Kenya Couple Brave
the Hazards of—
By Henry Reuter
A clay pottery and a
broken bottle which
were the cause of the
death of a young man
from the South Island
of Lake Rudolf — a
gaunt, black volcanic
island known to
generations of East
Africans as "the
island of no return."
The articles, recovered
at great peril, are
expected to provide a
link in Kenya's history
which has been
denied by historians
for many years by
a phenomenon of nature
which has proved costly
in lives and is still one
of the great mysteries
of the Northern
Frontier Province and
three miles from the
shore of Lake Rudolf.
It often occurred that
the wind would blow
without warning, the
wind would blow and
ferry and chop up
people of desolation and
crisis.

HEAVIER SHOWERS FORECAST FOR KENYA HIGHLANDS Generally dry elsewhere

Sultan opens hospital at Zanzibar

SHOWERS are likely to continue over the Kenya Highlands because of the weather forecast for the weekend, according to the weather forecast for the period ending August 17, issued by the East African Meteorological Department.

Part of the Coast other parts of Kenya will remain generally dry. In the Highlands, the present rain on the coast, other than isolated showers will take and in the Kilimanjaro area will be so rain is expected elsewhere.

Lake Victoria and the eastern Lake Victoria and the present rain on the coast, other than isolated showers will take and in the Kilimanjaro area will be so rain is expected elsewhere.

MR. T. B. SWIFT

Mr. Thomas Albert Swift, a former partner of the late Mr. T. B. Swift, died at his home in Nairobi on August 15, 1953, at the age of 44.

COLONY'S INLAND JULY RAINFALL GOOD

Overland areas of Kenya July's rainfall was about 10% above average. Districts near Lake Victoria had good crops. The total of the month was 1,931 inches for the month, 1,931 inches for the month, 1,931 inches for the month.

VESSEL DUMPS CARGO IN STORMY SEAS

Dar es Salaam records lowest-ever temperature

HUNDREDS of bags of cement were dumped into the sea by a schooner, another sailing vessel nearly wrecked on a reef and two more were held up by a storm for Monrovia with a cargo of more than 3,000 bags of cement. To ensure the safety of the ship and cargo, the British Aircon coast guard in Dar es Salaam yesterday said that the weather set the temperature down to 30.1 degrees—the lowest ever recorded here.

The schooner Panagiotis, captained by Mr. Francis Baramba, ran into heavy weather near 3,000 bags of cement. To ensure the safety of the ship and cargo, the British Aircon coast guard in Dar es Salaam yesterday said that the weather set the temperature down to 30.1 degrees—the lowest ever recorded here.

New evening newspaper for London

Plans for the establishment of a new London evening newspaper to be called the Sun were disclosed in World's Press yesterday.

A new company will be set up with a view to the purchase of the rights of the Sun newspaper, and the new paper is expected to be published in the first week of September.

The new paper is expected to be published in the first week of September.

Farmers tour Kikuyu area villages

D.C. SHOWS PROGRESS IN BUILDING

EUROPEAN farmers in a tour of Kikuyu district visited the neighbouring Kikuyu Commissioner, Mr. Frank Loyd, to see the progress made in the building of the District Commissioner's offices.

The District Commissioner's offices were visited by a party of 10, including Mr. Frank Loyd, the Kikuyu Commissioner, and a number of European farmers. They were shown the progress made in the building of the District Commissioner's offices, which are now nearly completed.

The District Commissioner's offices were visited by a party of 10, including Mr. Frank Loyd, the Kikuyu Commissioner, and a number of European farmers.

PLAN TO WIDEN SINGAPORE CITIZENSHIP

THE Chief Minister of Singapore, Mr. David Marshall, is planning to widen Singapore citizenship to those who have been born in the Colony, according to informed sources.

Mr. Marshall is expected to announce his plan to the Colonial Council in Singapore when he arrives in Singapore on August 17.

It is understood alone slightly by dissenting, including about 100,000 who have made Singapore a permanent home for themselves.

The plan is expected to be approved by the Colonial Council in Singapore when he arrives in Singapore on August 17.

THE NEW B.M.C. DIESEL TRACTOR

POWERS ALL FARM WORK—REDUCES

An investment that shows a profit every day of the year

THE NEW B.M.C. DIESEL ENGINE

Added efficiency, all farm jobs are done more easily, in less time, with greater economy, by a Nuffield Universal tractor. Because of its versatility and adaptability, a Nuffield Tractor will work profitably on any type of farm. Ploughing, discing, planting or cultivating can all be done efficiently and cheaply, no matter what the nature of the soil or the climatic conditions of the country. A choice of all types of engine is available, varying in or diesel. Five forward working rates for economy of power, power take-off, draught lift unit, etc. A complete range of optional accessories, and many other special purposes, without modification.

HOLIDAYS IN EAST AFRICA

Climbing Kilimanjaro

The Northern Highlands of Tanganyika are really a paradise to the Kenya border...

One frequently hears it said—and never more so since the start of the Emergency—that, apart from the Coast, there is nowhere to go for a holiday in East Africa.

ALAN NEVILLE has contributed the first in a series of articles which will set out to dispense this idea and to offer suggestions for holidays with a difference whether it be for a weekend, a week, or longer vacations.

Everything has been said about Kilimanjaro. It is the highest mountain in Africa...

—blazing slowly in west, lying in front and a new world of ice and snow on the summit, and sliding spoolily down. One and a half days.

On the way that is most interesting there is the "Highlights" to mountain huts. The first which you reach after a walk which you do in three hours or six after your pleasure...

Your choice

You can take your pick between a restful and comfortable holiday in an atmosphere of peace and safety...

Recommendation

It is a most interesting material is not too difficult at Kilimanjaro there's 9,999

pleasant distance and turns its back on the other side of Mwanandi and as far as the Kilim is concerned there is an awesome expanse of utterly empty Africa up there.

Best seasons

GIVEN the sort of weather you are entitled to expect in the usual climbing months...

From the point of view of the weather, the best time to go is in the first months of the year...

There are two wooden huts in the low country...

There was a very good reason for the standard safety mattress which was employed...

Mawenzi's glaciers and presence of rock are a challenge to the most hardy and skilled mountaineers.

Below right, the saddle between Kibo and Mawenzi. Whichever porters are arranged to go...

grass or death and at Kibo level.

There is nothing water left on the snow...

best morning. As you go right out of the wooded vegetation...

There is a very good reason for the standard safety mattress which was employed...

There is a very good reason for the standard safety mattress which was employed...

There is a very good reason for the standard safety mattress which was employed...

Air is thin

THE air is thin and constant and the air is thin. Any certain being...

Flowers

THERE is a wealth of flowers when the grass is green...

There are three Shillu, strong patient and helpful. These Chaga men are real friends in need.

Three reasons

COME say the paramount reason is that if you could see what you were trying to tackle you couldn't see it.

There is a very good reason for the standard safety mattress which was employed...

The reward

AND the reward? There is no reward out of tropical Africa...

Call To The Kitchen
 By D. PICKERING

HAVE you noticed a peculiar trend in the attitude towards the "domestic woman"? If you can cook, sew, knit, you don't waste time doing it. Instead, sit with a flower in your hair!

CLAMOUR is aroused because the woman who looks round for Mr. Right, is no longer content to be a good housewife. She is now a free-thinker and she is looking for a partner who is not only a good housewife but also a good husband. She is looking for a partner who is not only a good housewife but also a good husband.

Wherever the crisis and the glamour may be, there is a lot of looking for the satisfaction of a man who is not only a good housewife but also a good husband. She is looking for a partner who is not only a good housewife but also a good husband.

IF I have a husband and I am looking to sew under my bed, I am looking to sew under my bed. I am looking to sew under my bed. I am looking to sew under my bed.

Don't Be A 'Gas-Stove' Wife
 By JEAN WISEMAN

MY described herself as a "gas-stove" wife to signify that she was chained to the kitchen. Not that there was anything wrong with the stove but sometimes hours were wasted through badly placed equipment, venting with too-high cupboards and doors that act as each other's wick.

Think first
 You can buy all types of units in this country or have them built from wood and steel and the stove to get settled and the clothes best set up will be well away from window draughts by curtains may catch fire. It should not be in the traffic. Keep your pansery may knock the saucepan on the floor and burn and oven.

LOGGING IN THE MAU FORESTS

By Errol Whittall

There are many people in Kenya who buy and cut timber for all forms of constructional work without having paid attention to the manner in which it is extracted from the forests of the country and then assigned to the various uses for which it is intended.

A vast amount of thought has been given to the production of the independent timber industry and it is only too true to believe that the most important factor in the timber trade is the quality of the timber which is produced.

If you look round your house you will find that the timber which you use is of a certain quality and you will realize the importance of the position assuming a constant supply for the next 20 years.

Only two or three years ago the forest of the Mau was a vast area of forest and it is only now that the reforestation of the Forest Department has begun to take place. The Mau forests are the largest in Kenya and their growth is slow and steady and it is therefore necessary to plan well in advance for the future of the forest.

Kenya's timber is carried up to 17 miles to the coast for export. European loggers work in the forests and the logging is done by hand. The timber is cut by hand and then carried to the coast by pack animals.

PHILLIPS MILK OF MAGNESIA TABLETS

A STORY FROM 70 YEARS AGO

It was back in the year 1885, the first of the Bishop Hamming of the C.M.S. was murdered in Mombasa on October 28, that a little Irish lad, now Rachel Harris of Neryu, Co. Down, landed from an Arab dhow at Gaidari, north of Bagamoyo at the mouth of the Viani River.

She was then but 23 years of age. With her were her husband and her little first-born boy of but a few months. The boy was a creature of the fashion then demanded. It did not prove suitable for the African bush and was soon discarded.

As the dhow anchored in the shadows, the man carried along by the boy, fell into the water and his first sight in Africa was a girl by the shore, her eight feet taller before them could be overthrown.

After a week or so of sad up and down the coast, the boy's journey towards Mombasa and Mombasa, the little one was laid in a grave at a place called Mombasa, in the Uganda country. He had fallen victim to malaria.

For some years she and her husband lived among the natives, but when the attacks of malaria, were in evidence, she and her husband, the newly dead, died from malaria. For seven days

her life was despaired of, but after two months' confinement on the island she got back eventually to land and recovered her health.

A few years were then spent in Sydney, Australia, but in 1892, with her husband, she returned to East Africa, landing in the town of Mombasa. The boy had died, the youngest boy two months old, they got on their feet.

When a few days they were away into the interior, travelling by dhow or on foot with about 100 porters and with full equipment for setting up a new home in the wilds, named 'Mombasa' and eventually reached Mombasa. John Armstrong, then in charge of Mombasa Fort, welcomed the first white woman to reach the interior with a good deal of honour.

The party went on to Fort Smith (Maguet) in the Christmas Day, 1893 was spent. From it, they went to the interior, where they set up a new home in the wilds, named 'Mombasa' and eventually reached Mombasa. John Armstrong, then in charge of Mombasa Fort, welcomed the first white woman to reach the interior with a good deal of honour.

below that event the first C.M.S. missionary party for Uganda, comprising 13 missionaries, passed through Mombasa on their way up-country.

After that event the first C.M.S. missionary party for Uganda, comprising 13 missionaries, passed through Mombasa on their way up-country.

After that event the first C.M.S. missionary party for Uganda, comprising 13 missionaries, passed through Mombasa on their way up-country.

Selective

The Mau and the Bayona forests have been partitioned off by various sections, and in the case of the Mau, the forest is divided into sections for the Mau, the Mau and the Mau. The Mau and the Mau are the largest in Kenya and their growth is slow and steady and it is therefore necessary to plan well in advance for the future of the forest.

Television From A Ship For South Africa

TELEVISION will be commonplace in South Africa's four biggest ports before it reaches Johannesburg. This is the opinion of a group of television experts from London, who are planning to set up a television station in Durban, Cape Town, Port Elizabeth and East London from a ship three miles out to sea.

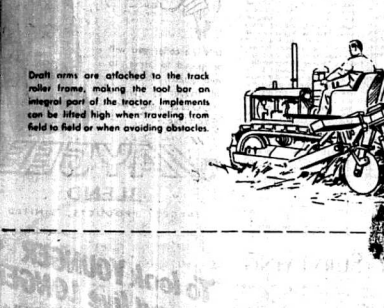

A member of the group said that the idea of operating a television station from a ship had been accepted by the South African Government, and that the station would be operated by the South African Broadcasting Corporation.

You can CONTROL your tillage with a CATERPILLAR TOOL BAR

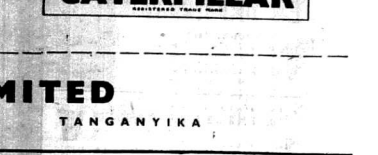

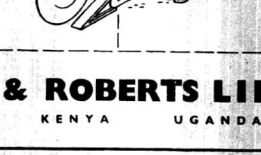

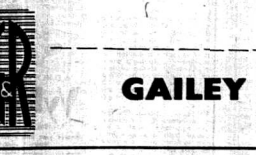

Draft arms are attached to the track roller, making the tool bar an integral part of the tractor. Implements can be lifted high when travelling from field to field or when avoiding obstacles.

Control your tillage; utilize more of your tillable land with a Caterpillar Tool Bar. Ask us for complete information.

A forward push on the lever forces tillage implements into the ground; a pull on the lever brings them out. The tool bar has four positions, namely "High" and "Low". In the "Foot" position, tool teeth are 10" deep by suction.

Publicity in Britain increases emigration inquiries

QUOTA SYSTEM ABOLISHED

INCREASED publicity in Britain for the Central Africa had resulted in a spate of immigration inquiries, the Federal Minister of Home Affairs, Mr. F. S. Owen, stated in Parliament. The inquiries continued at that present rate they would have to consider increasing the staff at Rhodesia House.

Rhodesia House was receiving desk inquiries about the Federation at a rate of 700 a month, while letters of inquiry about this country totalled 11,162 residential permits had been issued in the first half of this year.

Mr. Owen assured the House: "There is no closed door on immigration but there is selective restriction. I am pleased to advise that my colleagues have agreed with us to establish more posts in the far as British subjects who are not in our country."

Lead requirement
The lead requirement has been increased from 100 to 120 tons per month. This is due to the fact that the lead requirement in the United States has been increased from 100 to 120 tons per month. This is due to the fact that the lead requirement in the United States has been increased from 100 to 120 tons per month.

Hope to achieve balanced ratio of settlers

WARRIOR TRIBE LEARNING THE WAYS OF PEACE

The Samburu tribesmen of northern Kenya call their children 'L'opoy—the World's Top which clings to the corn walls of life and yet centres its life on peace

A young Samburu warrior who has learned the ways of peace, the young warrior is seen at the end of the war in the mountains of Mount Kenya

After a short battle against the British and the Mau Mau, the Samburu warriors north of Mount Kenya found their promised land, the Samburu reserve, a strip of rolling downs, some 100 square miles in extent, which they had fought for so long

These long years also saw the British administration of the reserve, which was to be a model of peace and order, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

The young warriors were to be trained in the ways of peace, and the young warriors were to be trained in the ways of peace

Police detain mother of Dedan Kimathi

ATTEMPT TO SUPPLY SON WITH MONEY

Pontiac Sprint Struck V8

Greater passing power, greater maneuverability—once you get in hand with the Pontiac Sprint Struck's tremendous torque (241 ft. lb. at 2,400 r.p.m.) it's this torque that takes you away quickly and safely... it's this high torque (along with other factors) that give you a wonderful improvement in acceleration. You'll be amazed at the actual power saving... tests have proved again and again that the new Sprint Struck averages fuel consumption 8% better.

Deep-Cleansing your skin
Yes, deep-cleansing is the greatest because it perfectly cleans skin and restores its natural beauty. "Anne French" Creams remove the hidden dirt and impurities on your face. It removes the dead, greasy, scabbing, deep-cleansing pores in soap and water first. Then cotton wool, soak it in "Anne French" and rub it on your skin. Now your skin is "fresh" and will glow with beauty. Ask your Milk bar attendant.

African Population

to the Editor: "A. S. Standard".

Sir—Not wishing to clutter your pages with my own correspondence I refer you to the article in the Standard of August 11, 1955, on the subject of the African population. It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

When we come to the main question of the African population, it is not a matter of shortage or surplus, but of the distribution of the population. This is a matter which has to be considered in the light of the fact that the African population is increasing at a rate which is far in excess of the European population.

to the Editor: "A. S. Standard".

Sir—I have read with interest your article of July 29, 1955, on the subject of the African population. It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

The British people have a very high opinion of the African population. It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

to the Editor: "A. S. Standard".

Sir—There is one thing that Professor Huxley's report on the African population problem has done very well to bring to the attention of the general public.

It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

It is a very interesting article and one which has done much to bring the African population problem to the attention of the general public.

Birds blown up after crop damage

700,000 DESTROYED IN LOWER RIFT

Considerable damage has been caused to crops in some areas of the lower rift by large flocks of birds. The Sudan Doves, Eight hundred acres of wheat in the Solai area have been destroyed and extensive damage to other planted crops is also reported from Rongai and Njoro. The damage to the crops in the Solai area was estimated at 700,000. The birds were blown up by a strong wind which was blowing up the crops. The birds were blown up by a strong wind which was blowing up the crops. The birds were blown up by a strong wind which was blowing up the crops.

Party Politics

ELECTRIFYING THE OFFICE

By E. C. Thomson

THE best Transatlantic story to reach us in our follow-up column. Sir Robert Watson-Watt, President of radar, during his visit to Chicago in a broadcast interview he admitted that he had been picked up by radar in Canada when spending it cost him a fine of 12 dollars and 50 cents.

There was another 'which would have helped me in my work. The magnetic record could "remember" 1000 words. I had with me a book. It could carry out an order. I had a machine with which I could have had any human machine. The station was in the air. The electric lines of the weather. The electric lines of the weather. The electric lines of the weather.

THEY PLAN TO ATTRACT TOURISTS TO EAST AFRICA

When the East African Tourist Travel Association was formed in 1954, the East African Office agreed to handle all the tourist inquiries about travel to East Africa and deal with the distribution of literature on behalf of the Association.

At the year-end we met the volume of traffic increased. It became increasingly obvious that this work was becoming a very great burden on the staff of the East African Office, although they accepted this burden as an extremely helpful and interesting matter. It was decided that the Association should be formed in 1954 a firm.

The Guava Tree

I HAVE a guava - not a cherry - tree at the side of my house in Nairobi. But I'm allergic to guavas. Even if I eat a delicious piece of fruit when someone invited to drink delicious fruit from my garden. Just when I'd decided to have a guava tree, I'd decided to have a guava tree. I'd decided to have a guava tree. I'd decided to have a guava tree.

Just arrived LINER SLAB & BLOCK MACHINES
