A new anti-Jewish drive has begun in Germany, according to the interpretation placed by Zionists on weekend events in the Reich, where official and unofficial attacks against Jews have taken place.

The Minister of the Interior has forbidden legislation depriving all children of Jewish parents of their German nationality. The new law, he said, must see to it that Jews were no longer able to acquire German nationality in any way.

There were violent demonstrations against Jews here on Friday. In the street in the east end Jews were being attacked and their shops were being damaged and looted. The police had to use force to restore order.

**NONDESCRIPTS, PLAYING A MAN SHORT (EVELLIER) THEIR CAPTAIN MOST OF THE GAME, BEAT NAUKU 18 POINTS TO 10. AFTER A 20-0 HALF-TIME LEAD, ELDRET, IN THE SECOND SEMI-FINAL, DEFEATED NORTHERN PROVINCE OF TANGANYIKA BY 20 POINTS TO 4.**

Both matches were first-rate, particularly the first of the ties, and the crowd certainly had full value with some fast, keen and clever Rugby football.

Some good, and at times, thrilling rugby football was provided in the second tie of the Enterprise Rugby Football Cup, when Nondescripts, playing a man short, defeated Northern Province 18 points to 10. As the first tie of the Nondescripts proved fourteen men short and the game, however being built and removed to hospital. Even so, their quick and accurate passing and kicking, was too good for the Nondescripts, whose first three-quarter was really not the support they hoped for.

# JUICE

## FROM THE TOP OF THE TOMATO CROP

Some tomato juice is good part of the time—but only Heinz Tomato Juice is good all the time! That's because only Heinz has access to the world's finest tomatoes, cultured, grown and harvested under Heinz supervision. From the very top of the tomato crop, we pick the best at their richest time—full of essential vitamins and rich them to kitchens where the juice is pressed and sealed in a few hours. That's why Heinz Tomato Juice is uniformly better—the same high quality always. Buy several tins today. Drink it regularly and always neat to preserve every bit of the delicate tomato flavor.

PREMIER AGAIN DEFENDS HIS FOREIGN POLICY

Reply To Labour Critics In Commons

The difficulties of obtaining international agreement were stressed by the Prime Minister, Mr. Neville Chamberlain, when he defended the British Government's foreign policy of common opposition yesterday by Mr. Noel Baker.

The Premier declared that general agreement on international law depended on the general atmosphere, and the Government were working to improve this, so as to have a better chance of agreement.

Mr. Baker declared that British inaction had led General Franco and he allies to conclude that anything would be permitted, but Mr. Baker still thought that firm action would be wise.

KING GEORGE WITH HOME FLEET

Sees Target Practice Against Radio-Controlled Craft

His Majesty King George VI spent today and yesterday with the Home Fleet at and off Weymouth when he saw the fleet in exercises, target practice and a review. Accompanied by the Duke of Kent as personal Aide de Camp, His Majesty saw the close guarded secrets of the newest warships.

Target practice was by battleships, cruisers and aircraft against the target-ship Centurion, which is controlled by wireless, and also against a wireless controlled aeroplane of the "Queen Bee" type.

Last night, His Majesty attended a ship's company concert aboard H.M.S. Courageous and afterwards was present at reception for Officers of the fleet in H.M.S. Nelson.

His Majesty the King, aboard H.M.S. Nelson, led a total of 18 ships of the Home Fleet to sea from Weymouth at 8.30 this morning for review and exercises. His Majesty was accompanied by the Duke of Kent as personal Aide de Camp.

The fleet of H.M.S. Nelson in the line of ships first came a minesweeper, then followed the Royal Navy's four bathyscaphes, the first of which was the Royal Navy's first bathyscaphic, the Royal Oak, the Royal Sovereign, the Revenge and the Battling ship, which were escorted by their own escorts for action.

During the afternoon, west of sea, His Majesty will target practice against the target-ship Centurion.

**COFFEE**  
To the Editor, "E. A. Standard".  
Sir—Now that the suggestion of a subsidy for the coffee industry is being brought forward it would be well to call attention to the fact that the bulk of the question of the terms of trade in coffee is not a matter of importation but of exportation. The most likely form would probably be a subsidy on the export of coffee beans, and it would be necessary to have a limit on the amount of coffee beans that could be exported. The present Coffee Board's suggestion is that the Government should be able to pay this way, and it is suggested that the Coffee Board should be able to do this by increasing the amount of coffee beans that are allowed to be exported. This would be a very simple way of doing it, and it would be a very effective way of doing it. It would be a very simple way of doing it, and it would be a very effective way of doing it.

**NEWS AND VIEWS**  
To the Editor, "E. A. Standard".  
Sir—In reference to "E. A. Standard's" letter published on the 20th inst. regarding the Government's suggestion that the Government should be able to pay this way, and it is suggested that the Coffee Board should be able to do this by increasing the amount of coffee beans that are allowed to be exported. This would be a very simple way of doing it, and it would be a very effective way of doing it. It would be a very simple way of doing it, and it would be a very effective way of doing it.

Without available figures one can but surmise, but assuming that a subsidy amounting to £1,000,000 per annum is granted, the Government would be able to pay this way, and it is suggested that the Coffee Board should be able to do this by increasing the amount of coffee beans that are allowed to be exported. This would be a very simple way of doing it, and it would be a very effective way of doing it. It would be a very simple way of doing it, and it would be a very effective way of doing it.

**TWO WINNERS FOR TERENCE TRYON**

[STANDARD CORRESPONDENT.]

The Molo Hunt held their annual Point-to-Point meeting on Wednesday last on the farm of Mr. C. Stewart at Molo. There were 200 spectators and the most sporting and interesting of the races and achieved some fine results. The owner had, this year, been almost entirely successful, while the handicapper was very close indeed.

There was a good crowd present and all appeared to enjoy the afternoon racing to the full, the use of high seats being the two main reasons for the success of the day.

**Mr. Tryon's Triumph over Capt. Spencer Trott.**

A Great Finish

Two furlongs from home Gallien was leading by a margin of half a length at the last jump Captain Trott was in spite of this strongly challenged in run to and met him with a bang. A very well ridden race to Mr. Tryon's triumph.

The third race, Pony Point-to-Point, was won by Mr. Miller's "Bouncer" ridden by Mr. Tryon. "Bouncer" was the scorching, the Open Horse Chase (2000 yds) was won by Mr. Tryon's "Cyclist" ridden by Mr. Tryon. "Cyclist" was the winner of the 2000 yds. race.

**Red Island, however, stayed well in front of Mr. Miller's "Bouncer" and was the winner of the 2000 yds. race.**

**Bigger Anti-Aircraft Guns**

London, June 19. The total weight of the Royal Air Force has increased by 40 per cent since the 1930-31 financial year, according to a statement issued here today.

The overall cost of the new aircraft is estimated at £100 million, of which £40 million is accounted for by the new anti-aircraft guns.

These figures, revealing the rapid expansion of the Royal Air Force, were given by Mr. Lloyd-George, War Minister, in a speech in the House of Commons on June 19.

The Minister said that the new anti-aircraft guns are of a type which will be able to deal with the most advanced types of aircraft.

He also said that the Royal Air Force will be able to deal with any possible attack from the air.

**Ambassador Calls Snake-Charmer And Ten Cobras Appear**

London. A Snake-charmer has just been called in to rid the villa of the British Ambassador, Sir Miles Langham, of a number of dangerous cobras after other methods had failed.

The Langhams spent week-ends at the house in the desert at Eschmouh, near the Fawras Oasis. Recently serpent tracks were observed in the grounds.

Chief Cordon men tracked and killed one reptile; the village headman suggested that a charmer would be able to catch the others.

A fawn-man was summoned from Cairo, and in the presence of Sir Miles and Lady Langham peeped on his necks and coiled forth the snakes in the name of St. Elmo, the patron of charmers.

In less than ten minutes nine young cobras appeared, hypnotized by the music, and were placed in a bag. A tenth, larger and more dangerous than the others, appeared as the charmer was leaving and followed them into the bag.

## Ben Ford Eliminated

KNOCKED OUT  
BY EDDIE PHILLIPS

London, June 22. - Ben Ford, Empire Lightweight Champion, has been eliminated from the 1938 Empire Championship by Eddie Phillips, who defeated him in the fourth round of his scheduled 15 fights this evening. The fight was a brilliant one, with Phillips showing the usual boxing skills of a "title" boxer. Ford, who has been a steady performer since he was knocked out by Phillips in the first round of the Empire Championship, was a well-deserved runner-up in this contest.

**Ford's Single Victory**  
Ford's only victory has been a well-deserved one against a local contender and he used a long left hand effectively.

In the sixth round, just before the end again, Ford, in contact with a "hardy" runner, he managed to knock Phillips about. For the Londoner crashed from a heavy right to the "mask," putting the South African to the canvas for the full count - "knockout."  
The so-called "tender" boxer, who has been a steady performer since he was knocked out by Phillips in the first round of the Empire Championship, was a well-deserved runner-up in this contest.

# HOUSING, HYGIENE AND HEALTH IN UGANDA

## Medical Department Records Improvement

A marked improvement in the standard of housing and the cleanliness of the major communitarian and infectious diseases other than malaria and blackwater fever, are two of the outstanding features of the 1947 annual report of the Uganda Medical Department, recently issued.

The report has stated that no new schemes of development were introduced during the year and that the policy outlined in the previous year's report is still being followed. It is noted that the work of the department is being carried out in a more systematic and planned manner than in the past.

The report also states that the work of the department is being carried out in a more systematic and planned manner than in the past.

# The Anglo-Saxon Race Its Identity and Destiny

By D. DAVIDSON, M.C., Mt. Stuart, E.  
It is becoming increasingly evident to ethnologists that the two races which have dominated the world since the dawn of the Christian era are the Anglo-Saxon and the Semitic. The Anglo-Saxon race is the dominant race of the British Empire, and the Semitic race is the dominant race of the East. The Anglo-Saxon race is the dominant race of the West, and the Semitic race is the dominant race of the East. The Anglo-Saxon race is the dominant race of the West, and the Semitic race is the dominant race of the East. The Anglo-Saxon race is the dominant race of the West, and the Semitic race is the dominant race of the East.

Lord Hailey, Secretary of State for the Colonies, has received a copy of "The Colonial Survey of 1937-38" which is a treatise prepared with the Colonial Office View for the year 1937-38.

The survey is a comprehensive and up-to-date statement on colonial conditions in the United Kingdom. It is a valuable contribution to the knowledge of the world's progress.

It matters not how meanly skilled a writer it is, but that he knows and communicates his ideas.

## THE IMPERIAL LEMON

Two weeks ago I wrote a review of articles dealing with the public mind in the East, despite such complacency, all was not well in this line of Kenya affairs. It was these articles, a very small number, which have served to bring to the attention of the public mind in Kenya a very real and serious problem. The main reason for my feeling so that the real solution of Kenya's problems does not lie within the East. In consequence I was asked by the Government whether it is possible to discuss a solution that is relevant to the contemporary situation. It is relevant to the contemporary situation. It is relevant to the contemporary situation. It is relevant to the contemporary situation.

During the past sixteen months there has been much discussion in the Colonial Empire. The main reason for my feeling so that the real solution of Kenya's problems does not lie within the East. In consequence I was asked by the Government whether it is possible to discuss a solution that is relevant to the contemporary situation. It is relevant to the contemporary situation. It is relevant to the contemporary situation.

## THIS SLUM EMPIRE

It is significant that almost every review of the production of the foodstuffs and the raw materials for the world economy has been forced to admit that the main reason for the world's economic problems is the failure of the world's agricultural production. It is significant that almost every review of the production of the foodstuffs and the raw materials for the world economy has been forced to admit that the main reason for the world's economic problems is the failure of the world's agricultural production.

## WOULD I FIGHT?

It is certain that it is common to speak and write of the manner in which the "coloured inhabitants of the Colonies have been and are exploited for capitalist

gain. I have been sent a book called "World I Fight?" edited by Kerley Robinson and Lyall Wilkes and published by Basil Blackwell. It contains eleven chapters, each written by a different author. The book is on the question of what they would do, and would not do, in the event of a world war. It is a very interesting and well-written book. I shall refer to the book again, and particularly to a very interesting chapter by the author, Lyall Wilkes, who writes of his own experience in the "World I Fight?" which has become one of the best of its kind. It is a very interesting and well-written book. I shall refer to the book again, and particularly to a very interesting chapter by the author, Lyall Wilkes, who writes of his own experience in the "World I Fight?" which has become one of the best of its kind.

The native in the British Empire is treated as a second-class citizen. His education, like the education of the Jew, is a product of historical accident, and is not the result of any conscious policy of the Government. It is a product of historical accident, and is not the result of any conscious policy of the Government.

It is not easy to comment dispassionately on that question for it is so full of fallacy, misrepresentation and ignorance. Perhaps the most significant fallacy is that social distance caused by political oppression in the Central Division of New Guinea and by any other means of political oppression. Mr. Lyall Wilkes is the prospective Labour candidate for the Central Division of New Guinea, and is now reading for the Bar. It would be well if he read and studied more carefully the Colonial problems on which he writes with such high assurance.

## THESE LYING TONGUES

Recently there was current in Kenya various rumours of the activities of foreign agents. It was alleged that a certain station had been built in one district; a heavy load of machine guns had been imported in another district; and certain persons had been deported to the United Kingdom. These reports are all unfounded. It is a pity that the Government should be misled by such reports. It is a pity that the Government should be misled by such reports.

# CONSCRIPTION IN IRELAND

BY THE RT. HON. Winston Churchill P.C., C.H., M.P.

THE announcement which the British Defence Minister made about national service in Ireland, ought not to have been thrown out casually in an empty House in an unimportant Debate. Such a declaration ought to have come from the Prime Minister with all the solemnity which such a declaration carries. It might then have carried a beneficial effect upon the European situation.

There is no doubt that the need of the British Empire in the Great War, acts as a shield for all Legislatures in these years. Whatever may be thought of the present state of the British defenses, it is realized in the Continent that if Great Britain should be forced to enter a war, she will fight it with the whole strength, keeping her resources back from the common cause. Foreigners remember that although England had sent a small army in 1914, she had the millions of soldiers sent in 1918. They remember also that the longer she fought, the more she gained in character because the greater was the effort made by the British Empire, and that the more she fought, the more she gained in character because the greater was the effort made by the British Empire.

It is a pity that the Government should be misled by such reports. It is a pity that the Government should be misled by such reports. It is a pity that the Government should be misled by such reports.

The Social Editor's Point of View  
I FOR ONE.  
Midsummer Madness

WEDNESDAY, June 13, 1934. I read on my calendar— "I FOR ONE." I was a November morning in London and I am really glad to be wearing a slightly hooded jacket and a pair of flannel slacks, the only thing I regret is that I am in the car in my hat-box-bow. However, perhaps it will be warmer on Friday.

The return to the continent, the more I think of it in Midsummer Days, the more I regret that I am not in London. I am a member of the London Club and I am sure that I shall be able to go on in my swimming. Well, I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming. Well, I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

Nothing Simple. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming. Well, I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

What at the Coast. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming. Well, I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

Lama is a place where it is the most interesting thing to do is to go to the Lama. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

How often we hear hostesses say that it always makes all my own jam, and how often we find it is a very indifferent compound, usually owing to insufficient boiling or too little sugar—everyone knows that elastic jam that will not stay on the bread and run all over the plate.

Although times are given for boiling, the fruit breaks so much in boiling, dry weather that we need use more sugar than a little. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

To keep jam from burning or becoming too thick, the pan should be rubbed with a little butter before the fruit is added. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

Some people use their own Raspberries. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

Method. Put over the fruit and a couple of spoons of orange juice if you like. Boil for 10 minutes. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

Apple Marmalade. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

Is yours a GOOD BABY? I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

SO EASY TO USE. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

STEEDMAN'S POWDERS. I have had a very good time in the bath and I am sure that I shall be able to go on in my swimming.

THE Coast of East Africa from its any other part of the world, would be famous in one of the most naturally beautiful resorts that there are. As things are, even Kenya people seem to know very little about it and it is only within the last few years that attention has been drawn to it. The old Arab towns, which were built by the Portuguese and the British, are now being restored to their former glory. What and Where in Mozambique. There is a considerable stretch of coast in Mozambique, which is a very beautiful and fertile country. The old Arab towns, which were built by the Portuguese and the British, are now being restored to their former glory.

There are two places, Comodoro and Vila Rica, which are very beautiful and fertile. The old Arab towns, which were built by the Portuguese and the British, are now being restored to their former glory.
