## "CZECHOSLOVAKIA HAS MOBILISED"

### Local Newspaper's Report Alarms Germany

#### DENIAL IN PRAGUE.

AGAIN TENSION ON THE CZECH-GERMAN FRONTIER HAS ALARMED EUROPE. ON THIS OCCASION THE IMMEDIATE CAUSE IS A REPORT FROM A LOCAL NEWSPAPER IN SILEZIA, WHICH DECLARED THAT "MACHINE GUNS AND BARRICADES COULD BE SEEN FROM THE GERMAN SIDE" AND STATED THAT CZECHOSLOVAK TROOPS WERE MOBILISING ALONG A FRONT OF 100 MILES.

Germany therefore received a flood of demoralising news. Prussia emphatically refuted all the rumours but the main Propaganda Agency, pointed out that reports of troop movements had not been denied, though mobilisation had been denied. The wording of an official communique in Prague was referred to "no abnormal movement of troops."

Attention is attached to the fact that while the earliest editions of the Sunday newspapers in Berlin carried the story, a newspaper published later made no reference to it.

**TWO BATTERIES WITH AN IMPORTANT DIFFERENCE**

You cannot judge a battery by appearance. A good battery and a poor one may look very much alike. Only service can show the difference—the greater economy of the good one. Then you realize the importance of such hidden things as the make-up of the active materials, the care with which all foreign matter has been removed from the separators, and the use of a container material which, while being strong and tough, crosses no chemical action of its own.

The Exide has won five times upon good batteries because of the extreme care taken in this way. To do so is expensive, but the results in extra power and long life far more than justify it.

GRIME DOES NOT PAY.... USE No. 7 DUCO POLISH. Even if your car is fairly new-looking, you should use this polish to preserve the colour and lustre of the finish. Or if the finish is dulled by grime and Yello film, you can still bring back the original beauty by using No. 7 DUCO Polish. This polish is made by the creators of "Duro" and "Dulux," the modern car finishes. It stands to reason that they should also stand for your car. Millions of car owners have found No. 7 Polish to be the quick, easy way to car beauty.

Alenbury Rusks are ideal for babies as soon as they begin to show any sign of teething. The crisp rusk encourages chewing and helps his teeth through, but softens quickly enough to prevent his tender gums from getting sore.

State Visit To Paris

The Palace of the Quai d'Orsay, where Their Majesties will stay during their visit to Paris.

# France's Welcome To Britain's Rulers

## CROWDS WAIT ALL NIGHT TO GREET KING AND QUEEN

### "Precious Friendship"

ALLIANT BUNSHINE MATCHED THE BRILLIANT SPECTACLE WHICH CROWDED PARIS WITH ENTHUSIASTIC WITNESSES YESTERDAY. IT WAS THE OCCASION OF THE ARRIVAL OF HIS MAJESTY KING GEORGE VI AND QUEEN ELIZABETH ON THE FIRST STATE VISIT MADE BY A BRITISH SOVEREIGN TO FRANCE SINCE 1914.

At the time when, in mid-Channel, the royal visitors were greeted by a fleet of the French Navy to the time when, Their Majesties having entered the Quai d'Orsay, which will be their home in Paris, the Royal Standard was broken above the famous pates, the warmth of the French people's reception never flagged from the most fervent enthusiasm.

From Paris to London, the French people's welcome was greeted by a fleet of the French Navy to the time when, Their Majesties having entered the Quai d'Orsay, which will be their home in Paris, the Royal Standard was broken above the famous pates, the warmth of the French people's reception never flagged from the most fervent enthusiasm.

## Their Majesties King George VI and Queen Elizabeth.

**The King Looked Very Well**  
His Majesty the King, looked very well. He wore his uniform of the First and the Queen wore a long black and blue dress with a veil over the shoulder similar to the one worn by the Queen at the wedding of the Duke of York and the Duchess of York. They were accompanied by two valets, three lady's maids and three footmen. (Herald)

## Atlantic Flight Sensation

The Atlantic was given again yesterday, and a young Californian pilot, flying a four-engine biplane, landed in New York yesterday afternoon. He took off from America on Sunday morning, and the flight took about 24 hours. It is probably the first real surprise crossing of the Atlantic for the pilot, Douglas Corrigan, on taking off from the Floyd Bennett air field, New York, announced that he was trying to establish a flight to Los Angeles, California. His aeroplane, which is said to be the same pattern as that used by Colonel Lindbergh in his first solo crossing of the Atlantic, was built by the Curtiss Aeroplane and Motor Company. (Herald)

**Die It by Mistake**  
Mr. Corrigan has been mildly rebuked by the American Department of Commerce, which has suspended his pilot's licence for a few months. An official said: "I advise his courage, but we cannot have navigators flying off across the Atlantic to die machines. It is a hazardous statement Mr. Corrigan professed that he did not mean to fly the Atlantic. He set the sail of his compass wrong. 'I was well embarrassed,' he said. 'It shows what a fool navigator a man can be.' (Herald)

## Britain Cannot Be "Knocked Out"

England is prepared for all contingencies in air war, according to Geoffrey Lloyd, the Chief of the Staff, who is specially charged with the supervision of A.F.P. The extent of a full general mobilization in operation made it impossible for the Government to have a "knock-out" blow in warfare to be a success in Britain. (Herald)

## King At Royal Garden Party

His Majesty the King made yesterday his first public appearance since his recent indisposition, when he was seen at the Royal Garden Party at the Royal Garden Palace at St. James's Park. There was a slight drizzle at first, but the sun shone later when His Majesty joined the Queen and the Princess. The King later wore his Majesty's first hat. (Herald)

There was a slight drizzle at first, but the sun shone later when His Majesty joined the Queen and the Princess. The King later wore his Majesty's first hat. (Herald)

The Prime Minister of France, M. Raymond Daland.

## BRITISH STEAMER BOMBED

Valencia, July 19. After an interval of several weeks another British steamer has been bombed by Spanish insurgents. One of the Spanish Lines—the Stalwart—was bombed by five airplanes this morning and set on fire. There were two non-innocent officers on board, one Dutch and the other Italian. Neither of them was injured, but eight coal oilers were killed. A number of other boats, which were wrecked along the Eastern coast of Spain, Barcelona was also sunk and the Cathedral was hit. The latter was damaged and the Government troops having retreated from a point, the city of Valencia is now being shelled by the Spanish insurgents. (Herald)

## CALL FOR "EFFICIENT DEMOCRACY"

London, July 19. The need for democracy to prove its efficiency was stressed by Mr. Joseph P. Kennedy, the American Ambassador, in a speech last night. It was not sufficient, said Mr. Kennedy, to have a democracy which is not efficient. The system must be "efficient democracy." (Herald)

Mr. J. P. Kennedy

## SOVIET JAPAN NEGOTIATIONS

London, July 19. Diplomatic negotiations are to take place between Japan and Soviet Russia to settle the dispute which has arisen over the Manchurian Frontier. The Japanese Ambassador in Moscow has just been back to Tokyo to take charge of the negotiations. (Herald)

## NEW BLOC IN CENTRAL EUROPE

Rome, July 19. It is now reported that the new Bloc of the Hungarian Prime Minister, M. Bethlen, and the Foreign Minister, M. Kollonitsy, has been formed. It is a Central European bloc composed of Italy, Germany, Hungary, and Yugoslavia. What the attitude of the proposed grouping would be towards Czechoslovakia is not yet known. Discussions began last night between the Hungarian Prime Minister and Count Ciano in the Palazzo Venezia. (Herald)

## SULTAN OF MALDIVES ISLANDS

Colombo, July 19. Two representatives of the Government of Ceylon yesterday called on the Sultan of the Maldives Islands. H.M.S. Shark, the survey ship, which will go to the Maldives Islands also carries a number of others who will be the guests of the Sultan. The Maldives Islands are about 400 miles west of Ceylon, of which they are a dependency. (Herald)

## HANKOW HEAVILY RAIDED

Hankow, July 19. Hankow suffered one of the worst raids it has ever experienced, this morning. Twenty seven Japanese bombers flew over the city and dropped for two hours dropping bombs on various places. One of the bombs is reported to have hit a Chinese theatre, which was being used as a refuge. The casualties are known to be very high but no details are yet available. The Foreign Commission appears to have accepted demand. News from Tokyo today claim a remarkable achievement for Japanese pilots and reported that they landed on the Chinese airport at Hankow and succeeded in damaging several Chinese machines that were on the ground. It is reported that 500 people were trapped in the theatre which was set on fire. (Herald)

## Japanese Gold

Tokyo, July 19. The Japanese gold reserve has been called out to buy raw materials from abroad. In the matter of 15 million pounds has been released and the details received the approval of the Japanese Cabinet today. (Herald)

## British Trade Agency

London, July 19. In the House of Commons yesterday a questioner asked what steps the Government were taking with regard to British trading interests in the Tangier Valley. He stated that the British community in Shanghai was alarmed because Japan was encouraging her commercial undertakings in the Tangier Valley, the expense of which interests on the part of military authority. The Foreign Under Secretary, Mr. R. A. Butler, stated that the British Ambassador in Tokyo was continuing to press the Japanese Government on this matter. **Flax**  
Anything which tends to broaden the basis of agriculture in Kenya and which promises to hasten the extension of mixed farming is to be welcomed. Farmers will read with interest the account of an interview by the East African Standard with Mr. W. J. Megeath, O.B.E., Chief Flax Inspector of the Ministry of Agriculture, Northern Province, which has just completed a tour of the Kenya Highlands under the auspices of the Colonial Development Fund with a view to reporting on the prospects of flax growing in this country. Mr. Megeath, in the course of three weeks visited many widely separated districts and talked with many farmers and others likely to be concerned with the development of a flax growing industry in this country. The result of his investigations is that he is definitely of the opinion that there is a promising future for the cultivation of flax in Kenya. The ability of large areas of the Highlands to grow flax has been demonstrated by the fact that the industry collapsed shortly after the war.

As far as the eye can see . . .

Look at the new Chrysler in the showroom and you'll fall at once under the spell of its lovely coachwork . . . its exquisite symmetry of line and curve.

But Chrysler's perfection lies deeper than that. You must sense it not merely with your eyes, but with your hands and feet as you drive on the open road.

GOOD SIGNS IN GILGIL?

(Continued) Gilgil, July 12.

Two further signs of better and easier stock have been seen in the district during the past week, and we are almost sure that in another week they will be very satisfactory to all concerned. The first sign was that at Winkfield Farm, the property of Messrs. Jones Bros. and was that we saw a good quality of stock offered in the locality of some 200 or 250 very high quality, well priced and well selected. Another good sign was that we saw a number of good quality stock coming up to the district. A fairly large sheep entry also came in to the district.

The following day another sign was held in the Spruce Valley District, Trawan, and here we saw a quantity of good quality stock offered for sale. The stock was very well selected for the district, but even his handiwork was not so good as that of the district. On occasions it would appear that we are getting a better quality of stock than we have seen in the district for some time past. We are sure that in another week we shall see a further sign of better and easier stock coming up to the district. It is to be hoped that the district will be able to handle a really good sale of the stock in the district, which would be a "retreatment" provided.

"Daily News" Market Review. Several signs also have been seen in the district during the past week, and we were lucky enough to see some good quality stock offered for sale. We saw a number of good quality stock offered for sale, and we were lucky enough to see some good quality stock offered for sale. These two lots are a fresh outbreak of Foot and Mouth disease, quite new to Gilgil Station. This is most disappointing, as we thought we had the last of that disease for some time to come.

THE SPORTS EDITOR Seans the News and Airs His Views

(BY THE SPORTS EDITOR)

In recent weeks around the place concerning the terms of that choice young Swiss tennis player, Grassotti, who had not yet been seen in Nairobi, had I saw him playing, would be the arrival of the Tika Tournament—a match, which by the way, was yet to be decided on, was in all all the news, set out. Grassotti having won the first—had it was the second tennis I had seen in this country. However, it is hard to tell, being French (I'm not a proponent of his name), but I am glad to say that he is trying to beat the cover of the ball with some of his drives. An attractive and stimulating player to watch. His coach's aim is to make a strong player, and he has a lot of practice. All the same I have had him tapped to see by a friend who has played against him at the court champion of Kenya and the number one ranking player within the near six months.

It is a thousand pities that he will not be playing in the months of the Championship this year. There was some matter of the matter of the matter of the matter, which he can only play in the country, which he can only play in the country, which he can only play in the country.

There was some talk of allowing him to enter after the first round, which is a necessary concession. It is a necessary concession, which he can only play in the country, which he can only play in the country, which he can only play in the country.

## ANGLO-GERMAN NEGOTIATION TO BE RESUMED?

### Herr Hitler's Envoy And Lord Halifax

The possibility that the negotiations between British and Germany, under what the Anschluss took place, may be resumed, has been raised by the visit of Herr Hitler's personal envoy to Lord Halifax, before the latter left for Paris. It is assumed that during his stay in Paris as Minister in Attendance on His Majesty the King, Lord Halifax will describe the talks to M. Benes, the French Foreign Minister.

English reports suggest that the Nazi's visit to England concerned the British attitude to Czechoslovakia, but a German newspaper has suggested that the meeting may lead to a resumption of general Anglo-German negotiations.

# WAR IN THE AIR - A FORECAST

## Former French Minister on The Probabilities

It would be unlikely for the democracies to be defeated in a long war, if conflict breaks out between the United States, in the view expressed by a former French Air Minister in the course of an interesting article in which he compares the respective strength and strategic advantages of the two sides.

Importance of the Polish and Russian factors is emphasized and the writer points out how France's position would be weakened by a Spanish Spain.

Review by "The Times"  
 "White Man's Country" is an interesting and remarkable book. It has in reality two subjects, as its sub-title "Lord Delamere and the Making of Kenya" explains. In part it is the biography of an exceptional man, in part it is the history of a gallant and distinguished British settlement. Mrs. Huxley was right to combine the two, since they were for more than thirty years so closely interwoven that to write of one without the other would be absurd. We have waited a long time for a book of this sort.

# PROSPECTS OF REVIVAL

## What Government Has Been Doing In Kenya

CONSIDERABLE PUBLICITY HAS BEEN GIVEN RECENTLY TO THE POSSIBILITY OF A REVIVAL OF THE KENYA FLAX INDUSTRY, LARGELY AS THE RESULT OF A VISIT TO KENYA OF A FLAX EXPERT FROM NORTHERN IRELAND, MR. W. J. MEGAW, O.B.E.

The problem has not been overlooked by Government here, however, it is evident, and the Agricultural Department has for some time past been conducting investigations and experiments with a view to seeing the way to a new flax industry in this Colony.

When they have tried out several different varieties of flax in the Nakuru, Molo and Trans Mara districts with a view to ascertaining their general suitability, resistance to rust and to the best form of seedling, as well as treatment to facilitate recovery of the crop.

As a first great ground was selected for the first trial, which has had a revival of the flax industry in this Colony. It is evident, however, it is evident, and the Agricultural Department has for some time past been conducting investigations and experiments with a view to seeing the way to a new flax industry in this Colony.

### Premier Asks For Notice

A remonstrance issued yesterday by the Premier, Mr. H. H. Halliday, and the Premier's Minister, Mr. D. J. O'Connell, to the Government, stating that the statement regarding the interest in the flax industry in Kenya, which was made in the House of Representatives, was not a true statement, and that the Government should be held responsible for the same.

### Masons Not To Wear Regalia

The Grand Lodge of Kenya, which has been holding its annual meeting in Nairobi, has decided that the masons should not wear their regalia during the meeting. This decision was reached after a long and heated discussion, and it is expected that the decision will be a relief to the masons, who have been wearing their regalia for many years.

# "ALL-UP" Appeal Court AIR MAIL Upholds Condemned Man's Case

Three interesting judgments were given yesterday by the Court of Appeal for Eastern Africa. In one case, a sentence of death passed in Uganda was altered to one of imprisonment and in another although a similar sentence was upheld, the Court decided that it was to be annulled with the opinion of the Chief Justice (of Uganda) that the case would receive consideration in another quarter.

In the first case it was stated that a father sentenced his son to hang, but the son did not die. The Court of Appeal has now decided that the sentence should be commuted to imprisonment for life. In the second case, a man was sentenced to hang, but the Court of Appeal has decided that the sentence should be annulled.

The Court of Appeal has also decided that a man who was sentenced to hang, but who was found to be insane, should have his sentence annulled. The Court of Appeal has also decided that a man who was sentenced to hang, but who was found to be insane, should have his sentence annulled.

**ROYAL NAIROBI GOLF CLUB NOTES**

The most important feature this year was the victory of the Coronation Trophy at Nairobi. Mr. R. Hooper, who winning score of 220 was a really consistent effort, being made up of 81 & 82 & 83. The Coronation Trophy is looked upon by many golfers as the unofficial open championship of the Colony and by Mr. Hooper's victory the members with doubtless regret their hearty congratulations. Another trophy taken by another member, who with scores of 83 & 84 & 85 also won the prize for the best single round. That place was shared by two country golfers Messrs. Eric Davis & E. Crowley with a net score of 245.

**League Section—Russell Cup**  
The Russell Cup was played for on Saturday and the scores were "wholesome." For a long time Mr. R. McDougall, who is also the President of the Royal Nairobi Golf Club, led with a score of 18-19-19 and was the very best of the day. Mr. C. Martin came in with a score of 19-19-19, a very good effort. Third place was taken by Mr. E. Crowley with a net score of 72.

After the competition a luncheon was held and the day was really a very enjoyable affair. In the evening the members of the club were entertained at the whist-tablet of the amateur league.

**Match vs. Kinzabae**  
Kinzabae sent a team of eight to play the Nairobi club on Saturday. This particular match is always very much looked forward to by those members who are unable to play in it.

**Busy Competition**  
There will be a heavy competition for men on Saturday, July 25th. The event is the Governor's Handicap which will take place over the Bank hill and will be a very interesting one. The captain, his partner and the other players will be engaged to win this match, the result of which will be a very interesting one. It is expected that the match will be a very close one and that the Nairobi club will get into the final round to win by five or six strokes.

**Mr. and Mrs. Richard Keatinge**  
Members will be glad to hear that the fund of the Jubilee Bazaar competition at the Old Reliance Golf course in Durban, resulting in a win for Mr. and Mrs. "Dick" Keatinge, has been forwarded to the fund round to win by five or six strokes.

**MUTHAIGA GOLF CLUB NOTES**

How to make delicious gravy

It is all so easy, just get your cook to put one good teaspoonful of more of these into a basin and mix thoroughly with a half a pint of warm (not boiling) water.

Pour the mixture into the meat tin, from which the fat has been skimmed. Stir well and boil for a few seconds.

The result is a delicious, rich gravy, free from lumps and seasoned by all. A gravy that will make your roast far more appetising and make the most of your fowl.

**THE PEOPLE'S Car**

By Professor George Bernhard  
The Well Known German  
Economist—

"The People's Car" is the most important development in the German motor industry since the advent of the National Socialist Government. It is the result of the policy of the Government to make the car available to all classes of the population. The car is designed to be simple, practical, and economical, and to meet the needs of the masses. It is a car of the future, and its production will be a great step towards the realization of the National Socialist ideal of a car for every man.

From what precedes it is clear that the National Socialist Government is not only interested in the car as a means of transport, but also as a means of promoting the economy. The car is to be produced in a factory which will employ thousands of workers, and will be a source of income for the State. The car is to be produced in a factory which will be a model for the other industries of the country. The car is to be produced in a factory which will be a school for the workers, and will be a source of technical knowledge. The car is to be produced in a factory which will be a source of pride for the workers, and will be a source of inspiration for the youth of the country.

*By Our Motoring Correspondent.*  
I HAVE no time to dispute, a singular blot of impertinence to visit three tons on a four-wheeled car. It is a pity that it should be so, and that the car should be so. It is a pity that it should be so, and that the car should be so.

### A NEGLECTED REGISTER

**In Search of Facts About Dairy Cattle**

IN October, 1938, the Committee of the East Africa Stock Board announced the intention to register all pedigree and draft cows and a draft scheme was published on April 15, 1938, with an announcement that it would be operative on April 1, 1939, the start of the present Milk Recording Year.

In a forward to the draft of the Register of Non-Pedigree Dairy Cows and a draft scheme which was published on April 15, 1938, the Committee expressed the opinion that "the Register will give an accurate and complete record of the breeding of dairy cattle which would assist in the selection of the best stock and would provide a means of recording the performance of each cow as a producer of milk and as a sire of calves, which will be of great value to the farmer in his selection of the best stock and in his selection of the best sires of calves."

The Committee emphasized that participation in the Milk Recording Scheme is an essential pre-condition to the registration of Non-Pedigree Dairy Cows and pointed out that "the Milk Recording Scheme is a scheme for the registration of dairy cows and for the recording of their milk production and for the recording of their sire's performance."

It is a healthy sign that the Government of Kenya is taking steps to improve the quality of its stock. The fact that a professional body is being set up to regulate the industry is a sign of progress. The fact that the Government is willing to subsidize the scheme is a sign of its interest in the welfare of its farmers.

### Kenya's Dairy Industry

Kenya's dairy industry is a rapidly growing one. The number of dairy cows in the country has increased steadily in recent years. This is due to the fact that the Government has taken steps to improve the quality of its stock and to encourage the production of milk.
