MUNIST PAR... OUTLAWED BY SENATE

Unanimous vote for surprise U.S. move

BILL FOR HOUSE OF REPRESENTATIVES

In a completely unexpected action, the American Senate has passed and sent to the House of Representatives a Bill outlawing the Communist Party.

The Bill, carried unanimously by 85 votes to nil on Thursday night, provides that persons who willfully join or remain members of the Communist Party and commit any act designed to carry out Communist Party purposes shall be subjected to penalties of up to five years imprisonment and fines up to \$10,000 (about £2,500).

The Bill would also make it illegal for any Communist Party members to hold office in a trade union.

It was put forward by Senator Hubert Humphrey, of Minnesota, and by other Democratic Senators as a substitute for a measure which had been backed by President Eisenhower and was aimed at eliminating Communist domination of certain trade unions.

The Bill faced an uncertain reception in the House of Representatives, which is about to adjourn.

Representatives, which is about to adjourn, will vote on the bill on Thursday.

Senator Humphrey, who introduced the bill, said that it was a "surprise" move.

SNAKE HILL TAKES ON A NEW MEANING

By Anne Cavanagh

WHERE only 10 months ago stood a lonely little red-brick building on the top of one of Nairobi's highest hills, today stands the new Local Government and Community Development Training Centre.

Mr. Pat Williams, principal of the training centre, standing on the view from the top of Mbatiani Hill.

It is the vision I received on my first visit to the centre... the view of the hill, would have been... to be a little more than a year building was completed.

For four months, the first month being taken up with the citizens' course. After that the other, last month about local government organization, statistics, and about economic, agriculture, hygiene and civics.

First of kind

THE first centre of its kind for adults in Nairobi, its aim is to give a fuller understanding of the duties of a good citizen.

- (a) to train civic and local government staffs through their duties...
- (b) to give a fuller understanding of the duties of a good citizen...
- (c) to train Community Development Assistants in their duties...
- (d) to give a knowledge to employers and leading citizens of Local and Provincial Government.

Precaution

ONE of the first things that struck me as I walked down the training course...

As we walked past the various classrooms being in one room the class listening to a lecture on political administration...

Wives, too

THE girls are selected for the course by their local government authorities...

The day I visited the centre there were 18 women doing various courses...

None

THE PERSON who the centre is very popular in Nairobi is that it provides another foothold in the struggle of the day...

Every day at the various courses begins the day with coffee, followed by work in the grounds...

Mr. Williams is lecturing on hygiene.

Among the courses planned for the future is one for shopkeepers for the run by the Department of Commerce...

In English

AT the moment all the courses are conducted in English but it is hoped soon to introduce courses in other local languages...

Learning to cook by three methods—oil, electricity and wood.

Many of the African women in this picture are the wives of chiefs who have attended the centre with their husbands. They are learning to cook in the main hall.

MOMBASA OIL PLANS

SATURDAY, AUGUST 7, 1954. Settlement of the Persian oil dispute, which was reported yesterday, may radically affect the world strategic supplies of crude oil and the number and capacity of the refineries required.

The Anglo-Saxon Petroleum Company, a subsidiary of the Anglo-Saxon Petroleum Company of London, is one of the three operating companies of the Royal Dutch Shell Group which is concerned with exploration for and production of oil.

After all passed to Row through the company, the British Government will be responsible for the oil supply to the British Empire.

Kenya Legislative Council. During his latest visit to the United Kingdom, Mr. Macmillan, Minister for Commerce and Industries, announced that he was to visit Kenya in the future of the Anglo-Saxon Petroleum Company.

The consortium which has entered into an agreement with the Anglo-Saxon Petroleum Company to supply oil to Kenya is expected to start production of crude oil within the next two months.

An export refinery at Mombasa was expected to be completed by the end of the year. It is expected that the refinery will be able to process 100,000 tons of crude oil per annum.

ECONOMICS OF THE DIESEL

By ALICK DICK

Managing Director, The Standard Motor Company

Table with 4 columns: U.K. (second gear), Imperial, Metric, and Difference. Rows include U.K. (representative petrol), Sweden, Germany, and U.S.A. (representative petrol).

The already low volume of diesel engines in the U.K. is due to the fact that the diesel engine is more expensive than the petrol engine.

These at any rate were the chief reasons which were cited by the Standard Motor Company in making its decision to discontinue the production of diesel engines in the U.K.

Several modifications have been made to the tractor engine before it was ready for the market. These modifications were necessary to make the tractor engine more economical and more reliable.

BIG AFRICAN DEMAND FOR FARM PLANNING

Popularity of scheme outlined to Governor

SIXTY African farms in North Nyanza have been planned under a comprehensive scheme for the entire province and the policy is proving so popular that there is a list of 400 other farms awaiting planning. This was one of the points outlined to the Governor by the Provincial Agricultural Officer, Mr. R. L. Brown, at a public meeting during his tour of North Nyanza, by the holding designed to provide a full subsistence for a family of eight persons and a family income of approximately £100 a year in cash. The estimated cash income was a minimum of 1000 shillings a year, which was a figure that was probably that of the holding would produce a greater cash income.

WEEK'S SPORT SUMMARY

Another nine-match series of County games which was completed on Tuesday night. The series was a definite one with Yorkshire, the leaders by a wide margin, and Middlesex, the runners-up, in the top two places. Yorkshire's lead over Nottingham was 120 points from 10 matches.

The first and most interesting feature of the series was that there is only one county in the country which has not yet won a match. This is the New South Wales team in the first division.

Only winners
Warwickshire, who were unbeaten in the first division, were the only winners in the series. They were followed by Yorkshire, who were unbeaten in the second division.

Good bowling
In their second innings, Yorkshire were bowled out for 170 runs. The bowling was excellent, with the bowlers taking 10 wickets.

On Tuesday, for the fourth time in the last five years, Kenya Kampi won the title of the best batsman in the world. He scored 100 runs in the first innings of the match.

NATIONAL HUNT MEETING
SATURDAY'S combined National Hunt and gymnastics race meeting on the new Nairobi course attracted a big crowd of all who, unless they were curmudgeons to the contrary, must have felt feeling they'd had money's worth from this almost exclusively amateur display. For meeting of this kind create that "muddy" atmosphere of fair and village cricket that so appeals to the general public.

Even a number of persons the other side of the fence were attracted to the racing on Saturday. The racing was excellent, with the winners being Kenya Kampi and Nairobi the champion.

Kenya Kampi won the title of the best batsman in the world. He scored 100 runs in the first innings of the match. This was a record for a Kenyan player.

SNAKE HILL TAKES ON A NEW MEANING

By Anne Cavanagh

WHERE only 15 months ago stood a lonely little radar station, perched on the top of Snake Hill, today stands the new Local Government and Community Development Training Centre.

Mr. Pat Williams, principal of the training centre, standing on the apex of his house looking out on the view from the top of Naamas Hill.

For four months, the first month being taken up with the citizens' course, the centre has been busy with lessons and kindergarten preparation.

First of kind

THE first of its kind for adults in Uganda, its aim is to give a better understanding of the duties of a good citizen:

- (a) to give a better understanding of the duties of a good citizen;
- (b) to train chiefs and local government staffs in their duties; and at the same time increasing their understanding of the duties of their subjects;
- (c) to train Community Development Assistants in their duties, broadening their outlook in the use of some of the techniques suitable for adult education;
- (d) to train the wives of such people to be domestic; and
- (e) to give a knowledge to agriculturists and herders of the problems of Local and Provincial Government.

The centre can also give recognition to anybody, whether Government or other

Education

ONE of the first things that round the training centre is a lecture on the duties of a good citizen. This is an essential, as Naamas Hill is full of ironstone.

As we walked past the various classrooms, seated in one corner the chiefs listening to a lecture on heredity. In another a group of C.M.S. Ordinands attending a lecture on hygiene, and in another Mrs. Hume, a lady doctor, was demonstrating to a group of girls, mainly "Koboko" girls, the importance of hygiene. "I asked Mr. Williams what he thought of the girls' attitude," I asked Mr. Williams. "I think they are doing very well," he replied. "The old dew Africans used to come to the top of this hill to consult snakes about the future. I now hope that they will consult us!"

The courses at the College have various lengths. For instance, the citizenship course, which embraces a number of subjects including work, food, health, transport, a postal service, education - lasts for a month. The chiefs' course lasts

Wives, too

THE chiefs are selected for the course by their local government authorities. These taking the citizenship course, after they have completed the citizenship course, they are to be employed on subjects such as the teaching of adult education, blackboard work, model making, puppets and how to use films and filmstrips.

The day I visited the centre there were 19 women doing various courses. 17 of them being the wives of chiefs, and other people on various courses. While their husbands are learning better standards of living, the wives too, are learning to do so. I was very struck with the apical kitchen, complete with oil cooker, electric cooker, Dwyer stove and refrigerator, and nearby a similarly equipped laundry with rows of electric irons and charcoal fires. When a man takes his wife to the centre they have

their own small house with a living room, bedroom, kitchen and store. Children, as yet cannot be taken to the centre, mainly due to feeding problems, and the difficulty of carrying and kindergarten accommodation. But it is hoped that they will be taken to the centre in the future as the centre is to work on the family unit system.

The single men live in dormitories, each having their own room, such, like there is a common room, at one end of each block of 20 cubicles. All the students eat together in the large dining hall at the centre. Here I was impressed with the modern furniture and the huge oil-fed stove on which the food is cooked. The particular day when I was there every day, rice was on the menu for lunch. "The one I ate," said one of the students, "was the one which I prepared myself. I had some groundnuts, rice, meat, lemon, and salt. I was very cheerful," said his wife as she sat next to him. "I was very surprised to see you here," she said. "I was very surprised to see you here," she said.

No fees

THE reason why the centre is very popular in Naamas is that it provides another facility than is available at the centre of the town. In the students play football, play tennis and there is also an outdoor basketball court being built.

Chair, basin in a lecture on hygiene

For three-weeks cross-country runs before breakfast. Each morning has his own particular task to do. It may be looking after the perfect, studying mathematics (one group starting) 200 mathematics with 1,000 worth of first notes, or working for the benefit of the centre. The chief will get to work wearing the flower belt, eating the grass of clearing rubble. Mr. Williams said:

Among the courses planned for the future is one for shopkeepers to be run by the Department of Commerce, and eventually it is hoped that Government people will be able to attend at the citizenship course. At present no fees are charged, but this may be reviewed in the case of non-Government students.

In English

AT the moment all the courses are conducted in English, but it is hoped soon to introduce courses in other languages. Drawing parties, 30 people, are held at the centre at a time. Language has always presented a difficulty, particularly in connection with the wives. For instance, 20 English-speaking chiefs coming from all parts of the Protectorate may attend one course, each bringing his own wife, who probably speaks only her own language. In some cases, however, it is found that much of the instruction can be effectively put over by demonstration. Most of the students had offered any criticism about the courses. Mr. Williams, replied: "Yes, most of them complain that they get out long enough."

Learning to cook by three methods—oil, electricity and wood.

Many of the African women in the picture are the wives of chiefs, who have attended the centre with their husbands. They are learning to be a cook in the main hall.

TANGANYIKA PROVINCE PLAN

In the first review of development plans for the Southern Province of Tanganyika, drawn up by Mr. G. W. Baker, the District Officer, it is stated that plans must show that increased production buys a better standard of living. As proof of that, the aim must be to surround the people with bricks and mortar.

ANGRY SCENES OVER PETROV PAYMENT

Dr. Eoat rebuked by Mr. Menzies

MR. MENZIES, the Prime Minister, and Dr. Eoat, Opposition leader, shouted at each other across the Australian House of Representatives in an angry exchange of charges arising from the Petrov case.

Dr. Eoat had alleged outside Parliament that £400 had been paid by the Government to Mr. Vladimir Petrov, former Soviet spy chief, granted asylum by Australia. For such documents designed to influence public opinion in the West were selected.

Remained silent

Mr. Menzies refused to comment when he had remained silent about the Petrov papers. Though the election campaign that Dr. Eoat "drove in" had been going on, it had been silent about the Petrov case.

The exchange of the two political leaders were frequently drowned against a rowdy background of cheering and laughing from the Government and Socialist Opposition benches. Dr. Eoat had claimed that the Government had paid £400 to Petrov, the Third Director of the Soviet Embassy in Canberra.

'Disturbing fact'

For three days before the announcement in the House of Representatives that the Government had granted political asylum to Petrov, Dr. Eoat had been silent about the Petrov case.

Dr. Eoat had been silent about the Petrov case. He had been silent about the Petrov case. He had been silent about the Petrov case.

Varied experiment

An experiment had been made in the Tunduru District to foster community spirit by building a village on an African rural centre comprising a court house, a market and refreshment rooms of wood decking and houses for the local Native Agricultural Society.

According to the report, the Southern Province was very at the beginning of the development of the settlement of surplus products in the Province by 1950 (producing those of the Overseas Food Corporation) was 100 (producing those of the Province), the second largest in Tanganyika, and 12 per cent of the Territory's population and 18 per cent of its land area.

Varied experiment

In addition to a survey of land and soil, the Government has been carrying out a series of experiments in a well-wooded area, such as coffee, tobacco, sisal and rubber, were already grown in increasing quantities.

It is expected that the Government will be able to produce more of the most important items in the economy by the end of the year. The Government has been carrying out a series of experiments in a well-wooded area, such as coffee, tobacco, sisal and rubber, were already grown in increasing quantities.

Improved agriculture

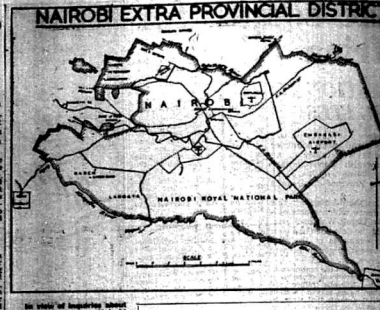

Improved agriculture and mechanical cultivation have been carried out in the Province. The Government has been carrying out a series of experiments in a well-wooded area, such as coffee, tobacco, sisal and rubber, were already grown in increasing quantities.

Tactful fly surveys

Apart from Sogon, the latest fly control was not so bad as was thought. If further surveys are carried out, it is expected that the Government will be able to produce more of the most important items in the economy by the end of the year.

Three contests in Seychelles elections

Contests were held for candidates for the 1952 Legislative Council in the Seychelles. The only contestable seat was in the Province of the Seychelles. The Government has been carrying out a series of experiments in a well-wooded area, such as coffee, tobacco, sisal and rubber, were already grown in increasing quantities.

The extent of damage which the district of Nairobi has suffered from the recent heavy rain has been estimated at £1,000,000. The damage is estimated to be £1,000,000.

RHODES SHOW 'CITY' LOSS \$500,000

BALANCE sheets tabled in the Southern Rhodesia Parliament show that City of Rhodesia (Rhodesia) has suffered a loss of £1,000,000. The loss is estimated to be £1,000,000.

TWO LEADING IN THE GAIN WINS BY INNINGS

FOURTH TEST THE SAME OLD STORY AT AVAL Rain floods pitch

PLAY in the fourth and final Test match between England and Pakistan at the Oval yesterday was abandoned. Torrential rain flooded the square just before noon.

As the ground was not prepared for surface moisture shortly after the capitulation, rain meant a further postponement and within minutes, the whole square was under water. The captain then decided to play no further and the match was abandoned.

The close of the fourth day of the rain meant that only five runs were scored in the first 10 minutes.

The rain was so heavy that the batsmen were unable to see the ball in order to save the runs.

Weather strikes again—four of seven games affected

YORKSHIRE, Derbyshire and Glamorgan won their County Championship matches in the day on Thursday, which means that the first-tenners were all first and second in the table, Yorkshire leading the Derbyshire side by 18 points—170 to 162—with two games in hand. Rain fortunately did not affect any of these three matches as all four other County games in the country were delayed and in some were delayed in the afternoon before play began in any of them.

Failed by five runs

With Norman Yardley declaring at 10, the overweight batsmen were unable to get off to a start which meant that the batsmen were out for 45. Then Don Bradman, a Yorkshire batsman, and captain, Doug Lindsay took 14 in 14 but were out for 14. Lindsay was out for 14 in 14 but was not long delayed, though four failed by five runs were not the innings.

Applied and Truman took the bowling honours for Yorkshire.

Trouble was all out in under two hours at 10. Shepherd took three of the first four wickets but fell for 77. It was a very good day for 77. It was a very good day for 77. It was a very good day for 77.

Ran into trouble

When play did not start until 10.30, the batsmen were out for 45. Then Don Bradman, a Yorkshire batsman, and captain, Doug Lindsay took 14 in 14 but were out for 14. Lindsay was out for 14 in 14 but was not long delayed, though four failed by five runs were not the innings.

CLOSE OF PLAY

CLOSE of play scores on the 10th day of the County Championship matches in the day on Thursday, which means that the first-tenners were all first and second in the table, Yorkshire leading the Derbyshire side by 18 points—170 to 162—with two games in hand. NEHRU FIRM ON CLAM TO GOA 100,000 crowd hear 'liberation' speech ISSUE TERMED A TEST OF WORLD OPINION

MR. NEHRU, the Indian Prime Minister, declared yesterday that Goa had become a test case for all the nations of the world and their attitude to it would show what they thought of the entire problem of colonialism.

He told a crowd of about 100,000 in New Delhi on the seventh anniversary of Indian independence: "No power dependent on semi-dependent countries for breaking all shackles of domination."
"It is inconceivable," he said, "that any tiny bit of territory on our soil should remain under colonial rule when our vast land has become free. Goa shall be liberated and integrated with free India."

Hint on interference

Mr. Nehru stated that India did not want any other country to help to solve the problem of Goa. "We do not want any country to interfere in Goa. We have now and we will give what attitude the different nations adopt to this and see to Portugal on this matter."

"If the nations of the world give the right advice to Portugal, then this question of Goa will be solved peacefully. But if the wrong advice is given, then surely it will increase tension and conflict."
Mr. Nehru said he hoped the question of French possessions in India would be solved peacefully very soon. Turning to Pakistan, he added: "I have repeatedly said from this very place that we want to live in peace with Pakistan. We are on friendly with Pakistan and we wish the people of Pakistan as our brothers."

PORTUGUESE PROTEST AT CITY MOVEMENT

THE Portuguese Communist Government in Nairobi issued a statement during the weekend taking note of the protesting against the actions of some British subjects in Kenya directed against the national sovereignty of Portugal, Britain's oldest ally. The protest, a copy of which has been sent to the Government, is signed by the names of those responsible for the movement, and is signed to the telegram and the Portuguese Communist Government in Lisbon.

OFFENSIVE TO OLDEST ALLY

The informant reports says that the movement was led by the Communist Party of Kenya and was supported by a small number of British and Portuguese subjects. It was a protest against the actions of some British subjects in Kenya directed against the national sovereignty of Portugal, Britain's oldest ally.

AT CONSULT

The informant further stated that the movement was led by the Communist Party of Kenya and was supported by a small number of British and Portuguese subjects. It was a protest against the actions of some British subjects in Kenya directed against the national sovereignty of Portugal, Britain's oldest ally.

In the meantime, it is believed that the point of view has not been any publication of the Government.

Multi-racial aims praised

THERE is evidence of "strong efforts" being made by local leaders to work towards the formation of a multi-racial States throughout Africa. The Times states: "This impetus is not without setbacks, the most saddening of which is the recent breakdown of negotiations over the advancement of Africa in industry on the Rhodesias covenant," the independent newspaper commented.

"But, to offset this, comes the fact that the Fortunes Rhodesian Government of the 'South' is a success."

Woolly term
These resolutions are at large, partially to obtain advice from Mr. John Moffat, their mover, described to the Council at the end of last month as "a woolly term of partnership between races," which has only been interpreted in an astonishing number of different ways while every individual has been free to say that the word applied when he wished it to mean.

"The resolutions are concerned mainly with the removal of the fear by one race that it may now be in the future be dominated by the other and in his speech, Mr. Moffat firmly rejected such domination and segregation as solutions for Africa."

Common roll
The aim is not of a common roll, but of a separate representation for the races, but it is recognized that this is of the moment an aim only in that in the transitional phase there must be special communal representation for each race within an official Government element, until such time as the Council to head the nation. Mr. Moffat observed during the speech that the aim in 1949 that the Legislature be given the right of a classification policy was necessary but nothing had happened.

Initiative added
It might have added that the passing of these resolutions is a measure of the immense progress which has been made in the setting of the initiative by the local elected leaders. The Times again said:

"It should be noted that the initiative, although they may think that they are not, is not in the hands of a few individuals. Africa has now only those who live in it can ultimately make the fundamental decisions." (Reuter)

Governor at Pakistani garden party

THE Governor of Kenya, Sir Evelyn Baring, attended Lady Mary Baring, attended a garden party given by the Commissioner for Pakistan and the Begum Siddiqi Ali Khan at their Nairobi residence on Saturday to mark Pakistan Day.

These important guests were invited from all communities and the African Daim of the King's African Rifles, judge Commander J. K. Kilian, entertained.

Wife and fur
Lady Mary was wearing a long fox stole with a heavy ermine and fur. Many lovely hats were hidden under coats and Shashi Hat, Hamsid, of Thika, had a bright green Somali shawl draped round his head and shoulders.

The Mayor and Mayress were kept busy all the afternoon—Mrs. Alexander in particular busy with a couple of hat and fur—Mrs. Alexander in particular busy with a couple of hat and fur—Mrs. Alexander in particular busy with a couple of hat and fur.

ATOMIC PEACE PLEA

Aid for 'creative purposes only'

THE World Anglican Congress has called on all nations to use nuclear energy only for peaceful and creative purposes.

In a final report on its two-day session at Minneapolis, the Congress said: "We believe that the world should be free of the atom for the furtherance of its peace. Therefore, it is the duty of the Christian churches to do the utmost to prevent any use of the atom for anything but the peaceful purposes of the world's nuclear energy for the benefit of the creative purposes."

Race relations

The Congress expressed its deep regret over the situation of race relations in the United States, and urged that all nations should do their utmost to prevent any use of the atom for anything but the peaceful purposes of the world's nuclear energy for the benefit of the creative purposes.

AFRICAN COFFEE UNION'S TAX APPEAL REJECTED

Kilimanjaro cesses to stay

THE Tanganyika Government has rejected an appeal from the Kilimanjaro Native Cooperative Union that the local cess paid by members to the Chagga Native Treasury be abolished and the Treasury reimbursed from the proceeds of the coffee export tax. The Treasury is the member of the Union. The appeal was the subject of a letter to the Government from the Kilimanjaro Native Cooperative Union. The Government has rejected the appeal, stating that the local cess is a necessary part of the local economy and that the Treasury is a necessary part of the local economy.

1,000 fewer crimes in Tanganyika

CONVICTIONS ALMOST TREBLED

THIS number of criminal cases filed this year in Tanganyika last year were 1,003 fewer than in 1952, according to the annual report for the Judiciary. It is pleasing to receive this as the first time since 1946 that a decrease had been registered. In 1949, however, the number of offences reported in this country were nearly three times as great as last year.

More civil cases in 1953 were filed against 23,244 persons, compared with 18,536 in 1952. In 1953, compared with 20,236 in 1952, the number of matrimonial cases was 1,877 more. Convictions for petty offences were 187,074 in 1953, compared with 126,799 in 1952, a 45 per cent increase. In 1953, 1,267 persons were convicted for offences against the Government, compared with 873 in 1952, a 45 per cent increase.

EXTRA SCHOOL NEEDED AT ELDAMA
Nakuru Central United District Council is to suggest to the Education Department that extra school facilities are urgently needed in Eldama. The Council was informed by Group P. G. Abama that there were 116 children, aged between five and eight, lacking of Maasai origin in the district. Provision in the Government Primary School at Eldama Primary school, which is an open, could not cater for such a number. The Education Department had indicated that it would have funds to build a school at such a rate before 1956 and Comm. Abama considered that he would like to wait for a year.

TUGS TO TRY GOAN MARCHERS

Subversive activity charges

SECURITY REGULATIONS TIGHTENED IN ENCLAVE

GOAN "volunteers," arrested in the Portuguese settlement on Sunday during the "Union with India" march, are to be tried on charges of illegal entry, territorial violation and subversive activities. This was stated yesterday by Portuguese police authorities in Pangim, Goa.

According to the police, 32 "volunteers" were arrested in Goa and a further 60 were detained on the Indian frontier at Sinesouval and at the Tracol River. Among those in custody is Mr. Anthony De Souza, general secretary of the Goan National Congress, who led a party over the frontier at Polim.

Portuguese authorities were awaiting new developments in the movement for union with India, but none was indicated yesterday. The border area was quiet and no incidents of violence were reported.

Police order to foreigners

Security regulations are being tightened still further. The police commander in Goa, Capt. Fernando Romba, ordered all foreigners to report immediately to their district police. Those with permits were asked to produce them; those without were thought to be immediately. About 3,000 Indians were arrested at the frontier at Polim.

Portuguese authorities were awaiting new developments in the movement for union with India, but none was indicated yesterday. The border area was quiet and no incidents of violence were reported.

Congo rail link to join oceans

ONE LINE ACROSS AFRICA

TRAVEL by train across Central Africa from the Indian Ocean to the Atlantic is soon to be made possible by the completion of a 200-mile track through the Belgian Congo. Only one break, across the Lake Tanganyika, will be necessary in the train journey from Dar es Salaam, on the Indian Ocean, to the Belgian Congo.

Portuguese deep-sea port of Lobito, on the Atlantic, is the terminus of the line. The Congo railway, part of a huge plan to increase transport facilities in the colony, runs through the south-western inland province of Katanga, from Kamina to Kinshasa, and is due to be completed in less than two years.

Aid transport

The link, which would have strategic importance in times of war and could save about 4,000 tons of sea transport round the Cape of Good Hope.

At Kinshasa, the Congo railway crosses the Lake Tanganyika ferry in Kinshasa by rail galleys. At the other terminal, Kamina, the new link joins the line from Fort Francoise to Kinshasa on the coast of the Congo and Portuguese East Africa.

Roads needed

But the chief object of the scheme is to speed up transport facilities in the Congo. It is expected to be completed by 1950.

For the Belgian Congo, which has the largest population in Africa, the completion of the Congo railway will be a major step towards a modern road and rail system.

Jungle problems

A 600-mile railway line in the Atlantic port of Matadi, which links the Katanga mines, through the Belgian Congo to the Indian Ocean, is also vital to the economic life of the Congo. It is expected that good communications are essential to the successful development of the Congo but that economic difficulties have to be overcome.

GOVERNMENT ACCUSED OF 'MUZZLING' KENYA PRESS

MR. HECTOR HUGHES, a Socialist M.P., said in London that British civil liberties were being imperilled by 'ministerial censors' in the Press of Kenya, Dar es Salaam and other vicinities.

Lord Russell welcomed but took as Deputy Editor-At-Large. General when he was asked not to mention a book about the trial of Dr. Joseph Rotich, an American citizen, who was imprisoned by British troops in East Africa.

Mr. Hughes said that the British Government is trying to create precedents along the road towards institutional slavery and the police State.

This present Liberal British Government is making reactionary proposals for a 'press Freedom Bill' which would give the Press of Kenya, Dar es Salaam and other vicinities a free hand in reporting news.

The Government's course that would mean the end of the press freedom in Kenya, Dar es Salaam and other vicinities.

Where Police Check To See If Your House Is Clean

It was snowing hard on that first morning of the Christmas term, as Dick and my husband arrived there to solve in a brilliant splendour... I'm sorry, white tie, gown, and a large and well-cut hat. I was not expected to pour myself into my best ball gown.

The two men chuckled as they struggled into their old and comfortable, but shabby, G.I. suit. He had never felt so discomforted in his life, sultry heat in such a garb at that miserable hour... I'm sorry, white tie, gown, and a large and well-cut hat.

Another day there was a knock on the door and being welcomed as usual, I was asked to see if my house was clean. I was not expected to pour myself into my best ball gown.

White tickets

DURING the afternoon I found myself very busy with my white tickets. I was not expected to pour myself into my best ball gown.

IPANA with WD-9 destroys Enzymes that cause decay and bad breath!

What are ENZYMES?
 Why should you hate them?
 Here are the facts...

Enzymes are found by bacteria found in every part of your mouth. When bacteria eat the food you eat, they produce acid. Enzymes also help produce the most tooth decay.

Dental scientists now say that most tooth decay as well as bad breath may be stopped by destroying the harmful enzymes. That is the important fact in the new IPANA.

And that is why your whole family should use this new IPANA. It contains extra-strength W.D.9.

Mix 1 part
 Rose's (LIME JUICE)

With 4 parts
 H₂O (WATER)

Add a "tinkle"
 of ICE

RESULT

The most refreshing and reviving drink in the world. Rose's instantly refreshes the whole system and satisfies the most persistent thirst. Who can get enough of a bottle of Rose's today, 15 "tinkles" in the bottle. **THAT'S ECONOMY!** You must also try Rose's Orange and Lemon mixtures. They are delicious.

Always building a greater East Africa

Those travelling over the long distances in East Africa soon learn to appreciate the comfort of good hotels and timely refreshments. East African Railways and Harbours excel in providing for the traveller through their extensive catering services. Dining cars are attached to principal passenger trains and dining saloons provided on all lake steamers. The three hotels—two in Tanganyika, one in Uganda—are among the finest in East Africa. Comfortable dak bungalows await the weary at Igi, Voi and Lumbara. Refreshment rooms are open to both passenger and business men at a number of principal stations. At the sound of the familiar xylophone, over 400,000 meals were served to the travelling public in 1935.

The history of East Africa began with the building of the railways and harbours, and the country developed as the railroad spread. Today, despite difficulties and uncertainties, the Railways and Harbours are undertaking many new and important projects. They are building for the future because they are confident that greatness and prosperity lie ahead for East Africa.

PAKISTAN AGAIN SHOW THEIR FIGHTING SPIRIT

POLICE XI DESERVED CUP WIN

PLAYING much more direct and forceful football than has characterized their Double League matches, Kenya Police deservedly beat Command Headquarters XI in their 2nd round F.A. Cup tie at the Services Sports Ground on Sunday. Kenya, who lost the first half but only a minute to rest, went on to win by changing over to winged attack after the interval and scoring two goals by Wainwright and Makenzie. L.S. were a well-beaten side.

Prominent

From the 'kick-off' Command were tried by their own half, besides the Army XI, and prominent to break into the Police attack, who were the Army goal, had few direct shots to connect with, his own back was being collected in a dangerous position, and the back pass, to avoid the ball of Rogers' goal when the goal was in the hands.

Those that the soldiers' spirit was in action until late in the half when he set a scam from W.D. Wallace, the Army forward, and he managed to shoot an excellent ball to the Army goal, but it was not to be.

Two minutes after the interval the Police hit the goal, and the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself.

With the rising spot, the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself.

Go from 32/8 to 164 all out

A CROWD of 20 at the Oval yesterday, fourth day of the last Test, saw another demonstration of the Pakistan cricketers' fighting qualities. They recovered from a second-innings struggle for 65 to 82 for eight wickets to make their final score 164, thus leading England by 167 runs.

The side was carried through by Waiz Muhammad and Zaheer Ahmad. Waiz scored a brilliant, undefeated 62; Zulfiqar his 34 before he was caught by May of Warwick.

A wicket fell in the first over when play resumed. Nutter called upon Prajapati to bowl, but he was caught by the batsman, who was out for a second time. The association between the batsman was to be faster than on former days.

Justified

The move was justified, for Brown allowed a very fast pace and with his fine ball had better bowled a fairly long over, as he had without undisturbance his own weight score, 62 for 34.

Three for nine

With the first over, the over-drove Waiz for the first four of his own side, he made a wicket, and then he made a wicket, and then he made a wicket, and then he made a wicket.

Wicket for two

Statham and Zulfikar could not because their wicket fell. Waiz got the mark after half an hour by putting a goal from Brown for a single and McCann, who threw a finger when stopping a drive from last earlier, eventually set off with Crawley coming on as substitute.

Finger dislocated

Waiz could only turn the ball to the right, and he was caught, though they were to be seen for a while.

Desperate move

With the rising spot, the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself.

The batsmen were now there, and the match was over. The Police hit the goal, and the Army was left to fend for itself. The Police hit the goal, and the Army was left to fend for itself.

John Park wins Muthaiga Golf Club championship

'Standard' Golf Correspondent

FOLLOWS the second time J. Park has won the Muthaiga Golf Club championship, coming through a strong field to take the Scotch final on Sunday against W. C. Duff by two holes, after turning five down in the morning. It was a great display of fighting golf to stage such a come-back.

A great recovery

John Park, who played a lovely round to just beyond the hole, which was on the top side, while Duff was only two holes behind, the latter sank his putt from the green and Duff instead of three only.

Was made favourite

At this stage, Park was made favourite, but it was Duff who knew Duff's game through differently but better than Park.

Will championship

Bill Martin, D.C. of the Muthaiga Golf Club, was the winner of the championship. The match was played on a fine day, and the spectators were very numerous.

LONDON, AUGUST 18

Gold is reported as being in the market for the first time since the outbreak of the war. It is said to be in the hands of the Government and is being offered for sale in small quantities to meet the requirements of the market.

Meeting planned

It is reported that a meeting of the directors of the East African Trading Company will be held on Monday next at 10 o'clock at the offices of the company in the City of London.

Prospects good for Power issue

The prospects for the issue of new shares for the power project are considered to be very bright. It is expected that the issue will be well subscribed and that the proceeds will be used for the construction of the power station.

New tax laws for America

The new tax laws for America, which were passed by the Congress in July, are expected to have a significant effect on the American economy. It is believed that the laws will encourage investment and increase the production of goods.

Britain to show in Jugoslavia

Britain is expected to show its goods in the exhibition in Belgrade, Yugoslavia. It is believed that the exhibition will be a success and that it will help to increase trade between the two countries.

TANGANYIKA RAIL LINK TO MOZAMBIQUE PORT

The completion of the railway link between Tanganyika and Mozambique is expected to have a great effect on the trade of the region. It will allow goods to be transported more easily and cheaply between the two countries.

GOLD SHARES STAGING BIG REVIVAL

Profitable future for mines expected

COLD shares in London are staging a decided revival and are stronger than for a very long time. They are benefiting from general developments and from the fact that South Africa's new gold fields are a whole new field of original expectations of their future. In the first move to present a picture of the revival, the London market is showing a strong tendency to reduce gold mining shares to their former level. This is due to the fact that the price of gold has fallen and the value of the shares has consequently fallen. However, it is expected that the price of gold will rise again and that the value of the shares will also rise.

Wide export competition

Associated with the revival of the gold mining industry is the fact that there is now a wide export competition for gold. This is due to the fact that the price of gold has fallen and that there are now many countries producing gold. This competition is expected to continue for some time to come.

Prospects good for Power issue

ALTHOUGH it is not perhaps a staggering proposition the indications are that the East African Power and Light issue is expected in Nairobi, while the issue is expected to be well subscribed. It is believed that the issue will be a success and that it will help to increase the production of power in the region.

Option value

The option value of the shares is expected to be high. This is due to the fact that the price of the shares is expected to rise and that the option value will therefore be high. It is believed that the option value will be a good indicator of the future price of the shares.

Spy inquiry admission by secretary

TYPED MILITARY INFORMATION

The Royal Commission on Espionage yesterday gave Dr. Ewart, leader of the Labour Opposition in the Australian Parliament, secret document handed over by the former Soviet spy chief, Mr. Vladimir Petrov.

Dr. Ewart's former High Court judge, was appearing in court in London yesterday, when Alan Thomas, secretary of the Royal Commission, named an "outlet of information" in the document as "Lockwood, an Australian" and said that Mr. Ewart had "seen the document" but was not the "source".

Subjected to attacks

On being given access to the document, known in code as "Blue Book", Dr. Ewart said he was "shocked" and "astonished" at the "outrage" of O'Sullivan, who had been "named" by the document as having been "spied" for the British Government.

The document, containing military information, is being held by the Royal Commission in Canberra, Australia. The Commission had previously said the "source" was "not known" but "was most likely to be a British subject".

When Dr. Ewart was given the document, he said: "I am surprised that you named me as 'source' of the document" and said: "I am surprised that you named me as 'source' of the document" and said: "I am surprised that you named me as 'source' of the document".

Some of the prominent students waiting to receive their degrees at the first degree ceremony of Makerere College, Uganda, and one from Tanzania—received degrees at B.A. of Makerere University from Dr. A. F. Lawson, Master of Makerere College and Deputy Vice-Chancellor of London University. Below: Mr. A. Karibaki, a Kenya student, receives his B.A. degree from Dr. Lawson.

Muslim chiefs to meet on pilgrimages

PLANS for a regular meeting of Muslim leaders from all over the world; subject of the pilgrimage to Mecca, an 'important reality', it is announced in Cairo.

The yearly meeting was suggested by the Egyptian Minister of Education, Mr. Bassim, after a visit to Mecca during this year's pilgrimages. Representatives of Arab, Algerian, Indonesian and other Muslim countries are expected to attend.

Official appointed

A report on future plans was made at 12.15 on the Egyptian frontier by Col. Awad El Sedat, who has been appointed temporary secretary-general of the new Islamic conference.

Col. Sedat, returning from Mecca with the Prime Minister, said: "The conference will concern the problems of Muslims of the Arab League which is a traditional Islamic conference".

He said that the idea of an all-Muslim conference had been in existence for some time, but it was only after the Arab League was set up that it was decided to hold it.

Foreign aid cut

The U.S. Senate has passed a Foreign Aid Bill of about £25,740,000, or a 1.2 per cent cut, which will reduce the £271,160,000 that President Eisenhower had requested.

1,000 meet to recall days of the Klondike gold rush

The stirring days of the Klondike gold rush are being recalled in Vancouver this week by men and women who took the trail of '66.

In the city to celebrate the anniversary of the discovery of gold in British Columbia, August 17, 1896, are 1,000 members of the International Roughing Association, holding their 40th annual reunion.

The roughing comes from the name of the legendary discoverer of the gold rush, who is Mike Slocum, an American, who discovered gold in the town of Bonanza, Alaska, in 1896.

Slocum's discovery led to the gold rush of 1896-97, which saw the discovery of gold in the Klondike region of Alaska. Slocum's discovery was the first of many gold discoveries in the Klondike region.

special balladeer on the reunion banquet. Service included the playing of the Klondike March and other music.

One other rougher came, the "Miss of the Klondike," who was Miss of the Klondike in 1897. She was Miss of the Klondike in 1897. She was Miss of the Klondike in 1897.

The president of the International Roughing Association said he was sure that the Klondike gold rush would be a big success. He said that the Klondike gold rush would be a big success.

Anton Husman (left) the Dutch artist with an exhibition of his abstract paintings, held in London. (Our story on this page)

WE have often read and been told of how to save space in the home, of the virtues of the built-in cupboard and of how to "get around" in the small house. For very few people, however, seems to have considered the other aspect of a house—the "large house," and of how to use space.

The house we rent, of the house that we own, or the house that we build, are provided for us in a way that is not always made to measure to suit our present needs, and of taking over in fact we find that the house is time or other, the remark— "I don't like this house."

Forget your favourite layout. Forget the ideas of your favourite chair just where you have always had it. Get away from the idea that things should be done right, and see about enjoying your house.

Let us start with the sitting-room.

The bedroom
PS the beds with the bed in the middle of the room, away from the walls, will be able to fit you with a small bed, one which is not as comfortable as you have been thinking about. What?

ATRACTIV FOR YOU

work created by co-operative workers in schools, hand-drawn or hand-painted, and of a number of objects, such as handkerchiefs, towels, and aprons, made in a technical institution, that is, a school for the training of technical workers, in the town of Rotterdam, in the province of South Holland. The artist, Anton Husman, who is now in London, was born in 1905 in Rotterdam, in the province of South Holland. He studied at the Rotterdam School of Art, where he was a member of the group called "De Opbouw." He has lived in Paris, Brussels, Rome, and London, and is now in London.

Water-lilies grow in flower
Most freely in shallow water, and within the majority of flowers are best moved when in active growth. Consider if you are entering from the side, and May/June is the best time for planting. A few weeks of planting.

Originality
If you have a "drop" in the room, arrange your seating plan so as to avoid the central area being empty. Try to bring the settee so that it is not in the line of the settee. The lack of the settee may be an admirable feature.

Blue water-lilies
OF course there are several varieties of blue water-lilies that can be grown in the garden. It is best to plant them in a pond or a large container. They are best planted in a pond or a large container. They are best planted in a pond or a large container.

NAIROBI AND DISTRICT WEEKEND CRICKET SCORES

Three European batsmen make hard-hit centuries

THE weekend matches involving Nairobi and District cricket clubs were notable for three European batsmen. The Asians have been among the top scorers in the last month or so, having recorded nearly a dozen centuries all told. The best of the day were the opening Crumkams C.P. pair, left-hander John Porter, who hit 152, and right-hander G. L. Lind, both of whom made 100.

Porter, who has been in excellent form, did not get out until he had scored 120, and Lind, who has been in excellent form, did not get out until he had scored 100. Porter's century was the first of his career, and Lind's was the first of his career.

LOW TEMPERATURE WELDING

Low Temperature Welding has many advantages over other forms. Because of the Low Temperature, stress and distortion are avoided, a flatter and better bond is obtained at a lower cost and the bond is obtained at a temperature well below the base melting point. EUTECTIC Low Temperature Welding Alloys are already well known throughout East Africa. If you have never used this form of welding, we will be pleased to advise and assist you.

U.S. FLEET BAR TO INVASION OF FORMOSA President's retort to Red threat

USE OF OTHER FORCES NOT CONSIDERED

EISENHOWER said in Washington that any invasion of the Chinese Nationalist island of Formosa would have to overcome the Seventh Fleet.

The President's retort came in a reply to a statement by a Chinese Communist attack which he said was a "vicious and unprovoked" attack.

He said the fleet is "the main body of the Seventh Fleet and is in a position to meet any such attack."

Mr. Eisenhower also said that the United States does not consider the use of other forces in the event of an invasion of Formosa.

Railways may need another £30,000,000

FORWARD planning suggests that the East African Railways and Harbours Administration may require capital—over and above the £20,500,000 already authorised—of the order of nearly £30 million in the next five or six years.

The present programme provides for new capital works and may include 200,000,000 for territorial losses.

The approved total, the £20,500,000, is divided into £10,000,000 for the United Kingdom and locally, and £10,500,000 for Overseas Foreign Agencies. Any balance of the £20,500,000 will be raised in another £25,000,000 will be required by the year-end 1956-57.

Development plans

The Administration's "A" factor here is the upward growth of the economies. The factor for colonial lands, more particularly for East Africa, is the same.

Belgium are under consideration for development after 1956, which may amount to something of the order of £25,000,000 and for which additional financing would be needed.

Indo-Pakistan issue settlement sought by World Bank

THE World Bank is trying to bring India and Pakistan together in an attempt to solve the dispute over the land in the form of the River Sutlej, which is in the first of the two countries most need water for the winter crop season.

The long-standing dispute came to a head last month when India opposed the Bhakra-Mangal canal system which diverts water from the Sutlej to irrigate millions of acres in Pakistan on the Indian side of the border. Pakistan claims that the diversion has decreased her share of the water and will turn large areas of fertile Pakistan into desert.

During the summer months the Sutlej will turn large areas of fertile Pakistan into desert. The water for the winter crop season is in the form of the River Sutlej, which is in the first of the two countries most need water for the winter crop season.

Studebaker and Packard merger

CHRYSLERS yesterday approved a merger of the Studebaker and Packard motor companies. At the Studebaker Company's annual meeting in Detroit, Michigan, Delaware, U.S.A., on August 15, 1954, it was approved by a favourable vote in Detroit.

When final details have been completed in the merger, Packard's new name will be Studebaker-Packard Corporation with headquarters in Detroit, Michigan, U.S.A., in the next month.

More time sought

India accepted the Bank's recommendation that financial aid for Pakistan should be delayed for three months. The Bank's recommendation was to delay the financial aid for Pakistan for three months.

Meeting proposed

MILNERS document safes

"It will be gratifying to you to know that one of the seven Safes which were in the heart of the fire was of your manufacture and that this Safe alone stood up to the severe test of fire and fall. This Milners Safe contained the most important records of your company, all of which were preserved intact."

Proposition to a Nairobi park plan

RESIDENTS FEAR IT WOULD BRING BUILDING INVESTMENT

A proposal to build a park in the city of Nairobi has met with the opposition of many of the city's residents. The proposal, which was put forward by the Nairobi City Council, is to build a park on a site of 27,000 square feet, which would be used for a variety of purposes, including a playground, a sports ground, and a public building. The proposal has been met with the opposition of many of the city's residents, who fear that the park would bring building investment to the city, which would lead to a rise in the cost of living.

Mr. J. T. Mayer said the land was not suitable for a park, but that it was suitable for a public building. He said that the land was in a residential area, and that the building of a park would lead to a rise in the cost of living.
