Specialist Praises Kenya's Contour Farming

(Standard Correspondent) KENYA had an interesting visitor recently in Mr. A. T. Kettle, formerly head of the Pasture Section of the Agricultural Division of the U.S. Dept. of Agriculture and a member of Dr. H. H. Bennett's Head Office Staff in Washington, D.C. Mr. Kettle has been seconded to the Office of Economic Warfare of the U.S. Government and has been absent from his country since his departure, making a survey of the possibilities of increased production of vit and wine in the Portuguese Colonies.

Mr. Kettle, who had indicated to the Kenyan Government that he had a number of plans to participate in the work of the Kenyan Government at Washington in 1942, he visited here to take the opportunity of seeing some of the best contour farming work in progress through the Agricultural Division of the U.S. Government. He was accompanied by some of the Kenyan Government staff, including Mr. A. J. Kettle, who had been in the country for some time.

At Nairobi he was able to inspect some of the best contour farming work in progress through the Agricultural Division of the U.S. Government. He was accompanied by some of the Kenyan Government staff, including Mr. A. J. Kettle, who had been in the country for some time.

"THE GOOD OLD DAYS" (Illustration by G. H. G. G.)

Kennel Notes

By MARGARET COLLYER, P. O. Kabete.

I HAVE lately had the report from the National Committee of the Dog Club for the year 1943. I am glad to say that the number of dogs registered in the year 1943 has increased over the number registered in the year 1942. The number of dogs registered in the year 1943 was 1,000, as against 900 in the year 1942. This is a very pleasing result, and it is a sign that the dog-keeping public is becoming more and more interested in the sport.

The number of dogs registered in the year 1943 was 1,000, as against 900 in the year 1942. This is a very pleasing result, and it is a sign that the dog-keeping public is becoming more and more interested in the sport.

CARS NEED TYRES

Tyres are an indispensable part of a motor car without them it travels inefficiently. And on many farms the annual dipping with Cooper's is also considered indispensable. It helps improve the quality of the wool and at the same time keeps the sheep healthy.

Cooper's Sheep Dipping Powder has been proved to be worth every penny of its cost. It kills off all parasites that may already be on the sheep and then by the fine protective particles of dip that cling to every wool fibre, it keeps the sheep safe from all parasites which try to get on after dipping.

If you have to dip with Keds use "QUICK-ACTING" POWDER. A single dipping is sufficient to eradicate lice and their pupae.

Get rid of Scab-Dip your sheep in COOPER'S DOUBLE DIPPING POWDER.

COOPER'S SHEEP DIPPING POWDERS

If you're renewing your used McCormick-Deering binder...

...be sure the replacement parts are as good as the original

Genuine IHC Canvases have 1/3 more strength!

Genuine IHC canvas aprons are woven by a process known technically as canvas construction. The warp threads are made of four-three strands. The weft, or filler, runs crosswise. It is made of three-three strands. This makes the warp threads, which run lengthwise and take the pulling strain of the apron, stretched stronger than the filler strands, which run crosswise.

All IHC canvases, which are sold as aprons, are identical in quality with the canvases that come with new machines. They are the exact size and weight for your machine whether it is a McCormick, Deering, or McCormick-Deering. Order now and thus be sure your binder will be ready when required.

In 'The Days of 'Care Turners'

The recent visit of Mr. William Barton to Kenya was the occasion of an informal gathering of more than 100 persons, many of whom were those who were born in "Wiltshire" before the war. Mr. Barton, Director of Veterinary Services, visited Kenya in connection with the Colony after an absence of some years. He had been in the Colony for some time before he came to Kenya, and he had a number of those "care turners" who were born in Wiltshire, and who were in the Colony before the war. He had been in the Colony for some time before he came to Kenya, and he had a number of those "care turners" who were born in Wiltshire, and who were in the Colony before the war.

Honour for Kenya Boy

Mr. F. R. Green, Honorary Secretary of the Kenya Club, writes us that he had been informed that a boy named "Kenya" had been awarded the D.F.C. (Distinguished Flying Cross) for his services in the air force during the war. The boy's name was "Kenya" and he was a native of Kenya. He had been in the air force for some time before he came to Kenya, and he had a number of those "care turners" who were born in Wiltshire, and who were in the Colony before the war.

Golden Wedding

Mr. R. H. Green, Honorary Secretary of the Kenya Club, writes us that he had been informed that a boy named "Kenya" had been awarded the D.F.C. (Distinguished Flying Cross) for his services in the air force during the war. The boy's name was "Kenya" and he was a native of Kenya. He had been in the air force for some time before he came to Kenya, and he had a number of those "care turners" who were born in Wiltshire, and who were in the Colony before the war.

A Red Cross Farewell

Lady Moore attended a farewell luncheon at the Kenya Club in honor of the "Red Cross" girls who were leaving for home. The girls had been in the Colony for some time before they came to Kenya, and they had a number of those "care turners" who were born in Wiltshire, and who were in the Colony before the war.

Good Method Of Ploughing-out "Islands"

THE following letter has been received by Mr. C. G. Laker, who is in charge of the land clearing work at the present time, from a correspondent who writes: "When the farmer ploughs out his 'islands' he should plough them out in a way that will leave a narrow strip of land between them, so that the soil will be left in a state that will allow the farmer to plant his crops in the narrow strip between them. This will allow the farmer to plant his crops in the narrow strip between them, so that the soil will be left in a state that will allow the farmer to plant his crops in the narrow strip between them."

The farmer should plough out his 'islands' in a way that will leave a narrow strip of land between them, so that the soil will be left in a state that will allow the farmer to plant his crops in the narrow strip between them. This will allow the farmer to plant his crops in the narrow strip between them, so that the soil will be left in a state that will allow the farmer to plant his crops in the narrow strip between them."

Gillette is called on. No more deformations for our friends the Dism and Thin Gillette or 7-bleck blades. As sticks run on they must all get into battle and become the Gillette "Standard" blades. Even their products will be restricted and you may not always get them as you please. But cheer-up—they'll still give you the best shave you can buy.

Gillette in battle dress

Kill those throbbing pains in your muscles at once! Apply Sloans Liniment lightly—feel your

SPRAINS relieved!

THE BEST IN THE WORLD FOR ALL SORTS OF ACCIDENTS AND INJURIES. SLOANS LINIMENT. All ailments relieved.

THE DEFENCE OF HOME (Copyright in All Countries)

Has Kenya An Agricultural Policy?

AN agricultural policy for Kenya is a subject which has been discussed in the past, but it is only now that it is being seriously considered. The Government has been asked to consider the possibility of introducing a policy which would give the farmer a fair return for his crops, and which would also give the consumer a fair price for his food. This is a most important question, and it is one which must be considered carefully.

The Government has been asked to consider the possibility of introducing a policy which would give the farmer a fair return for his crops, and which would also give the consumer a fair price for his food. This is a most important question, and it is one which must be considered carefully.

COOPER'S COMMUNIQUE

TICKS

ARE IMPROVING PARASITES

Daily infested animals cannot feed peacefully. Ticks suck the blood of their hosts, and in doing so they transmit the disease. It is essential to take steps to prevent ticks from infesting animals, and to treat them if they do so.

Good equipment makes a good farmer better!

Agriculture in S.A.

The impossibility of a satisfactory agricultural policy in South Africa is a subject which has been discussed in the past, but it is only now that it is being seriously considered. The Government has been asked to consider the possibility of introducing a policy which would give the farmer a fair return for his crops, and which would also give the consumer a fair price for his food. This is a most important question, and it is one which must be considered carefully.

CORRESPONDENCE

NEW ZEALAND

By the Editor, "E.A. Standard"
 The New Zealand Government has issued a statement regarding the situation in the Pacific. It states that the Government is determined to maintain the integrity of the Commonwealth and to support the United Nations in their fight against the Axis powers. The statement also mentions that the Government is providing financial assistance to the United States and the United Kingdom.

EDUCATION

By the Editor, "E.A. Standard"
 The Education Department has announced that it is planning to introduce a new system of examinations for secondary schools. The new system will be based on continuous assessment and will aim to provide a more realistic and comprehensive evaluation of students' progress. The Department also plans to increase the number of schools and to improve the quality of teaching and learning.

THE HOSPITAL

By the Editor, "E.A. Standard"
 The Hospital Board has decided to increase the number of beds in the hospital to meet the growing demand for medical services. The new beds will be provided in the existing wards and in new wards to be built. The Board also plans to improve the facilities and services provided to patients and to increase the number of staff members.

THE MILITARY LIBRARY

By the Editor, "E.A. Standard"
 The Military Library has been established to provide a collection of books and periodicals for the use of the armed forces. The library will be open to all members of the armed forces and will provide a valuable resource for their education and training. The library also plans to hold regular book fairs and to provide information on the latest military developments.

PHILIP'S WITNESS

By the Editor, "E.A. Standard"
 Philip's Witness has been established to provide a platform for the expression of views and opinions on current events. The witness will be open to all members of the community and will provide a valuable forum for discussion and debate. The witness also plans to hold regular meetings and to provide information on the latest news and events.

ACHING BRIDGE

By the Editor, "E.A. Standard"
 The Aching Bridge has been established to provide a platform for the expression of views and opinions on current events. The bridge will be open to all members of the community and will provide a valuable forum for discussion and debate. The bridge also plans to hold regular meetings and to provide information on the latest news and events.

TO PAIN

By the Editor, "E.A. Standard"
 The To Pain has been established to provide a platform for the expression of views and opinions on current events. The pain will be open to all members of the community and will provide a valuable forum for discussion and debate. The pain also plans to hold regular meetings and to provide information on the latest news and events.

DOANS

By the Editor, "E.A. Standard"
 The Doans has been established to provide a platform for the expression of views and opinions on current events. The doans will be open to all members of the community and will provide a valuable forum for discussion and debate. The doans also plans to hold regular meetings and to provide information on the latest news and events.

THE WEEK'S AFFAIRS
The Senate has passed a bill to amend the laws relating to the control of land-owning companies. The bill is designed to prevent the accumulation of land in the hands of a few individuals and to provide for the better management of the public lands. The bill is expected to be signed by the President.

TO AMEND CROWN LANDS ORDINANCE
The Senate has passed a bill to amend the laws relating to the control of land-owning companies. The bill is designed to prevent the accumulation of land in the hands of a few individuals and to provide for the better management of the public lands. The bill is expected to be signed by the President.

Land-owning Companies Measures To Control
The Senate has passed a bill to amend the laws relating to the control of land-owning companies. The bill is designed to prevent the accumulation of land in the hands of a few individuals and to provide for the better management of the public lands. The bill is expected to be signed by the President.

Police In Native Areas
The police in the native areas are being reorganized to improve their efficiency and to provide better protection for the native population. The new organization will include a number of native police officers who will be trained in modern police methods.

INDIAN IMPROVEMENTS
The government is undertaking a series of improvements in the Indian areas. These improvements include the construction of roads, bridges, and schools, as well as the provision of medical and social services. The government is also working to improve the education and training of the Indian population.

RECEIVE TITLES
The government has received a number of titles from the various states and territories. These titles are being used to recognize the contributions of individuals and organizations to the development of the country.
