PASSENGERS INCLUDE CABINET MINISTER AND WELL-KNOWN EXPLORER

Italian military aeroplane, while on a flight from Italy Hatian minitary aeropiane, white on a might from Itary to Eritrea, crashed 12 miles from Heliopolis, in Egypt, and the four members of the crew and the three pa-sengers were killed. The wreckage was discovered by British Ais Force machines, which went out in search.

According to a message from Rome, sabotage is suspected as being the cause of the disaster, as the machine was in perfect order when it left Cairo and the weather conons were good.

The victims of the disaster included Signor Luigi Razza, the Minister for Public Works, and Signor Raimondo Franchete a well-known explorer, who had previously conducted expeditions in Abyssina.

Colonial Vote Debate

"WE ARE NOT AT ALL SATISFIED WITH THE GOVERNMENT OF KENYA.

During the debate on the Colonial Office vote in the House of Commons, leading members of the Liberal and Labour Parties made it quite clear that they were op-posed to the reservation of the Kenya Highlands for European settlement.

Mr. W. Lunn, one of the foremost Labour critics of Colonial policy, said: "I am bound to say that a Labour Government would never agree to that idea and we will repudiate it as soon as ever it is possible to do bo."

At another stage in his speech Mr. Lunn declared: "We are not at all satisfied with the Government of Kenya Ha and the domination of settlers in that area. we are gard it as the worst form of a Government in the Empire."

same speaker expressed the view that Income Tax ought to be imposed on the European people of Kenya and he asserted that the Kenya treasury was being used as a milch cow by the white settlers to the detriment of the Africans.

An Invitation to Ladies— To Come and View

The De Soto Safari Sedan

TARTING on Tuesday, 13th August, and for a week afterwards, we will have great pleasure in presenting to you the Airflow De Soto car which has travelled from Le Havre to Nairobi, via the Sahara Desert and the West Coast, driven by the well-known traveller Mr. Murray G. Sawyer. In spite of this great journey it looks like new, yet it has not been re-painted. Judge for yourselves if the car has not stood up marvellously well.

On Tuesday we hope to have an opportunity of explaining to you the merits of this "De Soto Safari Sedan," the dual-purpose car. (Smart town sedan and weight-carrying safari car combined.) Observe the load that Mr. Sawyer carried without difficulty!

THERE will be a different guessing competition each day the car is on show and the prize each day will be a fill-up of the winner's car's tank with petrol or paraffin according to choice.

 W_{E} look forward to meeting you and if you will turn up in numbers we will have a very enjoyable time next week.

IF you can bring your husband along we will talk pleasantly to him but this appeal is to the Ladies of Nairobi.

NATROBI

VAIROBI.

Dear Sirs,
Your composts and Manures in my vegetable garden
produced vegetables which really surpassed my expectations for quality both on the table and show bench.
One of my pet vegetables is celery which I have a
knowledge of its culture now for over 25 years, we close
this to over four feet in length, in perfect heart, solid,
crisp and nutry (was secured less, 250°) shows that the
high quality of your manurial products is obvious, since
no other manures were used.

Yours faithfully.

Sir Edward Grigg Defends White Settlers

SPIRITED CHAMPIONSHIP IN HOUSE OF COMMONS

Increased Settlement Urged

AN IMPERIAL RESPONSIBILITY AND AN INESCAPABLE REALITY

ir Edward Grigg made a warm defence of the white settlers of Kenya in the course of the debate on the Colonial Office Estimates in the House of Commons, and, in the course of it, an equally spirited defence of an ex-Civil Servant, Mr. Rupert Hemsted, as a Mem-ber of the Carter Commission.

lir Edward said there were three courses: (1) to buy the settlers out, which would not cost much but was econosettlers out, which would not cost much but was com-nically impracticable; (2) to continue the present policy of drift with all its dangerous consequences, and (3) to realise that Britain was committed on this issue, that the problem could not be ignored and that the only wise course was to encourage fresh settlement in the Colony.

said the first thing to do was to look into the question of agricultural indebtedness and he added that the Gov-ernment had never given settlement in Kenya the finan-cial credit which had enabled settlers in practically every other part of the Empire to succeed.

This question of white settlement, he said, has to be faced in a different temper than that with which this House has approached it in recent years. The problem cannot be wished away, or hoped or abused away... It is a real root for our civilization in Africa if we get the right type of settlers to go there...

An indication that Ethiopia might be willing to cede territory to Italy in return for a loan and a port was given by the Emperor to the Addis Ababa, correspondent of the Havas Agency. - In regard to the plight of the settler, which he recognised, he contended that assistance to an amount of £300 per head had already been given by Government to the Colony's white agriculturists. He arrived at this figure by adding together the capital of the Land Bank (£500,000) and £110,000 repayable advances to the industrie.

Messrs. The Express Transport Company, NAIROBI.

Dear Sirs,
Your composts and Manures in my vegetable garden
produced vegetables which really surpassed my expetations for quality both on the taile and show bench.
One of my pet vegetables is celery which I have a
knowledge of its culture now for over 28 years, we took
this to over four feet in length, in perfect heart, solid,
crisp and nuty (we secured 1st., 2d) and 3f or priess in
this class at the recent Kaßete show) shows that the
high quality of your manurial products is obvious, since no other manures were used
