Distric Council ready to supervise Tigon development

CONCERNED about the delay in the disposal of plots at Tigon, the Nairobi District Council, which met in the Town Hall yesterday, passed a resolution, suggesting that they should be allowed not only to supervise them, but to accept responsibility for the provision of roads and other services necessary for the supervision of development if Government will assist with a grant of £12,000 for initial expenses.

U.S. ASKS BRITAIN WHAT SHE NEEDS

By CHARLES E. BAYTON Sunday Times (London) Correspondent. THE AMERICAN Government has asked the British Government for estimates of our essential import needs during the first few months of the war. It has also asked about the extent to which our needs might be met by output of goods from the United States. This information is being passed by our own dollar earnings. The information is being passed by our own dollar earnings. The information is being passed by our own dollar earnings.

# ENGLAND HAS THE LUCK AT HAMPDEN PARK

## Scots forwards miss their chances

ENGLAND were fortunate to beat Scotland by two goals to nil in a Hampden Park Challenge Cup victory which gave them the international championship. England (winners last season) lost to this game to qualify for a replay which would have meant sharing the championship with Wales. Goals by Finlay and Morrison gave them the victory.

Frank Marshall, Scotland's captain, was very good in the first half, but he was overruled by the referee before the start. He was overruled by the referee before the start. He was overruled by the referee before the start.

## Swift injured

# E.A. COMMISSION'S FIRST BUDGET

# CORRESPONDENCE

**THE STABLY increasing** price of oil in the past few months has not only increased the cost of transport but also the cost of the petrol which is used in the motor cars of the Government.

The **MEMORANDUM** of the East Africa High Commission to the Secretary of State for the Colonies, dated 27th March 1948, contains a direct grant of £1,000,000 for the year 1948-49. This is a decrease of £200,000 on the grant for 1947-48. The grant is to be used for the development and welfare of the territories under the Commission's jurisdiction.

**COST OF LIVING**  
The Editor of "The Standard" writes: "It is a pity that the Government has not taken more steps to reduce the cost of living. The price of food and other necessities is rising steadily, and this is causing a great deal of hardship to the people."

**THE BUDGET**  
The Editor of "The Standard" writes: "The budget for 1948-49 is a disappointment. It does not provide for the necessary increase in the grant to meet the rising cost of living. The Government should have taken more steps to reduce the cost of living."

## Kenya's fine fight against tennis tourists

**BEARING** in mind the appreciable strength and tournament experience of the English players, Kenya came out of the opening stages of the representative match on Monday with credit.

At least two of Monday's matches kept the crowd in suspense. Those who failed to guess and the Kenya players gained a home their advantage and were beaten—but they went down with colours flying.

England was in the first set, losing 6-3.

**Fine backhand**  
 Kenyan and Mrs. Doreenwell could hardly have looked for ends with backhands of variety against Modern and Mrs. Hilton. All the more credit goes to them, therefore, for holding the visitors to 6-4 in the first set with Mrs. Doreenwell's fine backhand hitting them from the front and Mrs. Doreenwell's fine backhand hitting them from the front and Mrs. Doreenwell's fine backhand hitting them from the front.

**Set to Kenya**  
 Mrs. Wood took her service to love, and the Kenyan 2-5. Kenyan players served and volleyed specially and served 2-5. England was in the first set, losing 6-3. Kenyan players served and volleyed specially and served 2-5. England was in the first set, losing 6-3.

**Tremendous tussle**  
 "Paddy" Roberts beat F. D. M. Powerhouse in a great battle in the first set, 6-3. Kenyan players served and volleyed specially and served 2-5. England was in the first set, losing 6-3.

**Sunderland now steering clear of relegation rocks**  
 Sunderland's position in the league has improved significantly since their last match. The team has moved up the table and is now clear of the relegation zone.

**All-out doubles**  
 Both Kenyan players went all out and fought very hard. The match was a close one and the Kenyan players showed great determination.

# 6 JEWS ESCAPE FROM GILGIL CAMP

## Britain blamed for failure

With the Palestine question still before the Executive Council of the United Nations on the 15th, the failure of the special session of the General Assembly, the British Foreign Office, according to the Assembly, has collected British troops and placed them in positions of readiness to take urgent action. It is expected that the British will be thrown into a state of confusion by the news that the commission is to be set up to investigate the failure of the British to prevent the escape of the Jews from the Gilgil camp.

## Other factors

Other factors which made it impossible for the Government to prevent the escape of the Jews from the Gilgil camp, are the failure of the British to prevent the escape of the Jews from the Gilgil camp, and the failure of the British to prevent the escape of the Jews from the Gilgil camp.

## British stop a battle over convoy

HOUSE VOTES ON DEATH PENALTY
FOR FIVE-YEAR SERIAL
Labour M.P.s. line up against Government
in free vote; Britain asks whether
murderers awaiting execution will hang

WHAT will happen to convicted murderers still under sentence of death now that the House of Commons has approved a clause in the new Criminal Justice Bill providing that the death penalty shall be abolished for an indefinite period of five years? Since this change was passed against the advice of the Government, by the votes of 245 to 222, the question of their execution—this has been the chief subject of discussion in Britain. The Minister of Justice reports the abolition of the death penalty by July at the latest, and it is assumed that there will be no more execution for murder between now and the Royal Assent to the bill of August 1st.

If Camb loses his appeal
Two convicted murderers now awaiting execution in Britain are James Campbell, the 39-year-old Dundee doctor, and another who appealed against sentence of death for the murder of the young Eileen Gordon when she was the victim of a car accident. Both are to be hanged, and Joseph Smith, a gipsy convicted of the murder of a young girl, who was not hanged.

Not later than next August
Although Premier Attlee's Government is against the abolition of capital punishment—and he himself, with Lord Chancellor Gwyer, and the Home Secretary, Lord Simon, are in favour of it—his will now flow to the will of the Commons and defend the Bill against any possibility of its obstruction by the House of Lords, which it would enact in 36 years or so, measure which has obtained a true Government majority in the Commons.

Supporters of the controversial clause soon got their way when the vote was agreed, and the bill was passed. The Government will now have to pass the bill, on which discussion continues, is expected to be passed on the 17th of April, and the House of Commons will meet on the 18th, on which the House of Lords will meet for the summer recess, on the 20th.

Kenya thinks along other lines
The Government has announced a free vote on the clause and the bill, on which discussion continues, is expected to be passed on the 17th of April, and the House of Commons will meet on the 18th, on which the House of Lords will meet for the summer recess, on the 20th.

Revision of the death penalty
The Government has announced a free vote on the clause and the bill, on which discussion continues, is expected to be passed on the 17th of April, and the House of Commons will meet on the 18th, on which the House of Lords will meet for the summer recess, on the 20th.

## Yours?

Not the feet of others, but the feet of yours. Did YOU let your tyres fall into such a state as to be beyond the aid of the TYRESOLE process, and fit only for this form of footwear? Good luck to the boy for taking this advantage of your tyre. Those shoes will last a long, long time—and so will your tyres if you take care of them. Cental delay—let TYRESOLE do it.

## QUICK WORK!

It goes without saying that you will have your tyres TYRESOLED in less than an hour. You'll have an extra year or so on your tyres if you take care of them. Cental delay—let TYRESOLE do it.

**UNITY IS STRENGTH**

Wherever we look in the world today, we can see clearly the importance of co-operative enterprise in protecting both producers and consumers.

Co-operation does not eliminate competition. It does the opposite. It draws the attention of the whole "team" to any individual who does not merit his weight.

What co-operative enterprise means is that the producer or producer on principle prefers to be in the hands of his fellow producers. Co-operative enterprise means that the producer or producer on principle prefers to be in the hands of his fellow producers.

# BOOKS: Is modern fiction worthless?

### A British philosopher divides the reading public into three classes

Dr. Joad's new volume entitled "Decadence, a Philosophical Inquiry", he says "Comparatively few people read anything except newspapers, technical books and (with the rarest of exceptions) novels." It is not clear from the context in what authority this statement is based but it is an unfortunate one.

The public reaction to books about the world has been undergoing some marked fluctuations during the past few years. From the period of the "United Kingdom" series of the "New Yorker" on, the reading public has been inclined to read more books than ever before. This has been especially true of the "young liberal" set who are getting on in life and are now reading more books than ever before. The "young liberal" set are getting on in life and are now reading more books than ever before.

At about seven or eight years of age, a child begins to read. The first books he reads are the picture books which are so full of pictures and so full of interest. Then, as he grows older, he reads the books which are so full of pictures and so full of interest. Then, as he grows older, he reads the books which are so full of pictures and so full of interest.

**Your Backache**  
may be due to sluggish Kidney Action

IF IT IS NOT in good order the kidneys pass water, uric acid, waste, and poisons, but they do not filter out the toxins which are the cause of backache. They get up with pain and discomfort and the back begins to ache. It is not the muscles that are the cause of backache, but the kidneys. They are the filters of the body and if they are not working properly, the waste and poisons which are the cause of backache will accumulate in the body and the back will begin to ache.

**CHESS**  
Launching a sudden fierce attack

By B. BARTON-BENETT  
THE following game was played in the Hastings Chess Congress. This annual event has for many years past been the "blue ribbon" of British chess, and is now being revived by the leading British players to meet their colleagues from the Continent.

Although the first ones to play the Austrian player Sadek the move was a sacrifice of a pawn for a knight. It was a bold move, and it was the reason for the game.

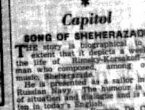

George, now in the early twenties, has been a member of the Hastings Chess Congress for many years. He is a strong player, and he is known for his bold moves. In the game shown, he sacrificed a pawn for a knight, which was a bold move.

# PROBLEMS IN RAISING SOIL FERTILITY

THESE three most interesting articles by Cincinnati's Dr. A. S. KENN on grass-land problems in the Southern Highlands of Africa should provide the agriculturists of this country with such exchanges of experience and views because in many of these, land utilization problems are similar to those in our own country. The first article, "Problems in Raising Soil Fertility," discusses the various factors that affect soil fertility, including the use of fertilizers, the use of machinery, and the use of the soil. The second article, "Farmyard Manure," discusses the various methods of using farmyard manure, including the use of compost, the use of liquid manure, and the use of solid manure. The third article, "Interference," discusses the various factors that interfere with the growth of crops, including the use of pesticides, the use of fungicides, and the use of insecticides.

## Farmyard manure

Second and equally striking example comes from the India and Africa. The farmer who uses manure in his fields will find that his crops are more productive than those of the farmer who does not use manure. This is because manure contains the various nutrients that the soil needs for the growth of crops.

## Interference

This, in Nigeria and elsewhere, is a very serious problem. It is caused by the various factors that interfere with the growth of crops, including the use of pesticides, the use of fungicides, and the use of insecticides. These factors can be controlled by the use of the various methods of pest control.

## IDEAL CATTLE FOR KENYA

By A. C. CHRISTOPHER

WHILE visiting Mr. Brian Jenkins, at Gilgil, recently, I saw his latest importation of Ayrshires, from Australia, and I was struck by the quality of the animals. They were well-bred, healthy, and productive. This is the ideal type of cattle for Kenya.

There are four breeds of all-white cattle in Kenya. The first is the Ayrshire, which is the most productive. The second is the Friesian, which is the most milk-producing. The third is the Guernsey, which is the most hardy. The fourth is the Jersey, which is the most intelligent.

The best type of cattle for Kenya is the Ayrshire. It is well-bred, healthy, and productive. It is also hardy and intelligent. It is the ideal type of cattle for Kenya.

## Enough Food depends upon the modern tools of power farming

From small cultivated plots to vast rolling acres there is a quick-change. All men of agriculture are striving to produce larger and better crops and the "tools of the trade" that help them produce the most and the best are the modern tools of power farming.

The vitality of men and nations depends entirely upon the basic, essential, life-giving process of raising food. And the products of International Harvester—tractors and equipment to increase the volume of food production—serve agriculture throughout the world. Wherever the soil is broken for planting, these machines help man produce more, with less physical labour, with greater efficiency and economy.
