JAPANESE BOMB BRITISH GUNBOAT: NONE HURT

Reports That Chiang Kai-Shek May Resign

FIRED FIRE IN CANTON

A BRITISH GUNBOAT BADLY DAMAGED BY JAPANESE BOMBERS; CANTON'S COMMERCIAL AREA WIPED OUT BY FIRE; THE JAPANESE WITHIN 12 MILES OF HANKOW; FURIOUS OF GENERAL CHIANG KAI-SHEK'S IMPENDING RESIGNATION. THESE ARE THE FEATURES OF YESTERDAY'S NEWS FROM THE FAR EAST.

His emissaries were offered aboard the bombed vessel, which was at Changsha, a treaty port on a tributary of the Yangtze about 200 miles miles south of Hankow, and in reply to strong protests the Japanese Government have announced an investigation of the incident. It is believed that Japanese warplanes were trying to hit Chinese junk crowded with troops.

The reports—which have no confirmation—that General Chiang Kai-shek intended to resign in favour of the deputy president of the Kuomintang, and thus open the way to peace negotiations with Japan, caused a sudden rise in the value of the Chinese dollar at Shanghai yesterday.

Shanghai, Oct. 24.—The British navy's authorities refused the Japanese request to allow a Japanese warship to anchor on the Pearl River at Canton. Japanese aeroplanes visited Hankow yesterday and after vain attempts to land, bombed the railway stations.

A bomber which was announced that six heavy bombers had landed at Hankow. The Japanese claim to have made a considerable advance during the last 24 hours. Messages last night said they were 23 miles from the city. This morning they claim to be within 12 miles, on the north bank of the Yangtze. They are also advancing south of the river and gunboats are moving forward on the river itself. Apparently the six heavy bombers are still in Hankow but all signs of leaving the city have been detected and destroyed.

A refugee news item has been published that it has been reported that the Chinese and Japanese air forces are engaged in a struggle over Canton and that this afternoon the Japs were reported as great.

British, French and American are leading parties are preparing to stop looking in Canton. The Chinese authorities are requested to be co-operating Japanese. It is not thought that the main will enter for some days.

Tokyo Cablegram.—The Japanese Government has announced that it has decided to open the way for peace negotiations with China. It is reported that Mr. Wang recently said that China had always ready to receive proposals that would have been open to Japanese until the present Government in Tokyo had taken up the Japanese proposal to open the way for peace negotiations with China. As regards any change in the Japanese Government, it is reported that the Japanese Government had not decided to resign. It is reported that the Japanese Government had not decided to resign. It is reported that the Japanese Government had not decided to resign.

British Ambassador in China, the Archbishop Clark Kerr, left Hong Kong yesterday on a British steamer.

THE EAST AFRICAN STANDARD
The Eldoret October Race Meeting
SOLWAY WINS THE UASIN
GISHU GUINEAS

(By A Special Correspondent)
The Eldoret Race Meeting which was held on Friday and Saturday last week was attended on both days by His Excellency the Governor and Lady Brooke-Popham and proved to be one of the most successful meetings ever held at Eldoret. The attendance of the public was satisfactory but the going was on the hard side.

The most important race of the meeting was the Uasin Guineas for three-year-olds, run on Friday. The field held all looked to be in the paddock but the favorite, Hinde, was in a difficult position and could not start. Both in the paddock and on the way to the starting post, the favorite, Hinde, refused to take any notice whatever of the proceedings and never looked like starting. The start was made on the way to the straight and it was then that Solway took up the running on the rails and won by a length. Solway had been sent on to Maltahaga and had been in the paddock. Handy had been sent on to Maltahaga and had been in the paddock. The winner was never in serious danger of defeat. It must have been a grave disappointment to Hinde's supporters who were disappointed that the race was so easily won. The race was the so-called classic race of the year.

The Uasin Guineas was won by Solway by a length. The runner-up was Hinde by a length. The third was Hinde by a length. The fourth was Hinde by a length. The fifth was Hinde by a length. The sixth was Hinde by a length. The seventh was Hinde by a length. The eighth was Hinde by a length. The ninth was Hinde by a length. The tenth was Hinde by a length.

JAPANESE ENTER HANKOW WITH OPPOSITION

Forecast Of What Tokyo's Peace Terms Would Be

"SANDPIPER" ENQUIRY

CHINA OFFERED NO RESISTANCE TO THE JAPANESE OCCUPATION OF HANKOW, WHICH TOOK PLACE YESTERDAY AFTERNOON, AFTER ANOTHER RAPID ADVANCE BY THE JAPANESE FORCES. THE CHINESE, HOWEVER, BLEW UP MANY BUILDINGS IN THE CITY, AND THE EXPLOSIONS DAMAGED THE WATER SUPPLY. THE CITY IS WITHOUT WATER, AND HUGE FIRES ARE BLAZING UNCHECKED. ONLY 40,000 OF THE NORMAL POPULATION OF 1,250,000 REMAIN IN HANKOW.

An inspired statement of Japan's future policy, issued by the Dornier Agency, declares that Japan will not negotiate with the present Chinese administration. Her peace terms would include the suppression of all opposition, rat co-operation between China and Japan, and the realisation of an anti-Communist policy.

The whereabouts of General Chiang Kai-shek and his wife are unknown, but a report that he has fled to Indo-China is denied, and it is stated that he is still at the head of national resistance to Japan. All Chinese Government offices have been transferred to Chungking, 300 miles further into the interior.

Hong Kong, Oct. 25. According to the Dornier Agency, Japanese forces have been driven back to the north-west of the city. The advance column entered Hankow this afternoon and the complete occupation is expected to take place by the end of the day.

The advance on Hankow was even more rapid than yesterday's advance, and the city was actually entered from the north-west side.

Japanese Ambassador's Aims

London, October 25. The new Japanese Ambassador in London arrived this morning. He said that it would be his duty to visit the British Government and to give his views on the situation in China. He also said that he would be glad to discuss the Japanese Government's views on the situation in China.

It was officially announced today that the city would be completely within Japanese hands by the end of the day. The Japanese Government has ordered that the city should be completely within Japanese hands by the end of the day.

MUST PASS STAGE OF "ARMED PEACE"

British Foreign Minister Looks Ahead

THE MUNICH AGREEMENT WAS DEFINED BY THE FOREIGN SECRETARY, LORD HALIFAX, IN A SPEECH AT EDINBURGH ON MONDAY NIGHT, WHEN HE SAID THAT THE ONLY TERRITORIES WERE WAR-AND THE DESTRUCTION OF CZECHOSLOVAKIA IN ITS PRESENT FORM—OR SUCH AN AGREEMENT AS THAT WHICH WOULD BE THE CZECHOSLOVAKIAN SACRIFICE SHOULD NOT BE UNDERTAKEN.

For the future, the Foreign Secretary said that Britain was faced with three possibilities—war, armed peace, or a peace of negotiation. To achieve the third he thought it was necessary to pass through the stage of armed peace, and Britain must be able to pass with authority equal to that of other nations.

The real enemy to the growth of confidence between nations was the gospel of fear. Britain was not resigned for all time to using force to meet force, but would work for mutual tolerance and respect among the nations.

London, October 25. In a speech last night at Edinburgh, Lord Halifax, the Foreign Secretary, declared that the British Government would have no objection to the return of the "lost" territories. He said that the British Government would have no objection to the return of the "lost" territories.

ONE ERROR IN 150,000—DOCTOR'S BLOOD TESTS

“ERRANDS” continued. London, October 23. A 25-year-old patient made legal history yesterday when he obtained a Maternity Certificate...

The girl was Miss Marie Lavinia Murray of Newcastle-on-Tyne. Her husband, John Murray, 25, was a member of the Maternity Certificate Committee...

“The lady presented only group ‘M,’ which is the lowest group of blood in the class.” The examination by Mr. Frank Wilford, detecting Dr. Thomas said the chance of an error in such a blood test was 1 in 150,000.

2,000 Mile Cloud On Jupiter

“Starting” is the word which Dr. Lyde Abbott, astronomer, in charge of the 12th, telescope of Greenwich Observatory, New England, applies to phenomena as he has collimated his telescope in the planet.

Very Heavy Rainfall. In Lagos district the rainfall was unusually heavy since in Kereba, Chiburi and the lake shores. Floods are almost complete, the earlier rainfall was much greater and the crop grew promise of being a bumper one.

Cotton crop Prospects

LITTLE MORE THAN AVERAGE

“ERRANDS” continued. London, October 23. The number of bales despatched from the ports up to the week ending the 19th inst. was 20,313 and was only 10 per cent above the 19,200 tons which was the average for the same period of the year.

The Government report gives the estimated acreage in the West Province planted at the end of September as 594,177 against 571,195 in 1934. The rainfall in the West Province was heavy and well distributed throughout the month and with the exception of an area within ten miles radius of Kampala where the report stated there is severe filth disease, the crop is healthy and growing well.

In the district the weather was wet and black-rot and Lygus damage became more prevalent. Crop prospects are reported, however, to be up to the average. Foliage from the very planted Duka and South Taita Cotton has started.

In Buganda Province, the rainfall in September, though not heavy, was sufficient for crop requirements. A satisfactory average rainfall and germination was good. A considerable amount of rain fell at the end of September, although it fell as against 11.8 in 1934. In some areas the plants have not been covered from the dry season and the early part of the season and hence this is possible in Masaka areas. The Government and other than the cotton is a healthy condition.

Democracy's Need

“ERRANDS” continued. London, October 23. A “Standard” correspondent has endeavored to organize the public and social activists was advanced to Mr. C. Lewis, Public Relations Officer to the Gas Light and Coke Company, on a Saturday night at the annual conference of the Education in Citizenship at Bristol.

The speaker proposed the ministry's first function would be to see that the public is kept informed by communication to help to articulate and bring before the public the democracy in the public mind, to make the public aware of the meaning of democratic procedure, to enable people to vote, to find their own newspapers sensibly and to listen to the wireless, and to re-plan their own institutions to them, business and local, statutory and voluntary.

Speeches. The speech was largely in the community's sense instead of a hobby-horse because it speaks to the encouragement of the life of neighborhood groups, said Mr. Lewis.

“If anyone thinks this irrelevant to the question of the formation of public opinion, let him think of the numerous social and political failures of the language in which the new-entrants of our generation live. I visualize the functions of that training as being to help to re-plan the flow of ideas and ideas, and Mr. Lewis. It can be done, but it will require the best of the nation's talent to do it. It will require the best of the nation's talent to do it. It will require the best of the nation's talent to do it.”

British Legion Report

Following is the report of the secretary of the British Legion (London), Mr. J. H. Phillips, at the annual conference of the British Legion at Bristol, held on Saturday, October 20th.

The new Chrysler-built Dodge Trucks and Commercial Cars are now being introduced to the public in a series of vehicles which range from the light, fast, economical van, to a wide variety of Heavy Duty Models.

Important mechanical advantages, presented in all of the new Dodge Trucks and Commercial Car models are— rugged "L" Head Engines, Four Wheel Hydraulic Brakes, fuel line mounted on the outside of the frame, and fast pump installation, reducing the possibilities of vapor lock.

For Best African service we are importing the 2 1/2 and 3 ton Dodge chassis; also the 15 cwt. Light Delivery.

Among the many features which distinguish the new Dodge trucks and commercial cars are the large number of high quality anti-friction bearings which are used at most of the vital points in order to reduce wear, and assure freedom from service troubles.

Dodge springs are made of Amie's Steel—a Chrysler Corporation Engineering development that provides great flexibility with the maximum tensile strength. Amie's Steel permits the lengthening of Dodge springs to be...

"BILATERAL TALKS NOT ENOUGH"

Timely Reminder in Colonial Problem Discussions

NEWSPAPERS AND PUBLIC FIGURES OF ALL SHADES OF OPINION IN BRITAIN CONTINUE TO MAKE THE COLONIAL QUESTION IN ANGLO-GERMAN RELATIONS A SUBJECT OF COMMENT AND DISCUSSION...

One newspaper, the "Glasgow Herald" supplies the reminder that a settlement of the problem will not be arrived at through bilateral talks...

An extreme, Labour, periodical, gives an international mandate for the self-governing colonies and suggests that "pending the acceptance of a collective system and colonial square deal policy, Labour will not support a war for any colony, mandate, or protectorate in Africa or Asia."

Perhaps the most vivid view on the question of the settlement of the colonial problem is given in the following paragraph which was taken from the "Glasgow Herald"...

Although the proposition has apparently disappeared from the public talks on the settlement of the colonial problem, it has not been given up for so far...

It is interesting to note that in the opinion of the "Glasgow Herald" the settlement of the colonial problem is a matter which must be decided by the people of the colonies...

ON MIS-USING RED INK

NEW FIRE STATION
 Finished At
 Cost of £39

The new Fire Station was completed yesterday evening for the planting which will be done shortly. It includes accommodation for the staff of four married and two single firemen, sleeping cots, the floors are of concrete and the building is one block from Government road at a cost of £39. At the back of the station, a map of the town with the firemen's quarters marked with small red flags. Beside the map of the town, a new hydrant will be installed which will be used in case of fire. The Indian residential quarter to be opened. The sewerage will then extend from the industrial quarter to the European Hospital. Copies of standing orders, supplied on those used in London, are also on the wall, printed both in English and Kisumu, and each boy's equipment is ready in its place. There are four staff members of the Water Works, draughts board and plan are provided for the staff.

(A European was convicted of signing a passively signed in red, and fined £10.)
 This free remedy, do not think of when signing off a boy's pass.
 That you can see whatever his name may be readily.
 Another signature in black ink makes the paper illegible.
 You may stop thinking in red, but a knock of redness.
 One might have thought a brighter hue.
 Would it be more pleasing to the student.
 If it put your business to the demerit.
 Either you straighten this capricious ink, or you must take the consequences.
 Unpleasant to the public.
 Are such offences.
 Know in whom you're being wrong.
 And make this criminal honest.
 A signed notice off its mark.
 With some confidence.
 Obey the Law which never giveth.
 Within its limits of your advantage.
 Or you may find yourself in great difficulty.

Kenya Regiment Does Kazi Mkonu

During the months of October, the local members of the Kenya Regiment have put in a good many hours of training. During the week-end, the Company Commander, Captain Leonard Browne came to Nakuru to watch the trench digging and tactical exercises. On Saturday afternoon they dug with jemba, picks and shovels in a trench some 500 yards in length against an attack from the Lohu.

On Sunday there was a tactical exercise without troops carried out near Nyar Hill, and later some instruction in map reading. On Monday evening there was a lecture on aerial reconnaissance by Mr. R. Usher.

FIRST AID LECTURES

MISS PEARSON'S

A notice was printed last week in connection with the death of Mr. J. J. Vincent, who was a member of the East African Athletic Club. He played golf not only in this country but also in three others; visiting a deathless way, and he was a member of the Kenya Golf Club and a member of the Kenya Amateur Athletic Club. The record stated that he had an occupation and together added together a vast range of sports. He was a member of the Kenya Golf Club and a member of the Kenya Amateur Athletic Club. The police are now searching for the assassin. The coroner is awaiting evidence pending completion of his report.

OUR LONDON PURE LETTER

By "THE RECORDER".
Donna has the best of the English in the Commonwealth and if it had been more favourably viewed the protest would have won the race. Added to this the fact that these few horses were intensely handicapped and it will be understood how unkindly the public was not to keep the prize in this country.

Both the jockeys who rode Heliopolis and the one who rode the Duke of Devonshire were well qualified, especially the latter, who was a winner at his last ride at Newmarket before we saw a view flash as there were only a few yards to go. The winner was the best of the best, being fourth and eighth 1/2th. The winner was the best of the best, being fourth and eighth 1/2th.

Another French Success.
The Frenchman scored another success in the Autumn Handicap when the Southdown Stakes for two-year-olds and finished six. There is no doubt that the Frenchman is a useful horse, and it is a pity that he is not better than he has done since leaving the Duke of Devonshire last year.

Carriagee run in the Autumn Handicap. The Duke of Devonshire was the winner and narrowly beat The Hat, who has been a most successful performer this season and is now in excellent condition. His margin was a mile and a half, and he should be a useful horse for the next season. The winner was the best of the best, being fourth and eighth 1/2th.

NO RATE INCREASE

After opposition had been expressed and after a long debate, Nairobi Municipal Council at its general meeting on Tuesday finally approved a recommendation of the Finance Committee in regard to next year's Estimated Budget. The expenditure recommended for 1935 is 6-5-0, which is an increase of only 10 per cent. The increase in the present rate of one shilling and sixpence per ratee will be sufficient to meet the extra expenditure. It is noted that the rate will be sufficient to meet the extra expenditure for municipal services.

Some Council members thought it was "the best" of the budget. The meeting of the Committee which was held on Wednesday, the 23rd, was for the purpose of considering the Budget Estimates.

Councillor Bwa was one of those who wanted the matter "referred" finally following an assurance by the Town Clerk that this was not the case a motion to "refer back" was defeated and the minute approved.

British Policy After The Crisis

by the Rt. Hon. ANTHONY EDEN. P. C. M. P.

EUROPE has been through a period of great emotional stress. To universal horror at impending war has succeeded universal relief that at least a respite has been won. In the relief recedes, in its turn anxiety for the future grows, and with it a determination to avert a repetition of the cruel course of evils of recent weeks.

At the unattainable, yet there is no less, would best to advocate such a course had we not broken it. It is not so unreasonable to plead that an effort to secure national unity to start with is as practicable as a like effort to win it. Nations are sufficiently serious to justify taking exceptional measures with their heads upon which the sun never sets.

As the days roll by we are shown more and more of the tragic film of Europe's recent history. It is evident that Hitler has achieved his aim. The German objective has been to reduce to the last remnants of Czech gold and the treasury funds of the Munich Conference.

Against these grim realities we must set the substantial gain that the peoples of Europe have shown themselves unambiguably to be desirably eager for peace. However confident we may have been of the truth of this the cheers that greeted the British Prime Minister's return may be an unmistakable proof that we have not been misled.

There are those who are inclined to believe that the British public has been misled, and that the Government has been misled. It is a constant difficulty in the Government of the day that we are not able to make it clear to the public what we have decided, which is the difficulty which has led to the present situation.

THE WEDDING MARCH

This week is quite definitely brides' week, and of course, bridegrooms' also.

I had hoped, in addition to some more notes about the Eldorado Race Meeting which will begin on Friday and Saturday of last week-end, but unfortunately they were not forthcoming. However, I have heard that the attendance was most satisfactory, the weather was fine and His Excellency the Governor and Lady Broome-Popham were present both days. It was, in fact, a most enjoyable and well-run meeting.

MUSIC AND THE DANCE...

The first function given by the Municipal Council, held at the Civic Service Club, kindly loaned for the occasion, was so successful that it has become a regular feature. There were many people present, including Councilors and members of all our various societies; the staff; they were received by Dr. Tilgner, the President of the Council, and Mrs. T. D. ...

The earlier part of the evening was devoted to musical entertainment, which was ably assisted by Mr. Wood and Mr. Whitworth who gave humorous duets; they were followed by Mrs. Ruth Johnson with a violin solo and then Mr. ...

From 8 o'clock till the early hours of the morning the R.A.P. band played admirably well to the spirit of the party in the most complete manner. The evening had been beautifully decorated for the occasion by Mrs. Mountford, the Superintendent, with palms and bouquets, and the tables were elegantly set. Other guests filled the dancing while the ladies who were not dancing were occupied in a most pleasant and interesting way. The night was arranged in a most enjoyable manner, and the cold weather was completely forgotten. ...

Thoughts from a Farmer's Fireside

An interesting point was raised in the correspondence column last week for ploughing. It is a subject because there are many farmers who are not ploughing...

Overhauling Harvesters. The overhauling of harvesters is a task that should not be neglected. It is essential for the farmer to ensure that his machinery is in good working order...

Steepest for Beans. The purchase of young steers by farmers who have been successful in their bean production is a common sight. These steers are often used for draft purposes...

Best means of developing that the farmer must be enabled to clean that land of ticks and thereby enhance its capital value. So long as a proper system is adopted for stock diseases that in itself is a deterrent to settlement...

Thoughts from a Farmer's Fireside (continued). The farmer's perspective on various aspects of agriculture, including crop management and farm economics.

ORGANIC MATTER IN THE SOIL

"Farmers in Africa would be very ill-advised if they were tempted to relax their efforts to increase the quantity of organic matter in their soils under the following conditions."

THE amount of organic matter in the soil is a factor of great importance. It is the source of the plant's food and is essential for the soil's fertility.

British Policy

A PROTEST AGAINST BURNING

To the Editor, "A Standard."

When we live in a world which is being torn apart by the forces of internationalism, it is not surprising that we should find ourselves in a position to protest against the burning of the German flag.

A juicy chap he will change his spots and not so much as cast a glance at the body of the dove across the sea. It is not that it would be a sound idea to make the world's attention focus on the international situation, but it is not that it would be a sound idea to make the world's attention focus on the international situation.

World war has been availed through by Chamberlain's courage and tenacity, whatever it may be. The German thrust may have been the last, but it is not that it would be a sound idea to make the world's attention focus on the international situation.

I know I must be said that this is a very old story, and it is not that it would be a sound idea to make the world's attention focus on the international situation. It is not that it would be a sound idea to make the world's attention focus on the international situation.

PALESTINE

Facing the Facts

MONDAY, OCTOBER 24, 1938. Very soon we hope, the Report of the Committee entrusted with the preparation of new settlements schemes will be available to the public. Increasingly, power in every field of production in Kenya is absolutely...

decent living at hard work, sound farming, attention to detail and acceptance of reasonable life. The mixed farmer with his dairy herds, pigs, chickens, dry produce...

money entangled to risk their money and the best years of their life struggling against the handicaps of a ridiculous system. In May of this year the Association reaffirmed a resolution passed on August 1930 regarding...

solidity and a common sacrifice we should ever be the last to lose hope of success. A clear from the Association and clear instructions to the Executive should result...

Credit for Settlers

TUESDAY, OCTOBER 25, 1938. There are few better examples of the daily methods of Government administration than those afforded by the neglect of the problem of agricultural credit in Kenya. The Government has been no measure of financial assistance for planned agriculture in Kenya...

under present day conditions if he has to borrow money at six percent. It is not surprising that many farmers who are under present day conditions if he has to borrow money at six percent. It is not surprising that many farmers who are under present day conditions...

That is all the position to be considered in Kenya since 1932, and indeed for many years prior to that, to cause the Association to be established on their ground in any important detail. But what is needed now is for the Government to take notice of the British Government and all government organizations interested in the future of Tanganyika.

Settlers are not easy to get to the nation's youth. The group with a couple of thousand pounds investment can get reasonably good income from sources at home. There is not the same urge towards investments and take capital to the Colonies or send sons to the Colonies. The offspring of British farmers are not necessarily interested in farming. What of all the British immigrants are not really Empire-minded. Even the old tradition about the Bible (six per cent), in working days of their system, many have accepted the view that Britain is situated with overseas possessions and in the absence of any other source of investment they would naturally turn to Kenya.

COMMERCE IN CONFERENCE

WEDNESDAY, OCTOBER 26, 1938. The annual session of the Association of Chambers of Commerce of Eastern Africa is being held in Nairobi to-day. In the whole agenda there is only one issue of outstanding importance to the East African commerce. That question is the fate of the money factor.

The Association of East African Chambers of Commerce, more than any other organization in the Territories, has been responsible for such degree of co-ordination of policy as exists in the East African region. The Postal Amalgamation, uniformity of law and practice, have mainly been achieved through the influence of the Association. TANGANYIKA'S DEFICIT

Waiting For Others To Take The Initiative

The following official statement on the colonial question was received from Berlin on Tuesday by the German Consul in Nairobi.

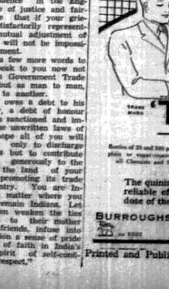

Certain English circles are endeavoring to force a date on Germany on which negotiations on the still open colonial question are to be started and which the present occupiers hope will be without result.

The unrest in these circles clearly shows that the present order is untenable. Germany does not claim anything which belongs to others by right; on the other hand the Reich claims the possessions which were taken away under illegal assertions.

A healthy sense of justice demands elimination of a former injustice. The initiative for such an elimination does not rest with Germany but with those responsible for the injustice.

MOMBASA SOLID FOR TANGANYIKA LEAGUE

Great enthusiasm for the Tanganyika League was displayed at two big mass meetings held in Mombasa on Tuesday evening. The first was in the crowded Strand Theatre and the second, composed of 400 members, was held in the Mombasa Club.

Both meetings passed unanimously a resolution in the following terms: Resolved that this mass meeting of residents of Mombasa supports fully the aims and objects of the Tanganyika League and stresses the importance to British Africa of the retention of Tanganyika Territory within the Empire.
