

# EVACUATION OF 22,000 PEOPLE BEGINS

## Making way for Kariba Dam

The first part of a vast population move has begun in the Central African Federation. A convoy of trucks moved up the Zambezi valley last Wednesday to start the evacuation of 22,000 Bantus people from the area in Southern Rhodesia which will be flooded by the Kariba Dam. All of them will be moved in the next 18 months—3,000 before the next rainy season.

## OPENING UP WEALTHY VALLEY

### Coal, lithium—and now phosphates

A LAHOK explosives and chemical firm, i.e., brought the Dutoitspho phosphate deposits, about 60 miles south-west of Odidi, in Southern Rhodesia.

Federal geologists say that when Dutoits is producing, the Federation will be made independent of fertilizer imports. Mr. B. D. Gertzel, Federal Director of the Southern Rhodesia Geological Survey, said that the Northern Transvaal will have been completely developed to a cost of more than £1,500,000.

Mr. Gertzel said the production facilities of the Dutoitspho would start some 150-170 tons a day in 1957, and would be hoped to open up the whole West Valley from the Kariba Dam. Dutoits is producing in the West Valley there would be a step by the Zimbabwe Coalfield. The Dutoitspho phosphate deposit is designed to attract 8,000 acres.

70,000 drilling

Mr. E. W. Robinson, the managing director of the phosphate field, said that some 70,000 test holes will be drilled in the area. Mr. Robinson said that he had been working at Dutoitspho for 12 years and had been able to make enough fertilizer to supply the Federation for many years to come. He has been looking for phosphate deposits in the area since 1930 in a mining area, which is now being developed. Mr. Robinson said that the phosphate deposits are of a high quality and are suitable for use in the production of phosphate fertilizers.

M.P.s ask about Luo land demonstrations

Enough crops this year to feed Tanganyika

A PART from the usual food shortages in Shinyanga district, which will be met from within the respective provinces, food supplies in Tanganyika will be adequate in all this year.

This is stated in the June crop report submitted by the Director of Agriculture, who also stated that the total production of 1,800,000 bales cotton may not be achieved.

Cotton picking had begun in the East District and it was thought that good yields might be obtained in other parts of the Eastern Province, cotton crop had not yet been altered.

Excellent harvest Republic's cotton acreage and crop were being surveyed and the Director of Agriculture said that the cotton crop was expected that 5,700 tons of cotton would be produced.

In addition, large crops of rubber and sisal were expected to be produced in the Eastern Province and a further 1,500 tons of sisal were expected.

The general estimate for rice had not altered except for the fact that the Eastern Province crop which was raised by 1,400 tons of rice. Production of rice and tobacco crop was still small, up to 100 tons of small up to July. Markets were to open in July.

CONOLIDATION DEFENDED

QUESTIONS on recent Luo demonstrations against land consolidation in the Nyasa Province were asked in the House of Commons. Mr. John Rankin (Labour) asked the Colonial Secretary, Mr. Alan Wilson, whether he had been taken against the consolidation of land in the Nyasa Province.

Mr. Wilson said that the consolidation of land in the Nyasa Province was a Government's policy and that it was necessary to consolidate the land in order to improve the standard of living of the Luo people.

Mr. Rankin asked whether the Government was prepared to consider the possibility of a referendum on the consolidation of land in the Nyasa Province.

Mr. Wilson said that the Government was not prepared to consider a referendum on the consolidation of land in the Nyasa Province.

# New Ways With A Cabbage

**THE** humble cabbage is one of the most nutritious of vegetables. How often are the English accused of serving only one form - boiled? Here are three new ways of utilizing it up.

### HOT SLAW

Shred one small cabbage, discard the hard centre, and boil rapidly for 15 to 20 minutes. Drain, and add two tablespoons of butter and four tablespoons of vinegar. Season to taste.

### COLCANNON

Chop one cupful of cooked cabbage and mix with one cupful of mashed potatoes. Melt one ounce of butter in a saucepan, add the cabbage and potato mixture, and season to taste. Then add one well beaten egg and stir together. Grease a pudding dish and mix the cabbage mixture and bake in the oven for 20 minutes. The Colcannon can either be served as an accompaniment to meat, or as a vegetable.

### SCALLOPED CABBAGE

Boil one small cabbage 15 to 20 minutes, drain, and mix with one white sauce, made by blending one tablespoon butter with one tablespoon flour and one egg yolk. Season with salt and pepper, and stir constantly until the mixture is thick. Spread the cabbage in the bottom of a buttered baking dish, lay a layer of cheese and breadcrumb mixture on top, and bake for 20 minutes.

### MUSTARD CABBAGE

Boil two tablespoons of butter in a frying pan, add one cup of finely chopped cabbage, and cook slowly for 15 minutes. Add one teaspoon sugar, a teaspoon salt and one teaspoon mustard. Stir constantly until the cabbage is tender.

### STUFFED CABBAGE

Boil one whole cabbage in salted water for 20 minutes. Drain well, and cut into four equal parts. Remove the core, and stuff with a mixture of one cup of rice, one cup of ground beef, one cup of onion, and one cup of tomato sauce. Bake in a covered dish for 20 minutes.

# CLOTHES FOR THE OCCASION

By Jane Firth

**WASHING** in style, colour and cloth are always considered the three rights of fashion, and the most important element in smartness is smartness in the wardrobe.

For those who are tired of the same old clothes, there are many new styles of dresses which have appeared in the last few weeks. The most important of these are the dresses which are made of light, airy fabrics, and which are designed for the hot weather.

With such new styles, it is not surprising that many women are turning to the fashion designer for help in choosing their wardrobe for the summer.

## TALKING RADIO by Henry Reuter

RADIO PRIZES, which are considered as being in thousands all over Nairobi and the rest of Kenya, have been given a new lease of life by the forthcoming trial of the Forces Broadcasting Service. A colony-wide drive with detachable vans to persuade listeners that there are such things as wireless licences, which was to have been launched this month, has been postponed until after the Princess visit.

Paul Oging (article) feels that it would be inappropriate to go detecting while we are listening to the van, but broadcast descriptions of the Princess's visit, such as when the three come back, will carry out continuous evening broadcasts, such as residential areas in turn. The van may prove whether a radio is working within a range of 120 yards. Officials will knock on your door and ask to see your licence. If you cannot produce one, your car will be impounded. If you deny having a radio and refuse the official advertisement, a policeman accompanying the van will report to his station for a search warrant.

Although the Government is not concerned, the drive cannot come soon enough. Wireless licences are being advertised at present in Tanganyika, but it is understood that the Government might even be able to give a grant to the Forces Broadcasting Station, which is being opened on August 11.

Although Uganda has a broadcasting service, no licence is required in the Protectorate. The same applies to Tanganyika, but it is understood that the Tanganyika Broadcasting Corporation now being formed, plans to introduce a radio licence system on August 11.

This week I learned that arrangements by F.B.S. for covering the Princess's visit will include a broadcast to be held in the first two roundabout areas, which will be broadcast in Kenya. Concluding with Princess Margaret's visit to the British Military Hospital, Nairobi will take a microphone round the works in Thika Town.

Arrangements are also being made by broadcasting the service in Mombasa. Colonel Oging's broadcast will include Episode I of a new Paul Temple series, at 8.15 p.m. on Monday, when Henry Edwards will be presenting "A Link With Jimmy" in which producer Fred Forster in Kenya to their files at home, recorded by Henry during his tour here in April, will be relayed.

# Progress of Asian education in Tanganyika

## TRIBUTE TO GOVERNMENT

A TRIBUTE to the generosity of the public and of the Government for all they had done to encourage Asian education was made by Mr. M. R. G. Pillai at the opening of the 12th annual conference of the Tanganyika Asian School-leavers' Association. Mr. Pillai, chairman of the association, welcomed the members of the conference, which was held at the Government House, Dar es Salaam, on August 15. He said that the conference was held in 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, # DEPARTMENT'S EFFECTIVE UNITY IMPRACTICABLE

## Three sections proposed

It has a very considerable and very wide range of activities and is engaged in a number of different types of work. It is not possible to have a single director for the whole of the department. It is necessary to have a number of directors, each responsible for a different part of the work. The department is divided into three sections, each with its own director. This is the only way in which the department can be run effectively. The three sections are: the first section, which is responsible for the general administration of the department; the second section, which is responsible for the technical work; and the third section, which is responsible for the financial work.

Cooking With Carrots

FROM cabbages a week I saw two terrific bobby carrots and here are some unusual ways of preparing this common vegetable...

BAKED CARROTS

SCRAPE and dice six medium-sized carrots... boil with boiling water and cook for 15 minutes...

CARROT PIE

SCRAPE four to six carrots... put them through a grater... mix with butter, sugar, and eggs...

THREE SIXES

SCRAPE six carrots, peel six onions, dice and boil in water until tender... mix with butter, sugar, and eggs...

CARROT PUDDING

GRATE enough carrots to make one cupful... mix with butter, sugar, and eggs... bake in a pudding dish...

# Movements To Help The Women Of Kenya Are Making Good Progress

In a recent leading article in this paper it was suggested that a number of women's organisations, such as the Homemakers and the Mothers' League, should co-operate with the women's league, the formation of which was inaugurated at the last Council meeting of the East African Women's League.

The Homemakers is showing an excellent example for them because of the

# ZANZIBAR COMMON ROLL

## VOTING IN 1957

### Courts Report approved

WITH its full Arab complement of 25 members, the Zanzibar Legislative Council has approved the Courts Report of the Government, on methods of choosing members. Approval of the proposal means that elections on a common roll will be introduced by the end of next year. All arrangements go smoothly.

Two members will be elected by half of the 12 Ujamaa members and the other 10 by the other half. The Ujamaa members will be elected by the common roll and the other 10 by the common roll.

Several Ujamaa members have expressed their approval of the proposal. Mr. P. H. Nigam, Ujamaa member, said that the proposal was a step towards the realization of the common roll.

# MAFIA, A Fisherman's Paradise

THE island of Mafia is like a gem in the Indian Ocean, separated from the Tanganyika coast by a narrow channel and 40 minutes' flying time from Dar es Salaam. The majority of people know little about it except that it is a hot spot of tourist prospecting. But a man who has been there will tell you, though he may have been there before that there is a fisherman's paradise, a place where tourists become really, and where a fish under ten lb. is casually ignored for bigger game.

Lushly wooded as it had its view under the wings of the state's airtourist train surrounded by a host of satellite islands and a sea of exquisite coral reefs, Mafia is a wonderful place to visit. It is a place where a fisherman's paradise, a place where tourists become really, and where a fish under ten lb. is casually ignored for bigger game.

By REDVEYS HAINS

### Time means little

HOW many of us, as school boys, were told that time was money? In Mafia, time means little. It is a place where a fisherman's paradise, a place where tourists become really, and where a fish under ten lb. is casually ignored for bigger game.

Advised that will windmill sails sweeping up the channel to the entrance of the bay. Windmills of this type are a thing of the past. They were used to pump water up to the houses on the hill.

### Converted whaler

I was told that our first fishing expedition would take place on the west side of the island the following day as it was to be before dawn for a 20-mile drive in the dory to the north-west where we were to meet the District Commissioner, Mr. G. C. Henderson, who had offered to

Palm trees, scattered throughout the island, are a sight to be seen. They are a reminder of the island's past as a whaling station.

Our recent visit, however, was with fishing gear and some five lines stretched across the bay.

### Thrilling sound

As we turned on the outer edge of the reef, the sound of the water was a thrilling sound. It was the sound of the water as it crashed against the rocks.

Each No. 1 was a 1000-horsepower engine. They were built in the United States and were used to power the whaling ships.

Our recent visit, however, was with fishing gear and some five lines stretched across the bay.

### Google together

The following day we Google together. We went to the beach and looked for fish. It was a thrilling experience.

By now Miami Island, Three miles from Mafia, was visible. It was a small island with a few buildings and a church.

Our recent visit, however, was with fishing gear and some five lines stretched across the bay.

### Vanish

The sun was warm and the sea was blue. It was a beautiful day. The fish were plentiful and the weather was perfect.

## TALKING RADIO

By Henry Renter

THE past week in broadcasting has been conspicuous by the absence on both Nairobi and Forces stations of the evening sport programmes, from 8.15 to 7 p.m. Neither station considered the cricket test programme, from 8.15 to 7 p.m. on Monday and Tuesday, and the evening play to East African listeners, for other nights there was no sport to broadcast, but whereas the Forces station usually has the game with atmospheric music, Nairobi just did not bother to come out.

It is true that when Nairobi announced the definite addition to its daily B.B.C. sports relay, a spokesman was reported to have said that the station was being considered. If that was the case, it is a pity that it has not been put into effect. It is true that the Forces station is now drifting up, surely this is the time to introduce these extended to the hour of local broadcasting. The station has to support the Forces station, and it is a pity that it has not been put into effect. It is true that the Forces station is now drifting up, surely this is the time to introduce these extended to the hour of local broadcasting. The station has to support the Forces station, and it is a pity that it has not been put into effect.

In a letter to us this week a reader complained that the Forces station was becoming increasingly noisy by the Forces. He obviously was complaining to the Forces station, because he says that last weekend great music was broadcast from the Forces. I had been under the impression that this programme was taken to the Forces station, but it is clear that it was not.

Next week's Forces programme will be live and local. It was assumed by the comparison that the Forces station was to play the Forces station. Details, which have been adopted by the Forces station, are to be broadcast on Monday, August 18th, from 8.15 to 7 p.m.

# The WHITELINE comes SOONER with NEW foaming VIM

GREASE DIAPHRAGMS  
LIKE MAGIC!

New foaming Vim makes every  
scrap of old grease disappear  
like magic, makes it disappear  
along with it in go time. A little  
new Vim on a dirty cloth, a quick  
rub round, and you, your bath,  
tile and pavement, are smoothly  
clean and shining.

New VIM—  
SO SMOOTH, SO SPEEDY
