SOIL FERTILITY AND EROSION PROBLEMS IN KENYA

OWING to the lack in quantity of data derived from experiment, Colony is founded on opinion and a geographical procedure in the choice of base and observation may be significantly misled by fertilization circumstances.

Nevertheless I have found more than one year after a year or two in East Africa, the soil shows an agricultural technique with a domestic certainty which could be improved by a Doctor of Science with a minimum of research on soil problems behind him.

Rotation

One of the hypotheses which are advanced in the literature is the complicity of man who starts pleasant facts in that various other mechanical means of conducting erosion are no longer necessary when a fairly long grassy period has been introduced into the rotation. This idea suggests the fact that eroded material, dead grass roots, rapidly disappear, as a residual soil which has been seen to take place on land in Kenya. It is a fact that has been pointed out in the literature that eroded material is not controlled erosion are lacking.

Colin Miller

Photo from plantation in Kenya has been taken by Mr. Colin Miller, who is now in the U.S.A. He is a member of the U.S. Department of Agriculture, Bureau of Plant Industry, Washington, D.C.

More than one year after a year or two in East Africa, the soil shows an agricultural technique with a domestic certainty which could be improved by a Doctor of Science with a minimum of research on soil problems behind him.

Branches Throughout East Africa

Who brought coffee to East Africa?

Mr. Ralph Miller, who was far to the west, first introduced coffee into East Africa, and it is now growing in all the highlands of the country. Standard of the origin of coffee is of course.

The question as to when coffee was first introduced into East Africa is a matter of considerable interest. It is generally accepted that the coffee was first introduced into East Africa by a native of Abyssinia and was first grown in the highlands of the country. The first coffee was first introduced into East Africa by a native of Abyssinia and was first grown in the highlands of the country.

SPRAY GUNS for INDUSTRY

Mr. Ralph Miller, who was far to the west, first introduced coffee into East Africa, and it is now growing in all the highlands of the country. Standard of the origin of coffee is of course.

BIG DEMAND FOR HAND-PRODUCED TEXTILES

WORLD demand for Britain's top-quality textiles has important emphasis on the role of the hand-loom. Not so many years ago there were signs that such textiles and crafts as hand-loom weaving, hand-knitting and crochets in Britain were heading for a certain decline.

Today, however, they are enjoying a revival, and the steady influx of tourists to these traditional crafts from with fresh vitality. The fact that the hand-loom is still producing textiles of the highest quality is one of the reasons for the big demand for hand-produced textiles. The hand-loom is still producing textiles of the highest quality, and the demand for such textiles is increasing.

Hand-woven textiles are in great demand.

Enterprising

There is a spirit of enterprise behind many of these new creations. Young, energetic, Frisee Saunders, for instance, gives her hand-knitted lace transforming a discarded cushion in Aberdeen, Scotland, into a wearing shawl for the two women. Mable Stewart will knit a shawl for the future.

By Malita. Contrasting braid and beige has novelty three-pieces suit and caps. Soft hip short lacks with worried button fastening.

With highly woven, light-weight worried suitings in dignified design, there have been enthusiastically received by customers in every warm-weather country. Taking advantage of the fashion popularity of the evening style, a few elegant, several weavers, have introduced gossamer-like waives to match hand-knitted and crocheted evening wear.

One of the most important knitwear. When it comes to the creation of novel knitwear designs for sweaters, slippers, tunics or cardigans, the hand-loom is no match for the modern. The modern cable-knit sweater, for example, is a virtual monopoly of the traditional knitting medium.

SOME LIPSTICK DO'S AND DONT'S

To continue our series on lipstick make-up. We left off at the best method of applying mascara. This time we are going to refer to the almost forgotten topic. Your entire make-up can be ruined unless your eye brows are made, and you avoid the lovely shape it ought to be. Whether Nature has been kind to you or not you can still have an attractive-looking brows if you shape them correctly with your lipstick.

By Annetta. Remember, too, that it should not be the same for the eye as for the mouth. Your lipstick may be some to your eye, but it is not for the mouth. In some cases a deeper shade of lipstick is used on the cheeks than on the lips.

Draw the outline to reduce it in width and breadth. But on the colour at all strength, work it in, well, keep it firmly tapered at the corners, take a tissue and blot off surplus colour taking care not to smudge in doing so.

Light weights

In creations of these and other light weights, Frisee Saunders has been particularly successful. Her hand-knitted lace shawl, for instance, is a masterpiece of lightness and grace.

For this lip you use "Mascot" with the lipstick to create the impression of an attractively shaped nose, and for full lips you run point out the fullness by carefully drawing the outline to reduce it in width and breadth.

For this lip you use "Mascot" with the lipstick to create the impression of an attractively shaped nose, and for full lips you run point out the fullness by carefully drawing the outline to reduce it in width and breadth.

KENYA-BORN BEAT REST IN GAME AT LONDANI

Hard-hit centuries on both sides

It was a closely fought battle, Kenya-born batsmen were the mainstay of the Kenya team in their victory over the touring English side at Londani on Saturday.

The Kenyan batsmen were led by the captain, J. H. G. Smith, who scored 118 runs in the first innings and 158 runs in the second. He was supported by A. D. M. Jones, who scored 100 runs in the first innings and 100 runs in the second.

The touring English batsmen were led by the captain, J. H. G. Smith, who scored 118 runs in the first innings and 158 runs in the second. He was supported by A. D. M. Jones, who scored 100 runs in the first innings and 100 runs in the second.

Girls' hot-trick in Empire Games sprint

The top sprinter from Kenya was J. H. G. Smith, who scored 118 runs in the first innings and 158 runs in the second.

The scoreboard

Player	Runs
J. H. G. Smith	118
A. D. M. Jones	100
...	...

Lower players show imp...

Lower players showed impressive performances in the second innings, with several players scoring over 50 runs.

Forcing the pace

The Kenyan batsmen were forced to play at a fast pace in the second innings, leading to several centuries.

A stylish innings

The Kenyan batsmen played a stylish and aggressive innings in the second innings, leading to a decisive victory.

CORRESPONDENCE AT THE HALFWAY STAGE

Not all the aims of the Marshall Plan have yet been achieved

By ANTHONY CORSEY

Meat Ordinance
I have been told that about 100,000 head of cattle were slaughtered in Kenya last year. This is a very high figure, but it is not surprising, considering the fact that the Government, in order to meet the requirements of the meat ordinance, has had to import a large quantity of meat from other countries. It is a pity that the Government has not taken more steps to encourage the local meat industry.

HOW well is the Marshall Plan progressing? How much has been achieved? The still needs to be done? How will Europe stand when Marshall Aid comes to an end and in 1952? These are the questions which the O.E.C.E. is investigating. The Marshall Plan has been a great success, but it is not yet clear how long it will last. The O.E.C.E. report shows that the Marshall Plan has been a great success, but it is not yet clear how long it will last.

The River T...
Feb 21, 1950

India and Goa

To the Editor, "E.A. Standard"
I have been reading with much interest the article in your issue of the 21st February, 1950, on the subject of India and Goa. It is a pity that the Government has not taken more steps to encourage the local meat industry.

The O.E.C.E. report shows that the Marshall Plan has been a great success, but it is not yet clear how long it will last.

K.F.A. notes and market report

SUNFLOWER SEED...
The price of sunflower seed has risen sharply since the beginning of the year. This is due to the fact that the supply of seed has been reduced by a combination of factors, including a late start to the season and a heavy fall in the price of seed.

PLUXEV

quality bitumen dampcourse

1 lb. a square yard
No. 1. QUALITY is manufactured with a refined bitumen, which is thoroughly stirred and coated with a fine layer of coarse aggregate. This process of thoroughly stirring the bitumen prior to coating ensures a uniform application of water-tightness by epoxy attachment. Interior dampcourses which are not treated in this way are liable to delamination by peeling away a portion of the material and thus disturbing the white, uncoloured floor.

World shortage of cotton forecast in Australia

AUSTRALIA'S cotton industry has been dealt what may prove to be a mortal blow by the Australian Tariff Board. The Board declined to recommend the Government to give Australian cotton growers a higher price for their cotton although Australia still exports more dollars on raw cotton imports in 1956/49 than in the previous year.

In fact since 1944, Australia has been a net importer of cotton. American cotton buyers are generally prepared to pay 20 per cent more for raw cotton, whereas the Commonwealth Government has guaranteed a minimum price of 10 shillings per ton since every year since the war, usually between 10 and 12 shillings per ton. The American wool and cotton tariff was raised to 10 shillings per ton in 1949. The American wool tariff was not out of the question until it was raised to 10 shillings per ton in 1949. The American wool tariff was not out of the question until it was raised to 10 shillings per ton in 1949.

Short supply

Mr. Young also told the Tariff Board that the world raw cotton supply had dropped more than 2,000 million lb. since 1949. He said that the world raw cotton supply had dropped more than 2,000 million lb. since 1949.

It will be of course impossible to estimate the effect of the Tariff Board's decision on the cotton industry in the way for the cotton growers. It will be of course impossible to estimate the effect of the Tariff Board's decision on the cotton industry in the way for the cotton growers.

North Nyanza maintains high maize standard

Dr. Stakman estimates that the yield of maize production in the United States during World War II was 25 per cent higher than the yield of the cotton growers.

Disease resistant tobacco

New hybrid tobacco plants that are resistant to major tobacco plant diseases are being obtained in the United States. The new hybrid tobacco plants that are resistant to major tobacco plant diseases are being obtained in the United States.

TEA EQUILIBRIUM IN A YEAR

Equilibrium between world supply and demand for tea is probably being reached by 1961, according to the International Tea Commission, which has issued its latest report on the world tea market.

With actual figures for 1958 now available, the Commission has been able to make a fairly accurate estimate of the position for next year. It estimates that there will be a surplus of 120,000 tons in 1961.

SUN, SCENERY AND SERVICE DELIGHT DANCING STAR

In an interview with the 'Standard's' Social Editor, IRENE CASTLE, the woman who first put belgian dancing on the social map, talks about her early days.

THEY were turning back the pages of their lives and taking an often regretful look at the past with its joys and its disappointments and joys, when IRENE CASTLE, who was first put on the social map by her early days in Belgium, looking back into the past and taking a look at the things that have made her life what it is today, said she had no regrets about the early days of her life. She said she had no regrets about the early days of her life. She said she had no regrets about the early days of her life.

For gallantry
 Irene Castle, who is today one of the most popular of the social scene, was born in 1895 in the town of Danvers, Vermont. She was the daughter of a farmer and a school teacher. She was educated in the local schools and then at the University of Vermont. She was a member of the Beta Beta Beta Sorority and the Phi Kappa Phi Honor Society. She was also a member of the National Dance Association.

Teamed up
 Irene Castle and Vernon Castle were the first to introduce the belgian dance to America. They were married in 1914 and they were the first to appear in the United States. They were the first to introduce the belgian dance to America. They were the first to appear in the United States. They were the first to introduce the belgian dance to America.

Oh yes you look sweet enough to kiss!
 Irene Castle and Vernon Castle were the first to introduce the belgian dance to America. They were the first to appear in the United States. They were the first to introduce the belgian dance to America. They were the first to appear in the United States.

Ugly styles of the 'twenties return
 ELSA M. SANDERS' London letter discusses the Shapless Look.
 THE London fashion shows were at a grim and decorous at mothers' meeting compared with the hysterical affair last week in Paris. Many of the top designers turned their shows into evening salons where champagne flowed freely it seemed.

Ugly elegance
 The Shapless Look, they actually dubbed it, but they all agreed that they managed to give the ugly garments their own air.
 Fate, just to be different, offered the designer a runway called the Marsh Lane. The white rollers of the show were lined with the Shapless Look.
