Incentives To Work

Britain is not a country where the Gallipoli method of taxation has been so much used. It has been much more subtle. It has been more information, more persuasion, more education. It has been more of a "soft" approach to the United Kingdom than the people of this country have known. **SEQUEL TO NAIROBI POLICE

The case of the death of a Nairobi police officer has become a legal puzzle for the Kenya High Court. The judge is asked to define what a European is in the context of the law. The case involves a police officer who was killed while on duty. The defendant is a man of African descent who claims that he was not a European at the time of the incident.

Girls' High School: Accommodation Problem Innovation At St. Andrew's

A correspondent of the East African Standard says, some time ago, the Government, under the leadership of the Kenya High School for Girls and a statement of the conditions as now made to the East African Standard for publication. The correspondent declared that as long ago as February 1948 certain members of the staff of the school in the vicinity of the gates of Government House were summoned to accommodate extra pupils due to the opening of the school at the beginning of this year. But that in December 1948 it was not ascertained whether the buildings would be available, and, in view of the fact that no effective steps were taken by the Government of Kenya in connection with the problem. The result was that at the beginning of this year the re-assembly of the school had to be postponed and all eventually received an S.O.S. for pre-arranged buildings for a Government school.

The correspondent contended that this failure in respect of accommodation would seriously impair conditions at the school for the start and progress of the year.

As there is no prospect of the temporary buildings occupied by the school being available until the first of March or April next year it has been suggested that temporary measures be taken and for emergency quarters provided.

Official Statement Government officials are now in the process of dealing with the problem and the official statement issued on the subject on 19th December 1948 that difficulty would be experienced in providing accommodation for the number of girls likely to be admitted to the school in 1949 and an approach was accordingly made to the staff of Government House with a view to securing the use of the area near the W.A.A.F. Camp in Government House grounds for the purpose of providing temporary accommodation. It was made clear that the Government would be prepared to meet the cost of the buildings and to provide the necessary furniture and fittings. The Government also offered to provide the necessary furniture and fittings for the temporary accommodation. After a comprehensive survey of the possibility of renting suitable alternative accommodation, it was decided to erect prefabricated buildings on the site.
