NICARAGUA ACCUSED OF BACKING 'INVASION'

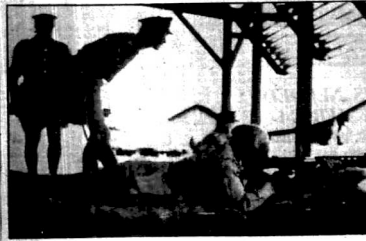

THE UNITED STATES is to make aircraft immediately available for observation flights over Costa Rica, who complains she is being invaded by rebels from Nicaragua.

Unidentified planes were yesterday reported to be bombing and strafing San Jose, the capital of Costa Rica. Government forces claim to have recaptured the town of Villa Quema, which was seized by the rebels on Wednesday.

The State Department announced the decision to make "free planes" available in answer to a request from the Council of the Organisation of American States.

An emergency meeting of the Council called on the American republics to prevent the use of their territories for military action and decided to urge an urgent report from the investigating committee it has set up in Costa Rica.

In a nation-wide broadcast, Mr. José Figueres, the Costa Rican President, accused Nicaragua's President, Juan Antonio Sumo de la Morúa, of backing the rebels. He called the rebels "Sumo's bandits." A Costa Rican spokesman said last night that the headquarter of the rebels was in a town called San José.

New schools in Rhodesia open soon
The Gilbert Rennie School at Katabonon, near Lusaka, Northern Rhodesia, with its building and other modern facilities, is to be opened on January 15. The school is one of the many new schools in Rhodesia which are being prepared for the opening of the new year.

BROAD VIEWS NEEDED IN CENTRAL AFRICA

Premier's warning on 'parochialism'
THERE is a danger in a country such as this new Central African Federation, which is built up of three highly individualistic countries, of parochialism and tribalism tending to enter into important considerations. This view was expressed by the Federal Prime Minister, Sir Godfrey Huggins, in Salisbury, when he was speaking to the members of the House of Assembly.

Praise for 2nd K.A.R. on return from Malaya
The 2nd (Rhodesia) Bn. The King's African Rifles has returned from Malaya. The Governor-General, Sir Godfrey Huggins, will inspect the battalion in Lusaka.

Economic future
The amount of local capital available in Rhodesia is estimated to be about £10 million. This is a very small amount for a country of this size. It is therefore of great importance that the Government should take steps to attract foreign investment and to develop the local economy.

To beat Retreat
The Corps of Drums of the 1st Battalion The Devonshire Regiment was beat Retreat at the Lusaka Country Club on Sunday at 5.30 p.m.

Blood Bank

To the Editor, "East African Standard"
The blood bank at the Government Hospital, Lusaka, is a very valuable institution. It is a pity that it is not better known to the public. It is a pity that it is not better supported by the Government.

Know your Ferguson Products

The name Ferguson is prominent with quality and long life. We have always followed the principle that Mr. Ferguson held from the start - to give occasional facilities to every Ferguson machine in every Ferguson factory. We offer you regular information and operational hints on the Ferguson system.

This series will include both the agricultural and industrial uses of Ferguson.

Remember - it is what the implement does that counts in mechanization.

Snowstorm 'causes' the game at Stoke to be abandoned

BUKUP ADKLAND, Northern Amateur League champion, swept into the fourth round of the F.A. Cup competition on Wednesday when, on their own ground, they convincingly defeated Division II side Ipswich Town 3-0. The game was played in atrocious conditions which were caused by a heavy snowstorm which had covered the pitch. Two hours were allowed for the snow to be cleared and the game was abandoned. The match was played at Stoke Newington and the referee was Mr. G. H. Adams. Ipswich were the home side and the game was abandoned at 2.15 p.m. due to the heavy snow and the fact that the pitch was unplayable. The game was the first of the season to be abandoned due to weather conditions.

CASTELLANI MAY AGAIN MEET OLSON

ROCKY CASTELLANI best his fellow-American Holly Marx on points at Cleveland, Ohio, on Wednesday night in a 10-round fight. The fight was a main event on the card and was a very close one. Marx won by a decision of 10-9. The fight was a very exciting one and was a real test of the two fighters' skills. The referee was Mr. J. J. Conroy and the fight was held at the Cleveland Casino.

AMONG THE NEW BOOKS

TALK of "winning the peace" and the end of Mau Mau must seem strange to farmers whose cattle have just been stolen or to the loyalist tribes who are still recovering from the effects of the Mau Mau war. It is a book which will give a clear and concise account of the Mau Mau movement and its impact on the country.

Well timed - this book is well timed. It is a book which will give a clear and concise account of the Mau Mau movement and its impact on the country.

The boy's story is the "Mau Mau" story. It is a book which will give a clear and concise account of the Mau Mau movement and its impact on the country.

Sensational New Henley Trek Track Tyre

proves its worth on the roughest roads!

It was not so much the amazing speed of the tyre which has won its amazing reputation for carrying the most difficult loads on the roughest roads. The Henley Trek Track, specially designed by Henley technicians, gives better grip and manoeuvrability off the road, due to its scientifically designed rugged tread pattern - and higher load-carrying ability on the road, due to the reinforced design of the triple crown siping ribs.

THE NEW D.C.L. DRIED YEAST

Its fermentation power is practically equivalent to compressed yeast

For a DRIED YEAST to give baking results practically equivalent to compressed yeast is an exceptional achievement. This has only been accomplished by long investigating trials and experimental work carried out by the Dairies Co. Ltd.

The most modern yeast-drying plant available has been installed. The plant is fully automatic and completely controls humidity and temperature during the drying process. Thus the mercurian human element has been practically eliminated. The result is that D.C.L. Dried Yeast now has a 100 per cent. outlet for the production of better bread and fermented goods.

IMMIGRATION DISCUSSED BY CABINET

National controversy over West Indians

BRITAIN'S Cabinet, after a spell of nation-wide controversy on the problem, yesterday discussed the position of West Indian immigrants into the United Kingdom.

With about 20,000 West Indians in Britain at the present and more arriving every week, Ministers and officials have been studying for some time how the flow can be restricted. Yesterday's meeting was believed to have discussed general issues and the decision in favour of that stage. The Government is expected to tell the Commons next week.

From the main area, "to attract them when they come in London, at the end of the month."

Mr. Allen Dulles, Secretary of State, said that the Cabinet Secretary, Mr. Morrison, had asked for a report on the subject.

The Home Office and the Ministry of Labour have been particularly concerned about the problem.

Mr. Morrison said that the Government were in a state of "panic" over the problem. He said that the Government were in a state of "panic" over the problem.

Union liquor laws affect U.S. Negroes

The United States Supreme Court has ruled that liquor laws which prohibit the sale of liquor to anyone who is not a citizen of the United States apply to Negroes.

The Court's decision was based on the fact that the laws in question were designed to restrict the sale of liquor to white citizens.

Australian meteorologist to assist locust fight

Dr. A. D. Davie, Director of the Australian Meteorological Department, is to be sent to East Africa to assist in the fight against locusts.

Dr. Davie will be working with the local meteorological services to help in the control of the locusts.

'Landing centers'

The Government is to set up "landing centers" for immigrants from the West Indies.

These centers will be used to process immigrants and to provide them with the necessary facilities.

MOUNT KENYA CALLING

Newest Radio Station For Kikuyu Broadcasts

By HAROLD G. LAYCOCK

FIVE young Kikuyu who 18 months ago could barely recognise a microphone from a leaf-speaker are today playing a big part in operating Kenya's—and probably the world's—newest broadcasting station.

They call their station "Mount Kenya Station in Africa Broadcasting Service, Nairobi, Kenya, radio 41 Kiluya."

And in the homelands of the Reserve, in the bush, in the forest, in the village market-places, thousands of Kikuyu cheer round their leaf-speakers of "Mount Kenya Station in Africa Broadcasting Service, Nairobi, Kenya, radio 41 Kiluya."

The remains of this Mount Kenya radio station, a single-storey building, finished by two four-foot, six-foot girders, began when Mr. Leslie Stricker, the Provincial Information Officer for Kenya, Department of Information, Nairobi, in 1948, decided to erect a radio station in the Nairobi-Kilimanjaro road.

It is a hill which in Nyero's main street, he was asked during the current re-arranging of the Nairobi-Kilimanjaro road.

Work began on a closed circuit using the leaf-speakers of the Kenya African Broadcasting Service, Nairobi, in the Nairobi-Kilimanjaro road.

With their expanding Ki-luya broadcasts to serve, more and more home-circuit programmes aimed on to the Nairobi-Kilimanjaro road.

Some created demand which caused five further closed-circuit to be set up in the Nairobi-Kilimanjaro road.

again, the problem of using the Mount Kenya Radio Station with its own generator.

Finally, the Prison Department mustered a concert party who made their first broadcast on the station.

Today Mount Kenya Radio has the full staff of its own generator and its own staff of announcers and presenters.

Their inspiration for the station was the idea of a station which would be a centre for the exchange of ideas and news between the Nairobi-Kilimanjaro road.

Problem Of Premature Babies

One of medicine's most difficult problems is the premature birth. Infants who are born prematurely are at a high risk of developing various health problems. These include respiratory distress, feeding difficulties, and infections. It is crucial for parents to understand the signs and symptoms of these conditions and to seek medical attention immediately.

At these hospitals, incubator babies are kept in a warm, sterile environment. The air is filtered and the humidity is controlled. This helps to prevent infections and keeps the baby's body temperature stable. The babies are fed through a special tube that is inserted into their stomachs. This ensures that they receive the nutrients they need to grow and develop.

Prevention is the key to avoiding premature births. Pregnant women should eat a healthy diet, get regular exercise, and avoid smoking and drinking alcohol. They should also attend regular prenatal checkups. If there are any signs of complications, the doctor should be notified immediately. Early intervention can often prevent serious problems from developing.

U.S. ARMY TAKES A STRICT LINE WITH WIVES IN GERMANY

GRANT of sovereignty to Germany... The U.S. Army has issued strict regulations regarding the behavior of soldiers' wives in Germany. These regulations are designed to maintain discipline and ensure the safety of the troops. They include rules about where wives can go, what they can do, and how they should interact with the local population. The Army is particularly concerned about wives who are seen in public places or who are involved in social activities. This is to prevent any potential embarrassment or conflict.

BALE... The regulations also cover the appearance and behavior of the wives. They are expected to dress modestly and to avoid any behavior that might be considered unbecoming. The Army is also concerned about the financial situation of the wives. They are advised to avoid any financial transactions that might be suspicious or that could lead to accusations of corruption. These rules are strictly enforced, and any violations can result in severe consequences for the soldier and his family.

AT HOME WITH THE CONSULS OF KENYA

This week, in her column, JOY NICHOLL writes of the German Consul-General and his wife, Dr. and Mrs. L. Beyr

It would be hard to find two people with a wider range of interests than the German Consul-General and his wife, and there seems practically nothing about which they are not thoroughly well informed and enthusiastic.

Three spots for his wide variety are not lacking in the lounge. Drive enjoying the moon, and his laboratory, Captain, enjoyed his hand through the air, and his hands from the garden in the hope that he had the "shrimp" done "just for once."

Two in one

Dr. Ludwig Beyr has really combined two careers in a diplomatic and journalistic, in any nothing of being an author. He is several books on economics and literature.

Then, however, North Germany of the "old-fashioned German," he is a "scientific" German. His subjects in those days were philosophy and the history of music later to be turned to economics and law. His first appointment was as a journalistic position in a newspaper, then as a reporter for the "Herald," and finally as a correspondent for several Berlin newspapers.

When they returned on their ownship in 1926 were to be the first in the country, for they occupied in work for the International Red Cross on the exchange of wounded soldiers and later in organizing food supplies for the refugees.

Wine country

Nearly three years ago they left their positions in Berlin, Germany, where 127 scientists formed them into a team to cover a route of research. Then came a return to the Foreign Office, where he was assigned to the Foreign Trade section in 1932.

MUSIC
The late music master (Mitsunori) is remembered by Dr. Beyr—and he plays the violin, although he says he has to have the playing necessary. She claims to be a specialist of French, Italian, and German. She is a member of the "Musical Association" and has been a member of Berlin. She is very musical in her work, and she has been known to have been a member of the "Musical Association" and has been known to have been a member of the "Musical Association."

They made it possible to reveal England to the world as a happy one where she spent a happy year in London and the southern coast. The world was full of life in the morning and in the evening. He has been known to have been a member of the "Musical Association" and has been known to have been a member of the "Musical Association."

MACLEANS TOOTH PASTE

How you can have whiter, healthier teeth and effectively prevent decay

★ After meals, your teeth are covered with a clinging, gray coating. Within this coating germs breed, each form from decay starts.

★ Regular brushing with Macleans Permolex Tooth Paste (you'll love its clean, tangy taste!) will remove this dangerous but invisible coating gently, safely and effectively. It gets at the places so difficult for the brush to reach, and so helps to defeat decay.

★ Your teeth are always white. And your breath is sweet, too.

★ Use Macleans twice every day and give yourself teeth that are not only white and lovely, but also strong and healthy.

Kiambu Farmers' Drive To Protect Their Labour

A SMALL group of Kiambu farmers are making a determined effort to protect their labour from a servant strike and, at the same time, improve the quality of their farm produce.

All recall, since the farmers have been the target of an attack by housewives, who have been buying big quantities of their produce from their own workers.

By restricting their labour, these farmers not only wish to protect their own crops but also prevent food and vegetable prices from rising in the town.

A high standard of housing is also an incentive against the labour shortage, and is being actively being introduced.

They have made into the middle areas, which have been left in a state of neglect because of the strike. This would not happen had the workers been properly directed.

The farmers also pointed out the fact that the Government should be more active in providing for the welfare of the labour, who are the backbone of the country.

Guard post

On this estate the rows of cabbages, bound about 50 feet apart, are being guarded by a single barbed wire fence. At the end of the row, a guard post is being erected on the farm, to be manned by a soldier from the Kiambu Guard stationed at the Reserve.

The post is manned by 12 Kiambu Guards, who, after the beginning, have proved their loyalty to their employers. The guard post is being manned by a soldier from the Kiambu Guard stationed at the Reserve.

partial losses of barbed wire, which is being replaced by a new type. The cost of the wire and the labour to be done by the workers to re-erect the barbed wire lines is estimated to be about 100 shillings.

The cost

SEVENTY-FOUR days of strike have cost the farmers a total of 100 shillings. They are of the opinion that the cost of the strike will be about 100 shillings more, if the workers do not return to work by the end of the month.

A cheaper method of deterring labour lines: the barbed wire and three barbs surrounding Kiambu farmers' labour camp.

ONE farmer has built cottages for his labour, and is offering them to his labourers at a reduced price. The cottages are built on a hillside, and are very comfortable. The farmer has also built a school for his labourers, and is offering it to them at a reduced price.

Labourers have little chance to defend themselves when living in wretched huts. When a strike starts, the only alternative to supporting the strike is to go to the police. The farmer has also built a school for his labourers, and is offering it to them at a reduced price.

THROUGH MY HAT By Kenneth Meadows

NO wish to appear unduly snobbish, but if you ask me my current opinion of the year 1950 you can quote the only reply I can give: "A variable amount of cloudy, damp, and miserable weather." I think it is only fair to say that I am not a snobbish person, but I am a realist.

REBELS IN COSTA RICA 'UNDER CONTROL'

GOVERNOR SPEAKS ON TUESDAY

Policy statement at Nyeri

THE Governor of Kenya T. S. Evelyn Baring will announce the Government's decision on the Nyeri "rebel" situation in Costa Rica at a press conference to be held in Nairobi on Tuesday.

Government claims towns recaptured

OBSERVATION PLANES FLY OVER BORDERS

THE Costa Rican Government yesterday claimed that the "invasion" by rebel forces was "under control" and that it was "fully master of the situation."

Meanwhile, United States observation planes and the Navy's fleet of aircraft carriers are flying over the border areas of Costa Rica and Nicaragua to investigate the situation. The United States Government forces were reported to be fighting back against the "rebel invaders" when they were driven into the mountains of the Pacific Coast. President Jose Figueres said that the Government forces were advancing on two main rebel-held towns near the Nicaraguan frontier. He said that one of the towns, Puerto Bolson, on the Pacific Coast, fell to a rebel force. The other, Pinar Blancos, in the north-east, was overthrown by the Government forces.

In Miami, Mr. Lawrence Lee, who described himself as a "radio-fied" agent for the Costa Rican rebels, told reporters that the insurgents numbered about 1,500 men, armed with hand-made machine guns. He said they were led by Mr. Teodoro Picardo, son of the Costa Rican President from 1944 to 1948.

President Picardo said that the rebels were being actively supported by the Government of Nicaragua. He said that the rebels were being supplied with arms and ammunition from Nicaragua. He said that the rebels were being supplied with arms and ammunition from Nicaragua.

Big increase in U.S. Air Force planned

HIGHEST PEACETIME BUDGET

PRESIDENT EISENHOWER is expected to ask Congress next week for \$24,500,000,000 (about £12,800,000,000) in funds for the armed forces during the fiscal year ending in June, 1956. This budget, consuming more than half the anticipated total Federal Budget, would represent an estimated increase of \$4,000,000,000 (about £2,100,000,000) over the 1954-55 figure.

BLIZZARD RAGES OVER BRITAIN

Sudden thaws cause floods: Big Ben freezes up

BRITONS awoke yesterday to one of the worst winters in eight years. They are now coping with the rain, but conditions caused by a 14-hour snowfall on Wednesday. The B.B.C. overseas services were ready to broadcast the familiar touristy clichés worth to find for one, that Ben had fallen then.

Big Ben worked up sufficient warmth to strike four at eight o'clock. It caught up with Greenwich Mean Time 35 minutes later. The clock has run with an average daily error of one second. It has a second since 1840, the date it was first set up. It has a second since 1840, the date it was first set up.

Racial position in Union 'worse than six years ago'

BISHOP ON EDUCATION ACT

From Our Special Correspondent

The Bishop of Johannesburg (the Rt. Rev. Richard the Great) has returned to London that he was not surprised to find that the position in South Africa is far worse than it was six years ago. He was addressing a group of 70 journalists, including television reporters, at the House of Commons on January 17.

The conference was held under the auspices of the Christian Action Movement and was held in the House of Commons. The Bishop's address was broadcast on the radio and was also published in the press.

Some good things

Some good things have been done in the past few years in both the Union and the African States. These things are: (1) the establishment of the African States, (2) the improvement of the African States, (3) the improvement of the African States.

Forbidden pasture

The Minister of Native Affairs has issued a notice forbidding the use of certain land as a pasture for the African people. This is a very serious matter and should be taken into consideration.

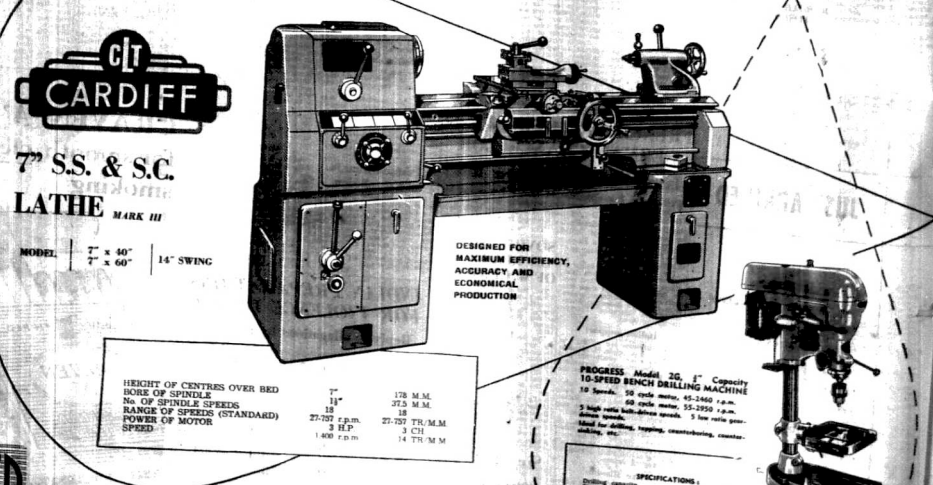

Children in Gospel

The children of the African States are the future of the country. It is our duty to ensure that they receive a good education and are brought up in the Christian faith.

IMPORT WARNING BY AUSTRALIA

Careful check on balances

THE Australian Government would impose import restrictions unless Australia's overseas credits improved in the near future. The Minister of Trade and Commerce, Senator O'Sullivan, who returned recently from an overseas tour, said the whole situation declined seriously in 1954. "Our overseas balances declined seriously in 1954, October and November but have improved since," he said. "There is no need to panic but we are watching the balances most carefully."

MINERAL OUTPUT RAISED

SOUTHERN Rhodesia's total mineral production in November amounted to 224,775 tons, an increase of 1,965 tons on the 220,810 tons in October. The increase was due to a rise in the output of gold and copper. The Chamber of Mines in Rhodesia reported that the output of gold in November 1954 was 12,182 tons, compared with 11,800 tons in October. The output of copper was 1,809,375 tons in November, compared with 1,797,500 tons in October.

Britain opposes bilateralism

The chief British delegate to the Asian Trade Conference which opened in Hongkong, Mr. Frank Maclean, said that the United Kingdom was opposed to any form of exclusive trade agreements. He said that the United Kingdom was in favour of a free world and that any form of bilateralism was a step towards a closed world.

SOUTHERN RHODESIAN GOLD MINE CLOSES

Nearly 2,000 tons of ore have been mined during the Rhodesia Gold Mine's history, and more than £1,000,000 worth of gold has been produced. The mine was closed on 15th December 1954. The mine was operated by the Rhodesia Gold Mining Company, which was a subsidiary of the Anglo-American Corporation.

PHILIPPIAN scientists test a rocket by launching a 100-lb. rocket from a launch pad in the test of a 1,200-lb. bomb shell on a test range.

Union State debt

South Africa's 1954 debt balance was £28,349,789. The debt balance was made up of £18,349,789 in external debt and £10,000,000 in internal debt.

Exports stable

The value of exports from New Zealand for the first 11 months of 1954 was £1,100 million, compared with £1,080 million in 1953.

Fill with water

It was dangerous for people to get into the mine, the company said. Recently five African workers were killed when a pressure chamber burst. The company said that the chamber was filled with water and that the workers were killed when the water burst.

Restrictions on spirits in Uganda end

UGANDA's new Liquor Bill, which removes restrictions on the consumption of spirits by Africans, received warm support from the Uganda Legislative Council. The Acting Chief Secretary, Mr. G. B. Charlton, said on the second reading, "I am glad to announce that the Government has decided to end the restrictions on African consumption of spirits which have been in force since 1946. The present law was passed in 1946 and it is now time to review it. It is a law which was passed in a time of emergency and it is now time to review it. It is a law which was passed in a time of emergency and it is now time to review it."

Mr. B. J. Mubisa, a Christian Missionary, welcomed the Government's decision to end the restrictions on African consumption of spirits which have been in force since 1946. He said he was sure that the Government's decision would be followed by other colonial territories.

Plan to bring closer liaison in Tanganyika

MOVE BY CHAMBER OF COMMERCE
The Chamber of Commerce in Tanganyika has announced a plan to bring closer liaison between the Chamber and the Government. The Chamber is a voluntary organization of businessmen and industrialists in Tanganyika. It is the largest and most influential of the Chambers of Commerce in the East African region. No completion
Sir Charles Phillips had written last night a letter regarding the lack of liaison between the Chamber and the Government. Sir Charles had also attended a meeting of the Chamber's management committee and had approved a suggestion that members of the Chamber should be invited to the Government's headquarters in Nairobi.

Mr. Scott said one of two Uganda Members would attend Chamber meetings and they could be co-opted on the management committee. DANGER OF CLAIM BY CHILE

Whaling clash possible
CHILE'S claim to territorial waters up to 200 miles from her coast could lead to trouble during the current Antarctic whaling season which opened last week. Chilean and Argentine whaling observers in London.

Islands' sovereignty
The Chilean Foreign Office has stated that its claim extends not only to the Pacific but also to the Antarctic where she has territorial claims and has established bases on other islands.

Conflicting claims
One reason why Chile may not be able to enforce her Antarctic waters claim is the "hotter front" which exists between Chile, Argentina and Britain. Argentina and Britain have conflicting claims to the same waters which have been pledged themselves not to submit any claims to the Antarctic.

KENYA BOYS KEEP PACE AT ENGLISH SCHOOLS

Nairobi standards impress headmaster of Repton
KENYA boys at schools in England are keeping pace with English pupils, although they sometimes start slightly below standard, the headmaster of Repton, Mr. T. L. Thomas, said in Nairobi on Thursday evening. He added that, if a boy were going to spend his life in Kenya, there was a lot to be said for sending him to a Kenya Grammar or South African boarding school.

Visit to York
Mr. Thomas was speaking at a luncheon given by Mr. and Mrs. F. L. Evered, whose 15-year-old son visited in on holiday from the school.

Many opportunities
At present, one of the original members of the Public Health Department, Nairobi, which advises boys on their careers, has returned from a visit to South Africa and Rhodesia with a party of 12 representative schoolboys.

Mr. Thomas said New Zealand participation in the proposed British trans-polar expedition is the subject of the original members of the Public Health Department, Nairobi, which advises boys on their careers, has returned from a visit to South Africa and Rhodesia with a party of 12 representative schoolboys.

New Zealand may take part in trans-polar expedition

The New Zealand Government is studying the question of New Zealand participation in the proposed British trans-polar expedition in the Antarctic. The Minister for External Affairs, Mr. Gordon Coates, revealed the possibility of New Zealand's participation in the expedition in Wellington. He said that last September the British had advised New Zealand of the expedition and invited her to take part. Mr. Coates said, "New Zealand has a long tradition of participation in international expeditions and the establishment of a base at Ross Island and the New Zealand Government would be glad to see New Zealand participation in the proposed British trans-polar expedition in the Antarctic."

FRANCO-GERMAN AGREEMENT ON SAAR Co-operation after Baden talks

BRITAIN AND U.S. ASKED TO GUARANTEE STATUTE

Peace team reports fire bomb raid on Costa Rica

THE International Inquiry team in Costa Rica has sent an alarm message to Washington headquarters that rebel forces are advancing and burning a town in the north of the country.

The United States Organization of American States is about to leave for neighboring Nicaragua to investigate reports of military assistance from Costa Rica to the rebel Government, Mr. Martin Armstrong said.

A relief party plane was bombed as it was returning to the Washington area. The Government plane was not damaged but the other part of the plane held by the rebels was damaged.

The inquiry team is in the country to investigate the reports that the rebels are advancing and burning a town in the north of the country.

THE Franco-German talks at Baden ended yesterday with full Franco-German agreement on the Saar. West German Chancellor Dr. Adenauer said: "All our differences have been overcome in a spirit of co-operation."

The French Premier, M. Mendès-France, said: "Today's work has proved that we were right to be confident about Franco-German co-operation with regard to the Saar. Important progress has been made and I remain very optimistic. In the last few months innumerable obstacles have been overcome."

"We now can proceed with confidence in the construction of a United Europe in which Germany and France will have important roles to play," he said.

A communiqué from the Saar, issued by the two leaders, stated that their Governments had decided to ask Britain and the United States to guarantee the Statute according to Article Eight of the Franco-German agreement signed in Paris on October 23.

With regard to the pooling of armaments production, the communiqué said: "The Ministers of Defense have agreed in their views on the necessity of standardizing armaments in consultation with the North Atlantic Treaty Organization and the harmonizing of their armaments production with a view to a reduction of costs."

The two gentlemen agreed on the conclusion of a three-year trade agreement between France and Germany. Mr. Adenauer said that he would like to see the agreement put into effect as soon as possible.

UNDERSTANDING WITH RUSSIANS

A three-page communiqué, signed by the heads of the talks, said that the Premier and the Soviet Foreign Minister had agreed on a number of points.

The communiqué determined in principle the questions relating to the understanding of the Statute of the Saar, and to the possibility of a partial reunification of the Saar with the German States.

MILDER weather in SOUTH

WHILE helicopters and transport planes stood by yesterday to fly to snowbound hamlets in the north of Scotland, where blizzards raged in a temperature of ten degrees below freezing point in some areas, a rapid thaw was being reported in the south.

The weather earlier had been cold and dry. Snow had been reported in the south of Scotland, where it was reported to be melting.

RUSSIA OFFERS ATOM SECRETS

Exchange of information welcomed by West

RUSSIA has offered the world the knowledge she has gained from her atomic power stations which went into operation last October. The Soviet Government promised to hand over the details to the United Nations Atomic Energy Commission.

Observers in Moscow see the move as an attempt by Russia to recover the initiative in international atomic politics. In the past year nearly all the major atomic power stations in the world have been built in the West. Most of the observers, however, welcomed the move as an exchange of information which in its turn could eventually result in a reduction of tensions between East and West.

The O.E.E.C. has announced the biggest step towards freer trade in Europe at the end of the three-day meeting in Paris of the Finance Ministers of the 11-nation Organisation for European Economic Co-operation.

Mr. Butler, the chairman, said member countries had agreed to increase the proportion of imports from 75 to 95 per cent during the next six months to April 1. They would have bought from each other free of quota from 100 to 95 per cent during the first six months to April 1.

The O.E.E.C. has been set up to help member countries trade under a freer system of trade.

With snow, ice, thud and fog... BRITISH SOCCER HAS ITS WORST DAY SINCE 1947

Weather washes out entire Scottish league programme

SHOW and ice, in some places a blizzard that combined on Saturday, washed out the Scottish League football matches and racing in the peace-time history of the country. All had to be postponed, three of those down to be played in England, and had begun were abandoned before full time, with fog applying the closure at Portmarnock 15 minutes from time.

The Rugby Union programme was out of the game all in the West of England, and the Rugby League fixtures to 10 matches. All the competition of the first two than when the weather was so bad. Only one Division "A" match, and finished after 30 minutes, with the referee stopping play, with the referee stopping play, with the referee stopping play.

The hard luck Division "B" match could even have been cancelled. The match was between the Glasgow and Edinburgh sides. The match was cancelled due to the weather. The match was cancelled due to the weather.

F.A.C. VIEN BEATEN BY F.A. OF KENYA XI

Visiting side fails to find form

By the Sports Editor
It is difficult to satisfy the claims of both Justice and Veracity in reporting the opening match of F.A.C. XI against the Kenya XI at the African Stadium Nairobi, on Saturday afternoon. The visiting side, which was so tactically polished and so expertly punished the majority of the large crowd present.

The Governor of Kenya, Sir Evelyn Baring, has issued a special edition of the East African Standard newspaper today, containing the text of a statement made by the Governor regarding the proposed reduction of the Government's expenditure for 1955-56.

West to turn down Soviet proposal on Germany
The West will reject any "inadequate and disruptive" Soviet proposal for uniting Germany under a single elected Government. The West is determined to maintain the division of Germany, which will be on a permanent basis.

SUCCESSFUL CHANGE TO PEACETIME ECONOMY

The United States Government plans cut expenditure by \$1,100,000,000 (about £382,000,000) in the coming financial year. President Eisenhower announced last night that foreign aid will be increased — by \$400,000,000 (£142,000,000). Total expenditure on military and non-military activities this year will be \$4,700,000,000 (£1,575,000,000). Total expenditure for 1955-56 is estimated at \$2,400,000,000 (£812,500,000) last year it was \$65,500,000,000.

Propaganda view

Set out in the statement today is a list of the conditions which will be guaranteed that protection of the white of Germany will be generally free by 1956. The Treaty of Austria (1955) is being considered by the Parties to the Treaty of Austria (1955). The Atlantic Pact before a referendum in Germany. West Germany has rejected the Soviet offer of propaganda, which is aimed at preventing the unification of Germany.

TALKS OPEN ON ARMS POOL

British Prime Minister Harold Macmillan has said that the United Kingdom is ready to discuss the possibility of a common pool of arms and munitions for Western Europe. The proposal is part of a wider programme of defence co-operation.

DEFENCE SUPPORT

The United States has played a vital role in the defence of Europe. The coming year is designed to complete the defence programme and to make further progress. The Atlantic Pact is being reviewed and the United States is expected to make further contributions to the defence of Europe.

MOVE TO SECURE CUP IN TARIFFS

The United States has taken a significant step towards securing a more equitable tariff system. The proposed changes will allow the United States to take a more active role in the world trade system.

FOREIGN AFFAIRS THE DOMINATING THEME AT COMMONWEALTH TALKS

When the Commonwealth Prime Ministers meet in London in a fortnight, they will have much new information to help them to study the problems of peaceful East-West co-operation. This topic, which will rank high in the talks, will certainly spotlight the situation in Moscow some time this year. He is the only Commonwealth Prime Minister who has had personal contact with the foreign leaders in Poland.

British plan to traverse Antarctic

LEADER HOPES FOR DECEMBER START

The British expedition to cross the Antarctic continent in tracked vehicles has been given the go-ahead in December. This was disclosed at a Press conference in London by Dr. Vivian Fuchs, the expedition's leader.

The Commonwealth states now will have to consider whether their future meetings should be held in a neutral country, such as Switzerland, or in a neutral city, such as Geneva. The recently created Federation of Rhodesia and Nyasaland will represent for the first time at the meeting.

Tracked vehicles

The idea of the expedition—a private venture supported by the Royal Geographical Society—is to find out what is inside the Antarctic continent.

A proposition

Some of the eight nations which are present make up the Commonwealth Conference would make a proposition that because self-governing should be included in the list of important items to be submitted to the Commonwealth Conference.

New Zealand team

Mr. Edmund Hillary, joint organizer of Mount Everest expeditions, has been asked to lead a New Zealand team to participate in the expedition meeting today.

DON'T CHANGE YOUR WIFE IN MIDSTREAM

By Ralph Middleton

A NOT uncommon device among men who have been married for some 20 years is the urge to traduce their old wife for a new, sparkling model. This has nothing to do with having sufficient grounds for divorce, but is a naive proposal out of boredom and self-realization that one should be doing something to give one's life a new lease of life. The old wife is not the cause of the trouble, but the trouble is the old wife. The man who has been married for some 20 years is the one who has been married for some 20 years. The man who has been married for some 20 years is the one who has been married for some 20 years.

Photo and illustrated portrait showing the woman who was married for some 20 years. She is the wife of the man who has been married for some 20 years.

All over again

FOREIGN AFFAIRS THE DOMINATING THEME AT COMMONWEALTH TALKS

WHEN the Commonwealth Prime Ministers meet in London in a fortnight they will have much new information to help them to study the problems of peaceful East-West co-existence. This topic, which has been the talk of the week, will almost certainly spotlight Mr. Nehru, the Indian Prime Minister, who is due to visit Moscow some time this year. He is the only Commonwealth Prime Minister who has not had personal contact with the Chinese leaders in Peking. Former Labour Secretary Sir A. D. Nye, who has been in London since his return from the London Conference, will be the only Commonwealth Prime Minister who has not had personal contact with the Chinese leaders in Peking. British plan to traverse Antarctic

LEADER HOPE FOR DECEMBER START

THIS British expedition which plans to cross the Antarctic continent from British to New Zealand, was disclosed at a press conference in London last night. Dr. Vivian Fuchs, the leader of the expedition, said it was proposed that the first British expedition to cross the continent should start from the Weddell Sea. It would link up with a New Zealand expedition starting out from the Ross Sea.

Delicate problem

The Commonwealth statesmen will have to consider whether the future meeting should be extended to include various Empire countries which are not represented for the first time at the first stage of the meeting. The British Government is expected to include proposals which are on the threshold of self-government. This is a problem of some delicacy.

A proposition

Some of the eight nations which at present make up the Commonwealth Conference would resist a proposal that every part of the Empire which is under the direct administration of the British Government should be represented in the Commonwealth Prime Ministers' conference. It is a problem of some delicacy.

President of British Association

Mr. Robert Robinson, president of the British Association, said that the British Association has been invited to hold its annual meeting in London for the first time since 1914.

Women's Tuesday Corner

DON'T CHANGE YOUR WIFE IN MIDSTREAM

By Ralph Middleton

A NOT uncommon device among men who have been married for 20 years is the urge to buy a new sparkling model. This has nothing to do with driving, but with the trade-in their old wife for a new, sparkling model. This has nothing to do with driving, but with the trade-in their old wife for a new, sparkling model. This has nothing to do with driving, but with the trade-in their old wife for a new, sparkling model.

London and Glasgow - *Stuffed Hearts* was named by the author for the first time in the book. It is a story of a woman who has a heart for a man who has a heart for a woman.

All over again

ALL marriages are a process of adjustment on two individuals with different backgrounds, different education and different tastes, adjusting to establish a mutually satisfactory living arrangement. And the success of a marriage depends on the degree of compromise on the part of each partner. Your old wife has been adjusted to your old self, and your old self has been adjusted to her old self. It is a process of adjustment on two individuals with different backgrounds, different education and different tastes, adjusting to establish a mutually satisfactory living arrangement.
