SOVIET REJECTS JAPANESE TRUCE PLAN

Insistence On Map Of 1886 Treaty Acceptable To Japan?

WAITING THE PROPOSALS PUT FORWARD BY JAPAN, FOR A TRUCE IN THE MANCHUKUO FRONTIER DISPUTE, THE SOVIET GOVERNMENT REPLIED WITH AN OFFER OF PROPOSALS, BASED ON THE 1886 TREATY BETWEEN RUSSIA AND IMPERIAL JAPAN, AND LATE LAST NIGHT IN TOKYO IT WAS REPORTED—THROUGH WITHOUT OFFICIAL CONFIRMATION—THAT THE PROPOSALS WERE "ROUGHLY ACCEPTABLE."

It was stated that there could be no question of altering the frontier laid down in the 1886 Treaty, but if Japan accepted this frontier, Russia would be willing to take part in a commission to demarcate it again on the spot.

It was reported that the Japanese proposal for a truce in the Manchukuo frontier dispute was based on the 1886 Treaty between Russia and Imperial Japan, and late last night in Tokyo it was reported—through without official confirmation—that the proposals were "roughly acceptable."

PAIN AFTER MEALS
By Dr. F. B. Scott, M.D., Paris. All the aches and pains in the stomach after meals is probably the most common. I get such rubbing, grinding pain after meals. They say, "You must give me such a horrible full-blown feeling."
Well, it doesn't take long to put these patients right. I enable these patients right by the use of stomach acid-secreting which ferments in the stomach and leads to all sorts of painful symptoms. In these cases I simply prescribe "Bismarck Magnesia," the standard antacid compound. Within five minutes the discomfort, and all steps all over stomach trouble is gone. The discomfort, if you suffer from stomach trouble, get your "Bismarck Magnesia."

KENYA'S HIGHWAY ROAD PROGRAM

"Urgent Problem" Says Public Works Department

The problem of constructing roads capable of bearing the increasing traffic of the Colony is one which will require constant attention and observations during many years to come. The fact that good roads are not facilities but essential assets must be kept in mind.

In the 1937 annual report of the Kenya Public Works Department, in which reference is made to the deliberations of the sub-committee of the Central Roads and Traffic Board appointed in July 1937 to put forward proposals for a road programme over a period of years. The programme suggested by the sub-committee provides for an expenditure of a quarter of a million pounds over a period of five years.

A great deal of attention has been given to the problem of the Public Works Department in the past few years. It was reported that total expenditure amounted to £2,200,000 in 1936, of which £250,000 was spent on works services provided by the Kenya Public Works Department. In 1937, the expenditure was estimated at £2,800,000.

The incidence of the rains has been more severe than in previous years. The roads throughout the Colony are in a state of disrepair. It is estimated that the cost of repairs will be £1,200,000. The Public Works Department is doing its utmost to repair the roads as quickly as possible.

WIKI: IN THE FIELD

DEPLORING DEMOCRACY

The following is a translation of a speech given by the Hon. Mr. G. D. Brown, M.P., at a meeting of the Kenya Legislative Council, held on August 3, 1937. The speech was directed against the Government's proposed road programme.

After reviewing the facts of the case, Mr. Brown said: "The Government's proposed road programme is a gross waste of money. It is a policy of appeasement towards the natives, and it will do nothing to improve the standard of living in the Colony. The Government should concentrate on other matters, such as education and health, which will do more to benefit the people."

Disinfectants

As a preventive to the spread of all kinds of infection, KEROL has an established reputation. It is particularly fine in the fact that it gives complete satisfaction as a germicide. It is also a powerful disinfectant at a price within the reach of all. Government Departments, Municipalities, Hospitals, Burials, Hotels, Homes and visitors, have its sterling work.

Expert Bacteriologists have found KEROL to be from 10 to 40 times more powerful than carbolic acid, according to the German germ tests. For instance, KEROL is used in hospitals, where powerful germicidal tests were taken, which were found to be the most powerful germicide.

KEROL THE CURE-ALL

KEROL contains no harmful and consequently it is non-corrosive and is free from the irritant action of carbolic acid. It is completely miscible with water in all proportions. It does not stain or burn, and it is a delicate and safe fabric, as when applied according to the directions it can be used with every confidence and safety.

DROUGHT IN UGANDA

The drought in Ankole and Kigezi shows no sign of breaking. It is now of 75 days duration. The District Commissioner, Kigezi has closed Kabihe and other markets and purchases of native produce and Native Administration akaria have turned back natives wishing to do business of potatoes, maize, beans and other crops.

It is now a well running but dry stream and it is probable that it will be dry in the next few days. The Government officials are exploring it in 'Kavert' Kigezi.

Again, the Board says that it has assumed without question a legislative hypothesis that each of the countries of the Empire... of nations which... world conscience... not only wrong, but also... foolish. The force of... opinion was something... counted in the world... there was no unity of... of nations which gave... to a common front...

Speaking of Tyre Prices

Once again we wish to emphasise that no tyre prices in East Africa are lower than Goodyear's. Moreover, all Goodyear dealers and garages are authorised to give liberal discounts to motorists and any attempt to demand a higher price for Goodyears than for any other tyre, regardless of make or brand, should be reported at once to The Goodyear Tyre & Rubber Co. (S.A.) Ltd. Nairobi. And remember... a low price on an unknown tyre doesn't mean much, but a low price on a Goodyear means extra value
