## ASSIZE COURTS TO SPEED UP JUSTICE

### 13 OF A GANG OF 20 KILLED

#### First will be set up in Central Province

**SEVEN HUNDRED** members of the Kikuyu Council from North Thika location were taking police and military units to a meeting operation which resulted in the death of 13 men and 20 women. The operation was being led by the late Chief of the area, Mr. Murguza. The bodies were buried yesterday.

PROVISION for the setting-up of Emergency Assize in Kenya is included in a bill to accelerate justice for new Emergency Assize published today. This measure is in accordance with a statement made by the Colonial Secretary, Mr. Oliver Frisville, during his recent visit to Kenya that there would be a speeding-up of justice for alleged Mau Mau criminals.

The order comes into effect from Monday and will cover the first instance of all cases with the exception of those involving the Government. The Central Province has been the first to be designated as an Emergency Zone for the purpose of the new legislation which will apply to all areas under Emergency rule.

**More judges**  
Additional judges will be appointed to the assize courts in the Central Province and the Western Kenya. The assize courts will be set up in the various districts of the Province. It is hoped to see the assize courts in operation by the end of the year.

The new assize courts will be set up in the various districts of the Province. It is hoped to see the assize courts in operation by the end of the year. The assize courts will be set up in the various districts of the Province.

**Safeguards**  
The statements given on the Bill to accelerate justice for new Emergency Assize published today provide for several safeguards.

GAY-LORD AUTOMOTIVE DIVISION Gaylord-Shepton Inc. GEAYLORD OFFERS 1954 RANGE OF CARS IN LONDON. November 20, 1952.

Mr. R. V. Hudson, Technical Sales Representative... The Rover Company, Ltd., Derbyshire House, Faculty London W. 1, England.

Dear Mr. Hudson, I have at last received delivery of my new Rover 7 Sedan, Serial No. 243222B, Motor No. 24390321. Let me say at the outset, that after driving it only 400 miles, I am firmly convinced that having nothing else to offer.

The one thing that impressed me about the appearance of the Rover is that it has body of a certain air of originality. It almost seems to me that it is built to contain a lot of originality. In almost every respect, from the bumpers to the top of the windscreen, you feel that you are looking at something that is new and different.

The car is built to the point of being extra and it gives you a new confidence in the silence and safety of the entire vehicle driven on any road or in any weather. The up and down motion or the bumps of the road are virtually nil. There is a total absence of creak and as one proceeds the rear, cushions, etc., disappear under the wheels, it gives a feeling of ease and comfort. The car is built to last and it is built to last.

Of course, the Rover is a car. It is a car that is built to last and it is built to last. It is a car that is built to last and it is built to last. It is a car that is built to last and it is built to last.

Very sincerely, James K. Davidson, Managing Director of Engineering, M. S. S. S.

MUCH has been said about the new Austin Seven. But as yet we have not been able to give a practical report on its performance in East Africa. Tests have been made over some of our worst roads, and the results are highly satisfactory. Opinion has it that the small car cannot 'take' safaris. Opinion is wrong as far as concerns the new Seven. We've proved that the Seven is as business-like as it looks, as comfortable as many larger cars and has a petrol consumption

of 40 m.p.g. plus. Steady cruising speed is 30 miles per hour. Have no fears about the A30's suspension. It is adequate to produce a riding quality equal to larger models of the Austin car range and tough enough to withstand a really bad road. Engine performance from the 30 b.h.p. overhead valve engine is amazingly eager. And who would expect comfort for four passengers with four doors in this roomy little foam rubber cushioned baby car! That's why we say...

THE Queen's Coronation dress—simple in style, laconic in design—was made by only three girls. She gets did the jewelled embroidery.

last October, Heston was asked to submit designs. The dress, said the Palace, must be both neat and robust. It must have an elegant—

By Ouida MacLellan HOW very nice to see "I you," said "I've been with the restrained woman standing next to me. They also gave me a smile—and a nod too. At the same time Queen Elizabeth, the Queen Mother, was smiling broadly with a very faint little old lady planning opposite and when later I noticed her eyes a few minutes earlier the Queen had spoken to a clergyman in his black frock and white surplice.

DO WOMEN MAKE GOOD EXECUTIVES?

Employed women would have no problems of business management and recognition if all employers were like Milton S. Stevens, president of the Healthier Republic Corporation of Huntington Park, California. Stevens, who owns one of the largest water-bearer manufacturing businesses in the United States, employs an all-woman management team to oversee the manufacture, distribution, financing and maintenance of the organization. His firm is the only one of its kind that has such an executive set-up.

To nourish and preserve

HORMONES, vitamins and other scientific ideas are being borrowed by the beauticians for hair and sometimes seasonal cosmetics. Because some people don't like the idea of being treated with "artificial" hormones, it's possible to buy most of the preparations to choose from without resorting to the "artificial" ones.

Barfooted

By the look of the feet of the girls were the African and Barbicoo, a little Prince from Swaziland, who was wearing a pair of white, yellow and black barfooted shoes. The Queen wore pink—practical little shoes with a small shoo-colored bow; the Queen Mother wore a silver fringe and was topped to the top with the elegant Duchess of Kent was in a heavy white hat with a large white veil.

Women can handle anything better than men because they are more tolerant, more tactful and less competitive than men, he says. Speaking recently of what he calls his "petious ladies," Stevens said, "They certainly made a big success of me."

HEAD of the service division for traffic manager for the U.S. Navy, Mr. Stevens told her work "more interesting and more important" than his. He has a daughter, 11, in her own time, and she has a son, 10, in his own time. He has a son, 10, in his own time, and she has a son, 10, in his own time.

Two new ideas are being produced a finer skin surface, and a substituting of the printing a special frosted base which goes on first—over and under the top of the nail, and then a "barber" applied in the same way, but over two coats.

Wickwacker hat has been in town. It is a crown hat, one crowned with a wide band of soft, light-colored material. The crown is particularly noticeable, a little-over-16 inch crown. Wickwacker hats have been worn by the British in London and are worn with a wide band, but have not met the public's taste. They are made in a material that is not as good as the material that is used in the hat.

# 80,000 IS STILL NEEDED

From the article in the "New York Times" of August 12, 1945, by Mrs. Meadows, Secretary of the Kenya European Hospital Association.

I MUST stress that if we are to succeed in making these hospitals in Nairobi for most support they will do so as a result of the sympathy of those who appreciate the position in which we stand as a result of the war.

To be run as a charitable institution and surplus from the hospital to be used for the benefit of the hospital.

### Capital funds

The capital funds to provide the hospital have been raised from voluntary donations and from the Government.

### How it works

It works like this: The benefit is personal to the Member only, but the wife or family.

### No connection

But the Fund has no connection whatever with the Kenya European Hospital Association, which derives no financial benefit from it in any way.

### Employers

Employers can take out a membership for all European employees at the rate of £10 per year, and this expense may be deducted for income tax purposes.

### Memberships

Memberships are available to residents of Kenya, persons living outside Kenya who are entitled to join the Association.

### Memberships

Memberships are available to residents of Kenya, persons living outside Kenya who are entitled to join the Association.

Highway centre-tread for fine weather, good roads.

Every farmer or truck-operator knows the costly hours wasted by tyres clogging up on muddy roads. Firestone Dual Purpose tyres get on with the job, in all weathers, on all roads. On highways the conventional tread means smooth, comfortable riding—on muddy tracks the self-cleaning traction bars come into operation.

**GOOD on cars... and GREAT on TRUCKS**

Car-owners who have to do much travelling over muddy roads will find that Firestone Dual Purpose tyres give easier, surer motoring. On trucks, of course, these tyres are a time-saving "must".

## A most intriguing local sports car THE SINGER-BANKS SPECIAL

By the Sports Editor

The increasing popularity of motor sport in Kenya and the, until recently, rural Longa Langa meetings have given rise to much burning of midnight oil and the exercise of considerable ingenuity in the production of "Specials" capable of sustained high speed and reliability.

For the one without the money, adapted from Singer 1,500 parts. Parts are refined and polished, and carefully mated with the main body. The inlet is replaced with copper tubing with a large 3/16 inch diameter pipe and 1 1/2" carburetors. The four-cylinder 'S' engine is made up of S-Bank's own, having carefully made both inlet and exhaust air flow. Piston and valve trouble has been eliminated by the simple means of eliminating the side, and the cylinder in the S-Bank's own design.

ON some points has been done. The engine has 15 g.p.m. pressure being a shade 60 in the cylinder and 18-20 m.p.h. on top of 4.3-4.1.

### Individualistic

From the first time that the Singer-Banks Special took two hours to complete the spare-time laborer of how in the enthusiasm of the operation of some have known a fire and burners have a special part.

And the result is a highly individual vehicle of great power which, incidentally, the "Singer" engine which produces as well as the Singer's own design and in other special parts.

## £600 to help Masaka make sports ground

FOR seven years Masaka has been trying to turn an unpromising piece of sloping land near the centre of the township into a sports ground. Their endeavour has at last been rewarded.

The Government has agreed to grant the Masaka people £600 to help them to build a sports ground. The Governor expressed sympathy for the enthusiasm and initiative shown by the Masaka people. He is pleased to see the progress they have made in building the sports ground.

## Masai-Wakamba incidents on 30-mile front

Incidents near Samburu, but of a wholesale brawl between the Masai and Wakamba which hung over a 30-mile front between the Kikuyu River during the past month was only averted by the courageous work of a handful of European and African administrative officers. For several days, the two tribes were engaged in a series of small border skirmishes. For weeks, they held back the police armoured vehicles which they used to attack each other with clubs, spears, bows and arrows. For several days, they were engaged in a series of small border skirmishes. For weeks, they held back the police armoured vehicles which they used to attack each other with clubs, spears, bows and arrows.

All these incidents have been reported by the Masai and Wakamba to the District Commissioner in Nairobi. The Masai, who live in the area of the Kikuyu River, have been reported to have been engaged in a series of small border skirmishes. For weeks, they held back the police armoured vehicles which they used to attack each other with clubs, spears, bows and arrows.

### Like wildfire

News of the chief's death spread like wildfire among the Masai and Wakamba. The District Commissioner, Mr. J. P. Smith, was informed of the death of the chief and he immediately sent a team of police officers to the area to investigate. The Masai and Wakamba were engaged in a series of small border skirmishes. For weeks, they held back the police armoured vehicles which they used to attack each other with clubs, spears, bows and arrows.

**TRANS NZOIA VIEWS ON 'AFRICAN WAGES' 'Quid pro quo' for any rise**

LOCAL GOVERNMENT bodies and others in the Trans-Nzoia have been discussing at length the memorandum which is to be submitted to the Government Wages Committee. A suggestion that the findings of the Committee should carry greater weight and be more readily accepted if it sat under an independent chairman, particularly with judicial experience, has been made by a former committee of Trans-Nzoia District Council, Trans-Nzoia Production Committee, the local branch of the Kenya National Farmers' Union and Trans-Nzoia Association.

This committee was set up in 1954 to advise the local government on the wages of its employees. It has since then held numerous public hearings on the subject. It has also held public hearings on the subject of the regulation of wages of employees of local government bodies and of other bodies. It has also held public hearings on the subject of the regulation of wages of employees of other bodies.

The committee has been particularly active in the area of public housing. It has held numerous public hearings on the subject of the wages of employees of public housing authorities. It has also held public hearings on the subject of the wages of employees of other bodies.

**APPRECIATION: Major Herman Eckstein**

THE passing of Herman Eckstein on May 10 in South Africa is a sad event. He was a well-known figure in the community and a devoted citizen. He was born in 1885 in the province of Natal and spent most of his life in South Africa. He was a member of the Trans-Nzoia Association and the Trans-Nzoia Production Committee. He was also a member of the local branch of the Kenya National Farmers' Union. He was a well-known figure in the community and a devoted citizen.

It is the general opinion of the Trans-Nzoia Agricultural Association that the employer should be held responsible for the wages of his employees. The association has been particularly active in the area of public housing. It has held numerous public hearings on the subject of the wages of employees of public housing authorities. It has also held public hearings on the subject of the wages of employees of other bodies.

# COLLEGE FOR CENTRAL AFRICA RECOMMENDED

## Inter-racial in character

The immediate foundation of a university college as a first step towards a full university in Central Africa is recommended by the report of the Commission on Higher Education for Africa in Central Africa, published by the Central African Council. The report recommends that the college should be inter-racial in character and should be located in a central area.

## Salisbury site

The Commission has recommended that the site for the college should be at Salisbury. The site is well-located and has good facilities. The Commission also recommended that the college should be inter-racial in character.

## Reservation

The Commission has recommended that there should be a reservation of places for Africans in the college. This is to ensure that Africans have access to higher education. The Commission also recommended that the college should be inter-racial in character.

## World farming conference may be held in Kenya

A world farming conference may be held in Kenya. The conference would bring together farmers from all over the world to discuss farming techniques and share their experiences. The conference would be a valuable opportunity for farmers to learn from each other.

# "CAN'T BEAT IT FOR TRACTION"

How can any farmer be sure that the tractor tires he buys will give him traction when he needs it most? More and more farmers are finding the fact simple for them: You after you for more farmers prefer GoodYear's farm-proved Super-Sure-Grip to any other make. There is no close second.

The overwhelming preference stems from the fact that Super-Sure-Grip pull where others don't.

Reasons why GoodYear give "the greatest pull on earth"

Flotation tread. GoodYear legs are rubber-straips and come close together as the wheels move, providing the deep-proved, wedge-like ribs that hold the soil in place and give the tire better traction-give tractors more pulling power.

Close-together tread. GoodYear's tread is so close together that it provides the most efficient of all tread tread designs when combined with steeply legs!

Even wear. GoodYear straight legs work against the soil evenly, pull evenly, wear more evenly, lengthen the life and make the tire dollars go further.

# GANDA CORONATION PICTURES

This Week's Page Seventeen Brings A Selection Of

TODAY'S picture page presents just a few of a large collection of pictures which it is hoped will put East Africa on the map in Scandinavia and America. They were taken by Mr. Ole Nyman of Scandinavian Airlines System, at Entebbe on the occasion of the coronation on Lake Victoria which formed part of Uganda's Coronation celebrations.

Mr. Nyman and his wife, Anna, who came to Kenya earlier in the year, are also organizers on behalf of S.A.S., of a campaign to bring more and more tourists from Scandinavia to East Africa. They themselves learnt a lot about Africa before they ever saw it from Mrs. Nyman's father, the late Count Rolf von Rosen, who walked from Cape Town to Alexandria in 1911/12.

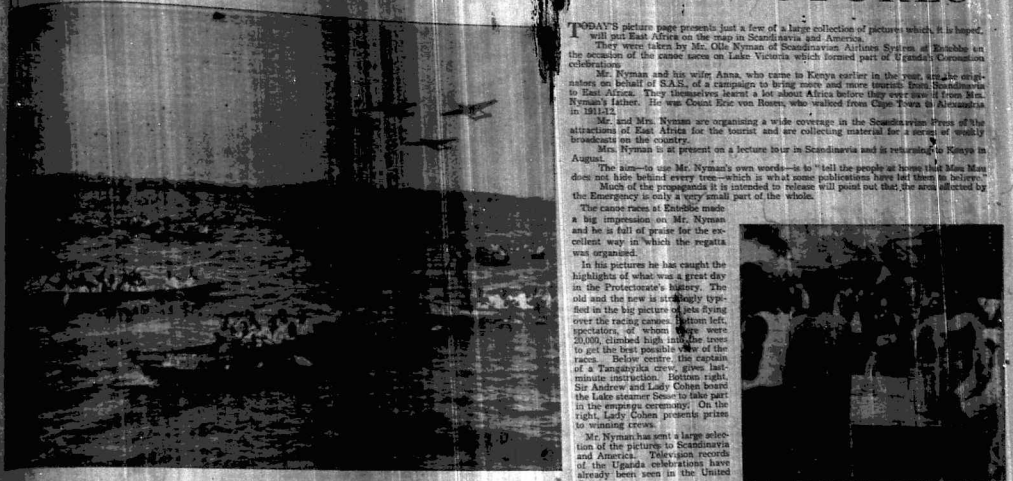

Mr. and Mrs. Nyman are organizing a wide coverage in the Scandinavian Press of the attractions of East Africa for the tourist and are collecting material for a series of weekly broadcasts on the country.

Mrs. Nyman is at present on a lecture tour in Scandinavia and is returning to Kenya in August. The aim—to use Mr. Nyman's own words—is to "tell the people at home that Miss Maud does not hide behind every tree—which is what some publicists have led them to believe."

Much of the propaganda it is intended to release will point out that the areas affected by the Emergency is only a very small part of the whole. The canoe races at Entebbe made a big impression on Mr. Nyman and he is full of praise for the excellent way in which the regatta was organized.

In his pictures he has caught the highlights of what was a great day in the Protectorate's history. The old and the new is strongly typified in the big picture of the five flying over the racing canoes. Bottom left, spectators, of whom there were 20,000, climbed high into the trees to get the best possible view of the races. Below enter the captain of a Tanganyika crew, gives last-minute instructions. Bottom right, Sir Andrew and Lady Cohen board the Lake steamer Dewar to take part in the emergency ceremony. On the right, Lady Cohen presents prizes to the winning crews.

Mr. Nyman has sent a large selection of the pictures to Scandinavia and America. Television records of the Uganda celebrations have already been seen in the United States.

Does this feed contain COD LIVER OIL?

What I want to know—before placing my case mixed feeds do not contain any pure Oil at all. And that's not food for me.

Now, Oil provides a highly nutritious concentrated fat, as well as Vitamins. It makes out the oil you know that food value. All the same results I have to increase the fat—and pay for it too!

So, the less oil there is the bigger the dose, the less oil there is the bigger the dose, the less oil there is the bigger the dose, the less oil there is the bigger the dose.

When baby's skin is red and itchy, it is a sign of eczema. This is a common skin condition in babies. It is caused by an allergic reaction to some of the things that come in contact with the baby's skin. It is usually treated with a barrier cream. This cream forms a protective film over the skin, preventing the irritants from coming in contact with it. It is usually applied to the skin after each bath. Speed & Comfort

To improve the standing of our own drama, the competition now the aim of the British Drama Festival, which has been held at the National Theatre, this has been the first time since the July 12 and 14 Kenya's first Drama Festival will be held. Shortly after last year's East African tour, the British Drama Festival was held in Kenya.

### FIRST DRAMA FESTIVAL

Kenya took the initiative in the drama festival, which was held under the patronage of the Festival Committee, which was set up on arrangements for a Festival in the style of other drama festivals, largely owing to the emergence of the Festival Committee which was a modest formation in an annual event which will eventually embrace all of East Africa.

Notes have been received from the Nairobi Amateur Dramatic Society and the Nairobi Players of Nairobi, Mombasa Little Theatre Club, Molo-Turi Amateur Dramatic Society, Perambula Drama from Kisumu, and the Nairobi Drama Society. The latter would have entered if their plans had not been on parity with those of the Nairobi Drama Society.

Mr. Peter Atkinson of the British Council, the Hon. Secretary of the Festival Committee, explained that the idea of the Kenya Drama Festival had been based on those of the British Drama League whose English Festival recently attracted 900 entries.

Each Society presents in Africa a unique background, customs, which will be presented in the stage. One of the aims of the festival is to provide an opportunity for the exchange of ideas, ideas to be entered, but the exercise must be complete in themselves. No more than two hours rehearsal is allowed each competition.

THE HUNTING TRADITION OF SOTIK. By Rosabel Walker

THE night sky is fading. Behind the great roofs of the Club stables a bar of flame and orange, paling to turquoise-green and lemon, heralds a dawn still well below the horizon.

Up the road above the lights of the car. The zebra down, still with the promise of a hot day to follow, is filled with a tense, agitated tremor to the white and whinny of routine horses.

Back to 1911 It is a peculiarity of the entire East African that the habits of the adoption into every way of modern life of the native are slow.

The hunting tradition of Sotik, which lives on in the memory of the old hunters, is a tradition of a people who have been hunting for centuries.

The Hunt across the Kipsoni River

New Club

AT the beginning of the Hunt last year the Sultan removed Mr. Mary Morris, his former secretary, from the post of secretary of the Club.

The new club secretary, Mr. C. R. O. Walker, M.P., was asked to have been born in June 1906, when a fleet of foot-hunters followed by a large number of hunters.

## Lax employers aid fugitives in Nyeri action

EMPLOYERS who fail to notify engagements and discontinue the services of their employees raising such concerns are likely to be liable for the cost of the police. Despite several appeals in the last few months some 7,000 defaulters, occupying each room, have been traced and 20 per cent of the cost of the Police Department has been recovered in tracing 2,000 of these, but 4,000 are still at large.

Although the Police Department has been successful in tracing 2,000 of these, but 4,000 are still at large. The Police Department has been successful in tracing 2,000 of these, but 4,000 are still at large.

Officials misled

Some employers fail to inform the Labour Department of information, while the others who do not search for wanted men. For instance a man who could be a valuable asset in a particular industry, but who is wanted by the police, is not reported to the Labour Department. This is a serious matter as the Government has been misled by the employers.

### Increase in hotel charges recommended

**MEMBERS** of National European Chamber of Commerce and Industry have recommended that hotel charges in Nairobi should be de-controlled.

Hotel managerial representatives also stress an increase in charges is necessary to cover the cost of the fuel and other overheads.

During their deliberations, the representatives had held numerous meetings and had also held a public hearing on the subject. It was found that the hotel industry was suffering from a shortage of food and other essential commodities. The hotel industry was also suffering from a shortage of staff and other essential services.

# IT'S QUICKER BY AIR

British farmers, business and family men use light planes

"HEECHOPPING" is daily routine for Mr. J. W. Tomkins, a progressive farmer in Bedford, England's smallest county. He is one of a growing group of air-minded people in Britain regularly using aircraft in the course of their daily work. In his Miles Messenger, Mr. Tomkins is able to visit all the main points on his chain of farms which cover 8,000 acres in the "granary of England."

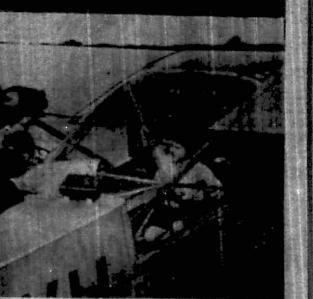

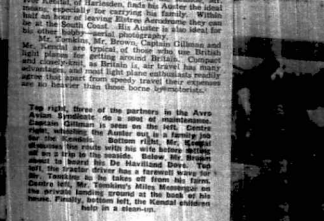

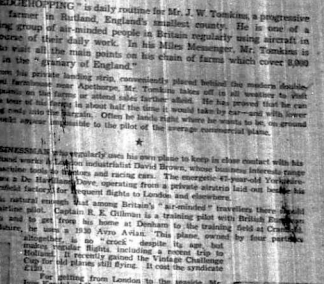

From his private landing strip, conveniently placed behind the modern, six-acre farmhouse near Abchurch, Mr. Tomkins takes off in all weather to visit other farms in the zone or distant sales districts. He has proved that the car can make a tour of his property in about half the time it would take by car—with liver running and into the bargain. Often he lands first where he wants to be, on ground that would appear impossible to the pilot of the average commercial plane.

A BUSINESSMAN who regularly uses his own plane is kept in close contact with his Midlands works in the industrial district of Dover. Where business interests range from machine tools to bicycles and racing cars. The energetic 42-year-old Yorkshireman runs a De Havilland Dove, operating from a private airstrip laid out beside his Healdersdale factory for frequent flights to London and elsewhere.

It is natural enough that among Britain's "air-minded" travelers there should be an air-line pilot. Captain R. K. Clifton is a training pilot with British Overseas Airways and is at present in charge at Oshawa in the training field at Cranfield, Bedfordshire. He flies a 1928 Avro Avia. This plane, owned by the Clifton family, is a "one" despite its age but still flies well.

The landing from London to this station, Mr. Clifton says, is a matter of half an hour at most. It is especially useful for the family. Within half an hour of leaving Epping Aerodrome they can be at the South Coast. This plane is also ideal for his other hobby—sports photography. Mr. Clifton is typical of those who use light planes for getting across the country and coast-to-coast, as Britain is, air travel has many advantages and light planes are well adapted to them. This point from speeds travel their response is no better than those home operators.

The right three of the partners in the Avro Avia. In the middle is the pilot, Mr. Clifton. On the left is the co-pilot, Mr. Brown. On the right is the mechanic, Mr. Tomkins. The plane is a 1928 Avro Avia. This plane, owned by the Clifton family, is a "one" despite its age but still flies well.

# THE BIBLE IN MERU

In connection with the forthcoming Bible Week from June 28 to July 5, THE REV. A. J. HOPKINS has written this article. He was for 30 years a missionary among the Wameru and only retired to England three years ago.

**Rare character**

PHILIP INQUI was one of a small race character of tall and colour regularly built, and he would have been a good one in any country, the fact that he was an African dignitary. He was a man of high character, who by the courtesy of his own race and the interest of his most of his tremendous physique, considered not only the most striking of a new civilization but also a person of a new type.

**African helper**

If the most capable of the present generation of the African race was a member of our race, it would be Philip. # STRATEGY OF C-in-C AGAINST MAU MAU

## Three striking forces to adopt active role

**SIR GEORGE GISHEN**, Commander-in-Chief of the Colony, today announced his strategy for the military operations against the Mau Mau in Kenya. He said that the three striking forces, which will work in conjunction with the police and civil administration, are:

1. An infantry force of large strength, equipped with heavy arms, to be composed of the best troops available. This force will be used to strike the Mau Mau in the interior of the Colony, and to clear the country of the Mau Mau. It will be supported by the Royal Air Force, and the Royal Navy, which will be used to transport supplies and to evacuate the wounded.

2. A force of light infantry, equipped with light arms, to be composed of the best troops available. This force will be used to strike the Mau Mau in the interior of the Colony, and to clear the country of the Mau Mau. It will be supported by the Royal Air Force, and the Royal Navy, which will be used to transport supplies and to evacuate the wounded.
