### £1,000 a Year Men in Kenya Civil Service

ONE-FIFTH OF WHOLE EUROPEAN GOVERNMENT STAFF

**Economy Report Revelations** 

ARBITRARY REVISION REGARDED AS CONSIDERABLY OVERDUE

Candid criticism of the burden of salaries paid to Kenya Civil Service is contained in a chapter of the Economy Report representing the views of the majority.

Of the five members the chairman in view of his official position could not express an opinion and one other member had left the Colony before the recommendations were available to him.

It is proposed by the Report that the Kenya salary bill should not exceed one million pounds per annum—that is to say a reduction of over £200,000.

Examples are quoted from the Medical. Agricultural and Education Departments showing that there are 127 officers who draw £1,000 a year or over, either includ-ing or excluding their various allowance to which they are entitled under the present system.

Out of the whole European Civil Service over one-fifth draw £1,000 per annum or more including their "hidden emoluments."

It is suggested that an arbitrary revision of the existing salary scales is considerably overdue.

### The Second Test at Lord's

#### ENGLAND BEHIND ON THE FIRST INNINGS

#### Fine Bowling by Balaskas

SOUTH AFRICANS DECLARE YESTERDAY MORNING

England have by no means an easy task to get 309 runs to win the second test at Lord's against the South Africans. They were 30 behind on the first innings, and yesterday the tourists declared in the forencon with over 300 runs oby

Balaskas was the outstanding bowler for the South Africans.
The wicket lent itself to spin bowling, and the visitor took every inch of advantage which it would give him to get five wickets for just a fraction less than 10 runs

On a crumbling Lord's wicket the English task is a formid-able one, one which will demand the best from every bataman if the game is to be saved.

A Colleague's Criticism

The main purpose of the Bill is to improve the quality and quantity of native produce by eliminating uneconomic competition and by establishing central markets where licensed traders in produce can operate. It is also proposed to prohibit the barter system and to insist on cash payments.

One Indian Member, Mr. J. B. Pandya of Mombasa, revealed that the Federation of Indian Chambers dis-agreed with the action taken by the others in walking out at so early a stage in the proceedings. He himself intends to wait until after the Select Committee have

British cars are becoming more and more popular in Kenya as people are beginning to realise that they are capable of standing up to rough treatment not only as well, but better, than others. Even the "Baby" of the Austin range, illustrated above, will carry you in comfort over really bad roads, as we shall be pleased to demonstrate, and the run-ning costs are almost negligible.

If you want a larger car than the Seven, we shall be pleased to demonstrate the Ten and Fifteen-Nine Models.

#### GREATER AUTHORITY SUGGESTED FOR PROVINCIAL COMMISSIONERS

Far reaching changes in the machinery of Government are proposed in the Economy Report by two of the members of the Committee, Major the Hon. F. W. Cavendish-Bentinck and Sir Robert Shaw.

Bentinck and Sir Robert Shaw.

Hey suggest that in order to increase efficiency and facilitate economy the Departments of Government should be grouped under experienced administrators who would in fact be Ministers with various Portfolios and would be capable of taking direct decisions and carrying greater responsibility than is the case under the departmental system existing to-day.

Another suggestion is that Provincial Commissioners should be given more definite powers for the administration and development of their areas by being responsible for the co-ordination of the work of technical officers from other departments posted to the Provinces. It is further suggested that Provincial Commissioners should perhaps be permitted to prepare budgets on a provincial basis.
