YOU ARE INVITED TO START A BOUTIQUE

By Hazel Meyrick

It is just a trend which has taken the fashion world by storm. There are no more "fashions" as such, but rather a "style" which is constantly changing. You may have heard of the "look" which is so popular at present, but you may not have heard of the "boutique" which is the result of this style.

The boutique is a small shop which sells only one or two styles of clothing. It is a place where you can find the latest in fashion, and where you can buy your clothes at a price which is much lower than in a large department store.

VICTORY CERTAIN FOR DR MALAN

Heavy inroads into United Party 'strongholds'

VICTORY for Dr Daniel Malan's United Party in the forthcoming general election and the consequent fall of the Government of the United Party is now a foregone conclusion, according to the views of leading opinion-makers in the United Party.

The pattern of the results had become clear when only 25 of the 128 seats had been declared. By this time the Government had secured 10 seats, the United Party 15, the African People's Party 10, and the African National Congress 10.

These figures were far from the 15 seats and other close opposition to Dr Malan is usually considered, and with 250 points in 34 constituencies.

The East African Standard, which carries a special edition containing the election results, has been published by the National Standard Press.

Ever listen to the real tractor tire experts?

Best way to get the truth about any product is to ask those who use it, day in and day out.

When it comes to tractor tires, farmers know best about what those tires will do... because farmers know from experience which tires give greater traction, clean better, last longer.

They are the experts that claim don't fool the farmers who have tried and makes of tractor tires in years of field working experience in the field.

They say Goodyear's Super-Sure-Grips pull where other tires won't. They say Goodyears last longer.

They say it in surveys year after year... vote Goodyear's Super-Sure-Grips their First Choice tractor tires. And there is no close second in this preference vote!

HOW THE HOMECRAFT SCHOOL IS HELPING AFRICAN WOMEN

By LARRY CLAY

For the first time in the history of the world, a large number of African women are learning to make their own clothes. This is the result of a new type of school, the homecraft school, which is being set up in many parts of Africa.

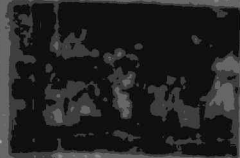

The homecraft school is a place where women can learn to make their own clothes. They learn to sew, to make hats, to make shoes, and to make many other things. This is a very important thing for them to learn, because it gives them a way to make their own money.

The homecraft school is also a place where women can learn to read and write. This is another very important thing for them to learn, because it gives them a way to get more information and to be able to communicate with other people.

The homecraft school is a place where women can learn to be better mothers. They learn how to take care of their children, how to make their homes more comfortable, and how to be better wives. This is a very important thing for them to learn, because it gives them a way to make their lives better.

For example, if you are having a formal dinner, you should choose a menu that is elegant and sophisticated. If you are having a casual party, you should choose a menu that is simple and easy to eat. In addition, you should consider the needs of your guests when it comes to the seating and the atmosphere. You should choose a location that is comfortable and convenient, and you should create an atmosphere that is relaxing and enjoyable. Finally, you should consider the needs of your guests when it comes to the entertainment. You should choose activities that are fun and interesting, and that are suitable for the occasion.

Continued from page 1. The first step in the process is to determine the needs of your guests. This is a crucial step, as it will determine the rest of the party. Once you have determined the needs of your guests, you can then begin to plan the party. This includes choosing the location, the menu, the seating, and the entertainment. Dogs And Mad Englishmen

BEATRICE JULY reflects on what, in an Australian, she feels is the curiously unimportant attitude of English people towards dogs, cats, etc., for their method.

JUST recently I happened to read a letter published in the "Illustrated London News" in which a woman writes to the editor saying that she has a dog named "Coo" I have the impression that "Coo" is a very common name for dogs in England...

It Was Easter In The Czar's Day

By I. HALCRO FRODO

It was Easter in the Czar's day, and the people were celebrating the festival of the Resurrection. The streets were filled with children carrying baskets of eggs, and the air was filled with the sound of church bells. The Czar and his family were in the palace, and the Czarina was wearing a beautiful Easter dress. The children were playing in the park, and the soldiers were marching in the square. It was a day of joy and happiness for all the people of the Czar's day.

LIFE IN SHANGHAI

Life in Shanghai is a mixture of the old and the new. The city is a blend of Chinese and Western culture. The streets are filled with people, and the air is filled with the sound of traffic. The buildings are a mix of traditional Chinese architecture and modern Western skyscrapers. The people are a mix of Chinese and foreigners. It is a city of contrasts, and it is a city that is always changing.

ODDLY ENOUGH

Of the many strange and unusual things that have happened in the world, one of the most curious is the case of the man who was born with a tail. This man, who is now a well-known actor, has a tail that is as long as his arm. He has had to learn to live with it, and he has even used it in his performances. It is a truly remarkable story.

Another strange case is that of the man who was born with a head that was too large for his body. This man, who is now a well-known actor, has a head that is as large as a watermelon. He has had to learn to live with it, and he has even used it in his performances. It is a truly remarkable story.

United front of all races to overthrow Mau Mau

CALL BY SIR EBEO PIRIBHAI

DECLARING that in times of the gravest challenge to the orderly existence of a country it was natural and logical that all classes and shades of opinion should articulate their private views and ambitions in the national interest, Sir Eboo Piribhai, Westcott Member of Kenya Legislative Council,

urged a united front of all people of good will as an essential prerequisite to the overthrow of Mau Mau law and the restoration of the State of Emergency.

"The present is not the time to represent the credentials of the Government," he asserted. "The Government has not been able to bring racial groups together, and it is not fair to blame the Mau Mau for what the Government has done."

The Government, Sir Eboo said, had not been able to bring racial groups together, and it is not fair to blame the Mau Mau for what the Government has done. The Government has not been able to bring racial groups together, and it is not fair to blame the Mau Mau for what the Government has done.

Not by bullets

Underlining the recent statement by Major General Robert Hilder, Director of Operations, that Mau Mau would be put down by bullets, Sir Eboo said that the Mau Mau would not be put down by bullets. He said that the Mau Mau would not be put down by bullets.

"I would describe my African friends as those who are not afraid to show themselves in common parlance. But in the meantime, they will show their strength."

Distortions

Sir Eboo said that the Government had distorted the facts of the Mau Mau. He said that the Government had distorted the facts of the Mau Mau.

"The world looks at the Mau Mau and sees a race war. But it is not a race war. It is a struggle for freedom. It is a struggle for freedom."

UNDER TEN COATS

AGHEY - HAIRD, 47-year-old Milan picture restorer claims to have discovered large parts of a mural of the Last Supper, often re-coined by later hands, to reveal that it was the work of the great master Leonardo da Vinci. He is Mauro Padoletti, known in Italian art circles as the "Wizard of Milan" because of his skill in restoring the Old Masters.

Mr. Aghey-Haird, who has been working on the mural for several months, claims to have discovered large parts of the original work, which he says were hidden under ten coats of paint. He says that he has found the original work in several places, and that he has been able to remove the later work without damaging the original.

A QUEEN DESCRIBES HER CORONATION

Extracts from Queen Victoria's Diary of her Coronation Day, selected and presented by JOHN GALE, by permission from The Letters of Queen Victoria, published by John Murray.

ORDINARY life in a palace may sometimes wonder what it is like to be the central figure at a great moment of history...

On the day, Thursday, June 28, 1838, she wrote in her Journal: "I was awake at four o'clock by the peal of the bells...

"At last I got into the Coach" with the Duchess of Rutland and began to move and we went at five and the great noise reverberated all over the streets...

"I reached the Abbey amid deafening cheers at a little after half past eleven."
