FUEL CRISIS

The Mayor says 'Not our job'

NAIROBI'S Mayor - recently I took from casual review of the budget to the chilling prospect of a fuel crisis in Kenya's capital. Yesterday he rebuffed the suggestion of a Forestry Department official that the provision of the necessary land and funds for the planting and management of additional fuel plantations might be regarded as a municipal undertaking.

DIRECTOR OF STATISTICS GIVES FACTS AND FIGURES: DRINK AND SMOKES A BIG ITEM

AT THE end of April this year the cost of living index in Nairobi was 102 per cent above the average figure. It is supposed in an attempt to cut down the consumption of liquor - without that increase, the index stood at 72 per cent above the 1913 level.

This information was given to Nairobi's Board of Health yesterday by the Kenya Government to adjust cost of living allowances. Mr. Martin stated that as the Statistical Department had been obtaining a general idea of a task to gather comparative figures in other parts of the world. The readings of pre-war price journals 'look one into another world.'

BEVIN WILL JUDGE BURMA ON ACTIONS

BEVIN has been asked to judge the country's attitude towards the British Empire. The Premier's statement was a change of policy. Bevin wishes to keep on good terms with the Government of Burma and at the same time to develop good relations with Russia and other countries.

Exaggerated

He had not had informed the Government of the fact that the Government of Burma had not been asked to judge the country's attitude towards the British Empire. The Premier's statement was a change of policy. Bevin wishes to keep on good terms with the Government of Burma and at the same time to develop good relations with Russia and other countries.

The Lighter Side

THE WEEKEND PAGE looks towards life's evening end asks— WOULD YOU LIKE TO LIVE A CENTURY AND A HALF?

ON TOAST

THERE'S no denying that, to most of a generation, the word "century" has meant "Who's in?" It's only now that it has begun to mean "Who's out?"

It is not surprising that a little while ago, when the "Century Club" was founded, its members were mostly "old-timers" who were well into their sixties and seventies. But now, as the word "century" has become a household name, it has attracted a new breed of members—those who are just beginning to live.

Against this, there are prominent researchers who believe that "every boy and every girl" should be prepared to live a century and a half. They say that the average man and woman will live to be 100 years old, and that the average man and woman will live to be 125 years old.

Research has been conducted in various universities, on the basis of advances in medical knowledge, and has shown that the average man and woman will live to be 100 years old, and that the average man and woman will live to be 125 years old.

They want to find out why man is not living up to his expectations. It is an accumulation of his experiences, both physical and emotional, that makes him age!

A newly-established institute of human experiment at one university is attacking this problem from the diet standpoint. It is trying to find out what makes man eat and what makes him contribute to aging. The "Life Research Institute" is studying the effects on human life of man's experiences from birth to maturity. Columbia University is concentrating on heredity and environment.

Note—nagging helps make criminals

Under Dr. C. Ward Crampton of New York City, tests are being made on the University of Michigan, which have shown that men and women who are nagged by their wives or husbands are more likely to become criminals than those who are not nagged.

Special studies in this line have been made on the effects of nagging on the behavior of men and women. It has been found that men who are nagged by their wives are more likely to become criminals than those who are not nagged.

Through present research in geriatrics, many old people may be able to contribute to society more of their useful and active years than they do now. It may be possible to save the world from making the same old mistakes over and over again.

MAN 'NOT MOUSE' BUT 'BIT' MOUSE

WHILE longer longevity starts man on the board, he may be disappointed to know that he will not live as long as he would like. The average man and woman will live to be 100 years old, and that the average man and woman will live to be 125 years old.

It is not surprising that a little while ago, when the "Century Club" was founded, its members were mostly "old-timers" who were well into their sixties and seventies. But now, as the word "century" has become a household name, it has attracted a new breed of members—those who are just beginning to live.

THE NEW WORLD SPORTS

WIMBLEDON BEGINS IN 'MAC AND BROLLY' CONDITIONS

The Wimbledon meeting, which opened this year in dismal conditions—strong contrast to the other big sports.

Frank Drobny (USA) is regarded as the most likely winner of the singles with the Czech, Jaroslav Drobny, as the most dangerous contender.

Those who anticipated his defeat by the American, Helen Patz and Tom Brown, who made a last-minute dash for air from the United States, and since said: "I hope I can play a few games."

The centre court is in marvellous condition but the outside courts were wet and slippery and many players were unable to play.

All the state tennis players were present and the American, John Brinkley, was the only one to play a match against the British, Drobny, who was defeated 6-2, 6-1, 6-7, 6-7, 6-7.

EDRICH'S RETURN TO FORM AUGURY FOR TEST?

W. J. (Jimmy) Edrich—who has not had a very good season since the start of the Test—has edged his return to the top form by scoring a century for Middlesex on Tuesday. Making runs abounding, Edrich was particularly successful in the second and third innings at Lord's.

Edrich's century had been a good omen, leading to his second century on Wednesday. He has now scored a century in the Oval, and his half-century in the second Test match at Lord's.

Our Commonwealth, New Zealand, where toil, sweat, and care is repaid tenfold.

FEW RICH AND NO POOR

THE story of New Zealand is the simple, age-old story of the blessings the land gives in return for the toil, the sweat and the care of its men.

Just over a hundred years ago the first farming families went out to the new colony on the other side of the world. The land was blessed by nature, the soil rich under the touch of the plains and the forests on the hills, but these were not gifts to be had for the taking; they were the rewards of hard and constant work.

New Zealand's first surveyor general wrote of this new country: "If you have the manliness and energy to despise a life of idleness and the resolution to toil for labour, however hard, for those who know—go to New Zealand where Nature is generous, luxuriant and fertile beyond your worst conceptions, where she will reward you tenfold for all the labour you bestow on her."

But go as a tiller of the soil with a resolution to work hard; for the most fatal error to suppose that one can indulge in a new country will command success. The land is the best settler who of the right type. They tilled a wild unbroken land, but a beautiful, civilized country.

"Good equipment makes a good farmer better"

The East African Poultry, Fur and Feather Breeders' Association is organizing its 1955 Open Show to be held at Eco House, Nairobi on July 23 and 24. This Association was formed with the object of assisting and encouraging the breeders of high class poultry, rabbits, pigeons and other small live stock.

The show will be a clearance of many varieties of stock. The Poultry Club rules and there are all classes covering all the major water fowl with a special prize for the best bird of the year.

The rabbit section will be Anglo and a number of varieties of the breed.

The pigeon section is divided in working birds, will be shown in perfect and special class.

The birds of the year will be shown in the class for birds which have been bred in Kenya.

Many pigeons will be shown in the first time in East Africa.

Airborne livestock stood trip splendidly

"REARER" COMMENTARY

GREAT excitement prevailed at Nairobi on the 24th of May when the Kenya's second batch of airborne livestock, consisting of 200 head of cattle, 200 head of sheep and 200 head of goats, were flown to the air station.

The doctor of the aircraft reported to be in excellent condition, and the livestock were all well and happy.

DESIRABLE PESTS

They save the farmer millions of pounds in crops

ALTHOUGH chemical insecticides continue to be the major weapons for combating the pests causing untold damage to crops and forests every year, the United States Department of Agriculture reports considerable progress in a radically different mode of attack—the use of parasitic insects which devour pests yet are harmless to vegetation and human beings.

Once a multi-wormed parasite is discovered, the greatest care is given to breeding the parasite in quantity by the Bureau of Entomology and Plant Quarantine.

There are also a number of "voracious" parasites which are currently being bred in large quantities in tropical regions in quest of desirable hosts.

During the 50 years' existence the insect has increased and bred to 800 parasites.

These parasites have come over the sea and have been found to be effective against a wide range of insects.

Berlin crisis is a second Munich, says Churchill

The Berlin blockade: more food by air

'RUSSIA MEANS TO DRIVE US OUT'

THE BERLIN situation was compared to the Munich crisis of 1938 by Britain's war-time leader, Mr. Winston Churchill, when he spoke as a member of the House of Commons last night.

Recalling the Foreign Secretary, Mr. Ernest Bevin's statement, Mr. Churchill said that the British Government would not be driven out of Berlin by force, and that it would stand by the United States in the event of a Russian ultimatum to the British Government to withdraw from Berlin and all the other Allies out, and turn the Russian zone in Germany into one of occupation.

Mr. Churchill said that the British Government would not be driven out of Berlin by force, and that it would stand by the United States in the event of a Russian ultimatum to the British Government to withdraw from Berlin and all the other Allies out, and turn the Russian zone in Germany into one of occupation.

Way to peace

We shall, therefore, support the United States in its efforts to bring about a settlement of the Berlin crisis by peaceful means. We shall, therefore, support the United States in its efforts to bring about a settlement of the Berlin crisis by peaceful means.

A Russian lie

In London the Foreign Office has said that a Russian report that it is preparing to withdraw from Berlin is a deliberate lie. The report, which was published in the Soviet press, stated that the Russian Government was preparing to withdraw from Berlin and all the other Allies out, and turn the Russian zone in Germany into one of occupation.

THE ELECTORS UNION

The Convention held in Nairobi last week was the first since the formation of the Union. It was a very successful one, and the members of the Union, who are now being elected to the Executive Committee, will be able to take over the running of the Union on July 1st.

The Convention also discussed the future of the Union, and it was decided that the Union should continue to work for the interests of the electors, and to provide a forum for the expression of their views on matters of public interest.

Closing stages of Electors' Union conference
**Kenya's oldest Western political
body goes out of existence**

THE OLD Kenya Convention of Associations, the earliest European political organisation in the country, closed its 11th annual Electors' Union Conference, which after sitting for about 10 days, ended on three days, finished at 7 p.m. on Friday, with the passing of a resolution winding up the Convention and entrusting to the Electors' Union the carrying of the Convention's work.

The resolution expressed the opinion that the Electors' Union was adequately providing the necessary political leadership for the country, and that the Convention should be dissolved.

The Convention was founded in 1948, and its members have been active in promoting the interests of the electors, and in providing a forum for the expression of their views on matters of public interest.

The Convention also discussed the future of the Union, and it was decided that the Union should continue to work for the interests of the electors, and to provide a forum for the expression of their views on matters of public interest.

**Sweden causes biggest
Wimbledon upset: No. 1
seeded player out**

WIMBLEDON'S biggest upset to date in the fourth round of the singles occurred on Friday when the favourite and No. 1 seeded player, Frank Parker (U.S.A.) was beaten by Sweden's 16-year-old tall, blond, earnest Bjorn Borg, who received the greatest triumph of his career in winning by 5-7, 7-5, 6-4, 10-8 in the week. Christo Chochoy (Italy) had caused the first upset by beating another favourite in John Drysdale (Australia).

The match lasted three hours with the Swedish player in the 10th and 11th sets. The first three sets were played on Centre Court, but the match was moved to the 12th court for the final straight.

Another surprise in the men's singles was the defeat of Eric Sturzenegger (Switzerland) by the 16-year-old tall, blond, earnest Bjorn Borg, who received the greatest triumph of his career in winning by 5-7, 7-5, 6-4, 10-8 in the week.
