**German Strategy**

The great secret of the German strategy is that it is based on the principle of surprise. The German High Command has been successful in keeping its plans hidden from the Allies, and this has allowed it to launch its offensive in the West with such a suddenness that the Allies were completely unprepared.

# Uasin Gishu Is Over Stocked

The Chairman stated that in the last three months of the District the number of animals has increased to such an extent that the Government is unable to purchase them. It is estimated that there are now 1,000,000 head of cattle in the district, which is a record. This is due to the fact that the Government has been purchasing animals at a price of 10/- per head, which has encouraged the breeders to keep more animals than they can sell. The Government is now faced with a problem of how to dispose of the surplus animals. It is considering various options, including the sale of animals to the public and the export of animals to other countries.

# A MUSLIM FESTIVAL

The Muslim Festival was held at Uasin Gishu on the 22nd inst. It was a very successful event, with a large attendance of Muslims from all over the district. The festival was held in the grounds of the Government Office, and was attended by the District Officer, the District Commissioner, and other officials. The festival was a very important event for the Muslims in the district, and it was a great pleasure for the District Officer to attend it. NEW OFFENSIVE AGAINST GERMANY MAY PROVE EFFECTIVE

There are indications that the German command has a plan which they are working out with the utmost secrecy. The plan is objective. Now that Hitler and the Goebbels are in a position to strike back...

It is difficult to say how the offensive will be carried out. It may be a surprise attack on the German front...

When the Allied command was planning to bring the main weight of their armistice to bear upon the enemy in a determined effort to force a decisive blow...

The strategy of the past week has made it clear that Hitler and his advisers have decided to hold Britain firm as the main of the British air force...

It may be expected that Germany will be forced to make a last ditch struggle to avert the disaster which she is now facing...

The fact that the offensive has been launched is a great relief to the Allied command...

It is certain that the offensive will be successful. It will bring the German front to a halt...

# KENYA HOSPITAL COMMITTEE'S REPORT

## SUMMARY OF THE MAIN RECOMMENDATIONS

**Kenya Hospital Committee** has reported on the state of treatment of Government Hospital patients in Kenya. The report is a result of a survey conducted by the committee in 1944 and 1945. The committee was set up by the Government in 1944 to investigate the state of hospital services in Kenya. The committee's report is a result of a survey conducted by the committee in 1944 and 1945. The committee was set up by the Government in 1944 to investigate the state of hospital services in Kenya.

The committee has found that the state of hospital services in Kenya is generally poor. The committee has identified several areas where improvement is needed. These include the need for more hospital beds, the need for more qualified medical staff, and the need for better hospital management. The committee has also identified several areas where the Government should take action to improve hospital services. These include the need to increase the number of hospital beds, the need to increase the number of qualified medical staff, and the need to improve hospital management.

## SOIL CONSERVATION SCHEMES FOR THE FUTURE

### Communal Labour in Reserves

**KENYAN** Economic and Development Secretary gave an interesting outline of Soil Conservation schemes under the Colonial Development and Welfare Acts at a recent meeting of the Land and Water Conservation Committee held in Nairobi. He had just completed a tour of the City and had discussed the scheme proposed by the Director of Agriculture with the appropriate authorities in all districts. The gist of these discussions was that it would be necessary to use various types of labour for soil conservation work, as heavy work cannot be done by African labour. He suggested that communal labour would greatly increase the scope of all soil conservation proposals in the Native areas.

Speaking on this subject, the Director was optimistic on the necessity for raising the standard of living in the Native Reserves and increasing the output per acre. He felt that there should not be any doubt that Africans making their living out of a limited area of land would be inclined to increase their output per acre. He said that the heavy work in soil conservation would be done by communal labour and that the lighter work would be done by African labour. He suggested that communal labour would be used for heavy work and that African labour would be used for lighter work.

While their soil was being re-conditional and such things could not be done in a day. He finished by the view that all soil conservation work must be done in a day. He suggested that communal labour would be used for heavy work and that African labour would be used for lighter work.

He suggested that communal labour would be used for heavy work and that African labour would be used for lighter work. He suggested that communal labour would be used for heavy work and that African labour would be used for lighter work.

### TAXATION WILL BE REVIEWED WITH WAR ENDS

(Continued from page 5.)

War which was likely to lead to a direct financing here and would permit the private house, which remained for sale in the country, to be sold. Mr. Chamberlain said that he would go into the question whether it was desirable to have a tax on the sale of land.

A trade agreement had been established by the Government and was maintained for the benefit of the export and import trade in the country. After stating that the Government had no trading account, the Minister said that it was the duty of the Government to maintain the balance of the trade account.

On the question of Police terms of service raised by several Members, the Kenya Residents' Civil Service Commission report, amongst its principles has been not to have a separate Police terms of service should be drawn up because of the possibility of a strike of the Police.

Regarding Mr. Vincent, the Minister said that the present policy of the Government to employ foreigners in certain posts, and as and when British personnel, particularly in the case of the Kenya Government, has been gradually increasing.

The letter then gave an explanation showing that the African Administration had been established for the purpose of assisting the Government to carry out its policy in the territories.

## THE ACHIEVEMENT OF BRITAIN

FOUR WEEKS ago the world was in a state of confusion. The White Paper setting forth particulars of the effect of the Union of South Africa on the League of Nations. As the London Evening Standard has said: "The White Paper was a masterpiece of speech can contain the lucid simplicity of the statement of the White Paper." We see here a story of a people who are so reluctant to engage in the attacks upon their neighbours that they have almost forsaken the arts of war. In circumstances, of imminent danger they hesitated to put forth their full strength. It is a story of a people who are so unselfish that they are willing to sacrifice their own interests for the benefit of their neighbours. It is a story of a people who are so unselfish that they are willing to sacrifice their own interests for the benefit of their neighbours.

COOPER'S COMMUNIQUE

The Commensense of Spraying CAPEX LIME SULPHUR for Coffee Thrips. Spray early before the damage is done. In many cases growers do not begin to spray until damage is apparent. It is then too late to get the full benefit. This applies especially to fungoid diseases which are far easier to prevent than to control after they have once become established.

Government Help Wanted. Mr. Van Riek... He stated that the Government should provide more financial assistance to the industrial sector to help it grow and create jobs.

International Agreement On Export Prices Advocated

Dr. H. J. Van Riek, chairman of the South African Industrial Development Corporation... He advocated an international agreement to stabilize export prices and protect the interests of developing countries.

Mr. Maher turned to the question of the extra moisture which will dilute and weaken the wash. Last, but not least, spray thoroughly and conscientiously, a poor spraying is a waste both of labour and material.

District Farming Notes

MACHAKOS. The rains were certainly given in some thrills lately. October opened with some drizzling rain... The district is generally well watered and the crops are doing well.

Price Policy. The internal agricultural price-comparative overvalued industrial position that the country's overall balance of trade is being improved.

There are rumours of grey laying on the district, but although the disease has at the time of writing been reported in positive cases in the district, it is not yet confirmed.

Speculators, naturally insensitive to the basis on which the market is being built, are getting in on the act and are making a fortune out of the situation.

Shortage hasn't made them forget

... they still ask for 'Viyella'

"I suppose you don't happen to have any 'Viyella'...? Not Oh well, I just thought I ask..."  
They haven't been able to get it for the asking for several long years, but still they ask for "Viyella." They still ask for it at all times today as it was before the war. We have supported this deep-rooted love for it by keeping the name always before the public, but we could never have achieved it by advertising alone. The years of reticent, slow-going, realistic, long-enduring, hard-earned, the high standard of quality and wearing qualities of this famous British cloth are never lacking. They have developed and consolidated good habits instead of diminishing them. It is this fact, our most heartening assurance—used year after year in every city in the world—that "Viyella" will still hold its place in the minds of the people we serve. Already we are thinking far tomorrow. Our research departments are at work now on improvements and innovations, so that when the time comes, we shall be ready with varied and colourful "fanges"—new designs to meet the new demand.

**G.E.C. in war - as in peace**  
at the service of the Empire

Before the war, G.E.C. electrical equipment was installed on ships for every class of service. Many important vessels, including turbo-electric auxiliary liners, electrical self-discharging cargo vessels and diesel-electric tug and ferries, were completely equipped by the G.E.C., the largest and most experienced electrical manufacturing organization in the Empire. During the war there has probably not been a British ship or an cargo vessel built without some G.E.C. electrical equipment.

The G.E.C. serves every essential industry in a similar way and the same holds true for the most important manufacturing plants in the Empire. From power stations, through chemical and paper mills, to the production of iron and steel, the G.E.C. has been responsible for the electrical equipment of every important industry in the world in carrying out complete electrification schemes of any magnitude.

**DO IT NOW**

**WEDNESDAY, DECEMBER 12, 1934**

The recent debate on the Draft Estimates for 1935 and the Legislative Council there were very interesting. The Government's planning and the importance of economic development to the Government were generally mentioned. The Government's plan for the year 1935 was a very reasonable reaction to the part of the Secretary of State and it could be argued that Kenya would benefit by having access to an organized and trained geologists staff as would be the case with the Colonial Office plan. Then, it might be well to consider, in the light of the experience of the Colony over a period of years, the possibility of a geologist staff as would be the case with the Colonial Office plan. ## Need For Revision When War Is Over

The first estimate which Kenya has received for 1935 is a very interesting one. It shows that the Government's plan for the year 1935 is a very reasonable reaction to the part of the Secretary of State and it could be argued that Kenya would benefit by having access to an organized and trained geologists staff as would be the case with the Colonial Office plan.

# Minimum Rates For Labour

(By GEORGE RICKARD)

## Greetings

We wish everybody to have a Christmas free from troubles and the resulting of peaceful health.

We extend to all those in the East African continent our warmest greetings.

For those who wish to send their greetings through the mails, we suggest that they use the form and send it to the address given on the reverse of this card.

### Massey Harris

MASSEY-HARRIS COMPANY IS A LTD.

MINIMUM rates for labour have, in other countries, been fixed by Government and are now being introduced in East Africa. It is a fair rate of pay that will give the worker a fair standard of living. The aim of the latter is to ensure that the worker is not exploited by the employer.

In these days, it is believed, no employer should be so far from a fair day's work. Personally, I am convinced that the minimum wage of Africans is the most important step towards a fair day's work. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

the same wage earning basis as the white worker. The minimum wage for Africans is now being introduced. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

The wages in the worker. The minimum wage for Africans is now being introduced. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

Working to Live. No doubt the minimum wage for Africans is now being introduced. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living. It is a fair wage which will give the worker a fair standard of living.

### COOPER'S COMMUNIQUE

#### The Compensance of Spraying CAPEX LIME SULPHUR for Coffee Tripps

Spray early before the damage is done. In many cases growers do not begin to spray until damage is apparent. It is then too late to get the full benefit.

This applies especially to tropical diseases which are far more prevalent than in Central Africa where they have become established.

Spray every season. You can tell in advance whether your trees will be attacked. Prevention is better and cheaper than cure.

Don't spray during or just after a shower. The extra moisture will dilute and weaken the wash.

Don't spray in a hot sun. If it can be avoided.

Last, but not least, spray thoroughly and consistently. A poor spraying is a waste both of labour and material.
