A. P. Herbert On "Uncivil Aviation"

(Continued from page 9)

Mr. A. P. Herbert, M.P., the author of the "Uncivil Aviation" book, has written a letter to "The Times" in which he says that the latter is in the wrong.

Mr. Herbert says that in the case of London, it is not only the pilots but the passengers who are the cause of the trouble. He says that he has seen many of the latter who are not only ignorant but also very noisy. He says that he has seen many of the latter who are not only ignorant but also very noisy. HOTEL KEEPERS MEET

Roads, Income Tax, Publicity Are Discussed

They are emerging steadily from the shadows of the past, and are now being heard in many quarters which would be a credit to any country, while the publicity necessary to fill them, are under way. Some of it is to be done in the next few days.

Chairman's Report
The annual meeting of the Hotel and Restaurant Association of Kenya and East Africa was held at the Hotel and Restaurant Association of Kenya and East Africa on Wednesday.

Income Tax
The Income Tax Act, in so far as it concerns hotels, has been fully examined by your Committee, and with kind assistance of the Hotel and Restaurant Association of Kenya and East Africa, and especially with the assistance of the Hon. Mr. Justice Langford.

Most Important News
A circular letter sent to all members on April 11, 1932, gave an account of the formation of the East African Publicity Association, on which the Hotelkeepers' Association is entitled to nominate a representative. It appears that, at least, the East African Government has realized the necessity for proper professional publicity, and here shows the promise of their interest in visiting a man of letters for the purpose. Steps are being taken to bring out in East Africa a competent publicist. With such a wealth of material to work upon should greatly increase the number of visitors to East Africa, to the advantage of the colony and the hotel industry.

Meeting in Mombasa
It is understood that a Committee meeting is to be held in Mombasa in the first week of August, at the hotel offices at the Coast. The Mombasa hotelkeepers' Association has been appointed to represent the hotel industry in the Mombasa Publicity Association.

Judge On Husbands Who Are Made More Valuable By Death

Does a dutiful wife live more than a millionaire?—or a man spend 10 years than a man of 60?

These were questions which Mr. Justice Langford put to himself in the Admiralty Court yesterday. He is the latest judge to be in search of a formula which will translate "expectation of life" into terms of hard cash.

"Unfortunately, we have no chronometers of happiness," he said before receiving judgment in the case before him.

Mr. Justice Langford's remarks were prompted by cross-examination on a point of law in the case of 12 childless widows, but made his name known to the general public when the Registrar had put down an order for the payment of £100,000 to the widows.

Case of "Little Hans"
The law on this point, observed Mr. Justice Langford, was extremely perplexing.

His lordship recalled a recent case in which, he said, Mr. Justice Charles designated a lady who had awarded £200 to one of two children in a "little Hans" case, which was called.

Mr. Justice Langford: I do not think I have seen either 100 or 20 that is at all high, but may be so, and I have to get at the value of his expectation. I do not know how to put a value on the value of his expectation. Do I not know how to put a value on the value of his expectation. Do I not know how to put a value on the value of his expectation.

COLONIAL "SEDITION BILL" QUESTIONS
London, June 29. The Colonial Secretary, Mr. Malcolm Macdonald, was asked by the House of Commons last night when he would introduce the Bill which would amend the Sedition Act, 1914, and give £1,000 to the widow of a soldier who was killed in the war.

SCHOOLS COMPETE

Annual Hockey And Cricket With Eldoret

The annual cricket and hockey fixtures between Nakuru and Eldoret schools are always keenly watched and this year they were of more than usual interest. The Nakuru team played well and showed on their own ground but the visitors dominated before and after tea.

The hockey match was played in a friendly afternoon and resulted in a draw, both sides making one goal. It was an interestingly fast game and showed up the individual excellence of the players. Just before tea the school of the first side, and the school of the second side, had a game which was very good. A Centre referee in the second side was working very well and was well served by his forwards. The other side was working very well and was well served by his forwards. The other side was working very well and was well served by his forwards.

There were 20 schools in all and a total of 100 players. The first side was led by the captain, who was a very good player. The other side was led by the captain, who was a very good player. The other side was led by the captain, who was a very good player.

TOP-FLIGHT IN ALL BUT PRICE

CHRYSLER has been noted on its launch—and they have been many. This year classed its appointments, with complete new body styling inside and out, has again made it the top-flight car; yet its low prices are surprising.

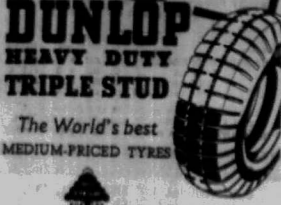

The astonishing roominess and extra luxury of the Chrysler Royal present an alluring invitation to enter and ride. Every desired appointment and embellishment that conforms with smart style, that adds to the comfort and that makes for a truly distinguished motor car is impressively evident in the Chrysler Royal.

The Floating Power engine mountings that have added so much to performance and passenger comfort are only one of the many distinctive features. Other features in all Chrysler engines are vibration dampener, oil filter, Anadic coated aluminium pistons with four rings, silent chain drive on cam shaft, air cooled generator and crank-case ventilator.

Independent front wheel suspension, which has been so successful in Chrysler cars in recent years, is improved by new shock absorber mountings and Aero Hydraulic shock absorbers.

CHINA WAR ANNIVERSARY 27 DEAD AT HAIFA

"CELEBRATIONS" Commons-Lords Conflict

Shanghai Bombs, Tokyo Speeches, Hankow Collection

London, July 7.—The anniversary of the outbreak of the Sino-Japanese war is being commemorated in various parts of the world. In London, the Commons and Lords are engaged in a conflict over a bill to commemorate the 27th anniversary of the outbreak of the war. The bill, introduced by Lord Halifax, provides for a day of mourning and a collection for the Chinese Red Cross. The Commons, however, are opposed to the bill, arguing that it is a waste of money and that the government should focus on the current war effort. The Lords, on the other hand, believe that it is important to remember the sacrifices made during the war and to support the Chinese people in their struggle for independence.

FIERCE YANGTSE FIGHT

London, July 7.—The fiercest fighting on the Yangtze River has been reported. Japanese forces are advancing rapidly, and Chinese troops are fighting valiantly to hold their ground. The fighting has been particularly intense in the area around Hankow, where the Japanese are trying to break through the Chinese defenses. The Chinese government has called for more troops and supplies to be sent to the front. The situation is very serious, and it is expected that the fighting will continue for some time.

The life of affairs in China after six years' hostilities, is rapidly changing on the map above. How the year's activities, shown by diagonal lines, extend along the railways is clearly marked. The Hsueh Shuehsueh, or Yellow River, is also indicated. In the last few days Japan has extended her occupation along the Yangtze from Wuhan to the point where the river bends westward.

MR. NEHRU ON INDIANS AND INDEPENDENCE

London, July 7.—Mr. Nehru, leader of the Indian National Congress, has made a statement in the House of Commons regarding the Indian independence movement. He stated that the Indian people are determined to achieve independence and that they will not accept any form of continued foreign rule. He also mentioned the recent developments in China and the impact of the war on the Indian subcontinent. Mr. Nehru's speech was met with applause from the members of the House.

Farwell to GERMAN REFUGEES AS SETTLERS FOR KENYA?

Politics AS SETTLERS FOR KENYA?

Government Statement At Evian Conference

London, July 7.—The British government has issued a statement regarding the Evian Conference on Refugees. The statement, issued by Lord Halifax, announced that the British government had agreed to accept a large number of German refugees as settlers in Kenya. This was a significant development, as it showed the British government's willingness to take in refugees from the Axis powers. The statement also mentioned that the British government was examining the possibilities of settling refugees from Austria and Germany in British colonies, particularly in East Africa.

Artificial Agriculture Deplored

London, July 7.—The artificial nature of the current agricultural situation is being deplored by many experts. They argue that the use of synthetic fertilizers and pesticides is leading to a decline in soil fertility and a loss of natural balance. They believe that a return to natural agricultural practices is necessary to ensure the long-term sustainability of the food supply. This view is particularly strong in the United States, where the use of artificial fertilizers has become widespread.

Arms Order In Canada

London, July 7.—The Canadian government has issued an order regarding the sale of arms. The order states that the sale of arms to individuals is strictly prohibited, except in very limited circumstances. This is a measure to prevent the proliferation of arms and to maintain public safety. The order also applies to the sale of explosives and other dangerous weapons.

Flying Boat Needs New Engine

London, July 7.—A flying boat, used for mail delivery, has been found to need a new engine. The aircraft, which is based in the United States, has been grounded until a suitable replacement engine can be found. This is a common problem for flying boats, as they require large, powerful engines to operate. The replacement engine is expected to arrive in a few weeks.

SINGAPORE TRANSPORT WORKERS' STRIKE

Singapore, July 7.—Transport workers in Singapore have gone on strike, demanding better wages and working conditions. The strike has caused significant disruption to the city's transport system, with many buses and trucks unable to operate. The government has called for the workers to return to work, but they have refused to do so until their demands are met.
