500 TONS OF FOOD FOR PORT HARCOURT

Red Cross relief supplies and personnel are to be moved to Port Harcourt, Nigeria's Rivers State capital, it was announced in Lagos.

Port Harcourt was captured from the Biafran forces in May by a major supply center for the Biafran army.

The Red Cross Relief Co-ordination Centre in Lagos said that after an agreement with the military authorities a mixed team of expatriate and Nigerian relief workers would be sent to Port Harcourt to help with the relief work.

The weather

Forecast for Nairobi: Partly cloudy with light rain. Temperature: 15°C to 25°C.

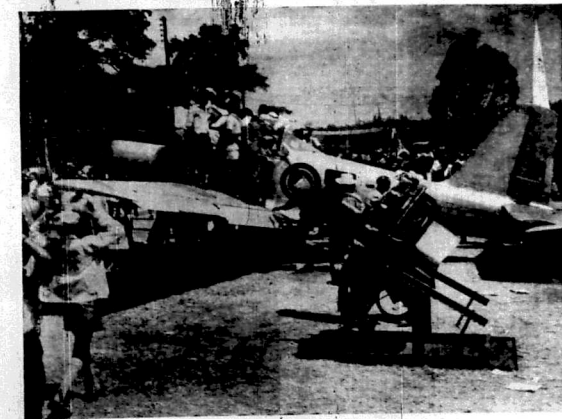

The main arena presented a fine spectacle as various classes of cattle were readied for inspection.

LEFT: People thronging the avenues of the Show made way and stood watching this fine line of cattle from the Dutch stand make its way to the main area of judging.

BELOW: The Kenya Air Force must have been willing to make sacrifices when it allowed one of its piston-engined training aircraft be sent to the show. From early in the day until the evening people of many age groups crowded around it, clinging on both wings and the fuselage and getting into the cockpit, despite the sign which read "Do not stand on wing. This is no step." The object in the foreground is a radial engine stripped down so that members of the public could easily examine it.

Above: Mike Dwanter takes a jump on Country Girl on his way to victory in the adult class. Formerly competitive jumper. Left: Victoria Whelan on Putschella and John W. E. Phipps on Arabella visit with Maj-Gen. Southwood after winning the horse and pony pair event.

From minis to maxis

A short time ago, the question of minis was raised in Kenya's National Assembly when the Chief Government Whip would a variation of the "immense" 1 spay strainers?

In effect, Mr. Shikuku had spool knees in the disarranged guests' gallery. Saying the shortest, mini-kick he had ever seen was worn by a lady sitting there, he asked the Speaker for a ruling on what dress visitors should wear for the occasion. The Speaker admitted the subject was open for a ruling, but the length of women's dresses has never been determined.

Some time before this incident, India's House of the People debated whether an amendment for a "see through safari" was obscene, but came to no decision. All over Africa concern is rising over the intrusion of Western dress styles, and especially revealing minis and bikinis.

In Malawi, one of the signatories where minis are banned, the definition of a bikini's length is one which "when standing, must touch a point well below the knee in front and below the knee at the back." Never mind the whims of visitors, of the value of the tourist industry, and foreign girl seen wearing a skirt will be asked to leave at once and shops where skirts are sold are to be closed.

A GLIMPSE INTO LIFE IN SPACE

One of the most popular exhibits at the stand of the United States was this lifelike mock-up of a Gemini space capsule, with models inside of two astronauts.

Visitors were handed two miniature sheets of information about the Gemini flights before mounting seats in the Gemini space capsule, with models inside of two astronauts.

It was explained that the tiny "model" was a life-size model of the Gemini space capsule, with models inside of two astronauts.

Biafran guilt in Nigerian civil war

I refer to your editorial comment on Nigeria, published by the eighth independent anniversary.

First, I should compliment you for the fair and objective thinking on which the comments were based, despite international propaganda depicting Biafran authorities as "evil."

The so-called Biafrans is about to be a Biafran. Biafran defect, having led nearly 70 per cent to Biafran. What is the Biafran? The question demands a brief, realistic, and honest history of the country being considered.

Nairobi's cinema screens back to normal on Friday

Standard Staff Reporter.
Nairobi's main cinema is preparing to screen on Friday their first films under the new arrangements between the Kenya Film Corporation and the Motion Picture Export Association of America.

Seven films, all from the M.P.E.A. studio, will be seen for the first time in Kenya in open cinemas, and two others—both very recent—will be brought back for the reopening of the Takko Road Drive-In. The titles, and some forthcoming attractions, were announced yesterday by the general manager of K.F.C., Mr. Neville Sprague.

The first film to be shown, which has been cleared all round, will be the comedy drama of the first world war, starring George Forman and an armed African gang which separated from him and went to live as a peasant folk who grew divided in all directions.

Soften Those Forehead Lines

Eliminate the smooth serenity of your forehead by firmly covering a film of vitalising night cream into the skin from back to hairline, using the fingers of both hands in upward movements. Now, placing the thumb on the centre of the forehead with fingers interlocked, pull the fingers apart, so that the film vitalising night cream is smoothed across the forehead to ease deep-set vertical lines.

Two Tsavo luxury lodges nearly ready

Top: A group of Kenya Forest officers, who were invited this week to see the new project at Kenya Safari Lodges and Hotels Ltd. Below, left: look out over the rolling plains which fall away from the Ngulia Safari Lodge.

A £10,000,000 tourist project built by Kenya Safari Lodges and Hotels Ltd. was unveiled to Kenya tour operators in Tsavo National Park this week.

Part of the project was luxury safari lodges overlooking the lion game plain of Ngulia and Voi are almost completed and are expected to be two of the finest tourist attractions in the country.

The general manager of Kenya Safari Lodges, Mr. Y. M. Mweya, said: "We have already been inundated with bookings for the new lodges — and they are not even finished yet."

Lufthansa, BOAC and Pan American airlines are among the shareholders of the company which is also building the Mombasa Beach Hotel at Ngulia, 30 miles from the

national park from Molo. And the Ngulia Safari Lodge stands on a natural rock platform among the picturesque hills looking down over the rolling scrubland which teems with elephant and other game. Its facade of natural stone merges easily with the surrounding hills.

Waterfalls have been installed at several points within easy photographic distance of the lodge bedrooms.

Although building is still going on around the main lodge, the dining rooms and bars and the swimming pool have not to be built and fittings have to be

installed in the bedrooms. Mr. Mweya explained that the company was ahead of schedule and the lodge would open on February 1, 1964.

"Service at these lodges will be first class and you will have a staff which most people can afford. It will be on a par with many hotels and lodges in Kenya — and cheaper than most," he said.

Ngulia's main lodge, the Voi Safari Lodge, which is only four miles from the Tsavo entrance, is built on a similar site. It is set high in the hills with the same panoramic views from the windows of the 50 double bedrooms.

Chance for statesmanship

What are the prospects of resolving the dispute between Rhodesia and Britain? Mr. Smith's strengthened leadership, put him in a better position to discuss negotiations with the British Premier.

Mr. Wilson, the rebel leader, Mr. Smith, are to meet in the near future. This is a hopeful sign. It is considered a hopeful omen that they should meet in the first week of October. The only difference in the choice of the date and the fact that Rhodesia is not in a state of crisis is that it is a sign of a new era.

The British Government should be reminded, and it is doubly well served by African representatives, that to depart from the principle of self-determination is to depart from the principle of self-determination.

During Mr. Botswana's visit to London, he was accompanied by his cabinet members. This was a significant step towards self-determination.

Whatever terms he gets from his arch-enemy are not likely to be accepted. He is a man of principle and he will not be swayed by expediency.

His internal Affairs Minister, Mr. Harber, was expelled along with several other members of the cabinet.

Since then, developments have strengthened his hands in being able to resist negotiations with Britain.

Despite the result of the Judiciary against the Privy Council, some liberalising measures have been introduced.

Drilling for Space Age mineral starts next week

Standard Staff Reporter, Mombasa
Drilling for the Space Age mineral niobium in Mirima Hills of Kwale District is to start next week. It was disclosed in Mombasa yesterday by M. D. S. de Lafont, who represents the firm of Pecheyne Saint-Gobain, which recently signed a two-year agreement with the Kenya Government. Niobium is a rare metallic element found in areas that

contain tantalum. This latter substance is a rare white metallic element highly resistant to heat and acid action. Niobium is similar and is used in Spacecraft, superionic planes and nuclear reactors.
Already about 100,000 tons of niobium has been established a camp in the location and work is being done on the preparation of a licence for the mineral. It was signed by the Ministry of Mines and Geology for Kenya Province from based in Nairobi. The agreement covers the exploitation of the niobium in the district. Niobium has been known for several years.

and most to bring the agreement to a final stage. The work will be done by a party made up of the Government and the private firm. The area and plans ready for the work are being done by the Government.
The initial drilling starting next week is to be carried out with hand drills and later a 200 horsepower drill will be used. A load of eight cubic metres of concrete will be used for the work. Guinea fears for banana exports

By A Special Correspondent, Abidjan

The export of bananas from Guinea has dropped at an alarming rate, according to a Government statement. The value of banana exports dropped from 41,000 million francs in 1962 to less than 42,000 francs last year.

The great banana plantation stretching from the Guinea coast to the foothills of the Fouta Djallon mountains, mostly owned by foreign investors, has been hit by French strikes. Their operations required a large number of labourers, whose main work after harvesting was to pack and load the fruit and loading it on to the specialised lorries for the ports of Europe.

With the advent of decolonisation the Republic of Guinea has been able to take control of the banana industry. The Government has taken steps to nationalise the banana industry and to improve the production of the fruit.

In 1962 the Guinea authorities held a conference of growers to draw up a new agricultural policy. This policy was to have given Guinea a banana export worth about 100,000 million francs in 1971. It now seems the country is far from reaching this goal.

With the advent of decolonisation the Republic of Guinea has been able to take control of the banana industry. The Government has taken steps to nationalise the banana industry and to improve the production of the fruit. In 1962 the Guinea authorities held a conference of growers to draw up a new agricultural policy. This policy was to have given Guinea a banana export worth about 100,000 million francs in 1971. It now seems the country is far from reaching this goal. The Guinea authorities plan to reorganise the production in the port of, through, and away and have often notified at the port factory.

Committee of farmers' co-op society removed

[Another cooperative society, the Mura Farmers' Cooperative Society in Kericho Central Province, has had its managing committee removed by an order of the Commissioner for Cooperative Development, exercising special powers conferred by the Cooperative Societies Act.

By the same order he has appointed a new managing committee of five and a majority of four. Their appointment will appear in a notice in this week's African Standard.

The order was made after extensive investigations, at a demand by 54 members of the society that the committee responsible for running the society's affairs was not performing its duties properly and should be removed.

Similar orders have been made in respect of the Horticultural Co-operative Union and the Nyanja Co-operative Farmers Co-operative Society.

The Commissioner, Mr. D. J. Nyanja, has explained that his statutory powers under the Co-operative Societies Act are exercised in order to ensure the proper management and control of the societies and that he has the right to remove any committee which is not performing its duties properly and to appoint a new one.

Mr. Nyanja said that he had received a petition from 54 members of the society who had the confidence of the majority of the society. They had complained that the committee was not performing its duties properly and that it was not taking any steps to improve the society's affairs.

Brudage is still the 'strong man'

Avery Brudage, the 81-year-old U.S. millionaire who won re-election on Monday as president of the International Olympic Committee...

In the Olympic organization he is admitted that he seems to thrive on turmoil and controversy. He has been president of the I.O.C. since 1962 and at the centre of every controversy that has blown up around the Olympics in 16 exciting years.

He went there to face and deny the only tragedy of his career - being fighting between students and police...

It is a time of turmoil, a time of change. It is a time of change that is being brought about by a group of men who are determined to change the face of the Olympic administration...

OLYMPIC GAMES

Challenge to Asian hockey supremacy

Olympic and world hockey supremacy, jealously shared between India and Pakistan since the title from Britain at the 1928 Amsterdam Olympics, will be hotly contested in at least one other country during the Mexico Olympic Tournament starting in Mexico City on October 13.

Top contenders, which swing from Europe to Asia in the last two weeks, have now reached its highest point and will inevitably swing back from East to West with the trace of its victory in Australia or Africa.

The hockey records since the last Tokyo Olympic Games in 1964 are impressive. India has won the Olympic title in Mexico City, the 1964 Olympic title in Mexico City, the 1964 Olympic title in Mexico City, the 1964 Olympic title in Mexico City.

But no sooner had these wondrous triumphs than the "friendly matches" degenerated into frayed nerves and rough play. The Indians were taking the game too seriously and the Pakistanis were working below the Olympic level.

Kenya athletes improve times

Kenya athletes have been doing consistently better than expected in their training since they arrived in Mexico City. They have been doing better than they were at home, and they are now showing signs of improvement.

Kenya's best runner, Peter Kariuki, has been improving his 5,000m time from 21:30 to 20:30. He is also showing signs of improvement in the 10,000m and 15,000m events.

Good business on big cinemas 'first night'

Standard Staff Reporter

Three of Nairobi's principal cinemas opened their doors for the first time since January last night to welcome thousands of eager picture-goers.

All of the dignitaries at the 20th Century Cinema in Nairobi were several Kenya Ministers, including the Minister for Education, Mr. Peter Gachagua, who recently successfully negotiated for the return of territory from the Kenyan settlers.

Also in the audience was Chief Justice M. R. Mwangi and Hon. Mr. K. Masanja, the Government Chief Education Officer.

The Minister of State in the President's Office, Mr. Kenneth Njiru, was one of the early arrivals at the theatre which was being *The God and the Heron*.

All were greeted with the reopening of the two cinemas, which brought to an end the year-long closure of the K.F.C. and the Motion Picture Export Association of America.

Commenting on the reopening, Mr. Gachagua said: "This returns to the country of high-quality entertainment."

First-nighters: From left, Mr. Spri, Chief Justice Mwangi, Mr. Kyalo Mwangira, Mr. Gachagua.

Following the conclusion of the agreement between the K.F.C. and the M.P.E.A., heralding a new era not only of international cooperation and understanding, but especially, the Kenya film industry.

"This gives us great hopes that the motion picture industry in Kenya will develop and grow from strength to strength."

It is to be hoped that the public will now take full advantage of the entertainment and recreation facilities available and that Kenya will take its place among other countries in providing top-quality entertainment for its people.

The manager of the cinema, Mr. Peter Gachagua, said that the theatre doors had been closed for a long time, although they had been opened for the first time since January last. He said that the cinema would be open for the first time since January last.

MINISTER PRAISES HOBBIES

Standard Staff Reporter

It was most important to the Minister for Education, Mr. Peter Gachagua, to take part in activities which would enlighten the masses of the country. He said during the Nairobi Exhibition at the City Hall.

A hobby had a healing effect on nerves frayed by the stress and strain of the modern world. It was a hobby, he said, which would give a person a sense of purpose, control, and achievement. He said that the most useful in earning a livelihood was in other activities which were detrimental to their health and well-being. He urged them to take up useful and health-giving activities.

The exhibition, the first organised by the City Council and the Government in the city, was organised by 25 schools. There were also private entries invited by the exhibition department.

First prize was won by a cake made by a girl from St. Theresa's school. Other prizes came in the form of models, arts and handicrafts.

Kenya's Minister for Education, Dr. Kioko, opened the Nairobi Exhibition at City Hall, Nairobi, yesterday and took a piece of his own advice. After encouraging youngsters to take up hobbies, he took one up himself and caused amusement as he tried out a guitar.

AFRICAN CRISES

1. Strong pressure on Britain over Rhodesia talks

From ARNOLD RAPIER, London Staff Reporter
British Commonwealth Office officials in London have been busy collating reports from U.K. representatives in the region of the Kenya, Uganda, Tanzania and Zambia governments to the re-assertion that there will be no 'sell-out' over Rhodesia in the Gibraltar talks between Mr. Wilson and Mr. Ian Smith.

President Kaunda of Zambia has been quoted as saying that he would not support the continuation of the political crisis in London. He has also been quoted as saying that he would not support the continuation of the political crisis in London.

2. Refugees accuse Biafrans

Another 20,000 being sent from Lagos
The Biafrans, Major General M. N. Nwankwo and his staff, are accused of having been the cause of the Biafran refugee crisis, mostly small children, who are being sent to Lagos.

3. S.A. MISSILES A THREAT TO ZAMBIA

A.F.P. report from Johannesburg
The announcement that South Africa is set to set up a missile base on the Natal coast is seen as a serious warning to countries north and south of the Orange River in Africa and in Zambia in particular.

There has been a flood of letters to the press since Mr. Wilson's Commonwealth Secretary said the time for any deal which is offered to Rhodesia is now. The Secretary said that the time for any deal which is offered to Rhodesia is now.

There is inevitably speculation as to whether some African States will quit the Commonwealth should the Government say that the Secretary will not negotiate with Rhodesia.

It is a common theme that the Biafrans had been the cause of the Biafran refugee crisis, mostly small children, who are being sent to Lagos.
