Coffee to cost more in Kenya

SUBSIDY ON MEDIUM BLEND REDUCED

DELEGATES at the annual Coffee Conference in Nairobi yesterday decided that the percentage of medium-grade coffee to be paid 50 per cent more for medium-grade coffee is reduced to 37 1/2 per cent.

Under the terms of the present subsidy medium-grade coffee is paid 50 per cent more than the 37 1/2 per cent which was the majority at the annual conference in Nairobi.

The chairman, Mr. W. F. Pugh, remarked: "I don't see how it can be done. It is a pity that the coffee growers in Kenya are not better off than they are in other countries. The coffee growers in Kenya are not better off than they are in other countries. The coffee growers in Kenya are not better off than they are in other countries."

U.S. NOTE REJECTED BY PEKIN

'Attempt to falsify facts'

COMMUNIST China has immediately and sternly rejected the United States note protesting against the shooting down of a British Skyraider off Hainan by Chinese Communist planes and the hampering in unlawful Portugal to be sentenced to death for the Emergency Regulations.

The note was rejected because it was considered an attempt to falsify facts and to distort the truth. The Chinese government stated that the British Skyraider was shot down by Chinese Communist planes in the Hainan area, and that the pilot was killed. The Chinese government also stated that the British government had hampered the Emergency Regulations in an attempt to interfere with the Chinese government's internal affairs.

'NEW DEAL' FOR FRANCE

Overhaul of industry

THE French Cabinet approved the "new deal" economic and social reform programme of M. Mendès France. The programme will now go to the financial and economic committees of the National Assembly and be fully debated by Parliament probably at the end of next week. The Prime Minister may give special powers to carry out the reforms by decree.

Some of the main points in the plan are:—
Repeal of the condition of the employer by whom a worker is recruited by means of a recruiting office.
Repeal of the law on the liability of employers by introducing a system of productivity bonuses and improving social security.
Repeal of the law on the liability of employers by introducing a system of productivity bonuses and improving social security.

Productivity bonuses
Lowering the costs of production both by more efficient methods and by the stimulation of old-fashioned or marginal enterprises.
Employers who have to employ their national workers shall have to employ also some French workers out of Government until they find a new job.
Expand the whole national economy and increase the over-all national revenue. Stop up foreign trade—reduce it where it can be done so that France produces more than she consumes.
Overhaul of the industrial system.
One result of this is to be a decrease in the number of workers with growing leisure facilities in the leisure time.

'Frivolous showpiece'

A proposal by Com. R. Lewis, Chairman of the Public Health Committee, that the Government should be asked to erect a monument to the late Sir John A. Kariuki, a prominent African leader, has been described as a "frivolous showpiece."

Many Africans could be seen suffering from indigestion and their new diet and diet a simple throw from the kitchen. The thought that such people should take first place in the Government's scheme for the improvement of the African standard for football matches. The project was proposed by Com. A. Wilson, Chairman of the Public Health Committee, that the Government should be asked to erect a monument to the late Sir John A. Kariuki, a prominent African leader, has been described as a "frivolous showpiece."

Geneva impetus for French economic revival

GENERAL GAINS ON MARKET LATENT WEALTH GREAT

ALTHOUGH they may take some months to show, the Indo-China bloc has some great constructive possibilities for markets as well as in the wider international sphere. France, notably, at last has the opportunity for a great economic revival.

Remembering that Germany has achieved after five years of currency reform of 1936, what Britain has done since the changed course on November 7, 1931, and what those developments have meant for markets, should not be underrated.

For years it has appeared that given only a courageous political leader, France could put round the corner the crisis of July 29, 1934, may have been the real.

Real money

The transformation would take some months to show up just as it did in Germany and Britain. Meanwhile, both economic and political.

By his very success, which is so good an augury, Mr. Mendès-France has inspired some political change less than Germany's fundamental, France is richer than the U.S. Government even during that in France, and whereas in New York there are people who think they are making a loss.

Confidence may be

France has lost confidence in her institutions. But they are people have forgotten that in November, 1931, they had forgotten that the Bank of England was, but they have learnt since.

Controls on exports TO RUSSIA CUT

BRITAIN, the United States and other countries have agreed to cut strategic controls on the export of goods to the Soviet bloc, excluding China. The present embargo list of about 250 items would be reduced to 170 items and the quantitative control list drastically cut from 80 to 26.

Announcing this in the House of Commons, the British Foreign Secretary, Lord Halifax, said that the Board of Trade, which had the list of items, had decided to reduce it to 170 items, and that the quantitative control list would be cut from 80 to 26.

Ship problems

The worst of the technical problems outstanding and so far not yet been reached on control over the sale of this. Discussions on these would continue, he said.

Several Labour members asked Mr. Thorneycroft whether he would be prepared to consider the possibility that the Board of Trade should be empowered to give only such separate quantities as would be required for the export of goods to China at this stage.

I've drunk a drop of beer in my time!

They say there's no bad beer. Well, I suppose I'm a bit conservative, but personally I'm a bit happier with a really good one - and I don't mind telling you I was quite surprised the first time I tried this PALE ALE. I've since been drinking it ever since, and you've only got to look around to see a whole lot of other people doing the same. In my opinion, it's up to the best British pre-war standards, and that's saying something. I'm blessed if I know how they do it!

ALLSOPP'S inimitable PALE ALE

* It's no secret! The finest hops and malt obtainable in the world, plus the experience of Allsopp's brewers of over 100 years, KENYA COLONY BREWERY, NAIROBI.

ROBI AUGUST RACES:

First Flute once again runs a magnificent race

COCKELL WILL BE THE NEXT CHAMPION

On COCKELL, heavy eight champion of the British and the Empire, will be the next victor in the first of his career in gaining a total knockout over American Harry Matthews in the third meeting of the two at the Saturday night, Seattle on the eighth round comes up for the scheduled ten rounds.

The British afterwards reported a great victory for Matthews' manager who predicted that he would be the next winner of the world title.

Third victory

Cockell will beat Rocky Moran in his second round. He will win the next two rounds and will be the next champion.

Cockell afterwards said that he would not use any other title because he was the world champion.

The British champion will be the next winner of the world title.

WEE DRAPPIE WINS 2-Y-O TERMS

CONSIDERING the many sporting center attractions for the Saturday night crowd at the first day of the August race meeting was an excellent one. Conditions were fine and the fields reasonably open.

All told, it was a very good day's racing and the meeting will have a very good day's racing and the meeting will have a very good day's racing.

PRENDERGAST BAN-LIFTED

Leading Irish trainer K. J. Prendergast has been allowed to return to the United Kingdom after his ban was lifted.

The ban was imposed last year after he was found guilty of using illegal methods to train his horses.

Prendergast had a long career in Ireland and was one of the most successful trainers in the country.

He was also known for his strict discipline and high standards of training.

The lifting of his ban is seen as a sign that the racing authorities are taking a more lenient view of such cases.

Prendergast is expected to return to his home in Ireland soon.

He will continue to train his horses in Ireland and may also visit the United Kingdom.

The ban was imposed by the British racing authorities in 1952.

It was a controversial decision at the time and caused much discussion.

Now, with the ban lifted, Prendergast can return to his normal life.

He is a well-respected figure in the racing world.

His horses have won many races and he has a large following.

The ban was a setback for him but he has overcome it.

He is now free to train his horses as he sees fit.

ATOMIC ENERGY TAKEN OVER IN BRITAIN

New authority starts work

BRITAIN'S atomic energy research and development work has now come under the supervision of the United Kingdom Atomic Energy Authority, which has assumed the responsibilities of a temporary body established in January. Until then Britain's atomic energy work had been under the direction of the Ministry of Supply.

The Atomic Energy Authority is to be responsible for the development of nuclear energy on industrial lines. Its first chairman is Sir Edwin Driessens, who was formerly Chief Planning officer.

Other members of the board include Sir William Perry, who led the first atomic energy expedition in Australia; Sir Christopher Vernon, Sir Cockcroft, Director of the Atomic Research Establishment at Harwell; Sir Donald Perrett and Lord Curzon, Sir Winston Churchill's personal adviser on atomic energy.

The Authority's first Press statement said that British first operations at Harwell are now to be carried out in an "extremely valuable" manner. It said that the power-producing reactors and the atomic pile (boiler).

FINANCE AND COMMERCE

At the Harwell mechanical workshop, Mr. Driessens (second from right) showed interest in the cabinet, which is being built to house radial turbines. With him next in line are the new vehicle chassis and the new turbine. (Left to right): Mr. C. G. Groom (Chief Engineer), Mr. P. F. Jones (Chief Engineer), and Mr. J. Hudson (Chief Engineer).

South African wool duty a blow to U.K.

SOUTH AFRICA'S stricter interpretation of its tariff schedule for imports of a number of British woolen clothing has come as a blow to Bradford manufacturers. Until recently these cloths have been entering South Africa at 8 per cent duty, but in future they will be dutiable at the full average rate of 20 per cent.

The Yorkshire Woollen and Textile Manufacturers Association and United Kingdom Wool Growers' Association and 27,000,000 yards of cloth are to be lost. The new tariff, which is being introduced by the South African Government, stipulates that British woollens are dutiable at 20 per cent. It is not easy to reach an agreement that cloth competing 50 per cent or more over the raw material is not working.

Union railway chief tours E.A. system

MR. D. H. C. DU PLESSIS, General Manager of the South African Railways and Harbours, toured rail and harbour installations in East Africa on his return to Congress in London and a tour of several European countries where he visited railway harbour and airline installations and studied the possibility of recruiting staff for Southern Africa.

At Mombasa, where he brook his journey by sea, Mr. Du Plessis saw the harbour of construction in the dock in operation in the port area. He was accompanied by Sir Alfred Wainwright, Chairman of the East African Airways, with whom he shared a meal in the city and with whom he discussed arrangements to be made in Mombasa.

Whaling talks for Moscow

A COMMUNIQUE issued in Moscow by the sixth International Whaling Conference states that the Soviet Government's invitation for whaling nations to meet in July 1942, in Moscow, to discuss the international whaling Commission is being received with interest. It is not easy to reach an agreement that competing 50 per cent or more over the raw material is not working.

How to SHORTEN the Life of Your Tractor

- 1 Fill your tractor in disapproved or irregular manner. (See how we do it.)
- 2 Use oil of improper quality or the wrong brand. (They'll get it.)
- 3 Buy the cheapest replacement parts you can find. (Don't worry about the quality.)
- 4 Run the tractor for too long a time. (You'll get it.)
- 5 Neglect to do your regular work. (We need to have an expert.)

Originally you wouldn't subject your tractor to such abuse. But when you get an unworkable, old one we can furnish correct operation and maintenance instructions. Genuine Caterpillar Spares and factory-trained mechanics.

'LIBERATION' ARMY CAPTURED IN GUATEMALA

Col. Armas survives 14-hour revolt

SECOND INSURRECTION IN SIX WEEKS

TROOPS patrolled the streets of Guatemala City all night after the second revolt in Guatemala ended.

Col. Castillo Armas, whose anti-Communist 12-day rebellion took him to power a month ago, was yesterday still head of the ruling junta.

The "liberation" troops had been swept away in 24 hours of lightning. Cadets and staff of the Guatemalan military academy forced them to surrender and approximately 500 of them went to the military camp and announced their loyalty to the army. The troops were then trapped in a hospital. Col. Armas refused to allow his planes to bomb them, but through the Air Force he controlled the airfield. Col. Armas finally agreed to the demands that his "liberation" forces should be disbanded.

MEETINGS OF ASIAN LEADERS FOR

According to the United States Press, the meeting was held in Manila, Philippines, and was attended by leaders from the United States, Australia, New Zealand, and other countries.

SURROUNDED IN HOSPITAL

Col. Armas had 2,000 troops in Eastern Guatemala but there was no way in which to move them into the city. It was reported that the settlement was achieved through negotiations headed by the Roman Catholic Archbishop of Guatemala.

CHURCH AIDS SETTLEMENT

Col. Armas ordered press to issue a Jacobo Armas's Lettering Order, which would give Armas and the United States Army a hundred days to withdraw his forces from Guatemala.

K2 YIELDS TO SIXTH ATTEMPT

ITALIANS have climbed K2, the world's second highest mountain, at 28,250 ft. in the Karakoram Range of Northern Pakistan and has been described as a "pinnacle of their inaccessibility." It had defied attempts by five expeditions.

The climb took 41 climbers and 4,000 porters. The expedition started on August 1st and arrived at Karachi early in the morning. They then traveled to the base of the mountain on August 20 when the expedition made its second camp at 19,000 ft.

Britain's financial links with Empire

£120,000,000 FOR DEVELOPMENT

BRITAIN'S financial links with the Empire were underlined at the 15-nation Economic and Social Council of United Nations meeting in Geneva. Sir Alec Randall, British delegate, discussing a proposal for increased funds for aiding under-developed countries, told the Council:

Detention camps to be inspected

AUTHORITY for the setting up of inspection committees for detention camps in given new Emergency Regulations announced by the Government. The committees may visit at any time the camps which they are responsible, and may make at least one visit a year.

The committees will inspect the operation of any part of the camps, but will not be permitted to inspect the medical facilities, inquiries on the conditions and the hearing of appeals. The committees will also inspect the hearing of appeals, in which they may also inspect the conditions of the camps.

Eight-hour day
The conditions also define the type of company which are to be employed, and the conditions of their employment, including the hearing of appeals, in which they may also inspect the conditions of the camps.

The new rules also state that the Government shall be required to submit a copy of its report to the Council in writing about his detention.

Appeal by Arian dismissed in High Court

An appeal lodged with the Court by Arian against the High Court's decision that the Government need take steps to ensure the detente liberation of Austria from the hands of the Russians.

Speaking at the opening of the High Court, Lord Justice Goff, said: "I have already indicated that the Austrian foreign policy is the subject of a dispute between the Government and the United States."

SUEZ POLICY ADAPTED TO CHANGING WORLD

SORROWFUL though the Suez evacuation is to Britons, the withdrawal of 50,000 troops is seen at home as a move by Britain to adapt policies to changing world conditions. Clearly the base could best have served the West if it had remained in the hands of the British.

After the British withdrawal from India, it has been said, the British general was the weapons of war. Before the evacuation of Suez, the British army and air force were in a position to be launched in any direction.

Constitution report may be ready in October

THE report on the Constitution of Uganda is expected to be ready in October, according to a writer's answer to a question in the House of Commons.

Mr. W. Stewart (Coxs) asked when the report of Professor Keith Hancock is expected, and whether it will be made public.

The Minister of State for Colonial Affairs, Mr. H. Haddock, said that he hoped to finish his report by the end of September.

"It is as well that the mission should be completed before the report is made public," he said. "Recommendations agreed between the Uganda Protectorate Government and the Uganda representatives may be received in October and would be made known to the House at an appropriate time."

Travel Association appoints new general manager

Mr. D. O. Matthews has been appointed general manager of the East Africa Tourist Travel Association in London. Mr. Matthews has been appointed manager of the Association. He leaves to enter public relations secretary and general manager of the Association in London.

Up till that time, most of the maps of the area were his work. He has a diploma in cartography and is a member of the Royal East African Automobile Association.

MR. CREECH JONES MAY MAKE A 'COME-BACK'

Safe seat for ex-Colonial Secretary

THE adoption of Mr. Arthur Creech Jones, former Colonial Secretary, as Labour candidate for the by-election at Wakefield means that he will soon be speaking about Colonial affairs from the Opposition front bench.

For Wakefield is a safe Socialist seat which the late Mr. Arthur Greenwood won by a 1,700 majority in 1951.

Mr. Creech Jones has been trying to get back to Parliament since his defeat in the General Election of 1950. With his friends he consulted with some bitterness that little support from his party's headquarters.

Won respect

His troubles were twofold. He hitched his wagon to Mr. Creech Jones, and when Mr. Creech Jones lost his principal support in the House of Commons, he was left in a precarious position. He thought of his friends, but they were not so much of his friends as he had dreamed of them by night — little bellows to those who had other interests.

As Colonial Secretary he was a competent administrator who won the respect of his opposite. Practical experience of office forced him to modify some of the theories which he had inherited from his association with the Fabian Colonial Bureau, and he was honest and strong-minded enough to tell his left-wing critics where they were wrong.

In close touch

He has kept in close touch with his friends. He has been particularly helpful in the industrial area and has certainly played a part in shaping the policy of the Labour Party in the future.

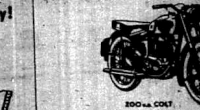

Whether he will ever again reach high office is more doubtful but effective.

While those two friends, Mr. Creech Jones and Mr. Creech Jones, were in the House of Commons, they were in the House of Commons. They were in the House of Commons. They were in the House of Commons.

URN PUZZLES UGANDA ARCHAEOLOGISTS

Ritual burial theory

A BULLDOZER excavating the alignment for the Western Uganda railway extension down the escarpment above Lake George has unearthed an urn, containing human remains, which is interesting to archaeologists.

The urn, in an inverted position, was found in a shallow hole about two feet below ground level on the site which will form Nkongosa Station.

It is one of the two urns and has a side lip and neck bearing a finely decorated pattern below the rim. It is 10 inches high and 4 inches in diameter.

There found the urn was packed tightly with earth, containing a few small bones and bits of three human teeth and parts of three human skulls. The bones were those of two adults and a child. The child's teeth were heavily molar.

The urn, with the partly excavated hole beside it, which was found during the construction of the Western Uganda railway extension. The urn dated to the fifth century of the culture.

These hints may help

When you are brushing your teeth, use a soft brush. When you are washing your face, use warm water. When you are applying your make-up, use a light touch. When you are going to bed, use a clean pillow. When you are getting up in the morning, use a clean towel.

WOMEN LIKE TO BE TATTOOED

The tattoo, one would think, is essentially a male "movement" and the fact of its great popularity amongst women probably counts as something of a surprise. It has been the case for some years that the women of the world have been flocking to the tattoo parlors in London, Paris, and other cities. The women who get tattooed are of all ages and of all social classes. Some of them get tattooed for the sake of the art, while others get tattooed for the sake of the money.

By Ralph Middleton

her arm with an electric iron, a strong and powerful series of plastic operations to remove offending particles from her body; and a New York musician died after being tattooed with a tattoo with a needle. Other people have had accidents and some have died. The tattoo is a very serious complication. But still the fact remains that in England during the last few years there has been a marked increase in the number of women who get tattooed. The women who get tattooed are of all ages and of all social classes. Some of them get tattooed for the sake of the art, while others get tattooed for the sake of the money.

WARDLE SPINS LANCs TO THE VERGE OF DEFEAT

LANDAU MAY RUN IN AMERICA

QUEEN ELIZABETH'S three-year-old colt Landau is a probable runner for the valuable International Stakes at Ascot on November 27. King's trainer, Mr. J. W. Porter, has indicated ever to carry the Royal colours on the American turf.

"The colt is the best three-year-old in the Queen's stable and is believed to be the Queen's favourite. Landau is expected to give the public a treat on the last day of the season."

'Suited'
Captain Charles Moore, the Queen's racing manager, said Landau should be suited to the American (track) and the racing road books. We have not decided on a jockey, but I expect it will be an English rider."

Landau trained by Noel Manx, was third in the Epsom Derby Trial Stakes this season. Mr. Jack O'Connell's four-year-old Prefect won the Chantilly Cup, worth £1,000, and ran over his training at Goodwood.

He has Major Desmond McCallum's Durango by one and a half lengths. Lord Minto's King Henry Hoop was another half length better than the favourite. Starting prices were 10/11 for Durango, 1/1 for Prefect, 5/1 for King Henry Hoop, 5/1 for King Henry Hoop.

Sir Gordon discharged
Sir Gordon Richards, 1901, champion jockey, has been discharged from an injury which has kept him in hospital for three months. He left hospital, he said, "feeling about his injury, he said he would not go on for long, but whether he would ever race again."

"I shall have to see how I feel," he said. "One day next week I will go to the doctor and see what the doctor says. I will go to the doctor and see what the doctor says. I will go to the doctor and see what the doctor says."

Mr Gordon Richards was hurt early in a race at the Royal Park race meeting when he was hit by a horse which fell on him. (Reuter)

Almost top in cabinet George Brown is believed to be the top man in the cabinet.

With Loader, one of two men to take nine wickets in day

JOHN WARDLE was the name on the lips of every Yorkshire cricket follower on Monday evening. He took nine Lancashire first-innings wickets for only 75 runs in the downfall of Yorkshire's traditional rival, they were all out for 75.

It was the best analysis of the England left-arm spinner's career and the best by any bowler this season. Lancashire were forced to follow on and score only 20 runs without loss at the close. Wardle's first innings performance was the best of his career.

Fastest 100
Wardle's performance was rewarded by George Knott, who hit the fastest century of the season for 75 runs in 100 minutes. He reached his 100 minutes at 14.40 minutes in his 14th run.

For other sport see page nine

Use in his luggage
Wardle's 100 minutes was the fastest ever by an English batsman. He was the first to score a century in 100 minutes in the second innings. He was the first to score a century in 100 minutes in the second innings.

Appropriate end
Wardle's performance was rewarded by George Knott, who hit the fastest century of the season for 75 runs in 100 minutes. He reached his 100 minutes at 14.40 minutes in his 14th run.

SIX GLAMORGAN WICKETS FALL TO FAZAL MAHMOOD

Tourists lead on first innings

FAZAL MAHMOOD, Pakistan's vice-captain and leading wicket-taker, gave a further illustration of his abilities under all types of conditions. Glamorgan's first innings was possible only on a slow-run saturated ground, no play for more than 25 minutes.

Wardle's performance was rewarded by George Knott, who hit the fastest century of the season for 75 runs in 100 minutes. He reached his 100 minutes at 14.40 minutes in his 14th run.

ATTACK ON FRENCH PREMIER MOUNTING Deputies' hostility over Tunisia

WIDESPREAD MOVE TO OUST GOVERNMENT

OPPOSITION TO M. Mendes-France is building up in the French National Assembly. On the Tunisia issue, the Prime Minister faces not only bitter criticism from the Right-wing and the deepening distrust of more than 100 other Deputies, but a hostility in his own party which threatens to get out of hand.

A large group of dissident Gaullists, Independents and Peasant Deputies passed a motion censuring him for having "believed himself entitled to abolish Gaullist thinking in France and the Tunisian Regency without consulting Parliament first." It called on all members belonging to the three parties to do all they could to prevent the Government's policy being implemented.

At a stormy meeting, the Prime Minister only just managed to prevent the radicals from passing a motion criticizing his policy. The issue will come up in the National Assembly on Tuesday when M. Mendes-France's cabinet number almost 200, it is believed, is determined effort to bring down the Government.

Meanwhile, the granting of home rule to Tunisia is being swept up the country, raising the death-roll in three days to 25. In Tunisia, Tahar Ben Ammar, the Prime Minister designate of the new transitional Government, has completed the formation of his cabinet.

The High-ranking French Deputies who are in the National Assembly, many of whom are in the country, are being criticised for not having been consulted on the issue of Tunisia. There is a move to oust the Government, and a number of Deputies are expected to resign.

There are more than 100 who have not yet formally declared war on him. Several Deputies are expected to resign. There are more than 100 who have not yet formally declared war on him. Several Deputies are expected to resign.

SUPERVISION IN KOREA COULD END—Mr. Dulles Communist 'violation'

THE United States Secretary of State, Mr. Dulles, said in Washington that the United States could suspend its aid to the Neutral Nations Supervisory Commission in Korea brought to an end. He told his twenty-five press conference that this was because, through the Commission which was set up under the armistice agreement—was carrying out the armistice in a characteristic style different from those which it was intended to be.

Heat-wave blamed for Dr. Rhee's 'petulance'

Mr. Dulles blamed Washington heat for the "petulant attitude" shown by South Korean Premier Syngman Rhee. He said that the Premier's "petulance" was due to the heat-wave in Seoul.

Mr. Dulles said that the Communist North Korean Government was "violating the armistice" but that the United States would not take any action until the Communist Government had agreed to a cessation of hostilities.

34 NATIONS TO ATTEND GATT SESSION

Full review of six years' work planned in Geneva

The Inter-Sessional Committee of the General Agreement on Tariffs and Trade has ended its nine-day session at Geneva. A communiqué is to be issued. It was decided to hold the ninth full session of the GATT at Geneva from October 28 to November 11, 1936.

Bigger tariffs sought on textiles

The Associated Chambers of Manufacturers in Australia have asked for a Third Board inquiry into tariff rates on yarns, wools and related piece-goods and blanketing.

A. M. C. Anderson, the chairman, said that the Tariff Board inquiry into tariff rates on yarns, wools and related piece-goods and blanketing.

FINANCE AND COMMERCE

Japan is allowed to enter negotiations with respect to the tariff on wool, but not later than February 1, 1936, with a view to a possible GATT.

Out of step

"Australian costs are now out of step with those in other manufacturing countries," said Mr. Anderson, who pointed out that Australian industries, but particularly the wool and textile industries, are particularly vulnerable and need prompt relief.

Japan seeking financial aid to stave off crisis

JAPAN is seeking more financial help from outside, in the country's further decline. The Chinese news agency, the Chung-ting, said that Japan is seeking financial aid to stave off a crisis.

20 ACRES OF BUSH CLEARED FOR FACTORY

DETAILS of a £250,000 factory which will produce a wide range of products from caustic soda to plastics and synthetic rubber have been announced in Johannesburg. The factory is being built on 20 acres of bush, which has been cleared.

BIG INCREASE FORECAST IN EAST-WEST TRADE

Still small despite better relations

Of the trade of trade agreements and other indications, the Secretariat of the Economic Commission for Europe estimates that East-West trade in Europe this year may be one quarter higher than it was in 1935.

World Bank loans

Government and private funds further development policy bankruptcies and of unemployment.

Mostly with Russia

This appraisal of 1934 trade statistics is a feature of the E.C.E.C. Economic Bulletin. Europe, including in Geneva, shows a marked increase in trade relations between Eastern and Western Europe.

market feared in coffee

TRADE ADVISES HOUSEWIVES AGAINST 'PANIC BUYING'

A BLACK MARKET in coffee is feared by Kenya planters and traders unless housewives stop their panic buying of the last few weeks. When it was known that delegates to the annual Coffee Conference in Nairobi had decided last week to buy 50 per cent of the coffee crop to be produced in the next year, it was feared that the price of coffee would rise sharply. But the price of coffee has not risen and it is extremely foolish to over-buy coffee. The Kenya Coffee Marketing Board, which is the only body that can buy coffee for export, has decided that it will buy 50 per cent of the coffee crop for export in the next year. This means that the price of coffee will be fixed for the next year. The price of coffee is expected to be smaller than it has been in the past few weeks. The price of coffee is expected to be smaller than it has been in the past few weeks. The price of coffee is expected to be smaller than it has been in the past few weeks.

Crump expected to be smaller

The main reason for the smaller crop is that the weather has been so dry in the past few weeks. The price of coffee is expected to be smaller than it has been in the past few weeks. The price of coffee is expected to be smaller than it has been in the past few weeks. The price of coffee is expected to be smaller than it has been in the past few weeks.

NYANDIKA 4th BEHIND CHATAWAY IN 3 MILES

Clips nearly a minute from his fastest Kenya time

NYANDIKA MAYORO, Kenya's champion three-miler, was fourth behind Kenya's champion three-miler, Chataway, in the final of the Empire Games three-mile event at Vancouver on Monday. Chataway returned 13 min. 42.2 sec, a new Games record. Nyandika returned 14 min. 42.2 sec.

It was a great effort by the Kenya. His previous best time, recorded in the Colony, was 14 min. 50 sec. Second was Fred Green (England) with 15 min. 45 sec. Third was another Chataway, in 15 min. 34 sec. Fourth was another Green, in 15 min. 37 sec.

Tables turned

The new and improved Chataway, runner-up to the world's only triathlete in the colony, made a superbly timed performance in the three-mile event at Vancouver on Monday. Chataway's time of 13 min. 42.2 sec. is a British championship record.

The first six also had the old Empire Games record of 13 min. 42.2 sec. set by C. H. Matthews in 1932.

Chosen for Wales

England also dominated the men's 800 yards race, providing the first three winners. They were Alan Jackson (Australia), who won with a time of 1 min. 51.2 sec. Second was Bill Potts (Ireland) with 1 min. 51.8 sec. Third was Bill Potts (Ireland) with 1 min. 52.4 sec.

AYUR RIDES WELL AT FIRST SPEED MEETING

New riders show promise

Nairobi speedway fans turned out in force last Sunday at the Afrasia Stadium for the first meeting of the year. Spectacular riding and several spills kept them there all day during the three-hour programme. The performance of the day was by young Henry Avall.

Emergency forecast by Mr. Blundell

POSITION EASIER IN FORT HALL AREA

ALTHOUGH good progress has been made in the fight against Mau Mau during the last six months, the task of restoring law and order in Kenya would last for at least five years, said Mr. Michael Blundell, Minister without Portfolio, said at Limuru on Wednesday night.

The estimate of five years might even be an understatement, he added. For a decade, a type of "dacoit" terrorism would probably hold out in the forests. During the next six months there would be a gradual lessening in instances of gang attacks and a gradual return to a fairly tight administration of law and order.

The Minister, who was addressing a meeting arranged by the Limuru District Association, gave a hearing review of the present situation. After referring to the improvement in the Fort Hall area he declared that during the last five weeks in the Fort Hall and Kiambu areas 500 terrorists had been killed, 475 were awaiting trial and 2,800 were in the camps.

Offensive movements by security forces had troubled since the early part of the year and more than 600 engagements were being inflicted on the terrorists than at any time since the start of the Emergency. Six months ago, the gangs were large and aggressive; today they were much smaller and concerned mainly with getting food and supplies.

Through the operation of the plan of attack on terrorists in the area at a time, Kenya could expect to see a slight, almost imperceptible, improvement between now and the end of the year. By December they would have added up to a very substantial change in the situation which the Government had planned was carried through successfully.

ATTEMPT TO RE-ORGANISE

Mr. Blundell said that the shortage of manpower among security forces prevailed down from attacking Mau Mau in all areas simultaneously, "we must do it sector by sector - Nairobi first, the Reserve second and then, last of all, the attacks on the reserves."

The plan began with "Aviri" was continued by a "white Aviri" at Thika, both of which disrupted the flow of food, arms and medical supplies to the Mau Mau.

BUILDING OF GUARD POSTS

Twenty months ago, when locations were in effect, Mau Mau operations had largely broken down. The Government's strategy was very much on the lines of that of the Mau Mau leader, Mr. J. M. Kenyatta, who had been in the Fort Hall area for some months.

In the Thika area, where we are building something like 50 Kiambu guard posts to fast roads which may venture far out of the forests. By organizing better which systems are now being used, the Government is building a move towards better security.

PREFERRING ACTION TO WORDS: TURPIN FACING A TOUGH TASK

A cruiserweight come-back RANDOLPH TURPIN, erstwhile world middleweight champion, was never one to duck a challenge. He has faced up to the hardest punches in the business, retired, never flinching that any ring facts are tougher.

At it some three months ago, Turpin lost more than his title that night. The last, sickening fame of his personal prestige went out.

Three years before it had been a knockout blow. The heavy he brought down Turpin's last opponent, the world title, the American Robinson for the world title, the American Robinson for the world title.

Tanga fears after a message that went astray

"Rescue" Controversy

AFTER being reported missing for 48 hours in heavy seas and a high wind, the 15-ft yacht Flying Col was rescued by a group which searched about to send out a search party.

The yacht's owner, Mr. and Mrs. J. G. Collier, were at the scene of the rescue. They had had a message from the yacht club (M. V. Club) that the yacht was missing.

There was a strong wind and rough sea on the day the Flying Col was rescued. The yacht was found in the harbor, and there were fears for her safety.

FOR ROYAL SHOW 'ASTONISHING'

Farm and dairy produce section record

'Astounding' is the word used by the members of the Royal Show, which opens this afternoon at Nakuru. The show, which is the largest of its kind in the country, has attracted a large number of visitors and is expected to be a great success.

Outbreaks of foot-and-mouth disease in the Limuru and Trans Kenya Districts are unlikely to interfere with the show, although the disease is present in the area. The outbreak notified in Eldama Ravu is the only one of its kind in the country.

After all, although the outbreak is undoubtedly the most important as far as exhibitors are concerned, it is not so important as far as the general public is concerned. The show is expected to be a great success.

Mechanical Handling's Progress

The rapidly increasing demand in East African industry for mechanical handling devices to speed output and reduce costs has induced the British Overseas Engineering Corporation (E.A.) Ltd. to form a separate company to specialize in this particular field.

This new company will be known as Mechanical Handling Limited, and will concentrate the expert knowledge necessary for the many new and best devices now available in East Africa. This company will have the advantage of a portfolio of agencies offering the latest advances in mechanical handling efficiency, while enjoying the further advantage of being able to call on the full resources of the British Overseas Engineering Corporation (E.A.) Ltd.

The wide range of equipment available to lift, haul, stack or transport any load may be manual, petrol, battery or diesel operated.

The East African franchise of L.T.D. Ltd. (Scales and Electronics), hitherto handled by the British Overseas Engineering Corporation (E.A.) Ltd., forms the nucleus of the agency portfolio of the new company.

POSITION OF ELECTORS' UNION RESTATED

Mr. Blundell's charges 'unsupported by facts'

A STATEMENT has been issued by Lt-Gen. N. M. S. Irwin, Chairman of the Committee of the Electors' Union, to 'restore controversy and misrepresentation to proper proportions.' Gen. Irwin began by recapitulating the sequence of events which led to the Central Office's criticism of the Government's recent policy statement—

The Review Union, through its executive committee, found itself in disagreement with the Lyttelton Plan both as to its essential aims and as to the value of the circumstances in which it was presented and accepted by the leader of the European United Members Organisation and some of the colleagues the Union decided not to offer assistance in the plan as such, but to support it on a condition that it was regarded as being an experiment during the experimental period suggested by the Colonial Secretary.

The Union did not and does not request the Lyttelton Commission an itemiser of the accepted terms for the further development of Government in which the other cases were partly satisfied. The future constitution of the Colony depends entirely on the actions of the Ministry to put the interests of Kenya above racial considerations and to maintain the accepted Government of the people of Africa and the Kenia.

Five priority aims
(a) The Electors' Union, through its Executive Committee on June 23, laid down five aims which it should immediately pursue. These were:

1. European immigration: Increased European immigration to the region of the country to assist in the development of the Colony, and to maintain the most suitable persons for the area.

2. Security in Land Holdings: The creation and preservation of a series of security land holdings to ensure the proper development of the Colony.

3. Security in Land Holdings: The creation and preservation of a series of security land holdings to ensure the proper development of the Colony.

4. Land Policy: The creation of a land policy to suit the needs of a young and developing country.

this year among the European Electors' Members, with whom the Union is in contact, and who, clearly, and not, by any direct action, are the only members of the Union.

No party politics

"Strictly there has been no contact with the Executive Committee in which Mr. Blundell's name was mentioned in a derogatory or a bad light. It was one of the Union members, a member of the Executive Committee's name of respect to its members, and its declared intention."

Plan not attacked

Gen. Irwin's statement continues: "As regards the authority under which the officers of the Union exercise their responsibility, this which has been called a condition of membership by Mr. Blundell."

Russia protest again to U.S. on tanker seizure

Russia has delivered a new protest to the United States on the arrest of Chinese Malacca, of the Soviet tanker 'Tuzigai'. At the same time a United States Navy was delivered to the Chinese Chinesse demanding compensation for lives lost in the attack on the British Sloop 'Arcturion' off Hainan Island.

STOWAWAY: POLAND DEMANDS INDEMNITY

Note condemns 'assault' on ship

POLAND has protested to Britain and demanded compensation, according to Warsaw Radio, for the seizure by police of Antoni Klimowicz, a 25-year-old stowaway, from the freighter Jaroslav Dubrowski. The Polish Foreign Ministry has handed to the British Ambassador a Note of protest in which Klimowicz was described as an 'extremist' wanted by the Polish authorities.

But the British admiral who acted against orders in the Nelson 'killed' eye to his telescope 'maneuver' was still serving in the New Admiralty.

A difficult for East African students

Sir David Lindsay went to the University of Edinburgh, and as a witness to the British Foreign Ministry that one of the students of East African students was one of the students who were arrested and leaving little time for preparation. The night the Admiralty was told to a dinner party at the Admiralty.

MANY an anxious glade was cast at the sky on July 28 when the Mayor and Mayors of Nairobi gave a garden party in City Park. A number of the women guests carried umbrellas, and a man or two had dropped a mackinac to over his arm. With so much doubt in every mind as to the possibility of rain, it was not, perhaps, as fashionable a gathering as it might have been. There were, however, a number of pretty frocks to be seen.

The Mayor talking to Sir Alfred Vincent at the Garden Party, with his mother, Mrs. Alexander.

The Mayor's mother, Mrs. C. Alexander, had come to the party, she is the mother of the Municipal School teacher. It was for the occasion, was for a woman with white hair, a smart person, just in rain. Mrs. Alexander, the Mayor's mother, was very, very smart dressed in black. Her hair was done in black.

Classical Influence Retained In New Italian Fashions

LIVING conditions, social life, climate and economic situations are factors which influence fashion. Thus, although the main trends set by the couturiers at the beginning of the season are adhered to, the less important designers have to make their own modifications, bearing in mind the special requirements of their customers.

These are governed by the socio-economic factors. Of vital models, therefore, undergo various changes from one season to another and from one designer to another. Sometimes the alterations are slight, sometimes they are of an important nature.

The original and sometimes they are more original than those that have the latest collections of the dressmaking houses of Paris admirably illustrate this.

There are towns where the women are fond of relaxed, simple, and comfortable dresses. These dresses show well-defined lines and are made of light materials. They are well-tailored and give an impression of ease and grace. They are also more formal afternoon dresses which have a certain elegance in the skirt and lining.

Pastel shades

WOOL, staple in color, is used extensively in all the color schemes. It is a wide choice of pastel shades, like cream, pink, light green, lavender, blue, and grey. These colors are the leading trend.

Matter displays a preference for wool fabric rather than silk or cotton. The latter is used in a wide choice of pastel shades, like cream, pink, light green, lavender, blue, and grey. These colors are the leading trend.

The most shows a traveling and a more formal afternoon dress. This consists of a long, flowing skirt and a matching jacket. The skirt is made of wool, which hangs and drapes naturally. The jacket is made of wool and is tailored to fit the body. The overall look is one of elegance and simplicity.

WOMEN - AND PIPES

THEY do not quit yet, but the pipe-smoking old women of Scotland's lonely islands are in the front rank of fashion.

They are wearing the kind of fashion that is the result of the American fashion boom, but distilling the new trend.

the Kenya Emergency and its widespread effects throughout East African territories, the business community—pioneers and newcomers—have decided that Africa is a good country and worthy of support. This week we give the plans of one of the country's oldest firms which has passed the 50-year mark and looks with confidence to the future—and its centenary.

Managing Director of
Gailey & Roberts Ltd.

to the head of the firm... the volume of business... the country's oldest firms...

the increasing volume of business. Plans were laid for more stores and workshops not only in Nairobi but in many of the country's branches throughout Africa. Delays in delivery of

of the better elements into the security forces increased the difficulties.

In 1957, a 54-acre plot was bought in the administrative zone and decided in 1953, notwithstanding the Emergency and the general air of uncertainty on the part of the capital investors, to go ahead with the construction of a new store of 210,000 built store, the completion of which will result in a material improvement in the supply of goods to customers and in conservation of the building materials available.

ing manpower. The new 11 long of Africa structure and covering an area of 80,000 sq. ft. Additionally, the store is an assembly in a tank 30 in diameter, 60 ft long and 10 ft high, the construction of which will be completed by a 15-ton gantry crane.

This assembly hall will be available in mounting the unloading and the heavy machinery and the heavy lifting equipment. Caterpillar and Newfield tractors and heavy earth-moving equipment. Also, outside storage yards for provided to accommodate iron and steel stocks, railway

into operation a few weeks ago and the whole of the plant is now in use. As a result, various departmental functions have been made possible and a general re-organisation of the premises is in progress. The main objective is to improve sales and service facilities. The customers and technical staff members by centralising all functions in one building in Harding Street. Service parts will be sent to the Commercial Street main store.

The premises at present occupied by the Commercial Street building will be completely vacated by the end of this year and the building will be taken over for the construction of new modern premises on this plot to accommodate the whole of the administrative and sales departments, with spacious

showrooms in an area which should provide adequate parking for customers and staff.

Problems

A MAJOR feature in the planning of this reorganisation has been the necessity for maintaining continuity of customer service while undertaking modifications to buildings and transfer of personnel. It is hoped that the minimum of interruption will be caused, but violence will be caused, but the next few weeks, there may be delays in delivery of goods to customers. It is anticipated that this may be due to a disruption in communications caused by the necessity for transferring the main automatic telephone exchange from Sailer Street to Harding Street. It is anticipated that this may take up to two weeks, during which time a skeleton telephone service will be operated.

As soon as the reorganisation is complete...

The firm's main bulk store in Liverpool Road, Nairobi, is now being extended and equipped with modern machinery. A 60-ton gantry crane will be installed on the site with 15-ton gantry crane with capacity for erecting inside the main store.

Pilgrims pay their dues in gold

THOUSANDS of Meo pilgrims are pouring into Djibouti by air, land and sea to perform the Hajj, or sacred pilgrimage, to the holy shrines of Mecca and its neighbourhood.

To perform this pilgrimage is the duty of all adult Moslems, but the ordinary Moslem, who has no means, is unable to do so. He is obliged to save up for years, or even decades, before he can afford to go.

THEATRE ROYAL

THE REGINA OPERA gives Lawrence Olivier his first starring role, and the 1934-35 season also provides him with love scenes which have been described as ranking "among the truly romantic moments of the cinema of all time."

There is plenty of action. Olivier is a highwayman and is betrayed by a "henchman". The high-spirited and beautiful Norma Jefferies, who has written the play, is the heroine. The play is a masterpiece of the theatre.

THERE ARE STILL SOME HORSE 'TOTTERS'

HORSE traffic, though it is only a fraction of what it used to be, still remains a feature of all London. Horses draw some British Railways vans and some of the smaller trucks and trailers are commonly pulled by colts and ponies.

Doubling For Penalties

Adopt the contract wherever the law. When bringing me to the court, I will be ready to defend you for nothing.

These modern courts are the best of the little courts. They are the only ones who do not give penalties. This is not strictly true, however, as there are also some courts which are not so particular in this matter. But more about that another time, my dear friend.

Singleton

Again, if you have had a friend who has been supported by partner, the odds are that one of the opponents has only a singleton. Also, he rather more careful when your chance will give the declarer a game if he makes his contract. In such a case, you must draw in. In declaring the contract, you must draw in. In declaring the contract, you must draw in.

Despite the fact that double is usually made for the main purpose of collecting penalties, you must not draw in as if it was a game contract. In this case a game contract has been made and the declarer has a fairly good idea of each other's hands.

When a player declares a no-trump contract his partner must lead a suit which has been bid by the doubler if the doubler has not bid his partner has. Then the suit must be led. If neither the doubler nor the partner have bid a suit, the doubler has a demand to lead the first suit bid by the doubler. In this case, the doubler's partner has a good chance to establish it. In many cases, the doubler's partner has a good chance to establish it.

Four tricks

As a sign contract is usually the result of prolonged bidding, it is usually a no-trump contract. In this case, the doubler's partner has a good chance to establish it. In many cases, the doubler's partner has a good chance to establish it.

BINNY-BUNNY VISITS THE ZOO WITH AUNT PRUDENCE

"NEXT WEEK," said Aunt Prudence, "I shall send you back to the Bureau" for your punishment. Binny-Bunny was pleased with this, as he had no objection to his Aunt Prudence, who had not had any other visitors since she was a patient person.

The monkey became friendly and took some fruit from Binny-Bunny's hands.

Excited

"Oh, you glister!" replied Binny, as he jumped up and down in delight. So they ate a quiet lunch of carrots and peas, peep on their hats, and set of hand-in-hand.

At the zoo gates there was a man dressed in a newspaper. He handed Aunt Prudence a list of tickets, and Binny-Bunny was excited.

Took glove

The monkey in the green suit became very friendly and took some fruit from Binny-Bunny's hands.

Binny-Bunny was excited. He took a glove from the monkey and put it on his hand.

Elephants

"Are you feeling hungry?" she asked, and they had some milk chocolate. They went on to have a ride in a little donkey cart, and also saw the elephants and the wild dogs.

On postcard

The competition is for all boys and girls under 13, and full answers will be made for me. The three boys or girls sending in the most correct answers will each be awarded a book voucher. To read in your own handwriting or printing on a postcard, please write your own name, age and address on the back. The prizes will be sent to the winners by the post.

Bears beg

So they went to look at the bears. There was a white polar bear and two brown bears. They looked very soft and sweet, and Binny-Bunny took some honey from their paws. When they were gone, the bears sat up to beg for more, but the bag was empty.

On the mat

And there, on the mat next morning, was a little bear cub and some pretty glassy pieces of the animals for Binny-Bunny. I shall tell the ticket man that he said this, and did not that he took the name and address and sent her that everything would be all right in the end. Fidelity Winner's names will be published on August 15th's edition of the Standard.

TEST YOUR OWN BRAKES WITH NEW GADGET

DRIVERS of all vehicles, from heavy motor coaches to light cars, can now keep an accurate check on the efficiency of their brakes—without having to take the vehicle to a garage.

The device can be used under actual road conditions, while the motorist, in motion, by means of a scientifically designed and sensitive, pocket-sized indicator, can find out if his brakes are in good order.

The new brake-efficiency indicator is the brain-child of a mechanical engineer who, after a year's research, has designed a device which can be used in motion at a low cost.

The device slips on to a small and moderately priced car. It is attached to the rear axle and is operated automatically by the car's own engine. When the vehicle is driven at its normal speed, the indicator will break up as the car slows down. It will then show the driver under those conditions, the efficiency of the brakes.

AN American boy, kidnapped in Beirut when five years old by a Lebanese man who returned to Beirut after a long period in captivity, has been traced.

The boy disappeared when he changed his name and hid himself in Rome. The man who kidnapped him was brought back to the U.S. and his wife and child were reunited. The man who kidnapped him is now in his grasp.

New East African Film Takes To The Water

Anthony Steel and Sheila Sim in a scene from 'West of Zanzibar'.

ASSEMBLED on the sun-scorched coast of the Zanzibar recently was a fleet of some of the most picturesque ships in the world.

They were shown on a typical day—the colorful craft trying out of speed and maneuverability on the Indian Ocean. The Persian Gulf and the Red Sea were also there.

Their chief roles were also "Cherbourg" specialties. "John and Helen"—though not a true west-

cherry show in aid of the St. John Ambulance Brigade. Probably three out of every five of the drivers were built in the tiny shed-build of Kowloon.

For hundreds of years the Persian Gulf sea-trade has been in the hands of Arab traders. As Kowloon's trade boom—its Kuwaiti-style trade boom—has taken root.

The big water-front of the capital is now being developed for shipping. The harbor is being deepened and the water-front is being extended. The harbor is being deepened and the water-front is being extended.

Major superlatives, however, are being set for the future. It is a matter of time before the harbor will claim as its own the first command of the sea in the life of the world as well as the life of the harbor. All sorts of rumors and predictions are being made for Kowloon. It is the harbinger of the future.

WHERE ACCOUNTS DON'T MATTER

ACCOUNTS don't matter. Beirut, capital of the Lebanon, with Paris of the Middle East. Nobody knows how many millions of pounds spent on pleasure in this fabulous town.

It's a city of a half a million. There is a new Cadillac garage built in the city. The city is a city of a half a million. There is a new Cadillac garage built in the city.

A show scene from the B.S.A. service with lively interest.

However, despite his outstanding performance in the world's oil competition, it is only 1946-Kowloon still has to be built. The new show shows what the future is for the East African Arab.

There's more to LUBRICATION than just OIL

Efficient lubrication is the only a matter of replacement with any given type of oil. Efficient lubrication requires a complete study of an engine's requirements including the type of work it has to do, the speed at which it operates, and just many other factors.

CASTROL is more than just an oil, it is a lubricant manufactured to a precise formula designed to meet the most exacting needs of every type of engine.
