ARABS REFUSE TO PROLONG CEASE-FIRE

Mediator will withdraw UNO men from Palestine today

ARAB probability of the Arabs and Jews restoring their truce in Palestine ended yesterday, for within a few hours of the truce ending, at dawn today, the United Nations mediator, Count Bernadotte, refused to accept the Jews' demand that the cease-fire should be extended by another 24 hours. Then yesterday there was reported to have been some

agreement by Count Bernadotte, the mediator who arranged the truce, that he had been trying to get both sides to accept a permanent settlement, stated that today he would withdraw the United Nations mediator from Palestine—members and staff of the Truce Commission and the truce observers.

WAR CHIEFS COULD NOT AGREE

THE BRITISH Government has disclosed that at a crucial stage of the second world war in the summer of 1944 when invasion troops were fighting their way through France and the Allies were discussing the future strategy of the war, the British Chiefs of Staff and the Allied Commanders in Chief could not agree on a common plan.

The disclosure is made in a report to the Committee of Chiefs of Staff by General Sir Henry Dornier, Chief of Staff of the British Army, who was present at the meeting. The report states that the British Chiefs of Staff were in favour of a strategy of attrition, while the Allied Commanders in Chief were in favour of a strategy of a decisive battle. The report also states that the British Chiefs of Staff were in favour of a strategy of a long and hard fight, while the Allied Commanders in Chief were in favour of a strategy of a short and sharp battle.

£6,877 still climbing

EXPORTS from Kenya and Uganda for the first three months of this year, as compared with the corresponding months of 1945, show a total increase of £6,877.

The Kenya and Uganda Governments have announced that the total value of exports for the first three months of this year was £6,877 more than for the corresponding months of 1945. The increase was due to a number of factors, including an increase in the value of exports of agricultural products and a decrease in the value of exports of manufactured goods.

LAND FOR SETTLEMENT
To the Editor, "E.A. Standard," Sir—At their meeting on Friday, June 18, the Thomson Falls District Association passed the following resolution: "That the Thomson Falls District Association of Kenya be requested to advise the Government as to the possibility of land under beneficial occupation in the Thomson Falls District." The members of this Association would never have voted on this resolution if they had realized the implications. To have such implications clause may make use of a paragraph of the Thomson Falls District Association, acknowledge that some of our settlers, who, although they are excellent farmers, are not making good use of the farms, have too much land. Other settlers, who have made moderate use of their land, are not making good use of it.

It is a well known fact that the Government is not in a position to acquire land for settlement in the Thomson Falls District. It is a well known fact that the Government is not in a position to acquire land for settlement in the Thomson Falls District. Chess

Attacking tactics in a planned strategy

By B. BARTON-SCKETT

In no country in the world has chess so far advanced as in the Soviet Union. In imagination as well as in fact, thousands of competitors and spectators are held spellbound by the moves of the master. Chess is taught in the schools and colleges and on most occasions, the leading players of the world meet in simultaneous exhibitions against teams of Russian players.

"KIWI certainly gets talked about."

How many people are talking about KIWI? You can't see it in the newspapers. You can't see it in the magazines. You can't see it in the books. You can't see it in the papers. You can't see it in the news. You can't see it in the stories. You can't see it in the plays. You can't see it in the movies. You can't see it in the radio. You can't see it in the television. Her Aching Joints and Depression Vanished

As old age comes on, it often sends out warnings in the form of aches and pains. These aches and pains are the body's way of telling you that it is getting old. But there is a way to keep your joints and muscles in good shape. There is a way to keep your mind and spirit in good shape. There is a way to keep your life in good shape.

VERSATILITY NEEDED

By JOSEPHINE CULBERTSON

It is usually sound policy to play in the conventional manner that suits will break in the most probable of normal play. But in the course of the play, if you discover that the cards are not your plan may need revision. For example:

MARKETING CONDITIONS IN THE U.K.

World short of good coffees, but grocers well stocked

As this is expected to be Britain's recovery year, the Secretary of the Indian Coffee Board, London, has been addressing to planters information on developments as regards the trend of the market in the United Kingdom and elsewhere. He pointed out that, although there is no freedom of movement, and no competition, since the Ministry of Food constitute the market wholly and solely today.

There is a stated quantity of 1,200,000 cwt. of America's recent output on Britain's market, which is still being held in London. It is held for use in the United Kingdom and is well in excess of what the Ministry of Food require, and cannot be taken to any other market.

It is to be noted, however, that the Ministry of Food are not taking any action to reduce the quantity of coffee being imported, but are content to let the market take its course. SHORTAGES HAMPER SPLENDID HARVEST

A RECORD maize crop is expected in the Orange Free State this year, and farmers are beginning to harvest in earnest. They are, however, hampered by a serious shortage of farm labour.

Late rains and frosts have already affected the harvesting by about three weeks. The crops are in as soon as possible.

Up now the majority of corn growers are not so much concerned with the quantity of their crop as they are with the quality of their crop. It is well known that there has been a serious shortage of farm labour in the Orange Free State this year, and farmers are beginning to harvest in earnest.

DANGEROUS PLANT DISEASE MUST BE KEPT OUT OF KENYA

WHY is there a general prohibition on the importation into Kenya of all herbaceous plants? What plants are included in this category? These are but two questions often asked by people who have either imported plants or are about to do so. The answer to the first question is that the Government of Kenya is anxious to exclude from the country all plants which are dangerous to the health of the people. The answer to the second question is that the Government of Kenya is anxious to exclude from the country all plants which are dangerous to the health of the people.

Crime and Punishment
In the Nairobi Magistrate's Courts this week two Africans convicted of an assault on police on duty were sentenced to six months' imprisonment with hard labour.

In a fracas with two police officers on July 5, 1948, at 12, when three Africans were charged with assault on police on a Nairobi path, one of the stable was shot dead by a constable on the ground with the African, in the act of striking the constable, to use against the prose police. The constable who had been shot had simultaneously assaulted the constable who fired the shot. Fearing sentences, the Magistrate made this remark: "By your unprovoked attack on these constables, you were both the cause of your companion being shot."

The Magistrate was apparently in no doubt about the nature of the assault. He rejected the story of the two accused that police had started the trouble. The attack, he said without qualification, was "unprovoked."

The Court Prosecutor asked for a heavy sentence. He said: "I do not expect any results on the plea and show people that they do not pay."

The court sentenced the two to imprisonment with hard labour for six months. He said: "I do not expect any results on the plea and show people that they do not pay."

Kikuyu lose their appeal
The Government of Tanganyika has set out its attitude to the recommendations in the Civil Service Salaries Commission report to be placed before the Legislature.

In general, the report is acceptable to the Government. The Government is prepared to accept the recommendations and to include the rates of pay proposed in the report, and to include the rates of pay proposed in the report, and to include the rates of pay proposed in the report.

'Nairobi lacking in pride'
Nairobi townsmen pride themselves on their little sense of pride.

The complaint came from Municipal Engineer, Mr. H. M. Munzira, who said that the town was "lacking in pride" and that the Municipal Council should be more concerned with the appearance of the town.

'Too complicated'
The suggestion that Whitley Court be set up as a special court for the Government of Tanganyika is considered "too complicated" by some members of the Legislature.

The suggestion that Whitley Court be set up as a special court for the Government of Tanganyika is considered "too complicated" by some members of the Legislature.

Seales too low
It does however accept the proposition that the rates of pay for the various grades of the civil service should be fixed on a scale which would be acceptable to the public.

The Government is prepared to accept the recommendations and to include the rates of pay proposed in the report, and to include the rates of pay proposed in the report.

African housing
Mr. Ridge contended that he thought it premature to suggest that the Government should be more concerned with the appearance of the town.

The Municipal Council should be more concerned with the appearance of the town.

Accountant for trial

The Lighter Side

FAIR ENOUGH
WHILE the din of one Test match has mercifully died down and before the ring of the new one starts up properly, it might be as well to seize the chance to examine a little more fully that pronouncement on the former day that, as a general principle, women should be paid at the rate of four-fifths the scale of men.

Now that was a pretty courageous statement to come away with and it is rather surprising that something more hasn't already been heard of it. It is a fair remarking, too, that the team responsible for that brave statement had, in addition, the courage to say how they arrived at it. Being quite tough, too—they said that women never took their job as a sport of overtime to them. In a pinch, would carry on until their work was finished, cheerfully putting in a spot of overtime to clear up arrears.

It was a mighty serious impulsion to make, and why some men have taken over it is hard to understand. Can it really be that there is a man who is so speechless because some discerning masculine eye has detected his great lack behind their favorite jingle which ends—
"A woman's work is never done."

That statement has allowed again a domestic argument to rise. There always seemed to be a fire in it but what it was no man could quite make out, and accordingly it became the "Fire Christmas."

If the Government inquiry did not bring about a change in the way of thinking of the men who are in charge of the money, it is a pity that the Government should have taken the trouble to do so. It is a pity that the Government should have taken the trouble to do so. It is a pity that the Government should have taken the trouble to do so.

WEEKEND PAGE EXPLAINS A MACHINE
It reveals if Bill and Joe would pull together on a job of work

AN American scientist has his way, the co-ordinator of the future won't just sit at a desk opposite the prospective employer, accept the offer of a cigarette and embark on a colourful story of his life. He will probably be interviewed by a peculiar-looking man habitually dressed in a blue uniform, and as long as a desk and fitted with a machine, which will be the machine of the future. The man or woman—who wants the job will be asked to answer a number of questions. The results will be noted automatically and the employer will have to judge by rate of them.

His 'fortune' may buy him a teaset

YOU HAVE MILLIONS
Millions of dollars are being spent every day in the United States to buy a teaset. The teaset is a machine which will tell you how much money you have. It is a machine which will tell you how much money you have. It is a machine which will tell you how much money you have.

COMPTON SAVES THE DAY:
TOURISTS' EARLY SHOCKS

A SEVENTY-one year old Denis Compton, still fit as a bull, today saved the day for the British cricket team in the first Test against Australia at Sydney. The side was all out for 303 and in turn, raised enough venom to take two Australian batsmen before tea for 13 runs.

Net practice
Compton's return on Thursday was greeted with interest and admiration, and he was seen to be in the best of his form.

RED'S 'SABOTEUR MALAYA'S ONLY CALAMITY

Sudden swoop succeeds before reinforcements can intervene

BETWEEN 70 and 100 Communist guerrillas, their machine guns blazing, swept into Malaya's only coal mining town of Batu Arang yesterday and held it for 90 minutes while skilled saboteurs wrecked vital equipment.

They singled out five Chinese for deliberate murder and their widows before police reinforcements and Gurkha troops could arrive.

Another group of 30 armed terrorists raided the Sengang rubber estate near Kuala Kangsar, 150 miles away. The Indian manager escaped through the rubber trees leaving the guerrillas in control of the estate.

Royal Air Force Spitfires roared low over Batu Arang as the guerrillas carried out their biggest attack yet on the mouthpiece of violence in the peninsula.

Roads and telephone lines cut

The assault began at seven o'clock in the morning when the guerrillas cut road and telephone lines into the town, which is about 25 miles from the Federal capital, Kuala Lumpur.

The hold up at Batu Arang on the railway station and berthed 50 passengers into the stationmaster's office, where they kept them for more than an hour. On the mine itself, a modern party, including experts who know the vital machinery, seriously damaged the three main excavators, compelling them to run on their own legs into the open.

Other men seriously damaged eight trailers, attacking them with hammers or firing shots into vital parts such as the water pumps and compressors.

The manager of the mine is reported to have asked for military assistance a fortnight ago but all troops were tied up elsewhere.

The mine was the only coal mine operating in Malaya before the railways and industrial centres. (Reuter)

London gets first-hand report on Berlin crisis

SPOTLIGHT on the Berlin crisis switched yesterday from the German capital itself to London where the British Ministry of Foreign Affairs, General Sir Robert Clayton, having spent two hours at the Foreign Office giving a first-hand report on the situation in Berlin.

Later he called at the Ministry of Defence to discuss with the Chiefs of Staff and he was to meet the Foreign Secretary, Mr. Ernest Bevin, for talks on the situation in Berlin.

A spokesman of the Foreign Office said that the British Government is in touch with the Soviet Government on the Berlin crisis and is being kept up to date on the situation in Berlin.

No reply yet

NO reply has yet been made by the Soviet Government to the demands of the German capital to allow the free movement of goods and people across the Berlin blockade.

The British Government has stated in Berlin that it will continue to supply the city with food and other necessities.

MALAN IS LIKELY TO HOLD LEAD

'He must have' a Senate majority

POLITICALLY, the Union is still looking onwards towards the provincial elections, which although they are unlikely to be held before next February will decide whether Mr. Malan and the Nationalists are to remain in power or to be forced to go to the country.

The pressure would come from a Senate in which the majority would have the majority.
