MONDAY, FEBRUARY 5, 1942

**THE NEW ARCHBISHOP**

The untimely death of Dr. William Temple was a tragedy which has shocked the world and even against a wartime background of other tragedies and misadventures, it has stood out as a great and a terrible loss to the world. He was one of the most distinguished statesmen of his land, in national and ecclesiastical life, and his influence was felt in every part of the world. He was the son of a noble family, the son of a noble family, the son of a noble family. He was the son of a noble family, the son of a noble family, the son of a noble family.

**LESSONS OF THE UGANDA STRIKE**

**STANDARD'S COMMENTARY**

There is no further doubt that the Uganda strike has been a lesson to the world. It has shown that the workers of the world are not to be trifled with. It has shown that the workers of the world are not to be trifled with. It has shown that the workers of the world are not to be trifled with. It has shown that the workers of the world are not to be trifled with. It has shown that the workers of the world are not to be trifled with.

### Historic Stalingrad

The British Parliamentary delegation now in Russia has just paid a visit to Stalingrad where the first victory in 1942 marked the turning of the tide on the eastern front. The British members of the delegation were shown over the city by the Stalingrad Soviet People's Committee of Honour and received in honour of the famous battle. They were also shown the city's reconstruction and the work of the Stalingrad workers.

"1946 REVIEW"

**THE EAST AFRICAN STANDARD**

WEDNESDAY, FEBRUARY 7, 1946

The world has received the only paper which these days could hope to rival that which comes from the bustling fields of Europe, namely the news that the long-expected and historically significant of the "Big Three" is now taking place. The fact that they are now to go to plan and shape the war plan has been exciting. And our assumption that the process is now being completed by the Russians standing on the East and being worked towards Berlin, is now confirmed by the fact that they have now met again—this time to plan and shape the coming peace. The problems by which the great tripartite are faced are no less great than when they were first faced at Tehran. Three great and distinct Powers are represented, each with its own and therefore it is inevitable that there will be a number of difficult questions that must be asked. The fact that they are now meeting in this way is a sign of the progress of such conferences have to be made. It is a sign of the progress of such conferences have to be made. It is a sign of the progress of such conferences have to be made.

**NEGLECT IS DANGEROUS**

Your eyes are exposed to many dangers. The glare of the sun or places inside, long hours in smoky light—all these give rise to severe eye strain. The air is laden with tiny particles of dirt and millions of germs. Naturally your eyes will suffer if you do not give them proper care. Treatment with Optrex Eye Lotion will protect them from dangerous strain and keep them fit.

Nowadays the growing demand of busy life traffic means that Optrex is one of the most essential in order that you should still take all possible care of your eyes. Do not hold your work close to your eyes—14 in. is a safe distance. Rest your eyes occasionally. Get plenty of fresh air and whenever possible, bathe your eyes with Optrex Eye Lotion. If you have the slightest doubt regarding your vision consult a Doctor or Qualified Practitioner immediately.

**BRITAIN'S COMING OLYMPIC CHAMPION?**

Miss Nancy Riach, Britain's young fencer who bids fair to become an Olympic and world champion, is in London for the 1945 British Empire Games.

She has captured 50 medals (46 in fencing) in the remarkable time of 25-1/2 minutes, and covered a mile in 24 minutes, 40 seconds, a figure completely better than those normally recorded in Britain. Recently she has won the British record for all records of distance from 100 to 500 yards in 10 seconds.

Perhaps her greatest feat was her record of 100 yards in 10 seconds, a feat which has broken the British record of 56-1/2 seconds. On this record, Nancy Riach is very close to the heels of the famous Danish champion, Haglund.

Years of practice in the Union have definitely outclassed as a result of this world-wide fame. These which was the worst for many years. Important sport news in the Northern Transvaal have now had a good season.

Last Saturday of the Nairobi Railway Club ground an Ordinance side by side. The event had a very good turnout. The match was a very good one. The match was a very good one. The match was a very good one.

**UNIFIED LOCAL GOVERNMENT SERVICE**

An administration can be judged by the quality of the men who seek to serve it. The more an administration is in direct contact with the people affected by its laws, by-laws, rules and regulations it administers, the greater its responsibility is for their welfare, and the more important it is that that personnel should be of the highest quality, moral and technical.

This must be borne in mind as the Government in Kenya develops along more responsible lines. Already the suggestion has been made that there should be a unified Local Government Service throughout the Colony. Without any reflection upon the men now employed by Local Authorities, one can say that the present conditions of service and the prospects of promotion are not likely to attract the men and women of the high calibre and ability essential, particularly during the period of transition. It is not likely to attract the men and women of the high calibre and ability essential, particularly during the period of transition. **Rebuilding The House Of Commons**

The Labour Minister, Mr. Morrison, was asked in the House of Commons on February 9, 1943, whether the Government would make any attempt to reorganise the House of Commons to meet the needs of the new House of Commons.

Mr. Morrison replied that the Government was not at present considering any such proposal. He stated that the House of Commons was a body of men and women who were elected to represent the people, and that it was not the business of the Government to interfere with the freedom of the electors.

The Northern Ireland area conference of the British Legion has been held by a large majority of the delegates. The conference was held at the Hotel Victoria, Belfast, on February 8 and 9, 1943.

The conference was attended by 150 delegates from all parts of Northern Ireland. The conference was held in the presence of the Lord Mayor of Belfast, Mr. J. M. Stewart, and the Mayor of Belfast, Mr. J. M. Stewart.

On May 10, 1943, the Chamber of the House of Commons had destroyed by fire. The fire was caused by a bomb which fell on the building. The fire was caused by a bomb which fell on the building. The fire was caused by a bomb which fell on the building.

How Three Victoria Crosses
Were Won
(Continued from page 3)

The "Three-Card Trick" Has Fatal Sequel
A general over-look which culminated in the death of a soldier on the 14th of February, 1942, in the Singapore Campaign at Nohol, is the subject of a story which is being continued to appear in serial form in this paper.

Inspiring Bravery
Although badly wounded in the attack, he was seen to be holding his wounds and fighting on until he had been killed by a burst from machine-guns which cut the chest and neck.

His "Superman" Bravery
Sergeant Richard Hill of the 10th Battalion, Royal Indian Army, who on November 22, 1941, at Sant Maru, Malaya, distinguished himself by his actions on a strictly laid Japanese battle position.

The story then carried up to the Japanese line, marching on, and then in the face of the enemy. Impressed by his example the soldier was killed by a burst from machine-guns which cut the chest and neck.

**WATCH BELOW**

When the Zambesi Bridge was opened in 1903 a number of eminent scientists were invited to inspect the triumph of engineering skill. One of the visitors wanted to prove for himself that the new bridge really was well over 300 feet above the river.

He climbed a nearby published rock outcrop and pulled down the chain of the bridge, he dropped his watch down towards the rushing water below, and gravely contemplated his pebble. The watch was found, and he was satisfied that his experiment had failed.

We would not draw this painful incident up again, except to prove that even the scientist is not infallible. Yes, he can, with the aid of a laboratory, analyse artificial flavourings and chemical dyes, produce a fluid which is bodily labelled lime juice. But, try as he will, your scientist cannot reproduce the natural three-quartering tang of the juice of the ripe fresh lime.

Rose's Lime Juice owes nothing to the laboratory. Rose's grew their own limes in their own groves, and squeeze out the juice on the spot. That's why Rose's makes very distinct, sharp, definite and clean of each excellence that they must be tipped to be believed.
