Communists are rounded up

A new appeal to India to reopen negotiations on their humiliating conditions such as forced on a vanquished party. He urged that neither side should "assume the attitude of a victor, no matter how the clashes may develop".

India agreed to China's proposals, he said, officials management and control, and the two Prime Ministers could then talk to work a friendly solution to the border question.

India has made it clear that she will not negotiate unless the Chinese retreat to the positions they held on September 8, 1950. On the other hand, he proposed that each side should withdraw 12 miles from the line of control as it existed hastily on November 7, 1950.

Detention without trial

This line, Mr. Chou said, generally coincided with the McMahon line in the eastern sector, while in the western and middle sectors it coincided with the main line as pointed out by China.

Public Health

I REFER to the letter from the chairman of the Nakuru County Council. While I feel distressed that the County Council Health authorities should accept the National Medical Officer's Health Certificate as a Secretary, the fact remains that the County Council Health authorities are not travelling many miles to the Nakuru Hospital, and for the sake of a few patients, come from outside the County Council area to a woman in labour, when County Councils are asked to contribute to this in their people, we expect to get no answer or the answer is "Just too bad for the patient."

Abstract art

IN the Saturday Evening Star, the "Abstract" is quoted as saying that the African artist is an original, and that he is not waiting for an original idea. The speaker then said: "He is not waiting for an original idea, he is an Academy of Art and the Director of the Serengeti Gallery." She, this century already has such an Academy. The Department of Art at the Royal College, Nairobi, has existed since the Royal Technical College was established in 1926 and I may say that some very impressive work has been done in the past few years. I would like to see the Minister for Education and the Director of the Saturday Evening to look over the Department.

Later in the essay there is reference to a group of statues by Mr. Fort in the grounds of the Royal College, from which it could be inferred that the artist is a member of the scientific staff. It should be pointed out that Mr. Fort is not connected with the Department of Art.

Aid for India

WHILE I sympathise very much with what has been done in India, it is surprising how hypocritical people who I refer to in the campaign to collect money for India. How can these people, who always claim that they are Kenyans, think of sending money out of Kenya when they are fully aware of the fact that Kenya is in a very bad way financially? This amount, small as it may appear, is required very badly, every bit of it, in this time of trouble. I cannot say how many years, which God forbid, are left before the Government is sending away Kenya's money for the sake of £2,000 a month. It will be the effort people who are not Kenyans still consider themselves citizens here, with

SOUTH AFRICAN AIRWAYS INTERNATIONAL FLIGHT PERSONNEL

The crew on any South African Airways flight to Europe and London represents years of training on equipment worth a million rand.

Every one of the 40 Captains who fly S.A.A.'s International Service has at least 25,000 hours flying time in his cockpit. Many have 15,000 hours or more.

But none of them is allowed to rest on his laurels. Every six months he must go through a technical refresher course, and an instrument rating check on an simulated Boeing flight deck at Jan Smuts Airport. This essential piece of equipment cost South African Airways a million of 2,000,000.

OUR OWN RADIO STATION
 The Boeing Commander is continuously in touch with the ground by radio. In addition, South African Airways' own radio station - **SAUR** - is in constant contact with the ground. It is used for the routing for up-to-the-minute information on landings and take-offs at any airport on route.

FLIGHT MAKES PERFECT
 The Flight Traffic Officer plays much the same role as the Tower on board ship. Speak to him if you want assistance with bookings or the requirements of your schedule.

Stewardess and Steward are chosen for their experience and personality. All have had thorough initial training, followed by a period of service on S.A.A.'s internal and regional routes.

Before transferring to the Boeing, they go through a further course in a replica of the giant Boeing cabin, complete with its two kitchens.

Stewardess have to be between 21 and 35; Stewards must be between 21 and 30 years of age.

He believed Chinese would stand by all previous commitments that could not say anything about new ones.

He stressed the Khasi Sahas (Upper House). Mr. Nehru urged the Government to speed up the supply of arms to the Chinese. He said that the Government's determination to drive China down from the northern frontiers of India was the basis of its foreign policy.

CONGRESS ON CONSTITUTION

Kenya draft 'largest colonial history'

STANDARD STAFF REPORTER LONDON

Kenya's new Constitution, appearing before the earliest possible publication date.

This is the outcome of a week's contacts between the Commonwealth and Colonial Secretary, Mr. Sandya, Colonial Office official and the Governor of Kenya, Sir Patrick Renshaw.

Desiring to extend the completion of arrangements for voting in the various elections and the fact that the East African territorial elections have to be completed at the Kenya General Elections to now seen as next June or early July.

Working over since visit

Yesterday, a ministerial source described the new Constitution as "perhaps the largest and most complicated ever devised in colonial history."

Mr. Renshaw, the Colonial Office legal draftsman who visited Kenya some months ago, has been busily at work on the constitutional documents ever since his return to London. It is believed that in the final draft the Constitution will run into more than 100 pages.

The draft Constitution will be able to report until the end of the year. The Committee will make a second visit to Kenya until the beginning of next month.

The terms of the proposed Constitution are not completely settled, but it is expected that the situation in Kenya will be settled by the end of the year.

Physical effort

The ministerial source described as "likely to be a very physical effort of work."

Mr. Renshaw and Sir Patrick Renshaw are expected to visit Kenya in the next few weeks to discuss the proposed Constitution.

It is certainly not my impression that it is a very physical effort of work, but it is a very important one.

IF present satisfactory building progress was maintained, Nakuru's new £40,000 prison camp to replace the existing mid-wall one would be ready sooner than expected, the Prison Commissioner, Mr. J. A. Allan, said after a site inspection.

The new prison is situated on a 45-acre site on the slopes of Menengai Crater overlooking the municipality, two miles from the town. Construction work is being carried out by prisoners who are working on the site.

TO RESTORE YOUR ENGINE'S POWER

Keep your car from being damaged!

Engine performance falls off so very gradually that you may not notice—but you're wasting both power and petrol.

Final essential for peak performance is a good hot spark. Burn at 30 m.p.h. your engine loses about 4,000 times a minute—with furnace heat and violent pressure on the spark plug. No wonder even the finest plugs—Champions—wear out so fast.

To have your plug checked, cleaned, and the gap reset, at 1,000 miles. And at 10,000 miles, fit a new set of Champions. That's how to get:

- A new surge of power
- Instant starting
- Fuel economy that soon repays the cost

IT PAYS TO FIT NEW

SPARK PLUGS EVERY 10,000 MILES

More next Budget

Mr. Keayata, hinted yesterday that his party might leave Government unless the elections were held before the end of the year.

The possibility was mentioned in a cable to the Government of Kenya, Sir Patrick Minton, who is now in London for talks with the Commonwealth and Colonial Secretary, Mr. Sandys.

Concern over delay

In another cable to Mr. Keayata warned of grave dangers over any undue delay especially as regards unemployment, efforts at economic recovery, internal security and general political stability.

Both telegrams point out that Kenya is disturbed over reports that the elections will not be held until next June or July.

A spokesman at the Ministry of Finance said yesterday that negotiations were still going on with the Governments of Tanganyika and Uganda on the date for next year's Budget. These two Governments have been contacted and notified that Kenya had in mind the present year's Budget would not disclose what this year's Budget would be.

Kenya's general secretary, Mr. J. M. Mwangi, returned in a letter to Mr. Keayata yesterday that Kenya would consider quitting the Commonwealth if the elections were not held by the end of the year.

Too busy

"It would be for the Secretary of State to make a decision as to whether or not the Government should be asked to take any steps to facilitate the holding of the elections, and if so, what steps should be taken."

Mr. Mwangi also pointed out that the setting-up of the Central Land Board, which was proposed in the Kenya Bill, is a matter which is being considered in the next session of the Parliament, and would have an effect on land settlement schemes.

Timing upset

It would be unrealistic to hope that the Kenya Bill would be passed in the next session of the Parliament, and would have an effect on land settlement schemes.

A Government statement regarding the vast areas of the country registered had been... in the numbers of Europeans and who are registering.

Monday night a total of 86,000 people had registered in Nairobi for the Lower House, of whom over 50 per cent of them were given the franchise for all the above classes of electoral rolls.

An Independent and three Kadu-sponsored Members of the Legislative Council have circulated a leaflet calling upon Europeans and Asians to register. They say only about three per cent of the potential non-African voters are registered. If resident Asians and Europeans were to register, they would amount to 50 per cent of the Nairobi electorate.

Magic Scramble but no result DEXTER SETS TARGET

After one session on the first three days of the match at Melbourne between an Australian XI and the M.C.C. there was a hectic scramble on the final day yesterday as an effort to bring about a result. But the game was drawn.

Ted Dexter, the touring team's captain, could have enforced the following-on after dismissing the Australians for 451 to gain a first innings lead of 182.

The home side would have had little option but to play for a draw, and it would have been asking too much of the M.C.C. bowlers to dismiss Dexter again on a still perfect pitch in 4th.

To bring some interest to an otherwise pointless last stage, M.C.C. battled a second time for 20th in 100min.—five wickets for 80. This set a target of 231 in 100min.—by no means an unreasonable task.

SCOREBOARD

1st Innings

Australia	451
M.C.C.	169

2nd Innings

Australia	100
M.C.C.	80

FELL BEHIND THE CLOCK

Dexter hoped that in chasing the runs, the Australians would sacrifice wickets and give his side just a possible chance of victory.

The early batting made an effort to score fast, but three wickets fell for 61, and the Australians fell steadily behind the clock. At the close they were 294 for four — 29 behind the clock. At 61, and by Barry Sheppard (91 runs short) and Ian McLachlan (68) when runs were easy to get.

It is a debatable point whether Dexter should have taken the opportunity to give the bowlers serious practice or let them and himself just turn an arm over, which was being clearly impossible.

M.C.C. pay rare visit

M.C.C. pay the first of their one-day matches when they meet New South Wales at a Glamis hotel.

M.C.C. have altogether five matches against New South Wales teams against New South Wales country sides in various areas. These will meet different players over time.

It is a rare for touring side to play in a Glamis hotel and first-class dining.

Though Brian Statham and Freddie Trueman are staying together for the first time on the tour, they are not expected to bowl that day.

Officially consider cables

Mr. KENYATTA's cables to the Colonial Secretary and the Governor of Kenya threatening a boycott of the Government are "being considered" at the Colonial Office, it was all that officials would say yesterday.

The cables, which were received in London at precisely the same time as the cables from the Kenya Government, are being considered at this level in the current process.

The spirit most of Tuesday afternoon with the chiefs of staff. This was the first time that the cables had been raised at this level in the current process.

Under the new Constitution, the Government retains responsibility for defence.

Yesterday the Governor was Mr. Sandys said that this meeting was described as of a more personal character.

The Governor still hopes to leave for Nairobi in the next day.

This is a typical scene as India and China fight out their undeclared war on the "roof of the world". Indian troops are seen on patrol in a forward area near Pangong Lake in Ladakh, where there has been some fierce fighting.

The King president, Mr. Khrushchev, was yesterday presented with a copy of the Koran—a gift from President Nasser of the United Arab Republic. On the right, the representative of World Muslim Congress in East Africa, Sheikh Yusuf Mandiri, is seen holding over the gift. He also disclosed that the Egyptian Supreme Council of Islamic Affairs has conferred the title of Sheikh on Mr. Khrushchev.

A winner all the way. Even at this early stage I'll wager that it will qualify as one of the top British pictures of the year.

You will be shocked by this ...

I have just seen a remarkable film. It moved me, it astounded me, sometimes it shocked me. But I could not take my eyes from the screen.

Transcendently effective and affecting.

REYNOLDS NEWS

The fierce frustration of young love tormentingly revealed. A deadly accurate piece of eavesdropping on life. Brilliantly told, beautifully directed and magnificently acted. Touching, shocking, daring, beautifully directed.

It drives with daring frankness to the heart of many situations I've never seen screened before.

BATTLE RAGING ON FRONTIER Adjustment of E.A. pay scales urged

Biggest clash yet in Sino-Indian war

The forward slopes of a Chinese position in the North-East Frontier are the 'biggest action' there so far, a Ministry spokesman in New Delhi reported yesterday.

A fierce battle was still raging in the area north and west of Wanglo, following a massive Chinese counter attack launched early yesterday, the spokesman added.

Indian troops launched a big attack in the same region, at the extreme Eastern end of the North-East Frontier, on Thursday. Asked if the Chinese had recovered any far, the spokesman replied: "Not when the last report came in."

Guinea to press for uhuru date

GUINEA announced yesterday that the world's greatest United Nations General Assembly will decide October 17 next on the date for which all colonial territories must be granted independence.

The date on the 17th anniversary of the signing of the world's first 'independence' was suggested last month by Guinea's President, Sir Sékou Touré.

The Guinea delegate, Sir Diégo Tella, told the Assembly, Government would press for a 'uhuru' date to be fixed by the United Nations General Assembly.

Mr. Tella said that the Assembly should not be satisfied until it has heard from all colonial territories and that the date should be fixed by a majority vote.

DR. FIDEL CASTRO

A REUCTION in the higher end of salaries in East Africa, a statement issued yesterday by the Labour Ministers of Tanganyika, Kenya and Zanzibar says.

The ministers followed a conference of Labour Ministers, employers' representatives and workers leaders in Dar es Salaam. The conference decided that higher wages must be justified by higher productivity and agreed that in the future there should be a smaller but a more stable labour force.

A note accompanying the statement said that the adjustment of pay which might result in inflation. At the same time, however, there would have to be a corresponding reduction in the cost of living.

The ministers also agreed that Government intervention should be limited to a minimum but that this should be done by the establishment of a commission to study the situation and to make recommendations.

There should be no distinction in industrial relations between employees. On the question of industrial relations, the ministers agreed that Government intervention should be limited to a minimum but that this should be done by the establishment of a commission to study the situation and to make recommendations.

Pierce fighting China admits

Indian troops had managed to occupy the forward slopes of a Chinese position in the North-East Frontier, but had afterwards been driven back, the Ministry spokesman in New Delhi reported yesterday.

Professor Changabhai has reported in the Wanglo area for more than a fortnight. Yesterday, even the office of the New China news agency, which has been under playing the claim that about 1,000 Indian troops had launched repeated attacks on Thursday and that "Pierce" had been driven back.

The spokesman added that the Indian troops had managed to occupy the forward slopes of a Chinese position in the North-East Frontier, but had afterwards been driven back, the Ministry spokesman in New Delhi reported yesterday.

Sir Patrick Sandys to leave task unfinished

Sir Patrick Sandys has resigned as Governor of Kenya, the Colonial Office announced yesterday. He will be succeeded by Mr. Malcolm MacDonald, a former High Commissioner in India, Commonwealth Minister in South-East Asia and former Irish Colonial Secretary.

From ANGLA RAPHAELE, Standard Staff Reporter, LONDON.

The appointment of Mr. MacDonald, Standard Staff Reporter, will be no way jeopardizing the careful preparation of the new Constitution, it is felt in London officials circles. But it is believed that after the usual period of the General Election and indications will be shorter than most expected.

It is in the interim period that Mr. MacDonald's skill in handling political and Colonial Secretary, Mr. Sandys, wanted to resign, but the Government, by appointing a new Governor, Mr. MacDonald, with his former liberal views, would have been the last person chosen.

Indeed, by switching Governors the Colonial Office hopes to forestall Mr. Kenyatta's threat to withdraw Kaniu Ministers from the Government. Meanwhile, Sir Patrick, although at first thought, he is unlikely to go into retirement. It is thought that he will take a commercial appointment for a man of his experience.

'Hide and seek' with Press

Sir Patrick played hide and seek yesterday with reporters anxious for a personal account of his resignation. Such callers at the London flat became so numerous that Sandys had to close his door and go to the entrance and go down a back door and the reporters.

While the Government declined to meet the Press he is being denied an opportunity to see Kenya's members who would support the Government.

Ironically, the first round of talks at the Colonial Office was the most successful. Both the Governor and the Kenya Ministers for Legal Affairs, Mr. Webb, got through on the new Constitution.

CHINESE troops have captured the key North-South communication routes in the area of the town of Yunnan, giving them immediate control over the strategic routes in the area.

Britain fears E.A. rejection of 'Six' link

STANDARD STAFF REPORTER LONDON

Official spokesmen in London were today reported to be concerned that East Kenya and Uganda will follow Tanganyika's lead in rejecting associate status with the commonwealth.

Nevertheless, it is hoped that before taking an irreversible decision on the implications of refusing associate status, a good deal of deep thought will be given during the Commonwealth Prime Ministers' meeting before East Africa and other delegations meet in Brussels.

It is felt that to make the decision in favour of associate status would be a serious step, but that such a step would not be taken without careful consideration.

"VITAMINS ESSENTIAL"

See Cambridge School of Anatomy Students

As he writes in the British Medical Journal (June 1, 1956), p. 1282: "Director of the Cambridge School of Anatomy says: '...vitamins are perhaps the most important factors, and when they are present in our diet we die...'"

Science shows that, due to biochemical advances in medical knowledge, people may now expect to live much longer than their grandfathers did. Medicine has learned how to fight infection, but we need the help of modern sciences in order to keep life the full.

Every vitamin is self-dependent—especially after age 30.

After age 30 we become more prone to acute ailments, especially when stress and strain are combined. It is a particularly important fact that our bodies weaken. A specified amount of vitamins is essential to keep us healthy in general.

The only reliable way to get the vitamins you need is to take a complete vitamin supplement.

Chinese near plains after fierce battle

A NEW THROUGH ROUTE

Governor looks forward to work

Mr. MacDonald, Mr. Malcolm Macdonald, said yesterday he was expected to arrive in Kenya early in January. He admitted he had never visited the Colony, but was 'looking forward to it enthusiastically.'

Mr. MacDonald was speaking at Jersington from Sarakwak where he spent four days in the past week, and interacted with Dyak friends.

Known for some time

Among his luggage was a larger than man-size blow-fly which was presented to him in Sarakwak.

Mr. MacDonald said yesterday he would return and intended to keep his promise despite his new job.

He returned to his appointment in Kenya, but said that he had been informed by some of his political friends.

The Governor-designate said that the appointment was not a surprise to him. He declined to give his opinion on the situation in Kenya and in Africa generally.

"It would be quite improper for me to say anything," he added.

He did not know Mr. Kenyatta, Mr. Mboya or other African leaders in Kenya.

Mr. MacDonald said that he would visit a couple of South-East African countries and bring back reports in mid-December.

MINISTER DENIES REPORTS

Mr. MacDonald, Minister of Education, said yesterday that the reports of a change in the Kenya Government were unfounded.

He said that the reports were based on a misunderstanding of his statement.

Mr. MacDonald said that he was not planning to resign and that the Government would remain unchanged.
