Serving—Some of the Blue and the Thin Gillette and the 7 o'clock blades have gone to serve the King. Gillette's Standard Blades now serve the King. Swiftly and cleanly they do it, too—the best shave your money can buy. And being good steel means that the output is restricted, so if you have any difficulty in getting them don't blame your dealer, try again later.

HEALTH OF THE SOIL

Importance Of Trace Elements In Fertility

The following article, dealing with the effects of trace elements in the soil on fertility in plant and animal life, appeared in The Times a few weeks ago. It is written by Mr. E. J. Salisbury, F.R.S., Director of the Royal Botanic Gardens at Kew.

In order to save the horticultural and agricultural industries, government and private alike, from the expense of buying fertilizers, it is necessary to know the exact composition of the soil. The knowledge of the soil is the key to the solution of the problem of fertility. It is the only way to know the exact composition of the soil and to know the exact composition of the soil.

Bigger War Bonuses For Civil Servants

SIX-YEAR PLAN FOR UGANDA

M.P. Pays The Week's Letters

'DISPLACED PERSONS'
WEDNESDAY, AUGUST 15, 1944.
 As the increased tempo of the war continues to be maintained, it is not surprising to admit that falling behind in some countries is not only a matter of reverse or at least a partial reversal of the European continent has definitely entered the stage of the war. The displacement of the population and the rehabilitation of Europe is a new factor in the war. The displacement of the population and the rehabilitation of Europe is a new factor in the war. The displacement of the population and the rehabilitation of Europe is a new factor in the war.

THE Government was today reviewed by committee on the proposed increase in the salaries of the Civil Servants. The committee has decided that the increase in the salaries of the Civil Servants should be 10 per cent. The committee has also decided that the increase in the salaries of the Civil Servants should be 10 per cent.

JET PROPULSION FOR AIRCRAFT

Many inventions and discoveries of enormous benefit to mankind within the British Commonwealth. The principle of jet propulsion has led to revolutionary air transport systems, land and ocean travel as well.

Among other notable achievements to the credit of Britain is the development of **Courtauld's**. This remarkable textile with its impermeable surface and great strength has been brought to its present state of perfection by continued research and patient endeavour on the part of the British Company.

Courtauld's rayon yarns and the beautiful fabrics made from it have become standards of life amongst millions of people and have been the means of bringing vast new industries in England, the United States, Canada and elsewhere.

The recognition of the war has restricted the availability of Courtauld's rayon but will not be restricted long. It is now possible to produce Courtauld's rayon in vast quantities and it is expected that in the future it will be the most important and valuable rayon made in the world.
