxation Relief

COUNTRY'S RECOVERY CLOSELY RELATED TO NATIVE'S SPENDING POWER

The Pim Report was issued during the week-end and is published simultaneously in Kenya and Britain to-day.

Among the fruits of optimism the Commissioner places the expenditure on buildings in recent years, and declares that the crux of future liabilities is the burden of pensions, which by 1946 will have increased by £60,000.

He warns the country against the dangers of soil deterioration in the Native Reserves, and refers to the heavy fall in wages in its relation to the native's low economic condition, and to the future possibility of a labour shortage.

"There can be no doubt," he says, after surveying the country's economic position, "that economy in the public expenditure is now and is likely to remain a paramount need."

The difficulties of altering the Customs duties are one of the reasons compelling him to the belief that alternative sources of revenue are required, especially including direct taxation. In his view the rate of Kenya's recovery depends largely on the spending power of the native.

The basis of Native Taxation is specially examined, the raising of the tax-paying age from 16 to 18 is proposed and it is emphasised that an urgent need is the reduction of the tax on extra tithes. The present Native Poll Tax cannot be increased.

He found himself unable to deal with the terms and conditions of the Civil Service in view of the fact that the Secretary of State had recently reached a decision on these, and therefore turned his attention to the possibilities of substituting locally recruited people for the present overseas recruits. He is keenly desirous of training Africans and Arabs also for the same purpose.

Local Material for Public Services

The Government of Kenya during the week-end, the Report by Sir Alan Pim on his enquiry into the state of the economy in Kenya, and is being simultaneously published in England and Kenya. It is being published in Kenya by the Colonial Office, and bears the following title: "Report of the Commission Appointed to Enquire into the Native Poll and Report on the Internal Position and System of the Colony of Kenya." Sir Alan Pim's terms of reference were in the following terms:

To enquire into the whole state of Government expenditure in Kenya with particular reference to the position of the Administrative and Technical Services, and to report thereon to the Government, and to advise whether any, and if so, what, measures should be adopted for the reduction of the expenditure on these services, and to report on the internal position and system of the Colony of Kenya.

The Report includes 27 appendices, and five maps showing the proposed, revised, population, and revenue within areas and districts. It is dated August 28, 1936. The comprehensive nature of

At A Glance

The Main Proposals In The Report

THE total economy proposed by the Pim Report amounts to £48,030, made up as follows:

Reorganisation of Secretariat	£2,250
Do. District Staffs	£12,460
Additional Administrative Savings	£12,720
Agricultural Development	£8,970
Game Department	£600
Local Government, Lands, etc.	£4,800
Government Press	£1,640
Prisons	£2,000
P.W.D.	£6,100

Sir Alan Pim proposes an important change in the organisation of Government by the creation of three Secretaries to Government each of whom would have under him an appropriate group of Departments. There would be the Colonial Secretary, the Financial Secretary and the Secretary for Native Affairs.

It is urged that Provincial Commissioners should in future be given responsibilities adequate to their experience and value and should be the co-ordinating factors in each Province.

THE ADMINISTRATION
Large scale reductions are proposed in the numbers of administrative officers to be effected by the combination of several districts and by the introduction of special tax officers for the Native areas.

A new organisation of the Agricultural Department is outlined providing an adequate scientific staff both for the settled areas and for the Native reserves. It is recommended that the department should again be divided into its agricultural and veterinary sections under separate directors. Local recruitment is advised in the provision of Assistant Agricultural Officers for the Native Reserves.

EDUCATION.
In the Education Department economies are limited by the importance of its functions but there is criticism of the high scale of salaries, particularly of primary schools. The suggestion is made that the Department ought to be working in closer co-operation with other Services particularly in organising co-operative movements among the tribes with regard to economic questions.

Sir Alan Pim reports, in connection with the Public Works Department, a suggestion that District Councils should be abolished and emphasises that the P.W.D. should be regarded as primarily only for maintenance purposes when the present loan programme is completed.

LOCAL MATERIAL.
Sir Alan found that as he was debarred by recent decisions of the Secretary of State from examining Civil Service terms and conditions once more, he was compelled to look for economies in other directions. He lays great stress on his belief that the principal direction of economy lies in the greater use of local material to replace officers recruited from overseas, and is particularly anxious that the African and Arab should be trained to play a considerable part in Departmental organisations.

TAXATION
He proposes that an income tax should be imposed with a basic minimum of Shs. 50 to replace the Graduated Poll Tax, the Education Taxes and to reduce the Trades Licences fees.

He further proposes the abolition of the levy on Civil Service salaries at least for the period of three years. Special attention was given by him to the growing problems arising from the present system of Native Taxation. He found that the taxable capacity of the African was very low and that relief was urgently required, particularly in the direction of reducing the present tax charged on extra tithes. He further proposes that the new taxing system for Natives be raised from 16 to 18 and suggests that Government, having taken these temporary measures, should at once proceed with a full examination of the whole question.

TO TIDE OVER
He can see no means whereby the burden of the public loan charges can be reduced and in this connection recommends that the Imperial Government should claim for payment by Kenya of the £5,500,000 originally spent in constructing the Railway.

To guard against the uncertainty of the yield from the proposed new taxes and to allow for the gradual introduction of the proposed economies, he proposes that the Imperial Government should raise through the Imperial Government an annual loan not exceeding £100,000 in accordance with the financial position from year to year, so that taxation might be removed and a surplus balance more rapidly built up.

Income Tax Essential to Secure Stability

COLONY MUST NOT HAVE ANOTHER "FIASCO"

Arguments for the Change

WOULD REPLACE THE EXISTING DIRECT TAXATION

Sir Alan Pim declares that as no substantial reduction in the burden of taxation can be recommended as a result of his proposals for economy—which in any case must be spread over a period—it is necessary to consider changes in the existing taxation system to provide financial stability.

Income Tax is the only practical alternative suggested and he therefore proposes its introduction. In his view the present direct taxes have not worked satisfactorily in practice.

His suggestion is that the Graduated Poll Tax, and the Education Taxes should be replaced and substantial modifications made in Trades and Professional Licences. The Income Tax should also provide, if possible, for the abolition of the levy on official salaries and should enable Government to remit native but tax to the extent of at least £25,000.

The income required to replace the present direct taxes is £109,000, while the levy on salaries represents £47,000 and the reduction in native but tax £25,000 as stated.

"The Colony," he remarks in his concluding paragraph, "cannot afford another Income Tax fiasco."

Help Also for the African

In the sixth chapter of his Report, Sir Alan Pim touches on the subject of the second term of reference, modifications in the existing system of taxation. He remarks that the margin of financial stability in Kenya is narrow and that it is to be maintained as far as possible in its present state.

Sir Alan Pim reports, in connection with the Public Works Department, a suggestion that District Councils should be abolished and emphasises that the P.W.D. should be regarded as primarily only for maintenance purposes when the present loan programme is completed.

Sir Alan found that as he was debarred by recent decisions of the Secretary of State from examining Civil Service terms and conditions once more, he was compelled to look for economies in other directions. Determined to "Liberate Spain"

DESTRUCTION OF IRON BY REBELS NOW ALMOST COMPLETE

A meeting of resistance to the insurgents and the prospect of a relentless fight to a finish is indicated by the formation of a new Government in Madrid. The new ministry has more extreme tendencies and its leader is Senator Francisco Caballero, one of the most prominent opponents of the Monarchy.

A message by the new Minister for Navy and Air, a Moderate Socialist, Senor Indalecio Prieto, speaks of the Government's determination to "liberate Spain from all imperialistic domination."

It is believed that the name of Iron might be split "Ruín" and "International Bridge."

Struggle for Bridge

With the insurgents possess the road from Madrid to the sea and holding out on the international bridge, where Government soldiers are being held, the greater part of the iron is stored and communications with San Sebastian are now cut.

It is understood that the Government have evacuated all the buildings in the immediate vicinity of the international bridge. The rebels are now in possession of the bridge and are in a process of ransacking it. The Government is completely at the hands of the rebels.

Sir Alan Pim's Report on Kenya

(Continued from page 4)

Alternatives

Sir Alan deals in detail with the principles of the Poll Tax, to which he attributes some part of the economic difficulties in Kenya...

The Burden of Penalties

He then turns to "unavoidable" increases of expenditure during the next few years. "The great of the burden of future liabilities," he declares, "lies in the question of taxation."

Outlets Anomalous

The chief chapter of the report deals with imports and exports. In a reference to the policy of protection, Sir Alan emphasizes the one broad consideration that the absence of protection for the local industries would probably not be a serious matter...

The African's Tax Burden

The rate of taxation will depend, in the first place, on the nature of the tax. It is not, as is often said, that the burden of taxation should be substantially less than would be the case if the duties levied had been levied purely on local consumption...

Special chapter. Terms and Conditions of the Civil Service. He declares the constabulary in Kenya illustrates in an exaggerated form the difficulties which attend the presence of three communities on very different levels of civilization and with very different desires and needs. He comments upon the emperic and individualistic type of settler, controlling very large areas and growing crops of special types...

Many Suggestions

Turning to the main problem, that of finding a satisfactory solution for the Hut and Poll Tax, Sir Alan Pim does not feel it is a problem to give up. He has been contented himself with writing out the alternative proposals placed before him and in suggesting some considerations. The alternative proposals are: 1. The Hut and Poll Tax by a general Poll Tax...

The Civil Service

In the course of his examination of the Civil Service which Sir Alan remarks with regard to the change in the length of terms made in 1932 that in the poll tax is too short...

The Secretary of State, he points out, has recently given the definite decision on all the more important proposals affecting the terms of service and it does not appear, therefore, that any justice reasonable within a reasonable period could be obtained by further discussion...

Governing Conditions

Sir Alan Pin has set his reason for suggesting that a wide public assessment and collection would be impermissible. As regards the collection of the tax, Sir Alan deals with it by approaching the Railway Commission for a reduction of the rate charge and the carriage of port. Meanwhile he is at work in this respect, to produce the results appears in a definite preferential allocation system of direct taxation...
