**FILIP OF WAR**

Until the outbreak of the Second World War however, local production was not enough to supply Manila and large scale exports, chiefly from Britain, had to be made.

The war gave the textile industry a great boost and led to a rapid expansion of the industry in all her neighbours.

The post-war years she has won a second position in the world as an exporter of cotton.

East Africa has been one of her five most important markets for textiles for some years, with a turnover of 10,000,000 yards a year.

Up till now most of this has been the domain of the 'big boys'—grey shadings, drills, tweeds and so on.

East Africa is beginning to manufacture some of these for itself, and the market is shifting towards better quality fabrics.

Since the promotion of these fabrics there has been a steady increase in the range of goods available for the high-fashion clothes.

**Simplicity the secret**

Some of the Indian fashion shows of the 'Forties' had been by the overseas models. Miss Katy Plaster, top, shown a simple cotton sari with a broad border, while Miss Janet Rutherford, above, wore a simple, draped, white sari. Miss Rutherford, lady manager, wears a simple, white, high-waisted, long-sleeved jacket of black and gold cloth.

**India's comfortable cotton fabrics for you!**

India, having one of the largest textile industries in the world, exports cotton fabrics and made-up goods to nearly seventy overseas markets. The industry in India has made rapid strides in the manufacture of colourful cotton fabrics to cater to the fastidious buyers. To develop this trade and assist India's valued customers overseas, the Cotton Textiles Export Promotion Council works in close co-operation with the manufacturers, exporters and Government of India. Its activities include market research, publicity, inspection service and conciliation in disputes. It brings overseas buyers into contact with Indian suppliers. The services of the Council are always at the disposal of Importing Agents and importers interested in India's cotton pigcooods.

The vast range of quality textiles manufactured by Indian mills include greys, grey and coloured furnishings, poplins, printed dress materials, lawns, cambrics, lenos, mulls, crepes, voiles, coatings, drills, towels, damasks, counterpanes, canvas and many other varieties.

# SHIPOWNERS DEFY U.S. THREAT

THE steering committee of the International Chamber of Shipping has rejected an American proposal that any ship is found carrying arms to Cuba will be considered as an enemy of all United States ports.

At a meeting, the committee said this would not be a precedent for "collective punishment" of crews and flag-owning implications for international shipping.

The two-year term ending in 1967, announced by the United States Government, International Development, Inc., which administers the U.S. foreign assistance programme awarded a \$100,000 contract to the African American Council of New York, for assistance in selection and placement plus maintaining the students.

The Council is a primary interest in African education. The State University of New York and the California Association of Junior Colleges together with the American Association of University Women have provided two-year scholarships and summer tuition costs.

The Kenya Government is underwriting the foreign travel costs for the participants in the programme. Besides the large number of Kenyan students, the programme also establishes an overseas scholarship fund on which the students are to draw when they make the selection.

The students are to be selected, the Government said, on the basis of their academic achievement. They are looked upon to help fill the so-called "middle level" jobs - between the unskilled and professional categories, where most new and developing countries face the severest lack of qualified personnel.

During their United States study on the Kenya side are concentrating on the areas of agriculture, management and production, accounting, and technical education, and mechanical technology.

The said the corporation also was expected to export to Western Europe for a total of approximately 100,000 cars, the chairman of the British Motor Corporation, Mr. O. Harriman, said in a speech to the House of Commons.

The corporation's sales in Western Europe rose the first six months of the year, increased by 31 per cent over the similar period of last year. It also has also increased in Commonwealth countries.

## DUKE TO OPEN TV CENTRE

WITHIN an hour of landing at Nairobi Airport tonight, Duke of Kent will perform official opening ceremony of the Kenya Television Centre (KTC).

The centre has been designed to form a complete unit with the earlier sound studio and is expected to be ready for concrete possession.

The royal visitors are due to arrive at Nairobi Airport from London at 6 pm and between them and the opening of the KTC will be a brief visit to the City Hall to sign the KTC's charter. They will then move to the Television Centre at 7.45. The Duke and Duchess will leave again for Nairobi Airport and will be accompanied on their way to Britain - after a visit to Kenya lasting only 21 hours.

## Check-off system for union dues

THE check-off system of deducting union dues from a member's salary will apply to junior civil servants who are members of the Tanganyika Union of Public Employees from November.

Union members who consent to the deduction being made each month will have to sign a declaration giving the necessary authority for their identity. The member notified will be paid to the union bookkeepers.

## Lawful business

In fact, the collective responsibility of the I.C.S. was to do so and involve the Government, the Government's association of lawyers and the I.C.S. itself against the practical effect of contractual terms in force in present circumstances.

Manville, De Cuba Armed Forces Ministry, and others of that United States police force, respectively, the "city" over three merchant ships.

## WORKING WEEK INCREASED

THE Top Cabinet has raised the legal working week to 40 hours, the Government announced. An official communique said the Government should be viewed as an aggressive measure, but a sign of the Government's desire to aid national construction with the only available resource manpower.

Under independence, the communique said, trade unions aimed at slowing the national administrative machinery and hindering production increases. But with independence, "corporates" can only damage themselves and block our progress.

# M.C.C. AGAIN!

## But cricket sparkles for gold-miners

By LESLIE SIMS, *Specialized Sport Correspondent*

M.C.C. does their counting 100 days in advance. A victory Australian Government XI by 100 runs, M.C.C. yesterday, but sparkling letters by the touring team made it anything but a dull day's cricket for the watching gold-miners.

There has not been a very formal dinner since a draw after the home side had taken 200 runs to make 212 in reply to M.C.C.'s first-innings 207 for four declared to the M.C.C. captain, Tom Brasher, ordered his batsmen to keep the crowd entertained until the close when they went to again.

Under a kindly captain for only three after coming the night, but Harry Hooper, Freddie Trueman, and the other batsmen were superbly racing. When Tom Brasher, M.C.C. had substituted 31 for eight.

The batsmen, Murray, and the fast bowler, Trueman, set to bat first. Tom was able to knock for the M.C.C. cricket captain, Tom Brasher, Murray and Stappard, who went in at No. 8, put down some excellent runs to give the M.C.C. batsmen Murray was out and Stappard 25, and the first-innings 128 in reply.

Murray has only twice hit a century in a first-class match. Yesterday's innings, however, was his career figure, as it was his 1,000th run, but it was also a record for a batsman who has made his first-innings 100 runs in only 112 matches and has 200 boundaries with two ducks out of 10 runs.

The captain of the match made a century, but it was not a record, but it was a record for a batsman who has made his first-innings 100 runs in only 112 matches and has 200 boundaries with two ducks out of 10 runs.

# INDICULOUS BRIBERY ALLEGATIONS

WHILE a highly speculative rise in the price of tin has been reported, the London market has been quiet. The tin price has risen from 100 to 110 in the last few days. This is due to the fact that the tin market has been very active in the last few days.

These trade unions have been very active in the last few days. They have been demanding higher wages and better conditions of work. This has led to a number of strikes in the last few days. The most notable of these has been the strike of the dockworkers in London.

By the good will of all those who are interested in the welfare of the Indian people, we should be able to bring about a more stable and prosperous India. We are confident that this can be achieved if we only have the will and the determination to do so.

## WORKERS WILL BENEFIT BY EFFICIENCY

INCREASED efficiency in business would bring not only better returns for employers and shareholders, but improved conditions for the workers, the president of the Federation of Kenya Employers, Sir Colin Campbell, said ...

He was launching the first of a series of courses for management officials organized by the Federation's Board of Management ...

Between 200 and 250 applications to attend the courses have been received and there was a "capacity" audience of more than 500 delegates at Sir Colin's address ...

Mr. Kipkor and delegates that it would be well worth the cost if management officials could give up the long run if it helped to maximize profits and minimize losses ...

"Whether we like it or not, a series of fundamental changes is required compared with those of some ten years ago," the Board said ...

Mr. Collins said it was unwise for anyone to imagine that the Government would take a theoretical narrow view in considering such proposals ...

"We are living in a country where fundamentally there is a very much more industry and commerce than the Government will have great difficulty in meeting the wage aspirations of their own employees," he said ...

Indian troops pulled back to new defensive positions along the Himalayan front as Chinese troops swarmed into the attack for the second day of bitter border fighting.

Mr. V. V. Krishna Rao, the Defence Minister, said that in the North-East Frontier Agency (NEFA) the defence of one Indian post was "more or less wiped out" on Saturday. There were heavy losses on both sides, he said, but India would continue to resist despite her reverses.

In Feking, Northern Kashmir, the main Indian post had been reinforced, but Chinese, supported by mountain guns and heavy mortars, had started to dig out the Indian units.

Mr. Menon said he had not yet started. They (the Chinese) had been preparing for a long time.

Chinese troops on Saturday started and captured two Indian outposts in fierce fighting in the border area. They forced Indian troops to withdraw from two other outposts.

The outposts which fell are Dula Dala, Chitromoan, and Al. The latter, the Defence Ministry said, Indian troops fought to the last round.

# Short-lived ceasefire in Katanga

FIGHTING HAS broken out again in North Katanga—where a ceasefire between Congolese Central Government troops and Katanga secessionists was signed on Tuesday.

The Katanga Foreign Minister, Mr. Kimba, said in a statement published yesterday that two Katangese officials helping to search for a missing United Nations aircraft had been killed by Central Government troops.

In a letter addressed to the U.N. Congo staff, Mr. Robert Garimber, and remained in Kisumu. Mr. Kimba said that Mr. Garimber had delivered to the U.N. a copy of the letter which he had written to the United Nations staff. It stated that the two Katangese officials had been killed by Central Government troops positioned along the Katanga frontier.

The letter said Mr. Garimber had been shot in the chest by Central Government troops. It added that a justification is being sought for the Central Government's action against Katanga.

Mr. Kimba said that the trilateral observation group called for by the ceasefire agreement had started their work immediately in the Congo. He said he has not yet been able to pick "the necessary checks and controls".

### Urgent mission

"On the contrary, you have chosen the moment when Mr. Adéma, the Prime Minister of Congo, is in the country. His attitude has made it impossible for the trilateral group to function, to restore Katanga and make offensive moves. Mr. Kimba said.

He added that Katanga wanted a ceasefire that would not put out the fire. He said he would not take any step which would lead to a complete self-government for Katanga and an end to federation with Rhodesia.

# Short-lived ceasefire in Katanga

FIGHTING HAS broken out again in North Katanga—where a ceasefire between Congolese Central Government troops and Katanga secessionists was signed on Tuesday.

The Katanga Foreign Minister, Mr. Kimba, said in a statement published yesterday that two Katangese officials helping to search for a missing United Nations aircraft had been killed by Central Government troops.

In a letter addressed to the U.N. Congo staff, Mr. Robert Garimber, and remained in Kisumu. Mr. Kimba said that Mr. Garimber had delivered to the U.N. a copy of the letter which he had written to the United Nations staff. It stated that the two Katangese officials had been killed by Central Government troops positioned along the Katanga frontier.

The letter said Mr. Garimber had been shot in the chest by Central Government troops. It added that a justification is being sought for the Central Government's action against Katanga.

Mr. Kimba said that the trilateral observation group called for by the ceasefire agreement had started their work immediately in the Congo. He said he has not yet been able to pick "the necessary checks and controls".

### Urgent mission

"On the contrary, you have chosen the moment when Mr. Adéma, the Prime Minister of Congo, is in the country. His attitude has made it impossible for the trilateral group to function, to restore Katanga and make offensive moves. Mr. Kimba said.

He added that Katanga wanted a ceasefire that would not put out the fire. He said he would not take any step which would lead to a complete self-government for Katanga and an end to federation with Rhodesia.

**Post out of contact**

There had been no contact since Saturday with an Indian post in the Galwan Valley, which lies roughly between the Chip Chap River and Pangong Lake, hundred miles west of Dhol.

He said the Government would not give up any inch of Indian territory to any foreign power.

# NO TOURISTS UNLESS THE ROADS ARE IMPROVED

MAY I venture to suggest to the Minister for Tourist Affairs something to deter immediately the tourists in Kenya, the most important source of foreign exchange for this country? There will be no tourists unless the roads are improved.

I am sure that the roads will be improved in the next few years and I am glad to see that the Government is now taking steps to improve them.

Brian Statham paved the way to victory by a fine spell with the new ball in which he took a wicket in each of the first three overs. Barely bowing a loose ball, and always remaining in command seven wickets for 70 runs in the manner of an inviolable fortress.

## Not a shred of proof on arms allegations

There is not a shred of evidence to support allegations concerning Government armaments, Temporary Minister for Defence, Mr. Elerton, has told the Kenya general assembly.

In a written reply to a letter from Mr. Mboya, who accused the Government of "through investigation" into the allegations, Mr. Elerton says that the committee which had the evidence in support of them is sufficient proof to all those really concerned with the truth that the charges are false and are calculated only to advance the cause of subversion.

Not a single person had come forward to make a statement regarding Government armaments, Mr. Elerton said. With regard to the allegations, Mr. Elerton says that the committee which had the evidence in support of them is sufficient proof to all those really concerned with the truth that the charges are false and are calculated only to advance the cause of subversion.

# Mercedes takes pounding in fight of car

**DICK TIGER**, importer of British Mercedes cars, has attacked the holder, Gene Fulmer, World Race Association, a victim of the world middle-class class.

Tiger pointed out a unanimous points decision, Fulmer suffering cuts over both eyes. The bruising 11-round battle lived up to its advance billing as "the fight of the year", with both boxers providing plenty of action.

"Now I'm champion, I beat Fulmer champion," and Tiger. "It was a good fight," Fulmer's coach says. "My main ambition is to make good use of the title like other good champions. I'm a fighter here but over Fulmer's decision I was ready to fight him."

Tiger is not a much shorter person than the 21-year-old American.

Both scored from a jab and a right hand to the body, and Tiger opened another jab over his right eye in the third.

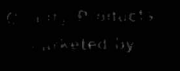

Fulmer landed the cut over his left eye came from a bait, but offered no recourse.

Fulmer's corner patched up the cuts fairly well though the bleeding continued intermittently for the rest of the fight.

Mersey through the best Fulmer's handlers evidently had him to stay more in line range. But Tiger, who has no boxing experience, was a good fighter. Tiger's manager, Jim Jones, said after the fight, "The only loss he suffered is a few minutes of his time in the ring."

# MARAGOLI HEAD FOR No. 2

**MARAGOLI** winners of the Allain Cup last Saturday kept their hopes alive of clinching yet another title when they entered the final of the Kenya A. Cup by beating Binyera 3-0 in a replayed semi-final at the Doornbos Road Stadium, Nairobi, last night. In their first encounter the two teams had shared a goal.

Binyera, the better of the two sides, was a blunk first half but they were kept from scoring by their own goalkeeper, who kept their half-back, James Mwangi, out of the game.

A beautiful pass by the left-winger, Simon Chawala, was crowned when the inside-left, H. Lushaka, gave Maragoli the lead. The captain, who consolidated the position, then was converted.

Maragoli was then pressed and it was not surprising when Binyera scored a consolation goal.

Maragoli met the winner of Nakuru's Liverpool (Mombasa) in the final.

**R.A.F. LAND DOUBLE**

# Uganda stage, bank rev

THE first stages of a bank re-structure in Uganda are being completed in the capital, Kampala.

Commercial banks in the country are being re-organized under a new scheme which will result in the formation of a central bank and several specialized banks.

The re-organization is being carried out under the supervision of the British Government, which has provided the necessary funds for the scheme.

The new banks are expected to be operational by the end of the year.

With the narrow range of the dollar, it is not surprising that the country should be in a position to import goods from the United States.

The new banks are expected to be operational by the end of the year.

The re-organization is being carried out under the supervision of the British Government, which has provided the necessary funds for the scheme.
