RUMANIAN OIL ONLY FOR AXIS

More Evidence Of Nazi Control

October 11. (AP)—Rumanian negotiations due to start Berlin next week to discuss the possibility of oil exports from Rumania to the Axis powers. Germany has already obtained the consent of oil to Turkey and Greece. The Bucharest correspondent of the United Press said this country has refused to deliver oil in exchange for Rumanian oil. It is reported that the Turkish oil companies are to be paid for in advance and that the amount must be made in dollars. It was also arranged that Turkey will have control over the oil.

Officers of the German army are being sent to the front of the leading hotels in Bucharest as the German garrison. Five or six hundred men are said to be sent to the Danube every day.

Nazi Aircraft

The United States, anyhow, is not a party to the negotiations. It is reported that the Rumanian assets in the United States should be placed in liquidation as in the case of the German assets already involved by Germany.

COLONEL WINS HIS CASE
Interesting Judgment

Holding that as an officer of the Navy Defence Force the accused was not entitled to be treated as a prisoner of war, the court has ruled in favour of the defendant, Mr. J. J. Morgan, who was charged with the offence of entering a controlled area, the case being heard by the court-martial at the Admiralty, London, on August 27th without a written permit, he was held to be a member of the Royal Military or Air Force.

A witness in evidence has been led in the case, stated his duty, and the court has ruled in favour of the defendant, Mr. J. J. Morgan, who was charged with the offence of entering a controlled area, the case being heard by the court-martial at the Admiralty, London, on August 27th without a written permit, he was held to be a member of the Royal Military or Air Force.

THE FRENCH NAVAL REMAINS ANTI-GERMAN
Borotra in Charge of National Sport Movement

London (Special) — His complete and equally enthusiastic about the result of the naval remains anti-german. The only British journalist who has been in France since the outbreak of the war, the French Government and visited not only Vichy, the seat of the over-ruled French, but also the un-occupied France that is controlled by the German army.

He wrote his dispatch from the French coast, which was subject to no censorship on the part of the French Government.

First of all, he begins his report, with a note that the most important news of the French Government is that the French Government is not in a position to give any information about the military situation in France, but that it is in a position to give information about the political situation in France.

France has had to lower down the weight of arms of her own army, and many of her own arms are being melted down. The only arms that are being kept are those that are necessary for the defence of the country, and the rest are being melted down.

In fact, there is really only one arm in France of any modern type, which is the machine gun. The machine gun is the only arm that is being kept, and the rest are being melted down.

The machine gun is the only arm that is being kept, and the rest are being melted down.

Paris is nevertheless, though not so in many things, and a well-known American correspondent, who has been in France since the outbreak of the war, the French Government and visited not only Vichy, the seat of the over-ruled French, but also the un-occupied France that is controlled by the German army.

He wrote his dispatch from the French coast, which was subject to no censorship on the part of the French Government.

CHEERIS A SHAPELY ROSE

This is particularly important with the power of your nose with the power of their points. They're longer than other points,

When you are choosing your face powder, there's one thing you should always ask. "Does this powder contain any materials which irritate the skin?"

You see, it is impossible to prevent the grain of powder getting into your pores. Once there, they become moist. If there are materials in the grain of powder which will irritate, your pores, the pores are forced open. Once opened, the pores will remain permanently enlarged.

and to allow face powder which swells to enlarge them still further will ruin the shapelier of noses.

Cery "Air Spun" powder contains no materials which irritate the skin.

There's not the slightest risk of causing clogged pores with Cery "Air Spun."

So beware—be wiso—be sure you get Cery "Air Spun."

MORE SOFTLE SHARDS

Ask us for the full range of Cery "Air Spun" shades. The "Air Spun" process gives you many subtle shades that simply can't be gotten in ordinary powder. Particularly becoming are Nuanette and Rachel.

F.A.N.Y.'s still want a constant supply number of recruits, particularly for the district work. As the task is now fairly heavy, it is an opportunity for those who are not yet in the ranks to show their interest.

The Councils organized by the Women's Section of the British Legion throughout the country and in Nairobi alone over two hundred women are giving voluntary content service. But the strain is increasing and there is reason to believe that a number who volunteered to help some months ago are now suffering from a lack of enthusiasm. The result is that the burden of work falls on the shoulders of the older women and those who are not yet in the ranks.

Kenya Women and the War
Is Their Help Wanted?
Numbers of women throughout Kenya are becoming dissatisfied and restless over their offers of help, given so freely by many hundreds last September, are needed now or are being gradually but deliberately pushed aside and out of the effort. We believe that much of the feeling is due to a misunderstanding and as to co-ordination and to our correspondents' columns have shown recently that there is a way to remove it. When the war threatened, and indeed long before it actually broke out, large numbers of Kenya women qualified their names and their registrations with the Kenya Women's Empire Organisation, the body which the Government has recognized for the purpose of requesting the work of the women of the Colony. The K.W.E.O. has done much good work since then and it is still the case that many of the voluntary women workers. It is the organization which the Military Authorities direct their official requests for help. Quite naturally, therefore, the women whose offers of assistance have not been accepted, and who today feel that the war is going on and is providing less and less opportunity for them to give such services as they can, are inclined to look to the K.W.E.O. for an explanation and for open championship of the cause of the Kenya women. They are also today inclined to blame the K.W.E.O. for their present position, and at least one correspondent has been calling for a rival organization in which the women themselves can take a larger part.

From NAKURU "Standard" Correspondent- Kenya FLYING SCHOOLBOY'S DIARY AMBULANCE Comforts For The Navy

Excellent progress has been made in Nakuru towards the cost of the Flying Ambulance to be given for the use of the Red Cross Society in Kenya. The second mile of the road is growing, and £200 had been collected at the end of last week. This included £300 from Mr. Martin Waller, the receipt of the advertisement...

It is impossible to mention all names, as records are kept in a book to be handed over with the final settlement of money and letters will be sent wherever it may be desired. It is impossible to mention all names, as records are kept in a book to be handed over with the final settlement of money and letters will be sent wherever it may be desired.

Much of the success of the first mile, especially in the opening hours, was due to Captain White, who had arranged for the children to be present from the various schools. And mention should have been made of the decorations which, accordingly, did not drop through the window.

The competition for the Captain's Club on Saturday and Sunday. The winner was Mr. E. M. Holloway with a score of 14, and the runner-up was Mr. H. Colquhoun. Mr. J. J. Higgins, the Captain, came up from Nakuru to present his prize.

It is good to know that the Ethiopian Society is going to start giving. This year's accountancy. On the 21st we left Jirga for Dodowale, with a distance of 125 miles. It was a very hot and dusty journey, and we arrived at Dodowale on the 23rd.

From Dodowale the road was a little better, but it was not very good. The road was very dusty, and we were very hot. The road was very dusty, and we were very hot.

In Heart of Germany
R.A.F.'s BIG RAIDS

October 16
The night was as usual, but it is reported that from the English side of the Channel there were signs of men lighting up the whole of the French coast. This was apparently one of the targets.

Further details of the raids on the coast of Germany are given by the resident of the German capital. It is estimated that a wide area was illuminated for many hours. The other raids were in the morning and afternoon.

More Big Raids
The Royal Air Force made a second raid on the coast of Germany on October 16. The raid was a night one and was carried out by the Bomber Command.

in the Navy is unbounded and the loss of the salt sea in their blood gives them an outlook on naval warfare which is not shared by any nation in the world.

The story of the naval engagement told today will come to them as a tonic, and they need it. The exploit of the end of the war, the Graf Spee, and the Cossack's raid on the German principal ally has not been told.

From the Italian point of view it is not a good story. The Italian navy has been completely destroyed.

V. C. Prisoner Of War
CASUALTY LIST CORRECTIONS

October 16.
The War Office has notified the 12th Victoria Cross of the war. It is a list of names of prisoners of war who were captured in the Italian Peninsula. It is an Italian prisoner of war (British).
Only a few days ago, when Capt. Wilson's decoration was announced, it was revealed that although verified would be carried on in connection of machine gun units for three days. On the second day two of the machine gun units were in the line, but he kept his own in action to the end of the day. He was shot, and it was at first thought that the gallant captain had perished.
Capt. C. McCraith, M.C., of the 4th Light Infantry, who earlier this month was reported missing, believed killed, is now also stated to be a prisoner of war in the hands of the Italians. As in the case of Capt. Wilson, details of his condition are not available.

OFFICIAL CASUALTY LIST
The second official list of casualties incurred outside East Africa is published as follows:
BRITISH OFFICERS:
(a) Missing (Believed Killed).

THE WAR IN AFRICA

October 16.
There have been extensive air raids on the Italian colonies during Sunday and Monday military operations. A large force of bombers attacked the Mide D'Alba province and a direct hit was made on the jetty and wharves were bombed and fire started and the jetty and wharves were hit and bombs were dropped on the buildings.
From these highly successful operations all our aircraft returned safely.
On Sunday evening Rendia and Babuka were raided and military objectives at Gura were again the subject of intense attack (Africa).

CONFERENCE TO DISCUSS COFFEE PROBLEMS
"Hello Troops"
Plans To Increase Consumption
K.W.E.O. SHOW AT NAIROBI

After a cheery opening night for the troops show, the K.W.E.O. musical entertainment, "Hello Troops," was presented to the public on Thursday night at the Grand Theatre. The packed house then and last night, not only gave the very creditable team much heart but also to the K.W.E.O. staff. The programme was a very good business in the long run.
Outstanding in this production were the troops, which were very well rehearsed, especially a well-known "Hello Troops" which was exquisitely staged and danced with costumes of "Hello Troops" the past few days by Mrs. Durbach and Company. The programme was most enjoyable. I understand that the show will be repeated by Grand Theatre on the same night.
The show was by Dr. H. Douglas, who also was very well received in a higher view in many of the districts.

The show, Mr. Mander's production, appeared to be a satire on the current situation in East Africa. It was not active in Kenya. There were a number of very good songs, which were performed by the troops. The show was directed by the troops. The show was a very good business in the long run.

The Coffee Board of Kenya has issued a conference to be held at the Memorial Hall, Nairobi on Thursday, October 18, at which various problems concerning the coffee industry will be discussed.
A point proposed for discussion by the coffee planters of the Kenya district is that the conference should request the Government to increase the consumption of East African coffee in South Africa through the issue of a certificate of origin. It is suggested that the Government should be pressed to ensure that local coffee, i.e., to be named as a ration to the troops in East Africa.

The agenda is still only provisional and remains open for a week. It is suggested that the Government should be pressed to ensure that local coffee, i.e., to be named as a ration to the troops in East Africa.

AFRICA AND THE AXIS

A summing up of the positions of the French Colonies in West and Central Africa and the significance of the anti-Axis belt across Africa.

Since General de Gaulle's debacle at Dakar last month, the importance of the Colonies in French Central Africa has become infinitely more clear to the public and interest has been urgently aroused in the future of this part of the world.

Let us consider it, and first see what the position is at present.

The importance of French Equatorial Africa and of the Cameroons was recently joined the cause of the Axis cannot be over-stated. The decision was both of great strategic and political value, and the situation is aroused in Kayser was not significant.

Something to Celebrate

There still seems to be the place for the things they have some to celebrate whether it is a new baby, a birthday, a meeting with new or old friends, or as was the case last Saturday night, an anniversary.

FROM time to time one hears lively arguments as to whether or not it is right to have a baby in war-time. Personally, I have no reason why any difference should be made in the matter of raising a family any more than in normal circumstances.

Not a vast statement said above all don't fret yourself as an invalid when the first baby is born. It should be one of your first tasks not only if there is a baby on the way.

Remember, though that if the first baby is born, you should be one of your first tasks not only if there is a baby on the way.

Weddings

COPT. E. F. WHITEMAN to MISS CAMILLE BELFRAGE. The bride, who was given away by her father, had a magnificent wedding and was wearing the bridegroom's attire of pearls, her flowing hair was held by a Juliet comb and array of orange blossoms covered her face as she entered the Cathedral and was turned back later during the ceremony. Her only colour accent was a bouquet of deep red roses.

ASIAN FARMING FIGHTS IN NORTH REGION

The British Empire has a long and distinguished record in the field of agriculture. In the past, the British have introduced many new crops and farming methods to other parts of the world.

At the present time, the British are engaged in a new phase of agricultural development in the North Region. This involves the introduction of modern farming techniques and machinery.

The success of these efforts will depend on the cooperation of the local population. It is essential that the British and the local people work together to improve agricultural productivity.

One of the main challenges is the lack of modern farming equipment. The British are providing training and technical assistance to help the local farmers overcome these difficulties.

The ultimate goal is to create a self-sufficient agricultural sector in the North Region. This will help to improve the standard of living and reduce dependence on foreign aid.

The British government is committed to supporting these efforts. It is providing financial assistance and technical expertise to ensure the success of the project.

The local population is showing a growing interest in modern farming methods. This is a positive sign that the project is making progress and that the local people are embracing change.

The project is a testament to the power of international cooperation. It shows that with the right support and resources, even the most challenging agricultural problems can be solved.

The British Empire has a long and distinguished record in the field of agriculture. In the past, the British have introduced many new crops and farming methods to other parts of the world.

Private Gifts of Food

The Government has received a large number of private gifts of food from citizens across the country. These gifts are being distributed to those in need.

The gifts include a wide variety of foodstuffs, including canned goods, flour, and other essential items. This demonstrates the generosity and compassion of the British people.

The Government is grateful for the support of its citizens. These gifts will help to ensure that everyone has access to the food they need to survive.

The distribution of these gifts is being carried out by local authorities. This ensures that the food reaches those who need it most.

The Government is committed to providing support to those in need. These private gifts are a vital part of that effort.

THE WAR ON THE BRITISH FRONT

Continued from page 16

Some countries and reports indicate that the war was being waged in the mountains and the number of troops was being increased. Bombers were destroyed in Macedonia and in other parts of the Balkans. The night attack damage was reported to be small, very few being reported to be destroyed.

In two towns in the North-East, the towns were destroyed and damage was reported to be considerable. The German aircraft were reported to be destroyed, but both parts of the town were destroyed.

A South-East town had one of the night raids of the war. The damage and lives lost was in many of the towns.
