## Production Conference: Farming debts to be investigated

LAST week's Production Conference in Nairobi, supporting the idea of the Kamukia Reserve should be made by an extension of the Soloi branch railway line into the Reserve.

The Kamukia District Council's recommendation that a stock fence be erected in the Kamukia Reserve should be made by an extension of the Soloi branch railway line into the Reserve.

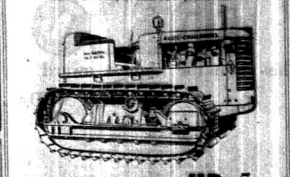

The District Council's recommendation that a stock fence be erected in the Kamukia Reserve should be made by an extension of the Soloi branch railway line into the Reserve.

## Soloi rail extension as stock route

The proposal to extend the Soloi branch railway so as to provide a stock route from the Kamukia Reserve was discussed last week at the Production Conference. Sir Frank Wilson, president of the Kenya Agricultural Union, said that the proposal was a very important one and that it should be given the highest priority.

# SOME SUGGESTIONS FOR SCOTS IN EXILE

**Normally**, when penning these lines, your Chronicler is accustomed to divide his attention equally between the business of writing and the business of keeping warm enough to write.

This week, however, for once it is the distraction that is provided by the weather which has to be considered. It is indeed a welcome change to find five columns of weather news in the winter. It is indeed a welcome change to find five columns of weather news in the winter. It is indeed a welcome change to find five columns of weather news in the winter.

With traditional ceremony the opening of proceedings of the General Assembly of the Church has taken place in Edinburgh recently. The Rev. James M. Gillies is seen in the foreground.

**Assembly retrospect**  
THE impressions left by this year's General Assembly is that of a meeting which was dignified and energetic to a degree that is not often met with in such a little country. There was a sense of purpose and a sense of unity that was not only felt but also expressed in the way that the Assembly proceeded.

**Leith airport**  
THE plans (mentioned in a former column) for the development of a new airport at Leith in the form of a weekly flying bus service have now been approved by the Leith Harbour Board. The service will cater for about 100 passengers arriving either by ship or by air.

# THE ST. JOHN AMBULANCE ASSOCIATION

THE St. John Ambulance Association is organizing a Colony-wide drive for members and donations during the week of June 18th to 23rd, following the custom in the United Kingdom.

On June 24th at St. John's Hospital, Nairobi, it was remembered that over 200 years ago the Knights of St. John, a small hospital and dispensary were founded in Jerusalem. The St. John's Ambulance Dispensary, which provided first aid and nursing, was founded in 1871. This was taken over by a certain number of St. John's Ambulance men who were then known as the St. John's Ambulance Association.

**Year's progress**  
Much progress in Kenya has been made during the past year, both in the building of the Association and on the practical side. The St. John's Ambulance Association has been successful in securing the services of a number of trained nurses and other personnel. The Association has also been successful in securing the services of a number of trained nurses and other personnel.

**Public support**  
St. John's Week will be a very successful one. It is hoped that the public will support the various activities which will be held during the week.

PARIS INTRODUCES  
FASHION  
NOTES

COPIED DESIGNS ARE  
TOO EXTREME

British designers fail to combine suitability and style when they slavishly copy Paris trends, says  
ELSA M. SANDERS in her London letter.

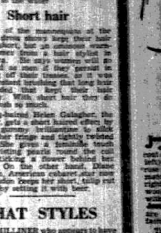

Will follow Paris and a copy which is not a copy. The dress is a copy of the original design.

This is the second year that the fashion magazines have been in London, and for overseas buyers it is a matter of course that they should be in the hands of the model at the moment when the fashion magazines are in the hands of the manufacturer. It is a matter of course that they should be in the hands of the manufacturer.

# ANIMALS THAT ONLY COME OUT AT NIGHT

MANY of the residents of our National Parks are almost entirely nocturnal in their habits, and so are seldom seen by visitors. It is true, however, if it is a case of a nocturnal creature may be seen at dusk or in the early dawn.

Perhaps the most common of these animals, or at least the one that is most numerous, is the bushy-tailed woodrat. It is a small rodent, and is very active at night. It is often seen in the early dawn, and is very active at night. It is often seen in the early dawn, and is very active at night.

With eyes that could see in the dark, we would be able to watch the parades of weird animals that walk by night, writes one of the wardens of Kenya's National Parks.

The tall is broad leaved, and is very common in the early dawn. It is often seen in the early dawn, and is very active at night. It is often seen in the early dawn, and is very active at night.

The tortoise, or spring hare, is a small rodent, and is very active at night. It is often seen in the early dawn, and is very active at night. It is often seen in the early dawn, and is very active at night.

It is completely harmless, and is very active at night. It is often seen in the early dawn, and is very active at night. It is often seen in the early dawn, and is very active at night.

Revolving agent. The tortoise, or spring hare, is a small rodent, and is very active at night. It is often seen in the early dawn, and is very active at night.

## NEW BOOKS FOR AFRICANS

On April 1947 the East African Governments took the first step in implementing certain recommendations for literature provision for Africans made by Mrs. Elspeth Huxley in 1946.

An Advisory on Literature for Africans was appointed, and during 1946-47 the Advisory Committee held several meetings in Nairobi and Mombasa.

The fact and animal are long and thick legs, and are very active at night. It is often seen in the early dawn, and is very active at night. It is often seen in the early dawn, and is very active at night.

## HUNTING FOR TREASURE

### TROVE OF £125,000,000

Near one of the most romantic cities of Pakistan is reported to lie gold and jewels buried by Alexander the Great during his march of conquest through India. W. ROBERT FORAN tells of the search for this fantastic treasure and of a visit he made to the shrine of a million saints in the town of Uch.

"SALAM, SAIBI!" was my greeting on arrival at the little town of Uch in Bahawalpur State of the Punjab. It was met by a prohibition not lightly ignored. "Please take care. Every inch of this spot is holy ground. A saint lies buried at every step about."

### Entertainment news from London

(Continued from page 1)

admirer this sense of dramatic opportunity is a special benefit which the nation treasure goes without saying. Yet this was not actually done by personal interests or even close view of his instincts were very keen and his instincts were very keen and his instincts were very keen.

#### Alexander's march

The legend dates back to the time of Alexander the Great in 325 B.C. He was returning from India to Persia. He was returning from India to Persia. He was returning from India to Persia.

#### Among the tombs

The exact location of the reported treasure is believed probably to be in the vicinity of Uch. The search of his whereabouts has been a matter of much interest.

#### Fewer but better

MR. SAM GOLDSTEIN, who after 22 years of happy marriage has just been divorced, says that the new divorce law is a very good one.

#### Where is Ophir?

The fact that the real Ophir is in the East is a very interesting discovery. It is a very interesting discovery. It is a very interesting discovery.

## Much Backache due to the Kidneys

Don't worry about feeling depressed, tired and generally out of sorts

IT IS COMMON KNOWLEDGE that the kidneys are the most important organs of the body. They filter out the waste matter from the blood and excrete it in the form of urine. If the kidneys become diseased, the waste matter accumulates in the blood and causes various symptoms, such as backache, headache, and general depression.

## SOUTH KOREAN DEFENDERS ARE STILL FALLING BACK

### U.S. soldiers wounded by fighter planes

**THE** South Korean front, Syngman Rhee yesterday warned that there was "little hope" until the Americans sent heavy guns to the battlefield.

In an appeal from Troop, the central town in the Loosan Peninsula, he said: "There is little optimism for South Korea because we have no artillery. There can be little hope until heavy guns are supplied.

American aircraft were yesterday attacking the enemy rear area and killing 300 Chinese soldiers. The United States Air Force also reported that it had shot down a Chinese fighter plane. The United States Air Force also reported that it had shot down a Chinese fighter plane.

## N. Rhodesia debates the question of freeholds and leaseholds

THE Economic Secretary to the Government of Northern Rhodesia, Mr. Ralph Nicholson, announced on a motion put before the Northern Rhodesia Legislative Council that there should be a reversion of freehold tenure to the Government of the territory. He said that the acceptance of such a motion would involve a fundamental change in land policy which would have far-reaching consequences.

Mr. Nicholson said that the Northern Rhodesia Government had already on the occasion of a similar question being considered in 1943 in Kenya, made an expression of opinion. He said that grants of freehold land should be made on a case-by-case basis and that the Government should be prepared to consider a reversion of freehold tenure to the Government. He said that the Government was not in favour of a general reversion of freehold tenure to the Government.

## Views of U.K.

Continuing Mr. Nicholson said that the United Kingdom Government had already on the occasion of a similar question being considered in 1943 in Kenya, made an expression of opinion. He said that grants of freehold land should be made on a case-by-case basis and that the Government should be prepared to consider a reversion of freehold tenure to the Government. He said that the Government was not in favour of a general reversion of freehold tenure to the Government.

## Townships

Dealing with the question of townships, Mr. Nicholson said that he did not accept the contention that industrial enterprises had been or would be deterred from setting up in Northern Rhodesia by having to effect their establishment on leasehold land. He said that the fact had been held in his opinion that land had been held in this particular country. During the last year in Lusaka, 50 out of 60 new industrial plants had been taken up on leasehold.

## Select committee

Mr. Venetian, leader of the Opposition, said that he was glad that a Select Committee be appointed with terms of reference to deal with the question. He said that the Government was not in favour of a general reversion of freehold tenure to the Government.

## Kitale creamery

The board of the Kitale Creamery is meeting to consider the appointment of a new manager. He said that the Government was not in favour of a general reversion of freehold tenure to the Government.

# LABOUR IN EAST AFRICA WAS 'NEVER CHEAP'

Uganda's problems discussed at planners' annual lunch

Uganda planners were present in force for the annual lunch of the Imperial Hotel, Kampala, of the Uganda Planners' Association. The Acting President (Mr. Mulamba Malyani) welcomed the Acting Governor of Uganda and over eighty guests.

Labour problems occupied the attention of the Acting President in his address when he pointed out that existing recruiting regulations tended to restrict the flow of labour — which ought to play its full part in the economic development of the country.

Uganda was an infant country, she said, but the tremendous expansion of her economy before we got a proper and rational balance between employer and employed, and it will be a long time, said we have to let our employer and employed, out to work on their own joint salvation.

**No short way**

"I am sure I have no answer to the problem," said I could not understand. But I believe that there is a way out of this situation in the mechanization of agriculture that is possible and management — and the great of the matter is the 'man-management'.

"As matters control," the acting Governor added, "a number have been."

Ups and downs of the fashion code

A FASHION editor of a London newspaper has published a "Yearling" column. It shows the rise and fall of women's skirts from 1814 to 1930 and more or less proves they are likely to follow a satisfactory cycle of "bonnets and butterfly tails" the end of the year.

1814, for instance, they were worn four inches from the ground. This apparently was more than enough, as, in 1817, they had been reduced to three inches. "They were long and tall again, and all skirts were half-way between the two measurements."

After that, the skirts of 1819 had a low cut and long tails. From 1819 to 1823, the skirts were short and full. From 1823 to 1826, they were long and full. From 1826 to 1829, they were long and full. From 1829 to 1830, they were long and full.

Just to put it on record that bonnets have appeared in London in 1702, the fashion of the latter year.

PICNICS REPLACE PARADES ON THE FOURTH OF JULY

THE Fourth of July is the anniversary of the signing of the American Declaration of Independence in 1776. In a few sections of the United States this patriotic holiday is celebrated in the traditional manner, with parades and fireworks, but the celebration has changed considerably in the past 70 years.

The old-time Fourth of July began as a series of picnics and games in the woods of the New England colonies, and as the years passed, the program of the day included military parades, speeches, and band concerts.

Today, however, there usually is a public reading of the Declaration of Independence, which sets forth the reasons why the 13 original American colonies sought freedom to manage their own affairs.

The outward observance of the day has lost the martial character that it had in the early days of the Republic, but the spirit of the Fourth of July is still patriotic and the patriotic programs are devoted to the story of the Declaration of Independence.

Early preparations for the Fourth of July are usually begun in the middle of June, when there are many picnics in the parks and in almost every family where there are children, this midsummer holiday is associated with the light-hearted experience of picnicking, walking, swimming, hiking, or river boating, or to a park or under the shade of a roadside tree.

Why friendly relations are kept a secret

THE amity of much of the Anti-Partition campaign became clear recently when the agreement between the Northern and Southern Governments made reference to the Government of Northern Ireland in a vague regime, which the Republic cannot recognize.

Cooperation between the two Governments is a necessary condition for the maintenance of friendly relations, without a common front, the two Governments would be unable to carry out their own part of the two-part program in the North.

These friendly relations must however be public relations, but kept as secret as possible in both parts of the island.
