## TROOPS FIRE ON RIOTERS IN CASABLANCA—25 DEAD

**Declined to serve on Commission**  
 A 1,000-strong mob tries to storm police station

At least 25 Moroccan rioters were killed yesterday when troops opened fire against a crowd estimated at 2,000 who tried to storm a police station in Casablanca. The riot occurred in the predominantly Arab neighbourhood of the district where two police stations were killed in clashes on Sunday night. One policeman was also known to have died on Sunday.

Two French tanks were used in the reaction yesterday and night to restore order. Police and military were patrolling the streets in force on the lookout for the armed mob since the rioting demonstration.

Sunday's riots occurred when about 5,000 Moroccans staged a surprise anti-European demonstration at Casablanca. Friday's riot followed the demonstration and the killing of the murder of a French national leader and trade unionist.

A police report said that the rioters were armed with knives, razors, and stones. The rioters were reported to have been armed with razors, knives, and stones. The rioters were reported to have been armed with razors, knives, and stones.

# ARMY MECHANICS PART IN THE EMERGENCY

Start Sherman Corp supervisor, an instructor of the Command

The Command Workshops were recently visited by Lt-General Sir Alexander M. Cameron, G.O.C. E.A. The Command Workshops have been playing since the Emergency was declared.

The first impact was felt when the order came that every vehicle and every piece of equipment held by the Army should be immediately brought into the workshop for service.

From then on the workshop staff, under Major D. Jardine, has never ceased to work. The staff have worked in shifts, day and night, and often through the night. Not only that, but they have worked in the most difficult conditions, and their complete cooperation and devotion have brought them through the most trying times.

The workshop staff has been working in the most difficult conditions, and their complete cooperation and devotion have brought them through the most trying times.

Developing the Estate

When the war was over, it was a sharp rise in property prices. It was particularly in speculation as well as in the urgent need for housing. It was clear that the Government would not be able to do the job as well as the private sector. The Government had to take over the housing problem. The Government had to take over the housing problem. The Government had to take over the housing problem.

## ACTRESS DENIES DRIVING CHARGE

BEFORE a Resident Nairobi Magistrate, Miss Ana Glyn Barton, a member of the Donnan's Maile Flarens, pleaded not guilty to a charge of driving her sports car in a manner dangerous to the public.

It was alleged that she drove out of Standard Street and made a semi-circular turn across the face of oncoming traffic to enter Eliot Street, Nairobi.

Three members of the Nairobi Police Prosecutions Branch were in a car which was alleged to have braked heavily in order to prevent a collision as Miss Barton turned into Eliot Street.

During an adjournment of the hearing one of the policemen, Inspector H. H. Mainprize, the Traffic Court Prosecutor, drew the magistrate, Colonel M. E. Fell, Miss Barton and her advocate, Mr. J. Gledhill, through the streets of Nairobi to illustrate his contention that the sports car has phenomenal acceleration.

Claiming the usual "double jeopardy" defence, the defendant's counsel, Mr. Gledhill, contended that the defendant was not liable for the same offence if she had been found guilty of it once before. He also contended that the defendant was not liable for the same offence if she had been found guilty of it once before.

## Driving fast

He also contended that the defendant was not liable for the same offence if she had been found guilty of it once before.

# GRIP for byways... and GO for highways

Every farmer or truck-operator knows the costly hours wasted by tyres clogging up on muddy roads. Firestone Dual Purpose tyres get on with the job, in all weathers, on all roads. On highways the conventional tread means smooth, comfortable riding—on muddy tracks the self-cleaning traction bars come into operation.

GOOD on cars . . . and GREAT on TRUCKS

Car-owners, who have to do much travelling over muddy roads will find that Firestone Dual Purpose tyres give easier, surer motoring. Trucks, of course, these tyres are a time-saving "must".

# AUSTRALIA WIN FIRST TEST

## Superb speed bowling by Lindwall

NEEDING 107 runs with eight wickets in hand at Brisbane yesterday, on the final day of the first Test match, South Africa stood a chance of regaining their first Test win over Austral after 42 years. But Australia faced with the threat of defeat and without Keith Miller, one of their key men, played a tempestuous effort and the triumph after 94 runs and two and a half hours of spin.

South Africa was suffering a chronic infection and had lost the Test to Australia in 1911. It was the only Test to be played between the two nations since the first Test.

Superb speed bowling by Lindwall was the key to the fall of the remaining six wickets and he was the outstanding bowler in the morning. He bowled 40 overs, taking 10 wickets for 100 runs, and 250 runs in 270 overs.

After a half-century of the absence from the field, Lindwall bowled 270 overs, taking 10 wickets for 100 runs. He was the outstanding bowler in the morning. He bowled 40 overs, taking 10 wickets for 100 runs, and 250 runs in 270 overs.
