Resolutions for the Convention Session

DISSATISFACTION WITH CROWN COLONY GOVERNMENT

Defence of White Highlands

CALL FOR ABOLITION OF THE NON-NATIVE POLL TAX

There is already a considerable number of resolutions for the September session of the Kenya Convention of Associations and the provisional list is published below.

They express determination to defend the White Highlands principle, assert the gravity of the economic position, call for radical remedial measures, ask for the abolition of the Non-Native Poll Tax and reduction of grades licences, oppose the Railway financial policy, support the Economy Committee, favour an arbitrary revision of Civil Service salaries, support extension of the District Council system, back the principle of Union with Tanganyika and express a favourable view on re-organisation of Veterinary activities based on research.

This resolution considers that the time has arrived when a solemn warning must be issued to Government and the Secretary of State as to the widespread dissatisfaction with the present system of Crown Colony Government, no longer suited to the needs of the country and held to be responsible in no small degree for the present plight of Kenya.

Relief for Commercial Community

The Secretary of the Kenya Convention of Associations issued yesterday the following proposals in resolutions for the September session.

White Highlands

In view of the definite finding of the Royal Commission, published and approved by the Secretary of State, on August 21st, that the White Highlands of Kenya should be defined and safeguarded by Order-in-Council for the exclusive benefit of Europeans outside the boundaries of settlement, the Convention affirms its determination to defend by every means in its power the integrity of our Highlands, and, therefore, urges Government to leave the present state of affairs until the adoption of the proposals of the European Elected Members of their Memorandum of August 27th, 1932.

Economic Position

This Convention has considered the report of the Economic Departmental Committee, published in Paper No. 1 of 1935, and concludes that the measures proposed are inadequate to meet the situation in that the gravity of the position disclosed cannot be met by the piecemeal introduction of the various radical remedial measures towards alleviation of the acute economic distress affecting the bulk of the farming community.

Taxation

This Convention is of the opinion that the re-introduction of the Bill to amend the provisions of the Levy of a Non-Native Poll Tax for 1936 is no longer necessary in view of the fact that such tax should accrue therefrom should, therefore not be taken into account in forming the 1936 Estimates. The Convention further considers that the proposed Bill to amend the provisions of the Levy of a Non-Native Poll Tax for 1936 is no longer necessary in view of the fact that such tax should accrue therefrom should, therefore not be taken into account in forming the 1936 Estimates.

Civil Service Salaries

This Convention, having studied Chapter 8 of the Report of the Select Committee on Economy, considers that in view of the provisions of the bill, the history of the Civil Service salaries in Kenya since 1922, and the fact that the rates within recent years have been raised, the Convention is of the opinion that the proposed Bill to amend the provisions of the Civil Service Salaries Act is not necessary and that it should be dropped.

District Councils

This Convention is of the opinion that the proposed Bill to amend the provisions of the District Councils Act is not necessary in view of the fact that the present provisions of the Act are adequate to meet the requirements of the country, and that the proposed Bill should be dropped.

THE MASSACRE OF GLENGOE

Coin Accepted for the Nation

PERMANENT MEMORIAL

By Wirelincs: Daily August 22. The National Trust, Scotland, following the purchase of portions of Glenquoil at a recent sale, have now acquired the greater part of the glen which was the scene of the historic massacre. The purchase was completed over 1,200 acres and the land will be preserved as a national possession for all time.

ANTIQUES ON SHOW

Exhibits Worth £2,000,000 in London "Fair". The second antique dealers fair and auction, held at Grosvenor House, Park Lane, for three weeks commencing Friday, August 22nd, will be held at Grosvenor House, Park Lane, for three weeks commencing Friday, August 22nd. A governing condition of the exhibition is that the exhibits must be guaranteed to be between 10 and 110 years old. The exhibits which have been accepted for display on the opening day of the exhibition are valued at considerably over £2,000,000. An entirely new feature in London exhibitions has been announced for display in the opening day of the exhibition. The exhibits which have been accepted for display on the opening day of the exhibition are valued at considerably over £2,000,000. An entirely new feature in London exhibitions has been announced for display in the opening day of the exhibition. The exhibits which have been accepted for display on the opening day of the exhibition are valued at considerably over £2,000,000. An entirely new feature in London exhibitions has been announced for display in the opening day of the exhibition.

Water Ordinances

This Convention, while realising the essential desirability of establishing the Colony's water supply on a basis more suited to local conditions than exists at present, considers that the immediate implementation of the recommendations of the Kenya Land Commission regarding the Water Ordinance of 1932 and Section 80 of the Crown Lands Act, 1925, is of vital importance to many land owners in the Colony.

East African Union

This Convention supports the Memorandum which was drawn up at the Arusha Conference held on the 11th and 12th of February, 1935, and requests a copy of this Memorandum to be sent to the Secretary of State for the Colonies. This Memorandum further states that Government will give a definite reply to this Memorandum.

Squatters Ordinances

This Convention again calls for the early publication of the Report of the Committee appointed to consider the Amending Ordinance, 1935, and requests an explanation of the delay in its publication.

Veterinary Branch

This Convention strongly supports the principle of leasing the Veterinary Branch on research, and therefore strongly urges that in any proposals for the re-organisation of the Veterinary Branch the interests of the public should be paramount. It also urges that the Veterinary Branch should not be made a part of the Ministry of Agriculture, and that the Veterinary Branch should be made a part of the Ministry of Health.

HEAT WAVE IN BRITAIN

Resolutions have been received on the subject of the heat wave in Britain. The Convention is of the opinion that the present provisions of the Act are adequate to meet the requirements of the country, and that the proposed Bill should be dropped.

RATES OF EXCHANGE

The following rates of exchange were notified by the Bank of England: London on Paris, 75 3/8; London on New York, 48 1/2; London on Bombay, 125 1/2.

SETTLEMENT IN KENYA

Army and Navy Interest

Representatives' Visit

ON BEHALF OF RETIRING OFFICERS

Increasing attention is being directed to Kenya as a country in which a good naval officer career after retirement. In this connection, two officers, Major-General Sir G. E. Wright, of the Indian Army, and Captain G. Wright, of the Royal Air Force, are at present touring the Colony on behalf of the British Official Wireless Service.

THE WALKING OUT INCIDENT

Action Supported by Laikipia Farmers

MEMBERS CONGRATULATED

Meeting Protest Against High Native Taxation

"STANDEAR" CORRESPONDENT. A meeting of the Laikipia Farmers' Association was held at the Laikipia Club on Saturday, August 17. Major-General Sir G. E. Wright, Vice-President, took the Chair in the absence of Capt. Bover. The Chairman reported that Major F. C. Wright was coming to Kenya on Saturday next, August 24, to speak on the political situation. There had been insufficient time to postpone the present meeting, so another would be held on the 28th to meet those members of Legislative Council.

Land Charges

A letter from the Surveyor-General on the subject of policies for failure to pay instalments of Survey fees was read, in which it was stated that survey fees were not to be held on the 28th to meet those members of Legislative Council.

ROAD ACCIDENTS IN BRITAIN

Casualty Figures for a Week

The Ministry of Transport announced that the road accident figures for the week ending August 22, 1935, were 184 killed and 5,072 injured. In the corresponding week of 1934 the figures were 182 killed and 3,980 injured.

CATHEDRAL OF THE HIGHLANDS

Special Musical Service on Sunday Evening

A special musical service is to be held in the Cathedral of the Highlands on Sunday evening next, August 24th, at 8 o'clock. The service will be conducted by Mrs. Slater, a singer of the highest quality, who is accompanied by her vocalists. The programme will include the musical programme by singing "Gladstone Light" from "The Rose Tree". Mrs. Slater is paying a short visit to Kenya, has a warm and tactful and capable and excellent technical ability. She has had an extensive experience in the concert and oratorio work in England, and in addition to her vocal gifts, is an experienced and able pianist. Mrs. Slater has returned from an up-country tour of the service, and it is hoped that a large number of people will be present to appreciate the effort of hearing a singer who is accepted in the most traditional of artistic singing standards generally. The first chosen from the "Matthew's Passion" is "Dank in Grace". The musical programme will take place in the afternoon, and the service will commence at the usual hour, 6:30 p.m.

Great Activity at Downing Street

EMERGENCY MEETING OF MINISTERS

Gravity of Situation Realised

GOVERNMENT CONFERS WITH OPPOSITION PARTIES AND DOMINION REPRESENTATIVES

The situation in regard to the Italo-Abyssinian dispute is the most grave and serious since 1914, was the view expressed by Mr. Ramsay MacDonald on his return to London in response to the Prime Minister's call for all Ministers to attend a special Cabinet meeting.

There were scenes on Wednesday of great activity in Downing Street and Whitehall, with large crowds watching the arrival and departure of notable people. During the day an emergency meeting of Ministers was held, while the Government also discussed the position with leaders of the Opposition parties and groups, and with representatives of the Dominions.

The meeting of Ministers decided to recommend to the full Cabinet that Britain should stand firmly by the League of Nations, which implies the use of sanctions against Italy if the League so decides.

The Question of Sanctions

(THOROUGH BREVITY'S SERVICE). Samuel Hoare and Mr. Anthony Eden, who arrived in London on August 22nd, were seen by the press in their homes. Mr. Hoare was seen in his home at Little Gidding, where he is staying while Mr. Eden is staying in London. Plant for Profit or Pleasure!
1st August, 1935.
No. 3 VEGETABLES.
Messrs. The Express Transport Company, NAIROBI.
Dear Sirs,
Your composts and Manures in my vegetable garden produced vegetables which really surpassed my expectations for quality both on the table and show bench. One of my pet vegetables is celery which I have a knowledge of its culture now for over 28 years, we took this to over four feet in length, in perfect heart, solid, crisp and nutty (we secured 1st, 2nd and 3rd prizes in this class at the recent Kaleke show) shows that the high quality of your manured products is obvious, since no other manures were used.
Yours faithfully,
Original letter could be seen in our office.
THE EXPRESS TRANSPORT COY.

KENYA CONSOLIDATED

£32,000 For Intensive Development Plan

A NEW SUBSIDIARY—SEPARATE COMPANY FOR KITERU—KUIA: CONSOLIDATED TO KEEP LOGGERS

KENYA Consolidated plans to spend £32,000 on an intensive development programme, based on the estimates prepared by the Consulting Engineer, approved by the Board.

A statement issued reads: Mr. Hinkel, Managing Director of Kenya Consolidated Goldfields, Ltd. made a tour of inspection of the Company's properties in Kenya and expressed himself as highly satisfied with the progress and the excellent prospects shown by the various reefs exposed, which indicate both large tonnage and good values.

At a conference of the Board of Directors held on 4th July, 1933, the programme of development and future policy of the Company were discussed. The Consulting Engineer submitted estimates for an intensive programme of development to be carried out which would within the next four months bring into view the two main veins estimated for crushing and milling plant could be prepared and placed in the hands of the Company's purchasing agent.

The price of Bar gold was quoted in London yesterday at 140/1 an increase of 1/4 on the previous day.

The Board approved of the estimates submitted by the Consulting Engineer and has allowed the expenditure. The Board decided that the Kiteru Area should be worked by the Company itself and arrangements would be made as soon as the striking of the reserves has been completed for a separate company to work the Kiteru-Kuia Area.

The value of the second type are found within the Laved. These reserves are of great value having been named after the two veins first discovered within it. The estimate of the reserves has been defined at about 200,000 tons of quartz veins of varying length but which have been developed through only two years of work at the moment.

£76,000 FOR KENYA TREASURY—DIRECT REVENUE FROM MINING

8,000 Acres Occupied

Since January 1931, the Kenya Government has obtained about £76,000 in direct revenue from the mining industry. This information was provided in the House of Commons recently by the Secretary of State in reply to a question by Mr. W. P. Adams.

The Secretary of State for the Colonies, Mr. Malcolm MacDonald. As the reply is long and contains a summary of figures, it will be best to refer to the original report.

The gold-mining industry in Kenya has been making steady progress and it is hoped that some of the companies involved will reach large scale production by the end of the present year. As stated in the report, the Government has received an amount of plans and machinery orders to the value of £100,000.

The total revenue received by Government was £47,000 in January 1931, in mining fees, royalties, stamp duties, and other ways is about £70,000.

A LETTER FROM LONDON

East Africans Fail to Attract Attention

London, August 14. THE Gold shares on Monday kept quiet. The market was dull and the price of gold was steady.

Kenya Gold Mining Syndicate 5 shares 8/6. Wairangi Mines (Kenya) 5 shares 7/6.

Kenya Consolidated Goldfields 5 shares 10/9. K. African Goldfields 5 shares 10/9.

Kenya Gold Mining Syndicate 5 shares 8/6. Wairangi Mines (Kenya) 5 shares 7/6.

Kenya Consolidated Goldfields 5 shares 10/9. K. African Goldfields 5 shares 10/9.

Kenya Gold Mining Syndicate 5 shares 8/6. Wairangi Mines (Kenya) 5 shares 7/6.

Kenya Consolidated Goldfields 5 shares 10/9. K. African Goldfields 5 shares 10/9.

In Six Months £203,238 IMPRESSIVE GOLD EXPORTS FIRST SHIPMENT OF E. A. COAL

The Commissioner of Mines for the following mineral exports for the month of June, figures for the equivalent period of 1934 being shown in brackets:—

Table with columns: Mineral, 1933, 1934. Includes items like Gold, Silver, Copper, etc.

Business has continued dull with little or no interest being shown in London regarding the trend of prices from the other side. Almost all countries have dropped considerably and it is difficult to estimate how much can be attributed to seasonal conditions.

Although prices of East Africans have declined generally the same cannot be said of S.A. countries which appear to be fairly firm on steady demand from the Continent which has resumed buying its favourites among the Rand first-hand payers as an insurance against possible eventual devaluation.

Probably the most unexpected decline was registered by Boston, which closed in London yesterday at 4/9 as against 5/0 last week ago. It is possible that the market is still in a weak state they should attract a considerable amount of attention.

Kenya Gold Mining is the only shares to remain steady during the week. It is interesting to note that the former Mr. Mason who recently arrived from London by air and has been a visit to the mines is returning to London next week.

It is interesting to note that the transfer books of the Preference and Ordinary shares of Kenya Goldfields in London will be finally closed after August 23, (to-day) for the preparation and issue of letters of rights in respect to fully-paid shares in Kenya Mines (incorporated in Uganda Protectorate) to which shareholders in this company are entitled in substitution for their existing shares.

THE CEREAL MARKET

Continued Decline in Maize

The following is the weekly market report dated August 27, issued by the Kenya Farmers Association (Co-operative) Ltd.:

Wheat

The wheat market is quiet as far as the volume of business transacted is concerned and prices of all grades, except Manitoba, show very little change. Latest reports confirm damage to spring wheat crops in the United States of America and Canada and now appears to be increasing. This has done much to account for the rise in Manitoba wheat. Argentine maize has no definite accounts for the rise in its market. This should naturally improve the prospect of the Argentine wheat crop.

The following are the approximate values today: Manitoba (cash), Shs. 20/6; West Australian, Shs. 27/5; Russian (No. 1), Shs. 30/4.

Maize

Prices continue to show a decline owing to the general hand to mouth policy adopted by buyers. Shipments last week showed over a million quarters of maize have been cleared from the Plate, but only a comparatively small quantity was for European countries. During the week it has been possible to buy Plate cargoes up to and including December shipment for 15/6.

There are to-day offers of South African maize for shipment for August and September at 15/6 and 15/8 has been accepted for the earlier position. In view of the low prices now being quoted the more distant sellers are not keen to operate.

Other Cereals

Barley: There has been a further steady trade in Californian barley as prices ranging from 22s. 2d. to 24s. 6d. There are rather lower offers and are quoted now at 15/6 for good white quality.

Blackwheat: Manchurian is offering at 25/11/2. Best Japanese about 110/10; Dutch Marquise at 110/10; Cutter Beans: About 122/1; Cotton Seed: 44/5/1.

(Continued in next column).

S. S. MALDA

Passenger List for East African Ports

The following is the list of passengers travelling by sea from Mombasa which left London on July 27, for East African ports: Mombasa - Mr. W. Adam, Mr. and Mrs. H. Adams, Mr. I. W. Boston, Mr. and Mrs. L. E. Bolton, Mrs. Buchanan, two children and nurse, Mr. R. O. Chapman, Mr. R. M. Cowley, Mr. and Mrs. J. P. Duggins and child, Miss Parmelee, Mr. E. J. B. (John) Kabete, Mr. and Mrs. C. O. Hendings, Mr. Mrs. and Miss Herbert, Miss M. Jones, Mr. and Mrs. W. Keir and infant, Mr. and Mrs. P. and Master T.F. King, Mr. Knogh, Miss J. Le Louarn, Mr. R. F. J. Lindell, Mr. A. Mc Donnell, Mr. P. C. Minna, Mr. and Mrs. C.E. and Master Morling, Mr. W. L. Munn, Mr. W. J. Mumby, Mr. K. G. Nicolson, Mr. G. B. A. Norman, Mr. and Mrs. Parson, Mr. and Mrs. T. R. Rafterbury, child and infant, Mr. Bellantyne, Mrs. W. E. Scott-Lawson, Mrs. C. L. and Miss Selkirk and child, Mr. K. Simmonds, Mr. J. B. Sinclair, Lehart, Mr. D. P. Stowell, Mr. J. K. R. Thorp, Mr. and Mrs. E. M. Wain and child, Mr. H. C. Watwright, Mr. S. F. Water, Mr. J. L. H. Webster, Mr. L. E. Whitcomb, Mr. B. A. Wilkin, Mrs. Mrs. S. Wray, Mr. J. A. H. Wolf, Mr. M. O. Wray. Tanza - Mr. A. H. Mill. Zanzibar - Mr. H. A. Turvey.

Limsoo: £10-0-0. Sundowners: Remain unchanged. Pyramids: £40 per ton. Local market: No change from last week.

THE WEEK'S RAINFALL

Following is the B.R.A. Meteorological Service rainfall report for the week ending August 27, 1935:

Table with 2 columns: Station Name and Rainfall (inches). Includes stations like Eldoret, D.C., 2.15 31.85; Meru, 1.89 38.80; Kisumu, 1.03 20.26; etc.

THE "CHOP HOUSE"

Detective New Room at Terry's Hotel

Tucked away at the side of Terry's Hotel which faces Hartley Street, and accessible from the lounge and the main bar is the new Chop House, a handsome looking, well-furnished and brightly lighted. Here jaded travellers, seeking a meal at Terry's Hotel, may find an intimate and homely atmosphere, and more important still, being certain of an open special grill, or a cut from the joint which will be served to a Singaporean in a silver dolly.

Quite recently and unobtrusively the confectioner's shop which used to be a part of Terry's Hotel, as it is to be opened to-morrow has taken the place.

The room, which at a pinch will hold fifty people, has been designed by Mr. W. G. Palmer, and is quite simple, a happy blending of antique styles and modern workmanship. One can imagine tomorrow's luncheon being served in the refectory tables and chinking over the Friday fish or perhaps regarding the fish in contradiction to this is the interesting fact that all that has gone to the making of the room is East African.

On the floors above the painting are paintings by Mr. E. M. Woodford, representing amusing incidents, past and present, in East African life. One cleverly executed figure depicts a woman in a house overhead and distressed settler wondering what they can do about their grim father-in-law. The people, solid tables, and settles are made of Bode wood, the inside floor of Mahang wood, and the doors are made of M'vuli.

THE WALKING OUT INCIDENT

(Continued from page 1.)

Stockowners' Conference

Col. White named the question of the formation of a Stockowners' Association, because since the formation of the Board of Agriculture there has been no Stockowners' Conference. Although there are Stockowners on the Board it seemed desirable to have a body whose functions would be concerned entirely with the interests of the stock industry.

After discussion, however, it was decided to form a small committee consisting of Col. White, Major Edwards and Mr. Mills to deal with the question. It was understood that the Nairobi, Thompson Falls, and Narvaah Associations also intended to enter into the subject.

Native Taxation

Mr. Dykes spoke on the burden of native taxation, and proposed the following resolution, which was carried: "That in the opinion of this Association, the fall in the price of native produce has had the effect of more than doubling the real weight of native taxation, which, as a result is now oppressive and ought to be reduced to such an extent as to enable natives to cover it by the sale of a similar quantity of produce as sufficed to cover it at the 1924-28 Price level. It was decided to send a copy of...

iron, carried out, together with the rest of the metal work by Messrs. Haerts and Bell of Nairobi. In the finishing of this charming and homely room, Mr. Palmer has had the valuable co-operation and collaboration of Mr. H. E. Henderson, of Messrs. H. E. Henderson and Partners, Nairobi. The result will be seen when the New Chop House will be opened to the public to-morrow, and the room should find many patrons and admirers.

THE WALKING OUT INCIDENT

(Continued from page 1.)

Walking Out Incident

Recent incidents in Legislative Council then came up, and Capt. Richardson proposed the following resolution: "That the Association congratulates the four members on their refusal to take any further part in the present session of Legislative Council, when they realized that Government was determined neither to honour its own pledges nor to consult the Elected Members on matters of taxation."

Mr. Duggins and Capt. Cotter spoke strongly in support of the resolution. Mr. Adams opposed it on the grounds that much good had been accomplished in the past by co-operation between Elected Members and Government and that it would be a pity to drop the system. He thought it a mistake for the members to leave the Council.

Responsible Government

The delegation to the Convention of Associations at Mr. A. Dykes and Mr. F. T. Banister. After consideration of the various subjects which are likely to be discussed at Convention it was decided to outline resolutions to one only. Capt. Cotter proposed and Capt. Richardson seconded that: "The only cure for the ills of this colony is responsible government."

The Late General Whately

It was announced that a committee had been formed at Nairobi to raise funds for a memorial to the late General Whately. The meeting was much in sympathy with the proposal, and it was decided that the Association would open a subscription list in aid of the funds.

MATRIMONIAL BREACHES

Effect of Special Tribunals

Remarkable Results

WITHOUT "OBSCURE ATROPHIES"

"[REDACTED] CORRESPONDENT]

Remarkable results which have attended the sympathetic handling of matrimonial cases during the last seven months of the year were fully set forth in the West African matrimonial court, London as follows:

Mr. Mullins, who was appointed to the south-western court at the end of last year, has become famous for his methods in dealing with domestic disputes. He is the first to have introduced the system of marriage and law, and brought in the first new outlook on the problem in the matrimonial court in south-west London.

In the brief address to the court he pointed out the object of his methods, and quoted statistics covering the period January 1 to July 31. In that period, 183 cases were settled without any appeal, 121 appellants who were in domestic trouble but who were not desiring separating were referred through a mediator to local judges who in many years had been assisting with the same cases.

"I believe that none of these cases has resulted in court proceedings," he remarked.

Cases Settled

"During these seven months," Mr. Mullins continued, "200 matrimonial cases were dealt with. Summary jurisdiction (Married Women's Property Act) cases were settled without any appeal, 121 appellants who were in domestic trouble but who were not desiring separating were referred through a mediator to local judges who in many years had been assisting with the same cases.

New Proposals

It is understood that special domestic courts free the matrimonial atmosphere of ordinary courts, are to be made compulsory throughout the Empire. The scheme contains the following proposals:— That a domestic court should be set up wherever there is an ordinary police court. When the need for a domestic court is pressing because of a matrimonial dispute the probation officer should refer the matter to a special officer with the summons, asking the wife to attend at the court in the special court. In each district the court will be supported by a special magistrate, a judge and a clerk, whose duties will be to deal with the cases. The court will be held at the same place as the ordinary police court. The court will be held at the same place as the ordinary police court. The court will be held at the same place as the ordinary police court.

6,000 MILES FOR WORK

Dutchmen's Long Cycle Ride

Holland to Kenya

BOUND FOR SOUTH AFRICA OR A JOB EN ROUTE

(By Major E. S. Grogan, D.S.O.)

In these days long journeys to work are all too common, and a record must surely have been established by three men on arrival in Kenya, whose search has already brought them over 6,000 miles, by bicycle.

Young Dutchman, who found their following and cheese-making experience not wasted in Holland in January they reached Kenya in the middle of the year. The youngest of the three, Mr. B. Hoogstraaten, who is a new settler in the district, is a former member of the Dutch army.

Motor-Car Story

It was in a motor-car that the story of their journey, which took them from Holland to Kenya, was told. The motor-car was a Buick, and they traveled through France, Italy, Greece, and Africa.

Paying Their Way

Over South Africa, the three cyclists are accustomed to live simply and have often had to make their own way. They are accustomed to live simply and have often had to make their own way.

THE ISSUE BEFORE THE KENYA GOVERNMENT

A CHOICE BETWEEN THE ONLY TWO COURSES

THE COLONY WILL WELCOME LORD FRANCIS SCOTT'S STRAIGHT-FORWARD AND EARNEST DECLARATION OF HIS ATTITUDE IN THE FACE OF TWO SERIOUS PROBLEMS AT THE MEETING AT KIAMBU ON AUGUST 17.

It is obvious, however, that the real issue before the Colony has not yet assumed definite shape in the mind of the Government.

It is reported as having said: "As to the question of helping the farmer and producer in general a certain school of thought had put up a case for the devaluation of the East African shilling. He did not intend to go into the merits of that school of thought, but it should be borne in mind that Kenya was not in the same position as self-governing countries which had their own independent currency. This Colony was one of a group of Crown Colonies controlled by the Imperial Government and there was no right to the producer obtaining any relief from devaluation, nor was there any immediate chance of the Imperial Government sanctioning such a measure."

WORLD-WIDE LESSONS

The Ministry Report of the Economic Development Committee has shown by simple arithmetic that a 33-1/3rd per cent. devaluation of our local money unit would provide immediate and enormous relief to the producers and consumers of our products.

Nor can we accept his suggestion that the function of our Elected Members is to sit and think what the Imperial Government will or will not do. Their function is to inform the Government of our needs and to urge that the Government ought to do them.

Every day the thunder of Niagara grows louder as we are being swept without power of resistance down the burning stream of falling prices and accumulating liabilities.

Every day the thunder of Niagara grows louder as we are being swept without power of resistance down the burning stream of falling prices and accumulating liabilities.

THE ALTERNATIVES

We must maintain that this all important threatened section of the community must be saved and we must insist that the only way to achieve this is by (1) adequate devaluation of our money unit, or (2) complete default, which means a minimum 30-1/3rd per cent. default.

The Kenya Outlook

TAKES BEFORE THE CONVENTION

To the Editor: "E. A. Standard," Sir—The coming business of the Convention will be, in all probability, proved to be by far the most important in its history. To me, who knew it so well in the days before the election of Members of Council when it was the only outlet of public opinion, it is most interesting to see an old acquaintance once more in the forefront of the struggle.

The centre of political gravity has shifted from the Legislative Council to the Convention. It is naturally to be hoped that every delegate will bring fully informed and unbiased views upon him on this occasion and will not only in respect that the same passed. The manner in which business is conducted, the strength and determination shown, the absence of loose and violent talk, the desire displayed by all to arrive at unanimity, and the willingness to yield in detail to the views of the majority, all may make a vast difference to the future of Kenya for many years to come.

Personally I am highly optimistic as regards all this. I believe that we now possess the aptitudes of the situation and is preparing to give of his best.

You, Sir, are plainly right in your advice that delegates should go with an open mind as possible. The giving of instructions is a definite character by Associations is calculated to cause difficulties when the Convention is endeavoring to reconcile divergent methods of attaining probably the same end. It will be obvious to every one that no success can be attained except by a practically unanimous vote of the whole country. This will call for a broad-minded view and a policy of give and take.

I could not have it thought that I favor a policy of weak compromise. Anything but that. It may very possibly happen, however that a certain opinion may prevail in that case it would seem to be the duty of minorities to endeavor to bring their opinions into line with it.

This is never very easy. But experience in many other Colonies goes to show that the smallest rift in our front will be used to discredit the Convention.

This crisis has come so suddenly upon us that some people may scarcely realize yet how wide are the issues involved.

If Dominion Status is to be upon a firm basis, it is certainly well—the question includes not only the desires and needs of the white population, but also matters of Native administration and many others. It is to be hoped that every man (and woman) in Kenya—whether normally interested in politics or no—will consider it his duty to learn all he can about such matters and to be able to form an opinion on them. It must not be forgotten that Kenya has formed the Home Government and that she is capable of assuming a

score or less personal control of her own affairs. This will not be achieved by a few weeks excitement followed by having things brought to a few public opinion leaders. Those leaders will need to be informed and able to form a public opinion to support them if they are to carry the white through to success. Sir, one who stands by now, and does not give of his best according to his convictions, will have no right to complain if in future he has to spend considerable decade under present conditions.

When the delegates return from this session, they will have to report to their Associations and in the support they get, and on the amount of drive the country shows, will depend the ultimate success of their work. This is a firm belief, not only among official circles here, but also in England, that crises in Kenya settle down and are forgotten as quickly as they arise. This accounts for the usual manner in which our protests have been treated in the past. It is far too slow to show that they are mistaken.

I have known Kenya for many years and cannot have I know your situation more severe. But Sir, I would add, never have I known it so full of promise for the future. If it will, wisely and strongly handled.

Yours etc,
 GEOFFREY WILLIAMS
 Kinangop,
 August 19, 1936.

To the Editor, "E. A. Standard," Sir—It is most disappointing to the pioneers of farming and development in this most lovely and productive country that we have been for some time past the Legislative Session. We all realize that we are passing through a worst recent slump which has a devastating effect on the general trade of every country. Each and every country is driven to endeavor to bring the country on the land, but one can see no improvement in prospect. The fact must be that it is a world over-production and cannot be overcome unless there is a general reduction in crop, factory, or a world war, or some unforeseen de-activating such as locusts; to free commodity prices up to production cost plus a fair profit for capital and labor employed. Powers all agree to restrict in each and every country, and at the same time fix their prices on a sound basis or until some remedy found. Very little immediate improvement can be expected, therefore we must re-examine our methods. Kenya must face the music, and make a united endeavor to insist on the true position being thoroughly analyzed and suitable steps taken to put our house in order, and that the value of the pioneers of production and trade in this young colony should have due consideration.

Factors to be faced come under many heads, but as a matter of fact might be summed up under two heads, i.e. greater control of our own affairs.

I suggest that we apply to the Colonial Office for the necessary readjustment to ensure that the representatives of the people in the Legislative Council are enabled to try to save the country from ruin, by dealing in a practical and business-like manner with the local position arising from the world slump in commodity prices.

Such factors as:

1. Reduction in official depart-

ment in order to the revenue of the country.

If the colony's existing loans and mortgages to be reviewed with a view of finding a solution in order to prevent default.

Local bank funds to be increased to enable the development of the country to be financed as opportunity occurs.

The Colonies course ought to be financially supported or subsidised to carry out the next year of production, after a year of production, after a year of production, after a year of production, after a year of production.

A Provision made to enable the address of one pioneer who are Kenya men to enter the Kenya Government Service and greater employment in lower grade of the State who are of necessary education.

Advocate inquiry into Mape E. S. (C) and suggest that the Government should consider financial adjustment.

Practical Suggestions:

1. That any one who is to decide from year to year what is the position regarding the changes of a possible export trade for our main products.
2. If any one of these is found to be unworkable, then they use the position, and make measures to try and save the country from economic and the trade to the country.
3. For instance, take the maize industry.

I suggest it should be run on some similar lines to the Wheat industry.

The present crop being the best in years, it should not be sold at 10/ per bush, but at 11/ per bush for grade 1 maize and 12/ per bush for grade 2.

If there is any improvement in the market, the price should be raised to 12/ per bush for grade 1 maize and 13/ per bush for grade 2.

It is suggested that the Government should make a decision to purchase a certain amount of maize for the country, and to sell it at a price which will enable the farmer to pay his expenses, and to give him a profit.

It is suggested that the Government should make a decision to purchase a certain amount of maize for the country, and to sell it at a price which will enable the farmer to pay his expenses, and to give him a profit.

It is suggested that the Government should make a decision to purchase a certain amount of maize for the country, and to sell it at a price which will enable the farmer to pay his expenses, and to give him a profit.

other with grain, so we should not be regarded as self-sufficient if farming is to continue at all. After thirteen years of farming in Kenya and a life spent in one of the most advanced and most developed countries in the world, I strongly maintain that every effort should be made to help pioneers in this fertile country, whether the slump on some of the above lines, all any railway, or the fact of a European, but on the main points affecting the very life-blood of this country, it is to ask and expect due consideration and help from our Government departments who are the branches grown out of the main trunk of the tree. We all know what becomes of the branches if you cut down the trunk of the tree.

Yours etc,
 L. KNAPMAN
 Eldoret
 August 16, 1936

To the Editor: "E. A. Standard," Sir—According to your report of Saturday's meeting at Nairobi, Lord Francis Scott, when referring to the subject of devolution:

- 1) That we were not in the same position as self-governing countries which had their own independent currency.
- 2) There was no chance of the produce obtaining any real relief from devolution.
- 3) Surely the East African Dependencies have their own independent currency with a Board of Control (B.C.) for each, when referring to the subject of devolution.

Many of us consider the latter to be the case.

What Lord Francis means by "real" relief, I do not understand. I feel sure that in Australia the cost of production to the agriculturalist was only increased by one third of the premium which they devastated and there does not appear to be any reason for thinking that there would be any great difference here. I am sure that most agriculturalists in this country would consider this real relief.

I would appeal to Lord Francis Scott to let us know what his "real" views are on this important subject.

Yours etc,
 "INFLATIONIST"

GROUND CUP ON RAILWAY GROUND

Home Teams Lost Opportunities

Y.M.C.A. "B" SIDE GOES OUT

Railway eliminated Y.M.C.A. "B" from the Ground Cup on Wednesday evening winning by two goals to nil. The match was played on the Railway ground and there was only a moderate attendance.

Railway fully deserved their win. They had more go and scored much better than work that their opponents. On the other hand, the Y.M.C.A. attack lacked dash. Railway might have made more of their openings in the second half as they are inclined to delay the pass or centre too long while waiting for the move which results that the move was blocked.

Matholland and Green were quite a good wing for the team, the former was always a tried and true. Green looked him out well. Veronique was a weakness at centre half; he hunted the opposition but his kicking was weak. For Hall was a good goal keeper. For Hall was a good goal keeper. For Hall was a good goal keeper.

The following were the teams: Railway: Blandford; Clowes and V. Blandford; Goodfellow, Handley and Holloway; Randall, Graham, F. Chapman, Younis and H. Chapman. Y.M.C.A. "B": Trabel; Rowe and Alken; Hunt, Veronique and Heffer; Green; J. Blandford; Campbell, Matholland and Robert.

Railway Get Going
Railway were the first to get going and a series of attacks was made. The first was from a free kick which Veronique sent in but it was deflected. The second was from a free kick which Veronique sent in but it was deflected. The third was from a free kick which Veronique sent in but it was deflected.

There commenced a prolonged attack on the part of the home team. A fine corner which Veronique sent in but it was deflected. The second was from a free kick which Veronique sent in but it was deflected. The third was from a free kick which Veronique sent in but it was deflected.

The match was a close one. Railway were the first to get going and a series of attacks was made. The first was from a free kick which Veronique sent in but it was deflected. The second was from a free kick which Veronique sent in but it was deflected. The third was from a free kick which Veronique sent in but it was deflected.

WEEK-END EVENTS

Gymkhana and Fair at Naivasha

Four-to-four's Ground Cup Game

VISIT OF UGANDA GOANS

One of the interesting features about sport during the past week has been the visit of the Uganda Goans. They arrived in the capital just over a week ago and from that date have taken part in various sports. Today they play a four-to-four's game against the Railway Goans on the Railway ground.

To-morrow the Ground Cup competition game, a star further when Calles are at home to the Police and a good game should result. In the table tennis department there will be two very close games, and the Ground Cup encounter is therefore a most interesting one.

Naivasha are staging a gymkhana and fair to-morrow afternoon. There will be all the fun of an old-fashioned fair, including Bull-baiting, "Coo-nut Shies" golf competitions, guessing competition, raffia, etc., while there will be various sports for children. The pony gymkhana will start at 10 o'clock while the fair will commence about 2 o'clock.

It is promised to be a real week-end for the Naivasha folk as several events are concerned on the Sunday. The local cricket team entertain a side from Kisumu. The Magdi Cricket Club are due to visit Naivasha on Sunday afternoon. The Magdi Cricket Club are due to visit Naivasha on Sunday afternoon.

The following are the principal events over the week-end and the home team have mentioned first in each instance.

ASSOCIATION:
Today—Railway Goans vs Uganda Goans, Railway ground at 5 p.m.
To-morrow—Calles vs Police (Ground Cup), at 4.45 p.m.

GYMKHANA
To-morrow, at Naivasha

GOLF:
To-morrow—Nairobi G.C. vs Muthiga G.C.
M.C. vs Borey Spang, Railway G.C.
Men's Stroke Competition, Nairobi G.C.
McKey Cup, Kitale G.C.
On Sunday—Muthiga G.C. vs Nairobi G.C.
McKey Cup, Kitale G.C.

HOCKEY:
Today—Railway Goans vs Uganda Goans at 5 p.m.
Railway Goans vs H. P. Fernandes, A. B. Hoeg, R. F. Abren, Patrick D'Sa, Charlie Ferraro, Lawrence D'Souza, Joseph D'Souza, C. D. Dantas and J. M. Nagarath, C. S. Cunha (captain), Ben de Silva, Borey Spang (captain) D'Souza.

MISSED OPENINGS:
The Y.M.C.A. seemed to buckle to on the restart and a nice corner was taken, but it was deflected. The second was from a free kick which Veronique sent in but it was deflected. The third was from a free kick which Veronique sent in but it was deflected.

From this point the Y.M.C.A. were more or less pinned to their goal. The Railway team made play to the vicinity of their visitors goal and Graham sent in a drive which Veronique kicked away to Younis, who shot past. Later the inside right again led drive with a shot which Veronique kicked away to Younis, who shot past. Later the inside right again led drive with a shot which Veronique kicked away to Younis, who shot past.

The match was a close one. Railway were the first to get going and a series of attacks was made. The first was from a free kick which Veronique sent in but it was deflected. The second was from a free kick which Veronique sent in but it was deflected. The third was from a free kick which Veronique sent in but it was deflected.

PARLELANDS TENNIS TOURNAMENT

Club's Decision with Regard to Prizes

The question of the most suitable prizes for tennis tournaments is often discussed, some people favouring cups and others articles of utility. The opponents of cups are usually those who by their prowess on the courts have been able to gather a goodly collection of trophies, and such competitors are particularly interested in adding to the collection. On the other hand, there are a number of players who so fortunately possessed who would very much appreciate the receipt of an engraved cup, which they would place on the mantelpiece and show to their friends.

Whatever the rights or wrongs of the case Parlelands Sports Club have decided to award the holders of their trophies as prizes, and for their excellent handling of the Parlelands Tennis Tournament this precedent will be followed. The trophies are engraved cups, Messrs. May and Co., Ltd., Messrs. May and Co., Ltd., Government Road, and will be found to be quite up to previous standards.

Intending competitors for the Parlelands Sports Club have their entries closed at noon next Wednesday, August 28th, and should be made to the Parlelands Tennis Club, c/o Messrs. May and Co., Ltd., Government Road, and will be found to be quite up to previous standards.

The tournament will continue on Saturday, September 7th, and should be completed, in about two days.

Diamond Drilling For Gold HOW TENNIS SHOULD BE PLAYED

Increasing Use in the Goldfields

The diamond drill boring at an angle of 40 degrees. Photo of MacKenzie.

OPERATION OF MACHINE DESCRIBED

An interest in being awakened in diamond drilling on the gold fields of Kenya and the method is already in operation in No. 2 pits at Kakameza.

Diamond drilling is the only satisfactory, as well as the most economical, method of discovering the appropriate value of the surface of the ground, especially in those areas where the hidden and show no outcrops are discovered in this way.

By GEO. MACKENZIE.

Into another position to start an other hole. Fortunately this sort of thing very seldom occurs. This is, however, not by any means the only misfortune that may take place.

Casing is rammed into the bore hole to the depth required, depending upon the formation of the ground below. The first few lengths of casing are large thick heavy pipes. Heavy weights are used to ram the casing down. After this another job of casing is put down deeper than the first and of a smaller diameter.

The actual diameter of the hole does not commence to drill until hard earth is encountered. Meanwhile various kinds of boring tools are used.

The shifting from one set to another is the most strenuous and of the least strength and endurance and quickness is called for, and usually for at least twice a day until actual diamond drilling commences.

A diamond's life is not a happy one, as anything may happen to spoil a good day's work.

A driller's life is a most strenuous one of the least strength and endurance and quickness is called for, and usually for at least twice a day until actual diamond drilling commences.

A close-up view of the Swedish diamond drill. Photo of MacKenzie.

A Hazardous Operation
Drilling is hazardous in regard to the successful completion, on account of the danger of falling into the hole. Every time the hole is deep enough to put in casing, the walls may fall in and may be very dangerous. It may occur before the casing. Apart from the cost of the diamond, piping, equipment, and labor, there is the time spent in hitting the hole and the time spent in endeavoring to recover the tools in the hope of success.

A close-up view of the Swedish diamond drill. Photo of MacKenzie.

Testing Reef Values at Depth

ground below, and varies from a few inches to several feet on a day's work. It is a hard boring occupation, requiring strenuous use of mind and muscle.

The core is placed in boxes, in mesh cases, and later sent away to be crushed and analysed for its mineral contents.

Vigilance Necessary

Drillers have to be continually on the lookout for anything which might cause a great loss of time, money and labour. For instance, if the pump fails to function, and is not noticed immediately, within one minute the whole crown of diamonds are dead, and as they become "burnt," and the tools stick hard and fast in the rock through which they are drilling. If it is a bad burn the trouble commences. Ways and means are used to endeavor to extract the tools from the hole.

Drillers have to contend with a hundred and one difficulties, and the real art of drilling is to know how to overcome them with ingenuity and patience. There is not a single minute available for relaxation while at work.

Strength and Endurance

The shifting from one set to another is the most strenuous and of the least strength and endurance and quickness is called for, and usually for at least twice a day until actual diamond drilling commences.

A diamond's life is not a happy one, as anything may happen to spoil a good day's work.

Hints by Famous Exponent

NEED FOR PHYSICAL FITNESS

Following the pronounced popularity of the recent series of articles on golf, contributed by leading exponents of the game, the "E.A. Standard" has arranged for another series of articles, this time dealing with lawn-tennis. These articles will be published weekly, dealing with various aspects of the game. They have been written by Sir F. Gordon Lowe, Bart., one of Britain's leading players.

The first article dealing with physical fitness and training appears below.

TENNIS OF THE TIMES

No. 1 How the Stars Train

THE STAR, the famous British player, has written a series of articles on golf, which have been very popular. He now writes on tennis, and his hints are of great value to all who wish to improve their game.

THE WATLING is with the great stars, and what extra fitness will be his main asset during the season. It was only his wonderful condition which carried him through on being a big success in the world of tennis.

THE SHIFTING from one set to another is the most strenuous and of the least strength and endurance and quickness is called for, and usually for at least twice a day until actual diamond drilling commences.

THE WATLING is with the great stars, and what extra fitness will be his main asset during the season. It was only his wonderful condition which carried him through on being a big success in the world of tennis.

THE SHIFTING from one set to another is the most strenuous and of the least strength and endurance and quickness is called for, and usually for at least twice a day until actual diamond drilling commences.

Importance of Training

There can be no hard and fast rule as to training each one must find out what is best for his individual needs. Austin has come to notice his weakness and approach has training from a very different angle to Perry by the way, a testamental and form play. As a matter of fact, the well-known supporter of the game, James that the greatest sets of the athlete are to keep good hours and to sleep well. Skipping physical and breathing exercises are very excellent, but the state of the mind when combined with mental, energetic and disposition. Mrs. Moxley always required from 8 1/2 to 9 hours sleep before a match. While Mrs. Stammers, one of our Wimbledon Cup players, another who always rises early on the eve of a final.

After a hard struggle the temptations to stretch one's limit with and water. Mrs. Moxley strongly advises a cup of hot material, while Mrs. Jacobs, who always rests with her feet up for forty minutes before play, also rests for ten minutes after play.

After a hard struggle the temptations to stretch one's limit with and water. Mrs. Moxley strongly advises a cup of hot material, while Mrs. Jacobs, who always rests with her feet up for forty minutes before play, also rests for ten minutes after play.

Sugar for Stamina

Incidentally, fitness at 60 can be just as good as at 20. It is not so much the matter of age, but the matter of training and the matter of the body.

Incidentally, fitness at 60 can be just as good as at 20. It is not so much the matter of age, but the matter of training and the matter of the body.

Miss Helen Jacobs, who thinks that 40 minutes rest and sleep of orange juice are the best preparation for a hard match.

play which is known to be an excellent thing for stamina. Rugby also is a safeguard against cramp, but for this purpose a small quantity of salt with water is really best. It can be taken without developing a tremendous thirst.

It is often on returning to the game after a rest that "loads are come on. Why not prevent this, mainly by including some ordinary arm exercises with a light dumb-bell with your morning work? This will strengthen your playing arm so much that it will stand the great strain that tennis puts upon it. Too heavy a neck and too long or too small a handle will often bring on the players' baggage. Duplicate a change of racket is needed at once and should bring relief.

The Dumb-Bell Exercises

Commander Hilliard's simple routine for arm training should be used as a basis for your exercises. Attach your dumb-bell to a cord and tie to the other end to a stool and to the other end to a ring handle or similar article. Then balance the broom handle between your two chairs, and with your playing hand grip and wind the handle, so that the dumb-bell moves in a circle and down to the floor and up and down. This will strengthen the grip, the necessary parts of your arm and make it "tannish solid" proof.

It is a tremendous believe in quick walking whenever possible, as a means of keeping fit for tennis. It will strengthen the muscles of the back as nothing else will, make a man quite of the muscle and burden up the feet, making them heavier proof.

Lastly, let me say that play-tennis in whatever form, even in play, is the best of training. The really fit man will never suffer from nerves and is going to be twice as confident on the court. This is half the battle at tennis.

HOW GREAT MEN BEGAN

Sir Macpherson Robertson

A name new on the lips of thousands is that of Macpherson Robertson, once a newsboy on the streets of Edinburgh, Scotland. He was a young man and one of Australia's greatest business men last year presented the money completed by the crack players and athletes of the world in the London Melbourne Art Show.

but six months at school and associated the slender family income by selling newspapers in the streets and putting on the lather for a barber in Lamb. Later he became an assistant in a sweet shop. Then his parents decided to return to Australia and half an hour after leaving young Robertson, who seems to be a very happy man, he was employed by a firm in the hardware business, where he had, however, been comparing his experiences in the different trades with the money he was to be made by selling newspapers in the street without not by playing the lather for a barber in the sweet shop. He had, however, been comparing his experiences in the different trades with the money he was to be made by selling newspapers in the street without not by playing the lather for a barber in the sweet shop.

in a tin box that had once contained milk! After the sweets were made, he walked from the shop to shop selling them. The shopkeepers liked his sweets and admired his energy. In a few years a factory had taken the place of the hardware and he was employing fifty workers. To-day Sir Macpherson sits most of the evening at his desk in his office in Australia, has a motor car and a big house and is still active in the public life of his native land. He has a fine collection of books and a fine collection of pictures. He has a fine collection of books and a fine collection of pictures.

When LEG SORES cripple You

NEAR Zam-Buk ointment over the inflamed areas, blisters or other eruptions and healing will start at once. It is astonishing how Zam-Buk soothes the itching pain and draws out the poisonous humors. Zam-Buk soaks deep into the tissue. It penetrates the inflamed areas and draws them out. Zam-Buk gives strength, restores the normal skin, and keeps the skin soft and supple. Use it for leg sores, eczema, hemorrhoids, burns, insect bites, etc. It is the only ointment that does this.

ZAM-BUK HERBAL OINTMENT

Film dims teeth's beauty!

Think of any girl whose beauty days and see the difference in the appearance of your teeth. Watch them grow they are sure to remember—the charm of her smile—made attractive by clean, sparkling teeth.

Use Pepsodent Tooth Paste a few times daily. Pepsodent does this effectively because it contains a special film-forming material that cleans teeth quickly and safely. This material is continued in Pepsodent exclusively—and in no other tooth paste.

Scott's Porage Oats

SCOTT'S PORAGE OATS "AU GRATIN"
 4 oz. Porage Oats 2 oz. grated Cheese, 1 pint Milk, 2 eggs, 1/2 tsp. Mustard.
 3 or 4. Better.
 Or all these over five for 10 minutes. Turn into greased pan, sprinkle on top plenty of grated Cheese and a few bits of butter. Brown in hot oven.
 Slice of Tomato may be put on bottom of the dish. Shredded Ham, Tongue, or Chicken, Yeal Lamb, hard-boiled Egg, may be added.

High - Waisted Frocks Again

"MARGARET" ROSE COLOUR

Named After Little Princess

CHANGES are beginning to creep into the fashion world. Soon there will be dress shops and a variety of new styles and for the benefit of those whose dress allowances are already turning holes in their pockets, those who are not disposed to shop early, it may be well to give some little indication of the lines the dress designers will follow as soon as a new season dawns. For some months to come there will be few really startling changes, but many small details are being modified and little touches added, and very frequently the attention paid to the small things results in the brilliant success of the ensemble.

First as to the line which is likely to be the most popular. The woman who is buying an evening gown will be wise to look for something with a suggestion of the "princess" line. This is shown at any rate, fitted attractively above the waistline. For the dressmakers are very pleased with the success of their high waisted frocks of these days. Those are aiming to make a fresh bid for popularity with them. And the makers of fashionable gowns are collaborating—which they always a reliable guide to the way of current fashion, of particular fashion.

For the Daytime.

For afternoon frocks, as well as for those of the more formal dress which every woman finds so useful, and for sports clothes, the opposite is the case. The waists are not accentuated but are very straight. The necks are not very high, certainly not the high collar of the "princess" line. The lines are natural, the waist and hip not under suggesting anything in the way of curves. When choosing a dress frock which may have to last for some little time, style colors, as well as materials and style. The material must be of a nature which will be brought back and is eminently becoming especially in such materials as flannel, crepe, dull surfaced satin, chiffon, goretex and crepe marocain. Mothers may take note altogether, it may be the range which comes under the heading of "athletic frocks" and includes the dull reds, olivines and blue shades and purples generally. No matter what happens in regard to colors, pink in a variety of tints and blue in shades of many will remain in vogue for many months to come. The pink shades come into the pink head

with a flower, or cluster of flowers, on one shoulder. There is a feeling for the V-neck and for cross-over styles on frocks for day wear. The striped wool crepe frock seen in a new collection was cut with a definite V-neck and quite high at the back and both neck and the waist were with a pucker panel of silk which looked exactly as if a neat square had been tucked in and fastened at the back in the old-fashioned way. To fit a silk square at the back and allow the fullness in front to fall like a neat drape is another way of fastening a V front.

Trans to Go.

However tempting a bargain on an evening frock with a short train may be, beware of purchasing it unless there is a possibility of your being able to alter it yourself or get it brought up to date at a reasonable cost. The way of the new evening gown is to have more than touch the ground at the back, and the "princess" line train which has had such a vogue may be seen no longer.

There are a number of frocks that are being made for the most part of gardenia—flower trimmings for evening dresses. These are being made for the most part of gardenia—flower trimmings for evening dresses. These are being made for the most part of gardenia—flower trimmings for evening dresses.

Twenty-four Hours In Nairobi Impressions of a Visitor

(By "A Woman of No Importance.")

I HAD often said by the street of Cecil Rhodes in these famous Gardens at the foot of errage end of Southern Africa and longed to whether his out-stretched hand was pointing "Your Hometown is There"; was the legend at the base of the statue, and "there" meant north, even to the Lion Head.

Of course I knew all about Kenya. Everybody does. I know for instance, that people in Kenya spent a lot of money—bank a lot and played a lot, had a rattling good time on safari with an exciting variety of hardships, and that there was the minimum of work and other unpleasantness necessary. I also knew that it was "an out-of-the-way spot"; however "one of the far-flung corners of the Empire."

So, when the train steamed into a station which suddenly appeared on the very edge of the wide plains, the first sensation was one of deep satisfaction. It was the minimum of work and other unpleasantness necessary. I also knew that it was "an out-of-the-way spot"; however "one of the far-flung corners of the Empire."

I stepped into the hotel late, and somehow got rid of my luggage by the things we feel we do not do without until we find that we have no more.

Collecting my luggage I stepped into the hotel late, and somehow got rid of my luggage by the things we feel we do not do without until we find that we have no more.

Fortunately, she is never too old to learn, and I have found it very considerably less than I expected. The first impression of comfort that one could demand, she not only offered; she surprised the shop people proved to be more courteous and obliging than my expectations.

The children were rather shy at first, but games, organized by the grown-ups and accompanied by Harry Collins and his party, soon allayed that. And by the time musical chairs had been played, the children were no longer shy. The children were rather shy at first, but games, organized by the grown-ups and accompanied by Harry Collins and his party, soon allayed that. And by the time musical chairs had been played, the children were no longer shy.

PRETTY WEDDING AT THIKA

Clark—Chambers

THE Memorial Church at Thika was the scene of a very pretty wedding on Saturday, August 17. The bride and groom were Miss Clara Chambers and Mr. P. G. Clark. The ceremony was performed by the Rev. A. B. Gordon.

The bride wore a beautiful modern gown of ivory satin. The groom wore a suit of dark blue. The wedding was a very pretty one.

Vaudevillains Entertain Children

ON Thursday afternoon, a very popular children's party was held at the Hotel and boys and girls of all ages and sizes availed themselves of a good and hearty meal.

The children were rather shy at first, but games, organized by the grown-ups and accompanied by Harry Collins and his party, soon allayed that. And by the time musical chairs had been played, the children were no longer shy.

Films For Children

SUCCESSFUL INAUGURATION OF NEW SCHEME

THE new and progressive scheme by which the McMillan Memorial Library is to increase its public usefulness, was inaugurated last Saturday afternoon by a cinematograph entertainment for young people. The scheme, which includes many important new activities was outlined by Mr. Barton Fothergill and latter the children enjoyed long-

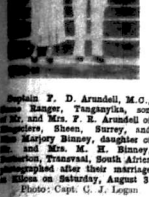

and later the children enjoyed long-... days in which Mr. Cherry, Mary's favourite chessman, Mr. Cherry displayed the marvellous and almost human intelligence which he has had developed and cultivated in her to the highest degree.

The entertainment lasted just an hour. The projector, equipment and films, who kindly lent for the occasion by Messrs. A. H. Wardle and Co.

Reference Library

The second part of the new scheme concerns the valuable collection of books which comprise the McMillan Reference Library. In the past, students and readers have been obliged to consult these books—probably with limited time at their disposal—in the Library itself. For the future, the Committee, with the kind consent of Lady McMillan, have decided that the majority of these volumes shall be available on loan to readers.

The financial control and complete administration of the scheme and all dealings may be obtained from the Chief Librarian.

Mrs. M. E. Blaney, South African representative at her marriage...

New Charter for Nurses

THE London County Council have this week approved a Charter for Nurses in 12 hospitals under their control. Instead of working 50 to 60 hours a week, they do at present, nurses at these hospitals will have a uniform of 40 hours a week after October 1. Women nurses do cleaning, book-keeping and bathing of patients. They will assist in the distribution of meals. These duties hitherto have been carried out by first year post-graduate nurses. The scheme will cost £88,185 this year.

The part of the scheme dealing with the appointment of women dentists was strongly opposed.

The pictures shown, judging by the hearty applause with which they were greeted, were very much to the liking of the children and parents alike. "London" and "New York" two excellent films representing the life and sights of two great capital cities, were shown.

Wedding group taken after the marriage at the Memorial Church, Thika, on Saturday, August 17, of Mr. Charles Raymond Clark of the Shell Company, Nairobi, to Miss Constance Wainford Chambers, of Nairobi Heights, Thika.

Dr. Bartie Lambert, who was once a hospital nurse, said that the scheme dealt with only 12 out of 40 hospitals and institutions. "I have no objection to ward duties during domestic work," said Dr. Lambert, "but you are opening the door to the woman who is challenged as can any woman do this sort of work."

Dr. Frankel said the proposed scheme as the fact may give a new impetus to the training of nurses.

"I have no objection to ward duties during domestic work," said Dr. Lambert, "but you are opening the door to the woman who is challenged as can any woman do this sort of work."

Dr. Bartie Lambert, who was once a hospital nurse, said that the scheme dealt with only 12 out of 40 hospitals and institutions.

EAST AFRICANS ABROAD

London, August 18. (By Air Mail.)

CELEBRATING in the spirit of the danger of rearing equally great as the British, and prize their women in black apron dresses through the great dash and brilliance of the greatest dash and brilliance. But it is strange to find "Folk" thought mostly by their female and the paddling, both being their staid look.

At the last meeting of the Council of the Royal Hibernian Society in London, August 15, and not the least important was the proposal that at least one or two parents could take their children to an exhibition of films which would be both entertaining and instructive, in the main reading room of the Library.

Wedding group taken at Mombasa after the marriage of Mr. J. B. Farquhar to Miss M. P. D. Hatley...

THE London County Council have this week approved a Charter for Nurses in 12 hospitals under their control. Instead of working 50 to 60 hours a week, they do at present, nurses at these hospitals will have a uniform of 40 hours a week after October 1.

Dancers from Everywhere

YOU shall know a country by its dances. Sedate and docile move the Germans in their formal dances of laced couples. Hearty and strong are the dances of the French in polkas from the Pyrenees; suave but firm, graceful but terse, are the Spanish dances of Flamenco, with their Maypole and their traditional Folio. "Let us not, drink, be merry—said dance," say the Polish people, "sweeping sentences in their tinny cloaks of blue and red."

THE dancers from the Ukraine—though they are the stars of the local theatres—give a fantastic display of old Russian dances.

At the last meeting of the Council of the Royal Hibernian Society in London, August 15, and not the least important was the proposal that at least one or two parents could take their children to an exhibition of films which would be both entertaining and instructive, in the main reading room of the Library.

PERSONALIA

POINTS ABOUT PEOPLE

Left for Mombasa. L.R.I. Francis Scott and Lady Scott left Nairobi with Miss Patricia Scott on Sunday en route for the coast. They expect to be away for a fortnight.

Water from Australia. MISS Nancy Sewell, niece of the District Officer, Malindi, is paying her first visit to Kenya, having broken her journey from Australia to England, and is staying with her uncle in Malindi.

An Revolver to Mr. Jack Mallist. MR. Jack Mallist, of the Mombasa branch of the Kenya Police, has been transferred to Mombasa, left for the coast by train last Sunday afternoon. Mr. Mallist will be greatly missed by many friends and the loss will be much felt.

A Popular Engagement. SINCERELY congratulations to Miss E. Margaret Jones and Captain H. E. J. Jones on their engagement. The announcement was made during the week ending August 14th. Miss Jones has done a great deal of valuable work for the Kenya Police, and is well known and well-liked by all.

En Route for Durban. MR. and Mrs. W. J. Shapley are going to the general offices on the Coast last Sunday afternoon. They travelled down by train and are continuing their trip to Durban, where they will be in the "Inches". Mr. and Mrs. Shapley are expected to return to Nairobi towards the end of next month.

A Mole Engagement. THE engagement is announced of Miss Lillian Jones and Mr. J. B. Jones. The announcement was made during the week ending August 14th. Miss Jones has done a great deal of valuable work for the Kenya Police, and is well known and well-liked by all.

Kenya Girl Engaged. THE engagement is announced of Miss Lillian Jones and Mr. J. B. Jones. The announcement was made during the week ending August 14th. Miss Jones has done a great deal of valuable work for the Kenya Police, and is well known and well-liked by all.

A page for young people

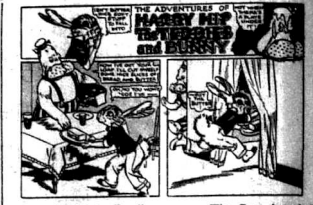

GINGER DICK ---

TO THE RESCUE!

"Over, over!" read Edward George. "To-night in Mushroom Garden. The captive will be marched around by the aid of Brigadier-General. All birds who care to come and watch are invited to kiss and bow. And birds with any added eggs will find them rescue too!"

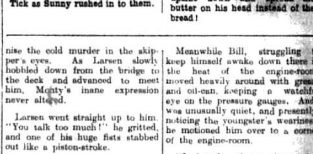

"A Triumph March!" cried Edward George. "I've got a book at home. Which says that's 'just' what Romans did to their captives. They marched them round the streets in chains!" —But Ginger Dick called "Oh! Don't talk of Rome!" To Mushroom Garden, rescue Mustard John!"

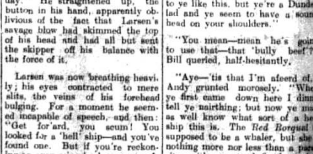

Harry hobbled in the other day and calmly matched the nice large hat, from the table, and he was just about to take the butter as well.

When Bunny hopped off with it, how, you can't see the size of her—down with the cat's paw, can you? Not to say that Harry looks so bitter.

Of course, Harry hid under the same way, for he came in again—down—and tried the same way on his head instead of the bread!

Meanwhile Bill, struggling to keep himself afloat, drew them in the hub of the engine-room, moved heavily along with grimaces and groans. Lovers' eyes on the pressure gauge. Andy was unusually quiet, and presently, noticing the youngster's worriedness, he motioned him over to a corner of the engine-room.

Loren was now 'breathing heavily, by his eyes contracted to mere slits, the veins in his forehead bulging. For a moment he seemed incapable of speech, and then: "Get for me, you scound! You looked for a hell ship—and you found one. But if you're not taking on ever going back to your pals and collecting on your last—forget it! You've looked a single penny on this craft. Get that!" And he lay back in his eyes made mad by his mounting divot.

Monty just grinned good-naturedly. "Abso-jolly-true! Ship, and you've scrawled up to the top of a sea head in the art of drawing legs Loren's pleasure."

At further exciting adventures Bill's work.

This Week's Puzzle

A frequenter to a certain café unwrapped a parcel and disclosed five glass vessels. "These glasses," he explained to the assembly, "contain respectively a maggot, two-minths, three-fifths, six-sevenths, and seven-eighths of a pint. How many pints of liquid will be required to fill all of them with the least possible amount of waste?"

ANSWER TO LAST WEEK'S PUZZLE: The cost price of the houses was £1,000 and £1,000, a total of £2,000. As they were sold for £2,400, a loss of £400 was suffered.

Notes for the Wireless Enthusiast

MEASURING INSTRUMENTS FOR RECEIVING SETS

SHOULD BE IN THE POSSESSION OF ALL OWNERS

TRACING ELECTRICAL FAULTS

ESPECIALLY USEFUL FOR KEEPING REGULAR CHECKS

(By "Aerial")

Even though a listener may not be an expert, he should, in order to be able to keep his receiver in good condition, possess himself of some kind of measuring instrument. Such instruments can be obtained locally at very moderate prices, and will in general very soon pay for themselves in the shape of better reception. They are particularly useful for the country listener who relies on batteries for the operation of his receiver. They will give timely warning should anything be amiss with the batteries, enabling replacement to be made at the correct time. A two range voltmeter and a milliammeter and a circuit tester can be obtained in combined form which will give all the data required, in addition to being a useful pad for locating those faults which are not absolutely accurate instruments is not essential, as readings need only be compared with those which are.

It should be pointed out that with the decrease in H.T. battery voltage as the total current consumption increases, the voltage across the valves will also decrease. Depending on the type of valves used, the grid bias should be adjusted by steps two or three times during the life of the H.T. battery in order to counter the loss operating conditions, particularly for the output valve. When a new battery is brought into use, care should be taken to restore the bias to its original value. In sets where the bias may be permanently adjusted, it is of course required.

In order to be able to track down trouble with the least possible delay it is also a good plan for the owner to ascertain what the consumption of the valve should normally be. In general, the current which should be measured in the positive lead, in this case, unless all the other valves and pentodes especially, sometimes lose a considerable amount of their emitting power suddenly without apparent cause.

and weakness here has a very bad effect on reception. The circuit

The purpose of the circuit is that of locating faults should they arise. It consists of a small battery contained within the main battery compartment which provides a small voltage source which will show a voltage on the voltmeter which is attached to the circuit. It is electrically connected in this way to a very sensitive lamp which is an open circuit in the way there ought to be connected. In the particular model I have in mind there is a special provision for testing the current of suspected valves. No reading is obtainable if the filament is broken, but it should be emphasized that a valve can be in bad condition even though its filament is in order. The proper test of a valve being its H.T. current consumption under working conditions.

It is not to be expected that the average listener will, even with the aid of one of these excellent little instruments, be able to locate faults even though they are present. But by keeping a check regularly on the lines indicated above, it is possible to position to insure himself against trouble. In brief, there will be a great decrease in H.T. current consumption with the decreasing voltage of the battery. It should be retified at times by the slight alteration of the bias. The current should never be quite as high with a lower H.T. voltage as it was with a higher one.

If apart from this there is any sudden fluctuation in the consumption the cause should immediately be investigated. Especially where the fluctuation has an upward tendency, reception should on no account be resumed until the cause has been traced back to normal, or pounds worth of damage may be permanently damaged. If the consumption suddenly goes down, it is most likely due to a short circuit in the circuit, which will do no harm, or perhaps the failure of a valve which will stop the set from working. It should however be remembered that valves which are taken to find out which one it is. It should however be remembered that valves which are taken to find out which one it is. It should however be remembered that valves which are taken to find out which one it is.

WEST OF ENGLAND BAND FESTIVAL

To be Broadcast on Monday Night

Transmission 4 on Friday, August 29, at 8.0 p.m. local time.

This is the second collaboration between the West of England Bands' Festival and the West of England Bands' Festival. The first collaboration was in 1934 when the West of England Bands' Festival was broadcast on Monday Night. The West of England Bands' Festival is a musical festival which is held annually in the West of England. It is a festival of bands and is one of the most important musical events in the West of England. The West of England Bands' Festival is a musical festival which is held annually in the West of England. relationship of transmitter and receiver

Television was a highly complicated system of transmitting and receiving stations with thousands of interlocking parts, each of which must function perfectly to make the system work.

Research and technical progress has been made in the laboratory since the company had produced a 345-line television picture of several years ago.

From the practical standpoint, the character of service possible in the present status of the art was somewhat comparable in its limitations to what one sees of a paraffin lamp in a window or a single bulb in a room.

Establishment as a Public Service

From the foregoing, said Mr. Sarnoff, it would be seen that a number of basic problems surrounded any effort to establish television as a public service.

Transmission

In the present state of the art, the service range of television from any single station was limited to a radius of from 15 to 25 miles.

It is so easy to choose the leader in Radio for Radio has but one "Magic Brain"

In many industries it is difficult to decide who will be the leader, but this is not the case in the radio industry. RCA Victor "Magic Brain" radios sell in tremendous volume in 102 countries, and that means justly won RCA leadership in the radio industry. In 1924, RCA produced the first practical superheterodyne receiver for use in the home. Today 80% of the world's receivers are superheterodynes.

RCA INTERNATIONAL DIVISION THE TOOL HOUSE NAIROBI. RCA Victor, one unit of Radio Corporation of America... THE TOOL HOUSE NAIROBI. INGRAM & CO. LTD.

In 1927, RCA presented for public use the first radio set designed by engineers from light sockets, without batteries, and which brought today's standard practice. RCA is the inventor of the development of the famous "Magic Brain" receiver. Through creating these and many other essential developments, RCA has made radio what it is today. RCA not only makes "Magic Brain" Radios, but is itself the "Magic Brain" of the industry, the brain that directs the radio you buy today, the brain which will bring the radio you buy to-morrow. RCA is not only manufacturer, but inventor, not merely manufacturer, but producer. It is the only company that designs and manufactures everything in radio, from the microphone in the studio to the receiver in the home.

in outlying parts, who are already provided with transmitters and receivers which are of a standard type, but are of a higher power from small-panel-driven generators. The new station will be erected and operated by Amalgamated Wireless (Australia) Ltd.

MOTORING TOPICS

COMMENTS OF THE WEEK

By The Motoring Editor.

In a previous article I made reference to the question of the police authorities, when issuing new licences to applicants, insisting that the applicant should be fully acquainted with the various signals before passing him out...

I do not know if it has struck the motorist in Nairobi, but wonder if they appreciate to the full extent the very efficient parking arrangements with which the town is blessed? Few towns in this world afford such a degree of parking space as is to be seen in Nairobi...

And now a little with regard to our 'jay walkers' because they are not a very rare sight. Admittedly, most of them are to be found in the native and Asian communities, and it is amazing how few accidents there are in consequence. But quite a number are to be found in the European community.

The problem of the 'jay walker' is one which has been occupying the attention of municipal authorities for some years now. In some cities 'jay walking' has become a definite offence, this is the case in many American towns...

Something else we may expect to see in the near future is the introduction of a new type of motor cycle, because there are any amount of 'jay walkers' in Nairobi. They are a danger to their selves and to the motoring public, a very considerable one in Nairobi.

POINTS FOR THE LEGISLATORS

Dangerous Practice in Use of Pedal Cycles

NEED FOR MUCH STRICTER CONTROL

ROAD SIGNS AT CROSS ROADS

A Central Registry for All Motor Licenses

(By The Motoring Editor.)

I make reference to a note which appeared in the East African Standard, under the heading 'Points for the Legislators'...

Why should the use of a light be just as dangerous as other lights, a rear light, but the existing law is not so strict.

It is a very difficult task to put a light on a bicycle at night, particularly in the case of a motor cycle. It is a very difficult task to put a light on a bicycle at night, particularly in the case of a motor cycle.

It is a very difficult task to put a light on a bicycle at night, particularly in the case of a motor cycle. It is a very difficult task to put a light on a bicycle at night, particularly in the case of a motor cycle.

Cross Road Signs

Another dangerous practice is that of two people riding on a pedal cycle. This is a reprehensible practice, and one which should be prohibited by law.

In the case of the motor cycle the law states that no motorist or passenger may be carried upon a motor cycle unless it is fitted to the rear of the machine.

As far as possible it is the policy of the Government to get the best possible results from the roads situated within the Municipal boundaries. It would be a great benefit to the motoring community if some improvement in the sign-

EXTENSIONS TO AUSTIN FACTORY

Press-the-Button Body

LATEST IN CONVEYING PLANTS

In the new extension just completed at the Longbridge factory of the Austin Motor Company, an amazing piece of co-ordinated operation has been achieved by using the very latest conveying plant.

The new shop, which has cost £20,000 and has a floor area of 41,000 square feet, is devoted to body mounting and incidental processes; in it the marriage ceremony between each Austin body and chassis—conveying every component half a mile, or 2,000 times a week—is now performed by electric switch.

High up in the central gallery the operator has before him a set of push button switches which determine the movement of the three hoists. By one of these hoists the body is lifted from a reception platform and manoeuvred with the travelling crane to the station where it can gently drop into position on the waiting chassis ready to be conveyed to the next stage.

In a few seconds the car stands on the platform, the engine operating and moving off by a conveyor at anything up to two feet per second.

In all these six of these moving lines, each 100 yards long, two of them having rigid sections to enable machines to work below the moving cars securing body bolts, etc.

Three feeder stores, in the form of a hopper, receive the lines with all necessary equipment and parts, these stores being connected to the main receiving stores by a conveyor nearly six hundred yards in length, which incorporates over six hundred trays or carriers.

For components required throughout the shop is this automatically provided when and where needed on the operating lines of cars, and near the end of each line an electrically operated supply chest, which is driven away under its own power for its use.

The policeman was holding up a motorist. There are two of driving a car," said the policeman. "What's the right way?" asked the constable. "I thought you would know that," replied the motorist with a smile.

A woman's as old as she looks, a man's as old as he feels—and a whisky's as old as it tastes. You are not long in doubt about the veteran age of Johnnie Walker whisky. First the fragrance of its bouquet tells you much. And then the unusually smooth flavour confirms your first favourable impression.

FEWER LOAD DEATHS

Ministry of Transport's Latest Campaign

A reduction in the number of persons killed and injured in road accidents is being made possible by the Ministry of Transport's latest campaign for greater safety.

During the weeks of this year, 3,452 persons have died as the result of road accidents, and in 119,048 persons have been injured.

The St. Helena road to road deaths this year with 10 deaths. Unfortunately it is possible that the August Bank Holiday will result in a further increase in road deaths.

Lord Francis Scott Explains his Attitude

ADDRESS TO MEETING AT KIAMBU

Review of Political Situation

FIRM PERSONAL POLICY FORESHADOWED IN BUDGET SESSION

A largely attended meeting of residents of the Kiambu district was held on Saturday when Lord Francis Scott attended by invitation and gave an address on the present political situation and also explained his view of the recent incident in Legislative Council when four Elected Members left the Chamber.

Lord Francis Scott paid a tribute to the loyalty and support given to him by Major F. Cavendish Bentinck and by Major G. H. Riddell, the member for Kiambu, and said he realised how strongly they felt and sympathised with them, on the attitude adopted by Government towards the demands of the people.

He felt, however, that on this particular occasion they had taken up a mistaken policy by walking out on what was actually a minor issue. The real issue would arrive during the forthcoming session. Lord Francis Scott foresaw that if Government again "stonewalled" the legitimate claims of the taxpayers, he would also throw in his hand and adopt other measures.

Major G. H. Riddell also spoke and emphasised that he withdrew had been a deliberate act and one which he felt was the only course to take, as a warning to Government that if the present policy was persisted in the result would be that the "country would be left from end to end."

A Warning to Government

A well-attended meeting of the voters of Kiambu, who held at the Kiambu Sports Club on Saturday last under the chairmanship of Mr. H. T. Wells, with an opportunity was given to Lord Francis Scott by invitation to review the present political situation and to explain his view of the recent incident in Legislative Council when four of the Elected Members walked out.

Major O. Riddell, the member for Kiambu, who presided, said that he was glad to see Lord Francis Scott and addressed the meeting.

stressed the fact that such action as had been taken in withdrawing from the Chamber had not been an impulsive one. He was quite ready to discuss the question in person, and to make any such proposals as would be in the best interests of the country as a whole.

He had agreed after an exhaustive discussion to be held upon the subject, but he was not prepared to do so at that time.

He had had in mind to withdraw from the Chamber at that time, but he was not prepared to do so at that time.

Lord Francis Scott expressed his sincere thanks for the vote of confidence in the Government by the electors, and said that he was glad to see that the Government was supported by a majority of three or four months.

Major G. H. Riddell also spoke and emphasised that he withdrew had been a deliberate act and one which he felt was the only course to take, as a warning to Government that if the present policy was persisted in the result would be that the "country would be left from end to end."

He had had in mind to withdraw from the Chamber at that time, but he was not prepared to do so at that time.

Major Riddell explained his reasons for withdrawing from the Chamber, and said that he was not prepared to do so at that time.

Lord Francis Scott expressed his sincere thanks for the vote of confidence in the Government by the electors, and said that he was glad to see that the Government was supported by a majority of three or four months.

Bank Holiday Trip to Mombasa

Kenya Golfing Society in ESWARD

Having postponed my stay in Mombasa for as long a time as I could, I was unable to write my notes in time for publication last week. I have come to the conclusion that the weather, which was spally on Sunday and Monday, was not so good as I had hoped for. It was not so hot as I had expected, and the sun was not so bright as I had hoped for. The golf was not so good as I had hoped for. The course was not so green as I had hoped for. The water was not so clear as I had hoped for. The food was not so good as I had hoped for. The accommodation was not so good as I had hoped for. The people were not so friendly as I had hoped for. The scenery was not so beautiful as I had hoped for. The climate was not so pleasant as I had hoped for. The overall experience was not so good as I had hoped for.

Government Without Any Definite Policy

MAJOR CAVENTISH-BENTINCK AT NYERI

Enthusiastic Meeting

MR. E. H. WRIGHT ON BUREAUCRATIC TYRANNY DIRECTED FROM OVERSEAS

One of the most enthusiastic and best-attended meetings ever held at Nyeri took place there this week when an address on economic conditions in Kenya and on the circumstances of the recent "walking-out" incident in Legislative Council were given by Major the Hon. F. W. Cavendish-Bentinck and the Hon. E. H. Wright.

Major Cavendish-Bentinck contended that Government were not following any definite line of policy—as was the case in other countries—beyond attempting to allay criticism by means of inadequate makeshift palliatives; and criticised the Secretary of State for the Colonies for delaying decisions which vitally affected the welfare of Kenya.

He described as a retrograde step the proposal to abolish district councils, and urged the people of North Nyeri to abandon their aloof attitude towards local self-government on the ground that managing their own local affairs was an essential step towards political self-government. The Mount Kenya Association later adopted a resolution approving of local self-government for the Nyeri District.

At the request of Major Cavendish-Bentinck and Mr. Wright a motion of confidence in Major Cavendish-Bentinck and the three other European Elected Members who walked out of Legislative Council during the last session, congratulating them on their action, was withdrawn.

"Walking-Out" Incident

["STANDARD" CORRESPONDENT.]

The best attended meeting ever held at Nyeri took place here on Monday last to hear Major the Hon. F. W. Cavendish-Bentinck and the district elected members, the Hon. E. H. Wright. The meeting was held under the auspices of the Mount Kenya Association, a national body which was the nucleus of the younger settlers who were present.

The chairman, Mr. E. A. Bvaya, in introducing Major Cavendish-Bentinck, thanked him on behalf of the Mount Kenya Association for the great amount of hard work for constructive work he was doing for the Colony in its present difficulties. After associating himself with the remarks made by the chairman about Major Cavendish-Bentinck, Mr. Wright stated that he was quite unimpressed about the recent "walking-out" incident, and that the impression that the issue at stake was a minor one was a mistake on one side. On the contrary, the debate on the Economic Development Committee in Kenya, in his mind transcended in importance all other matters considered during the session since the issue at stake affected the entire vitals of the country.

Some of his colleagues argued that collective opposition to Government should be made the feature of the next Indian session—but why wait, he asked? And why postpone pending the success of the English politicians when it was clear from the beginning that the Government would be forced through regardless of vocal opposition.

The colony, he said, was faced with alternative issues; it could either accept the existing proposals of the Economic Development Committee, acquiesce in the present, no urgent reasons had been advanced—or else it could adopt a ruthless deflationary policy.

It is unappreciated, the latter contended, that Government of Associations in the Highlands, and that this had been made possible by the Government and Railway overhauls of not less than half a

ABYSSINIA TAKING NO CHANCES

Although European Powers are striving to avert armed conflict between Italy and Abyssinia, the Ethiopian Government is taking no chances in regard to its own defence. The above picture shows peasants, armed with rifles, gathering at a village.

HUNTING ACCIDENT IN ABYSSINIA

Italian Consul Wounded While Examining Gun

[STANDARD] ADDIS ABABA, August 23. Baron Falconi, the Italian Consul at Addis Ababa, 120 miles north-west of Addis Ababa, and son-in-law of Sir Evelyn Baring, the British Minister to Abyssinia, was wounded to-day while on a hunting expedition. His life is in no danger.

CROSS CHANNEL SWIMMING SEASON

Englishman's Successful Attempt

[STANDARD] ADDIS ABABA, August 23. The cross channel swimming season opened to-day, or rather early this morning, when the Englishman, Captain Taylor, swam from Grimsby to Dover. Taylor left the English point at 1.35 a.m., reaching Dover at three minutes past four in the afternoon.

NATAL'S WANDERING WHITE RHINO

Butchered by Natives: One of World's Few Specimens

["STANDARD" CORRESPONDENT.] DURBAN, August 19. The remains of Natal's wandering white rhino, which was introduced by Natal in Malindi last week, have arrived at the Government Museum in Durban. The rhino was shot by a native hunter in the Natal bush on August 19.

CROP EXPECTATIONS IN THE UNION

Big Increase in Tobacco Production Forecast

[STANDARD] CORRESPONDENT. DURBAN, August 19. A crop of 477,000 bags of Kaffir corn, 8,004 bags of unshelled groundnuts, 2,180,000 bags of potatoes, and 10,130,000 lbs. of Virginia and 300,000 lbs. of Turkish tobacco is expected by the Department of Agriculture this year, states the "Sunday Times."

SOUTH AFRICAN EXPORTS

Further Improvement Reported

Allowing for seasonal fluctuations the exports from the Union to South Africa, other than gold, continue in the upward direction. The monthly total of gold exports is no criterion of the activity in the relative industry, for the practice is usually followed of exporting just sufficient metal to meet overseas commitments and to replenish overseas holdings of the Reserve Bank.

UNION MANUFACTURING INDUSTRIES

Bright Prospects for Further Progress

The manufacturing industry in South Africa continues to make headway although perhaps at not as rapid a rate as during the past two years, states a report issued by the Union Commission in East Africa.

SOUTH AFRICA'S SUGAR PRODUCTION

Record Output Expected This Year

[STANDARD] CORRESPONDENT. DURBAN, August 19. South Africa has produced more sugar this year than ever before. Mr. J. H. Fahay, Chairman of the Board of Trade and Industries, told the "Natal Advertiser" today. It is estimated that this production will exceed 600,000 tons.

RATES OF EXCHANGE

Some Air Accidents: Stock Exchange: F.C. Mavor of H.M.S. "North" who was injured in a crash landing on Sunday August 4, is still detained in a Nairobi nursing home, but is reported to be making good progress and his condition is now regarded as satisfactory.

NO NEWS OF FLYERS

Indian Airmen Missing

Two Planes Lost

BETWEEN TANGANYIKA AND RHODESIA

Independent Flights to the Cape

Two aircraft containing Indian airmen on route for Cape Town are reported to be missing between Tanganyika and Northern Rhodesia, on the Nyasa-North section of the route.

The first is the Puma Moth (Pipit Major) flown by Messrs. Dahl and Pookhanswala, which left Nairobi at 4.30 p.m. on Wednesday last. The machine duly reported at Mbera, leaving the latter aerodrome at 3.45 p.m. (local time) on Thursday. It did not arrive at Mbera and up to yesterday afternoon no information was available as to the fate or whereabouts of men or machine was available.

It is understood that the Tanganyika authorities are making extensive enquiries with a view to ascertaining what has happened to the missing aviators, who may have been forced down at some outlying spot from which there are no rapid means of communication.

It will be recalled that these aviators experienced a certain amount of trouble en route from Mbera, having to remain five days in Cairo while their engine was repaired.

(Continued on page 11.)

Britain to Continue Efforts Towards Peace

CABINET REVIEWS THE WHOLE SITUATION

No Change in Policy

DECISION DESCRIBED IN ROME AS WELL MEANING BUT USELESS

The British Cabinet sat all day at Downing Street in discussion on the Italo-Abyssinian situation. All members were present. A large squad of police were present outside No. 10 to control the huge crowd which assembled to watch the arrival of the Ministers.

The meeting adjourned at 4.30 p.m. having concluded its deliberations. It has been decided to keep in constant touch with France, and to continue to explore with Italy the possibility of reaching a peaceful settlement of the dispute. The embargo on export of arms is to remain for the present.

Messages from Rome and Paris state that the attitude of the British Government has given satisfaction, particularly in France. The decision to continue diplomatic negotiations is regarded in Italy as well-meaning but useless.

Arms Export Embargo to Remain

[STANDARD] ADDIS ABABA, August 23. A large squad of police was on duty at Downing Street to-day to control the crowd when the latter meeting of the Cabinet opened at 10 a.m.

Mr. Basil Liddell Hart was the first aviator to be called on to duty at Downing Street to-day to request by an army of photographers, at which he smiled grimly about his stick before entering.

Ministers' all looking grave (Continued on page 11.)

UNION GOLD PRODUCTION

Activity in Industry Still Rising

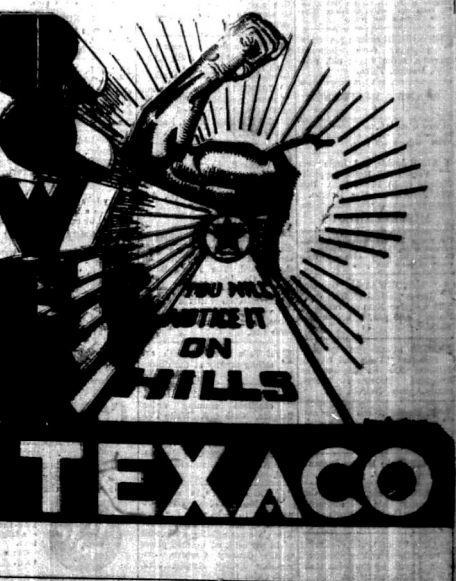

The June output of gold amounted to 880,250 fine ounces against 916,350 ounces in May and 861,074 ounces in June of last year. The increase as compared with May is accounted for by the smaller number of working days. Activity in the industry is still rising and both producing and developing mines are steadily employing more labour.

In recent months, however, quite a number of smaller undertakings which were floated since the Union's departure from the gold standard, have ceased operations in account of fluctuations of funds and unfavourable results from prospecting and development.

The tonnage milled continues to rise as the increased milling capacity of existing production comes into operation. Although the output in June was lower than that treated in May, the daily average of the former month was higher than that of the latter.

"Malda" Mail

The mail from the "Malda" will arrive in Nairobi on Tuesday morning instead of on Monday as advised in the mail file.

Britain to Continue Efforts Towards Peace

(Continued from page 1)

Monsieur's rejection of the Anglo-French proposal for a peaceful settlement of the dispute; recently a review of the Government's decision to withhold licenses for export of arms to Italy or Abyssinia; a study of the Government's policy when the dispute comes before the League Council on September 4.

The Cabinet rose at 4.30 p.m. after sitting for 4 1/2 hours, excluding luncheon. Mr. J. H. Thomas leaving said: "We have finished now."

Peace Efforts to Continue

No official statement on today's Cabinet proceedings has been issued, but it is learnt that the Cabinet strongly endorsed the British and French Governments in Paris to keep constant touch and until the League Council meets on September 4, to explore with Italy the possibility of finding a peaceful settlement.

In view of these explorations it was decided at present not to change the decision temporarily to withhold licenses to export arms to both parties, and also that there was no reason to change the policy already frequently announced on the attitude of the British Government towards the League and the Covenant.

No further developments are expected for some days and no further meeting of the Cabinet has been arranged.

Certain ministers, however, will remain within easy reach of London and will be available to meet at any moment.

It is learnt that there is no reason to suppose that the discussion at the League Council on September 4 and at the Assembly on September 9 will not proceed normally.

In regard to Britain's attitude to the League and Covenant it is recalled that Sir Samuel Hoare made a statement in the House of Commons on July 31 that "we are fully conscious of our Treaty and Covenant obligations and we certainly intend to uphold them." It is learnt that the decision to continue to withhold arms export licenses does not mean ne-

cessarily that the ban will be maintained until September 4.

Satisfaction in Rome

Rome, Aug. 23. News that the British Government is continuing the arms embargo was received with satisfaction in Rome, and it was stated that Britain might allow free export to Ethiopia. The decision to continue Britain's League policy was expected, while the intention to continue negotiations diplomatically is regarded as well meaning, but useless.

Opinion in France

Paris, Aug. 23. The British decisions have been received with satisfaction in authoritative quarters here. The resolve to continue collaboration with France is particularly welcomed. "We ask for nothing better," said one authority.

Ministers Resume Holidays

[By WIRELESS.]
Within a few hours of the conclusion of yesterday's Cabinet meeting most of the Ministers returned to London to resume their interrupted holidays. The Prime Minister travelled by the night service to Paris where he arrived shortly after midnight and left shortly afterwards for Aix les Bains. Lord Halifax is leaving for Dinard in France. All the other Ministers are spending their holidays in the British Isles, several of them

Random Remarks

EVERY Police officer realises that the old and tried "cocky" are still the most annoying variety but little throughout the year. The "cocky" is usually a young man who leaves millions to an "honour man" week-end and who has shells (probably first tried on North Omaha) flourish like green bay leaves. Occasionally a new variation on an old theme, thus disguised, is devised and more usually gaudious trickster. At the moment Kenya, and one presumes the rest of the world, "being deluged with a new form of this old old the War years it took the form of an abjection to copy out a certain number nine and ten and then to copy to each in nine pieces, threatening evil, or some such thing. If this service will be regarded and usually, getting the expense of the "honour man" of Canadian Industry, in support.

Millions of people, in the hysteria engendered by hostilities, fall easy victims to this particularly heinous form of "capitalism." The new variant, however, holds out the almost certain prospect of nothing. One is invited to write to a number of people, sending to the person in the order for 6d. to the person on the list. Eventually, when the chain is extended, the person name becomes part of many other lists and the value of the money (usually of £250, or more, depending on the value of the "honour man") is lost. The "honour man" is usually a "sucker" from every nation.

At the special musical service at the East African Standard, Mrs. M. B. Schofield, P.O. Nyeri, and the choir of the East African Standard, will sing "O God, send down Thy Spirit."

Motor Collision
As a result of a collision between a motor driven by Mrs. M. B. Schofield, P.O. Nyeri, and a motor driven by Mr. J. H. Schofield, P.O. Nyeri, and the choir of the East African Standard, will sing "O God, send down Thy Spirit."

ACCUSED OF TRAFFIC CHARGE

Alleged to Have Driven Carelessly

In the Resident Magistrate's Court yesterday, Mr. P. G. Gumbel acquitted Mrs. S. Bennett, of Nairobi, who was charged under the Traffic Ordinance with driving carelessly. Mr. J. Kaplan appeared for the defence and the Court Prosecutor, Inspector Ebbels, conducted the case for the Crown.

It was alleged by the prosecution that the accused drove her two-seater car in a careless manner on the afternoon of July 15 last, in that, when turning from a side-avenue into Stewart's Street (towards the Municipal Market), she collided with the rear of a box-body car belonging to and driven by a Native employee of Messrs. Gibb's Auto Transport Ltd.

At the time the box-body car was proceeding along a side-road of Sixth Avenue in the direction of Government Hill, as a result of the collision, sustained damage to the off-side rear wheel, tyre and mudguard.

It was alleged further that the accused or had been driven fast and that she had taken the corner without exercising due care. She denied the charges and contended that the Native driver of the box-body car was crossing the road as the stationary speed limit had broken were defective the latter condition resulting in his attempting to cut in front of accused's car, thereby causing the collision. It was also contended that she had exercised due care in that she failed to notice the approach of accused's car.

In the course of his judgment, Mr. Gumbel stated that he was of the opinion that Mrs. Bennett was entering Stewart's Street from Sixth Avenue also was a main-road driver and the Native was a main-road driver. It is now stated that the main-road driver has no right superior to the side-road driver, but as the latter is causing a more difficult course it behooves him to give greater care than the main-road driver.

In this case there would appear to be no valid reason for the accident. The turning is a wide, open one, and there is no evidence that there was any other traffic about at the time. As is almost invariably when a case of this nature is conducted, there is a complete conflict in the evidence, both in respect of the actual occurrence and the evidence of the accused's experts.

A perusal of the evidence as presented in this case, that as regards the box-body car (driven by the Native) the brakes were in reasonable condition and that the driver cannot be held to have seen the accused's car at some time or other and the car was not being driven at an excessive speed. With regard to the accused I am not prepared to say that she did not see the car which has committed an offence under the Traffic Ordinance.

There are two possible solutions of this accident: (1) That the accused miscalculated the speed at which the two cars were converging, which would constitute an error of judgment; (2) that the accused by mistake tried on the accelerator in mistake for the brake, this latter theory being backed up with the evidence given by Messrs. Hodgkins and Ashford, whom I regard as reliable witnesses.

The accused is acquitted without costs.

Arr Mail despatched from Nairobi on August 16 arrived in England on August 22.

ECONOMIC POSITION IN LINDI

(Continued from page 7)

and commerce of heavy shipping and double lightening charges, were mainly responsible for the increase in the prices of imported articles, and for a decrease in the prices of exportable products and in consequence of the necessity for stimulating development work in the territory without further delay, it was one of the objects of Native Government to participate in the development of the general to secure satisfaction of shipping and lightening charges.

The conference considered the 7-yr. Government to endeavour to place Lindi Port in the same category as the two Salama, Zanzibar and Mombasa with regard to freights and other charges and to reduce lightening charges from the 12/6 to 8/6 per ton. The Government should arrange for Lindi to be carried to and from Dar-es-Salaam and other coastal ports by the Government and to be carried by the Zanzibar Government in respect of Portia practice.

Competition from Misons It was alleged during the discussion that certain mercantile societies were engaged in profane trade and other trade of a general nature at several places in the province and that some of them obtained by their religious grounds had enabled them to enjoy many special advantages which were denied to the Indian merchants. The conference recommended that the Government should advise the present authorities and urge the Government to remove, with as little delay as possible, the obstacles in the way of the Indian merchants who it was stated.

Representation on Legislature

The conference expressed its disapproval of the opinion that the Indian community resident in the province and Government had, in the past, been responsible for the lack of representation on the Legislative Council of the territory.

It was recommended that the Government should endeavour to secure adequate representation on the Legislative Council of the territory by the Indian community. The conference expressed its approval of a recommendation of a horticultural conference of Indian merchants, held at "Dobou", in April, that chambers of commerce or Indian associations be formed at all trading centres in the territory.

The conference also urged upon the Government the advisability and desirability of taking immediate steps to increase cotton production in the Lindi Province, as had been done in the Lake and Western Provinces.

TO-DAY'S GROUND CUP MATCH

Callies and the Police

LETTER TO BE WITHOUT BROOKES

Callies and Police meet this afternoon in a second round Ground Cup match on the former's ground. The game should be a real good struggle. On the two occasions three sides met in the Dobbie League Callies had to fight hard on each occasion.

COUNTRY CRICKET CHAMPIONSHIP

High Scoring Over Two Days

ELEVEN BATHERS SCORES CENTURIES

["STANDARD" CORRESPONDENT].

Yorkshire gained an easy victory over Gloucestershire to-day when they were early in the afternoon by an innings. Verity claiming half the home team's wickets for 48. There were some high scoring in several of the matches. At Dover Ashford, the Kent batsman, carried his bat for 800 out of a total of 960, but Derby responded in this fashion with 820 for the loss of eight wickets. They still require 81 runs to avoid the follow-on however.

Sussex knocked up one of their highest totals of the season against Surrey at Eastbourne, where three of the home team scored centuries. Mills, the captain, had an innings of 110, while John Langridge scored 111, and H. Parks carried his bat for 100. Sussex were all out for 480 in which Barry replaced with 210 for nine wickets, (deadweight) being top scorer with 60. Chatterton had finished marked the Sussex innings. Lancashire was another county to top the fifth century scoring 621 for the loss of half their century when they declared. Byrton being top batsman with 200 in each innings. Northants made a moderate show at their first innings, all out for 178. Hereford having seven for 56. Northants, however, found it better in their second innings when they passed the century within 30 min.

It was a batsman's wicket as no fewer than eleven centuries were scored over the two days, play being over at 10 o'clock on the second day and one the third. At Cardiff, Bradford, the Gloucester all rounder, knocked up 200 and was unbeaten at the close. He was ably assisted by Bessie, with 128. Trent Bridge produced two centuries with Staples 107 not out for the home county, and England all rounder, while not having too happy a match in the final test, which was a draw. Essex matched the fall at Bourne, where they captured half the Hampshire wickets for 49 runs. Essex matched a narrow lead on the first innings.

Alghosher it was two days of very hot and sultry weather. While there were several good performances on the first day, the bowling it was generally a batsman's day, the willow triumphing over the bat in the second innings.

The following are the scores at the close of the second day's play:

Gloucester v. Gloucestershire
At Cardiff:
Gloucester—1st Innings—440 for 7 (Bessie 120).
Gloucestershire—2nd Innings—211 for 7.

Notes v. Warwickshire
At Nottingham:
Warwick—1st Innings—113 (Woodford 67).
Notes—1st Innings—84 (Staples 107 not out).
Warwick—2nd Innings—220 for 8 (Kilner 147).

Kent v. Derbyshire
At Dover:
Kent—1st Innings—500 (Ash-down 300 not out).
Derbyshire—1st Innings—200 for 8.

Warwickshire v. Yorkshire
At Worcester:
Worcester—1st Innings—164.
York—1st Innings—358 (Sattler 120).
Worcester—2nd Innings—184 (Verity 5/8).
York—1st Innings—111 for 5 with 49 runs to go.
Surrey v. Surrey
At Eastbourne:
Surrey—1st Innings—489 (H. Parks 100 not out; John Langridge 111; Melville 110).
Surrey—2nd Innings—315 for 9 (Gosford 100).

Northants v. Lancashire
At Northants:
Lancashire—1st Innings—321 for 5 (died). (Payson 200 not out).
Northants—1st Innings—181 (Hopwood 7/60).
Northants—2nd Innings—111 for 6.

Essex v. Essex
At Bourne:
Hants—1st Innings—225 (N. Mills 5/48).
Essex—1st Innings—247.
Hants—2nd Innings—239 for 5 (Arnold 133).

GOLF NEWS AND NOTES

"Bernard Pitt" Eclectic Competition

A Neck and Neck Struggle

Nairobi and Malindi Matches

EIGHTEEN HOLE ODDS AT EBBW

Nairobi (Nairobi).
Saturday and Sunday were really the proudest of my golfing life when I was in the "Bernard Pitt" Cup after a very stern fight. Mr. Beni Martin and I played together on the Sunday afternoon, and we were going neck and neck the whole time. At the final I just beat him by one stroke. I had played in this competition ever since it started, but I have never got anywhere since first before. I was a very proud and happy golfer when the Aston Press presented me with the cup on Sunday evening. My 7 was made up of many kind congratulations. One of my oldest friends, one whom I have played in many ways, had been contacted on early Monday morning and participated in the following:-
There was a present from Mr. Beni Martin, who slightly resembled a stock.
HE WOULD TIE THE J.P. Gung and the J.P.
At least—that's the Club's common talk.
Will those would not drag from me his name because I should think it would be a "hoax" of "nibbles" threatening his life.
In my position as your golfing correspondent, I receive many enquiries from people asking for my opinion. I do not mind giving this but I don't like to give any other. I do not have the Kenya Golf Union in Kenya, which was formed by the golf clubs of Kenya to control the game in the Colony. I am a member of many kind affiliated to this Union should any question of fact, or law, or anything else, be decided, through the Secretary of this Club to the Union. If the Union is in doubt, it can appeal to the Rules of Golf Committee of the Royal and Ancient.

Apprentice's Handicap
ICHIAN ... 1
SUN FAVES ... 2
MILBROCK ... 3

TENNIS TOURNAMENT AT PARKLANDS

Entries Coming in Satisfactorily

There is no doubt that handball tennis tournaments have a definite value in the hands of Nairobi in other parts of the world. In a tournament of this nature there is no reason for any player to be difficult as the handicaps are framed with the assistance of a committee some of whom are bound to know practically all the players, and handballing is done accurately.

KONGONI

A report of the Kenya Kongoni Home Tour will be found on page seven.

All players should have an equal chance of winning and the Parklands tennis tournament must always have a special appeal for the "lesser lights".

The club's eighteenth season will be opened on Wednesday, August 7, while entries close at noon next Wednesday August 28. I wish to think before the closing date as this year is our coming anniversary and we are making a special appeal to our members to reach the 250 mark by Wednesday.

Intending competitors are reminded that entries should be handed either to Messrs. May and Co. Ltd. or to Messrs. Craig's Sports House Ltd. Government Road, Nairobi, before the date mentioned.

McMILLAN TENNIS CUP

Concluding Games this Afternoon

The concluding matches in the McMILLAN TENNIS CUP are being played on the courts of the Gymkhana club, commencing at 4 o'clock.

R. D. England meets D. Duncan (Parklands), the challengers, while J. England (Malindi Country Club) opposes A. D. Chalmer.

NAIROBI BOYS VISIT NYERI

Students of the Eldoretville Boarding House visited Nyeri last week-end, when they opposed a Nyeri Indian Sports Club team and also a Nanyuki Indian side.

On Sunday the visitors gave a gymnastic display. Despite the fact that they have been training for only two months the display was very complete and thorough.

GRAND PRIX CARTRIDGES

THE VENUE CHANGED

On Saturday evening changes to Malindi when Nairobi men play Malindi men. This is the first time since 1910 that Nairobi has not in for some years, but even then I am doubtful whether they will win this match. Malindi has also a very strong team and moreover other Nairobi players quite content up to expectations on the Malindi course. They are devoted to win and I hope they do but I shall not be in the least surprised to find that Malindi have sold their own on a very dangerous day. I hope to watch both matches on Sunday I am certain to see a lot of "fire-works".

KENYA TENNIS COUNCIL

Yesterday, I went out to Nyong with a look at the golf course which is being made by Kenya Parks. The course is delightfully laid out with green areas, which are sure to be real ones. There are several holes in the hole. In fact, in the first one which is already completed, there is not a scratch hole. The ground has been cleared and is now being cultivated, for a further nine holes which are quite a different character from the first one. When finished this course should make only one of the finest 18 holes in the country. It was surprised at the way the ground had been cleared and I shall think the course should be in excellent condition by the end of the year.
