SEVERAL BILLS PASSED

Central Assembly now adjourned

A NUMBER of Bills passed through their final stages in the East African Central Legislative Assembly yesterday, after which the Assembly adjourned until the 11th of the month.

Malaria

Attention has been drawn to this week by the African Veterinary Bureau, Nairobi, that the incidence of malaria in the East African region is increasing.

Provisional Fund

The Provisional Fund Bill, like the Finance Bill, is a measure to provide for the needs of the Government in the event of a financial emergency.

Bills welcomed

Both the Provisional Fund and Finance Bills were welcomed by Mr. A. B. K. Mwangi, Minister for Finance, who said that they were necessary for the Government to carry out its policy.

Care of fisheries

It was well known, explained the acting Administrator, Mr. C. B. A. Mwangi, that the fisheries in the East African region are of great importance.

Bible thought

There is a great need for the Bible in the East African region, and it is the duty of the Church to provide it.

IRISH ALONE IN WARLIKE WORLD—DEFENCE MINISTER

'Countries won't accept our arms orders'

IRELAND'S defence situation, accentuated by the division of the world into two military camps, is the subject of a debate on the Dail today.

Minister's wish

For three days now in which it was possible to discuss the defence situation, the Government has been unable to do so.

Proident Fund

The Provisional Fund Bill, like the Finance Bill, is a measure to provide for the needs of the Government in the event of a financial emergency.

Under THE Standard Cocker

It was a great pleasure to attend the Standard Cocker exhibition, which was held in the city of Dublin.

Power club

The Power Club, which was formed in the city of Dublin, is a club for the promotion of power sports.

St. John Ambulance

The St. John Ambulance Association, which was formed in the city of Dublin, is a club for the promotion of first aid.

Power sports

Power sports, which are popular in the city of Dublin, are a great source of recreation.

PANGA ATTACK

Cook sentenced to hard labour

A KIKUYU cook, Raye, 37, of the Panga Hotel, Nairobi, was sentenced to three months' imprisonment for the theft of a tin of cooking oil.

No alliance with Britain

The Government has refused to enter into any alliance with Britain, and has declared its independence.

Breakfast order

The Government has issued an order for breakfast, which is to be served to all members of the public.

Lost his temper

A man who lost his temper in the city of Dublin was sentenced to a term of imprisonment.

The war on the mosquito

The war on the mosquito, which is a major health problem in the East African region, is being waged by the Government.

Today's weather

Today's weather in the East African region is expected to be clear and sunny.

Standard Diary

The Standard Diary for the East African region is available for purchase.

Recruiting will be short of the target

African P.C.s on charge

THE recruitment drive for the Kenya Police is being hampered by the shortage of African recruits.

Less than expected

Less than expected recruits have been received for the Kenya Police, and the Government is concerned.

New arrangements

New arrangements for the recruitment of African recruits to the Kenya Police have been announced.

Rare dugong goes straight to market

A rare dugong, which was found in the East African region, has been sold to a foreign buyer.

Supreme Court

The Supreme Court has heard a case concerning the recruitment of African recruits to the Kenya Police.

CONTROL OF ERADICATION OF MALARIA

The complexities in East Africa ... In the latest report of the East African Bureau of Research in Medicine and Hygiene, malaria is described as a serious detri-

ment to social and economic progress and development, and "remains the greatest and largely unmet public health problem throughout East Africa."

The general attitude towards malaria is stated to be conditioned by a number of factors, while accurate assessment of the economic loss due to its prevalence is difficult.

A. In order to relate to the practicality and efficiency of the method, as required by the Government, it is further stated that the great complexity of the problem is due to the fact that the malarial parasite is a highly adaptable organism.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

It is further stated that the malarial parasite is a highly adaptable organism, and that the problem is made more complex by the fact that the parasite is highly resistant to the action of drugs.

Africans kill lion that attacked DEPUTY M.O.H. FOR CANADA

Down last Monday in the local bush, a lion attacked a party of five young travellers set out to find the lion's den which had strayed from the main herd the previous night.

The incident came into being, however, without warning, a half-hour before the party of five young travellers set out to find the lion's den which had strayed from the main herd the previous night.

The incident came into being, however, without warning, a half-hour before the party of five young travellers set out to find the lion's den which had strayed from the main herd the previous night.

## WEATHER FORECAST

**THE East African Meteorological Department's forecast for the coming week says that although rains will continue generally light to the south, it is expected that there will be greater quantities of rain in the north.**

**It is expected that the T.E.C. will tend to move slightly north of the equator to the north-eastern boundary being to the north of the equator, and in the southern boundary being at the equator, and therefore to the south of the East of Kil and to the north of the coast of the Kenya-Sudan border.**

**Weather over Kenya and Uganda will be rather cool and widespread showers of rain will continue to be fairly frequent. In the north, the rain will be fairly frequent and heavy, and in the south, the rain will be lighter. Similar conditions will obtain in the north of the Kenya-Sudan border, but later in the week it is expected that the rain will move northwards and that showers will be more frequent.**

**Weather over the east of Kenya, with the exception of the north, will be generally light with occasional showers. In the north and south of the equator, showers will be more frequent, and in the south, the rain will be more frequent.**

**Kenya:**  
**East of Rift, Tana River and North Arusi:** Cloudy mornings with drizzle or rain, and occasional showers and squalls during the afternoon and evening. The rain will be heavy locally in the north and south.

**Central Arusi, Shabari and Mt. Kenya:** Showers and drizzle, mainly in the morning.

**South Arusi, Meru, Tharaka and Kavirondo:** Cloudy mornings with drizzle or rain, and occasional showers and squalls during the afternoon and evening. The rain will be heavy locally in the north and south.

**Other Regions:** Showers and drizzle, mainly in the morning.

**Uganda:**  
**Lake Area:** Local showers, mainly in the morning, and occasional showers and squalls during the afternoon and evening. The rain will be heavy locally in the north and south.

## TORIES READ 'SHORT LIFE' BETWEEN LINES OF BUDGET

**M. R. A. BUTLER**, a member of the Conservative "shadow Cabinet" has attacked Britain's Labour Government with respect to its financial policy.

**Mr. Butler, speaking in the House of Commons on the subject of the budget, said that he expected the Labour Government to announce a new budget in the next few weeks, and that he expected the Government to announce a new budget in the next few weeks, and that he expected the Government to announce a new budget in the next few weeks.**

**In a speech** Mr. Butler asserted that the budget would be a "short life" between lines of budget. He said that the budget would be a "short life" between lines of budget. He said that the budget would be a "short life" between lines of budget.

**Mr. Butler asserted** that the budget would be a "short life" between lines of budget. He said that the budget would be a "short life" between lines of budget. He said that the budget would be a "short life" between lines of budget.

**Mr. Butler asserted** that the budget would be a "short life" between lines of budget. He said that the budget would be a "short life" between lines of budget. He said that the budget would be a "short life" between lines of budget.

**Labour complaint**  
 Several Labour Club members complained that the £20 million increase in expenditure was a "short life" between lines of budget.

## SHORT OF ROLLING STOCK

### 'Insufficient movement of crops'

**CIN. REGINALD BOHNS**, Commissioner for Transport, said that the Railways were unable to supply rolling stock to move the crops to consumption areas.

**He was replying to a question by Mr. W. A. C. Howarth (Kenya)** who had asked if the Commissioner was aware that due to the non-arrival of trucks ordered by cereal producers, quantities of grain had to be stacked in the open, incurring risk of losses not only from pilferage but also from rot.

## Body works better on four meals

**United States Congress** has found that a body works better on four meals a day. The study found that a body works better on four meals a day.

# KENYA CANNERIES ARE OUT FOR WORLD MARKETS

Governor opens the factory

From a Correspondent

WHEN His Excellency the Governor of Kenya Sir Philip Mitchell opened the new premises of Kenya Canners at Thika last Friday, he gave a warm welcome to the industry and spokes of its importance both to agricultural producers and to the nation.

Before the new canning machinery in America had captured the markets of the world by the high quality of its products and the efficiency of its production methods. Twenty-five per cent of the U.S.A. fruit canning production was sold to the United Kingdom alone.

There is now a clear opportunity for Kenya to become a major producer of the fruit short-crop, a commodity which is in demand in such various Colonial areas as the United Kingdom, the U.S.A., Canada, France, Germany, Italy, and the Netherlands.

Kenya Canners Limited has been formed with the object of producing and marketing in the form of cans, such fruit as oranges, lemons, and pineapples, which are grown in the country and which are well adapted to canning.

**Ready to grow**  
The company is prepared to accept orders for the quantities of fruit for which the factory is capable of processing, and to supply the fruit to the growers at the best possible price.

**Pineapple**  
A Central pineapple in various grades is available in quantities of up to 100 tons. Canned pineapples are available in a variety of sizes and grades, and are well adapted for export to the United Kingdom and other overseas markets.

The factory is situated in Thika, and is well adapted for the processing of fruit. It is equipped with modern machinery and is capable of producing up to 100 tons of fruit per week.

**In the field**  
Commissioner M. S. D. G. and his staff are well equipped to handle the work of the field. They are well equipped to handle the work of the field, and are well equipped to handle the work of the field.

H.E. the Governor (the Hon. Sir Philip Mitchell) opening the new factory of Kenya Canners Ltd., at Thika.

The Governor, on his visit to Thika, inspected the new factory and saw the machinery in operation. He was accompanied by the Director of Agriculture and other officials.

**Other crops**  
The factory is well adapted for the processing of other crops such as lemons and oranges. It is equipped with modern machinery and is capable of producing up to 100 tons of fruit per week.

## Vetzyna VETERINARY

It is essential for the health of the stock to have the services of a qualified veterinarian. Vetzyna Veterinary offers the highest quality of service at a reasonable price.

## OAKRIDGE

Oakridge is a reliable brand of motor oil, known for its performance and durability. It is suitable for use in all types of engines and vehicles.

## Do you suffer from HEARTBURN?

Heartburn can be a painful condition, but it can be relieved with the help of a qualified doctor. Our medical services are available in both rural and urban areas.

## YOU NEED BISMAC

Bismac is a reliable brand of motor oil, known for its performance and durability. It is suitable for use in all types of engines and vehicles.

## Montague Down

Montague Down is a reliable brand of motor oil, known for its performance and durability. It is suitable for use in all types of engines and vehicles.

## Jessop Ltd.

Jessop Ltd. is a reliable brand of motor oil, known for its performance and durability. It is suitable for use in all types of engines and vehicles.

## Whichever way you look at it...

Land Rover is a reliable brand of motor oil, known for its performance and durability. It is suitable for use in all types of engines and vehicles.

## IMPROVING THE STAMINA OF BRITISH BLOODSTOCK

The horse may have been replaced by the tractor or many of the world's finest bloodstocks have been lost to the world. However, the stamina of British bloodstock can be improved by the use of certain supplements.

**The cause**  
The cause of the decline in the stamina of British bloodstock is due to a variety of factors, including poor nutrition and lack of exercise. However, the use of certain supplements can help to improve the stamina of the horse.

**Surgery**  
Surgery is often performed on horses to improve their stamina. However, the use of certain supplements can help to improve the stamina of the horse without the need for surgery.

**INGRAM SHAVING CREAM**  
Ingram Shaving Cream is a reliable brand of shaving cream, known for its performance and durability. It is suitable for use in all types of shaving.

INGRAM SHAVING CREAM is a reliable brand of shaving cream, known for its performance and durability. It is suitable for use in all types of shaving.

## IN THE AFRICAN AREAS

The African Commission on the Administration of the Territory of Kenya has been established. Its purpose is to advise the Government on the administration of the territory.

**The Provincial Commissioner**  
The Provincial Commissioner has been appointed to the Province of Kenya. He will be responsible for the administration of the province and will advise the Government on the administration of the province.

**The Provincial Commissioner**  
The Provincial Commissioner has been appointed to the Province of Kenya. He will be responsible for the administration of the province and will advise the Government on the administration of the province.

## Onions

Onions are a popular vegetable and are grown in large quantities in the African areas. They are a valuable source of nutrients and are used in a variety of dishes.

**ROOT CUTTERS, BRUSH MAKERS, AND TREE STUMPERS**  
These machines are available for hire from our company. They are suitable for use in all types of agricultural work.

## Continuous economy and better farming...

**FARMALL H is the Answer!**  
The Farmall H is a reliable brand of tractor, known for its performance and durability. It is suitable for use in all types of agricultural work.

# MOVING ISOTOPES BY AIR

A new method of transport has just been brought into use for carrying components of radioactive isotopes by air. It is said to be the most satisfactory method as it is the only one which is safe, quick and economical. The method is based on the use of a special container which is designed to protect the isotopes from the very slight risk of contact with the atmosphere. The container is made of a special material which is resistant to radiation and is capable of withstanding the rigors of air transport. A small opening is made in the container to allow the isotopes to be used in the laboratory. The opening is made of a special material which is resistant to radiation and is capable of withstanding the rigors of air transport. The method is based on the use of a special container which is designed to protect the isotopes from the very slight risk of contact with the atmosphere. # PEPS TABS

BREATHABLE TABLETS. A variety of delicious biscuits, including digestives and shortbread.

# You can be A Star of Beauty

Carmen Miranda, the exotic Brazilian star, says... "I always use Lux Toilet Soap! It's so lovely that even if I don't have time to wash, I'll cover my face generously with its creamy lather, working it in gently but thoroughly. Then I rinse with warm water, and splash on cold. Give your skin this gentle beauty treatment. You'll find Lux Toilet Soap leaves it beautifully soft, smoother—lovelier!"

TWO CONTROVERSIAL BOOKS ABOUT THE WAR

There's No Home, by Alexander Barr...

ITALY is a country which has held throughout the ages a peculiar attraction for the British, both travellers and writers.

Mr. Barr's new book is in effect a travelogue and a study of the Italian character in all classes.

Mr. Barr's new book is in effect a travelogue and a study of the Italian character in all classes.

There are features which impress upon the most casual reader the sense of a new world.

His new book is a novel and as such has a definite appeal although the plot is the conventional one of the world.

Temporary respite

A company of British soldiers has reached Catania in Sicily in August, 1941. The bombs have stopped and the soldiers have a backwater left to vary.

The story is one of frustration, and this is the main theme of the book. It is a study of the human mind in a time of stress.

H.M.S. KENYA

THE 8,000-ton cruiser H.M.S. Kenya (Captain P. W. Brock) is to be recently joined the Far Eastern Fleet.

Kenya came into public prominence in the first week of this year when the news that British Kenya was to be transferred to the Commonwealth.

Mission

The cruise ended at Colombo until the 20th February when she was employed on an historic mission of carrying Buddhist relics and over a hundred monks to the island of Ceylon.

# RAIN BRINGS FRISKY JOY TO THE PARK

As the children know only too well, when it rains the fun is not over. It is only a change in the weather which brings about the change in the park. In the months of waiting, the children are able to enjoy the park as they have always done. The rain does not bring about any change in the park, and the children are able to enjoy the park as they have always done. The rain does not bring about any change in the park, and the children are able to enjoy the park as they have always done.

It is not the rain that is the cause of the children's joy, but the change in the weather. The children are able to enjoy the park as they have always done. The rain does not bring about any change in the park, and the children are able to enjoy the park as they have always done.

The scene and all the children of the park have combined to make a first-class picture. The rain does not bring about any change in the park, and the children are able to enjoy the park as they have always done.

## The Dams

Perhaps in time legislation will be enacted to provide for the construction of dams in the various parts of the country. This will be a great benefit to the country, and the children are able to enjoy the park as they have always done.

## Roaring spate

More streams and other water courses are now in a state of roaring spate. This is due to the heavy rain which has been falling in the area. The children are able to enjoy the park as they have always done.

# As the pioneers know better

The pioneers know better. They have learned from their experience that the best way to do things is to do them the way the pioneers did. The children are able to enjoy the park as they have always done.

# SCULPTURE IN SALT

F. Prater, an exhibition has recently been held of works of art by coal and salt miners. The more than 1,000 years of the coal industry has created the artistic talent of the miners. The children are able to enjoy the park as they have always done.

These works of art are made of salt, and they are very beautiful. The children are able to enjoy the park as they have always done.

## It's Easy, Quick and Pleasant if YOU FLY

BREAKFAST IN Nairobi. It is now possible to get a good breakfast in Nairobi. The children are able to enjoy the park as they have always done.

## Huge city

And last the morning with the new of the city. The children are able to enjoy the park as they have always done.

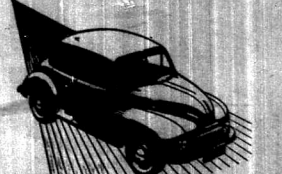

# IT'S EASY, QUICK AND PLEASANT IF YOU FLY

THE MODERN ANTISEPTIC

**Film aims to reduce maternal mortality**

**THESE DAYS**

Every day more than 100 women die in childbirth in the United Kingdom. This is a tragedy which can be avoided if only the correct technique is used. A new film, "The Art of Childbirth", aims to show the correct technique to women who are about to give birth. The film is being shown in many cinemas and is being distributed free of charge to women who are about to give birth. It is a valuable aid to the midwife and the doctor, and is a must for every woman who is about to give birth.

**HOLY YEAR 1950  
INAUGURAL CEREMONIES**

"His Majesty's Voice" have been honoured by being granted the privilege of making recordings made by the Vatican Radio Station of this impressive ceremony held in St. Peter's, Rome, when His Holiness Pope Pius XII inaugurated the Holy Year, 1950, by carrying out the great traditional religious custom of the opening of the Holy Door.

The set consists of four records and also available in a handsome blue cloth-covered album with gold lettering on front and spine, containing on the inside cover a descriptive synopsis.

**Palmolive Beauty Film**  
proved by doctors

brings longer skin to 2 women out of 3—in 14 days!

After just one 15-day course for 14 days, 30 dermatologists leading skin specialists report that the "Palmolive Beauty Film" brought a definite, noticeable improvement in complexion of 2 women out of 3.

Definite, noticeable improvement in complexion was:

- 1. Brighter, clearer skin.
- 2. Less acne.
- 3. Fewer blemishes.
- 4. Fewer wrinkles.
- 5. More youthful appearance.

**YOUR SKIN can be improved in 14 days!**

All you have to do is use this wonder skin film for 14 days. Follow the "Palmolive Beauty Film" Beauty Plan. It's so simple, so easy!

1. Wash your face with Palmolive Soap.
2. Rub the film all over your face for 10 to 15 minutes.
3. Rinse off.

Do this for 14 days and you'll be glad to see that the "Palmolive Beauty Film" has done its job!

KEEP THAT SCHOOLGIRL COMPLEXION

Obtainable from all Chemists and Grocers.

# How the deaf cinemagoer is helped by subtitles and captions

Deaf cinemagoers who are unable to hear the dialogue in the picture are helped by subtitles and captions. These are printed on a scroll which runs across the bottom of the screen. The scroll is controlled by a special mechanism which is operated by the projectionist. The scroll is usually made of paper and is printed with the dialogue in a large, bold type. The scroll is usually operated by a special mechanism which is operated by the projectionist. The scroll is usually made of paper and is printed with the dialogue in a large, bold type.

**KENYA'S BIGGEST ELECTRIC SCHEME STARTS**

**WORK** is now in full swing on the biggest electrical development ever undertaken in Kenya, of which the construction of a tunnel three and a half miles in length between the Mathara and Maragua Rivers—in itself a civil engineering enterprise unique of its kind in East Africa, is but the hydro-electric scheme, named after Queen Victoria, the Kinyua Chief of the Maragua district, who has been chosen the main contractor. The scheme, designed by the Colonial Office, is a masterpiece of engineering and will supply a vast area of the Province with electricity.

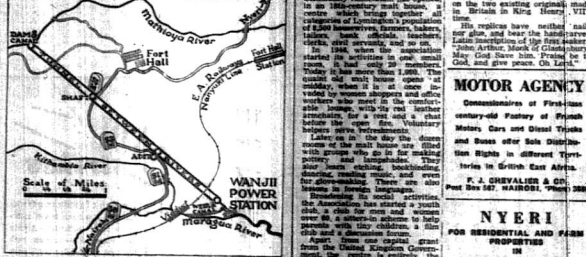

The scheme is a masterpiece of engineering and will supply a vast area of the Province with electricity. It consists of a dam across the Maragua River, a tunnel three and a half miles in length, and a powerhouse at Maragua. The dam will be 1,200 feet long and 100 feet high. The tunnel will be 1,200 feet long and 100 feet high. The powerhouse will be 1,200 feet long and 100 feet high.

Contracting work will start on the Maragua River and below the Railway Viaduct, near Nairobi in less than a week. The dam will be 1,200 feet long and 100 feet high. The tunnel will be 1,200 feet long and 100 feet high. The powerhouse will be 1,200 feet long and 100 feet high.

The dam will be 1,200 feet long and 100 feet high. The tunnel will be 1,200 feet long and 100 feet high. The powerhouse will be 1,200 feet long and 100 feet high.

The dam will be 1,200 feet long and 100 feet high. The tunnel will be 1,200 feet long and 100 feet high. The powerhouse will be 1,200 feet long and 100 feet high.

The dam will be 1,200 feet long and 100 feet high. The tunnel will be 1,200 feet long and 100 feet high. The powerhouse will be 1,200 feet long and 100 feet high.

A top of the Maragua hydro-electric scheme, the biggest in Kenya on the road to Fort Hall from Nairobi.

## LAND TENURE POLICY OF TANGANYIKA

### Exchanges of letters 'clears the air'

LETTERS were recently exchanged between Mr. Derek Ruckley, a Member of Kenya Legislative Council for Nairobi South, and Mr. E. C. Phillips, Leader of the Opposition in the Tanganyika Legislative Council, on the subject of the land tenure policy of the Government of Tanganyika.

In the course of a letter to Mr. Phillips, thanking him for information, Mr. Ruckley stated: "I personally regard as most unimpaired certain facts which have been adopted by your Government and which are of great importance for the Government of Tanganyika. I am glad to see that you are maintaining all evidence points in a general agreement with the policy of the Government of Tanganyika."

Mr. Phillips' reply took the form of an acknowledgment of the facts stated and of the Government's attitude in regard to the land tenure policy. He stated that the Government of Tanganyika is anxious to have a meeting with you and your representatives in the near future and that the Government of Tanganyika is anxious to have a meeting with you and your representatives in the near future.

"The 'true facts' are those which are set forth in the Government of Tanganyika's statement of land to big Governmental concerns that have been adopted by your Government."

Mr. Phillips' statement was published in the Government of Tanganyika's statement of land to big Governmental concerns that have been adopted by your Government."

Mr. Phillips' statement was published in the Government of Tanganyika's statement of land to big Governmental concerns that have been adopted by your Government."

## Compulsory communal labour

At a meeting of the South Western Local Native District Commissioner, Mr. J. W. Law, who is the District Commissioner of the Government of Tanganyika, were that all Africans must be liable to compulsory communal labour for the benefit of the community. It was said that in three weeks' time all Africans must be liable to compulsory communal labour for the benefit of the community. It was said that in three weeks' time all Africans must be liable to compulsory communal labour for the benefit of the community.

Chief's powers The Council proposed to take the powers of the chief and to give him the power to appoint and dismiss his officers. It was said that in three weeks' time all Africans must be liable to compulsory communal labour for the benefit of the community. It was said that in three weeks' time all Africans must be liable to compulsory communal labour for the benefit of the community.

Berlin rations may end The West Berlin City Administration has announced that it will be unable to continue to receive its rations from the West and that it will have to turn to the East for its rations. It was said that in three weeks' time all Africans must be liable to compulsory communal labour for the benefit of the community.

## WEATHER FORECAST

The East African Meteorological Department's forecast for the coming week says that little change is expected in the weather for the next few days, but that the weather will gradually with the approach of a large anticyclone from the South Atlantic Ocean. The weather is expected to be generally fair with some showers, but the sun will be out for most of the day. There will be a slight increase in temperature towards the end of the week.

**Regional forecasts:**  
**Kenya:** Partly cloudy, with some rain in the north and west. The weather will be generally fair with some showers, but the sun will be out for most of the day. There will be a slight increase in temperature towards the end of the week.  
**East Africa:** Partly cloudy, with some rain in the north and west. The weather will be generally fair with some showers, but the sun will be out for most of the day. There will be a slight increase in temperature towards the end of the week.

## EUROPEAN LEADER SAYS 'THIS IS THE ROAD'

### Kenya policy aims explained at Eldoret

Members of the Eldoret branch of the Royal Society of Kenya, who gathered for their festival on Friday, April 28, were addressed by Mr. George and Mrs. Stuart in the evening. Mr. George, who is the European leader of the Royal Society of Kenya, explained the policy of the Government towards Kenya. He said that the Government's policy was to develop Kenya as a self-governing country, with a view to its becoming an independent State. He said that the Government was doing this by providing the necessary facilities for the development of the country, and by encouraging the growth of the local industries and commerce. He said that the Government was also doing this by providing the necessary facilities for the education of the people, and by encouraging the growth of the local professions and businesses. He said that the Government was also doing this by providing the necessary facilities for the improvement of the roads, the railways, and the ports, and by encouraging the growth of the local agriculture and fishing industries.

### The Indians

Similar to what was expected to be the case with the British, the Indians in Kenya are being organized and led by a small group of men who are being trained by the British. This is a result of the fact that the British have been unable to find enough of their own people to run the country. The British have therefore had to bring in Indian labor and other workers from other parts of the world. This has led to the formation of a small group of Indians who are being trained by the British to run the country. This group is known as the 'Indian leadership' and is being trained by the British to take over the running of the country when it becomes independent.

### Church Notices

**ST. PAUL'S CHURCH:** Services at 11.0 a.m. and 6.0 p.m. every Sunday. Sunday School at 10.0 a.m. every Sunday. Services on Wednesdays and Fridays at 6.0 p.m.

### Indian policy

In Kenya, the policy adopted by the British Government towards the Indian population has been to encourage them to settle in the country and to develop the local industries and commerce. This policy has been successful in many ways, and it has led to the growth of the Indian population in Kenya. The Indian population is now one of the largest in Kenya, and it is playing an important part in the development of the country. The British Government has also encouraged the Indian population to settle in the country, and this has led to the growth of the Indian population in Kenya.

### Church Notices

A typically bad handicapper's prediction. The horse shown on the right is the one that is being ridden. The horse shown on the left is the one that is being ridden. The horse shown on the right is the one that is being ridden.

**The road to better golf without tears**

By BILL COX  
 Don't play. Keep your head down. Slowly club. Don't drop your right shoulder.

You have all heard them. These catch phrases which have become part of the special language of golf. But what do they mean? It is my experience as a player and teacher that they are the greatest cause of confusion in the game. They are the cause of the "tears" that many players shed. They are the cause of the "tears" that many players shed.

**Shoulder must drop**  
 Don't drop your right shoulder. Keep your head down. Slowly club. Don't drop your right shoulder.

**Head must stay back**  
 Keep your head back. Don't drop your right shoulder. Keep your head back. Don't drop your right shoulder.

**Club must swing freely**  
 Swing your club freely. Don't drop your right shoulder. Swing your club freely. Don't drop your right shoulder.

## KENYA'S INVITATION TO THE I.F.A.P. CONFERENCE

**"SIBERS"** **CORRESPONDENT** **"MAKING"**

**MR. WILL EVANS**, President of the Kenya National Farmers' Union, told members of K.N.F.U. Area Branch 2 (Haji Gishu), meeting at the Hill School, Eldoret, that for some time he had considered that it would be a good thing if the International Federation of Agricultural Producers held its first annual conference in Africa and if possible in Kenya.

He said that so far I.F.A.P. conferences had almost been held in the old countries, while subjects under discussion so often concerned the new countries. He therefore intended at the forthcoming conference of I.F.A.P. in Stockholm in June to use an invitation for the next conference to be held in Kenya.

Mr. Evans' remarks were out of a report which he presented to I.F.A.P. about the recent visit to Kenya of the Hon. Sir G. H. G. O. O'Brien, Secretary of the United Nations Food and Agricultural Organisation. He pointed out that Mr. O'Brien had stated the importance of farmers' needs being more clearly recognized by Government, especially so far as prices—and the price of beef, in particular—was concerned.

Mr. Evans said that he thought it was important that this problem should be appreciated by the outside world, and in connection with this he stated that Kenya's membership of I.F.A.P. was very valuable.

**Saw the Governor**  
A week ago he continued, he had reported the Member for Agricultural and Livestock to the Government and also an I.F.A.P. conference in Kenya. The Government had received the suggestion that such a conference should be held in Kenya, and Mr. Evans said that he had also reported the suggestion and had told Mr. Evans that the Government was forwarding the invitation at the moment.

Mr. Evans added that one thing that distinguished the conference was the potential membership of the I.F.A.P. was very valuable, and he pointed out that the Government was very anxious to have a conference in Kenya like that.

**"Advertisement"**  
Mr. Evans said that one in Kenya should therefore stress for and make sure of a percentage membership of the I.F.A.P. committee with other countries.

It was felt that on I.F.A.P. conference would be an excellent opportunity for Kenya's representatives to show in different countries, both to get across the world market, and to get across the world market, and to get across the world market, and to get across the world market.

Mr. Evans said that it was his hope that Kenya's agriculture would be only through the diligent powers that had been able to get across the world market, and to get across the world market, and to get across the world market.

**Wheat Price**  
Major J. Kagame, reported on the state of the market of wheat growing in the Member for Agriculture and Livestock. The delegation had requested the amount of wheat that had been brought to the market in the week and had to arrange a means of first crop because of rain.

Mr. Ward said that he hoped that members of this particular branch, representing the largest wheat-growing area, would be possible to supply correct cost figures. There were certain known figures such as full prices and so forth, affecting the structure but figures adding certain other factors such as labour and weather conditions could only be supplied.

## "RIGIDAL" CORRUGATED ALUMINIUM SHEETS

(THE BRITISH ALUMINIUM COMPANY LIMITED)

FIVE POINTS TO REMEMBER WHEN PURCHASING ALUMINIUM SHEETS

<b>DURABLE</b> Resists corrosion, rust, and fire. Long life.	<b>HIGH TENSILE EFFICIENCY</b> Strength and stiffness.
<b>EASY TO MAINTAIN</b> Does not require painting.	<b>WELDED JOINTS</b> Strong and permanent.
<b>NON POLLUTABLE</b> Does not pollute the atmosphere.	<b>VERSATILE</b> Used for many purposes.

THESE ARE JUST FIVE REASONS WHY YOU SHOULD BUY RIGIDAL. WHEN PURCHASING CONSULT AN EXPERT.

Newman's totally enclosed motors are available in all parts of the world. They are built to last and to give you the best performance in any of the most difficult jobs.

# MAIZE GROWERS CRITICISE GRADING SYSTEM

STRONG condemnation of the present system which allows the buyer of their produce—the Marketing Board—their produce, came from maize-growers at a meeting of the Kenya National Farmers' Union, held on Friday night last.

The question of a storage risk allowance and delivery prices for grading were the subjects of some discussion during the two days' meeting.

Mr. I. Serrill said that the rules for grading of maize were so designed in 1937 as to encourage the farmer to produce the highest quality of maize possible. The Production Commission then was set up and when the prices were guaranteed—came into force there was nothing in the way of the risk in the present system. The maize was sold to the Government and the Government would be liable for the storage risk.

### 'Secret letters'

After dealing specific matters the existing rules Mr. Serrill stated that the Government would have to review its policy on the maize grading system. He said that he had written a letter to the Director of Marketing Board, Mr. J. W. N. Hume, in which he stated that the Government was fully aware of the difficulties of the maize grading system and that it was a matter of internal re-organisation which the Government had to consider. Mr. Serrill said that he had written a letter to the Director of Marketing Board, Mr. J. W. N. Hume, in which he stated that the Government was fully aware of the difficulties of the maize grading system and that it was a matter of internal re-organisation which the Government had to consider.

### Autocratic

Mr. E. H. Vain said "What I object to is the autocratic method of the Marketing Board. He said that he had written a letter to the Director of Marketing Board, Mr. J. W. N. Hume, in which he stated that the Government was fully aware of the difficulties of the maize grading system and that it was a matter of internal re-organisation which the Government had to consider.

## Airfields help British farming

**AIRFIELDS in Britain still cover a large area, but so do the land in other parts of the world. The fact that it is so important to the production of food crops in this country is being proved by the fact that the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries.**

During the period of peak production of food crops, the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries. The fact that it is so important to the production of food crops in this country is being proved by the fact that the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries.

## FOOD PROSPECTS BETTER IN TANGANYIKA

The main Malindi crop report for the period of the year 1952-53 is a further one of the series of reports which are being prepared by the Tanganyika Agricultural Department's crop reports for Malindi.

The report is a further one of the series of reports which are being prepared by the Tanganyika Agricultural Department's crop reports for Malindi. The fact that it is so important to the production of food crops in this country is being proved by the fact that the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries.

## Good progress

Indications were that satisfactory progress was being made on all fronts in Malindi during the period of the year 1952-53.

The report is a further one of the series of reports which are being prepared by the Tanganyika Agricultural Department's crop reports for Malindi. The fact that it is so important to the production of food crops in this country is being proved by the fact that the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries.

## Sotik stock owners review the year

The annual general meeting of the Sotik Stock Owners' Association was held in Malindi on Friday night last.

The report is a further one of the series of reports which are being prepared by the Tanganyika Agricultural Department's crop reports for Malindi. The fact that it is so important to the production of food crops in this country is being proved by the fact that the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries.

## 'Safety Valve'

Mr. M. H. M. M. said that the Government was fully aware of the difficulties of the maize grading system and that it was a matter of internal re-organisation which the Government had to consider.

The report is a further one of the series of reports which are being prepared by the Tanganyika Agricultural Department's crop reports for Malindi. The fact that it is so important to the production of food crops in this country is being proved by the fact that the United Kingdom's leading agricultural machinery manufacturers are producing a great deal of machinery for export to other countries.

### AFRICANS URGED TO DO MORE FOR THEMSELVES

A WARNING about the proper use of the laws was given to Nyamya Africans when Mr. B. B. Chigona, African Member of Legislative Council, addressed mass meetings during a tour of East Nyamya. The law, said Mr. Chigona, belonged not merely to the future generation.

He said that Government officers should have to accept the responsibility for persuading or forcing Africans to care for their land. The reverse ought to be the case.

Africans throughout Kenya should cut on the individual advice given. More than half Nyamya produce more than half the land's produce. At the same time, it produced more than half the income. The Government should set up a committee to study the problem and set up a body of eight or ten members to look into the situation. Mr. Chigona said that the Government should give Nyamya more power in Nyamya as well as regions throughout Kenya. The Government should be prepared to share with the production and soil conservation was becoming absolutely difficult.

It was becoming absolutely necessary, said Mr. Chigona, that Government should step in and give all assistance necessary. Agricultural loans for large-scale Africans. Mr. Chigona said that the Government should provide twenty of the most modern and complete tractors for use in the region. The Government should give Nyamya more power in Nyamya as well as regions throughout Kenya. The Government should be prepared to share with the production and soil conservation was becoming absolutely difficult.

### THE "RIDGAL SHEETLIGHT"

(A PRODUCT OF THE BRITISH ALUMINIUM CO.)

After the production of the Ridgal Corrugated Sheet, The British Aluminium Company Limited developed and produced the "RIDGAL SHEET LIGHT".

This Sheetlight has successfully undergone severe loading and waterproof tests and is supplied with glass wired reinforcement of P. material thickness. A main feature of the new design is in the solution of that most difficult problem of sealing. With the "RIDGAL SHEETLIGHT" this is easily overcome as the closing is done from the outside of the roof, thereby obviating the erosion of concrete, interior scuffing.

## Wedding fashions: skirts are shorter and colours are mixed

The London version of the summer frock is now on the fringe and is very youthful-looking. The straight skirt is worn in relation to the waistline and is a simple, clean-cut affair. The play of the line is a major curve of the skirt. The skirt gives the effect of a long, straight line. The skirt is made of a light fabric and is worn with a simple, clean-cut top. The skirt is worn with a simple, clean-cut top. The skirt is worn with a simple, clean-cut top.

ELSA M SANDERS' London letter talks of the renaissance of bows, bangs, and old girl brooches. These are some of the latest trends in fashion. The article discusses how these classic elements are being reinterpreted in modern designs. It mentions the use of bows on dresses and blouses, the resurgence of bangs in hairstyles, and the popularity of old-fashioned brooches as accessories.

These days brooches that were once considered old-fashioned are now being worn as fashion accessories. They are often used to cinch waists or as decorative elements on dresses and blouses. The article also mentions the popularity of bangs, which are being worn in a variety of styles, from straight to wavy. Finally, it discusses the use of bows, which are being incorporated into a wide range of garments, from simple dresses to elaborate evening wear.

## SERVICE IS HER MOTTO

Miss Andrews in action in one of her many errands. The article describes how Miss Andrews, a busy woman, manages to handle a large number of errands efficiently. She is shown in various settings, from the grocery store to the post office, always with a determined expression. The article highlights her organizational skills and her dedication to her duties. It also mentions her ability to multitask and her positive attitude towards her work.

# FRONTIER PROBLEM FOR A TEA PLANTER IN ASSAM

THE PARTITION of India created many anomalies, and JHAN HUGHES tells of what happened when the India-Pakistan boundary ran through her husband's tea garden.

ONCE upon a time, life on a tea plantation in Assam was very different from what it is now. The Garden in Assam was a large estate, and it was owned by a European firm in Kalyana. The tea was grown on a hillside, and the garden was a large one. It was a very fine garden, and it was a very profitable one. The tea was sold to the British, and it was a very good tea. The garden was a very important part of the life of the people in Assam.

Half and half  
G. at one registered a packet in the nearest quarters. "How," he demanded resolutely, "could he be expected to turn a few garden when half the bushes were in India and half in Pakistan... While the factory itself was in India, the tea was being left in the hands of the British."

Use Jack  
In an English from 1947-47, and I returned India again. The tea was a very important part of the life of the people in Assam. The garden was a very important part of the life of the people in Assam. The tea was a very important part of the life of the people in Assam.

Swordstick?  
Upon one never-the-less occasion, had the District Commissioner of the Province, who was in charge of the tea gardens in Assam. The tea was a very important part of the life of the people in Assam.

"Very dangerous"  
Sometimes when I tell that I should like to see a little bit of India, I used to take my evening walk through the garden. The tea was a very important part of the life of the people in Assam.

Keep Fresh in AEREX  
The ingenious weave of this British cotton keeps you dainty and fresh in the heat. The air contained in the tiny cells of the silky fabric insulates the body yet allows it to breathe. You will enjoy the smooth figure-hugging fit of AEREX Union and on top, one of the trim attractive AEREX Blouses.

Your mirror can't tell you what's wrong!  
You're lovely now, says your mirror. But it can't tell you that your bath only washed away your perspiration. Play safe. Be sure. After your bath, use MUM guard your charm all day or evening. MUM does not stop healthy perspiration, but stops every trace of odor. MUM...

PUT SAFETY FIRST... USE MUM  
MUM is the answer. MUM is the answer. MUM is the answer. MUM is the answer. MUM is the answer.

Pickers on their way

ABOVE—A group of pickers carrying the typical baskets used in Assam on their way to the garden. RIGHT—An Indian woman picks at work.

Three weeks late  
I spent three weeks in the tea garden. The tea was a very important part of the life of the people in Assam. The garden was a very important part of the life of the people in Assam.

"Very dangerous"  
Sometimes when I tell that I should like to see a little bit of India, I used to take my evening walk through the garden. The tea was a very important part of the life of the people in Assam.

FIRST AID for Muscular Aches  
Alka-Seltzer brings pleasant relief. The same safe analgesic that relieves headaches so quickly cures Alka-Seltzer in being quick on the feet in muscular aches and soreness. Dissolve one or two Alka-Seltzer tablets in a glass of water. Watch it work. Then drink it down. Here is reliable First Aid—pleasant to take. Use a package handy. Not a narcotic.

Alka-Seltzer

# A NEW AUTHOR WITH A SENSE OF COMEDY

**SCENES from "The Queen's Comedy"**  
Life in a novel by William Cooper. What is the reader to expect in a book with such a title and by a new author? We may think perhaps of Jane Austen or Elizabeth Field or Elizabeth Thurston. The title may mean anything from an epic of modern suffering to an engaging gossip novel. But in this case, the author is a new one, and the book is a study of mankind and his behavior in a comedy.

**Very amusing**  
The author is a new one, and the book is a study of mankind and his behavior in a comedy. It is a study of mankind and his behavior in a comedy. It is a study of mankind and his behavior in a comedy.

# THE ENDLESS CHATTER OF THE NIGHT

Of the wardens of Kenya's National Parks the hour of the night is the best time to communicate with each other during the toll of darkness.

An interesting experiment in this way with perfect was carried out recently by the warden of the national park. The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

The warden of the park, who is also the warden of the park, was the warden of the park. The warden of the park, who is also the warden of the park, was the warden of the park.

# A NEW AUTHOR WITH A SENSE OF COMEDY

SCENES from Prevalent Life is a novel by William Cooper. What is the reader offered from a book with such a title and by a new author? One may think perhaps of Jane Austen or Thackeray or Flaubert or Tolstoy, High Walpole or Angela Thirkell. The title may suggest anything from a comedy of manners to a serious study of the human condition suffering from an engaging plot around the trap-cups.

The title novel is not quite anything new which has not been written before. It is a comedy of manners, but it is a comedy of manners with a difference. It is a comedy of manners with a difference. It is a comedy of manners with a difference.

It is a comedy of manners with a difference. It is a comedy of manners with a difference. It is a comedy of manners with a difference.

It is a comedy of manners with a difference. It is a comedy of manners with a difference. It is a comedy of manners with a difference.

It is a comedy of manners with a difference. It is a comedy of manners with a difference. It is a comedy of manners with a difference.

It is a comedy of manners with a difference. It is a comedy of manners with a difference. It is a comedy of manners with a difference.

It is a comedy of manners with a difference. It is a comedy of manners with a difference. It is a comedy of manners with a difference.

THE HEAT CONTROLLED IRON

No. 5

**Obtainable at Dealers:**

**SOLE IMPORTERS:**  
THE AFRICAN MERCANTILE CO., LTD.  
(Incorporated in England)

With this "New" Iron, the correct temperature for use on Rayon, Wool, Silk, Cotton or Linens are selected by dialing and accurately maintained by thermostatic control during the period of use. The unadjustable soleplate, which is hot right to the other edge, glides smoothly over the material and is especially shaped to allow for ironing around buttons and over pleats — also to move backwards as easily as forwards. The unbreakable hole is finished in Primrose Vintage Bismut, and the sleek rounded traditional handle handle is heat-resisting and best looking.

# PRESIDENT TRUMAN AT 66 IS FIGHTING FIT

WHEN America's President, Harry S. Truman, began his sixth year of office earlier this month he was on the eve of his 66th birthday and will be 69 on May 6.

For Truman, an American history have had a more strenuous life. Yet those who see Mr. Truman daily agree that he appears as fit as when he served in the 28th Infantry Division in World War I.

He weighs 170 pounds, which is not too heavy for his age. He gets up at 6:30 a.m., has a shower, and then a very morning walk through the grounds of the White House. He goes along at the ordinary pace of 120 steps a minute, and he wears his own pair of sneakers, and 130 lbs. later at the end of a hard day's work, the President appears fresher and more vigorous than most men of his age.

He still attends himself and his work offers a partial explanation.

"The job of President can break you back if you let it," he told a friend last week. "I don't let it get me and refuse to worry."

President Truman sits at his desk in the White House. He is seen in a moment of quiet reflection, surrounded by the bustle of the executive branch.

### Heavy duties

He has a very capable staff applying his mind and his energies on an average of 18 hours a day and his mind is not getting any older. He is not getting any older, he says. The result is that nothing makes him nervous or upset.

The duties and responsibilities of America's President have increased since the founding of the Republic. The hours of his work are more than 100 hours a week, more than directly to the President.

When discussing the President's duties, Truman emphasizes the fact that he is the head of the country, not a man. He is an ideal man to work for, he says. He has been described as a "friendly" man.

### Member's note

Truman's health is growing steadily better. He is now able to work for 18 hours a day. He is now able to work for 18 hours a day. He is now able to work for 18 hours a day.

### The tidy desk

This tidiness is reflected in the cabinet of his White House. The desk is a masterpiece of organization. It contains a special section for instructions which the president gives his secretaries, aides and principal assistants at the daily staff conference. The notebook of the President enters under each Cabinet member's name.

### Disputes

The White House is not a place of constant disputes. Truman is known for his ability to resolve conflicts. He is known for his ability to resolve conflicts. He is known for his ability to resolve conflicts.

### IRISH NEWS LETTER

(Continued from page 15)

#### Bombs, arrests and disputes

The border, although his Sinn Féin has been outlawed, is still active. The border is still active. The border is still active.
