QUARTZ CRYSTAL HUNTING IN TANGANYIKA

Exciting Quest of Big Scientific Value

The Geological Division of the Department of Lands and Mines in Tanganyika has recently reported an article by Mr. H. J. Thompson, describing the exciting occurrence of what is called "Piezo-electric Quartz" in the district of the Kilimanjaro. The decision to reprint this important paper will give an insight into the public.

It is explained that crystals of certain minerals change their shape constantly when an electric charge is applied to them and, conversely, if they are not under influence of tension, an electric charge is developed upon them. This electric charge is properly known as the piezo-electric effect and has many applications in modern electrical instruments.

Of those minerals the crystals of quartz exhibit the piezo-electric effect. Quartz is found in great quantities in the Kilimanjaro district and is being mined for its use in electrical instruments. It is a valuable mineral and is being mined in great quantities in the Kilimanjaro district.

A No. 1 Problem

French quartz is one of the most important minerals in the world. It is used in a wide variety of industries and is a valuable mineral. It is a valuable mineral and is being mined in great quantities in the Kilimanjaro district.

The first and, at the time of writing, the only quartz crystal in the world is the one found in the Kilimanjaro district. It is a valuable mineral and is being mined in great quantities in the Kilimanjaro district.

RECORD WAGES AND FINE WEATHER THE CAUSE

(Special Correspondent)
 It is not surprising that what appeared an unconvincing evasion Mr. Shawcross said Mr. Holt had not intended to pose the question, was only present because the Government had not answered themselves. Mr. Shawcross's attack cannot be too severely criticised because he has not been speaking in the House of Commons but in the House of Lords. It is the Government's responsibility to answer the question of the cause of the shopping boom. It is the Government's responsibility to answer the question of the cause of the shopping boom. It is the Government's responsibility to answer the question of the cause of the shopping boom.

Business Correspondent
 To add to our holiday spirit, the summer time began last weekend. Putting on the clocks has coincided a beginning of summer time in earnest and has meant the loss of an hour's sleep when they are the brilliant hours breaking through early hours. Last Sunday hundreds of cars left London for south coast resorts. Cyclists thronged the roads to famous country beauty spots. Trains to seaside resorts are packed. The British people are enjoying the summer months. The British people are enjoying the summer months. The British people are enjoying the summer months.

Cost and Culture
 This class hatred attitude was brought to a head this week by Mr. Oswald, who has taken over the grounds of Westworth Woodhouse—owned by Earl Fitzwilliam—for the purpose of securing outdoor coal. This is one of the oldest in the country and the decision has caused the anger to come to London by interview the Prime Minister and the Minister of Fuel and Power. Of course the matter was raised in the House and this week members were rather shocked by the fashion in which Mr. Shawcross attacked the Minister of Fuel and Power. It is the Government's responsibility to answer the question of the cause of the shopping boom.

News Items
 We have had three new plays this week. One of them is Mr. Priestley's 'The Last Man on Earth'. This is a play on one of those psychic themes which Mr. Priestley has touched upon so handsomely. It is about a mad temperamental couple who with their wife go to a small Welsh hotel to try to catch up their matrimonial marriage. They find there Braunton's queer art and the composer's affinity and know every active and thoughtful of like. It ends in a tragic manner. There we have a new banned play with a fine plot and a fine cast. 'The Last Man on Earth' is a play on one of those psychic themes which Mr. Priestley has touched upon so handsomely. "IN THE SPRING—"

(Bird Notes by Babbler)

SPRING seems to be here at last. The first of April dawned in a bluish haze and as evening with vivid tints called it its children—the blue birds and the garden and wilder places are full of cheerful Spring notes. The birds are full of song and it is a joy to hear their voices. The first of the birds to appear are the downy woodpecker and the blue bird. They are seen in the garden and in the fields. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields.

Two by Two
A great number of birds are now nesting and awaiting the arrival of their young. The coming of Spring has been a success. The birds are nesting in the fields and in the garden. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields.

Wetland Birds
My walk was on the other day of the strange behavior of these ducks. The ducks are nesting in the fields and in the garden. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields.

State of the Sea
During the last three months I have had the opportunity of studying the bird life round the coast and river mouths in the vicinity of St. Andrew's and have much pleasure in making a great variety of notes. The ducks are nesting in the fields and in the garden. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields. The blue bird is seen in the garden and in the fields. The downy woodpecker is seen in the garden and in the fields.

FARMERS—KEEP YOUR MOWER KNIVES SHARP

This inexpensive knife grinder is designed to meet the demands for a handy, portable machine with which the farmer can sharpen his mower knives easily and quickly, and still retain the correct bevel edge and cutting angle of each section. It will grind one edge of each of the two sections at the same time. The knife is then moved along and the next two sections are ground. A spring maintains the pressure of the stone against the knife and the stone is of the proper shape to give the sections the correct bevel. The knife is held in the machine by clamps and simply turning the crank moves the stone over the edges of the sections. A handle on the frame permits holding the stone at any desired point so that nicks can be ground out. INTERNATIONAL HARVESTER EXPORT CO. (Inc. in U.S.A.) Express Lane, P.O. Box 506, AUTHORIZED DEALERS: Kenya and East Africa: Messrs. G. & J. L. ...

PALESTINE REPORT NEWS AND ARABS MUST DISARM IMMEDIATELY

Britain wants U.S.A. to share military and financial responsibilities

The British Prime Minister, Mr. Clement Attlee, declaring that the evacuation of the report of the Anglo-American Committee on Palestine would entail very heavy commitments, said to ascertain to what extent the United States Government was prepared to share the resulting additional military and financial responsibilities.

Mr. Attlee said it was clear from the facts presented in the report regarding illegal armies in Palestine that it would not be possible for the Government of Palestine to admit these armies unless these formations had been disbanded and their arms surrendered.

Mr. Attlee said: "The British Government desires to express their sympathy for the Jewish people who have been persecuted in the preparation of the report. It is essential that the Agency should take a positive part in the suppression of these activities."

Mr. Attlee said: "The British Government desires to express their sympathy for the Jewish people who have been persecuted in the preparation of the report. It is essential that the Agency should take a positive part in the suppression of these activities."

More Rioting In Cairo TWO POLICEMEN KILLED

Alexandria, May 2. Rioting at Parkin El Awal yesterday afternoon, culminated in the death of two policemen and scores of unknown numbers of students.

The cause of the rioting is not yet known. It is believed that the rioting was the result of a demonstration against the Government.

Alexandria was placed out of bounds for several days. The rioting was the result of a demonstration against the Government.

A communication published last night in the Egyptian press stated that the rioting was the result of a demonstration against the Government.

The rioting was the result of a demonstration against the Government. The cause of the rioting is not yet known.

DAIRY FARMING SHOULD PAY DIVIDENDS

(Tips for economic milk production)

Economic milk production is almost entirely dependent on the farmer's management of the herd. These facts are interpreted and it is usually not sufficient for one of them. Each one must receive attention. The first essential to profitable farming is a productive herd. This is the primary factor in milk and cheese production. No amount of skill will be of any use unless the cows of milking cows are of a satisfactory breed. The best breed is the Friesian, but the best cow is a heavy draught horse. A cow that is not bred and selected for speed, but is just a cow of the farmer's own stock, is his herd. This is the case with the cow that is a producer of milk. A cow that is a producer of milk is a cow that is a producer of milk. This type of cow should be eliminated from the herd.

Paragonized Feeds—Low milk production may often be traced to inadequate feeding. The cows may be underfed or they may be getting rations which are unbalanced. Rations for milk cows are produced in various ways and are very essential. Protein supplements, such as oil cakes, are not at all essential at present, but the farmer should be aware of the fact that the necessary protein supplements are not available in the form of oil cakes. The necessary protein supplements are not available in the form of oil cakes. The necessary protein supplements are not available in the form of oil cakes.

Watering—In order to find out which cows are productive, milk records are very important, so that the operator can select the unproductive cows from his herd. In order to make any progress, the milk records of the herd must be kept. The records of the herd must be kept. The records of the herd must be kept.

Legume—Legume is essential for dairy cows. It is a source of protein and is a source of protein. It is a source of protein and is a source of protein. It is a source of protein and is a source of protein.

Another reason for keeping milk records is that they serve as a record of the cow's production. The records of the cow's production are a record of the cow's production. The records of the cow's production are a record of the cow's production.

In addition to good milk quality, health and vigor are essential in the herd. All necessary precautions should be taken to keep the herd in good health. In addition to good milk quality, health and vigor are essential in the herd.

Janie Jenkins and Margaret O'Brien, N.S.C.'s juvenile stars, sing together with a calf.

Diary of a Farmer's Daughter

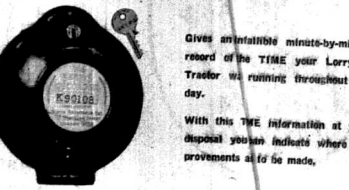

One of Kenya's busiest young people dropped into our office last week. She had come into town to buy stores for the farmer's farm, which she is helping to manage. She gave us a sample of a typical working-day on the farm. She gave us a sample of a typical working-day on the farm. She gave us a sample of a typical working-day on the farm.

POULTRY AND D.D.T.
Those poultry-keepers who may be looking forward to using D.D.T. for killing lice on poultry will be interested to know that American experiments up to 10 per cent of weight loss do not give results better than the other methods of chemical treatment. The results with D.D.T. are better than the other methods of chemical treatment.

["AFRICA" CORRESPONDENT] Captain A. Brown, the president of the Nakuru English Society... The Vice-President of the Society, proposed the other members in East Africa.

The birthday anniversary of the late Governor, Sir Charles Kenyan, is celebrated each year in the country of the George, one of London's oldest times. This year's anniversary was the 10th, and the "Lionel" played an important part.

Indian Hotel For Johannesburg?

["FROM A SPECIAL CORRESPONDENT"] Pretoria, April 27.—An application for a provisional licence for the proposed 12,000 Indian hotel to be erected in Johannesburg, was heard by the Licensing Board yesterday.

Objections against the proposed hotel were lodged by an Indian Association near the site. The South African Commission, and on the grounds that difficulty would be found in obtaining a building permit.

In common with all other Local Native Councils that at Mervu has been the case, the South African Commission, and on the grounds that difficulty would be found in obtaining a building permit.

'DICKENS' IN A LONDON INN-YARD

["AFRICA" CORRESPONDENT] London, April 24.—A most interesting and instructive lecture was given last evening at the meeting room of the Uganda Society, by Major Lonsdale D.S.O. and I.C.M.C., now second in command of the 27th of Africa, at the Victoria Hotel, London.

The lecture spoke of the march of the 27th of Africa from one of Charles Dickens' novels to the present day. The speaker, Major Lonsdale, stated that the position was hopeless and that the British poured tribute into the enemy's hands.

100 Tons Of DDT a Day

["AFRICA" CORRESPONDENT] The Union is now manufacturing 100 tons of an average rate of 100 tons a day, and the output is expected to rise to 200 tons a day. The present rate is believed to be the lowest in the world.

New Galvanizer?

Johannesburg, April 26.—A building believed to have been designed by Galvanizer at Ipswich in 1772 has been found by a collector of art dealer Dr. H. K. Lovell. It is a building of the 18th century, and is believed to be the only one of its kind in the world.

Too Many Assaults At Nakuru

["AFRICA" CORRESPONDENT] The Chief Justice of the High Court, Sir Charles Kenyan, has issued a warning to the public that the number of assaults in Nakuru is increasing.
